Administrative history / Biographical sketch

Note

Dr. Ransom Aldrich Myers Jr., also known as RAM and Randy, son of a cotton planter and one of four children (brother Abbott, sisters Joan and Susan) was born in Lula, Mississippi, on 13 June 1953. He was married to Rita Kindl Myers, with whom he had five children: Emily, Rosemary, Sophia, Carlo and Gioia. Outside his work as a marine biologist and conservationist, Myers was passionate about the arts, especially theatre and opera.

He completed a BA in physics at Rice University in 1974 and worked in Kuwait's oil fields from 1974–1976. In 1977 Myers spent a year traveling through Africa before sailing across the Atlantic on a 8.5-metre sailboat and starting graduate school at Dalhousie, where he earned an MSc in mathematics (1980) and a PhD in biology (1983).

Myers worked as a research scientist for the Canadian Department of Fisheries and Oceans in St. John's, Newfoundland. In 1989 he joined the Resource Assessment and Survey Methodology Centre of Disciplinary Expertise, a group created to serve as a national resource for government scientists. Following his 1993 publication on the collapse of the Atlantic cod stocks, Myers became one of many scientists to raise public awareness of the government's suppression of scientific work, and in 1997 was formally reprimanded. Myers then left the DFO to assume the inaugural Dalhousie Killam Chair of Ocean Studies.

Myers co-authored many papers in the late 1990s and early 2000s that influenced public understanding of the ocean's natural resources, including Myers and Boris Worm's "Rapid worldwide depletion of

predatory fish communities" (Nature, 2003), which brought to light declines in marine fish biodiversity and provided Myers the opportunity to communicate with global decision-makers. He served as a witness at two US Senate Committee hearings on over-fishing and at the Canadian House of Commons Standing Committee on Fisheries and Oceans in 2003 and 2005.

In his work at Dalhousie Myers supervised several Masters, PhD and post-doctoral students and started the Myers Lab, which sought to catalogue and understand changes in marine biodiversity since the advent of industrialized fishing. He and his colleagues collected and compiled global fish population datasets, which they published in an open database, now known as the RAM Legacy Stock Assessment Database. During his career Myers spoke at over 80 conferences and lecture series worldwide and accumulated numerous awards and accolades, including The Wilfred Templeman Publication Award (1994); a Visiting Fellowship at the Centre of Population Biology, Silwood Park, Imperial College (1996); and assignment to the Board of Directors and advisory boards of many organizations, including the International Oceans Institute of Canada, Atlantic Policy Congress, Sierra Club of Canada and International Union for Conservation of Nature (IUCN) Shark Specialist Group. Myers also worked to build the Future of Marine Animal Populations (FMAP). He was elected to the editorial board of Ecology Letters (2003) and to the board of science experts of the Communication Partnership for Science and the Sea (2005). Myers worked as a consultant for several projects and litigation proceedings under the incorporated name Ransom A. Myers & Associates Limited Natural Resources Consultants. In October 2005 he was named to Fortune magazine's "Ten to Watch" list.

The scope of Myers' research and contributions to science are considerable, focusing on many subjects, most notably life history evolution, oceanography, recruitment variability and population modeling, and conservation biology. By the time of his death he had co-authored over 150 research contributions, not including his work as a consultant, his works in progress, and government research documents. He died from a brain tumor in Halifax, Nova Scotia, on 27 March 2007, aged 54.

Custodial history

Materials were donated by Ransom Myers' estate to Dalhousie University Archives in 2008.

Scope and content

Fonds consists of records pertaining primarily to the professional activities of Ransom Myers and the major organizations and projects with which he was affiliated during his career as Killam Oceans Chair at Dalhousie University; there are also records created during his doctoral studies and his tenure as a research scientist at the Department of Fisheries and Oceans. The collection includes correspondence, draft manuscripts, offprints, conference and association materials, presentations, course and teaching materials, litigation and consultancy records (including affidavits and invoices), photographs, annotated research materials, press collected about Myers' work or pertaining to his research, student files, datasets and web content.

