School of Physiotherapy Dalhousie University

.....

The Dalhousie School of Physiotherapy granted its first two year "Diploma in Physiotherapy" in 1963. The present four year Bachelor's degree program was integrated into the school in 1977. This science-based program prepares the students for a wide range of employment options. This can range from the hospital clinic setting, setting up private practice, to working in the corporate setting. Physiotherapists aim to maximize functional recovery through use of education, exercise, modalities, and manual therapy. To keep abreast with the rapid changes in the health professions, physiotherapists are becoming increasingly involved in 'preventative medicine' as well as Home Care.

5869 University Avenue, Halifax, Nova Scotia B3H 3J5

Director's Message

Lydia Makrides PhD
Professor and Director

On behalf of the staff and faculty of the School of Physiotherapy, I would like to congratulate you and extend our best wishes to you as you begin your professional careers as physiotherapists. You will be entering a health care system that is undergoing radical change. Your role as physiotherapists is central to this process. I encourage you to participate and show innovation and strategic leadership.

These are difficult times but they are also exciting times. Do not define what you can do by what government health funding is available to you. Allow yourself to dream. Success comes to those who dare to dream. Once you define your dream, plan your course of action and follow it methodically, fully and with determination. Do not allow difficulties or obstacles to slow you down or to steer you away from your intended path.

Always remember that the Dalhousie School of Physiotherapy, *your* School of Physiotherapy is here for you. Call on us, write to us, visit us and, most importantly, keep in touch. Together, we will succeed.

Congratulations and all the best to all of you.

Love,
Lydia

President's Message

Tracy Sutherland
DPSS President

I remember my mixed reactions three years ago when I first heard I was accepted into the Dalhousie physiotherapy program. I was both excited and yet overwhelmed with the thought of three more years of school. However, to my surprise the three years with all their ups and downs flew by quickly.

As I now look back on these last three years I feel lucky to have met such a special group of people. The memories of time spent together with friends, studying and laughing will be cherished until we meet again. Now as we embark on our new careers as physiotherapists and say good-bye to our student life, I am certain that each of you will be successful and will work hard hard to make our profession proud.

To the undergraduates, I urge you to get involved and to enjoy your years at Dalhousie.

In closing, I would like to leave you with the words of Dr. Suess.

You'll get mixed up of course,
as you already know!
You'll get mixed up
with many strange birds as you go.
So be sure when you step
step with care and great tact
and remember that Life's a
Great Balancing Act.
Just never forget to be dexterous
and deft.
And never mix up your
right foot with your left.

I wish you all good health and happiness.....Tracy

Structure and Function staff

Special thanks to the missing faculty and staff:

Judy Woodward
 Dan Boland
 Scott MacKinnon
 Sandy Sanford-Smith
 Rosalind Belitski
 Wendy Levy
 Susan Ploughman

Jason Billard, Rose Blanche, NFLD
 Billard, when not busy leading our volleyball / softball team to victory or dazzling the crowd with his broomball antics, could be found amidst everything else, most often comforting a cold Molson Canadian. He's best known for hosting the annual NFLD screech-in with special guest "Jarge the cod", Fenwick party commissioner, FTHOI technical director and tombstone demolition expert. Academically, he always succeeded despite being the instigator of the back row "Boys". Best of luck bye, and long may your big jib draw.

Kelly Denise Chaffey, Stephenville Crossing, NFLD
 Kelly plunked herself in PT school after just one year of university. This was chaotic in itself but when her twin too got in 2 years later it was helter skelter at the Forrest. Between flying and studies she was never willing to turn down a good time. Although short in stature she is tall in personality. Her smile will continue long after the school year ends. Kelly was blessed with the gift to gab and the ability to contradict everything her research group said. Wherever she ends up, Kelly will be remembered for her energy and spunk.

Jeffrey David Bonham, Saint John, NB
 Jeff came to Dalhousie after attending Queen's for a year. He switched from Kinese to Physio and was certain he'd found his calling after his "Orthopaedic Awakening" in Barrie. Jeff was involved in FTHOI, rowing, skiing and often acted as an MC. Despite his many activities, Jeff will be most remembered for his perseverance when it came to his studies and his blind stares in class. Whenever anyone wanted to know our schedule, they came to Jeff. Jeff has an ability to laugh at anything (I hope) and he will be missed.

Krista Leigh Clarke, Sackville, NS
 What comes to mind when you think of this flirtatious blue eyed blonde? Ball committee; FTHOI; Color coordinated ski bunny; Friendly wink; "How cute"; Sweet as her mom's apple pie; "No thanks I'm driving"; Hockey fan-Go Habs!; and Country line dancing. Despite her size she eats like a horse-thank goodness for those bottomless lunches! She is well known for her near perfect class attendance...After all, someone has to be there to take notes. "HOW RUDE!" For Krista, Physio has truly been a "Family Affair". Best of success in the future, Sparkie!!

