## Administrative history / Biographical sketch

---

### Note

Dr. James Dinwiddie was born in 1746 at Dumfries, Scotland. He graduated from Edinburgh University in 1778. In 1779 he began writing his series "Queries and Hints", which were scientific journals covering a wide variety of subjects. His fields of research included history, physics, chemistry, engineering, military tactics, and many other diverse topics. In 1781 Dinwiddie embarked upon a lecture series around the United Kingdom on various scientific topics. In 1792 he was invited to join Lord Macartney's embassy to China, as an "experimentalist" and "mechanic". He performed several scientific experiments and demonstrated numerous apparatus for the imperial court. When the embassy left for the return voyage to Britain, Dinwiddie asked to be left behind and went to India. He continued to lecture in India, and was appointed Professor of Mathematics, Natural Philosophy, and Chemistry at the College of Fort William. Dinwiddie left Calcutta in September 1806, and resettled in London, where he continued to lecture and write in his scientific journals. He was an active member of the Royal Institution of Great Britain up until his death in 1815.

### Custodial history

James Dinwiddie's records were found in the basement of Mrs. Barbara Bisson's house at Halifax, Nova Scotia in 1997. How the records got there has yet to be determined. Dinwiddie's records were given to Professor David Sutherland of Dalhousie University's History Department in January 1998. He passed them on to the University Library and they were accepted by the Dalhousie University Archives. The donation was formally accessioned on the 7th of January 1999.

## Scope and content

---

Fonds consists of the personal papers of Dr. James Dinwiddie which include his lecture notes, scientific journals, notebooks, manuscript, early experiments for 1774, correspondence, and personal journals and also some records from the Royal Institution for 1808-1814. The papers also include the journals of W.J. Proudfoot and a biography of his father (and Dinwiddie's son-in-law) James Proudfoot.

**Series: Lecture Notes**

Title: Lecture Notes

Scope and content:

This collection contains notes for lectures both given and attended by James Dinwiddie. The topics range from optics to trigonometry to natural history to agriculture. The notes were recorded between 1783 and 1811.

---

**File: Dinwiddie, Box 2, Folder 4 - General Law of Nature and other Notes**

Title: General Law of Nature and other Notes

Reference code: Dinwiddie, Box 2, Folder 4

Scope and content:

Notes containing a variety of scientific remarks and inferences.

---

**File: Dinwiddie, Box 11, Folder C1 - Lecture Notes**

Title: Lecture Notes

Reference code: Dinwiddie, Box 11, Folder C1

Date: 1781 (date of creation)

Scope and content:

These notes written by James Dinwiddie outline twenty lectures on topics in physics including motion, gravity, force, and acceleration. The notes also touch on natural theology with respect to knowledge and creation.

Physical description: 162 pages

---

**File: Dinwiddie, Box 11, Folder C2 - Lecture Notes**

Title: Lecture Notes

Reference code: Dinwiddie, Box 11, Folder C2

Date: June 11, 1783 (date of creation)

Scope and content:

These point form notes were taken by James Dinwiddie at a lecture on Wednesday, June 11, 1783. The notes cover a range of topics in chemistry and physics including Boschovich's Theory, chemical mixtures, evaporation, and magnetic curves.

Physical description: 4 pages

**File: Dinwiddie, Box 11, Folder C3 - Lectures on Chemistry - Lecture 1**

Title: Lectures on Chemistry - Lecture 1

Reference code: Dinwiddie, Box 11, Folder C3

Date: [1783?] (date of creation)

Scope and content:

These lecture notes written by James Dinwiddie in 1783 (?) discuss several chemical experiments.

Physical description: 3 pages

---

**File: Dinwiddie, Box 11, Folder C4 - Lecture 2 - Astronomy**

Title: Lecture 2 - Astronomy

Reference code: Dinwiddie, Box 11, Folder C4

Date: [1783?] (date of creation)

Scope and content:

These lecture notes written by James Dinwiddie in 1783 (?) focus on astronomy including the phases of Venus and movements of the planets and moon.

Physical description: 4 pages

---

**File: Dinwiddie, Box 11, Folder C5 - Lecture 4, 5**

Title: Lecture 4, 5

Reference code: Dinwiddie, Box 11, Folder C5

Date: [1783?] (date of creation)

Scope and content:

These lecture notes written by James Dinwiddie in 1783 (?) deal with the properties of air and various experiments that demonstrate these.

Physical description: 8 pages

---

### **File: Dinwiddie, Box 11, Folder C6 - Lecture 7**

Title: Lecture 7

Reference code: Dinwiddie, Box 11, Folder C6

Date: [1783?] (date of creation)

Scope and content:

These lecture notes written by James Dinwiddie in 1783 (?) deal with electricity and electrical machines.

Physical description: 5 pages

---

### **File: Dinwiddie, Box 11, Folder C7 - Lecture 8**

Title: Lecture 8

Reference code: Dinwiddie, Box 11, Folder C7

Date: [1783?] (date of creation)

Scope and content:

These lecture notes written by James Dinwiddie in 1783 (?) discuss electricity and lightning.

