Dr. W. Andrew MacKay
President and Vice-Chancellor

DALHOUSIE UNIVERSITY
HALIFAX, N.S.
B3H 4H6

PRESIDENT AND VICE-CHANCELLOR

April 20, 1981

To the Graduates of 1981

I am grateful for the opportunity, through PHAROS, to extend very best wishes to all of the members of the Graduating Classes of 1981.

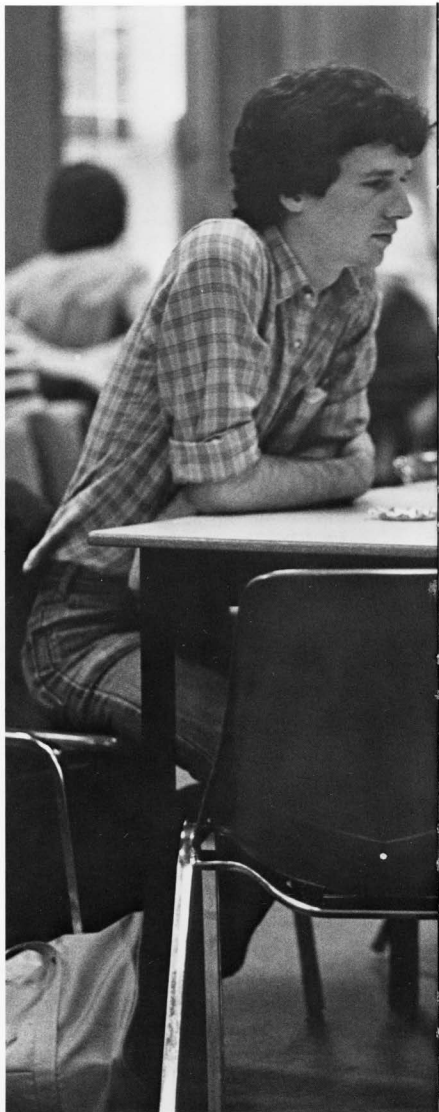

Some graduates will be proceeding to further studies. Others will be leaving the university world behind them. Our world in the 1980's and beyond will feature constant change and considerable dangers which mankind must manage well. University graduates, who have had special opportunities provided by society, have special obligations to contribute through effective service to their communities, whether here in Canada or abroad.

The classes of 1981 follow in the footsteps of distinguished former students who have made Dalhousie's name known and respected throughout Canada and in other countries. This year's graduates will add their own distinctive honours to the record of achievements of Dalhousie alumni, and the achievements of the Class of 1981 will extend well into the 21st century.

I trust that every graduate will have fond memories of students days at Dalhousie. I hope that, like their predecessors, they will support the University in its service to those who follow them. For all of us who continue in its service, I wish each graduate a full measure of success and happiness.

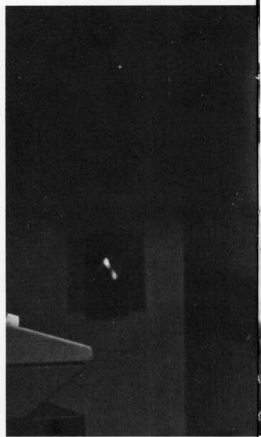

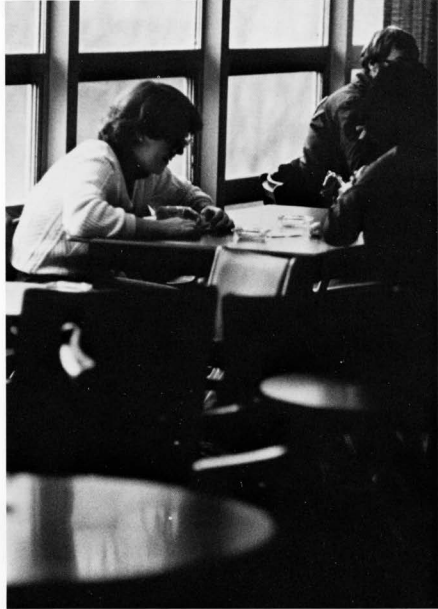

Yours sincerely,

W. Andrew MacKay

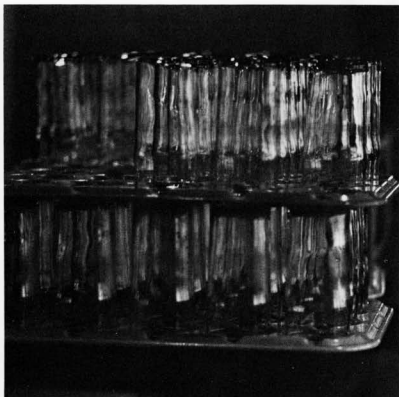

SUB Stuff

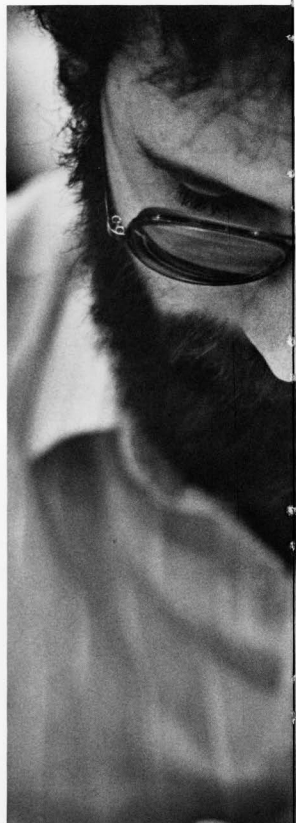

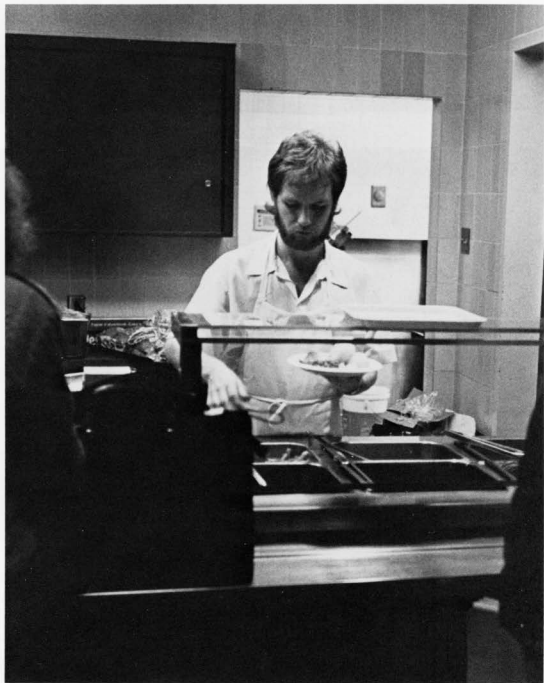

The Grawood was originally conceived to be a meeting place-you know, where students could get together and well, 'meet'. Mostly the meetings were between cold beer and warm lips. \$275,000.00 worth of meetings in 1980-81. "Hic, pass me another bar beer-tender."

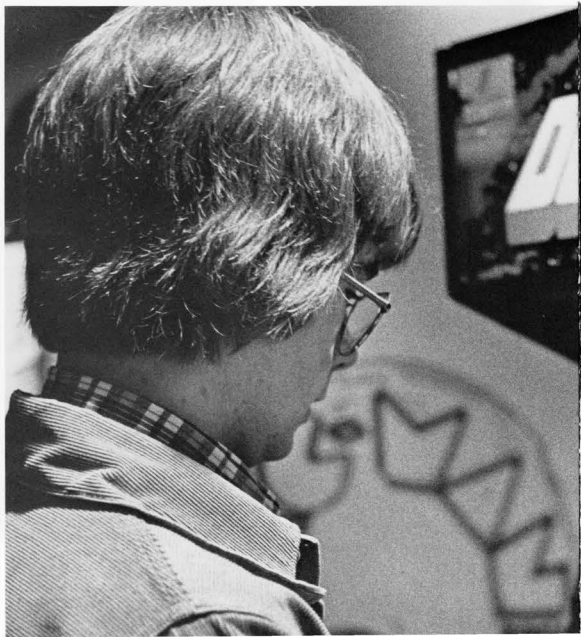

The Garden

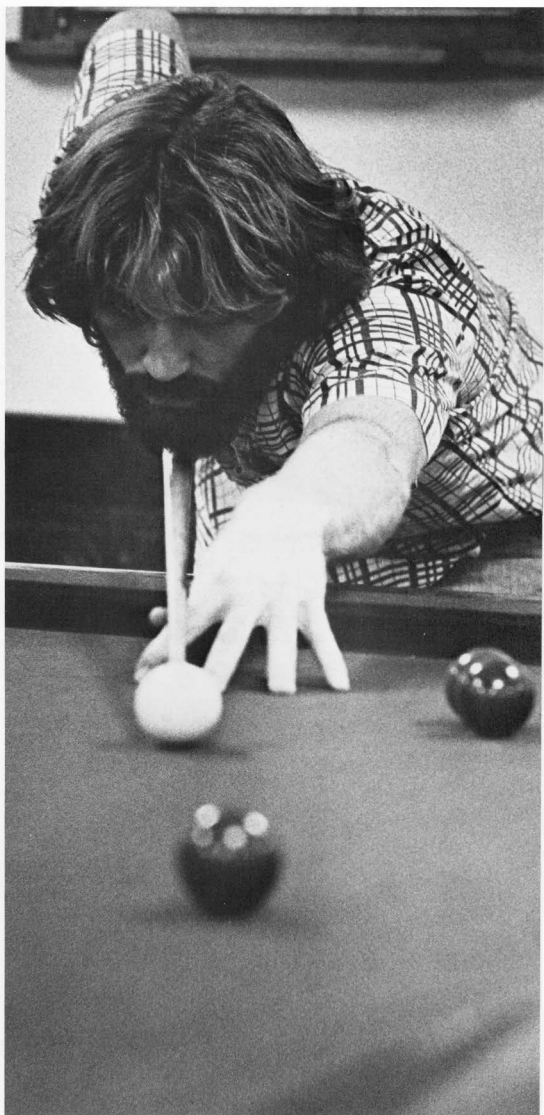

Games Room

The games room: pool tables, video games, and certain, shall we say, 'non students'. Now here was a place to waste time in. Hanging around in a pool hall, if only my mother knew.

Our Heritage

Meeting of the Tandem Club Outside the Original Dalhousie College. (Now Halifax City Hall).

"Before I proceed with this ceremony, I think it necessary to state to you, gentlemen, the object and intention of this important work; I think it necessary to do this because I have never yet made any public declaration of the nature of the institution I am here planning among you, and because I know that some part of the public imagine that it is intended to oppose the college already established at Windsor. This College of Halifax is founded for the instruction of youth in the higher Classics and in all Philosophical studies; it is formed in imitation of the University of Edinburgh; its doors will be open to all who profess the Christian religion; to the youth of His Majesty's North American Colonies, to strangers residing here, to gentlemen of the military as well as the learned professions, to all, in short, who may be disposed to devote a small part of their time to study. It does not oppose the King's College at Windsor, because it is well known that college does not admit any students unless they subscribe to the tests required by the Established Church of England, and these tests exclude the great proportion of youth in this province. It is therefore particularly intended

for those who are excluded from Windsor. It is founded upon the principles of religious toleration secured to you by the laws, and upon that paternal protection which the King of England extends to all his subjects. It is under His Majesty's most gracious approbation of this institution that I meet you here today, and as his humble representative I lay this cornerstone of the building. I here perform an act which appears to me to promise incalculable advantages to this country; and if my name as Governor of this Province, can be associated with your future well-being, it is upon the foundation of this college that every blessing may flow over your country; in a few months hence it may dispense those blessings to you whom I now address; may it continue to dispense them to the latest ages! Let no jealousy disturb its peace; no lukewarm indifference check its growth! Protect it in its first years, and it will abundantly repay your care!"

Address of George Ramsay
Cornerstone Laying
May 22, 1820

**IN THE YEAR OF OUR LORD-1820
AND IN THE FIRST YEAR OF THE REIGN
of His Sacred Majesty George the IV
KING OF THE UNITED KINGDOM OF

Majesty's Forces in this GARRISON &c. &c. &c.*

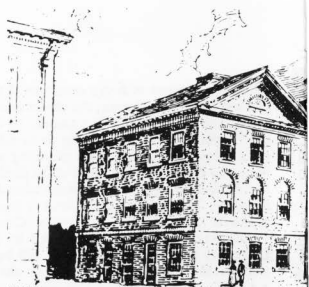

*John George Pike Esq. Grand Master of the Grand
Wardens Officers & Brethren of the Respective Lodges
of Freemasons in Halifax. MAY 22nd*

FACSIMILE OF THE BRASS ON THE CORNER STONE OF
THE ORIGINAL DALHOUSIE COLLEGE.

In 1917 George Ramsay, ninth Earl of Dalhousie and Governor of Nova Scotia, determined to found a college that would be open to any student regardless of class or creed. Although Nova Scotia boasted a college at Windsor, the exam required effectively excluded large segments of the population. The funds used to begin construction were the customs duties acquired by the British during their occupation of Castine in 1814. The original site of the college was the Grand Parade where the Halifax City Hall now stands.

The buildings were ready for occupation in 1823, however the college still had many unsolved problems. Not only had the professors not been chosen, but the early supporters of the college were apprehensive, believing King's College was sufficient. As a result, the college served as a community centre from 1829 to 1838. Two attempts to amalgamate the two colleges failed. Eventually the college came into its own opening its doors in 1838.

Dalhousie offered only three chairs on opening: Classical Languages, Mathematics and Natural Philosophy. The first class consisted of only twelve students. Courses lasted four years; tuition was between \$6 and \$24.