Notes

Title notes

Arrangement

To enhance accessibility, materials were arranged by the processing archivist into subject-based series. Where possible, file titles were transcribed from the original folders or the record's proper title.

Conditions governing use

Materials do not circulate and must be used in the Archives and Special Collections Reading Room. Materials may be under copyright. Contact departmental staff for guidance on reproduction.

Accruals

Further accruals are possible, but not expected.

Series: Personal papers of Ransom Myers

Title: Personal papers of Ransom Myers

Date: [ca.1980-2007] (date of creation)

Scope and content:

Series contains correspondence—written and electronic—press materials collected by Ransom Myers (including magazines and newspaper articles), personal photographs of trips, and Myers' curriculum vitae.

Physical description: 83 cm of textual and audiovisual records.- 37 117 electronic files : 3.23 GB

Subseries: Ransom Myers' correspondence

Title: Ransom Myers' correspondence

Date: 1982-2006 (date of creation)

Scope and content:

Subseries contains correspondence between Ransom Myers and researchers, employers, students and prospective students, co-authors, journals, grant agencies, journalists, conference organizers, associations and others. Some correspondence includes manuscripts and off prints.

Physical description: 54 cm of textual records.- 3 electronic files (pdf) : 94.7 KB

Arrangement:

Correspondence is organized chronologically.

File: MS-2-179, Box 1, Folder 1 - Correspondence received by Ransom Myers from Jon G. Stanley

Title: Correspondence received by Ransom Myers from Jon G. Stanley

Title [statRep]: Ransom Myers, Jon G. Stanley

Reference code: MS-2-179, Box 1, Folder 1

Date: 1982 (date of creation)

Scope and content:

File contains correspondence regarding grass carp received by Myers from Stanley, Unit Leader at University of Maine. File includes photocopy of journal article annotated by Myers.

Physical description: 13 pages

File: MS-2-179, Box 1, Folder 2 - Correspondence between Ransom Myers and Jeffrey Hutchings

Title: Correspondence between Ransom Myers and Jeffrey Hutchings

Reference code: MS-2-179, Box 1, Folder 2

Date: 1983 (date of creation)

Scope and content:

File contains correspondence regarding calculations for mortality rates. File also includes photocopy of article referenced in the correspondence as well as additional annotated photocopied articles and handwritten project outlines for redfish (*Sciaenops ocellatus*) project.

Physical description: 1 folder

File: MS-2-179, Box 1, Folder 3 - Correspondence sent by Ransom Myers to Public Service Commission of Canada

Title: Correspondence sent by Ransom Myers to Public Service Commission of Canada

Reference code: MS-2-179, Box 1, Folder 3

Date: 1983 (date of creation)

Scope and content:

File contains correspondence regarding Myers' application to the position of research scientists in Population and Ecological Modelling at St. John's Fisheries and Oceans Laboratory. File also contains draft of job application and copy of job posting.

Physical description: 1 folder

File: MS-2-179, Box 1, Folder 4 - Correspondence between Ransom Myers and Adriaan Rijnsdorp

Title: Correspondence between Ransom Myers and Adriaan Rijnsdorp

Title [statRep]: Ransom Myers, Adriaan Rijnsdorp

Reference code: MS-2-179, Box 1, Folder 4

Date: 1983 (date of creation)

Scope and content:

File also contains manuscript published by International Council for the Exploration of the Sea regarding fecundity and energetics of north sea plaice by Rijnsdorps, of the Netherlands Institute for Fishery Investigations.