Natalie Ann Brand, Rothesay, NB
 Nat came from her hometown in Rothesay, NB to Dal where she completed her psychology degree and then straight onto physio school she went. Nat will be remembered for her smile and pleasant disposition that would put anyone at ease. Don't be fooled by her dainty mannerisms, her subtle head tilt to the left and her polite "hi there" cause when it comes down to it, she can shake it up with the best of them. Favorite saying "Let's go to the Grind". Nat will likely establish her own coffee shop since anytime is tea time by Nat's rules. Best of Luck!

Robert Andrew Cormier, Bathurst, NB
 Rob, or "BOB" as the world knows him best, came to us with half the required courses under his belt. The sweet clatter of flip-flops will always signify his presence, that and his taste for 24hr, loud alternative music. No stranger to downtown bouncers or experimental drinks, he's the only guy who can stain the back of a shirt while dancing. Leading the men's volleyball team to a championship, he could also be found stirring things up in broomball and softball every week. Best of luck Rob as you "limbo" your way down to Georgia!

Jennifer Sharon Bursey, St. John's, NFLD
 We'll always remember this little newf for her expressions - "You're cracked", "I'm blocked", "WICKED", her ability to speak her mind, her fetish for lipstick, and being the teachers' pet. Whether it was FTHOI, a potluck, a party or broomball, Jen was sure to be involved. If nobody else would organize it, you could always count on her to get it done. Jen - your energy, thoughtfulness and sense of humour will make you a great physio-therapist. Good luck south of the border! We'll miss ya "J".

Lana Marlene Dinn, Antigonish, NS
 Everyone can learn something from Lana. Oh experienced one who hailed to us from Antigonish (God's country) and St. FX. She is known for her expertise in cooking, quilting, decorating and delegating. Appropriately named the "Dancing Queen", this talent kicks up her heels to any style of music ranging from highland fling to bootscoot'n boogie. What's a party without Lana? A friend to us all, Lana's mona lisa smile has charmed us over the last three years. Her confidence and multi-talents are sure to bring her much success.

Stacey Lee Doucet, Jacquet River, NB
 "Burp! I can't help it I have a GI problem, or maybe it's cancer!" Between this, her fights with Rob and her dimples, what are we going to remember her for? Probably her dimples because we all thought she was innocent until her dirty joke at the pub crawl. Stacey's love of grad pictures, ball committee and babies will certainly carry her into the future! We'll miss you girl! Best of Luck!!

Suzanne Margaret Jones, Dartmouth, NS

Never one to stay submerged, Suzanne always manages to rise to the top to prove she's in control. Sue would like to take this opportunity to thank each of her classmates for their notes. When not in class, this Dal soccer tiger was having fun and working toward CIAU gold. Her years in physio school have taken her across Canada and she's proud to have left her mark from coast to coast. She will never forget the "Forrest" and her Place on Carleton. Sue will say farewell to Nova Scotia for a while but this Maritimer will be back!

Bonnie Louise Davis, St. John's, NFLD
 Bonnie will be remembered for her talents in Halloween costume design, making tea and parallel parking. A warm smile, love of life and willingness to lend a helping hand personify her. She made her dancing debut at the 2nd yr anatomy party and noone has since been able to top it! She met her best friend, Perry, in Physio school and their fairy tale wedding took place in the summer of '94. Bonnie was a frequent flyer in 4th yr and now holds stocks in Air Canada. She's off to NFLD and ready for family life. Good luck Bonnie and Perry!

Michelle Kelly, Halifax, NS

Michelle began the Physiotherapy program after completing a degree in marine biology at Dal. Throughout her 3 years in the Physio program she has made a firm commitment to the "second row". She likes bears (the teddy variety), Winnie the Pooh, and Tigger too! She enjoys a variety of sports. Michelle will be remembered by her classmates for her thoughtfulness, good humour and friendship. Good luck Michelle!

Glenn Patrick Hussey, Sydney, NS
 Glenn hails from that great island that's not over the pond (just the causeway). He doesn't even have an accent! Who will ever forget that "baby face", his rainy weather attire, his Halloween narcoleptic episode, and his heartfelt honesty. (Want to go for a cup of tea, Glenn?) And, of course, his attendance is invariably marked by that distinctive giggle echoing from the back row as the 'boys' carry on! We are sure Glenn will do well in his new endeavors in Physio and find them rewarding. Best wishes from all of us!

Nicole Rosaline LeBlanc, Fredericton, NB

Expect the unexpected from Nicole. Who else could you find doing handstands in the hallway, singing in class, drinking tea, performing dance routines, telling everyone "you're the best!" and having a the ability to burst blood vessels in her face after a fit of laughter. Full of life and energy, Nicole has brightened many dull school days over the past three years with her exuberant personality. With her positive outlook and readiness to get involved, Nicole will surely succeed in all aspects of life. You are truly one of a kind, Nicole. Good Luck!