Rev. John Forest D.D.
Third President, 1885-1911

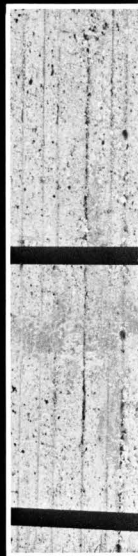

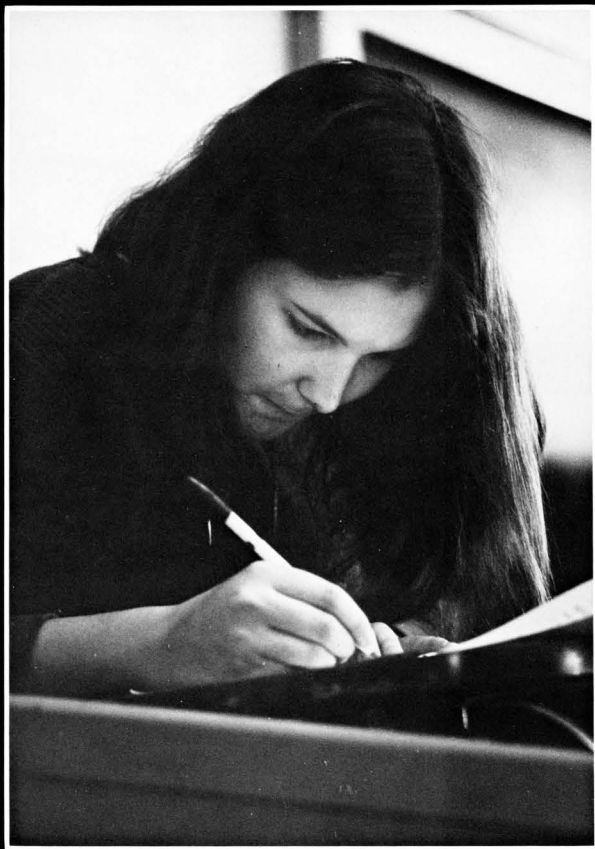

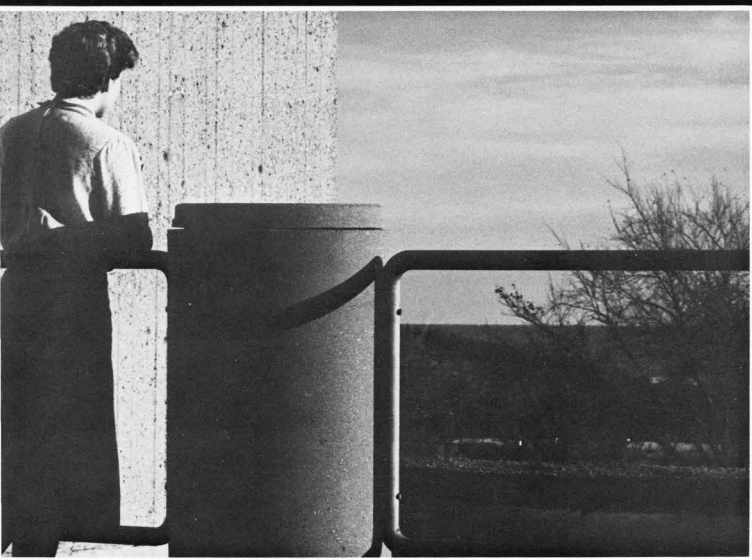

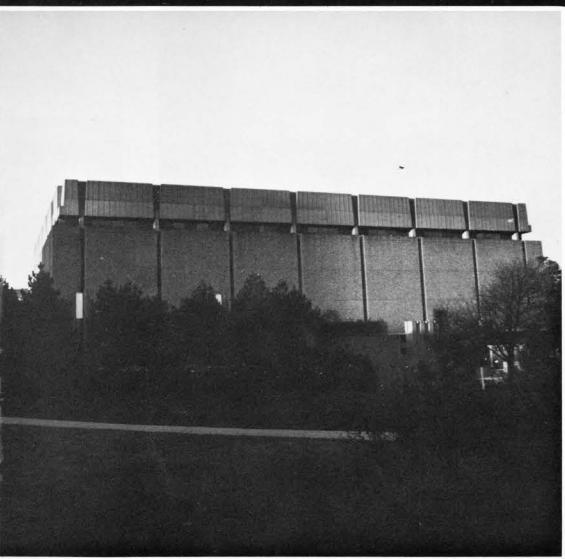

In 1885, Dr. John Forest succeeded President Ross. Together with George Munroe, Forest founded five new chairs: Physics, History and Political Economy, English Literature, Law and Philosophy. Munroe donated \$350,000 to erect new buildings and attract new staff. The generosity shown has been repaid with the declaration of Munroe Day. In 1886, the College moved to Carleton Street, and later in 1912, the college purchased the Studley Estate. Here, the Science Building and the MacDonald Memorial Library were built (see above). Studley Campus now houses the major administration offices of Dalhousie University.

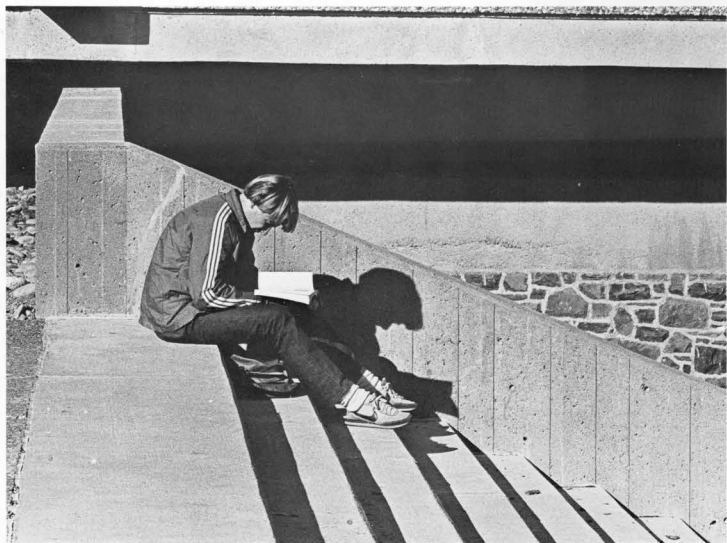

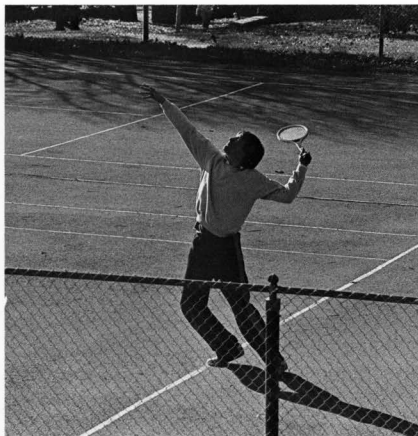

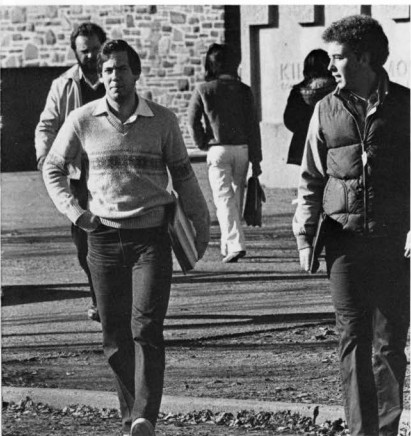

Between 1920 and 1930, the women's residence and the Law Building were completed. During the 1930's, the Gym and the Medical-Dental Library were built. The 50's saw the construction of the A & A Building and the Memorial Rink. (In 1978, the Memorial Rink burned to the ground.) The fall of 1969 saw the opening of the Student Union Building (complete with a live tiger)!

Campus Life

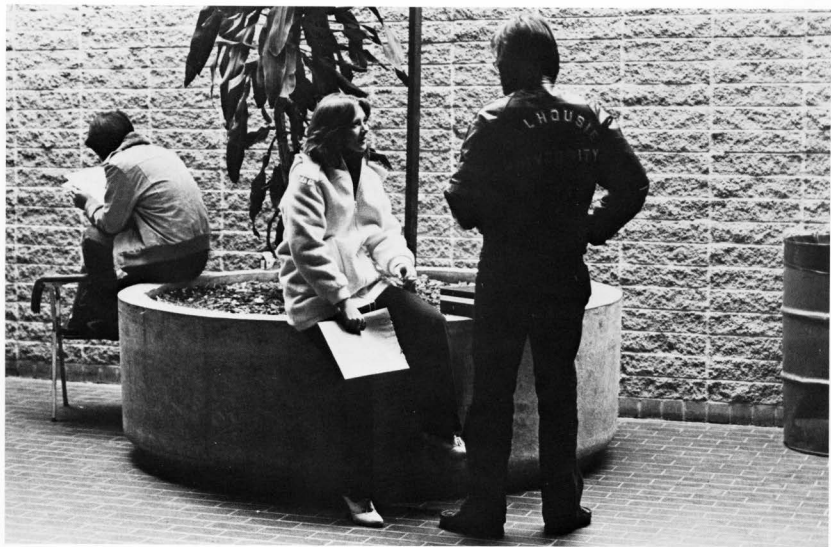

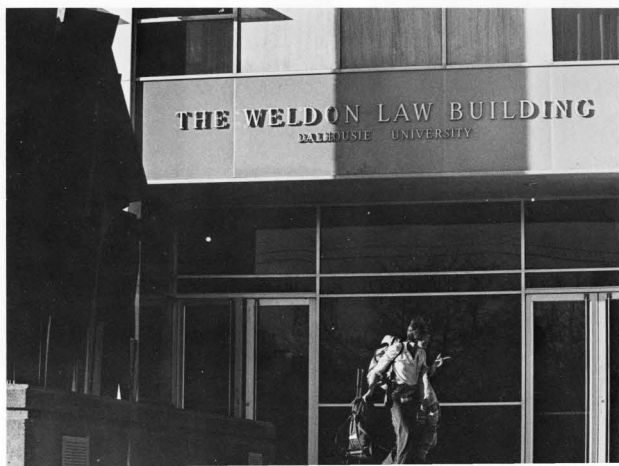

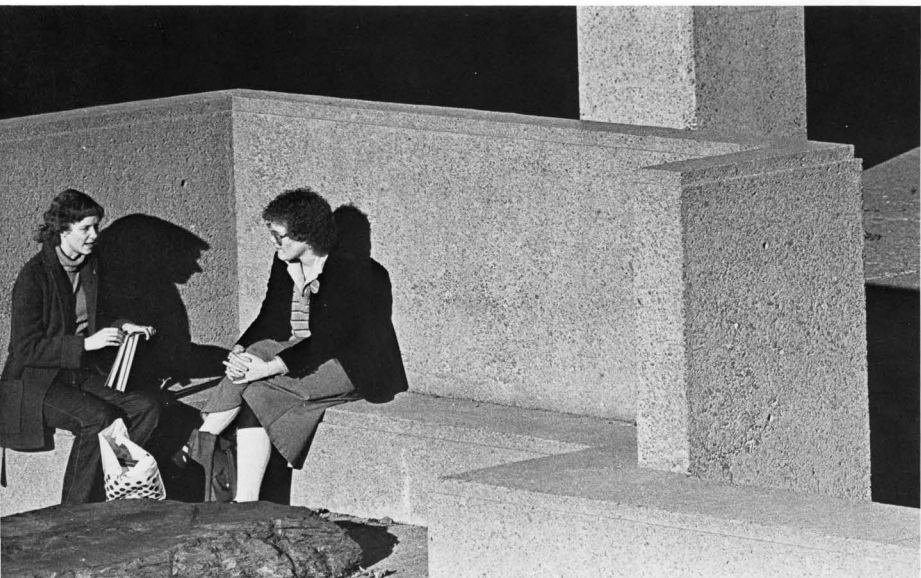

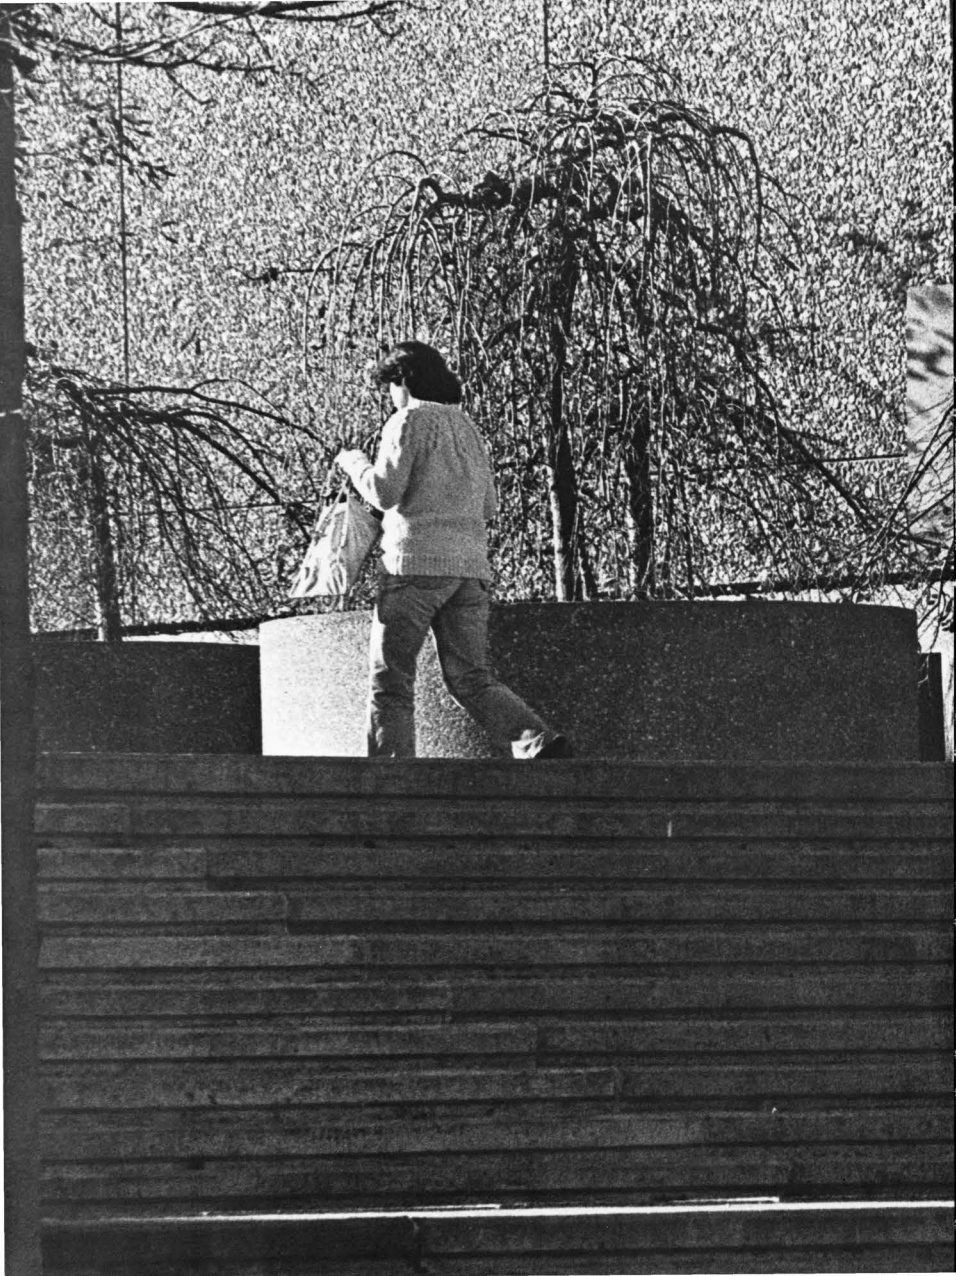

Why did we have to go to school in the cold? in the rain? in the snow? The buildings seemed so far apart! It was a nice campus though, the ivy, the old buildings, the pre cast concrete, (yeah right).

