## Dedication

TO THE MEMORY OF  
**HECTOR McINNES, K. C.**

CHAIRMAN OF THE BOARD OF  
GOVERNORS OF DALHOUSIE  
UNIVERSITY

## Foreword

---

“Pharos” attempts to portray the activities of the students at Dalhousie University. Limitation of space makes it impossible to include every activity in which the student body takes part. In preparing this year book much material has passed through the hands of the editors, some of which was regrettably rejected because of lack of space. The editors hope that the material presented in this “Pharos” provides an accurate picture of life on the campus in this “college by the sea.”

# Dalhousie University

## "Ora Et Labora"

---

In 1814 the Town of Castine in Maine was taken by the British, by whom the usual imposts were levied during the time of occupation. After the evacuation it was decided, that deducting some expenses there remained at the disposal of the British Government the sum of £11,596, 18s, 9d. This sum the Government appropriated to be used for improvements in Nova Scotia. On assuming the Governorship, it occurred to Lord Dalhousie to utilize the appropriation for educational purposes. With this object in view, he applied to the Colonial office and explaining the character of the fund, suggested it be devoted to the erection in Halifax of an Institution for the higher branches of education. His request was granted and he was authorized to give the Institution his own name in 1818. A sum of £6, 750 was set aside as a professional endowment and £3,000 for the building fund. The corner stone of Dalhousie College was laid on May 20th, 1820, on which occasion its founder said, "Its doors are open to all who profess the christian religion." It was incorporated in 1821. In 1838 Thomas McCulloch, D.D., was appointed its first President and classes were started in what he termed "the palatial buildings." University powers were conferred in 1841. The college was closed for some years owing to lack of funds and support. It was reorganized in 1863 with Rev. Principal Ross as its head. Since that time it has continued to increase in influence under Dr. John Forrest, Dr. A. S. MacKenzie and Dr. Carleton Stanley. From the original site on the Grand Parade it has expanded to the Forrest Buildings and the beautiful Studley estate. Here stately buildings have been erected and will be erected to suit the needs of the University. Hon. Joseph Howe, Hon. Charles Tupper, Hon. George Young and Hon. S. L. Shannon were the Governors named in the act of Incorporation of 1862. It now boasts all the professional schools as well as its famous faculty of Arts. Its endowments have multiplied, its enrollment has increased and it is today one of the greatest industries in Nova Scotia, and one of the largest and best known institutions of learning in Canada. It is in commemoration of these facts that all Dalhousians are invited to be present at the reunion starting August 16th, 1938.

"Come back home to Dalhousie at that time."

JOHN S. ROPER, Arts '10

Law '13

*Reunion Chairman*

# Reunion 1938

One thought and one alone is now uppermost in the minds of all Dalhousians—the Reunion of 1938.

The Dalhousie Review, the Alumni News and Tourist and Publicity Literature have taken their part in bringing the news of this long anticipated celebration.

The dates have been set, the program to a large extent arranged and all that remains to ensure a complete success to a memorable event is the unqualified and enthusiastic support and co-operation of all former Dalhousians. The Dalhousie Alumni Association is eager to take this opportunity of sending good wishes to all its members and a special invitation to be in Halifax in August of the present year.

No efforts are being spared to afford the visitors the hospitality for which Halifax and Nova Scotia are famous.

Entertainment to the taste of every Dalhousian will be provided.

The Committee are planning on the largest re-union in the history of the University. Your presence will make these plans a certainty.

Come to Halifax in August, live again those days when things were just beginning for each of us. Meet old class mates and establish new found friendships. Remember together your joys and forget your sorrows on the Campus of the little College by the Sea whose contribution to culture and learning will be celebrated this August at the great centennial of its almost uninterrupted teaching.

Every Dalhusian is being called to this historic rally and we know that the response will be universal.

S. R. BALCOM,  
*President*

Dalhousie Alumni Association.

# Reunion Plans Announced

---

The University has decided to hold a reunion of all Dalhousians in August 1938. This marks the hundred and twentieth anniversary of teaching at Dalhousie. The last reunion was held in 1928, the hundred and tenth anniversary of the founding of Dalhousie College by the Earl of Dalhousie.

A committee to carry out this reunion has been appointed. This consists of the following:—

His Honour, the Lieutenant Governor  
His Worship, the Mayor of Halifax  
His Worship, the Mayor of Dartmouth  
Honourable Angus L. Macdonald, Premier  
Chief Justice, Sir Joseph Chisholm  
Honourable G. S. Harrington  
Mr. S. R. Balcom  
Miss Grace M. Wambolt  
Mr. R. E. Inglis  
Dr. H. G. Grant  
Mr. T. H. Coffin  
Dr. W. W. Woodbury  
Mr. George Farquhar  
Senator W. H. Dennis  
Miss Judith Piers  
Prof. D. C. Harvey  
Mr. Gerald Stairs  
Major J. W. Logan  
Mr. H. P. Duchemin  
Mr. D. G. Grant, (Sydney)  
Dr. Carleton W. Stanley  
Miss Lois Creighton  
Mrs. G. K. MacIntosh  
Dean Vincent MacDonald  
Mr. J. L. Hetherington  
Mr. J. McG. Stewart, K.C.  
Dr. Clyde Holland  
Mrs. F. H. Pond  
Miss Georgene Faulkner  
Miss Alice M. Haverstock  
Miss Phyllis Burns  
Mr. J. W. Godfrey  
Major J. S. Roper, K.C.

Major Roper was appointed Reunion Chairman.

## Reunion Plans Announced

---

It is proposed that the reunion should occupy a three day period commencing on Tuesday, August 16th, 1938, with the following tentative programme:—

TUESDAY 16TH, A.M.—Registration and renewal of acquaintanceship in the gymnasium.

TUESDAY, P.M.—Unveiling of the Castine Monument, to be followed by a tea at Shirreff Hall and a get-together meeting at the gymnasium in the evening

WEDNESDAY, 17TH, A.M.—A meeting to organize an historical parade to take place in the afternoon. The parade to feature a series of historical floats representing various phases in the life and growth of Dalhousie up to the present time, with a grand march of Dalhousians by classes.

WEDNESDAY EVENING—Reunion Dinner.

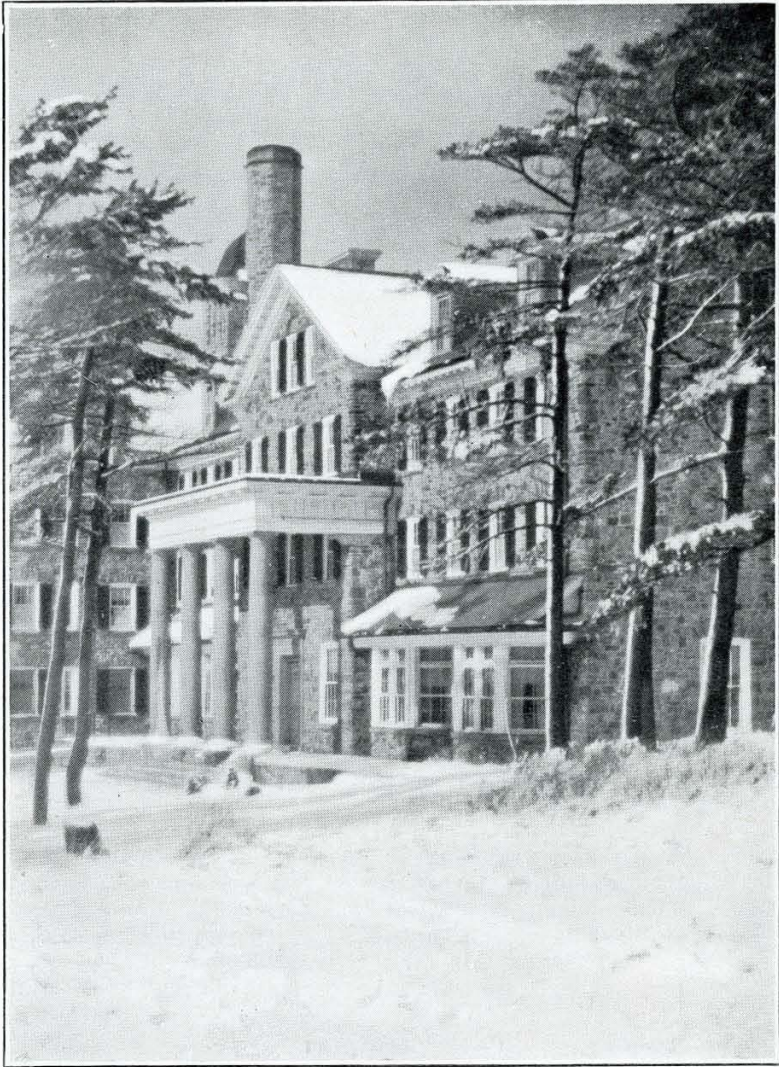

THURSDAY, 18TH A.M.—A free morning—for the Dalhousians to visit their friends.

THURSDAY, P.M.—Convocation in the open air and reception by the Studley Quoit Club—the oldest Quoit Club in America.

THURSDAY EVENING—Class Dinners to be followed by a Reunion Dance and fond farewell.

Pertinent publicity will be mailed to all Dalhousians at intervals from now until the reunion.

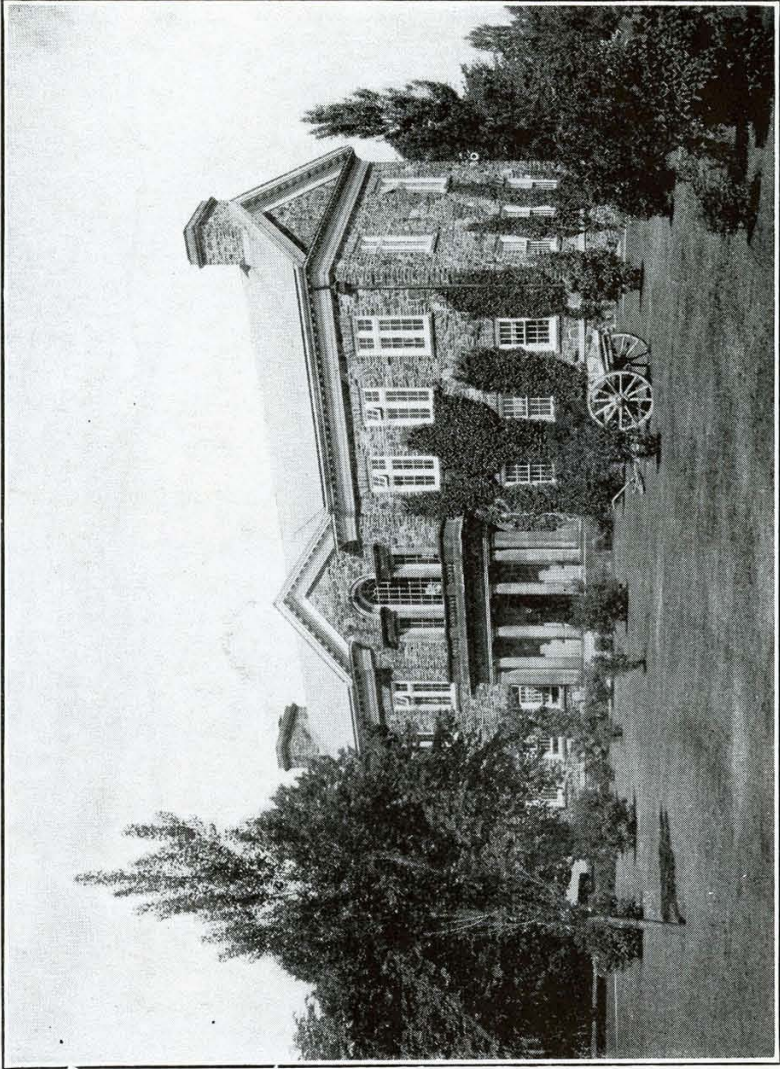

In an effort of this magnitude, organization is necessary. We have been building an organization to meet the circumstances during the past six months but this can be done by no one man or any one committee—it must be the concerted effort of all those who are interested in the history of the University and its future. On the success of this reunion depends the whole future of Dalhousie University. All Dalhousians—past and present—are requested to become part of this organization through the Alumni Associations, Class Organizations and District Committees. This having been done, they should get in touch with the reunion Chairman at the Nova Scotia Board of Public Utilities, Provincial Administration Building, Halifax, N. S.

CARLETON W. STANLEY, M.A., LL.D., Litt.D., F.R.S.C.  
President of the University

# PHAROS - - 1938

St. Andrews by the Northern Sea,  
A haunted town it is to me!  
A little city, worn and gray,  
The gray North Ocean girds it round,  
And o'er the rocks and up the bay  
The long sea-rollers surge and sound.

So Andrew Lang of his old Scottish University. The poem comes to mind as one thinks of you who are going out from a younger Scottish University, with gray buildings, in a smoke-gray city, by the gray North Ocean. Will Dalhousie be a haunted place to you for the rest of your lives? You may be very sure it will! Life, at worst, has its compensations, but college life, if not at the time, at least in retrospect, whether recent or late, seems to be entirely of the compensatory part. Youth and the freshness of youthful experiences; friendships at a period, and in a scene, when friendships are most vivid and unselfish; health intact, spirits jovial and bounding—no wonder they sang looking back (in pre War Germany) to college days:

Dass die Zeit einst golden war  
Will ich nie bestreiten—  
Denk' ich gern im andren Mal  
Schön vergangenen Zeiten.

We, your older friends, hope that you carry away with you some things—some things you will prize—that you could not have gained in a youth spent elsewhere; in other words that the sense of values traditional to Dalhousie will be yours. That I mention briefly, for I have good evidence that many of you are already possessed of that tradition.