Patti Jo Jagoe, Bathurst, NB
 Despite her blue-eyed blond haired angelic appearance, Patti "the lush" was always the life of the party! We never knew if it came from her Downshore 'Bathurst' influence or straight from Elmo. With Purkinje on her shoulder, Patti was involved with a number of serious things too, like DSU rep, broomball and softball. Patti's attitude toward men followed her country music craze. Do you love him or hate him, Patti?! Good luck in the future!

Danielle Suzanne LeBrun, Halifax, NS

What will we remember the most about Danielle? Those LEGS! She could always be called upon for her taxi services and generous cocktail parties. Danielle is eligible for induction as an honorary newf since she could always appreciate the humour in any situation and managed to pick up the accent. She never missed a party and even enjoyed laundry room parties. Danielle's confidence and unstressed attitude will always be envied and she will be dearly missed by her close friends. Good luck "D" we know you'll excel in everything you set out to do.

Kelly Dione Lund, Bethel, PEI

Kel will be remembered for 3 main things - her love of the colour purple, her opinionated views of worldly matters, and her undying love for PEI! She is fun, energetic and involved with many class events. Her leadership skills made her an excellent class rep in 3rd and 4th year as well as on the intramural volleyball court. Kel will fondly?? remember her cardio placement, special project and '93 yearbook. Good luck as a physiotherapist, Kelly, your courage and drive to be an individual will carry you far. You will be missed!

Andrea Ruth McAllister, Windsor, N.S. Princess Windsor came to Dal with a trail of men and broken hearts behind her. With her fiery red hair and attitude to match, she had us dancing at FTHOI, eating almonds (for three years) and dishing out money for everything that came along. Andrea's sense of cooperation (right Glenn?) will surely help her to become the ultimate "Happy Physio"!! Best of luck in the future, Andrea!

Roderick Paul MacKenzie, Truro, N.S.

Rod entered physio after one year of science at Dal. Known by some as the "invisible roommate", he is a sports addict who plays on virtually all intramural teams and has been our sports rep for 3 years. Planted firmly in the back row of class with the rest of the guys, he is capable of carrying on a commentary throughout class, despite our best efforts to shut him up. Rod's other interests are limited to eating and showering. His future goal is to reach puberty so that he can give a presentation within one octave.

Colin Kennedy McGowan, London, Ontario

Colin came to physio after completing a degree in biology at St. FXU and deciding he no longer wanted to research the mating rituals of perch. With a luge strapped to his back, this La Jolla, Ca. native found his way into the hearts of his classmates. As a "Kids in the Hall" skit gone bad, Colin has the ability to make others laugh with his stories and crazy antics. Through his originality, sense of humour and the charm to make even Chuck cross-dress, Colin will always be remembered by those close to him. Good luck and happy (en) trails!

Marsha Ellen MacRae, North River, N.S.

This "Valley" girl is best remembered humming a cheerful tune & grinning ear to ear, even following her return from bootcamp. Mush has unique anti-stress tactics: drinking chocolate milk by the liter, running stairs by flights & flying planes without engines. She is known for her broomball battle wounds, being the 2nd base human vacuum, video expertise, addiction to medline, Italian cuisine-pizza, one night of endowment after which she hung up her socks & being "rocked" by one particular B-day surprise. Best of luck to the Valedictorian of 1995!

Lisa Melvin, Canning, N.S.

When not found sitting in the second row, Lisa was usually skipping off early on Fridays to spend the weekend washing cars at her father's Ford dealership, or was it to visit her highschool sweetheart? She enjoys riding her horse Peanuts and floating around in her pool. If unable to find work at the NSRC, where she spent six long weeks "touching base", she could always return to the valley and buy herself an apple orchard. Lisa hopes to stay near home but is considering some time south of the border first. Good luck Lisa!

Nicholas H. H. Matheson, Brookfield, NS

As "one of the girls", the blond-haired bombshell nurse, was always up for a good time and never missed a date with A. Kieth. After 3 years of physio and many hours at the photocopier, he had formed a "top 10 list" for best notes in the class, which were to later help him master the art of cramming. Nick could be always be counted on for late night gab sessions, dancing the night away, and finding his happy place with friends. His sense of humour, intelligence and wit will be cornerstones for his success as a physiotherapist. Good luck in Stamford!

Lisa Dawn Millican, Quispamsis, N.B.

Everyone will remember Lisa as the best insomniac chocolate cake baker around. She hasn't missed a B-day yet, from Queen of the basketball court to seamstress extraordinaire. Need mending done for the ball? NO problem, she'll sew it on the way there. her caring nature has given her the "Mother of the year" award. And hey, if Physio doesn't work out, she could choose from several alternate career plans- from head of the local recycling drive or finding the answer to her lifelong question - "Why do men always date short women?" Good luck & all the best, Lis.

Anne Louise Morley, Halifax, NS
 After joining the class in third year, Anne-Louise proved that she could not only juggle a hectic school schedule but family life as well. As one of three mothers in the class, her ability to manage her time has helped her complete her BScPT and will continue to be a strong quality as she enters her new career. Good luck!