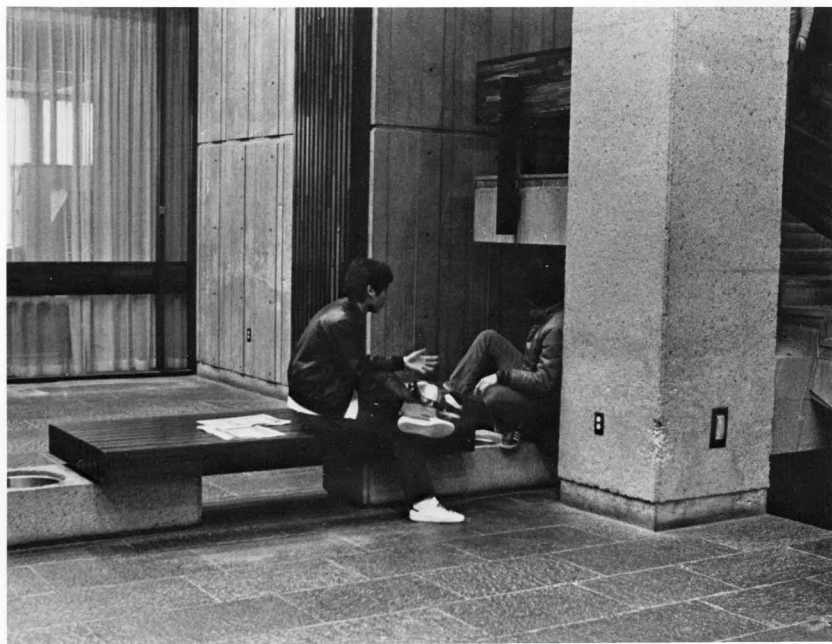

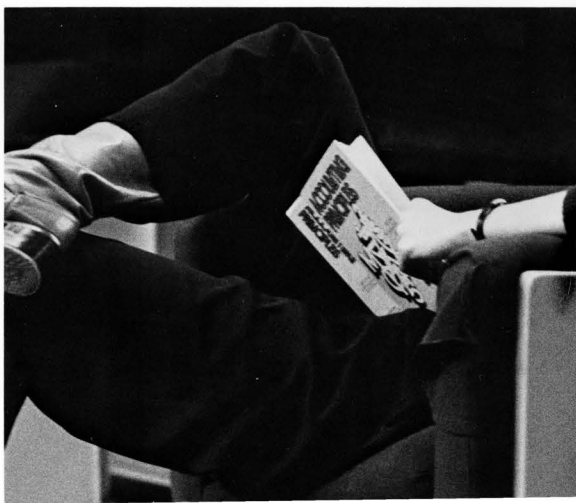

Killam Library

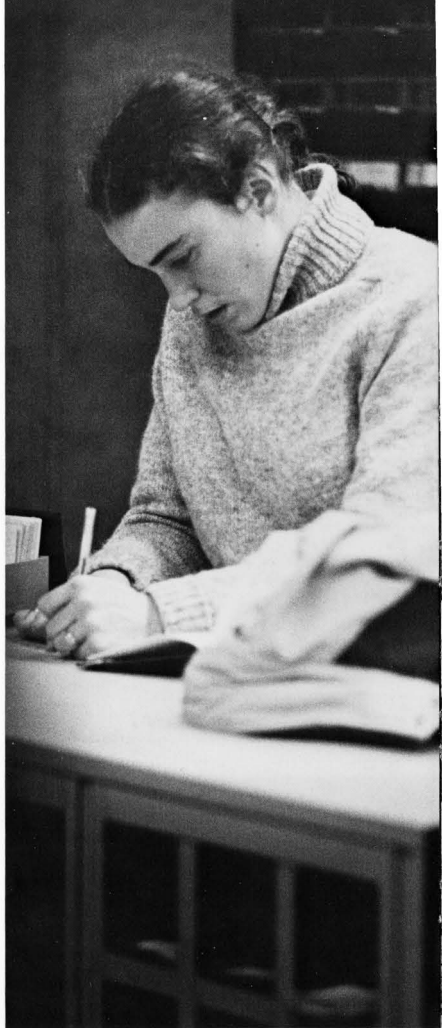

The Killam Library - Boy did I get a lot of sleep here. Those chairs in the hall were SO comfortable. Study? Here? Well don't tell anyone but I really did study ... between naps.

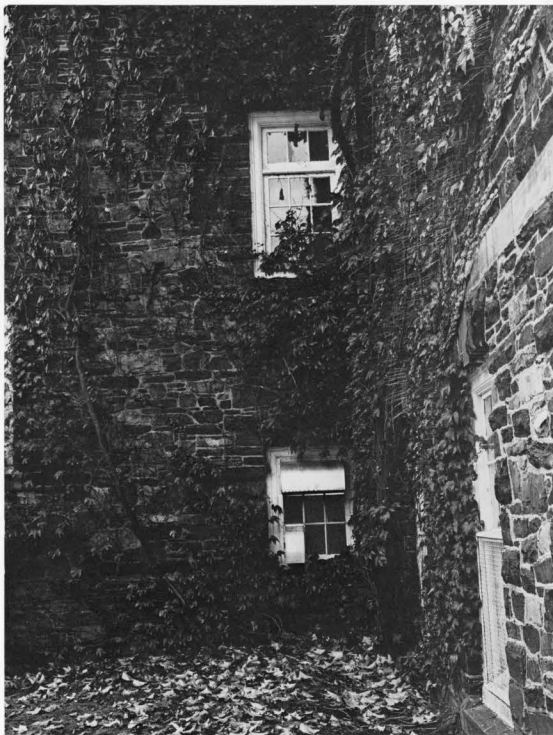

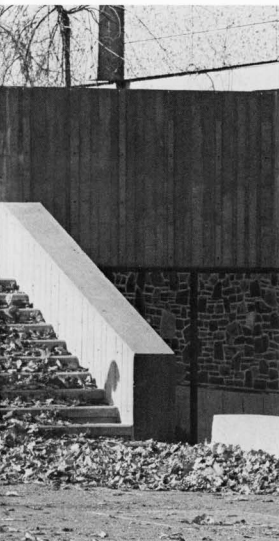

Fall

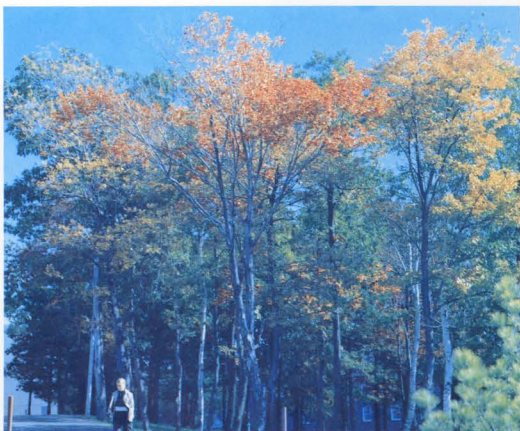

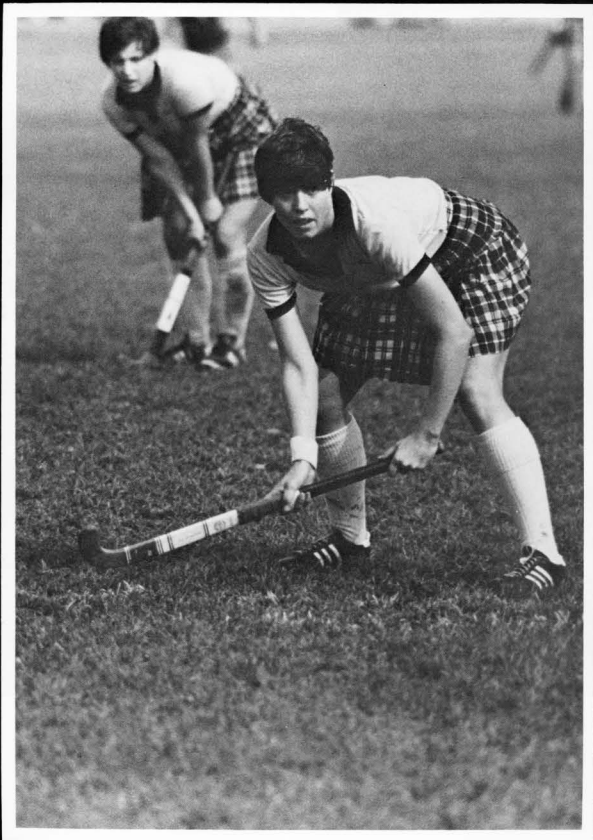

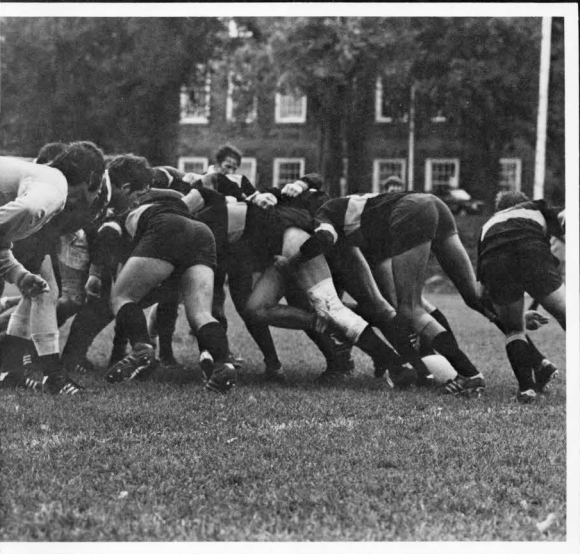

Fall on campus brings about many changes. New classes, new acquaintances, new beginnings. The beauty of the campus can put the most nervous freshman at ease.

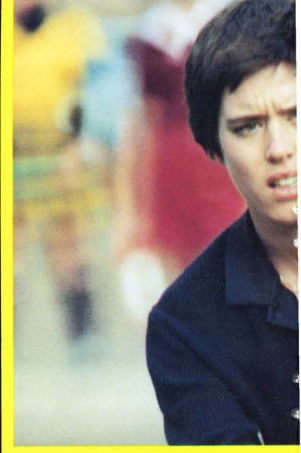

Fall Sports

Field Hockey

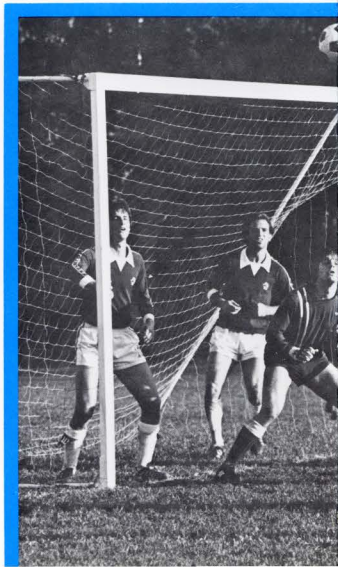

Field Hockey, as usual, was a better part of the sports scene at Dalhousie. We had a great coach, Nancy Tokaryk, and her women played tremendously well for her as they swept through the regular season. Playoffs brought UNB though, and with that the season ended. Yet, those fall days, the competition, and the memories will endure.

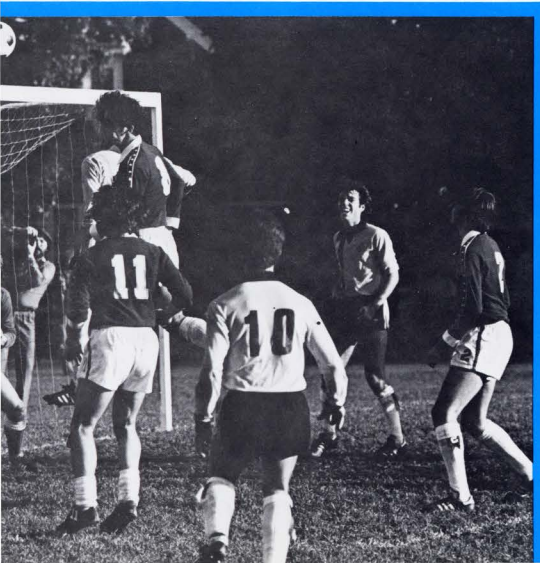

Soccer

Soccer was both a highlight and a disappointment at Dalhousie. The team was playing extremely well and was heading towards a championship when a late season replacement was discovered to be ineligible. The Tigers then had to forfeit enough games to miss the playoffs and the season was gone.