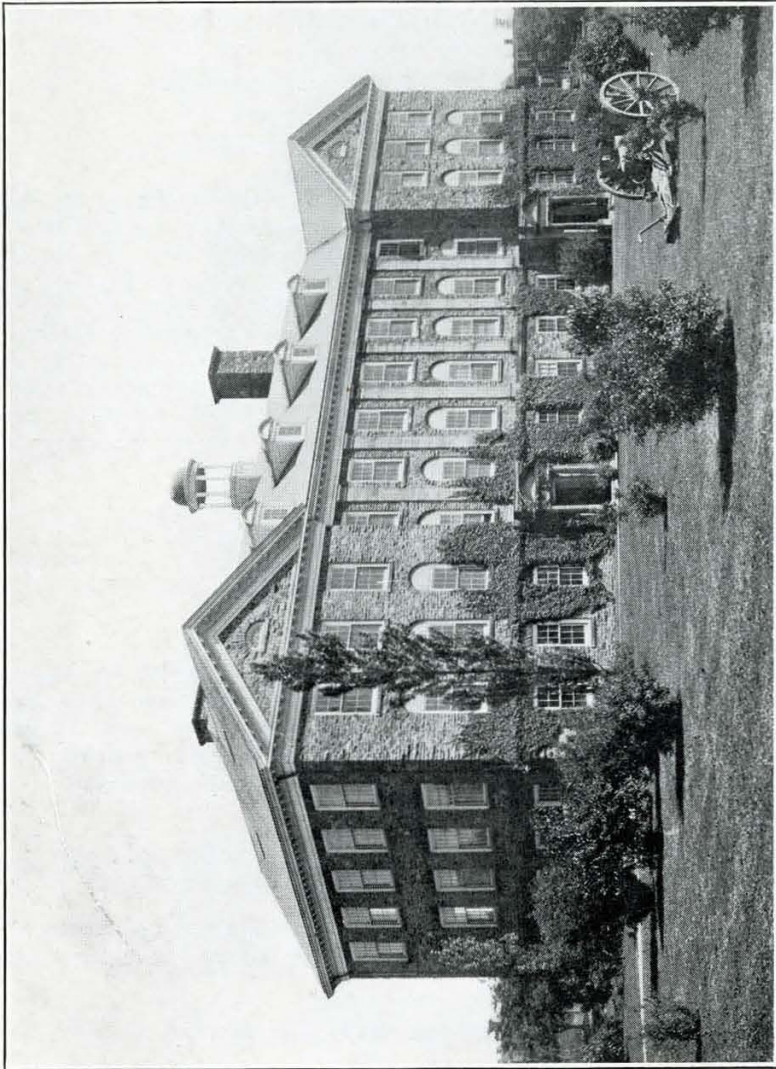

But what I had in mind at the beginning was that some day one of *you* may write a *native indigenous* Dalhousie song or hymn.

Why not? (This year, a centennial year, the dearth of one has been remarked). Arise, undiscovered poet of '38, *musaeo contingens cuncta* (vel etiam professores) lepore!

Pending which event, good fortune to you all.

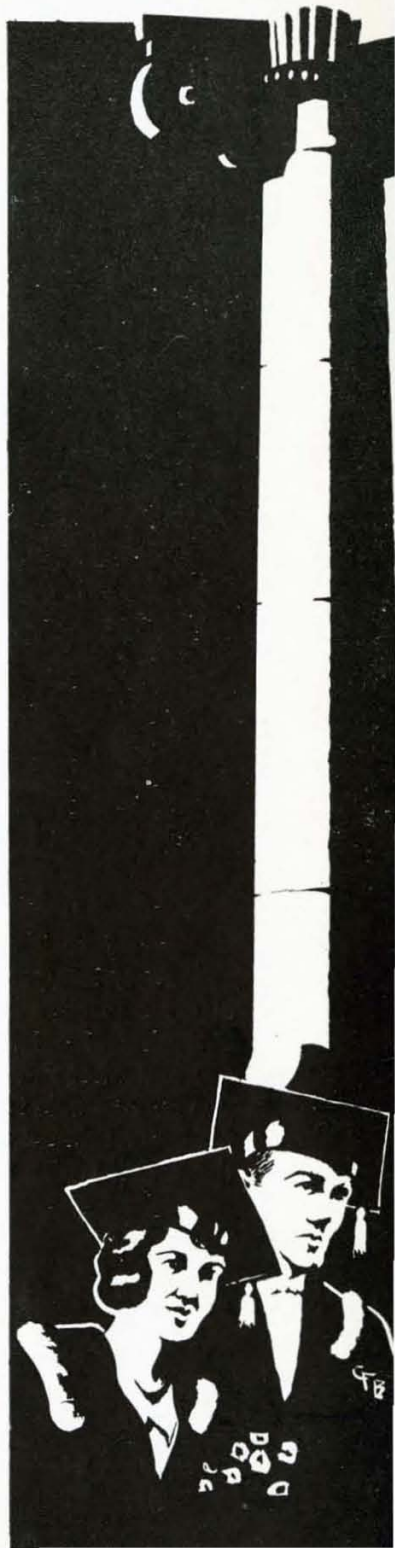

CARLETON STANLEY

MURRAY MACNEILL

## To the Class of '38

---

Forty-two years have gone by since I said goodbye to the members of my own class in May, 1896 and there will be very few of us at the gathering of old Dalhousians next August. There will however be a few and what more can I wish for you than that forty-two years hence you may be able to send back to your college mother a personal greeting for her continued prosperity. For you as one unit and your college as the whole I wish for happiness and success.

MURRAY MACNEILL

## To the Graduates in Arts and Science

Of all questions which may be put to the prospective college graduate, the most vital, and oftentimes, the most embarrassing is, "What are you planning to do next year"? Fortunate indeed is the one who can answer without hesitation. I feel sure however, that as the time of leaving college approaches, many of you will confess to a certain anxiety as to how *you* might answer this question.

We hear on every hand that the changing conditions of the present day are making it increasingly difficult for the college graduate to find employment. Certainly more graduates are being turned out by the colleges than was the case a generation or so ago and, to this extent the college degree carries with it less distinction than it did formerly. In keeping with this increase however, what I might call the *employment range* of the college graduate has been greatly extended. Not so many years ago it was taken for granted that the holder of a B. A. or a B. Sc., was more or less in duty bound to enter one of the so-called "learned professions." Today, practically every field of activity is being invaded by college men and women. This is quite as it should be. The mental equipment which you have acquired during your college career should have given you an attitude toward life which will be of immeasurable value when you meet the competition which is a part of any employment situation. Do not however, make the mistake of feeling superior to the position you may hold. Here, the old law of supply and demand still holds true. Remember that there is little hope of material success unless you are willing to work and give the best of yourself *to* your work. May I suggest that in whatever position you may serve, you apply in principle the spirit expressed in the old verse:

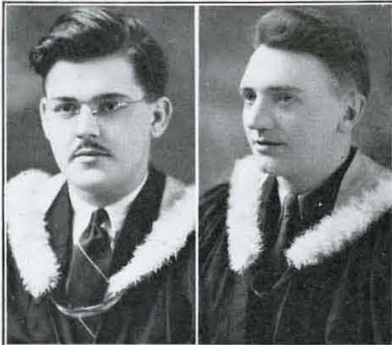

C. B. NICKERSON, A. M.  
Dean of Arts and Science

"If I were a cobbler, then I would decide,  
The best of all cobblers to be.  
If I were a tinker, no tinker beside,  
Should mend an old kettle like me."

C. B. NICKERSON

## Education

---

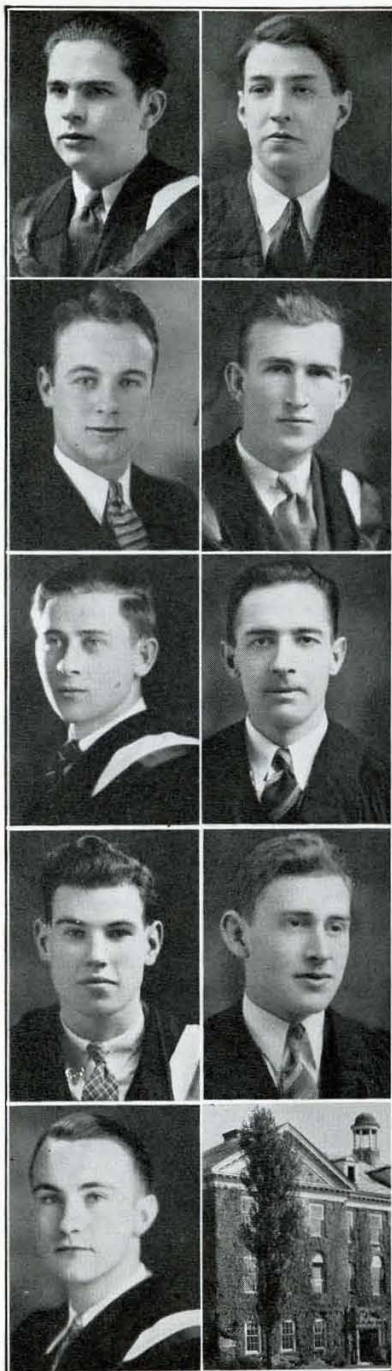

The clock that never keeps time has measured with unsteady ticks the frivolous passing of one more crop of teachers. Professor Fletcher still beams at the head of the table, but the jaded remnants of one-time B. A.'s murmur sadly, "Montessori—we have met our Montessori." The noble deeds of the year have no power to cheer. No exuberance is raised by the memory of bliss in the country, misdirecting the innocent rustics. The flighty flunks at Christmas bring no glow to the heart.

There was, of course, the Education Play in February. There was colour in our cheeks then: alas, a fraud—an artificial compound of crisco and tinted greases. Even the boisterous nature of the drama struck a false note—all went up in a puff of smoke.

There might seem hope of joy to some in recalling the day when we tried the "Discussion Method" on ourselves. Even then, coming an hour late did not save a class mate from becoming enmeshed in philosophy and history.

There is yet one chance—a dim beam of sunlight. Do you recall those gay groups in the gym when we were taught how to make the moppets drill in spite of themselves? But there also the stern voice of authority cast another dark shadow when in horror we saw ourselves becoming not teachers, but drill sergeants. What Ho, the guard! Bear aid, ye militant pacifists!

We have resisted knowledge, we have scorned wisdom. Perhaps the example of that true teacher, Professor Fletcher, will avail more than his words, for it is only just that he have some reward for his efforts and benevolence. It is also meet that our mute monument be a stuffed duck.

Dean of the Faculty of Law

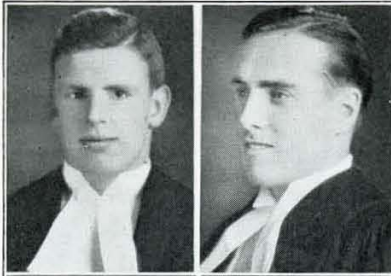

## To the Graduates in Law

For the past three years we have sought to furnish you with an adequate foundation of knowledge and training for the practice of law, to transmit to you the tradition of law as a learned profession, and to imbue you with a sense of the inescapable social responsibility which is of the essence of such a profession. As we take leave of you it is our hope that you will find in that knowledge and training an aid to successful careers and that, whether your lives are lived within or without the profession, you will exemplify constantly its traditions, and be mindful always of the responsibilities which go hand in hand with the privilege of membership in the great profession of law.

VINCENT C. MACDONALD

## Law

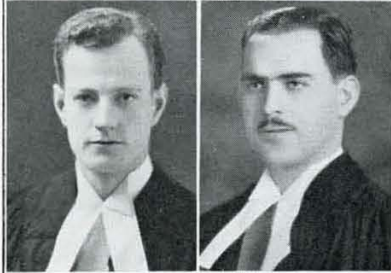

**GEORGE EVANS BAIRD**  
Perth, N. B.

Centreville, N. S.

B. A. (Acadia). Debating. Leader of Opposition in Mock Parliament. President and Secretary of Weldon Inn.

## To the Graduates in Dentistry

W. W. WOODBURY, B. Sc., D. D. S.  
Dean of the Faculty of Dentistry

One of the pressing concerns of dental education is the effective integration of the pre-clinical sciences with the activity of the Infirmary, so that the student may learn to face the problem presented by the dental condition of his patient with an adequate background of scientific knowledge and method. It is important to develop this approach during under-graduate days because student habits are likely to be persistent, and also because it is essential to successful practice, using the word successful in the broadest sense.

The young practitioner will not progress along this path by simply expressing a pious wish to do so.

It means hard work, close observation and serious study. The gradual development of a private library is part and parcel of such intellectual growth. This should involve careful planning, and it may mean some sacrifice. Older Dalhousians will remember that thirty-five years ago the then Professor of Classics gave a lecture to the undergraduates entitled "A Wife or a Library—Which?" and while the critical alternative suggested may not have to be faced in very many instances, the importance of building up one's own library, as suggested by the genial professor's striking title, should not be overlooked.

WM. W. WOODBURY

## To the Graduates in Medicine

I cannot bring myself to feel I am bidding farewell to the Class of '38; rather would I think that this is the end of your first stage of training and that in the next period, be it that of post-graduate education or rural practice, you will still feel you are students of Dalhousie.

You are young and confident, eager to apply the knowledge you have gained in the past few years. Whether it be general practice in some remote part of Canada; whether it be specialization, surgery or medicine, in some large educational centre, or whether it be the administration of a provincial or federal health department—there are certain fundamentals of the practice of medicine which never change.

Medicine is an Art and must be practised for itself. The life is one of sacrifice; the hours are long, but the rewards are satisfying. The motto must always be: To prevent, to cure, to alleviate, to comfort.

The Faculty wishes you success, and in that wish trusts that you will carry with you the spirit and the philosophy of the teaching at the Medical School.

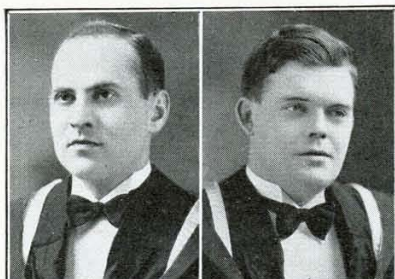

H. G. GRANT, M.D.C.M., M.R.C.S.,  
L.R.C.P.

Dean of the Faculty of Medicine.