Katharine Lynn Perry, Liverpool, NS
 Kathie, an energetic go-getter, is not one of for wasting time. As chair of the ed. committee, she was devoted to promoting our profession and making a buck. She chose a career in physio due to her fond experiences handling mussels. It wasn't enough to let her hair down; she cut it all off and over the years proved to be a talented musician-not only does she sing lead in a rock band, she can play a wicked flute and organ to boot! Although she may have been a "witch" by times, generally she's a doll (Barbie) we will remember her photogenic smile.

Stacey Lynn Nicholson, Fredericton, NB
 Stacey...our free spirit, lover of life, ready to conquer all. She came to Dal Physio after completing her Science degree at UNB - raring to take on more. We'll always remember Stacey for her ability to speak her mind on any issue, at any place, any time, under any circumstance. You could call her the "social conscience" of the class. Her enthusiasm let her balance competitive rowing and VP of DPSS duties all in the same year. Your strong heart and mind will take you far- the next CPA president perhaps? Best of luck Stace! - We'll miss you.

Vikash Prasad, Sheet Harbour, NS
 From a small poaching village, Vik came to us with his innocent smile and sinister laugh. On first sight, this wolf in sheep's clothing warmed his way into all our hearts. Forever a leader in class or on the playing field, Vik exemplified dedication and excellence. As Godfather of the "back row", he could always be found in the thick of things but never suspected. Those who were closest to him couldn't have asked for a truer friend. Vik, the road before you is lined with yellow bricks. Go and claim your happiness. We're all cheering for you!

Valerie A. Noble, Springdale, NFLD
 Straight from da Rock, Valerie was one of the young 'ns of 2nd year. She was known to be earliest to class and to zip out at the end before you could blink! Hiding behind that quiet exterior is a friendly, funny, loving, considerate, and helpful person. With a head full of brains and a heart for her sweetheart, we're sure there is no limit to Valerie's success as a Physio and as a person. Best of luck!

Chuck D.G. Redstone, Campbellton, NB
 Chuck, officer and soccer player with health problems like ankle sprains and foot-in-mouth syndrome. Pet to both profs and gel companies, they love his chia-like hair. It will serve him well in the navy, as will his ability to ask stupid, yet relevant, questions in class though there was no way he was paying attention. Involved in many extracurricular activities, his moto is "lets go downtown". Chuck is a great friend, but never study at his place! We wish you all the best and hope all your "seeds will grow".

Lori Parnell, St. John's, NFLD
 Lori will always be the smile in the crowd. She will be remembered for her love of Newfoundland, contagious and enthusiasm, love of tetley, and men stories. She plans to return to the rock where destiny awaits her! We have every confidence her pleasant disposition will reward her a lifetime of happiness and success. Good luck Lori, and never lose sight which side of the cracker, the butter be spread!

Elizabeth Richard, Fredericton, NB
 Liz came to Halifax bound for a new career in Physiotherapy. The sacrifices to be made were great, but her ability to be a great mother, excellent student and loving wife made it all look easy. Liz could often be seen sitting in the 2nd row, writing e-mail or trying to convince Gail to give her a placement in Fredericton. Through thick and thin, Liz was always ready to lend a helping hand or an old exam. She is returning to Fredericton to once again live a normal life. We would like to wish her all the best on becoming an excellent physiotherapist.

Angela Dawn Rogerson, Cornwall, PEI
 Angela came to Halifax after receiving her BSc(biology) from UPEI. She brought to our class asense of humour, sense of style and island hospitality. She will be remembered for her delicious Easter suppers, sun and fun packed July 1st weekends and the time she slept through her exercise physiology presentation. Way-to-go Ang! After graduation, she plans to spend the summer working in PEI and then it's off to the states. Best of luck in the future Angela and in your life-time endeavours!

Tracy Lynn Sutherland, Fredericton, NB

Who could ever say enough about Tracy? President of DPSS, For the Health of It lead actress extraordinaire, runner in the NYC marathon...the accomplishments are never-ending. In big ways and small, this personality plus has charmed us all. Her unrelenting humour and wit, beaming smile and down to earth attitude has added reassurance and laughter to everyday student life. She 's personal, perceptive, understanding, a true friend and a real gem. Thanks for the laughs, Trace. You handle life beautifully; Don't go changin'.

Rachel Claire Salvage, Rothesay, NB
 Rachel was best known for her mastery of the art of procrastination. She defied all others in testing the boundaries of a deadline. Rachel developed the philosophy of "compensatory library time". where an hour at the Kellogg justified spending the rest of the night at the movies. Although she tried to belay the inevitable, her ability to work under pressure (with large amount of java) has lead to great success which is sure to continue. Wishing you the best of luck in your quest to avoid winter!