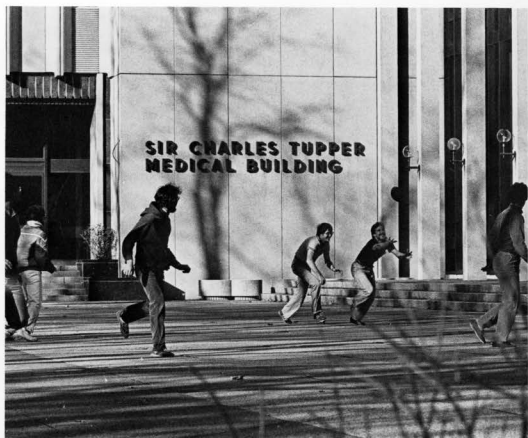

Rugby

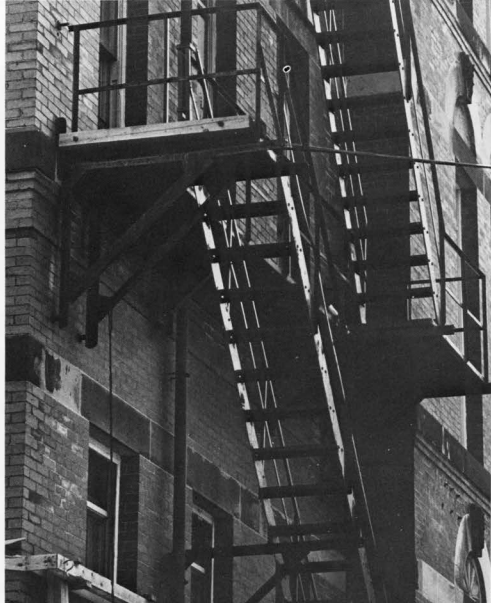

With teams dropping out of AUAA football, rugby is back. Rugby is a 'club' sport at Dalhousie, not one of the more highly funded varsity teams, but no less spirited. A fast, crowd pleasing, (and inexpensive) game that should be here to stay - Our next varsity sport?

Lower Campus

East of Robie St: The Carlton and/or 'Lower' campus. This is the home of the health care faculties where doctors, dentists, pharmacists and others learn to drink. Of course they work pretty hard compared to 'lazy undergraduate dogs' and seem to play hard as well. These schools are what makes Dalhousie famous, though it took special people to go through that kind of hell. Thanks Doc.

Howe Hall

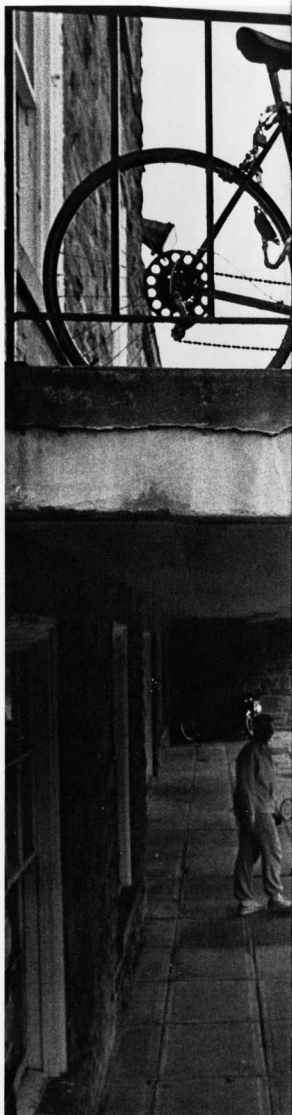

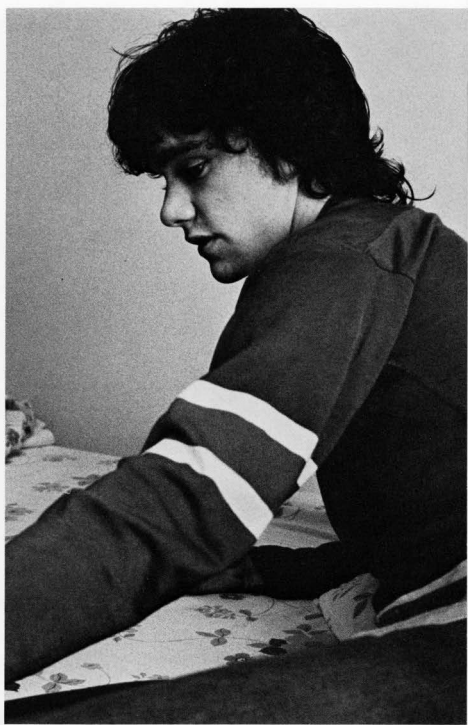

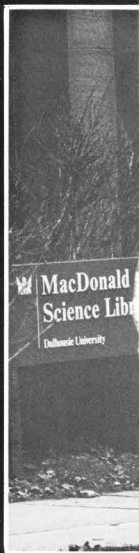

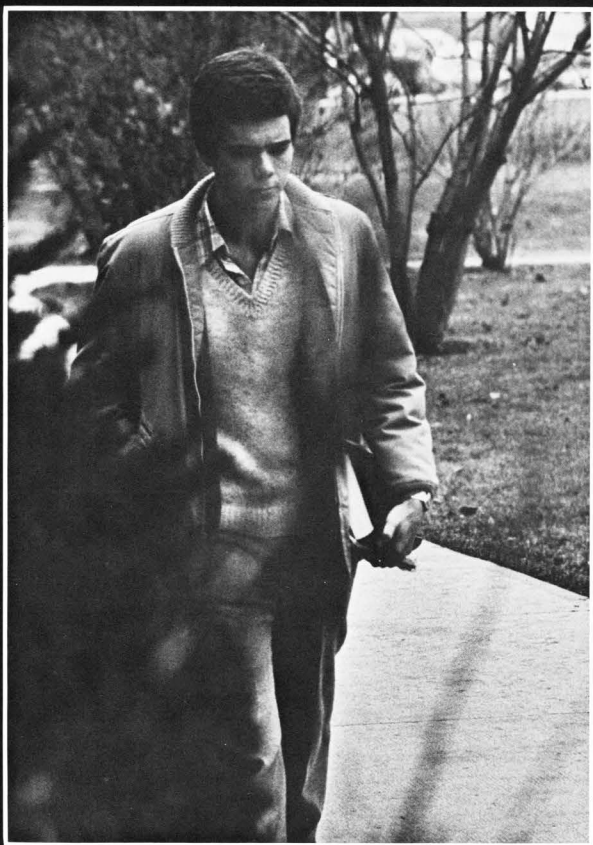

"Howe Hall; the men's residence. What can one add? Lifelong friends, colleagues, companions? The walls were more than stone, plaster and paint. Home - for so long. Can the building tell I was there once? This place was more Dalhousie than Dalhousie was to me."

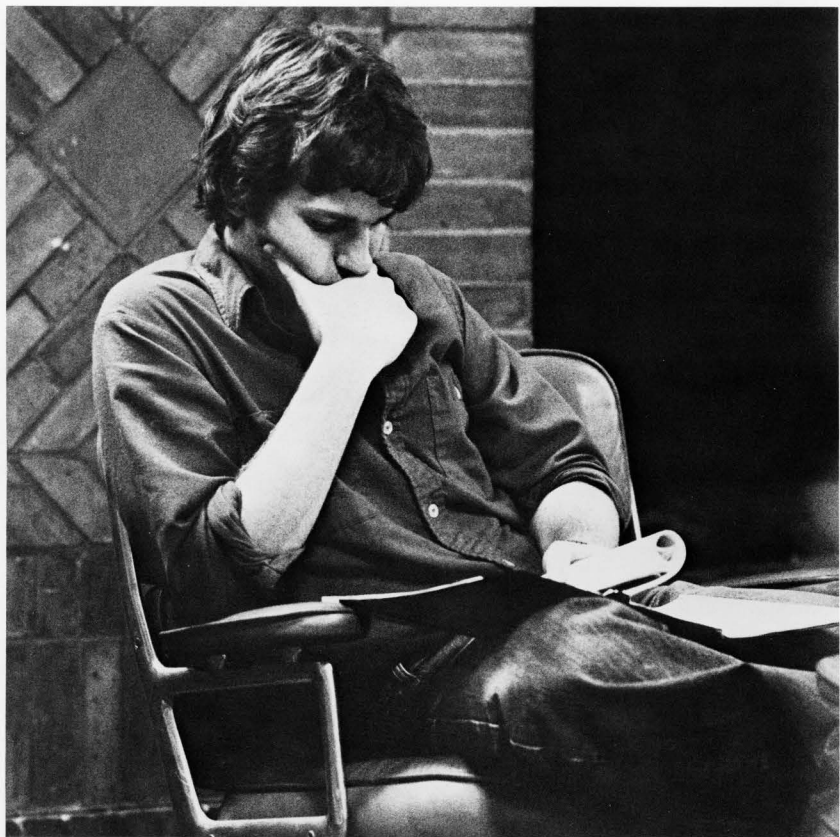

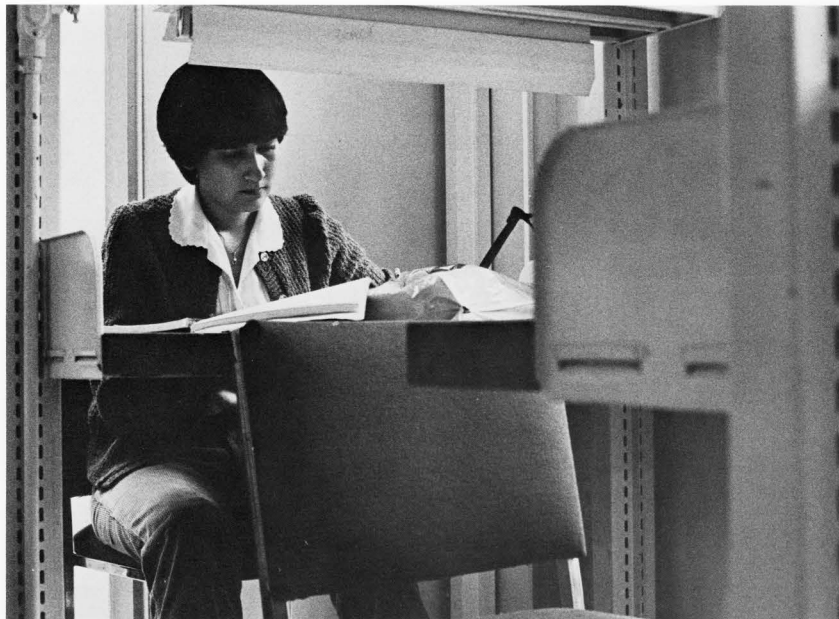

Libraries and Labs

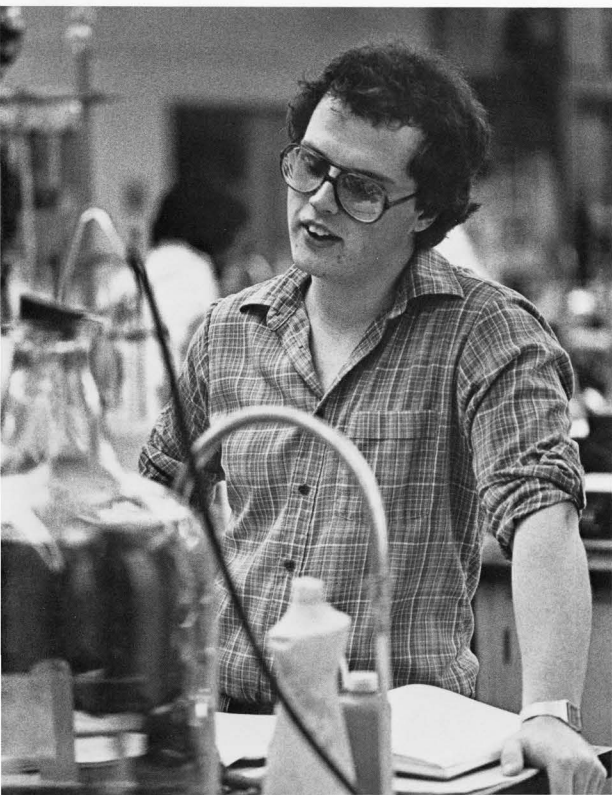

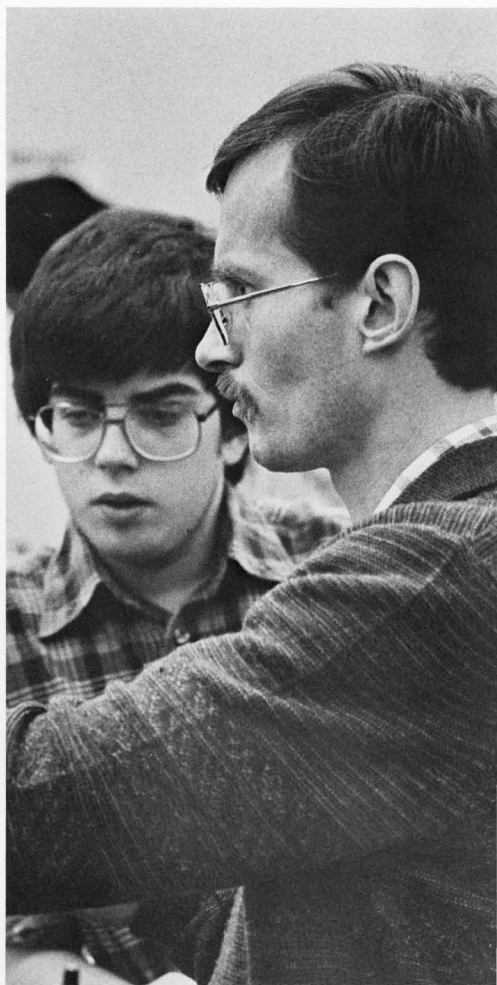

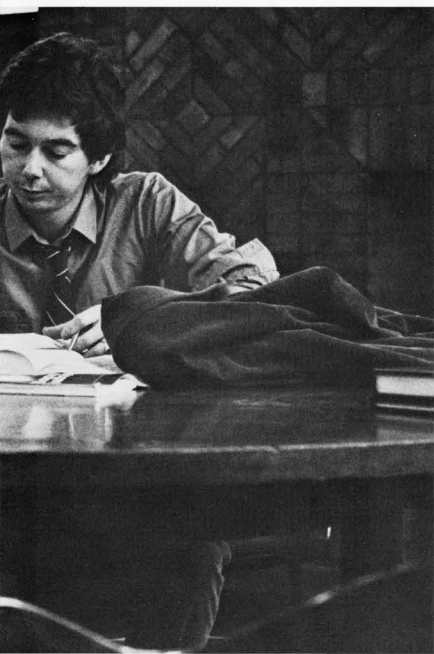

As science undergrads, our life centered around the labs and the MacDonald Science Library. How much time did I spend there? Those labs - hours and hours at those a week. Where did I right up those labs? Right - the library.