H. G. GRANT

Dean.

## History of Class '38

The Class of '38 entered Dalhousie at a time when the financial depression was being most felt. This, combined with the enforcement of entrance standards, may be blamed for the smallness of the class. However small the class may have been, there was no lack of enthusiasm. With fiery John Fisher as Freshman representative, and the support of Dr. Bell as Honorary President, the class soon entered into its University life.

Our Freshman year was marked by the Sophomores' welcome at the Freshie-Soph dance, and the successful Freshman Glee Club show.

As Sophomores we had the privilege of carrying on the policy of Class '37 in the matter of Freshman initiation, the object being to inspire friendship instead of subjecting the Freshmen to hazing. We also staged several successful parties which were welcomed by all.

In our Junior year we lost several members who had entered as Freshie-Sophs. However, we were pleased to welcome several newcomers. We will probably long remember this year for its socially and financially successful Junior Prom.

Our class is represented in nearly every phase of college life. As a class, however, we have no really outstanding achievements. Nevertheless we are sure that we have achieved our purpose: we have given every member the opportunity to take part in that activity which interests him most. In this our last year we look forward to our graduation with the feeling that here the real history of Class '38 begins.

Historian,

GEORGE S. McKNIGHT

## Class Prophecy

March 9, 1950. An odd thing happened this evening as I was sitting by my grate fire; the red coals took on different shapes and faces—faces I had not seen in years.

A long thin figure appeared; it was Roly Hurst: he was taking notes furiously at a meeting of the League for the Prevention of Crooked Dealing.

The coals shifted a little, another meeting, this time of the Congress of the United States; John Grant, the first vice-president, was speaking of democracy, his hands grasping his coat lapels, his eyes looking heavenward, while Col. George Robertson of the Wilmington Fusiliers was trying to interrupt him, to speak of the rights of the aristocracy.

Mendel Chernin's name was in red neon lights over his Groceteria, two other shops formed themselves from the coals: Herb. Davis' Harness Shop, Spryfield, and the Rudd Hattie Leather Shop.

A remote island appeared, on it just discernible was Don Graham tripping over the chemical apparatus belonging to Jerry Coffin, world famous for his chemical research work in odd perfumes. The island changed into an office where Bob Campbell, Professor in Tibetan History, and Keith Logie, who has extended Einstein's Theory of Relativity, and Ron Hiseler, one of the Board of Governors at Dalhousie, were talking earnestly.

The next fire picture was of a sandy plain on which the French Foreign Legion marched, many familiar faces were there: Ralph Kane, Art Dargie, Maxwell Ells, George Daine, Ed. Fogo and John Whyte.

Before I could make out anymore the coals portrayed the Houses of Parliament during a session. Pearl Levine was Speaker of the House. There also were Cicero Ritchie, talking of Social Credit, and Lloyd George Elliot, the representative from Baffin Island. In the offices of the House one of the secretaries was Esther Dauphinee. John Laing, the doorman, was endeavouring to make Art Huddleston understand that his Bill for the Rights of the Underprivileged was not on the morning's agenda, and would he please leave, Art would not—but I saw no more.

The next picture was of an afternoon tea, Dot Johnson, a plump, attractive matron, was pouring and talking to Clare Wier, a guest of honour, who was in Halifax for the opening of the House at which her husband spoke in Cape Breton's interests. Nancy Lawson and Winnie

# P H A R O S - - 1 9 3 8

Flynn, both widows, were chatting about Fran Martell, the movie star, who they claimed rivalled Myrna Loy. Bubbles Gallay was speaking of her chubby young son with Mary Stirling who had recently returned from biological work in China. Marg. Robertson, a teacher in a French Girls' School, was laughing heartily at one of Francis Robinson's political cartoons. The other guest of honour was Madeline Delaney, the accomplished pianist, who played an original composition for the company. Joe Cox came in later to say goodbye before she started out on her geological trip to the remote highlands of Cape Breton.

Again the coals shifted, revealing Samuel Glick Studios, Inc. of Hollywood; studios noted for the picture "Moonshine" starring Norman MacRitchie and Mary Prescott. The studio technician was Maurice Lipton.

The make-up artists were Bernice Walker, Marjorie Remby and Elinor Strong, a more unlikely trio I could not have imagined. Helen Munro had followed in Ione Reeds' footsteps and was a movie stunt girl. Helen had never seemed the sort of girl to imitate Tarzan of the Apes and go leaping from car to train or tree to elephant. This same studio is proud to have under contract Digby Lynch and Babe Stewart, the dance duo, whose latest number was "Harmony and Flatfeet." Under a brief contract was Bill Archibald and his orchestra featuring Big Bill Stevens in vocals.

The Los Angeles Times has been trying through its editor, Noel Humphrys, to persuade the movies to make a film favouring communism, but George Piercey, lumber king and high official in the Y. M. C. A., Hugh MacDonald, and Rod Smith who has gained a huge fortune by his secret chemical formula for changing cabbages to oil, have objected vigorously.

Suddenly Rich MacQuarrie's Barber Shop excluded all else; it was of the good old fashioned variety. Doug. Lyall, the lawyer, was there; pipe in mouth trying to find a match till some one gave him one. Bill Martell, a social worker for juvenile delinquents, was looking at what the barber had done to his hair, and Jim MacMahon was being shaved, Jim was janitor at King's College.

John Wiswell, a notorious doctor, was in Phillip Walsh's Drug Store persuading Joe Likely to be the chief consumer at his own beer parlour, while Gardner Ward, preacher at Amy MacPherson's Temple, vehement-

# P H A R O S - - 1 9 3 8

ly objected to Joe being led to ruin. Laurie Mushkat, Chief Commissioner of Heavy Industry, was arguing with Blair Purves, engineer of the Halifax to Dartmouth Bridge. Before leaving the store the ski expert and teacher, George McKnight, made appointments for lessons with Walter Harris, Henry Hinch and George Tanton.

The bartenders at Joe's Beer Parlour were Jim Clarkson and Jim Putnam, and the noisiest guests Pat Patton, Ed. Cragg, Brown Crosby and Art Shane, who were having a lovely time singing songs loudly and tunelessly. The place was full but Randolph Douglas MacLean and George Donald MacLeod, pompous men, began to fight one another, to the delight of Blois Le Page, a promoter of fights with a highly successful business. His find of the moment was Austin MacDonald, contender for the World Championship Title.

The fire was dying, the pictures grew faint yet I saw Stuart Wetmore, Anglican Bishop of Waverley, reading in his morning paper of the Greenfield-Lilienfeld scientific discovery which enabled the lawyer Johnny Mullane to prove the innocence of his almost hopeless client, Margaret Morriscey, she had been accused with robbing the mails. Ray Lucas and Delmar Amiro, according to the paper have published their ideas on the political situation in Canada, the historical preface is by Lucas. Sid Winters, Leo Frankel and Abe Gelbart, eminent surgeons, have returned from a World Medical Conference in Moscow. The last item I saw was concerning Avard Marven's new book on economic theory.

Faintly the harbour appeared, the large ocean liners belonged to Harold Renouf; one was leaving for the Orient. On board were: Jim MacKay on a trip of scientific research to China, the mystic poet Don Robb, the wealthy Mary Hunt, Lowell Legge, a deckhand, and Willa Reid starting on a longed for vacation after years of teaching. Only two other faces were familiar to me Don Fay and Ray Wallace, both doctors, the latter on a ship, were greeting one another heartily.

There is hardly any fire now, vaguely there is a huge laboratory, Dot Bentley, distinguished M. D., and her partner, whom I could not recognize, were working on their cure for laziness. They used many guinea pigs and gradually their work met with success. They are mailing me a phial of the precious remedy.

MARGARET SCHWARTZ,  
Prophet.

## Class '39

President.....GEORGE CORSTON  
Vice-President.....JOAN FURLONG  
Secretary.....NANCY LAWSON  
Treasurer.....LLOYD DALTON

Socially the class has sponsored two parties, the Junior Frolic and the Junior Prom. The Frolic was held in the lower gym on November 20 and was the party that put the final stamp of approval on campus truckin'. Everyone frisked gaily, so gaily that chaperones Dr. Bell and Professor Bennet joined in.

The Committee for the Junior Prom Lloyd Dalton, Jack Woodbury and Marjorie MacLean were responsible for the successful dance at the Lord Nelson on March 4.

In debating for the Bennet Shield Zylpha Linkletter and George Piercey upheld the class to the final round.

Members of the class have taken active part in every campus activity. On the Students' Council Dick Murphy is Vice-President and Nancy Lawson is Second Vice-President. George Corston is President of the Arts and Science Society. In Delta Gamma Irene Pentz as President and Zylpha Linkletter supporting her as Secretary-Treasurer have succeeded in making the society an active organization. Jack Arnell is Business Manager of the Glee Club while Lloyd Dalton is head of the Choral Society. Dick Murphy, Lloyd Dalton, Barbara Murray and Marjorie MacLean are on the staff of the Gazette. Lily Hirsch is a member of the Intercollegiate Debating team and Marjorie MacLean is Chairman of the Midlothians. In sport, Joan Anderson, Irene Pentz, Florence Armstrong and Marjorie Wood are members of the co-ed basketball squad. Alec Hart is a member of the Cubs Basketball Team while George Corston played senior hockey.

The class is proud that Moses Morgan, newly appointed Rhodes Scholar is one of their number. Class '39 lays claim to being the most active on the campus.

## JUNIORS

## Class '40

---

As far as classes go they seem to consist of the first week of college when the class is labeled the Freshman Class. Then the class suddenly finds itself in the state of sophomoreship. It took a year to get there, but to some of its members that year was all too short.

Class '40 as the Sophomore Class had the task of teaching the "Frosh" how to conduct themselves on the Campus. We very kindly assembled the flock of Freshmen in the Chem. Theatre and gave them a vivid picture of campus life, aided in our task by the Editors of the Gazette and a few more of the shining lights of the campus. The next day the "Frosh" were given their regalia which consisted of a green tam and a placard with their names inscribed thereon for the small sum of ONE dollar.

The next week was set aside as Freshman Week, in which the "Frosh" were entertained as guests of the Sophomores. Among the entertainments one of the most outstanding was the dance at Sheriff Hall on Friday evening, October 11. The week's fun consisted of free shows, a Glee Club, and last but not least, a tea at President Stanley's.

This all happened the first week of college, and since then the class has been lying low, with temporary gatherings at three largely attended meetings. If the class system is to continue, let us hope that next year a far greater interest will be taken in the re-organization of the class.

The elections for 1938-39 are over, and we extend our best wishes for success in the coming year to President McKean and his colleagues. The officers of the past year were:

President.....DOUGLAS MCKEAN  
Vice-President.....PEGGY MERKEL  
Secretary.....ALLISON CONRAD  
Treasurer.....ROBERT WALTERS

## SOPHOMORES

## Class '41

President . . . . . GEORGE M. HAGEN.  
Vice-President . . . . . MARJORIE MACKINTOSH.  
Secretary . . . . . CHARLOTTE SULLIVAN.  
Treasurer . . . . . DONALD MACKEIGAN.

Interfaculty sport managers were appointed as follows: Doug. Cameron, Basketball; Bain Munroe, Hockey; Kenneth Colwell, Track; Walter Lawson and Marjorie MacKintosh were chosen as debating team.

'41 on the campus means enthusiasm. With this class came new life to dear old Dalhousie. The events which occurred during initiation week proved this so, the rollicking "Frosh" painting the town red.

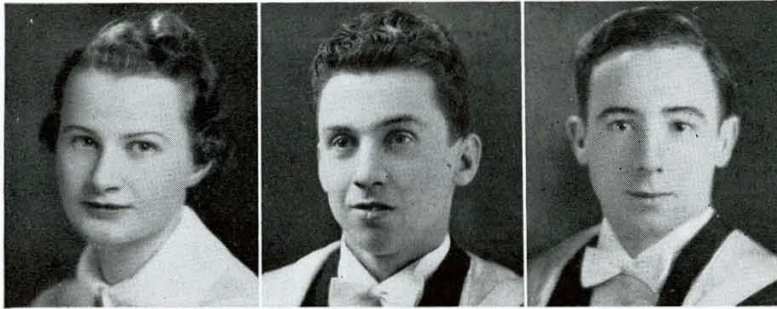

The score in social activities has been to the number of two, and capably handled by a committee composed of Doreen Dennis, Peggy Gorham, Barbara Schwartz, Gordon Hennigar, Donald Williams and George Hagen. The first held in the lower gym turned out to be a fizzle. In order to redeem themselves a marvellous party was held in the Big Gym. This party was successful both financially and socially. Professor and Mrs. C. L. Bennet were chaperones for the occasion.

In the recent elections the "Frosh" have shown a keen interest, and now occupy several positions in the different organizations on the campus.

We might add that this class will as a whole be physically fit (those compulsory gym classes) to see that the classes of the future will be well looked after.

## FRESHMEN

MARGARET MACMILLAN,  
Vice-President.

ROLAND HURST,  
President.

HAROLD RENOUF,  
Sect'y.-Treasurer.

## The Commerce Society

---

The year 1937-38 has seen the resignation of the Head of the Commerce Department, Professor James M. MacDonald. Known as "Big Jim" to professors and students alike he became a part of Dalhousie and his resignation was regretfully received. What is our loss will be the University of Manitoba's gain.

In spite of the vacancy thus created on the staff and the small number of newcomers to the Department, the Society has continued active as in former years. The office of freshman representative was held by our President while our council representative was selected as a candidate for the office of President of the Council of the Students.

The Millionaires' Dance, held in the latter part of January, again proved to be one of the most popular of the social events of the year. The proceeds of the dance were turned over to the Council of the Students to help defray the expenses incurred in sending representatives to the National Conference of University Students in Winnipeg.