Physical description: 5 pages

---

### **File: Dinwiddie, Box 11, Folder C8 - Lecture 10 - Astronomy**

Title: Lecture 10 - Astronomy

Reference code: Dinwiddie, Box 11, Folder C8

Date: [1783?] (date of creation)

Scope and content:

These lecture notes written by James Dinwiddie in 1783 (?) focus on astronomy. He mentions the moon and tides as well as eclipses.

Physical description: 4 pages

---

**File: Dinwiddie, Box 11, Folder C9 - Lecture 11**

Title: Lecture 11

Reference code: Dinwiddie, Box 11, Folder C9

Date: [1783?] (date of creation)

Scope and content:

These lecture notes written by James Dinwiddie in 1783 (?) note various astronomical systems including the Ptolemaic and Copernican as well as Kepler's, Newton's, and Descartes' theories on planetary motion.

Physical description: 3 pages

---

**File: Dinwiddie, Box 11, Folder C10 - Lecture 13 - Astronomy**

Title: Lecture 13 - Astronomy

Reference code: Dinwiddie, Box 11, Folder C10

Scope and content:

These notes written by James Dinwiddie outline a lecture on astronomy. He discusses the various planets and their motion as well as their various measurements (diameter, distance from the sun).

Physical description: 18 pages

---

**File: Dinwiddie, Box 11, Folder C11 - Mechanics, No. 1,2; Instruments; Experiments, No. 1-4**

Title: Mechanics, No. 1,2; Instruments; Experiments, No. 1-4

Reference code: Dinwiddie, Box 11, Folder C11

Date: 1786 (date of creation)

Scope and content:

These notes written by James Dinwiddie in 1786 focus on mechanics, instruments, and experiments. He touches on forces and motion in the mechanics section and mentions thermometers, pumps, and pendula in the instruments section.

Physical description: 97 pages

---

### **File: Dinwiddie, Box 11, Folder C12 - Lecture 4 - Pneumatics; Lecture 5**

Title: Lecture 4 - Pneumatics; Lecture 5

Reference code: Dinwiddie, Box 11, Folder C12

Date: [1787?] (date of creation)

Scope and content:

These lecture notes written by James Dinwiddie in 1787 (?) discuss the study of pneumatics. He notes its connection with air and the atmosphere. Dinwiddie records several experiments involving barometers, fountains, and pumps.

Physical description: 11 pages

---

### **File: Dinwiddie, Box 11, Folder C13 - Introductory Lecture**

Title: Introductory Lecture

Reference code: Dinwiddie, Box 11, Folder C13

Date: January 19, 1792 (date of creation)

Scope and content:

James Dinwiddie wrote this introductory lecture on January 19, 1792. He discusses knowledge, existence, and sensation and quotes Rene Descartes (Cogito ergo sum).

Physical description: 2 pages

---

### **File: Dinwiddie, Box 11, Folder C14 - Lecture Notes**

Title: Lecture Notes

Reference code: Dinwiddie, Box 11, Folder C14

Date: [1792?] (date of creation)

Scope and content:

This series of lecture notes by James Dinwiddie in 1792 (?) references several subjects including mathematics, natural philosophy, Plato, Epicurius, the motion of the Earth, David Hume, and "W. Harrington". The file consists of 29 pages of lecture notes.

Physical description: 29 pages

**File: Dinwiddie, Box 11, Folder C17 - Notes on a Course of Lectures on Natural Philosophy**

Title: Notes on a Course of Lectures on Natural Philosophy

Reference code: Dinwiddie, Box 11, Folder C17

Date: October 18, 1793 (date of creation)

Scope and content:

These notes written by James Dinwiddie on October 18, 1793 discuss natural philosophy with a focus on topics in physics including motion, gravity, pendulums, .

Physical description: 14 pages

---

**File: Dinwiddie, Box 11, Folder C18 - Notes on a Course of Lectures on Natural Philosophy, No. 3 - Mechanics**

Title: Notes on a Course of Lectures on Natural Philosophy, No. 3 - Mechanics

Reference code: Dinwiddie, Box 11, Folder C18

Date: [ca. 1793] (date of creation)

Scope and content:

These lecture notes written by James Dinwiddie ca. 1793 discuss natural philosophy with a focus on topics in physics including mechanics, simple machines, and friction.

Physical description: 26 pages

---

**File: Dinwiddie, Box 11, Folder C19 - Natural History**

Title: Natural History

Reference code: Dinwiddie, Box 11, Folder C19

Date: [ca. 1793] (date of creation)

Scope and content:

These lecture notes written by James Dinwiddie ca. 1793 focus on natural history.