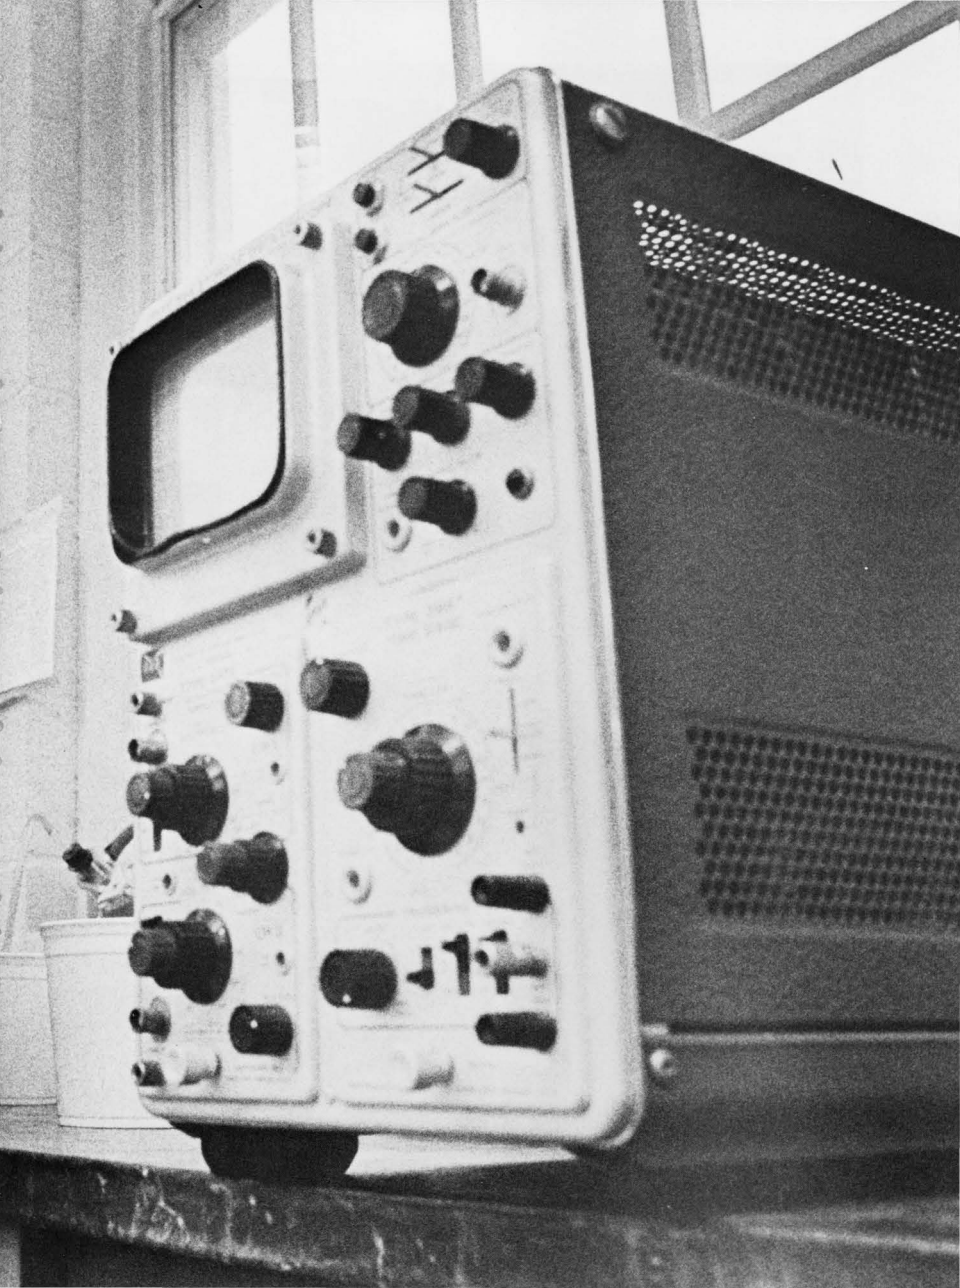

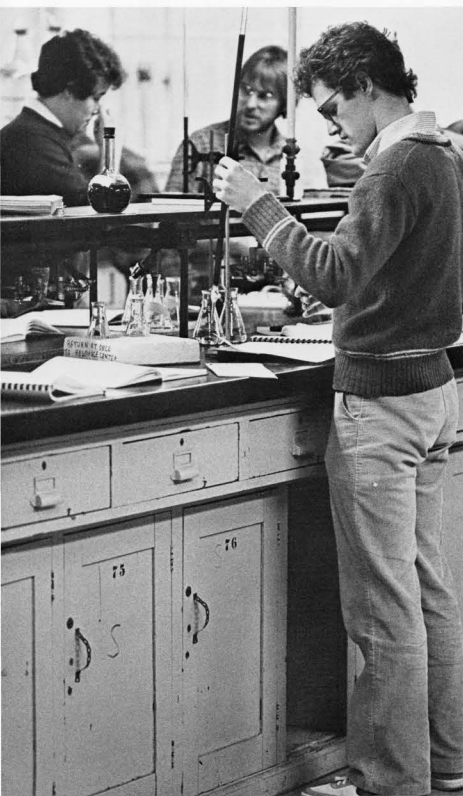

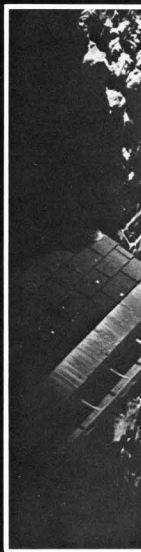

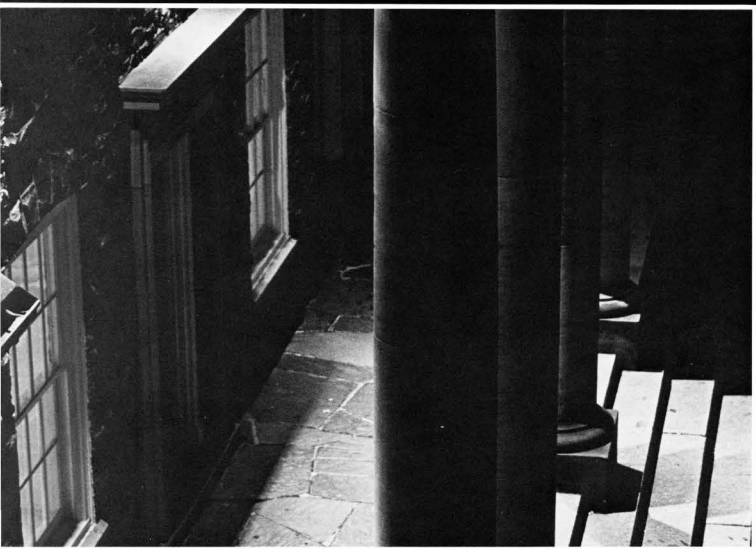

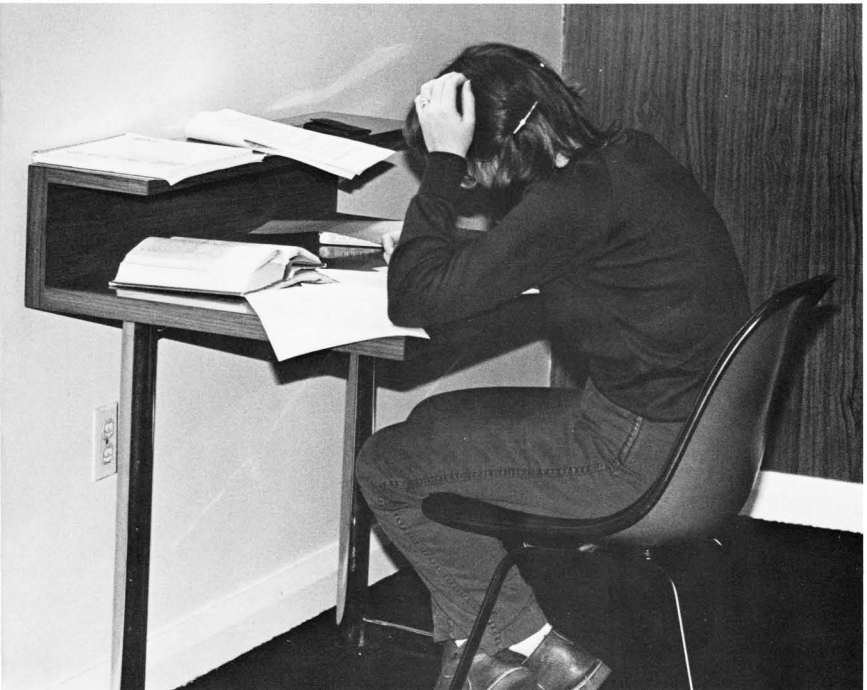

Shirreff Hall

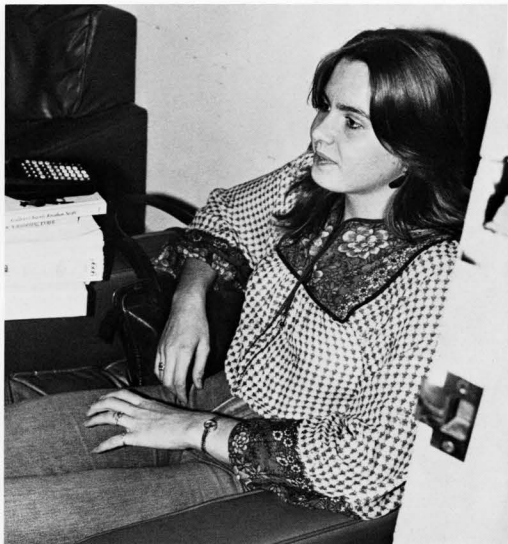

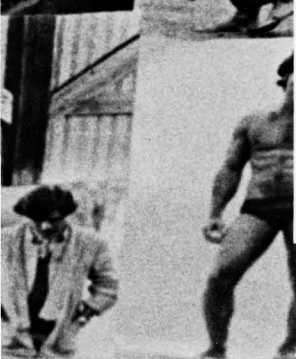

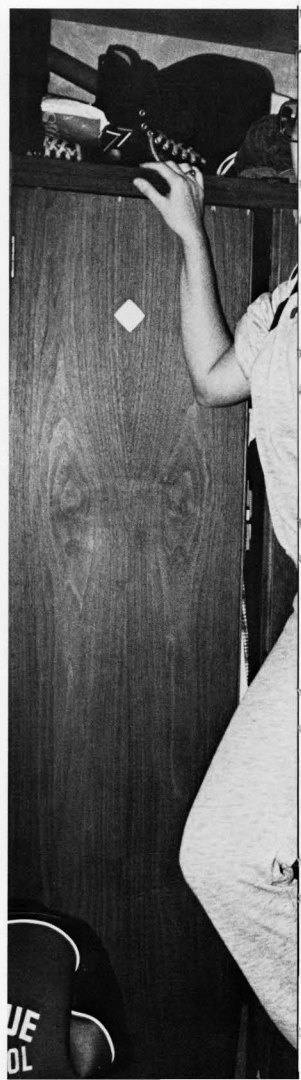

"It was everything to me. Will I ever get closer to anyone more than my roommate? Will I ever get sicker of food? Will I ever hate anything so much as Shirreff Hall? Will I ever love anything as much as Shirreff Hall? No."