The retiring executive wish to thank the members of the Society for their assistance and cooperation and feel certain that the new executive will further the mutual interests of the Society, the Department and the University.

WALLY WRIGHT,  
Vice-President.

MAURICE LIPTON,  
President.

BLAIR PURVES,  
Secretary.

## The Dalhousie Engineering Society

Boasting the largest membership in some ten years the Engineering Society this year proved to be one of the campus' most active organizations.

Possibly one of the most memorable events of the first term was the highly successful trip to Liverpool where thirty embryo engineers were led in a tour of inspection of the Mersey Pulp and Paper plant. This trip will be remembered for its educational value as well as a social success.

Financially this year has been possibly the best in the entire history of the Society. The Engineering supply store, a subsidiary of the Society, under the capable handling of Blair Purves has completed the years transactions with a most favorable bank balance.

In interfaculty sport the Society was represented in football, basketball and hockey with success hardly equal to former years but still carrying the same spirit of old.

Once again the Engineers are credited with presenting the gayest social event of the year. The "BOILERMAKERS' BALL" on the 12th of February had everything that the party-goer desired, excellent music, fine food, a gala floor show and the popular cabaret set-up.

The annual banquet and supper dance, fully attended and highly enjoyed was looked upon by the Engineers as the most pleasant evening of the year. The Society was honored with the presence of Mr. J. B. Hayes, Prof. Copp and Prof. Douglas.

This years executive consisted of Maurice Lipton, Pres.; Wally Wright, Vice-Pres., Blair Purves, Secty.-Treas., along with Harold Reeves, Tom Bayeroff and George Hagen as assistants.

And so we close another chapter in the history of the Dalhousie Engineering Society.

FIRST YEAR

## Medicos of the Future

THIRD YEAR

JOHN MCNEIL,  
Treasurer.

CLARENCE GOSSE,  
President.

GEORGE MURPHY,  
Vice-President.

KENT IRWIN,  
Secretary.

## The Dalhousie Medical Society

After a very successful season under the leadership of Carl Trask in 1936-37, the Society began another year under the guidance of President Clarence Gosse. The other officers for the term are: Vice-President, George Murphy; Treasurer, John MacNeil; Secretary, Kent Irwin and John Martin.

During the fall the Medical representatives were successful in gaining titles in Interfaculty Football and Track. After the holidays the Medicos succeeded in winning the Interfaculty Championship in Hockey.

The Medical Journal continued its established success and even won further laurels for itself in the field of Medical School publications. The responsible position of Editor-in-Chief was in the capable hands of Chester Stewart until the change of staff which assumed control after the November issue. Under the guidance of Robert Aikens the first publication of the new staff appeared in February and was certainly up to the high standard of previous numbers. An official award was adopted by the Society as the reward for deserving Journal work.

The Annual Medical Ball, held late in October, proved one of the highlights of the college social season. The social side of the Society was concluded with a very successful banquet held in February at which both faculty and students were well represented.

The Society meetings were very well attended and the showing of several surgical films stimulated the interest of the students. All in all, the Medical Society enjoyed a very successful year, carrying on the tradition that it is the most powerful organization on the Campus.

May we take this opportunity of wishing all graduates and particularly those finishing in Medicine all success and prosperity in the years to come.

## The Dental Society

---

Despite the obstacles which present themselves each year, and particularly this one, the Faculty of Dentistry is continuing that steadily progressive march towards the goal it has set for itself. Specifically that objective is this—to lift itself out of the doldrums of past years and attain a standard of curricular and extra-curricular achievements that will extend even beyond the domains of Dalhousie University.

In our selective branch of the healing art, the pulse of Dalhousie can be found beating strongly in the educational life of cities as far distant as New York. There the graduates of the Faculty of Dentistry of Dalhousie University have formed a Dental Society, and from the latest reports have been making noteworthy contributions to the study of dentistry.

At the present time it is difficult to make a positive statement of the activities of Dentistry in the field of Interfaculty sports although strong teams have been entered in the various sports. In the major sports of Football and Basketball this year Dentistry contributed two men who acquitted themselves creditably. Our own Tommy Rogers was in there booting that ball and fighting every second. Chris Cagle,

# PHAROS - - 1938

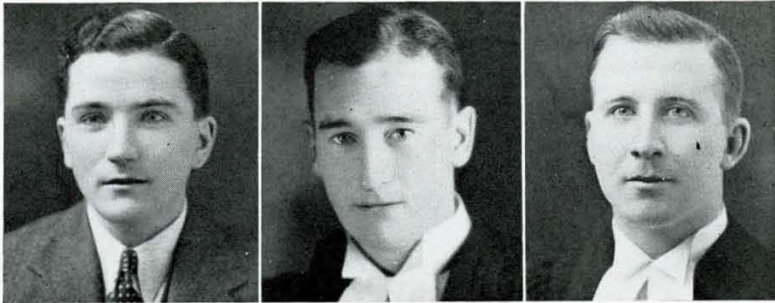

the big man, made himself felt every moment of his playing time. The success of this year's Boxing squad is due to the untiring efforts and valuable time given by Abe Becker, Dentistry Representative on the D. A. A. C. A member of the Dental Society, Bill Scott, efficiently managed the Basketball team.

Along with sports, it is only fitting that the contribution of the Dental Society towards the success of the Dalhousie Band should be mentioned. The praises of this worthy organization have been sung by many a Dalhousian and it is with righteous pride that we point out that the backbone of this organization is composed of five dental students. The band was managed by our President, Clem Egan.

The progressive spirit of our faculty is sure to carry on in the coming year. There are many shining lights to follow after the present senior class has gone.

ROWAN COLEMAN,  
Vice-President.

W. T. COOK,  
President.

BENSON ROGERS,  
Secretary-Treasurer.

## The Law Society

---

A fast-fading year. Once again the Society reminisces and sets down its activities in humble exaltation.

Again Law has contributed notably to the various activities of the campus.

The Annual Law Ball was held in the Nova Scotian Hotel on Friday, November 26, under the distinguished patronage of the Honourable Angus L. MacDonald, Premier of Nova Scotia and the Honourable J. H. MacQuarrie, K.C., Attorney-General of Nova Scotia. The success both social and financial was due largely to the efforts of the Dance Committee, T. M. Sheehan, Chairman, Jack Gillis and Vadim Koretsky.

The Moot Courts which are such a valuable supplement to the more formal studies, were ably directed by a committee consisting of John Cameron, Ian MacKeigan and Babbitt Parlee.

The Mock Parliament after the lapse of a year, once more brought to the Munro Room the atmosphere of the pomp and ceremony of the Houses of Parliament under the guidance of Laurie O'Brien, Prime Minister, and Victor Thorpe, Leader of the Opposition. The formation of a strong independent party under the leadership of John Dickey provided added interest to the proceedings. The three sessions were well

# P H A R O S - - 1 9 3 8

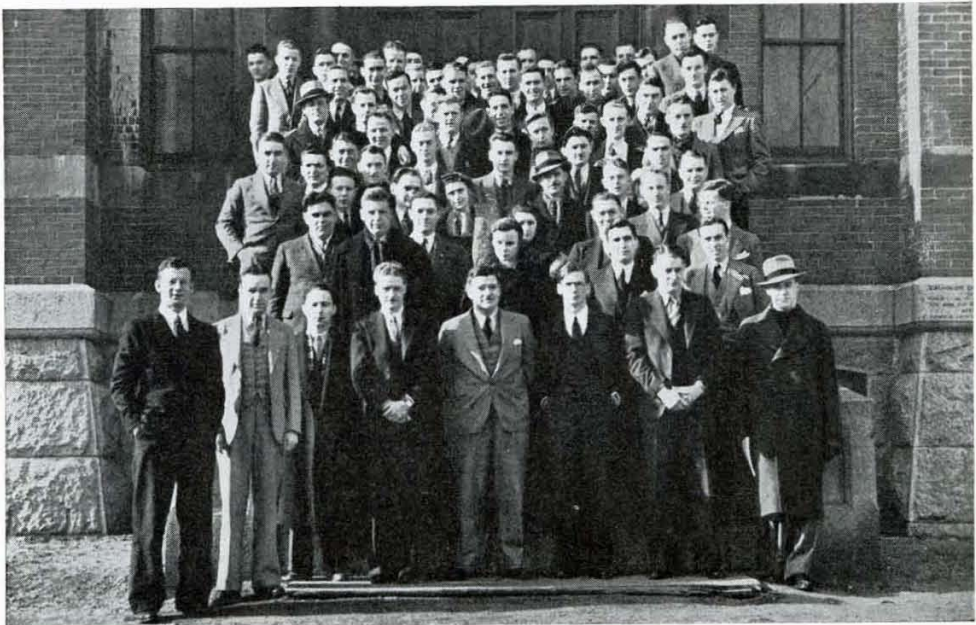

attended and featured keen arguments and lively discussions of current topics. Many graduates of the Law School who later attained prominence in the political life of this country received their introduction to parliamentary procedure and practice at sessions of the Mock Parliament.

Law entered strong teams in all branches of Interfaculty sport but had to content itself with the Basketball Championship. Managers of the law teams were: Guy DeWolfe, Football; Bob Armstrong, Basketball; Fred Regan, Hockey and John Mullane, Softball.

It was with profound regret that the Law School learned of the sudden death of the late Mr. N. E. MacKay, K.C., the popular lecturer in Insurance.

Although Law is generally well represented in the debating arena, the defeat of the University of New Brunswick Law School debaters by John Dickey and Carleton Smith was especially welcomed in view of the defeat of the last year.

As the finale to the more serious activities during the curricular year, the Annual Society Banquet looms ahead as the sine qua non of a successful legal year.

BROWN CROSBY  
Secretary

JAS. MCGUIGAN  
President

MAUREEN ALLEN  
1st Vice-Pres.

FRANK FENNELL  
Treasurer

## The Newman Club

---

The Newman Club was established at Dalhousie University in the year 1919, for the purpose of bringing together the Roman Catholic students of the University, and to promote their religious and social interests. Through the cooperation of members and executive this purpose has been admirably fulfilled in the past, and there are the highest indications for its every success in the future.

The activities of the past year have been quite similar to those of previous years. They consisted mainly of regular monthly meetings at which various topics of interest were discussed, and at which some of our prominent citizens frequently appeared as guests. The Communion Breakfasts, two each term, had a particularly good attendance, and the annual party at the gym is becoming more and more popular every year.

In spite of its limited membership, the Club has long enjoyed the reputation of being one of the most active and outstanding societies on the campus, and although its program has been limited to some degree due to the many other student activities on the campus, it is commonly felt that its existence is more than justified, and that it will continue to be a vital part of Dalhousie University.

## Delta Gamma

Delta Gamma was given a great impetus this year by an influx of a large class of enthusiastic freshettes, who immediately set out to give us all they had, and got behind every branch of activity with a determination to make it go. Instead of the annual Tea Dance, which is held early in November, an informal dance was held at Shirreff Hall which was one of the most successful in Delta Gamma's history. Competitive debates were held as trials for the Intercollegiate Debates. Anne Hirsch, as manager, coached a team who later on debated King's girls. Shortly after Christmas, Dorothy Bentley entered a play in the Bennet Shield contest, the outstanding feature of which was the performance given by Ruth McQuarrie, Delta Gamma also inaugurated Open Saturday Night at Shirreff Hall which has proved to be one of the biggest successes in 1938. Through the kindness of Miss McKeen, one wing of Shirreff Hall was given over to Delta Gamma. It has proved a very convenient place for meetings, etc., and has in some small respect taken the place of a union room. In March the Dal. radio programme was given over to Delta Gamma. Peggy Merkel was in a large part responsible for its success.

Next year Delta Gamma, under the leadership of Zilpha Linkletter, should prove to be one of the outstanding organizations on the Campus. This year has proved that there is plenty of material and ability among the co-eds, and that the only thing they have lacked in the past is an organization which will give them the opportunity to use this ability.

---

## Student Christian Movement

### EXECUTIVE:

President .....	JOHN GRANT
Vice-President .....	ZILPHA LINKLETTER
Secretary .....	LESLIE MACHATTIE
Treasurer .....	JOAN ANDERSON
Librarian .....	GLYNN FIRTH
Periodicals .....	WILSON MACKENZIE

First of this year's activities of the Dal S. C. M. was the sending of six delegates to the Dominion conference held at Lake Couchiching, Ont., in September. The S. C. M. also took the initiative in arranging for the National Conference of Canadian University Students, held in Winnipeg during the Christmas holidays, to which eight students were sent from Dalhousie and Kings.

Weekly discussion groups, led by students and senior friends, have been held on the meaning and implications of Christianity for the world of today, while three groups have met weekly under the leadership of Dr. H. L. Bronson to study the life and teachings of Jesus.

In the interests of Chinese Student Relief the S. C. M. has raised one hundred dollars, by means of a tag day in December, by the sale of candy at a Glee Club show, and by running a canteen at Shirreff Hall.

The Dal S. C. M. has been fortunate this year in having the Maritime Secretary of the Movement, Miss Kay Hockin, make her headquarters at Shirreff Hall, and also in the visits of two National Secretaries, Phil Beattie, and Miss Margaret Kinney.

Plans are now being laid for a Maritime Intercollegiate Conference in June and for a Seminar with Dr. Fritz Kunkel, eminent German psychologist, in August.

---

## Cavendish Club

The Cavendish Club, a society whose membership is open to any Science student, aims to encourage the discussion of scientific subjects. Now in its second year the club has increased in membership and activity.

During the term the club has been addressed by various members of the Faculty. Notable among these were, an address by Dr. G. Young on "The Nature of Living Matter," a Rutherford Memorial Meeting addressed by Dr. G. H. Henderson, and a discussion of Forensic Pathology by Dr. Ralph Smith.