Donna Marie Taylor, Beaverbank, NS
 This soft spoken, friendly classmate is always smiling and reassuring others. When classes are too busy for a trip to NB she escapes to "Donnaland" for a quick retreat. Anatomy was deceiving at 1st but once her group made their discovery everything worked out. "Peggy" is known for organizing and decorating for the Ball, having the largest "Lister's tubercle", numbering all pages before studying and having car problems- check the Alternater! Much to her family's surprise, "Donna" got into trouble. No more helicopter rides! HAppiness and success, Donna!

Kimberley Ann Shirley, Fredericton, NB

Kim worked very hard all the way through Physio school while raising two very active children, Rory and Courtney. The highlights of her school life were; going to CPA/APTA Jint Congress in Toronto as Student Representative, and her respiratory placement in Vancouver. She will be remembered for taking the time to encourage many of us along the way, and for her Florida and Jamaican tans! Way to go, Kim! You deserve a lot of credit. Best wishes for a happy future for your "good as gold" children and their "Fuzzyocheerapist" Mom!

Tiffany Brooke Thibodeau, Rothesay, NB

Tiff, master of all trades, always managed to juggle Physio school with an array of extra curricular activities, including trainer for the men's b-ball team, and supervisor at the Grawood. She excelled in every aspect of her life at Dal and was awarded "Dal Varsity Trainer of the Year". Despite her many commitments, Tiff always found time to spend with friends and enjoy the finer parts of life. Her thoughtfulness, determination and motivation will allow her to continually excel as a new physiotherapist. Good luck in the future!

Kathryn L. Strum, Liverpool, NS

With Kathryn, there are two things you have to be wary of...her camera - you never know when she'll catch you in some odd position with some wild expression on your face, and...those Deadly Double Chocolate cookies. You'd think she was out to kill us all with those! And there are two things you can always depend on... She always gets the job done, even ahead of schedule, and ...If she's not in the 'forrest', you're sure to find her at church right in the thick of things!

Catherine Marie Trevors, Fredericton, NB

Cathy came to Dalhousie University from Fredericton with her friendly smile and quiet disposition. You could always be sure to find her studying at Tupper or hanging out with a certain medical student. Cathy was actively involved in many committees and could always be relied on to lend a helping hand throughout her time at Dal. Cathy's keenness and great personality will be sure to make her an outstanding physio. All the best in the future Cathy, we will miss you!

Tamara D. Twyne, Lewisporte, NFLD
 When Tamara moved from her little newfie town of Lewisporte to Halifax, she didn't know a lot of people. It didn't take long for that to change! her bright smile, out-going personality, and words of wisdom such as "You be alright!" won the friendships of all in the class. We wish you the best the future has to hold and you will be missed!

Connie J. Williams, Random Island, NFLD
 Connie came to Physio school after completing her first degree in Home Ec, in Texas. Leaving her cowboy hat and boots behind, she arrived in Halifax to become a physiotherapist! She enjoys cooking, sewing (the stuff she learned in Texas), tennis, skiing and visiting her sweetie in Bridgewater. Connie has also spent a lot of time sitting in the 2nd row with her buddies and tryin gto catch the bus home. Growing up in a small Newfie town, she now wants to travel in the US, but not before packing up her cat Charlie and stopping in Bridgewater. Good Luck!

Gary Albert Vardy, Corner Brook, NFLD
 Hockey player, jock in FTHOI, MC for damn near everything, social rep and SPD rep. Gary has been a lot of things since coming from Acadia, but to us he will always be remembered as balding. Gary has been extremely comfortable meeting new people and flirting with just about anyone, guys included. Gary will be remembered for his keen interest in manual therapy, strategically placing himself in the library to check people out, making us laugh and being the very best of friends.

Jennifer Jane Williamson, Hammond River, NB
 Jen, never willing to give up, switched to physio after 2 years of #'s and graphs in engineering. She never let physio notes and readings interfere with her love for running or having a good time. During the winter months she'd be found fish-tailling down the ski slopes at Sugarloaf. Jen has the greatest ability to avoid procrastination, lets nothing stand in her way of her want to give and has a big heart which will allow her to treat her clients the way they deserve. She plans to continue with her Masters at Dal.

Pamela Kay Wallace, Rothesay, NB
 Content with a cup of tea or a six-pack of Schooner, Pam was a great fan of the laid back student life, as long as it didn't include 8:30's. She could be seen doing psychedelic doodles in class or singing "one ton 'o' melons" in the hallways. Pam never seemed stressed, and could always justify going out for a beverage, and convince others to also. Future plans include becoming the physiotherapist for the Grateful Dead and working on that VOICE PROJECTION. Best of luck!

Brent Borden Workman, Maitland, NS
 Brent, our kinesiology expert and only married man can usually be found out running the streets of Halifax. He is a permanent fixture of the Dal track team and a hard hitting member of the physio volleyball team. Brent enjoys spending time with his wife, Heather, that is of course, when he hasn't indulged in his favorite Greek delicacy. Behind Brent's hard-working, quiet exterior lies a true dancing machine. Best of luck in the future, Brent!