Physical description: 14 pages

---

**File: Dinwiddie, Box 11, Folder C20 - Natural History, No. 2,3; Chemistry, No. 1-4; Metallurgy, No. 1-3**

Title: Natural History, No. 2,3; Chemistry, No. 1-4; Metallurgy, No. 1-3

Reference code: Dinwiddie, Box 11, Folder C20

Date: [ca. 1793] (date of creation)

Scope and content:

These lecture notes written by James Dinwiddie ca. 1793 focus on natural history, chemistry, and metallurgy. He mentions several topics including agriculture, physical properties of water, and mineralogy.

Physical description: 137 pages

---

**File: Dinwiddie, Box 11, Folder C21 - Manufactures, No. 1,2; Engineering, No. 1,2**

Title: Manufactures, No. 1,2; Engineering, No. 1,2

Reference code: Dinwiddie, Box 11, Folder C21

Date: [ca. 1793] (date of creation)

Scope and content:

These lecture notes written by James Dinwiddie ca. 1793 focus on manufacturing and engineering. Dinwiddie mentions a variety of engines including James Watts' steam engine.

Physical description: 54 pages

---

**File: Dinwiddie, Box 11, Folder C22 - Miscellanies, No. 1-5**

Title: Miscellanies, No. 1-5

Reference code: Dinwiddie, Box 11, Folder C22

Date: [ca. 1793] (date of creation)

Scope and content:

These lecture notes written by James Dinwiddie ca. 1793 are titled "Miscellanies". The notes deal with a variety of chemical, physical, and biological topics.

Physical description: 69 pages

---

**File: Dinwiddie, Box 11, Folder C23 - Art of War (Ancient); Art of War (Modern); Artillery, No. 1,2; Naval Tactics**

Title: Art of War (Ancient); Art of War (Modern); Artillery, No. 1,2; Naval Tactics

Reference code: Dinwiddie, Box 11, Folder C23

Date: [ca. 1793] (date of creation)

Scope and content:

These lecture notes written by James Dinwiddie ca. 1793 discuss the art of war (both modern and ancient) as well as artillery and naval tactics.

Physical description: 44 pages

---

**File: Dinwiddie, Box 11, Folder C24 - Geography; Astronomy, No. 1,2; Navigation, No. 1,2**

Title: Geography; Astronomy, No. 1,2; Navigation, No. 1,2

Reference code: Dinwiddie, Box 11, Folder C24

Date: [ca. 1793] (date of creation)

Scope and content:

These lecture notes written by James Dinwiddie ca. 1793 discuss geography, astronomy, and navigation.

Physical description: 49 pages

---

**File: Dinwiddie, Box 11, Folder C25 - Mathematics, No. 1-3**

Title: Mathematics, No. 1-3

Reference code: Dinwiddie, Box 11, Folder C25

Date: [ca. 1793] (date of creation)

Scope and content:

These lecture notes written by James Dinwiddie ca. 1793 focus on various mathematical topics including geometry, trigonometry, and logarithmic scales.

Physical description: 52 pages

---

**File: Dinwiddie, Box 11, Folder C26 - Optics, No. 1-3**

Title: Optics, No. 1-3

Reference code: Dinwiddie, Box 11, Folder C26

Date: [ca. 1793] (date of creation)

Scope and content:

These lecture notes written by James Dinwiddie in 1793 focus on optics. Dinwiddie discusses the properties of various instruments including microscopes, telescopes, and magic lanterns as well as convex and concave lenses.

Physical description: 77 pages

---

### **File: Dinwiddie, Box 11, Folder C27 - Trigonometry**

Title: Trigonometry

Reference code: Dinwiddie, Box 11, Folder C27

Date: [ca. 1793] (date of creation)

Scope and content:

These lecture notes written by James Dinwiddie ca. 1793 focus on trigonometry. The notes begin with a series of definitions of angles, circles, and trigonometric measurements. They go on to mention various corollaries and theorems related to trigonometry.

Physical description: 17 pages

---

### **File: Dinwiddie, Box 11, Folder C28 - Oblique Angle Triangles**

Title: Oblique Angle Triangles

Reference code: Dinwiddie, Box 11, Folder C28

Date: [ca. 1793] (date of creation)

Scope and content:

These lecture notes written by James Dinwiddie ca. 1793 discuss theorems for oblique angle triangles.

Physical description: 9 pages

---

### **File: Dinwiddie, Box 11, Folder C29 - Rules of Philosophy**

Title: Rules of Philosophy

Reference code: Dinwiddie, Box 11, Folder C29

Date: [ca. 1793] (date of creation)

Scope and content:

These notes written by James Dinwiddie ca. 1793 are entitled "Rules of Philosophy". They focus on natural philosophical topics including matter, motion, gravity, simple machines, projectiles, pneumatics, and pendula.

Physical description: 38 pages

---

### **File: Dinwiddie, Box 11, Folder C30 - Naval Architecture**

Title: Naval Architecture

Reference code: Dinwiddie, Box 11, Folder C30

Date: [ca. 1793] (date of creation)

Scope and content:

These notes written by James Dinwiddie ca. 1793 focus on naval architecture. He mentions experiments that determine the best shape of an ocean vessel, improvements to rudder design, and the difference between French and English ships.

