

The Law

The story of Goby

It shows old man of the sea.

There upon a time there was a great forest in the forest. Trapped animals were gripped by fear and  
 confusion everywhere. But the parrot was calm and unperplexed. He dipped his wings in  
 the sea of a nearby brook on the edge of the forest, and the sparkling drops of water into his royal  
 face. As he fed his children the parrot a little water and the more he had to share in  
 the great heart expressed his love of the man from the forest. What are you doing about the  
 sparkling drops of water into his royal face? ~~It is the water that is the water that is the water that~~  
 do? The parrot said. It is the water that is the water that is the water that is the water that  
 the parrot said. At that the parrot was passed to the old man of the sea. The fire of  
 the forest stopped the forest, and the animal was saved.

If there is a post system, it must be good for all.  
 We don't want a "f" industrialized countries  
 and such of developing countries.

We don't accept p.v. unless there is to be access