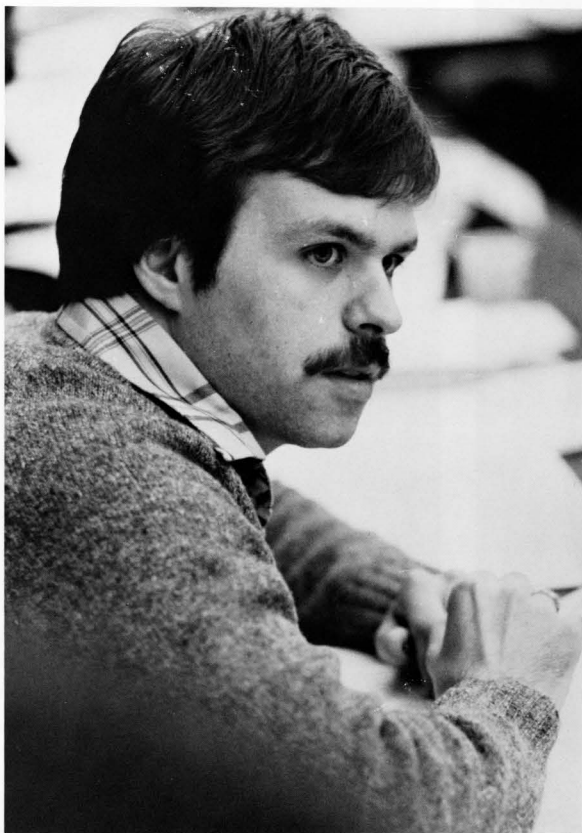

Students' Council

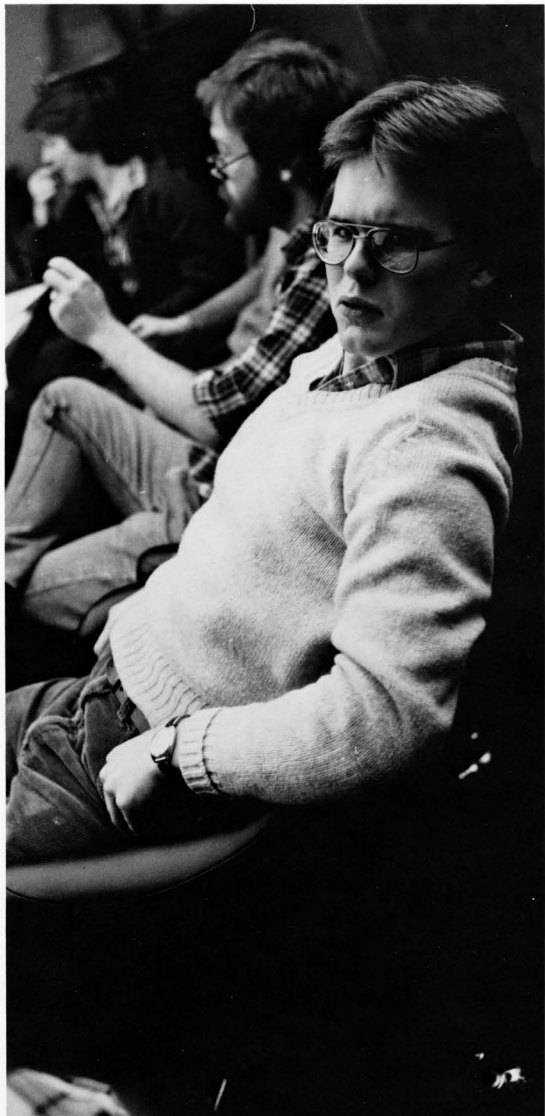

These people worked pretty hard. They didn't have to take the kind of abuse they got. Did some power trip? Perhaps; but most worked hard for us and got not much more than our contempt. We owed them something better.

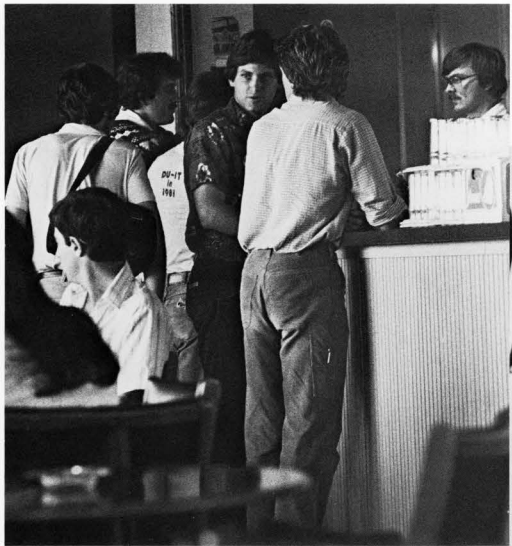

Moments

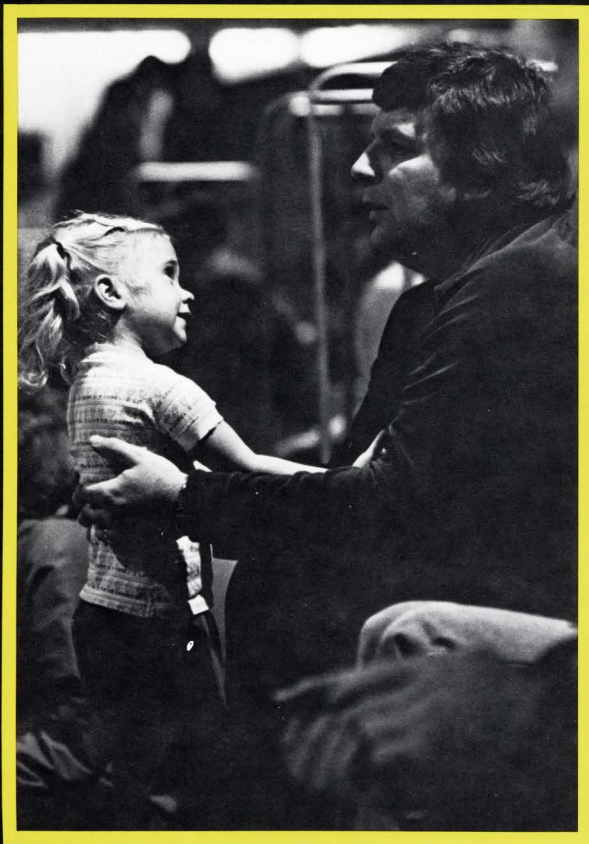

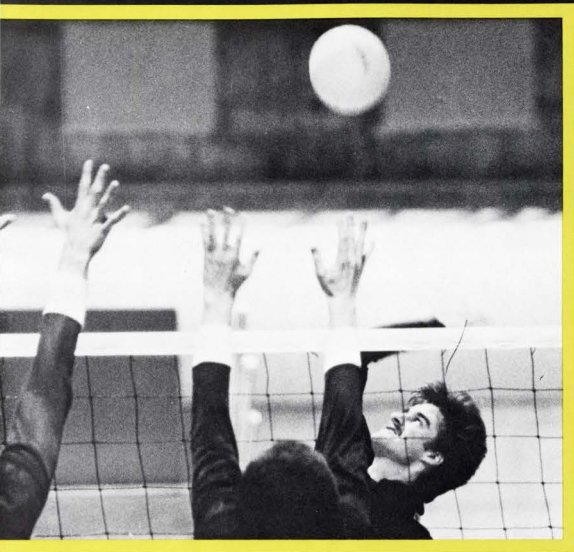

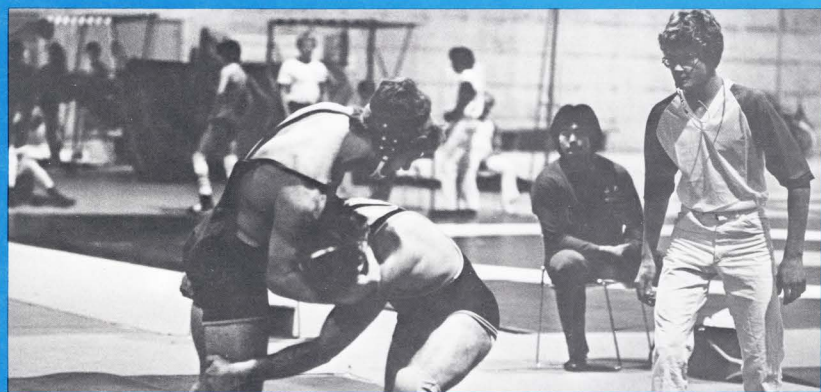

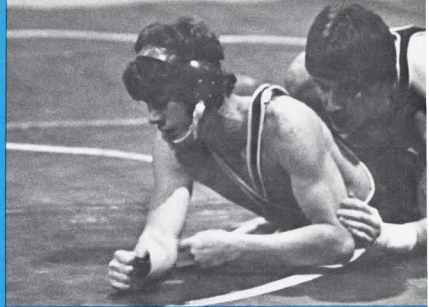

Winter Sports

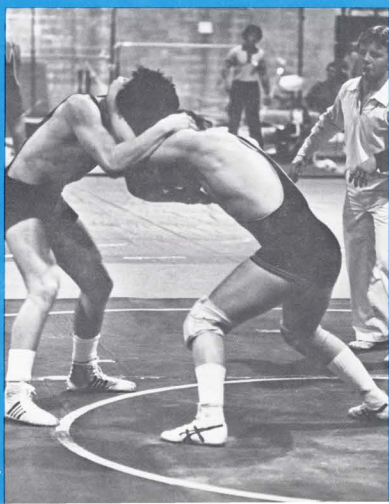

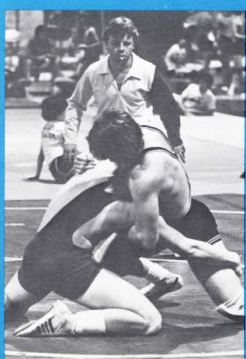

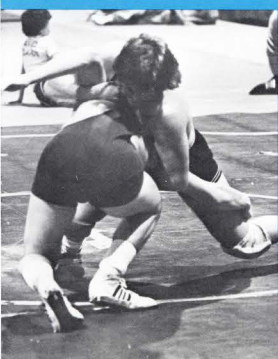

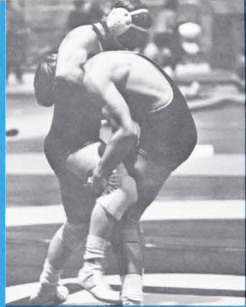

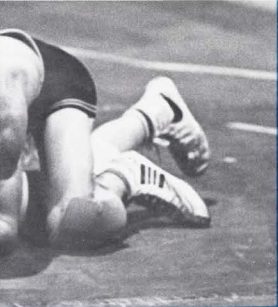

Wrestling

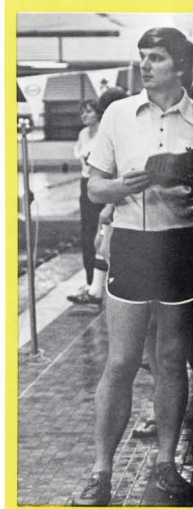

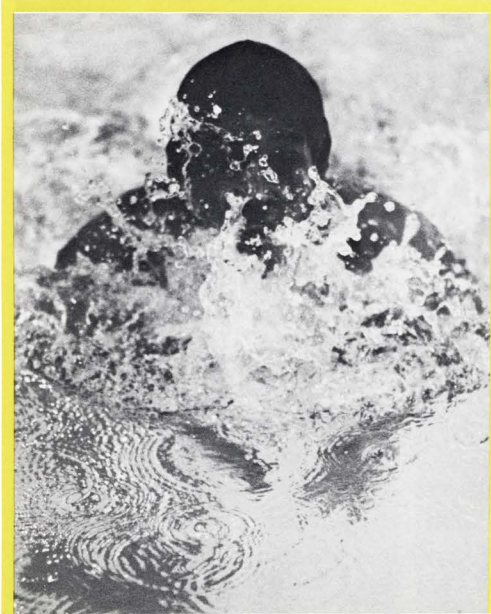

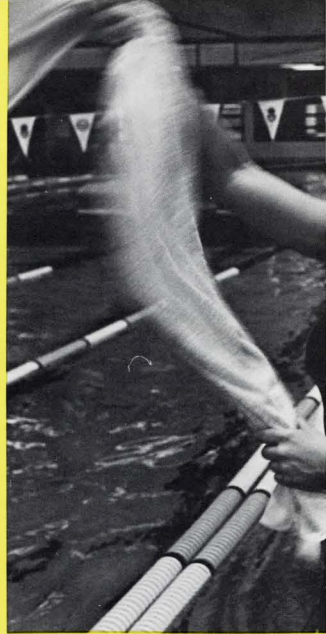

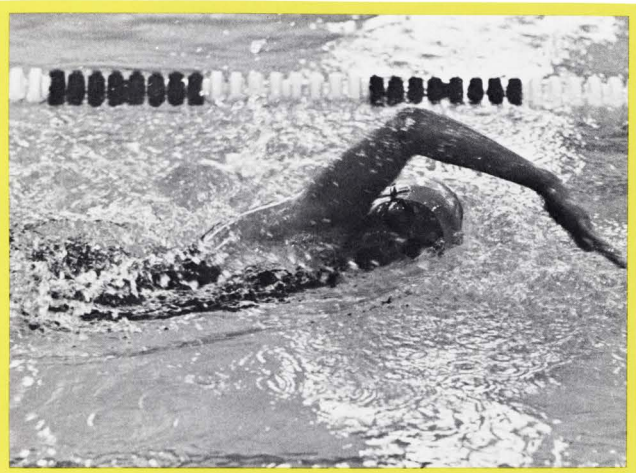

Quality, not quantity, is perhaps the best way to describe this year's Dalhousie team. Coach Greg Wilson was pleased with his team's performance in bringing home three AUAA medals. Congratulations to a very strong team.