Physical description: 5 pages

---

### **File: Dinwiddie, Box 11, Folder C31 - Lecture Notes**

Title: Lecture Notes

Reference code: Dinwiddie, Box 11, Folder C31

Date: [ca. 1793] (date of creation)

Scope and content:

These notes written by James Dinwiddie ca. 1793 are a series of questions related to astronomy; the notes may be examination papers.

Physical description: 20 pages

---

### **File: Dinwiddie, Box 11, Folder C32 - Lecture Notes**

Title: Lecture Notes

Reference code: Dinwiddie, Box 11, Folder C32

Date: [ca. 1793] (date of creation)

Scope and content:

These notes written by James Dinwiddie ca. 1793 lists a series of topics in physics including heat, sight, electricity, magnetism, and fluids.

Physical description: 32 pages

---

**File: Dinwiddie, Box 11, Folder C33 - Lecture Notes**

Title: Lecture Notes

Reference code: Dinwiddie, Box 11, Folder C33

Date: [ca. 1793] (date of creation)

Scope and content:

These notes written by James Dinwiddie ca. 1793 are a set of partial notes discussing theological topics. The notes contain some Greek words.

Physical description: 4 pages

---

**File: Dinwiddie, Box 11, Folder C34 - Deduction of the Distance by Mitchell Method**

Title: Deduction of the Distance by Mitchell Method

Reference code: Dinwiddie, Box 11, Folder C34

Date: [ca. 1793] (date of creation)

Scope and content:

These notes written by James Dinwiddie ca. 1793 contain a series of calculations of distance using the Mitchell Method.

Physical description: 11 pages

---

**File: Dinwiddie, Box 11, Folder C35 - Of the General Affections of Motion**

Title: Of the General Affections of Motion

Reference code: Dinwiddie, Box 11, Folder C35

Date: [ca. 1793] (date of creation)

Scope and content:

These notes written by James Dinwiddie ca. 1793 discuss general principles of motion including velocity and dynamics.

Physical description: 5 pages

---

---

**File: Dinwiddie, Box 11, Folder C36 - Time**

Title: Time

Reference code: Dinwiddie, Box 11, Folder C36

Date: [ca. 1793] (date of creation)

Scope and content:

These notes written by James Dinwiddie ca. 1793 focus on time.

Physical description: 13 pages

---

**File: Dinwiddie, Box 11, Folder C37 - Planitarium**

Title: Planitarium

Reference code: Dinwiddie, Box 11, Folder C37

Date: ca. 1793 (date of creation)

Scope and content:

These notes written by James Dinwiddie ca. 1793 discuss several instruments including planitaria, clocks, and globes.

Physical description: 16 pages

---

**File: Dinwiddie, Box 12, Folder C38 - Planitarium - Globe**

Title: Planitarium - Globe

Reference code: Dinwiddie, Box 12, Folder C38

Date: ca. 1793 (date of creation)

Scope and content:

These notes written by James Dinwiddie ca. 1793 focus on planitaria, globes, and other topics in astronomy.

Physical description: 48 pages

---

**File: Dinwiddie, Box 12, Folder C39 - Electricity, No. 1,3**

Title: Electricity, No. 1,3

Reference code: Dinwiddie, Box 12, Folder C39

Date: ca. 1793 (date of creation)

Scope and content:

These lecture notes written by James Dinwiddie ca. 1793 focus on electricity including electric machines, electrometers, lightning, and conductors.

Physical description: 18 pages

---

### **File: Dinwiddie, Box 12, Folder C40 - Agriculture**

Title: Agriculture

Reference code: Dinwiddie, Box 12, Folder C40

Date: ca. 1793 (date of creation)

Scope and content:

These lecture notes written by James Dinwiddie ca. 1793 discuss agriculture. He mentions the benefits of lime and manure in the soil as well as a recipe for cheese.

Physical description: 9 pages

---

### **File: Dinwiddie, Box 12, Folder C41 - Metaphysics, No. 1**

Title: Metaphysics, No. 1

Reference code: Dinwiddie, Box 12, Folder C41

Date: ca. 1793 (date of creation)

Scope and content:

These lecture notes written by James Dinwiddie ca. 1793 focus on metaphysics and various philosophical questions.

Physical description: 2 pages

---

### **File: Dinwiddie, Box 12, Folder C42 - Fine Arts, No. 1**

Title: Fine Arts, No. 1

Reference code: Dinwiddie, Box 12, Folder C42

Date: ca. 1793 (date of creation)

Scope and content:

These lecture notes written by James Dinwiddie ca. 1793 focus on architecture. Dinwiddie mentions building practices for arches, bridges, and porticos.

