October 31. 1943.

Dear Mr. Raddall, -

For sometime I have been intending to write to you to tell you how very much I have enjoyed your book, "His Majesty's Yankees." As a Nova Scotian (Windsor) I can fully appreciate your lovely descriptions of the woods and the sea, - two aspects of my native land that I miss so much here in the prairie country.

The story is a thrilling one, too, and absorbingly interesting. You have made a fine contribution to Canadian literature. With best wishes for your continued success,

Yours sincerely,  
Beatrice Shand.