By courtesy of The Maritime Telephone Company a field trip was made through the local telephone exchanges for the purpose of seeing the practical application of scientific knowledge.

The executives of the Club are the following:—

President .....	JOHN R. DACEY
Vice-President .....	ALLAN C. TOPP
Secretary .....	FLORENCE ARMSTRONG
Treasurer .....	DONALD S. ROSS

RICHARD MURPHY  
1st Vice-Pres.

FRED DAY  
President

NANCY LAWSON  
2nd Vice-Pres.

## Council of the Students

---

The work of the Council of the Students consists chiefly in routine business which varies little from year to year. This body, elected by the students and representing them, deals primarily with the handling of the funds entrusted to them by the students for the maintenance of the various activities on the campus. It is also the intermediary between the students and the officials of the university. To the greatest extent possible it attempts to bridge the gap between the Senate and Faculty on the one hand and the students on the other.

The Council of the Students for the year 1937-38 has tried to do all this as well as to supervise in general the activities of all organizations coming under its control.

The Council has been the first to hold office under the revised constitution as adopted in 1937. From the experience gained in one year it was found that this new constitution has proven to be a successful one—a few smaller details necessitating amendment.

The Annual Council Dance held at the opening of the fall term in the gymnasium was a most successful and a thoroughly enjoyable one. This dance is the means by which new students are introduced to the social life of Dalhousie.

During the fall session interest in the National Conference of University Students was aroused to such an extent that the Council saw fit to finance the expenses of six Dalhousie students to the University of Manitoba where the Conference was held during the Christmas vacation. Although this was one more item of unexpected expense it was borne gladly by the Council, and Dalhousie, as is related elsewhere in this book, did much to extend her relations with other universities in the Dominion, and brought back a host of new ideas to her campus.

A new problem arose this year out of the budgets of the Band, Bulletin and Symphony Orchestra. However it was felt that these organizations were most worthy of support, and the Council had no compunctions whatever in granting them money

# PHAROS - - 1938

without necessitating any lesser amounts being granted to the more established organizations.

Probably one of the most important and worthy experiments of the Students' Council career for some time was the outlay and supervision of the skating rink at the Carleton tennis courts. Good weather aided this experiment and for two weeks the rink was at the disposal of all students. The famous band came through again to supply the music for a skating night. A dream of Dalhousie students for many years, the Council hopes that this attempt to spend their money as the students wish will promote the interest for a rink of their own.

The Council is, as declared, the supreme body of Dalhousie students. This year it is of the opinion that it has received the active interest and support from the student body as a whole. It has tried to be impartial and just in its decisions, and everything it has done, was carried out with the interests of the student body at heart. The fact that so many different organizations come under its supervision makes it hard at times to realize the minor difficulties some of these may have had. Yet in general the co-operation which the Council has received from each body has been most gratifying.

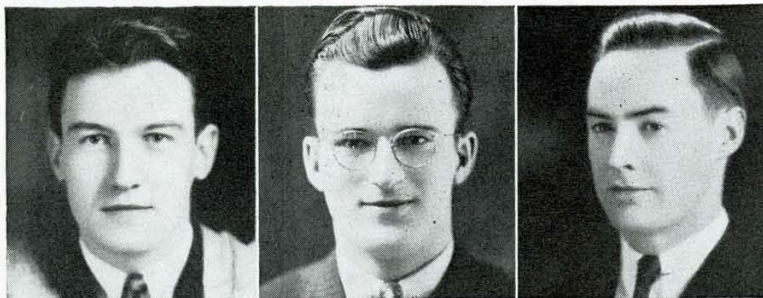

Ideally mistakes are undesirable, but now on looking back over the years it seems that Dalhousie students are far richer for them. Profiting by the experience gained the Council in future years will be a far more efficient body in dealing with problems of student life.

To the student body the Council is most grateful for the cooperation received and is most sincere in wishing the student body of 1938-39 a most happy and successful year.

## D. A. A. C.

The Dalhousie Amateur Athletic Club, better known as the D. A. A. C., has completed another successful year. The average student sees the D. A. A. C. functioning on the playing fields by watching fellow students uphold the honour and tradition of Dalhousie. The greater part of the Club's work is done quietly and efficiently.

The executive work of the Club is carried on by the Executive, who are elected at the Annual Student Elections. The Executive, together with the representatives of the various faculties and two faculty members, holds regular meetings. This group, known as the Management Committee of the D. A. A. C., decides the general policy of the Club, passes budgets, appoints managers and other officials, and nominates candidates for the elective offices of President, Vice-President and Secretary.

The managers and their assistants are the connecting link between the Managing Committee and the teams. They supervise the teams and attend to the general welfare of the athletes.

The main reason why the D. A. A. C. has been so successful is that all members of the Managing Committee act for the good of the club and not for individuals. This group considers what is best for the University, the members of the Club and the sport, itself, before a decision is reached. It has done its utmost to arouse greater interest in athletics this year. Some of the teams have not been very successful from the point of view of championships but most important Dalhousie's reputation for fair play and good clean sportmanship has been upheld.

The Tennis team commenced the athletic season by winning the Maritime Intercollegiate Tennis Championship for the sixth consecutive time. Football was not as successful but this was chiefly due to the large number of injuries. Fall Interfaculty sport saw the best track meet in many years and lively football games.

In Hockey a team was entered in The Nova Scotia Hockey League. This was rather a change from the general policy of the D. A. A. C. but it was found that a satisfactory team could not be found for the Intercollegiate League. While Dalhousie did not win the league the team reached the finals. Interfaculty Hockey saw a better brand of play. This was due to the increased interest of the professional schools and the freshmen.

# PHAROS - - 1938

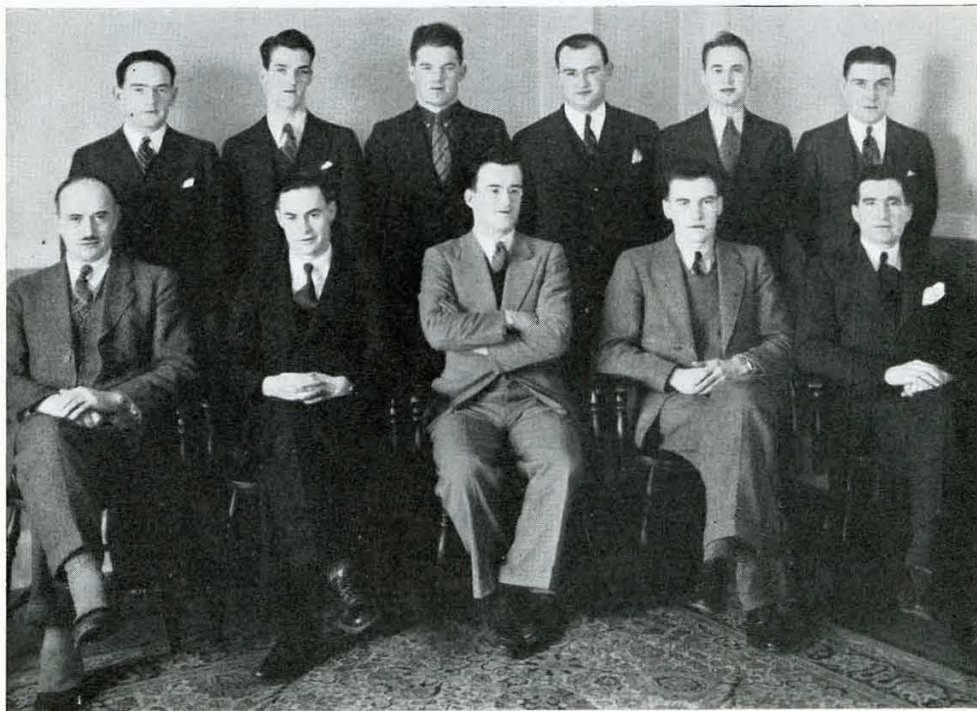

Basketball had an enjoyable season and it is hoped that next year will see Dal represented in the Intercollegiate Basketball League. Interfaculty basketball and softball had successful leagues. Badminton, Wrestling and Boxing showed increased interest.

The D. A. A. C. installed a towel system for the use of the students and although it has been used to a considerable extent it is expected that next year the students will use this convenience far more.

A problem that the Club has not yet solved is that of pointing out to the University officials the necessity of employing a man capable of instructing the students in the fundamentals of the different sports carried on by the Club. However it is hoped that this will be taken care of in the next year.

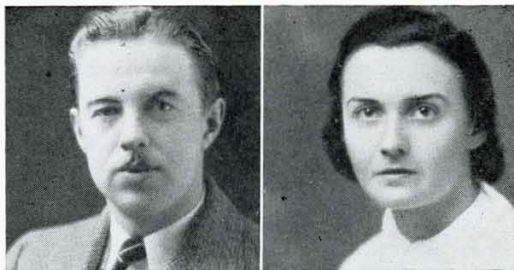

The D. A. A. C. through the financial aid of the Alumni held a Letter Banquet at the Halifax Hotel on March 7th. All members of the athletic teams together with some of the University officials and Alumni were guests at this enjoyable function. It proved to be a grand get-together and there is every hope to believe that it will be an annual event.

## The Glee Club

At the close of another college year, Glee Club reviews its season and finds that, although the schedule has not been up to standard, several branches have been considerably improved. The seeming disinterest in Glee Club, usually the most widely attended college activity, may be explained by the lack of cooperation with the executive and a general unwillingness of the students to give their time to the organization; indifference is difficult to combat.

We have had a revival of the Choral Society, under the direction of Mr. Harry Dean, Director of the Maritime Academy of Music; the Symphony Orchestra, conducted by Mr. David Lloyd, Halifax Conservatory of Music, was a feature of many shows; the Band, of football field fame, has settled down to becoming a really concordant group, and was heard most enthusiastically on various occasions.

The first presentation was, as usual, given for the Freshman, and took the form of a one-act play, "Five Birds in a Cage." It was ably

# P H A R O S - - 1 9 3 8

presented by a veteran cast, and set forth the plight of five persons trapped between floors in an elevator.

The Freshmen chose a three-act play as their offering to the Glee Club program. This choice was a bit unusual, the show in past years consisting of a vehicle which brought the talent of the newcomers before the audience. They did a commendable job, however on "One Mad Night," and were assisted by the orchestra which provided the music between acts.

After Christmas, "Women at War," the first of a series of one-act plays in competition for the Connolly Shield, was given by Delta Gamma. Credit is due the girls of the cast, who did extremely well with a play of the England of Cromwell and Charles I, of which the dialogue was not sufficiently intriguing nor the action such as would appeal to the audience. With this play, however, The Choral Society made its initial appearance. They sang a "Czechoslovakian Dance Song" and "Dear Land of Home" from "Finlandia."

A group of Education students and the Players' Guild provided the Glee Club with the next show. "The Roof" was presented by Education, and a farce based on "The Fascinating Foundling" containing references to certain well-known faculty members was portrayed by the Guild, members.

The last of the series for the year was Pine Hill's annual offering, in which was seen two plays, both written and directed by Cliff Stewart, who merits a word of praise for his wit and originality.

Munro Day provided the climax for Glee Club activities. "My Tomboy Girl," a musical comedy in three acts was presented. It was the outstanding show of the year, and provided a pleasingly light and varied succession of dancing, singing and dialogue. The success of the show was due largely to the cooperation of the veteran, "Doc" Roy and to the directing ability of Mr. J. P. Connolly, who gave the Club his willing support.

The Glee Club especially wish to thank Professor C. L. Bennet for his adjudication of the one-act plays; Mr. Lloyd, under whose direction the orchestra proved such a dependable and pleasant source of entertainment; Mr. Dean, who has assumed once more the leadership of a Choral Group to which Glee Club looks in future for the cultivation of better music at Dalhousie; Henry Wamboldt, band maestro, under whose baton the band worked well and diligently; Mr. Connolly, in whom the Club is assured of an ever present ally in all its dramatic attempts.

To the incoming executive is extended best wishes for a successful year; may Glee Club flourish under their leadership as it never has before.

Back Row—Bob Weir, Johnny Morrison, Lloyd Dalton, Fred Dansiger, Bob Levin. Front Row—Graham Bennett, Al Sloane, Henry Wamboldt, Irv MacGillivray, Henry Gold, Lew Archibald, Carvell MacIntosh, Clem Egan.

## The Dalhousie Band

The new Dalhousie Band has completed the second year of its existence. After getting away to a slow start at the beginning of the year, the progress made by this young campus organization was great. It has caught the fancy of the students as no other group has done.

Practice sessions were held regularly and were well attended. The Band played at all the football games and made the trip to Acadia with the team. It was in attendance at hockey and basketball games. Many lively moments were furnished at Glee Club shows by the fine performances of the Band. This year the Council decided to hold a skating night at the Carleton courts and the attendance of the band made it a successful affair. The last performance of the year was its presentation on Munro Day.

For the first time in history of Dalhousie bands gold "D" 's were awarded to six of the members of the band who had fulfilled the requirements drawn up last year.

The Band was under the capable direction of Henry Wamboldt and the management of Clem Egan.

Back Row—Bill Scott, June Duchemin, Jean Phillips, Marg. Harvey, Edna Meager, Norm. McRitchie, Lorna MacLeod, Shirley Kirkpatrick, Ian MacGregor. Middle Row—Prue McKim, Jeanne Forbes, Joyce Piercey, Marion Moore, Laura Stanley, Ruth Mosher, Ruth MacQuarrie, Audrey Miles, Hazel Brownhill, Doris Hilchy. Front Row—Ruth Wylie, Joan Blackwood, Frank Martell, Gus Day, Marion Geldert, Lloyd Dalton, Ev. Embree, Walter Murphy, Francis Arnold, Isabel Huddleston, Kay Faulkner.

## The Choral Society

For the first time in many years a choral society has successfully functioned throughout a college term. Two reasons account for the success of this group. First: There was a need in the Glee Club for a choral group with some training for the most popular type of show, the musical comedy. Second: A large number of students were found to be keenly interested in this class of activity.