Physical description: 13 pages

---

**File: Dinwiddie, Box 12, Folder C43 - Hydrostatics, No.1; Pneumatics, No. 1; Sounds, No. 1,2**

Title: Hydrostatics, No.1; Pneumatics, No. 1; Sounds, No. 1,2

Reference code: Dinwiddie, Box 12, Folder C43

Date: ca. 1793 (date of creation)

Scope and content:

This series of lecture notes by James Dinwiddie was written ca. 1793. The notes focus on hydrostatics, pneumatics, and sounds.

Physical description: 39 pages

---

**File: Dinwiddie, Box 12, Folder C44 - Diving Bell**

Title: Diving Bell

Reference code: Dinwiddie, Box 12, Folder C44

Date: ca. 1793 (date of creation)

Scope and content:

These notes written by James Dinwiddie ca. 1793 discuss the diving bell including various experiments to examine its properties.

Physical description: 8 pages

---

**File: Dinwiddie, Box 12, Folder C45 - Aerostation, No. 1**

Title: Aerostation, No. 1

Reference code: Dinwiddie, Box 12, Folder C45

Date: ca. 1793 (date of creation)

Scope and content:

These notes written by James Dinwiddie ca. 1793 provide measurements and notes on inflation for an aerostation. The notes provide some history for aerial voyages in the balloon.

Physical description: 16 pages

---

**File: Dinwiddie, Box 12, Folder C46 - Recreations, No. 1**

Title: Recreations, No. 1

Reference code: Dinwiddie, Box 12, Folder C46

Date: ca. 1793 (date of creation)

Scope and content:

These notes written by James Dinwiddie ca. 1793 titled "Recreations" contain several mathematical puzzles, such as magic squares, and other mathematical facts.

Physical description: 13 pages

---

**File: Dinwiddie, Box 12, Folder C47 - Lecture Notes**

Title: Lecture Notes

Reference code: Dinwiddie, Box 12, Folder C47

Date: ca. 1793 (date of creation)

Scope and content:

These notes written by James Dinwiddie ca. 1793 are recorded in Latin.

Physical description: 3 pages

---

**File: Dinwiddie, Box 12, Folder C48 - Experimental Philosophy**

Title: Experimental Philosophy

Reference code: Dinwiddie, Box 12, Folder C48

Date: 1801 (date of creation)

Scope and content:

These notes written by James Dinwiddie in 1801 outline a course in experimental philosophy. The lecture topics include matter, space, gravity, engines, projectiles, and pendula.

Physical description: 4 pages

---

**File: Dinwiddie, Box 12, Folder C49 - Natural History and Natural Philosophy**

Title: Natural History and Natural Philosophy

Reference code: Dinwiddie, Box 12, Folder C49

Date: June 1, 1807 (date of creation)

Scope and content:

These lecture notes written by James Dinwiddie on June 1, 1807 focus on natural history and natural philosophy. Dinwiddie begins the notes by discussing man's superiority to other animals and goes on to discuss planetary motion.

Physical description: 41 pages

---

### **File: Dinwiddie, Box 12, Folder C50 - Anatomy**

Title: Anatomy

Reference code: Dinwiddie, Box 12, Folder C50

Date: October 8, 1807 - November 24, 1807 (date of creation)

Scope and content:

These notes written by James Dinwiddie between October 8 and November 24, 1807 are from a series of anatomy lectures given by W. Taunton. The lectures cover the skeletal system and various organs as well as military medicine in the field.

Physical description: 37 pages

---

### **File: Dinwiddie, Box 12, Folder C51 - Anatomy**

Title: Anatomy

Reference code: Dinwiddie, Box 12, Folder C51

Date: November 10, 1807 (date of creation)

Scope and content:

These notes written by James Dinwiddie on November 10, 1807 are from an anatomy lecture discussing respiration.

Physical description: 2 pages

---

### **File: Dinwiddie, Box 12, Folder C52 - Lecture of H. Davy**

Title: Lecture of H. Davy

Reference code: Dinwiddie, Box 12, Folder C52

Date: 1811 (date of creation)

Scope and content:

These notes written by James Dinwiddie from April to May, 1811 are from a series of geology lectures by H. Davy. The notes cover the composition of earth and minerals as well as various experiments.

Physical description: 13 pages

---

### **File: Dinwiddie, Box 12, Folder C53 - Lecture of Mr. D.F. Walker on Hydrostatics**

Title: Lecture of Mr. D.F. Walker on Hydrostatics

Reference code: Dinwiddie, Box 12, Folder C53

Date: July 30, 1811 (date of creation)

Scope and content:

These notes written by James Dinwiddie on July 30, 1811 are from a lecture on hydrostatics given by Mr. D.F. Walker. The notes mention the hydrostatic paradox and Tantalus' cup as well as flotation experiments.

Physical description: 4 pages

### **File: Dinwiddie, Box 12, Folder C54 - Naval Tactics**

Title: Naval Tactics

Reference code: Dinwiddie, Box 12, Folder C54

Date: [ca.1811] (date of creation)

Scope and content:

These lecture notes written by James Dinwiddie focus on naval tactics including navigation, tacking, sailing, weather, and magnetism.