Dalhousie Swimming

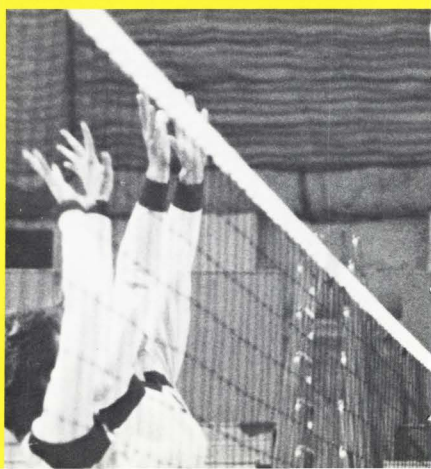

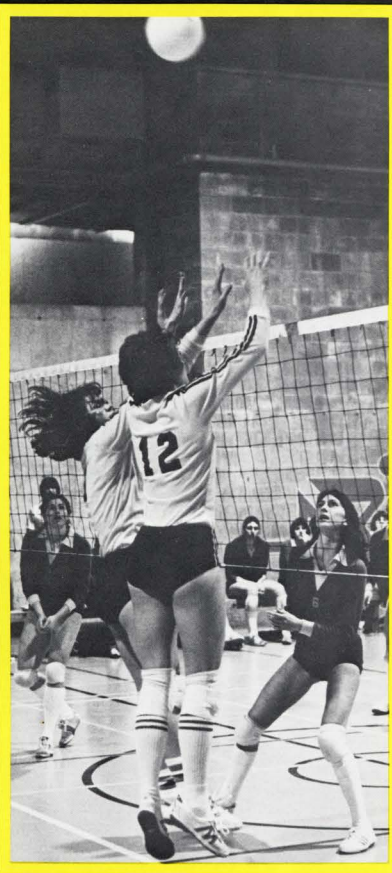

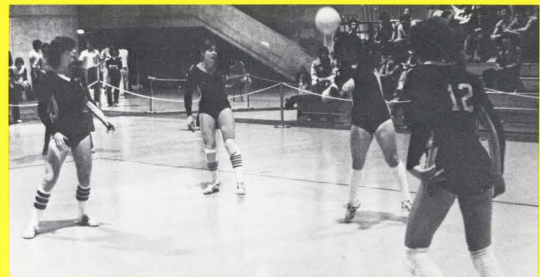

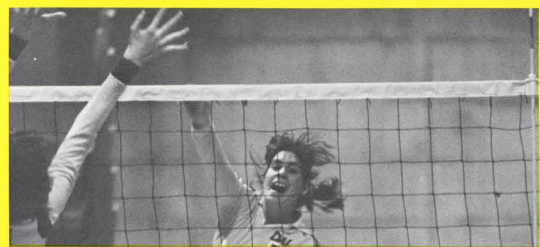

There was another fine year of swimming at Dalhousie. The women's team was lead by Susan Mason, AUAA swimmer of the year. Brian Jessop was a strong head of the men's team. Together the two teams brought home a total of nine medals from the CIAU competition. For Coach Nigel Kemp and his team, it was the successful culmination of another outstanding season.

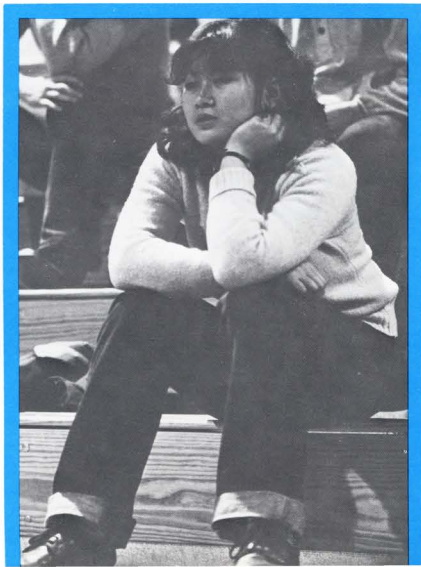

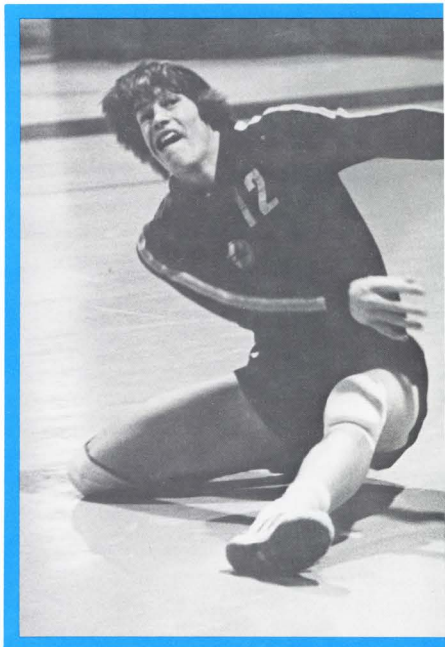

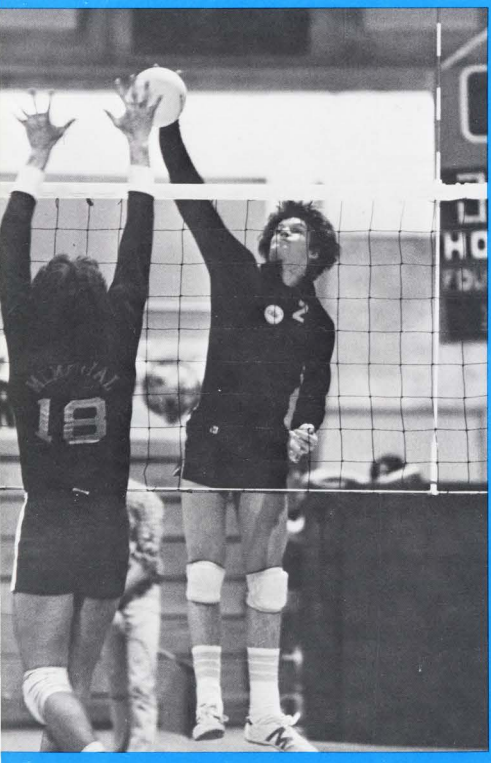

Women's Volleyball

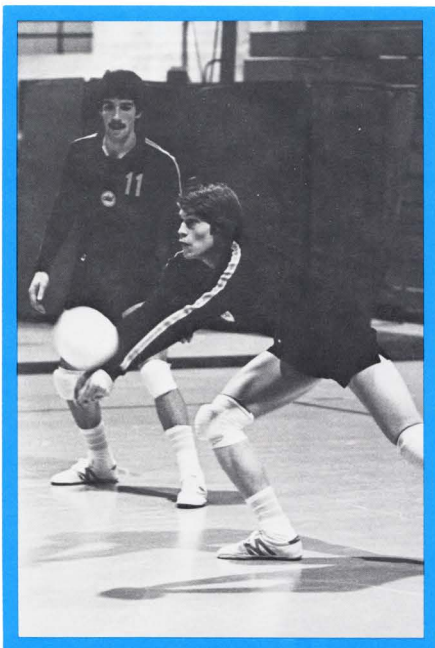

The women's volleyball team ended their season at the top of the league in standings. However, a strong Memorial team took the AUSA title away from the Tigers. Karin Maessen was named league MVP while Karen Fraser was named to the all-star team. Lois MacGregor was named Coach of the Year.

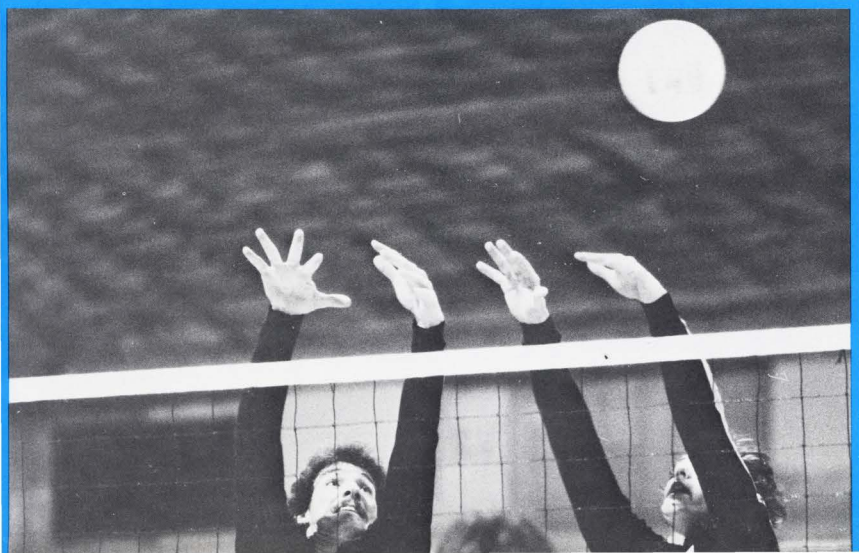

Men's Volleyball

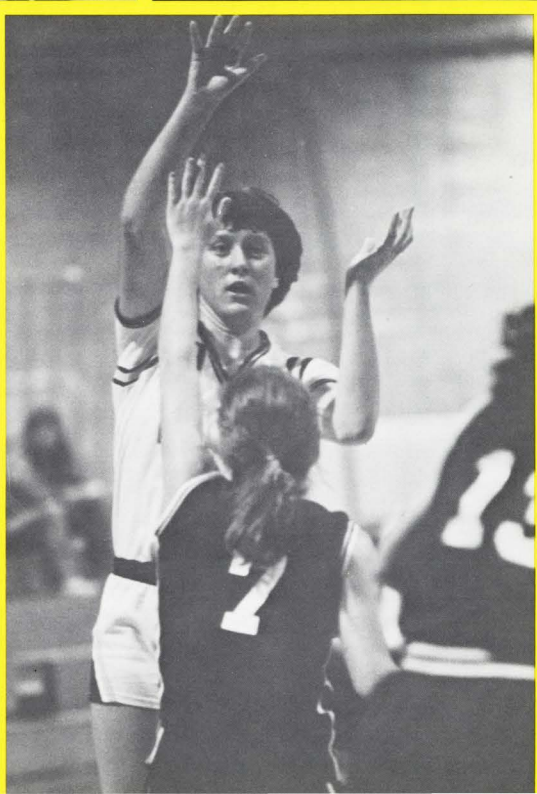

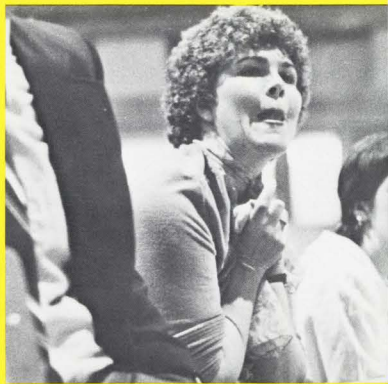

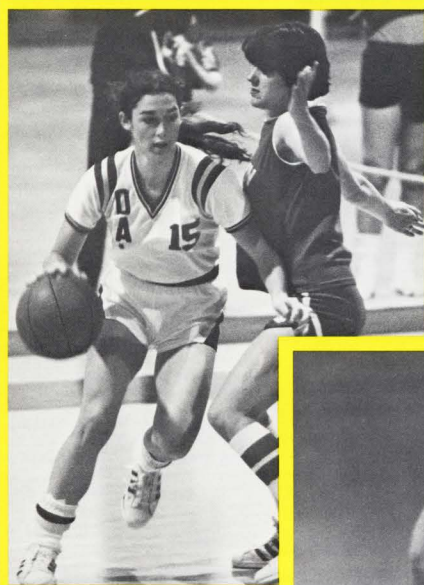

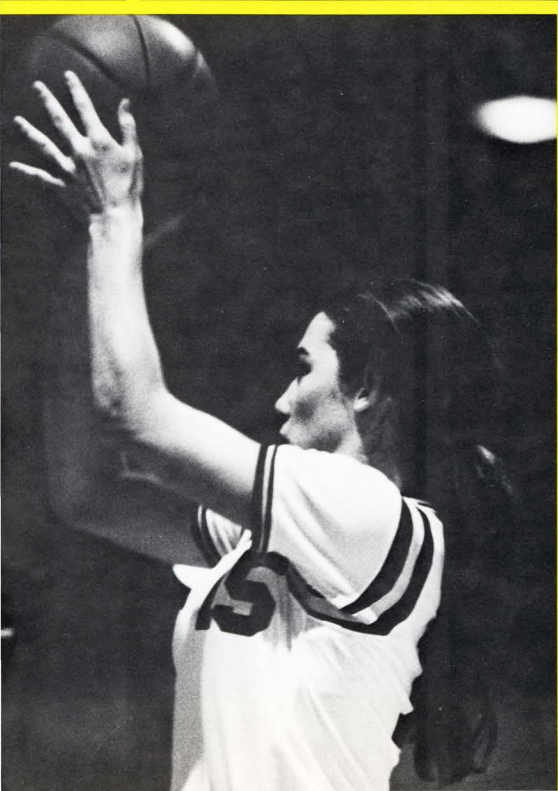

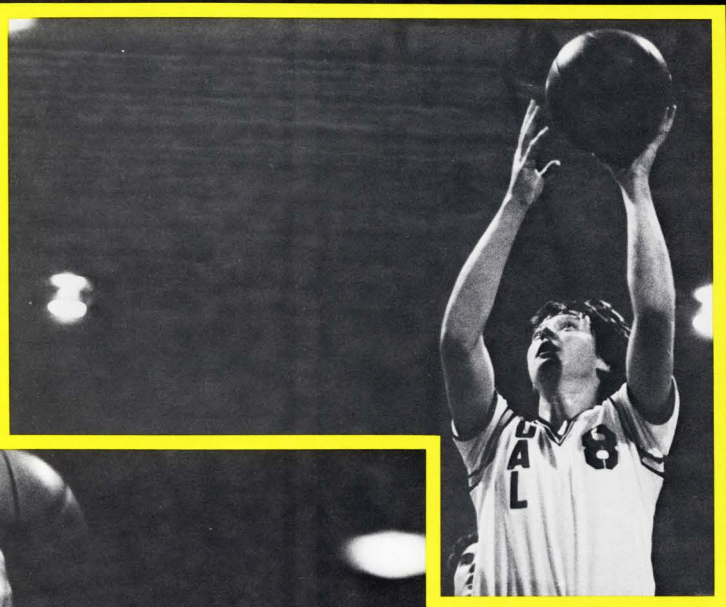

This team was successful and a power in competition this year, as indeed they were AUAA champions. If success though, is measured outside the sports arena then this team's success is open to question.