Catherine Nancy Welsh, Steep Creek, NS
 Cathy is a friend to everyone, a good samaritan if you will! She has a big heart that doesn't stop giving. "Cat-ballou" will be remembered for her travelling abroad, gentle manner (which masks strong convictions about worldly issues), and uncontrollable laughing fits! She will undoubtedly continue to plan potlucks, stay fit, bask in the outdoors and enjoy a good gab session. Cath, remember life is just saving the best for last (and I don't mean red smarties). Good luck, reach for the stars - you will shine like one!

James Joel Ingram Wright, Oromocto, NB
 After 4 years of a business degree at UNB... 2 years as an accountant... and another year of science at UNB, Joel finally decided to come to Dalhousie for 3 years of physiotherapy. this intramural trooper could be found at the back of the class with the guys, nursing his 4L coffee and picking underwear out of his pantlegs. Joel's taxi service was always available to classmates in need of a drive, but it never seemed to get him to class on time! Best of luck Joel, as you try to break that caffeine habit while working in the USA.

Education: Kathie Perry, Mike Duff.

Hallowe'en 1994

Right: First and last time any of these girls wear a choir gown!

Below: I can't believe they made us wear garbage bags!

Above: Heather MacKinnon's true personality comes ALIVE!

Right: Straight from Saturday night live....it's Kathie Perry!

We won!!!!

FTHOI

Victorious!... 75+ physiotherapy students accepted the "For the Health of It" challenge and created a musical production masterpiece. They danced, acted, and smiled their way to a "Best Overall Performance". Heather Lambert, Jenna MacFadyen and Tracy Sutherland acted as three grumpy old men who through the help of the Genie, played by Chuck Redstone, learned to overcome their poor attitudes and become positive thinkers. The chapel preacher, hip choir

and enthusiastic physiotherapists guided the men along their journey to positive thinking. The wide range of music choices, creative set changes, high energy performers, humorous lead actors and actresses made this year's show exciting, funny and extremely entertaining. Big thanks to all those participants and organizers for working hard towards supporting the Nova Scotia Association for Community Living.

- Nicole LeBlanc

Left: After years of being homophobic, Chuck sports some Maybelline products and the finest in plastic clothing.

Above: Andrea McAllister and Rodney Tolentino are busy preparing props for this years show.

PHYSIO

BALL '95

**G

The Profs strut their stuff in a game of Family Feud.

Heather M. imitates Kathie P. as "The Organist"

Kelly L. portrays Marilyn while explaining her "daily schedule".

After the grad party, Nick M. talks to ralph big white phone.

Gail's Angels appear on "Late Night with Lydia Makrides"

Who's hand is that?

THE PHYSIO

On a warm September evening, on a pub crawl
bound for downtown
I met up with a physio, we were both too
drunk to speak
So we took turns staggerin', down a road they
call Spring Garden
When we hit the Graduate, he began to speak

Son I've spent a life, filling out applications
And now I finally got here. Can't kick me out
And every student knows that the secret to
survivin'
Is to bullshit on your practicals; fake it when
in doubt

You're gonna learn some anatomy, some
physiology
Learn to be professional, and palpate too
You always count your marks, on the night
before the final
There will be time enough for sleeping, When
the school year's done

The summer of '93, was the one before our
third year
And before we knew it, we were stripped down
to our briefs
And we got pretty kinky, with a sex toy called
electrodes
And everyone left tremblin', from their head
down to their feet

You got to learn your assessment, study hard
for ortho
Contraindications; That you should know
You always count your marks, on the night
before the final
There'll be time enough for sleepin', when the
school year's done

Then we got to fourth year, and the groups
came out our ying yang
Posters and our papers, kept us from our
drinks
And the registrar's a winner, as our pocket
books grow thinner
And the best that you can hope for, is a drunk
once a week

You got to do your research, fake your
statistics
Advertise for subjects, offer them a treat
You always do your poster, on the night before
you have to
Sit back and have a cool one, I think we're
finally done

And as he started snooping, to see who's out
there puking
He met up with the physio, he'd met three
years before
Mayday in the Cohn, he realized he's going
Out in the real world, Son you're on your own

You gotta get your visa, south of the border
Malpractice insurance. "Boy you're gonna need
it!"
You never count your money when you're
working in the clinic
There'll be time enough for counting, when the
healing is done

And there'll be time enough for drinking, when
the weekend comes.

 crabs before"
 "Lady, lady, you like braids?"
 The t-shirt fiasco
 Scuba injuries- Fire coral, coughing up blood
 Jen B's friend, "Christian" from disco
 Everybody's friend, "Najef"

Ahhh, those water jets feel GOOD!

Convocation 1995

On Your Graduation...

Life is worth living, it's yours to possess,
Your knowledge and hard work ensures
your success,
You've worked all these years to get to
the top
Look ahead as the world unfolds, do
not stop.

Your life lies ahead who knows what it
holds;
You now hold the secret to reach all
your goals.
Knowledge will only open the doors;
You have to enter for success to be
yours.