Physical description: 52 pages

---

### **File: Dinwiddie, Box 12, Folder C55 - No. 1**

Title: No. 1

Reference code: Dinwiddie, Box 12, Folder C55

Date: ca. 1811 (date of creation)

Scope and content:

These notes written by James Dinwiddie list several experiments in chemistry.

Physical description: 14 pages

---

**File: Dinwiddie, Box 12, Folder C56 - No. 3**

Title: No. 3

Reference code: Dinwiddie, Box 12, Folder C56

Date: [ca. 1803] (date of creation)

Scope and content:

These notes written by James Dinwiddie list several experiments in chemistry.

Physical description: 24 pages

---

**File: Dinwiddie, Box 12, Folder C57 - Lightning and other Phenomena: Lectures on Electricity**

Title: Lightning and other Phenomena: Lectures on Electricity

Reference code: Dinwiddie, Box 12, Folder C57

Date: After 1772 (date of creation)

Scope and content:

These notes written by James Dinwiddie focus on lightning and electricity. Dinwiddie mentions Benjamin Franklin, historical dates for important experiments, circuits, conductors and other phenomena including water spouts and earthquakes.

Physical description: 59 pages

---

**File: Dinwiddie, Box 12, Folder C58 - Introduction**

Title: Introduction

Reference code: Dinwiddie, Box 12, Folder C58

Date: after 1792 (date of creation)

Scope and content:

This introductory lecture written by James Dinwiddie discusses natural philosophy. Dinwiddie draws on past philosophers including Rene Descartes, Plato, and John Locke to describe Nature and man's relationship with her.

Physical description: 72 pages

---

**File: Dinwiddie, Box 12, Folder C59 - Motion**

Title: Motion

Reference code: Dinwiddie, Box 12, Folder C59

Date: after 1792 (date of creation)

Scope and content:

These notes written by James Dinwiddie focus on constrained motion. Dinwiddie begins the notes with definitions of constrained motion; he continues by discussing centrifugal motion. He later discusses motion with respect to time and space; in this section he includes a series of propositions.

**File: Dinwiddie, Box 12, Folder C60 - The Effects of Heat and Mixture on Bodies and Chemical Apparatus**

Title: The Effects of Heat and Mixture on Bodies and Chemical Apparatus

Reference code: Dinwiddie, Box 12, Folder C60

Date: after 1792 (date of creation)

Scope and content:

These notes written by James Dinwiddie focus on chemistry. The notes begin with a course outline discussing chemical mixtures, heat, animals, plants, and chemical apparatus. The notes provide more detailed content on thermometers, acids, salts, alkalis, and other topics included in the course.

Reference code: Dinwiddie, Box 12, Folder C65

Date: after 1782 (date of creation)

Scope and content:

These notes written by James Dinwiddie focus on matter. The notes are split into three sections; the first deals with the properties of matter including various propositions. The second discusses the perserverance of matter or what happens when forces are applied. The final section deals with the powers of matter and involves inertia and resistance.

**File: Dinwiddie, Box 15, Folder D21 - Longitude by the Chronometer and Moon - Journal through China**

Title: Longitude by the Chronometer and Moon - Journal through China

Reference code: Dinwiddie, Box 15, Folder D21

Date: 1793-1794 (date of creation)

Scope and content:

This journal, dated 1793-1794, contains Dinwiddie's observations about Chinese culture and also includes his notes regarding experiments he conducted with longitude by Chronometer. This file consists of one journal.

Physical description: 405 pages

---

**File: Dinwiddie, Box 15, Folder D22 - Journal of Galvanism**

Title: Journal of Galvanism

Reference code: Dinwiddie, Box 15, Folder D22

Date: 1801 (date of creation)

Scope and content:

In this scientific journal written in December, 1801 in Calcutta, James Dinwiddie records his observations and experiments in galvanism and other electrical phenomena. This file consists of one journal.

Physical description: 62 pages

---

**File: Dinwiddie, Box 15, Folder D23 - Antitheses, No. 1**

Title: Antitheses, No. 1

Reference code: Dinwiddie, Box 15, Folder D23

Date: [1800?] (date of creation)

Scope and content:

In this paper, James Dinwiddie writes his own opinions on forgiveness and the nature of man as well as traitors and political freedoms. This file consists of one journal.

Physical description: 16 pages

---

**File: Dinwiddie, Box 15, Folder D24 - Antitheses, No. 2**

Title: Antitheses, No. 2

Reference code: Dinwiddie, Box 15, Folder D24

Date: [1800?] (date of creation)

Scope and content:

In this paper, James Dinwiddie writes his own opinions on the British government and various historical monarchs. He also includes notes on justice and pride. This file consists of one journal.