Physical description: 1 folder

File: MS-2-179, Box 1, Folder 5 - Correspondence received by Ransom Myers from J. E. Thorpe

Title: Correspondence received by Ransom Myers from J. E. Thorpe

Title [statRep]: Ransom Myers, J. E. Thorpe

Reference code: MS-2-179, Box 1, Folder 5

Date: 1984-1985 (date of creation)

Scope and content:

File contains correspondence regarding article reviewed by Thorpe, from the Department of Agriculture and Fisheries for Scotland, that was submitted by Myers and Jeffrey Hutchings to The Journal of Fish Biology. File also contains Thorpe's reviewer comments as well as photocopy of published manuscript by Thorpe, annotated by Myers.

Physical description: 1 folder

File: MS-2-179, Box 1, Folder 6 - Correspondence received by Ransom Myers from Phil Hammond

Title: Correspondence received by Ransom Myers from Phil Hammond

Title [statRep]: Phil Hammond

Reference code: MS-2-179, Box 1, Folder 6

Date: 1985 (date of creation)

Scope and content:

File contains correspondence received by Myers from Hammond, of the Sea Mammal Research Unit. File also contains draft of manuscript written by Hammond regarding estimating size of whale populations.

Physical description: 1 folder

File: MS-2-179, Box 1, Folder 7 - Correspondence regarding Ransom Myers' research

Title: Correspondence regarding Ransom Myers' research

Reference code: MS-2-179, Box 1, Folder 7

Date: 1983-1986 (date of creation)

Scope and content:

File contains correspondence regarding journal publications, contracts, conference attendance, research being done for Myers' thesis and working group involvement.

Physical description: 1 folder

File: MS-2-179, Box 1, Folder 8 - Correspondence regarding Ransom Myers' publications

Title: Correspondence regarding Ransom Myers' publications

Reference code: MS-2-179, Box 1, Folder 8

Date: 1985-1986 (date of creation)

Scope and content:

File contains correspondence from Canadian Journal of Fisheries and Aquatic Sciences and from the Ecological Society of America regarding manuscript submissions.

Physical description: 1 folder

File: MS-2-179, Box 1, Folder 9 - Correspondence between Ransom Myers and Lars- Ove Eriksson

Title: Correspondence between Ransom Myers and Lars- Ove Eriksson

Title [statRep]: Lars-Ove Eriksson

Reference code: MS-2-179, Box 1, Folder 9

Date: 1986 (date of creation)

Scope and content:

File contains invitation for a visit received by Myers from Lars- Ove Eriksson of University of Umea in Sweden, Department of Ecological Zoology.

Physical description: 1 page

File: MS-2-179, Box 1, Folder 10 - Manuscript reprint requests received by Ransom Myers

Title: Manuscript reprint requests received by Ransom Myers

File: MS-2-179, Box 1, Folder 11 - Correspondence regarding Ransom Myers' research

Title: Correspondence regarding Ransom Myers' research

Reference code: MS-2-179, Box 1, Folder 11

Date: 1987 (date of creation)

Scope and content:

File contains scientific licences, authorizing Myers to catch and transport landlocked salmon (*Salmo salar*). File also contains handwritten notes regarding fish sperm research and photocopy of journal article.

Physical description: 1 folder

File: MS-2-179, Box 1, Folder 12 - Correspondence regarding Ransom Myers' research

Title: Correspondence regarding Ransom Myers' research

Reference code: MS-2-179, Box 1, Folder 12

Date: 1987 (date of creation)

Scope and content:

File contains report by the Department of Fisheries and Oceans regarding of meeting with John Pope. File also contains correspondence sent to Pope by Myers regarding survey analysis methods.

Physical description: 1 folder

File: MS-2-179, Box 1, Folder 13 - Correspondence regarding oceanography research

Title: Correspondence regarding oceanography research

Reference code: MS-2-179, Box 1, Folder 13

Date: 1987 (date of creation)

Scope and content:

File contains correspondence annotated by Ransom Myers regarding comments made by Eric Mills to the media regarding oceanographic study.