CONGRATULATIONS GRADS

A couple of weeks ago we were preparing for our class trip to Cuba. After arriving at the airport we were asked to fill out a citizenship card. It asked the usual questions, NAME, ADDRESS, DESTINATION, LENGTH OF STAY. One of the last questions was occupation. I think we all felt that thrill as we filled in PHYSIOTHERAPIST.

Today, May 25, 1995 is the day we have been waiting for since we were first accepted into physiotherapy roughly 3 years ago. We have both rejoiced and dreaded its approach. Rejoiced because we are now recognized as physiotherapists. Dreaded because we knew that with graduation comes saying good bye to one another.

It has been said that a pilot really learns to fly only after he has been awarded his first license. Like the pilot, we now have our first license and we too are only just beginning to learn the practice of physiotherapy. As we take our place in the health care community with our fresh ideas and approaches, I know we will make valuable contributors.

Some of us have already started work and over the next few months many will begin their careers across North America. Some will be working in the Atlantic provinces, others in Ontario and still others in the U.S., spread from Connecticut to Georgia to Tyler, Texas.

Saying goodbye is never an easy thing to do but it's especially hard when you have shared so much. From late nights in the Anatomy lab to performing the physio dance at Jerry's. From endless hours of cardiorespiratory to hallowe'en parties and even an easter egg hunt. From research projects to potlucks and all-night broomball. To dual victories on FTHOI as the physio Geeks, Jocks and Genies strutted their acting and dancing talent on stage.

We have enjoyed many wonderful times together. Others that particularly stand out in my memory are Bonnie's wedding shower. The entertainment was generously provided by the male members of the class. Spurred on by Colin McGowan they wound their way down a spiral stairclass to the music of "Patricia the Stripper". They unrobed down to their shorts and presented themselves to the bride to be with the letters BONNIE shaved in their chests. We were all impressed, shocked and in stitches with laughter. We did, however, manage to take some pretty amazing pictures. They are now in the form of the 1995/96 physiotherapy calendar. There is also the time when Nicole managed to brainstorm yet again to organize a rather elaborate event to celebrate George Turnbull's completion of his PhD. from a South African University - what a theme! Within a day, the entire class had a wardrobe of tribal skirts made of garbage bags, a skit, a dance, and each had a letter on their back which spelled out "Congratulations Dr. Georgie Turnbull" and the whole ceremony was performed to a combination of African and Scottish music. Now I noticed that the tie we gave to George as a gift still hangs in his office so I'm taking that as a good sign. It took talent to pull something like that off in a day. Other wonderful memories include our class trip to Cuba. 30 people from the class ended up going this year. That has got to be a record and I think it tells you a great deal about the class' spirit. We had a great time and I will remember it always.

We could have made it through the last three years without each other. But I believe we are better off for the experience and I would not trade this last 3 years with these 47 individuals for anything. They are all truly wonderful and talented people. At this time I would also like to extend special congratulations to Kim, Anne -Louise, Liz Richards and Liz Porter, who not only managed to successfully complete their physio degree but raise a family as well. This can be no small feat. There are some other important people that have made this journey easier for us that deserve mention.

Our parents - they have been there for emotional support, with care packages, and on many occasions gave us the financial assistance we needed until we got our loans. You must be relieved to know that we will all be employed and making real money soon. To our significant others - thanks for being patient and understanding, especially during exams, research projects, and those endless meetings over this last year. And finally our professors, Ina, Linda and Judy. They have taught us much more than the basics of physiotherapy. At times it may not seem like we have taken in a great deal, but I must say that now when I sit on a bus I do watch how people walk. I watch to see if an individual is carrying his/her cane in the proper hand, and I am always looking at posture. If only I spent as much time working on my own as I did looking at others.

Our professors have also encouraged us to become all that we can (researchers). To contribute to our profession (research). To take physiotherapy into the 21st century. They have humored us with stories from "100 years ago", with rap songs and games of Jeopardality. They have shown us the importance of keeping a sense of humour.

It is with these memories that we will leave here tonight. Now we are more than classmates, we are colleagues, we are physiotherapist, and most importantly, we are friends. We will go our separate ways and we will try to keep in touch. As the letters become less frequent and as the addresses and last names change, don't despair that you have lost touch. Just remember if you want to find one of us, wait until Lydia has one of her annual fund drives. If anyone can track down a class member, she can.

I would like to leave you with a quote from Georgie Anne Geyer: "Follow what you love! Follow it intellectually! Follow it sensuously! Follow it with generosity and nobility toward your fellow man! Don't deign to ask what "they" are looking for out there. Ask what you have inside."

Congratulations everyone and take the best kind of care.

Marsha

Graduation

Week 1995

Lunch at Lydia's

Thanking Joel for the swim!

At Dan's cottage

This is the best!

The night before...

...the morning after

Congratulations!

Connie, you have reached the goal you worked so hard for. Congratulations to you and your classmates of 1995.

