Dear Doctor

My friend

Col. Congreve has a com-
plaint which both myself and
his Surgeon Mr Home think
would derive benefit from
Electricity. It is of a nature which
requires to be done at home.
He is therefore desirous of bor-
rowing a machine for which he
would give any reasonable re-
muneration, and insure against
injury. - I take the liberty of in-
quiring whether you would
lend him yours for a fort-
night. - I return Mr Cartwright's
book with thanks
Yours truly
W. Sullivan