Under the direction of Mr. Harry Dean the Choral Society was formed in the late fall to fill the need of the Glee Club. Thirty to fifty members have attended meetings of the group through the year.

After Christmas the Choral Society was approached to undertake "H. M. S. Pinafore." It was felt that this was too ambitious an undertaking for so late in the term. Instead it undertook the producing of "My Tomboy Girl."

This show was considered by older students to have been the best for some years. The entire cast came from the Choral Society. It showed that this is the type of production which the students enjoy. The success of this show has shown the ability of this group and a more ambitious show is promised for next year. It is hoped that many more students will partake of the joy of chorus singing.

JAMES MILNER  
Vice-President

BABBITT PARLEE  
President

DOUG. MCKEAN  
Secretary

## Sodales Debating Society

Sodales began its 1937-38 year with an entirely new executive elected in the spring of 1937. At the beginning of this year there were on the campus only two debaters with previous intercollegiate experience. At the time of writing Sodales has sponsored six major debates.

The first important debate of the year was held in the gym. on November 12th, when Jack Finlay and Bob Wallick defeated the N. F. C. U. S. team from Bishop's University and MacDonald College. Dalhousie successfully upheld the affirmative of the resolution that the sit-down strike is a just weapon in the hands of organized labour.

In the field of intercollegiate debating under the M. I. D. L., Dal met its first defeat at Acadia when Doug. McKean and Stuart Lane lost out to the valley university. Later Doug. McKean and George Hagen won over a team from King's College. There remain two more such debates. Neil MacLeod and Jim Milner will meet representatives from St. Francis Xavier and Laurie Mushkat and Carl Smith will debate Mt. Allison men during their annual visit on the campus.

Two novel debates were planned, the first being a radio battle with St. Mary's. Graham Murray and Harry Housser won a decision from the city college over the facilities of radio station CHNS. Early in March Dalhousie is to be host to a debating team from the University of West Virginia, the Dal team being Stuart Lane and Harry Housser. The subject is a timely one: Resolved that the rearmament of the U. S. A. and Britain is a contribution to world peace.

Following the happy custom instituted three years ago, the Law School met two men from the U. N. B. Law School in a platform debate, this year at Dalhousie. John Dickey and Carl Smith won the decision of the judges. Again following custom, Jack Finlay and Len Kitz met a team from the same school in a debate over the Eastern network of the CBC. Dalhousie received the decision this time as well.

# PHAROS - - 1938

In intra-mural debates Sodales has been quite active. The usual interest was shown in the Bennet Shield debates, under the management of Doug. McKean. Those taking part in this series were Marjorie MacIntosh and Walter Lawson (Frosh.); Prudence McKim and Alan Bigelow (Sophmores); Zilpha Linkletter and George Piercey (Juniors); and Mardi Schwartz and John Grant (Seniors). An interesting debate was held between the Law Society and the Medical Society when Laurie O'Brien and Harry Houser met Irving Rubins and Roy Gold. An audience vote split the decision, Chairman Milner refusing to cast the deciding ballot.

Sodales is deeply indebted to those down town gentlemen who on so many occasions kindly gave their time and ability to act as judges for student debates. Appreciation is also expressed to members of the faculty who this year as always have been eager to help when needed. The Executive have done their best and wish the incoming officers greater success.

---

## Moot Court

---

For many years it has been a requirement for a law degree that each student take part in moot court proceedings in each year of his professional course. In the first year the untried beginner acts as junior to an accomplished leading counsel, a second year man, who presents an appeal from a doubtfully decided case to the final Court of Appeal, The Supreme Moot Court of Dalhousie, on the bench of which sit as the most learned justices the wise men of the third year class. From counsel the committee selects four students who the following year present an appeal before the representatives of the bench and bar of Nova Scotia. The two best in the opinion of the judges are awarded the Smith Shield for that year.

The docket of fourteen cases argued this year produced some of the most finished and most learned appeals in the annals of the school. A feature of other years, the criminal trial of some luckless freshman from the Arts faculty, was missing this year, the committee and students feeling that the better course is to confine the activities of the school to the more erudite branches of the law and to wait until after graduation, when grim necessity forces the issue, to acquire the rough and tumble technique of the criminal courts.

In the final appeal of the sittings, the Smith Shield Case, the candidates presented their cases before the bench composed of the Honourable Mr. Justice Doull of the Supreme Court of Nova Scotia; the Honourable J. H. MacQuarrie, K.C., Attorney-General of Nova Scotia, and the Honourable J. A. Walker, K.C., President of the Nova Scotia Barristers Society. The decision was awarded to the respondents, Ian MacKeigan and Albert Hanway. The Smith Shield award on the basis of presentation was given to the Appellants, Babbitt Parlee and Benson Rogers.

The Moot Court Committee was composed of Babbitt Parlee, Ian MacKeigan and John Cameron. The Committee wishes to express its appreciation to the members of the Law Faculty for their continued interest and invaluable interest, and to judges and counsel for their cooperation which made possible the successful sessions of the Supreme Moot Court of Dalhousie.

## The Dalhousie Gazette

---

During the past year the Gazette has endeavoured to maintain the high standard set by other years. The freedom of the student press, never a meaningless phrase at Dalhousie, was again upheld. The Gazette witnessed several changes at the University during 1937-38, outstanding among these are the Open Houses at Shirreff Hall each Saturday night, the use of the common rooms in that building for all women students, and the D. A. A. C. Letter Banquet. This latter innovation, a tribute to our athletes, has been mooted by the Gazette for the past two years and according to present plans will become an annual affair. The publication was also responsible, to a large degree, for the improvements at Shirreff Hall. Fearless in its views the Gazette this year has attacked any policy detrimental to student welfare and truly has been a medium for student opinion. Throughout the year the editorial policy has been to publish all student articles and letters, except those definitely slanderous or destructive to the University.

The institution of the Canadian University Press at the National Conference of Canadian University Students, linking together the student publications of the most important universities in Canada, provided Gazette readers with the highlights of student life on other campuses. These new items, together with feature stories, are all part of the C. U. P. service which is destined to become an integral part of every Canadian college paper.

The Gazette takes credit for its part in arousing student interest in campus affairs. The revival of student spirit, which began shortly after Christmas and reached a new high in the campus elections in March, is due, in part, to the efforts made by the editors and staff in placing before the student body the mechanics of the campus governmental system.

In keeping with other years the co-eds published one pre-Christmas issue of the Gazette. This issue was well up to standard and reflected credit on the co-eds.

In their quest for a still better Gazette in the future the editors have endeavoured to give it a definite form of continuity and it is hoped that year after year the editorial policies will be directed by those who have been through the mill.

At the culmination of a most successful year the editors wish to thank members of the staff and the many contributors for their assistance in publishing this, the "Oldest College Paper in America." Appreciation to the student body for its cooperation as a whole is also extended.

The Gazette of the Dalhousie University is pleased to announce the election of its new Editor in Chief for the year 1938-39. This is to be Leonard Kitz, who has been elected to the position of Editor in Chief of the Dalhousie Gazette. The Gazette is a weekly publication which is published on the first Monday of each month. It is a non-profit making organization and its proceeds are used for the benefit of the Dalhousie University. The Gazette is published by the Dalhousie University Press, Halifax, N. S.

EVATT MERCHANT

RICHARD MURPHY

ARCH MACKENZIE

LEONARD KITZ

IAN MACKEIGAN

ROLAND HURST

JAMES MILNER

MARJORIE MCLEAN

R. L. ARMSTRONG

JOHN DICKEY

Early election results for the Gazette show that Leonard Kitz has been elected to the position of Editor in Chief. This is a great honor for Leonard and a reflection of the high regard in which he is held by his fellow students. Leonard is a member of the Dalhousie University and has been active in many of its organizations. He is a well-known and popular student and is sure to bring to the Gazette the same high standards of journalism that he has shown in his previous work.

Evatt Merchant, Richard Murphy, and Arch Mackenzie are also members of the Dalhousie University and have been active in many of its organizations. They are all well-known and popular students and are sure to bring to the Gazette the same high standards of journalism that they have shown in their previous work.

Leonard Kitz, Ian MacKeigan, Roland Hurst, and James Milner are also members of the Dalhousie University and have been active in many of its organizations. They are all well-known and popular students and are sure to bring to the Gazette the same high standards of journalism that they have shown in their previous work.

Marjorie McLean, R. L. Armstrong, and John Dickey are also members of the Dalhousie University and have been active in many of its organizations. They are all well-known and popular students and are sure to bring to the Gazette the same high standards of journalism that they have shown in their previous work.

## The Dalhousie Bulletin

The purpose of the Bulletin is to keep the students posted on each and every activity that occurs at the University. It is the campus calendar and carries the complete affairs of a Dalhousie day.

The Bulletin attempts to keep the members of every team, of every club—the dramatists, the athletes, the musicians, the debaters, the local army and all spectators interested in any of the same, enlightened regarding the time, place and subject matter of each assembly or meeting that is held at Dalhousie. It's a big job.

The Bulletin has had an eventful year. On the rare occasion of an omission—infrequent catastrophe—of a Players' Guild item rumour declared the group's vitriolic pen would be addressed against the Bulletin. On an unhappy instance when a C. O. T. C. note was in error the editors feared an early mobilization and attack by that body.

Five hundred copies of the Bulletin are issued every Monday, Wednesday and Friday morning. Brief and to the point are the average dozen notices carried by the Bulletin. For example: DANCE "Gentlemen, It's economically sound. 75c. provides good music, good novelties, good food for two. Lower Gym. Saturday night." TOWELS. "After next Monday loving D. A. A. C. officials declare cleanliness. No day at Dalhousie will dawn without fresh snow white towels in the Gym. for 5c. per rental."

And now with moist cheek, the last note for the year, SAY AU REVOIR "The triumphant march for the Convocation graduates will be held in the Gym., Tuesday, May 17 at 3.00 p. m. Good luck to all!"

Back Row—P. Isaacson, J. Gallant, J. Jamieson, D. Robb, C. B. Stewart, J. Rankin, B. Coady, G. Inman, L. Raider. Front Row—G. Parsons, S. Manchester, A. Schwartz, Robert H. Aikens, *Editor*; J. Haimowitz, P. Nonamaker, F. W. Morse.

## Dalhousie Medical Journal

This year marks the third birthday of the Dalhousie Medical Journal. The new staff took office at the beginning of the calendar, and not the academic year, so that the first number of volume three has been published and the second number will be printed the first part of April. The completion of the 1937-38 term will have seen published five articles by medical graduates and sixteen or more by medical students.

Thanks are extended to the new Alumnus Editor, Dr. C. M. Bethune, for the excellent manner in which he has edited the Alumni section. A debt of gratitude is due Dr. J. A. MacCurdy for his work in the first four issues, and to Dr. H. L. Scammel in the November, 1937 issue.

A Journal award was adopted during the year and approved by the Council of the Students. It consists of a gold "D" enclosing the emblem of the Students' Medical Society—a hand holding a pine cone. Presentations were made to six of the originators. In the future the acquiring of twenty points will be the basis for the award.

A Book Review Section, a new department, was added to the Journal in the February, 1938 issue. When books have been reviewed they are to be donated to the Medical Library. Several new journal exchanges were also established during the year.

The Medical School showed a great interest in the Journal throughout the term, and especially noteworthy has been the enthusiasm of the students of the pre-clinical years. The latter fact is very gratifying for it means a better publication in the years to come.

The circulation is increasing gradually, several hundred copies of each issue being printed. Many of each issue go to points outside Nova Scotia. It is largely to the Medical Alumni that the Journal is now turning to increase its circulation. The publication is being supported by the medical students and faculty. Financially, the Journal continues to support itself.

In keeping with the Dalhousie Reunion to be held this summer, a part of the next issue is devoted to this topic and it is hoped that it may be interesting and of some value in the promotion of such a major event in the history of the University.

## “Pharos”

It was not without much deliberation that the Council of the Students again undertook the difficult task of publishing “Pharos,” the Dalhousie Year Book. The editions of previous years although of a high editorial quality were not financially successful. The opinion was held by a small group that the financial assistance rendered the year book could be used to better advantage by supporting other activities of the students. With the realization that the publication of “Pharos” would be discontinued, the general student body rallied to its cause. The aroused interest of the students convinced the Council that the year book was a necessary part of student activities.

The staff of the 1938 “Pharos” were fully aware of the task which they undertook in preparing this edition for publication. It is their hope and sincere belief that “Pharos” this year will be a successful financial venture. Only time can tell if they were justified in that belief.

## The National Conference of Canadian University Students

As a climax to strenuous preparatory work all fall, the Dalhousie representatives spent five eventful days at Winnipeg during the Christmas holidays attending the National Conference of Canadian University Students. The Dalhousie delegates were accompanied by Rod Smith of King's and Glynn Firth as an unofficial delegate.

The National Conference was attended by over three hundred students from twenty-five Canadian universities and colleges. On each campus an enthusiastic campaign paved the way for a successful gathering at Winnipeg. At Dalhousie during the autumn a series of lectures was given by notable local speakers, and, most important, over one hundred students were organized in eight different discussion groups—covering between them the whole range of subjects of interest to the thinking student—campus affairs, social, political, economic, religious and educational problems.

The Conference provided an unforgettable experience to those who attended it. Under capable leadership, and attended by many of the best student minds in Canada, it was an excellent forum for the clash of mind with mind, a breeding-ground for the germination and growth of new ideas. The high-light of the Conference was the exciting contact with the vigorous French-Canadian delegation. By the time of the conclusion of the Conference unity had emerged from diversity, a realization of common desires and common problems, and a recognition of the possibility of the solution of Canadian problems through understanding and patience.