We love you,
Mom & Dad

Congratulations, Lisa (Melvin). Your hard work and dedication has brought you success. You've made all your family proud. We love you and wish you the best in your career. Mom & Dad

Lori, all the long hours of work and sacrifice has finally paid off. We are very proud of your accomplishments - you earned your degree. We pray for you always - LOVE
Mom, Dad & family, Patches & Lady

Congratulations Kelly! Your dream has become a reality. We are very proud of your accomplishments.

Love Always,
Mom, Dad, Aaron & Kim

Congratulations, Rod, and Grads of '95. "Each dream in your heart lies within reach if you just believe in yourself."

Love and God bless you,
Dad, Mom, Mike and Julie

Congratulations Gary! After the long haul, your "investors" are excited at the idea of work in your future. Smile!

Love Mom, Dad and the Nfld Government

Congratulations, Cathy T., on a job well done. Good luck in the future!

Mom, Dad, Mary ann & Beth

Congratulations, Pam, to you and your classmates. Your success is well deserved.

With Love from Mam, Dad, Julia & Kathy

Graduation 1995! Congratulations, Suzanne, and may you find success and happiness as you leave university and begin to practice as a physiotherapist.

Love always, Mom

Lana, we are proud of your accomplishments. We love you and wish you happiness. Congratulations to you and your classmates.

Mom, Dad, Gerard, Trevor, Trent & Lyle

Congratulations Kathryn. We are proud of your accomplishments. Best wishes in future endeavours. May God go with you.

Mum, Dad, Stephen and James

Andrea, for all accomplishments as a Physio student and a very special young woman, we extend our congratulations.

With love & pride,
Dad, Mom & Adam

Congratulations, Kathie! We wish you and your classmates continued success.

Love Dad, Mom and Michael

Donna, we are so proud of you. You've worked hard and deserve the very best. Happiness always.

Love,
Dad, Mom, Jason & Jeffery

Natalie, words cannot express how proud I am of you and your accomplishments. Your mother would have been very proud of you as well.

Love Dad and Family

Congratulations, Marsha, on a job well done. Your success is well deserved. Good luck in the future. We love you and wish you well.

Mom & Dad

Cathy W. your determination has made your dream come true. We are very proud of you and love you from the front clap to the back clap - Mom, Dad & Family

Congratulations, Stacey, we are very proud of your accomplishments. All the best in the future!

Mom, Dad, Jody & Danielle

Congratulations Angela to you and your classmates of 1995. We wish you love and happiness. Your success is well deserved.

Mom, Dad and Andrea

BHS valedictorian 1991 is hard to top but you did it! CONGRATULATIONS Patti and best wishes. We love you.

Mom, Giles and Colin
P.S. Your Dad would be proud of you too.

Congratulations Rachel! We are very proud of you.
Love Mum, Dad, Daniel and Diana

Congratulations, Tamara, your success is well deserved. We're very proud of you. Best wishes to you and your classmates of 1995.

Mom, Dad, Paula and Lewis

Way to go Tracy! Your hard work and perseverance have paid off. The runners of the world will be better off now that you have graduated. We are proud.

Love Dad, Murielle, Andrew, Sheri and Jessica

Congratulations, Robert, for attaining your objectives. Good luck in your future plans. We are very proud of you. Best wishes to you and your classmates.

Love, Mom, Dad and Nat.

Vikash, May the friendships and the times you have made,
The knowledge and the skills you have gained,
The love and good wishes to you we send,
Stay with you through thick and through thin.
Warmest congratulations to you and your classmates, Mom& Dad

We send our sincere congratulations to our daughter, Valerie Noble, and her classmates on their graduation. God Bless you all.

Gordon & Gladys Noble, Victoria & Katherine (nieces)

Sincere congratulations Bonnie on a job well done! Your success is well deserved. We are very proud of you.

Love, Dad, Mom, Joanne and Perry

Kelly, Congratulations to you and your classmates on this very worthy achievement. Best wishes for the future!

Dad, Mom, Greg, Bethany, David and Gus

Krista, all your hard work is about to pay off. Congratulations. We love you and we're proud of you and your accomplishments.

Mom, Dad and Brian

Congratulations, Stacey, you have made us proud once again. Wishing you continued success and happiness. We love you.

All our love,

Mom, Dad, Scott, Debbie, Kevin and Kyle

Congratulations Nick! We are happy and proud of your achievements! May God bless you and your classmates in your chosen work.

Love Mum, Dad & All

Jason, as one phase of your life ends, and another begins, remember, we're here for you. Congratulations and good luck in the future!

Love Mom & Dad

Brent your success is well deserved. We love you and wish you happiness. Congratulations to you and your classmates of 1995 from your parents and family.

Mom, Dad, Terry and Scott

Congratulations Charles, on reaching your goal. Well done! May you continue to do yourself proud!

Love Mom and Dad

Jen, we knew you could do it. We are very proud of you. Good luck to you and all your classmates of 1995.

Mom and Dad

Congrats to the best class ever. Wouldn't trade any of it for anything.