Physical description: 16 pages

---

**File: Dinwiddie, Box 15, Folder D25 - Antitheses, No. 3**

Title: Antitheses, No. 3

Reference code: Dinwiddie, Box 15, Folder D25

Date: [1800?] (date of creation)

Scope and content:

In this paper, James Dinwiddie writes his own opinions on knowledge and religion. This file consists of one journal.

**File: Dinwiddie, Box 15, Folder D26 - Agriculture**

Title: Agriculture

Reference code: Dinwiddie, Box 15, Folder D26

Date: [1800?] (date of creation)

Scope and content:

In this scientific journal, James Dinwiddie discusses agriculture with a focus on machinery and tools. This file consists of one journal.

Physical description: 28 pages

---

**File: Dinwiddie, Box 15, Folder D27 - Scientific Journal**

Title: Scientific Journal

Reference code: Dinwiddie, Box 15, Folder D27

Date: [1800?] (date of creation)

Scope and content:

This two part journal written by James Dinwiddie examines the history or theory of mind and spirit. The first part discusses the history of man while the second looks at what man can learn from Nature. This file consists of one journal.

Physical description: 85 pages

---

**File: Dinwiddie, Box 15, Folder D28 - Magnetism and Electricity**

Title: Magnetism and Electricity

Reference code: Dinwiddie, Box 15, Folder D28

Date: 1776 (date of creation)

Scope and content:

In this scientific journal written begun April 1, 1776, James Dinwiddie discusses magnetism and electricity. He includes several diagrams related to magnets and magnetic fields and queries at the end of the section. This file consists of one journal.

Physical description: 57 pages

---

### **File: Dinwiddie, Box 15, Folder D29 - Chemical**

Title: Chemical

Reference code: Dinwiddie, Box 15, Folder D29

Date: [1800?] (date of creation)

Scope and content:

In this scientific journal, James Dinwiddie discusses various topics in chemistry including the effects of fire, water, acids, and bases on mixtures. He also notes the properties of different types of air such as fixed air, nitrous air, and inflammable air. This file consists of one journal.

Physical description: 32 pages

---

### **File: Dinwiddie, Box 16, Folder D30 - Extracts**

Title: Extracts

Reference code: Dinwiddie, Box 16, Folder D30

Date: 1796 (date of creation)

Scope and content:

In this journal begun May 17, 1796 while in Calcutta, James Dinwiddie summarizes extracts from reports on a range of topics. He notes observations on "Dr. Black's Analysis of the Iceland waters" and "Extract from the report of the Committee for improving the manufacture of powder at Bombay" as well as others. This file consists of one journal.

Physical description: 46 pages

---

### **File: Dinwiddie, Box 16, Folder D31 - Optics**

Title: Optics

Reference code: Dinwiddie, Box 16, Folder D31

Date: [1800?] (date of creation)

Scope and content:

In this scientific journal, James Dinwiddie focuses on optics. He begins with a series of queries related to optics and expands the discussion to the composition and humours of the eye as well as various experiments in optics. Dinwiddie compares the eye to a camera obscura. The back portion of the journal contains notes on mathematics. This file consists of one journal.

Physical description: 24 pages

---

### **File: Dinwiddie, Box 16, Folder D32 - Astronomy**

Title: Astronomy

Reference code: Dinwiddie, Box 16, Folder D32

Date: [1800?] (date of creation)

Scope and content:

In this scientific journal, James Dinwiddie focuses on astronomy. He discusses the solar system, sunspots, comets, and the moon. This file consists of one journal.

Physical description: 54 pages

---

### **File: Dinwiddie, Box 16, Folder D33 - Projectiles**

Creator: Dinwiddie, James, 1765-1815

Title: Projectiles

Reference code: Dinwiddie, Box 16, Folder D33

Date: [1800?] (date of creation)

Scope and content:

In this scientific journal, James Dinwiddie explores projectiles; he discusses their trajectory motion as well as their acceleration and the opposing force of gravity. This file consists of one journal in two pieces.

Physical description: 27 pages

---

### **File: Dinwiddie, Box 16, Folder D34 - Galvanic Experiments**

Creator: Dinwiddie, James, 1765-1815

Title: Galvanic Experiments

Reference code: Dinwiddie, Box 16, Folder D34

Date: [1800?] (date of creation)

Scope and content:

In this scientific journal by James Dinwiddie, he describes a number of galvanic experiments. This file consists of one journal.

Physical description: 33 pages

---

**File: Dinwiddie, Box 16, Folder D35 - Wheel Carriages**

Creator: Dinwiddie, James, 1765-1815

Title: Wheel Carriages

Reference code: Dinwiddie, Box 16, Folder D35

Date: [1800?] (date of creation)

Scope and content:

In this journal by James Dinwiddie, he discusses wheel carriages and their design. He discusses the relationship between wheels and axles as well as the different sizes required by different vehicles. This file consists of one journal.