The Dalhousie delegation returned imbued with these new ideas and ideals, conscious too of the need for increased student interest and thought concerning the problems facing the world today. In the realm of student affairs, however, the Dalhousians perceived that the problems faced by Dalhousie were little different from those faced by many other larger Canadian colleges, and that, to a large extent, Dalhousie had solved these more effectively than many.

After the Conference, in spite of a slight post-Christmas lag, the pre-Christmas work was continued. To this end the Dalhousie branch of the Canadian Student Assembly, the organization constituted at Winnipeg to carry on the continuation work of the conference, was enthusiastically established. A strong executive committee composed of Anne Hirsch, Chairman; Barbara Murray, Glynn Firth, Rod Smith and Reg. Stubbs, was appointed to continue the discussion group activity, and to plan for the continuation of such work next year.

Absent—2nd Lieut. B. Rogers, Lieut. R. Hattie, 2nd Lieut. G. Murphy.

## Canadian Officers Training Corps

The Dalhousie-Kings Contingent, Canadian Officers Training Corps has completed another successful training season.

This year the officer commanding the Contingent is Major A. Stanley Walker succeeding Lt.-Col. A. K. Griffin, retired. The Contingent is divided into two companies under its establishment—"A" Company with Capt. J. R. Cameron as officer commanding and "B" Company (King's) with Lieut. J. W. Douglas as officer commanding.

The primary object of the C. O. T. C., which is to provide students at universities with a standardized measure of elementary military training with a view to their qualifying eventually for commissions in the Active Militia, has been faithfully carried out. Twenty candidates from "A" Company sat at examination to qualify for "A" Certificate and one to qualify for "B" Certificate of proficiency.

The training course, which included drill and small arms training, tactical exercises, map reading and lectures in administration and organization, has been improved greatly this year as was shown by the steady attendance and continued interest of the members.

The training season extended from the fifteenth day of October last to March twenty-eight, and consisted of twenty-four parades held each Monday night during the college term. The Annual Inspection was held at the last parade. No camp was held at McNab's Island but it is hoped that one will be held next year.

Annual shooting classifications were fired at the Armouries and proved satisfactory. Once again the Contingent turned out in force to march in the Remembrance Day Parade.

The Contingent entered both a Senior and a Junior Rifle Team in the City Rifle League, and made a creditable showing. Various trophies and prizes are offered in annual competition between "A" and "B" Companies and also within "A" Company. At date of writing they have not been awarded.

The year's social activities were marked by a smoker and the training season was concluded with the annual banquet. With the increased efficiency shown in the unit this year its continued success is assured.

## The National Federation of Canadian University Students

Although few are aware of the fact every Canadian university student is a member of the N. F. C. U. S. or to give it its full title, The National Federation of Canadian University Students. This Federation during the past ten years has been carrying on its national services unpublicized and almost unknown since the very nature of its organization is such that only a small minority of the student population ever come in direct contact with the N. F. C. U. S. Its purpose may be summed up as follows: "To promote in every way possible a better understanding among all students; a greater degree of cooperation between all Canadian universities for the promotion of national interests and to provide a means for developing international relations with student groups in other countries."

This year during the Christmas vacation, the Bi-annual Executive Council meeting was held at Winnipeg. The representatives of twenty universities and colleges gathered to review the past two years and to formulate plans for future activities. It was decided to establish a Central Headquarters in Ottawa and appoint a travelling Sect.-Treas. As a result of this council and with the cooperation of every student the N. F. C. U. S. looks forward to improved facilities for carrying out its projects.

At the present time the Federation is concerned with: International Student Relations; Student travel athletic purchasing arrangements; student travel; Reduced travel rates in America and Europe; Information bureau; Canadian university press; Reduction in play royalties; Debating; Exchange scholarship plan and a National Employment Bureau.

Under the Federation Exchange Scholarship plan two Dalhousie students are attending "exchange" universities—Betty Pearson is at Queen's University and Harvey Veniot is at the University of Saskatchewan. This year at Dalhousie we have two federation scholars—Helen Wood from the University of Alberta and Donald Whitman from the University of Saskatchewan.

Looking to the future we see an organization that shall serve every need of the Canadian student within its scope, and exert a powerful influence in the future of the Canadian people since through the medium of N. F. C. U. S. shall speak the voice of University students.

HENRY B. ROSS,

N. F. C. U. S. Rep.

# ATHLETICS

# PHAROS - - 1938

## Senior Football

Bud MacKenzie, Manager

Under the coaching of Dr. John Rankine and Prof. Fletcher the 1938 Tigers arose from ranks sadly depleted by the preceding graduation. After only two weeks of practice Capt. Cook led forth a team which showed more spirit and courage than has been seen in Dal for some years. The Halifax City Rugby League schedule opened on October 2nd, that is, before the opening of the Arts and Science Faculty. This early beginning handicapped the Tigers due to lack of practice. Although practice sessions were held every class day, it was some time before the team rounded into shape. As the team began to function smoothly misfortune struck the gold and black squad in the form of injuries. Every game and every practice added more names to the list of the injured. Fortunately, nobody was seriously hurt but the great number of injuries sapped the strength of the team.

The following men received their Athletic felt D's.: Cook, Irwin, Armstrong, Kerr, Mushkat, Phillips, Ideson and Thomas. These men played in at least five out of six games and were awarded their major letter in accordance with the high standard set by the D. A. A. C.

Although the football season from the point of view of the league standing was not a very successful one, yet the men who played on the Tigers' squad of '38 will long cherish the friendships and experiences of the playing field.

# PHAROS - - 1938

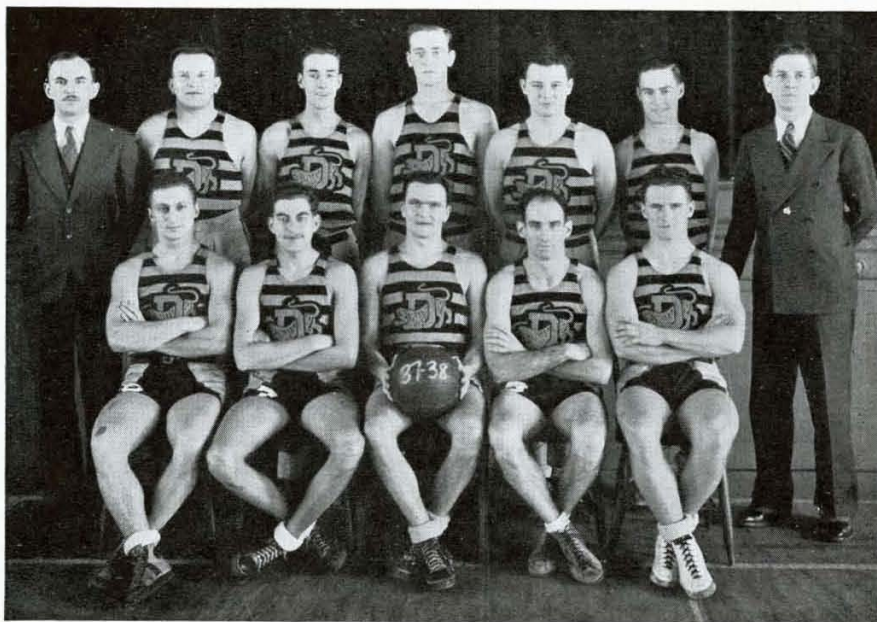

Back Row—Arthur Mercer, John MacDonald, Bud MacDougall, Graham Murray, Gordon Hennigar, Jim Rankine, Vic Haines, George McAvity. Front Row—Ralph Plumer, *Asst. Manager*; Craig Smith, Tom Bayeroff, Maurice Lipton, *Captain*; Ralph Lewis, Blair Purves, Bud MacKenzie, *Manager*.

## Intermediate Football

Bud MacKenzie, Manager

The fortunes of the Dalhousie Cubs followed those of the Tigers this season. Due to the difficulty in arranging the senior schedule, the Cubs were faced with long layoff periods without playing any games. Their ranks had to be constantly changed because many of the players were being shifted continually to fill the gaps made in the senior ranks by injuries. The result was that each game witnessed a new lineup. Nevertheless the Cubs gave a creditable account of themselves on the playing field. They won two games from the Wanderers and one from Navy but dropped two games to a superior Acadia squad.

The team was managed in a very capable manner by Ralph Plumer and the thanks of the team are extended to him as well as to Prof. Fletcher and Dr. Rankine, coaches of the team.

Back Row—Bill Scott, *Manager*; Sam Kagel, Bob Stech, Don Anderson, Sid Winters, Byron Hatfield, Charlie Steers, *Coach*. Front Row—Killem Seaman, Art Shainhouse, Cy Miller, *Captain*; John Martin, Rod Ideson.

## Senior Basketball

Bill Scott, *Manager*.

Basketball has taken a sudden and noticeable turn for the better this year under the careful guidance of Coach Steers. Only two of last season's lineup were present at opening practices and it was fortunate for basketball that Mr. Charles Steers was obtained as coach. He has wide experience in the sport and has demonstrated his ability to bring out the best in the players individually as well as a team. He is responsible for the introduction of a "zone" or "five man defence" style of play, so necessary under the existing rules. He has earned the praise and respect of all for the great interest he has taken in the Dalhousie team.

Sessions were held soon after the college term commenced. They have been continued two or three times a week, even through the Christmas vacation for the boys remaining in town.

The results shown to date in the City League merit favorable comment. Games, won or lost, have been close matches with the result in doubt until the last minute of play. Dalhousie showed superiority in play making but lack of accurate sharpshooters prevented the black and gold obtaining any large scores.

The team has made the customary trips to Acadia and Mount Allison Universities. The hospitality and friendly spirit, with the expected rivalry, made these games the most enjoyable of the season. More interest would be aroused between our neighbour universities and Dalhousie if it were possible to participate in the Intercollegiate League.

Back Row—Charlie Steers, *Coach*; John Hutton, Alec Hart, Edgar Stewart, Archie MacKenzie, Babe Stewart, Byron Hatfield, *Manager*. Front Row—Maurice Lipton, Arthur Mercer, Ken Colwell, Doug. Lyall, *Captain*; Doug. Cameron, Tom Bayeroff.

## Intermediate Basketball

Byron Hatfield, Manager.

Although the Dalhousie Cubs did not win the Intermediate City title they presented a creditable account of themselves. The league leaders were given a stiff battle by the Cubs before losing by a small margin.

The team consisted almost wholly of players from the Studley Campus. The large turnouts at practice sessions attested to the keen interest in the game. Under the guiding hand of Coach Steers great improvement has been shown in the newly introduced system of team play. Many of these players will be at college in future years and undoubtedly many of them will be found wearing the senior uniform next season. The Cubs journeyed to Acadia in a regular league game and had a thoroughly enjoyable trip. At present plans are underway to meet either Liverpool or New Glasgow in an exhibition game.

Back Row—Red Payne, *Trainer*; Lyon Kaufman, *Manager*; Jack Buckley, Ken Beer, Don MacGregor, Kent Irwin, Vince Ferguson, *Coach*; Tom Sheehan, *Asst. Manager*. Front Row—George Corston, Doug MacDonald, Harvey Conn, *Captain*; Korky Koretsky, George Collins, Poon DeWolfe.  
Absent—Jim Mont, John Mullane, John Carrol, Jack Marshall, Bain Munro.

## Hockey

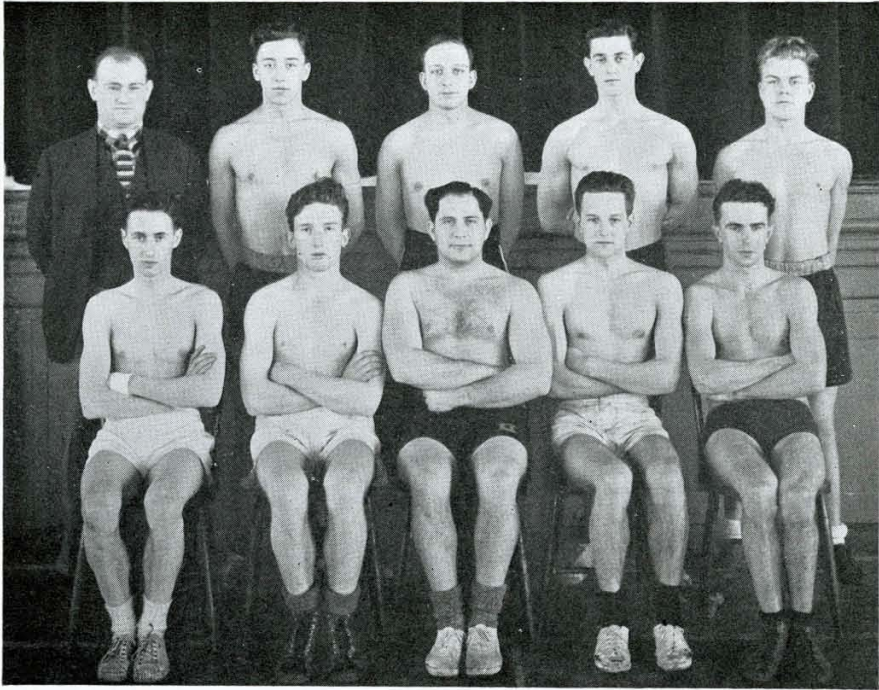

By Lyon Kaufman

Dalhousie entered a team in the revived Nova Scotia Hockey League much to the surprise of both students and public. The opinion prevailed that this league was too fast for college competition. The Tiger squad soon showed in the regular schedule that this was an erroneous opinion.

The team was fortunate in obtaining as coach the services of Vince Ferguson, the most popular member of the Wolverines, former Allan Cup Champions. Mr. Ferguson gave freely of his valuable time and vast knowledge of hockey and succeeded in teaching the players the fine points of the game. Too much credit for the success of this year's squad cannot be given to the coach.

