## Administrative history / Biographical sketch

---

### Note

Edward J. Mullaly is a retired professor of English at the University of New Brunswick. He received his BA from the University of Windsor and his MA and PhD from the University of New Brunswick. Mullaly specializes in 19th century Canadian theatre history.

### Custodial history

Maps were donated to the University Archives in 2008 (accession .2008-028). Prior to that the maps were in the custody of Edward J. Mullaly.

---

## Scope and content

---

Collection contains twelve historical maps of Eastern Canada, produced by cartographers such as Giovanni Battista Ramusio and Girolamo Ruscelli. Donation also includes a copy of Kershaw's "Early Printed Maps of Canada" and a "A Monograph of the Evolution of the Boundaries of the Province of New Brunswick" by William F. Ganong.

## Notes

---

### Title notes

### Restrictions on access

There are no access restrictions on these materials. All materials are open for research.

### Conditions governing use

Materials do not circulate and must be used in the Archives and Special Collections Reading Room. Materials may be under copyright. Most maps are framed. Contact departmental staff for guidance on reproduction.

### Related material

See the Hugh Francis Pullen Map Collection (MS-2-756) and the David and Marilyn Janigan Map Collection (2011-006) for more historic maps of Eastern Canada.

### Accruals

Further accruals are possible, but not expected.

---

**Item: MS-2-46, OS Box 2, Folder 2 - R. St. Iehan**

Title: R. St. Iehan

Title [statRep]: Samuel De Champlain

Reference code: MS-2-46, OS Box 2, Folder 2

Date: 1613 (date of creation)

Scope and content:

Item is a chart of a harbour showing a point of land with a cross. The chart was published on page thirty of *Les voyages du sieur de Champlain Xaintongeois, capitaine ordinaire pour le roy en la marine* (Paris: Jean Berjon, 1613). In this volume, Champlain describes the country around Port des mines or present-day Basin of Mines or Minas Basin, Nova Scotia, Canada. The river at the head of the bay is Shubenacadie River, but the location of the cross, which proves, according to the author, that Christians once lived there, is unknown. Champlain drew the original from which the engraving was made. Cartographic elements include soundings, shoals, compass rose, and ship. Chart also includes a

waterfall or rapids, a dwelling, a group of First Nations people, and some topographical details. Items in image are lettered for identification in key below.

Physical description: 1 chart : col., engraving ; 12 x 17 cm

---

### **Item: MS-2-46, OS Box 2, Folder 3 - Nova Francia et Regiones Adiacentes**

Title: Nova Francia et Regiones Adiacentes

Title [statRep]: Johannes De Laet

Reference code: MS-2-46, OS Box 2, Folder 3

Date: 1633 (date of creation)

Scope and content:

Item is a map of Nova Scotia and adjacent regions by Johannes De Laet. It is the first printed map to include an accurate depiction of Prince Edward Island, and the earliest depiction of a north-south orientated Lake Champlain.

Physical description: 1 map : col., engraving ; 30 x 37.5 cm

---