Physical description: 70 pages

---

**File: Dinwiddie, Box 16, Folder D36 - Cartography**

Creator: Dinwiddie, James, 1765-1815

Title: Cartography

Reference code: Dinwiddie, Box 16, Folder D36

Date: [after 1780] (date of creation)

Scope and content:

This scientific journal by James Dinwiddie focuses on navigation by stars which is demonstrated through a series of calculations. This file consists of one journal.

Physical description: 25 pages

---

**Series: Notebooks of James Dinwiddie**

Creator: Dinwiddie, James, 1765-1815

Title: Notebooks of James Dinwiddie

Date: 1776-1813 (date of creation)

Date: 1776-1813 (date of creation)

Scope and content:

This sous-fond contains James Dinwiddie's notebooks which include his notes from lectures at the Royal Institution of Great Britain as well as records of meteorological and chronological observations from his voyage to China. The material covers the period of 1776 to 1813.

---

**File: Dinwiddie, Box 16, Folder E1 - Orbits**

Creator: Dinwiddie, James, 1765-1815

Title: Orbits

Reference code: Dinwiddie, Box 16, Folder E1

Date: 1776 (date of creation)

Scope and content:

This notebook begun by James Dinwiddie on January 2, 1776 contains his observations on planetary motion. He notes observations on the orbits of Mercury, Venus, Mars, Jupiter, Saturn, and the moon. This file consists of fourteen pages of notes.

Physical description: 14 pages

**File: Dinwiddie, Box 16, Folder E2 - Notes from "Philosophical Transactions"**

Creator: Dinwiddie, James, 1765-1815

Title: Notes from "Philosophical Transactions"

Reference code: Dinwiddie, Box 16, Folder E2

Date: 1780 (date of creation)

Scope and content:

This notebook begun by James Dinwiddie on September 17, 1780 while in Cork contains extracts from volume 68 of Philosophical Transactions. This file consists of one journal.

Physical description: 88 pages

---

**File: Dinwiddie, Box 16, Folder E3 - Meteorological Journal**

Title: Meteorological Journal

Reference code: Dinwiddie, Box 16, Folder E3

Date: October 1, 1792 - February 13, 1794 (date of creation)

Scope and content:

This notebook kept by James Dinwiddie between October 1, 1792 and February 13, 1794 contains meteorological observations on Dinwiddie's voyage from London to China. He recorded observations at 8 am and 2 am. This file consists of thirteen pages of notes.

Physical description: 13 pages

---

**File: Dinwiddie, Box 16, Folder E4 - Chronometer Journal**

Title: Chronometer Journal

Reference code: Dinwiddie, Box 16, Folder E4

Date: October 3, 1792 - August 31, 1793 (date of creation)

Scope and content:

This notebook kept by James Dinwiddie between October 3, 1792 and August 31, 1793 contains observations from a chronometer recorded during his journey from London to China. The file consists of 19 pages of notes.

Physical description: 19 pages

---

**File: Dinwiddie, Box 16, Folder E5 - Madras**

Title: Madras

Reference code: Dinwiddie, Box 16, Folder E5

Date: ca. 1796 (date of creation)

Scope and content:

This notebook kept by James Dinwiddie ca. 1796 written while in Madras contains notes on a number of topics including the mining and use of saltpetre and the mining of diamonds.

Physical description: 58 pages

---

**File: Dinwiddie, Box 16, Folder E6 - Royal Institution Notes**

Title: Royal Institution Notes

Reference code: Dinwiddie, Box 16, Folder E6

Date: December 17, 1808 - June 3, 1809 (date of creation)

Scope and content:

This notebook kept by James Dinwiddie between December 17, 1808 and June 3, 1809 contains notes on Mr. Davy's lectures at the Royal Institution. The lectures focus on a range of topics in chemistry including the decomposition of acids and alkalis by electricity, metals, and potassium. This file consists of one notebook.

Physical description: 58 pages

---

### **File: Dinwiddie, Box 16, Folder E7 - Royal Institution Notes**

Title: Royal Institution Notes

Reference code: Dinwiddie, Box 16, Folder E7

Date: December 18, 1809 - January 26, 1811 (date of creation)

Scope and content:

This notebook kept by James Dinwiddie between December 18, 1809 and January 26, 1811 contains notes on Mr. Davy's lectures at the Royal Institution. The lectures focus on a range of topics in chemistry including electro-chemistry, phosphates, sulphur, and salts. This file consists of one notebook.

Physical description: 95 pages

---

### **File: Dinwiddie, Box 16, Folder E8 - Royal Institution Notes**

Title: Royal Institution Notes

Reference code: Dinwiddie, Box 16, Folder E8

Date: December 20, 1809 - April 19, 1810 (date of creation)

Scope and content:

This notebook kept by James Dinwiddie between December 20, 1809 and April 19, 1810 contains notes on Mr. Davy's lectures at the Royal Institution which focus on a variety of topics in chemistry. This file consists of one notebook.

Physical description: 98 pages