Physical description: 1 folder

File: MS-2-179, Box 1, Folder 14 - Correspondence regarding Ransom Myers' research

Title: Correspondence regarding Ransom Myers' research

Reference code: MS-2-179, Box 1, Folder 14

Date: 1987 (date of creation)

Scope and content:

File contains correspondence requesting Myers review a manuscript for the journal Holarctic Ecology.

Physical description: 1 folder

File: MS-2-179, Box 1, Folder 15 - Correspondence regarding Ransom Myers' research

Title: Correspondence regarding Ransom Myers' research

Reference code: MS-2-179, Box 1, Folder 15

Date: 1988 (date of creation)

Scope and content:

File contains correspondence received by Myers from Keith Thompson regarding use of Atlantic datasets and from Mikael Hilden regarding data for the recruitment in the Baltic Sea.

Physical description: 2 pages

File: MS-2-179, Box 1, Folder 16 - Correspondence between Ransom Myers and Andrew Redfearn

Title: Correspondence between Ransom Myers and Andrew Redfearn

Reference code: MS-2-179, Box 1, Folder 16

Date: 1988 (date of creation)

Scope and content:

File also contains reprints of published manuscripts by Andrew Redfearn, from University of Tennessee, Knoxville.

Physical description: 1 folder

File: MS-2-179, Box 1, Folder 17 - Correspondence regarding Ransom Myers' research

Title: Correspondence regarding Ransom Myers' research

Reference code: MS-2-179, Box 1, Folder 17

Date: 1988 (date of creation)

Scope and content:

File contains correspondence regarding access to groundfish data and participation in a working group.

Physical description: 6 pages

File: MS-2-179, Box 1, Folder 18 - Correspondence between Ransom Myers and Andre Talbot

Title: Correspondence between Ransom Myers and Andre Talbot

Reference code: MS-2-179, Box 1, Folder 18

Date: 1988 (date of creation)

Scope and content:

File contains reprint requests and manuscripts by Andre Talbot regarding current growth estimators in tilapia.

Physical description: 1 folder

File: MS-2-179, Box 1, Folder 19 - Correspondence between Ransom Myers and Keith Thompson

Title: Correspondence between Ransom Myers and Keith Thompson

Reference code: MS-2-179, Box 1, Folder 19

Date: 1988 (date of creation)

Scope and content:

File contains correspondence regarding data for herring (*Clupea harengus*) and redfish (*Sciaenops ocellatus*).

Physical description: 1 folder

File: MS-2-179, Box 1, Folder 20 - Correspondence between Ransom Myers and R.J.H. Beverton

Title: Correspondence between Ransom Myers and R.J.H. Beverton

Reference code: MS-2-179, Box 1, Folder 20

Date: 1988 (date of creation)

Scope and content:

File contains correspondence regarding Beverton's visit o Newfoundland as well as multiple reference materials annotated by Ransom Myers.

Physical description: 1 folder

File: MS-2-179, Box 1, Folder 21 - Correspondence regarding presentation by Ransom Myers

Title: Correspondence regarding presentation by Ransom Myers

Reference code: MS-2-179, Box 1, Folder 21

Date: 1989 (date of creation)

Scope and content:

File contains correspondence regarding Myers' presentation at American Fisheries Society meeting. File also contains manuscript by Ana Parma.

Physical description: 1 folder

File: MS-2-179, Box 1, Folder 22 - Correspondence between Ransom Myers and Johan Hammar

Title: Correspondence between Ransom Myers and Johan Hammar

Reference code: MS-2-179, Box 1, Folder 22

Date: 1989 (date of creation)

Scope and content:

File contains reprint of a published manuscript and handwritten notes from Johan Hammar.

Physical description: 1 folder

File: MS-2-179, Box 1, Folder 23 - Correspondence between Ransom Myers and Chris Francis

Title: Correspondence between Ransom Myers and Chris Francis

Title [statRep]: Chris Francis

Reference code: MS-2-179, Box 1, Folder 23

Date: 1990 (date of creation)

Scope and content:

File contains correspondence regarding maximum likelihood stock reduction method, request for feedback, and for recruitment data from Chris Francis of the Ministry of Agriculture and Fisheries in New Zealand. File also contains reprint of published manuscript by Francis.