The team, with a majority of the players of last year bolstered by a few new faces, dumfounded the critics. After many hard fought battles the Tigers finished the schedule in third place. Not given a chance against the more experienced Truro Bearcats, the black and gold squad, in a hotly contested series, eliminated Truro and won the right to meet New Glasgow for the league championship. The Tigers, after compelling their opponents to extend themselves to the limit, lost to New Glasgow in a series featured by fast skating, well executed plays and plenty of scoring by both teams.

Although the hockey season is over, memories of the league still linger. The Dalhousie team has won by its display of sportsmanship and gentlemanly conduct the hearts of the hockey public in both New Glasgow and Truro, in which towns most of the games were played. Our players are looking forward with pleasure to next season when they shall meet these friendly foes of the ice again.

Back Row—Abe Becker, *Manager*; Ralph Lewis, Tony Minichello, George McAvity, Henry Ballem.  
Front Row—Evatt Merchant, George Ferguson, Milt Lipitz, Hugh Henderson, Dick Davis.

## Boxing

Looking back in retrospect upon the accomplishments of Dalhousie in the ring of sawdust and resin a thrill of pride and satisfaction is experienced upon viewing the record presented. Without a nucleus of veterans upon which to construct a new fighting machine, Coach Abraham Becker built out of entirely raw material a legion of boxers for whom this "college by the sea" may be proud. Acting upon the principle that a "healthy mind in a healthy body" is the foundation stone of normal men, Mr. Becker gave unstintingly of his time and effort to produce not only a fine array of boxers but, what is more important, a group of healthy Dalhousie men.

Last year was notable for the many championships won at the Intercollegiate meet. The trials for the Intercollegiate Meet to be held at Mount Allison University have not yet been held but it is certain that the representatives chosen to represent the black and gold will be as successful as those of other years.

Often attending the workouts at the gym during the boxing sessions, it was inspiring to watch the courage and ring mastery displayed by these erstwhile raw recruits. With a spirit of fearlessness and self-confidence they were a virile gang of Dal students laying aside their books and showing their gloves to their opponents in friendly bouts. The men indulged in the sport for the individual's benefit as well as for the glory of the college. The college year of 1938 is over, but in the history of Dal boxing it will long be remembered for its new approach and perhaps its champions.

Back Row—Syd Lilienfeld, Sam Ghok, Sid Pauker, Moe Ulberg, Sid Winters. Front Row—Forbes Mountain, Leo Green, Sam Greenfield, Wil Gordon.

## Wrestling

Wrestling at Dalhousie this year has proved to be very successful. Interest in this sport is increasing and despite the loss of nearly all the members of the squad last spring a capable group of performers were to be found working out in the lower gym two or three times per week all year.

Much credit for the success of the team goes to Sam Greenfield. He has spent much time in promoting this strenuous sport. There was one difficulty in promoting wrestling this year and that was the lack of proper coaching. This like the Major sports of the University requires a capable instructor if the best results are to be obtained. It is hoped that a suitable coach will be obtained through the D. A. A. C., or the University for future years. Thanks, however, must be extended to Sid Pauker, a senior member of the squad who has devoted much of his time assisting the new-comers to the sport.

It was found impossible to make satisfactory arrangements to hold the annual wrestling meet with the local branch of the Y. M. C. A. This meet has always aroused interest in wrestling and gives an opportunity for good clean competition. Wrestling will make great strides forward to becoming a major sport at Dal if meets could be arranged. The D. A. A. C. hopes to be successful in arranging matches with other teams next season.

Back Row—Henry Reardon, *Manager*: Bob Dimock, Carl Garten, Zilpha Linkletter, Babe Stewart, Art Mercer, Prof. C. H. Mercer, *Coach*. Front Row—Joan Anderson, Irene Pentz, Maureen Allen, Charlotte Sullivan.

## Tennis

Henry Reardon, *Manager*.

Dalhousie was again the winner of the Maritime Intercollegiate Tennis Championship this year. Dal won this title for the first time in 1932 and has held it ever since. This speaks well for the tennis players at the "college by the sea." It is not too early to wish them the best of luck in the matches of next season.

The Dalhousie team won the provincial title and the right to meet the New Brunswick winners in the Maritime Intercollegiate final when it defeated the team of Acadia University at Halifax. In fairness to Acadia it must be mentioned that their team suffered the loss of several star players, but the score of ten matches to four on the courts of South End and Waegwoltic Clubs on Saturday, October 9th, showed that Dal had a very strong team.

Mount Allison having won by default from the University of New Brunswick arrived in Halifax determined to wipe out previous defeats suffered at the hands of Dal players. The final round played under ideal weather saw Dalhousie successfully defend their title and the New Brunswick Champions go down to defeat by a score of ten matches to three.

The management wishes to thank Prof. Mercer for his untiring efforts in coaching to which the success of the team is largely due. Prof. Mercer has acted as coach for many years and it is hoped that he will find the time to assist the players in defending their title next year.

The student body showed a very keen interest in the matches and a large group of students were on hand to see their fellow classmen defend the title so long in the possession of the Black and Gold team.

Back Row—Clarence Keddy, *Manager*; Don Fay, Joan Anderson, Ralph Swetman, Gordon Hennigar, Bill Douglas, George McKnight, Gordon Hisler. Front Row—Prof. C. H. Mercer, *Coach*; Pat Patterson, Doreen Dennis, Zilpha Linkletter, Maureen Allen, Margaret Hall, Anne McLean, *Coach*.

## Badminton

By Clarence Keddy, *Manager*.

The Dalhousie University team has had the most successful season of its career, winning forty-three points in the McCurdy Cup series, as compared with thirty points last year. Before the McCurdy Cup matches began on January 19th, nine practice games had been held. Some of these were against the combined Faculty—Alumni team. Not even the Christmas vacation was allowed to slacken the keenness of our players for constant practices, and four evenings were spent during the holidays on the six courts in the gymnasium getting the team into shape for the 1938 McCurdy Cup matches.

Through the efforts of Prof. C. H. Mercer arrangements are being made to stimulate interest in this popular sport in other Maritime Universities. This is hoped to be accomplished by Intercollegiate competition or by a special university competition to be held in conjunction with the Maritime Badminton Tournament.

In addition to the Oland Cup for Ladies' Singles and the Currie Cup for Men's Singles the club has been fortunate in receiving trophies for the three doubles events which have greatly increased interest in badminton this year.

Many of the players entered the Maritime Badminton Tournament held at Halifax. Miss Maureen Allen of the Dalhousie Team playing with Mrs. H. L. Roper of the Dalhousie Alumni team succeeded in winning the Maritime Women's Doubles Championship.

Our thanks are due to our coaches Prof. C. H. Mercer and Miss Anne McLean for their services during the season.

Back Row—Dot Bentley, *Asst.-Manager*; Barbara Schwartz, Marjorie Wood, Rita Harrison, Phyllis Hendry, Anne MacLean, *Coach*. Front Row—Florence Armstrong, *Manager*; Joan Blackwood, Joan Anderson, *Captain*; Charlotte Sullivan, Margaret Hall. Absent—Esther Dauphinee.

## Co-Ed Basketball

Florence Armstrong, *Manager*.

The interest shown by the girls in basketball has shown a marked improvement this season over previous seasons. Much of the credit for this increased interest goes to Miss Anne MacLean, coach of the team, whose instruction and cooperation were very valuable.

However, the fact must not be overlooked that the co-eds are taking a keener interest in sports as a whole in the college.

Setting the senior girls an example the freshettes turned out in large numbers to compete for positions on the team. Their interest and ability has made it possible to put a team on the floor equal if not superior to that of last year.

Practice sessions were called early in the term and during the entire season were well attended. This made it possible to have a team in shape for several pre-season games. Dalhousie has played the teams of the Halifax Academy, Maple Leafs and the Y. W. C. A.

The Co-Eds entered the Maritime intercollegiate League and so far have played one game with Acadia at Wolfville. Although not successful in coming out on top they gave a good account of themselves. Three games remain to be played and the chances are that Dal will be in the playoffs.

Back Row—Betty Sandell, Helen Connor, Peggy Gorman, Allison Conrad, *Manager*; Rita Harrison, Phyllis Hendry.  
Front Row—Jackie Cann, Betty Gilliatt, Margaret Robertson, *Captain*; Peggy Merkel, Barbara Schwartz.

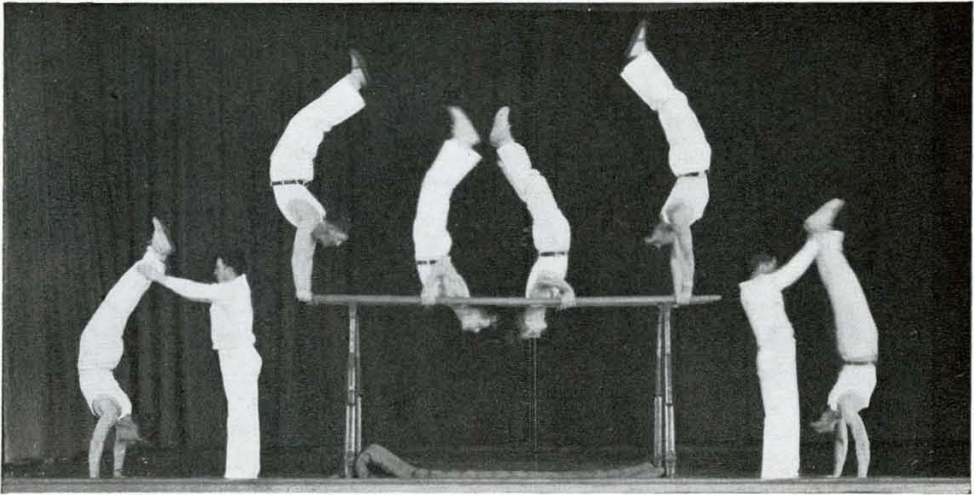

## Ground Hockey

Allison Conrad, *Manager*.

This year the Dal girls again took up ground hockey with a will and the entire season was marked by a large turnout for the team. The girls decided to wear sweatpants rather than shorts while taking part in this vigorous pastime. This met with a certain amount of criticism from the male students. As the season was rather cold and stormy the new type of uniform was a vast improvement as far as the players themselves, were concerned. The team enjoyed practice sessions with the male students and defeated the boys.

Anne Maclean assisted the girls most ably in the coaching field and the success of the team was due largely to her efforts. The freshettes are to be congratulated for the interest shown by them. They made the senior girls struggle to retain their positions on the team.

The annual trip to Windsor to play the girls of Edgehill was an enjoyable affair. For the first time the team travelled by bus and found it a very satisfactory mode of transportation. The game was played on a muddy field and the Edgehill girls, familiar with such playing conditions, were able to keep the Dal girls on the short end of the score. However, a hot shower restored the spirits of the girls and the return journey was a pleasurable experience. On November 10th, the Edgehill team journeyed to Halifax and showed that they were capable of playing a good game on a hard field as well as on a muddy one and succeeded in defeating the Dal Co-eds by a comfortable score. Miss Maclean entertained the teams at tea after the game. An abundance of good material was present this year and the increased interest together with the coaching of Miss Maclean should produce a capable squad next year. A wish of the best of good luck goes to the ground hockeyices of next season.

## Gymnastics

By Maurice Lipton.

---

Gymnastics is possibly the best form of physical exercise for the student. It is a form of physical exertion which although not too severe serves to develop many of the more important muscles of the body and makes for a general physical fitness.

This year we were unfortunate in not having a qualified instructor to conduct regular classes. This however did not hamper the interest in this sport. In fact the apparatus this year saw more use than in previous years.

Besides work on the high and low parallel bars, flying rings and horizontal bar, there was manifest this year a new interest in tumbling in which many fellows soon developed considerable ability. There is no doubt that the material is here, all that is needed is a bit of work plus capable instruction.

Active men in this year's squad included: Basil Whalley, Bob Walter, Barclay Dowden, Harry Grant, Tom De Blois, Abe Garson, Leslie McHattie, George McAvity, Henry Ballem and Maurice Lipton.

## Interfaculty Sport

Ed. Cragg, Manager.

---

During the college term of 1937-38 Interfaculty sport showed a revival of interest among the different groups on the Campus. This increased interest was mostly in evidence among the faculties at Studley with Arts and Science and Freshmen in particular making especially strong bids for the league titles.

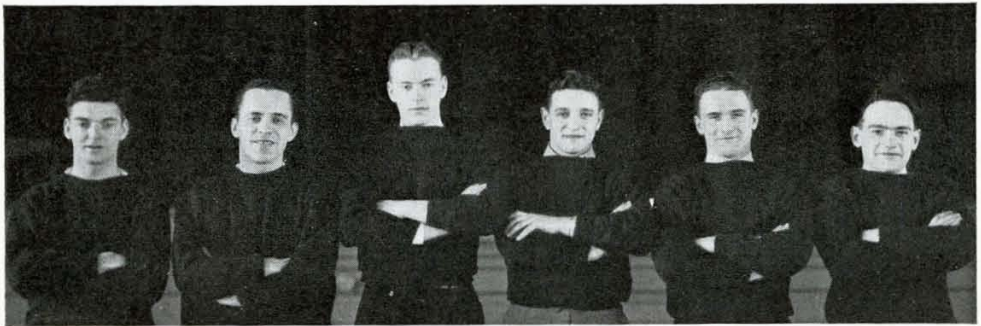

In the past few years the professional schools have held the upper hand in Interfaculty competition and this year was no exception to that rule. Medicine were in the thick of the fight for the championship in every department and succeeded in carrying off the majority of the titles. Law won one title and entered strong teams in the other sports.

The Interfaculty Track Meet was revived and proved to be a complete success. The Senate consented to the cancelling of classes for the afternoon and many students watched the various events. Ideal weather conditions prevailed. Strong teams were entered by almost every faculty and the competition was keen. It is hoped that circumstances next year will permit the holding of another Interfaculty Track Meet.

The manager takes this opportunity of expressing his thanks for the cooperation shown by the various faculty managers, and to those students who gave generously of their time in order to officiate at Interfaculty games.
