Summary information

Repository:	Dalhousie University Archives
Title:	Arthur Stanley Mackenzie fonds
Reference code:	MS-2-43
Date:	1881-1949, 1971 (date of creation)
Language:	English
Physical description:	1.3 m of textual records (10 boxes) [10 boxes] . - 3 photographs

Administrative history / Biographical sketch

Note

Arthur Stanley MacKenzie was an important figure in education in Nova Scotia for over forty years. He was born in Pictou on 20 September 1865, the son of George Augustus and Catherine Denoon Mackenzie. He was educated in public schools in Pictou, New Glasgow and Halifax before studying at Dalhousie, where he won the George Munro Bursary and exhibition and the Sir William Young gold medal and honours in mathematics and mathematical physics. He received his doctorate from Johns Hopkins University in 1894. In 1895 MacKenzie married Mary Lewis Taylor, of Indianapolis, who died one year later. MacKenzie subsequently raised their daughter, Marjorie, on his own.

MacKenzie taught at Yarmouth Seminary from 1885-1887. He was hired as a tutor in mathematics and physics at Dalhousie from 1887-1889 and then spent two years at Johns Hopkins as a scholar and teaching fellow. From 1891-1905 he taught physics at Bryn Mawr College and then returned to Dalhousie University as George Munro professor of physics. He was appointed university president in 1911, a position he held until his retirement in 1931.

MacKenzie was widely recognized for his research contributions. He was a member of the Nova Scotia Institute of Science, the American Physical Society, and the National Research Council of Canada. He was a fellow of the American Association for the Advancement of Science and of the Royal Society of Canada. He took an active role in his community, serving as president of both Ashburn Golf Club and the Halifax Curling Club. Arthur Stanley Mackenzie died in Halifax on 2 October 1938.

Custodial history

In 1976 W.J. Archibald donated published articles and correspondence with colleagues and organizations. Marjorie King donated additional papers and diaries in the 1980s. In 1990 those of Mackenzie's papers stored at Dalhousie's physics department were transferred by Professor Bridget Trim.

Scope and content

Fonds consists of correspondence (1885-1936), publications (1894-1927), addresses (1889-1921), unpublished documents (1881-1923), including unpublished articles, a large number of lecture notes (1881-1923), research notes (1887-n.d.) and lab books (1887-1909). Other course materials include course examination papers written and collected by Dr. MacKenzie. Other materials in this fonds pertaining to Dr. MacKenzie's personal life include his diaries (1883-1909), honours, pictures and memorabilia (1938-1949).

Notes

Title notes

Restrictions on access

There are no access restrictions on these materials. All materials are open for research.

Conditions governing use

Materials do not circulate and must be used in the Archives and Special Collections Reading Room.

Accruals

Further accruals are not expected.

Series: Correspondence of Arthur Stanley Mackenzie

Title: Correspondence of Arthur Stanley Mackenzie

Date: 1885-1936 (date of creation)

Scope and content:

This series consists of A. Stanley Mackenzie's general correspondence. Correspondents range from Mackenzie's colleagues, friends and universities to Dalhousie internal departments and publishers and other organizations. Correspondence covers a wide variety of topics including employment concerns, papers publishing, school applications, etc.

Physical description: 4.5 cm of textual records

Series: Unpublished research material

Title: Unpublished research material

Date: 1881-1923 (date of creation)

Scope and content:

The series consists of A. Stanley Mackenzie's unpublished material including his research notes, pertaining to Cavendish Experiment, Academy of Music in Halifax, etc.; course-related materials and

lecture notes taken when he was studying at Dalhousie University (1881-1885) and Johns Hopkins University (1889-1891), compiled when he taught at Bryn Mawr College (1891-1905) and Dalhousie University (1905-1923); examination papers; book reviews and comments written by and about Mackenzie's papers; research notes pertaining to chemistry, experiments on magnetism, dynamics and crystals, research material for his Ph. D thesis; and lab books on topics in practical physics, physical laboratory, minor chemistry.

Physical description: 92.5 cm of textual records

Arrangement:

Records are first arranged by type of document and further by year and date.