Physical description: 1 folder

File: MS-2-179, Box 2, Folder 1 - Correspondence between Ransom Myers and Andre Talbot

Title: Correspondence between Ransom Myers and Andre Talbot

Reference code: MS-2-179, Box 2, Folder 1

Date: 1991 (date of creation)

Scope and content:

File contains correspondence received by Ransom Myers from Harri Helminen of Laboratory of Ecological Zoology University of Turku, Finland. File also contains photocopy of annotated manuscripts regarding *Coregonus albula*.

Physical description: 1 folder

File: MS-2-179, Box 1, Folder 32 - Correspondence between Ransom Myers and Harry Dooley

Title: Correspondence between Ransom Myers and Harry Dooley

Reference code: MS-2-179, Box 1, Folder 32

Date: 1992 (date of creation)

Scope and content:

File contains correspondence regarding temporal changes in the ocean sent by Ransom Myers to Harry Dooley, a International Council for Exploration of the Sea Hydrographer. File also contains photocopy of a manuscript annotated by Ransom Myers.

Physical description: 1 folder

File: MS-2-179, Box 2, Folder 2 - Correspondence between Ransom Myers and John Gamble

Title: Correspondence between Ransom Myers and John Gamble

Title [statRep]: John Gamble

Reference code: MS-2-179, Box 2, Folder 2

Date: 1992 (date of creation)

Scope and content:

File contains correspondence from Gamble, of the Sir Alister Hardy Foundation for Ocean Science. Correspondence includes dataset.

Physical description: 7 pages

File: MS-2-179, Box 1, Folder 33 - Correspondence between Ransom Myers and Russell Milla

Title: Correspondence between Ransom Myers and Russell Milla

Title [statRep]: Russell Milla

Reference code: MS-2-179, Box 1, Folder 33

Date: 1992 (date of creation)

Scope and content:

File contains correspondence, dataset and handwritten notes regarding cod growth from Russell Milla from the University of Otago, New Zealand.

Physical description: 1 folder

Series: Personal library of Ransom Myers

Title: Personal library of Ransom Myers

Date: [ca.1970-2007] (date of creation)

Scope and content:

Series contains publications collected and annotated by Ransom Myers, providing contextual information to his research. Series contains government reports, organizational reports and annotated vertical reference files (including photocopies) as well as white papers and theses. Series has been grouped into subseries according to broad research interests.

Series: Ransom Myers' research material

Title: Ransom Myers' research material

Date: [ca.1977-2007] (date of creation)

Scope and content:

Series consists of annotated datasets and figures collected or created by Ransom Myers, and correspondence regarding datasets.

Physical description: 95 cm of textual records.-283 electronic files (pdf, doc, xls, txt, R) : 140 MB.-1 288 web pages (WARC) : 2.1 GB

Conditions governing use:

Electronic records can be viewed at the Dalhousie University Archives. Advanced notice is required

Subseries: Datasets and figures collected or created by Ransom Myers

Title: Datasets and figures collected or created by Ransom Myers

Date: [ca.1977-2007] (date of creation)

Scope and content:

Subseries contains datasets and figures created and used by Ransom Myers and his research team. Series includes web content collected from three websites created by or regarding Myers and his

research. The websites are: Myers Lab, RAM legacy and Myers Stock Recruitment database as well as printouts of datasets used for Myers' research. Web content was collected using ArchiveIt.

Physical description: 68 cm of textual records.- 283 electronic files (pdf, doc, xls, txt, R) : 140 MB

Arrangement:

Datasets and figures are organized alphabetically by species provided in dataset or by project title.

Conditions governing use:

Electronic records can be viewed at Dalhousie University. Advanced notice is required.