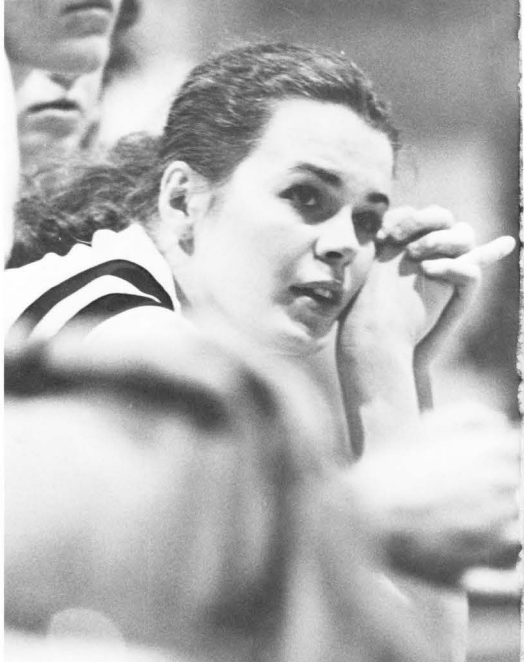

One player made the team and was then cut because his hair was too long! Should a coach be permitted to make this decision? Can Athletics be allowed this power? Men's volleyball won the championship so does this excuse it all? Where has all the sanity gone?

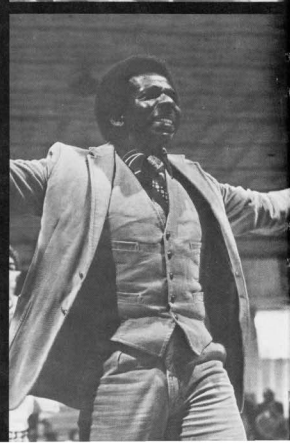

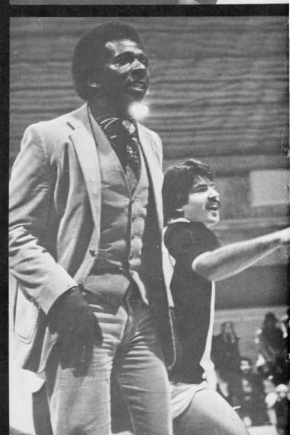

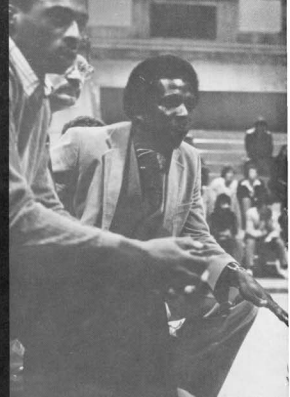

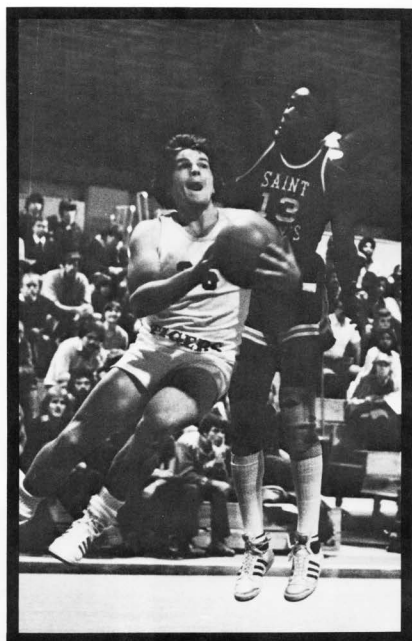

The female basketball Tigers finished the regular season play undefeated. Unfortunately, the AUSA's were narrowly lost to St. Mary's. The hopes of making the CIAUs, in a wildcard decision, were also defeated. This does not mitigate the team's superb ability nor the fine leadership of Coach Carolyn Savoy.

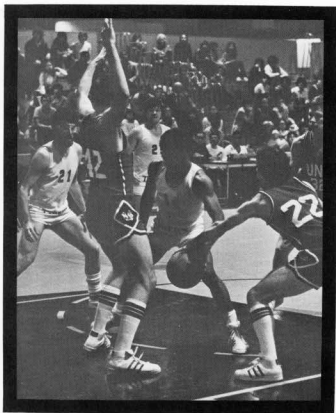

Women's Basketball

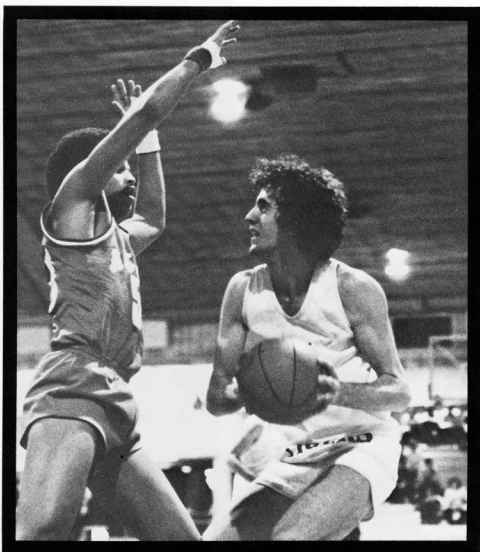

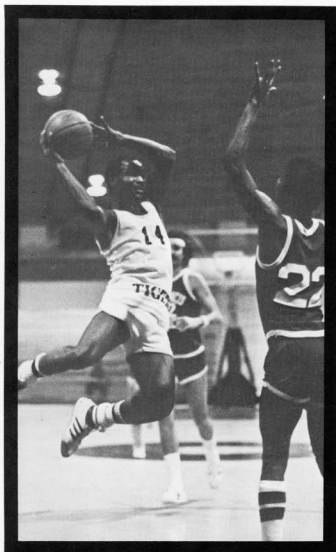

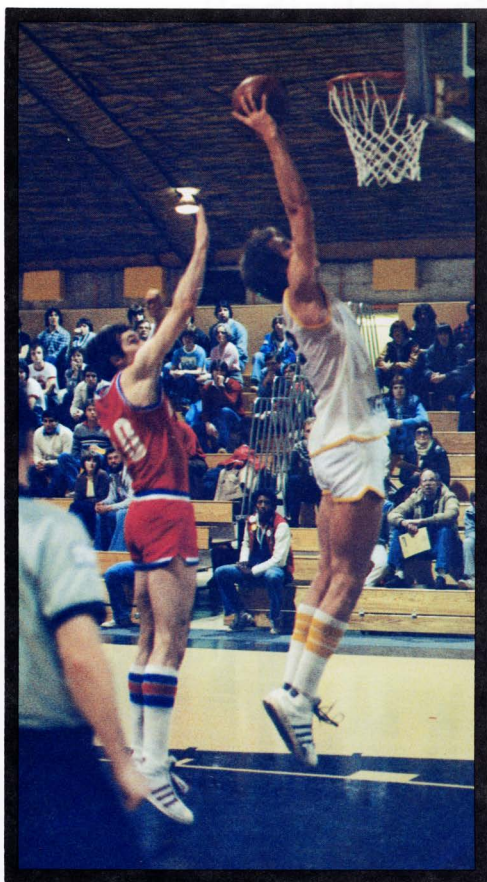

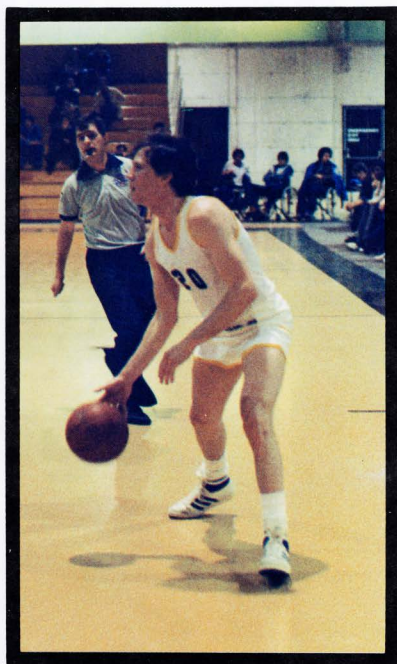

Men's Basketball

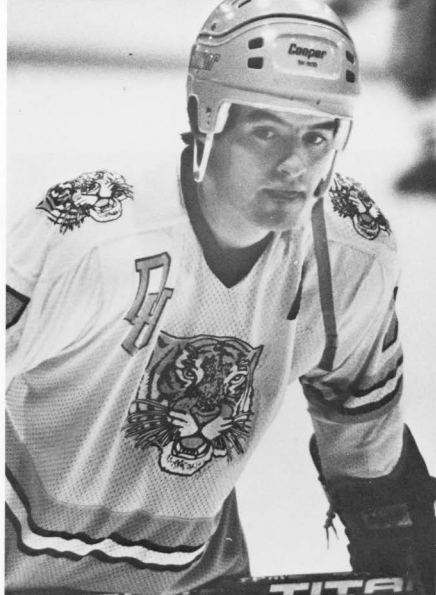

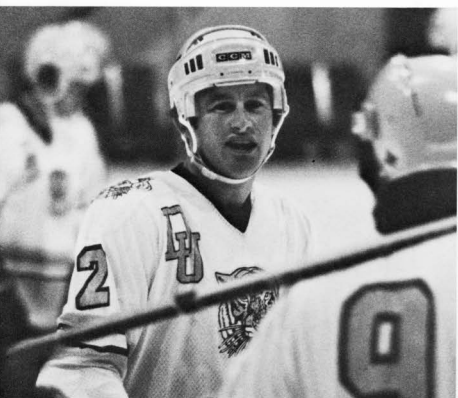

Doc Ryan brought together a strong basketball team at Dalhousie. The Tigers had a good year, not in terms of wins, but in terms of performance. Next year's forecast seems bright, with most of the team members returning, promising an even better showing.

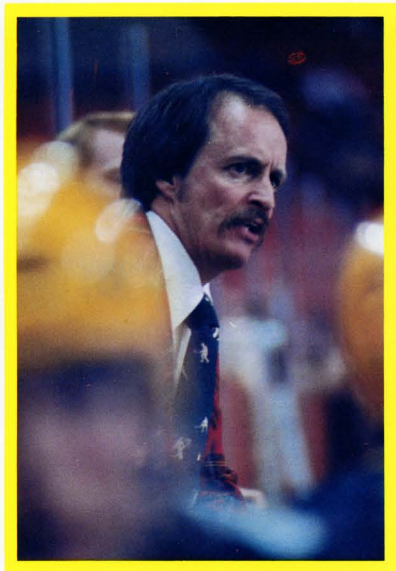

Tigers on Ice

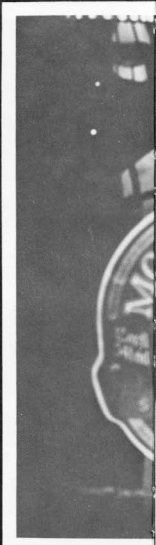

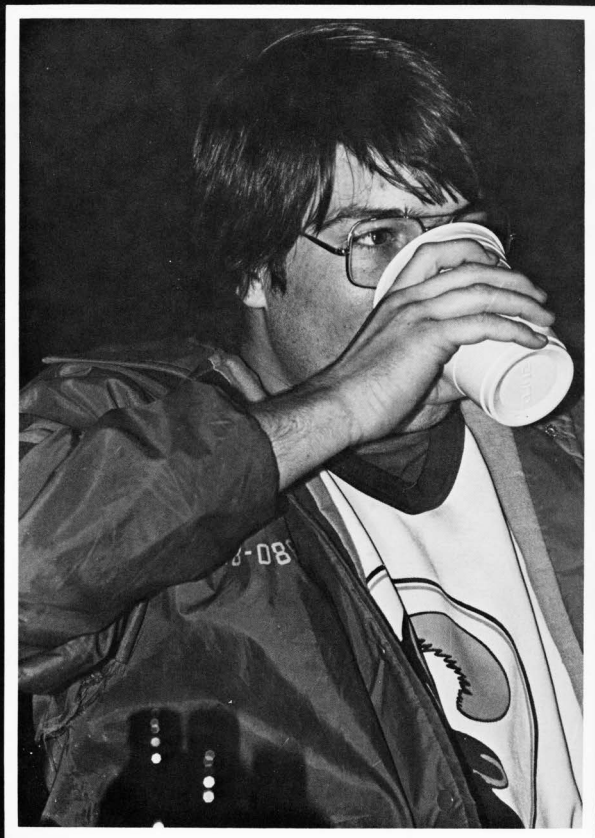

Peter Esdale coached an excellent hockey team this year. The regular season play advanced the Tigers to the AUSA championships. The team also raised three Canadian all-stars: Ken Johnston, John Kibyuk and Rick McCallum. Congratulations are well deserved by this fine team.

Hi Jinx '81

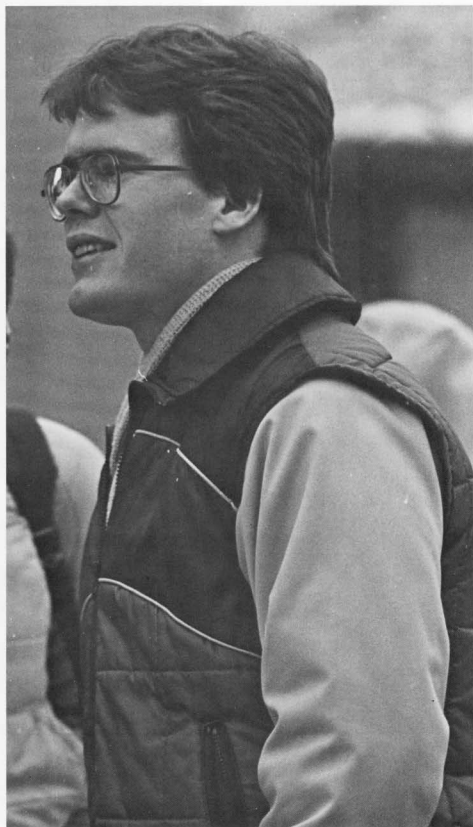

Hi Jinx '81 had something for everyone. Snow sculpture for the artistic, a great Super Sub with Long John Baldry for the rowdy, and even a water pistol murder game for the violent at heart. On the whole, we had a great time during this year's winter carnival.

Palitha Wickramanayaka

In 1981, Dalhousie suffered through the loss of it's Dean of Men, Clement O. Norwood. Clem, as he was known to all, will be sorely missed. His enthusiasm, involvement and dedication, were examples of the kind of man Clem was. We need people like Clem; he was an inspiration to all.

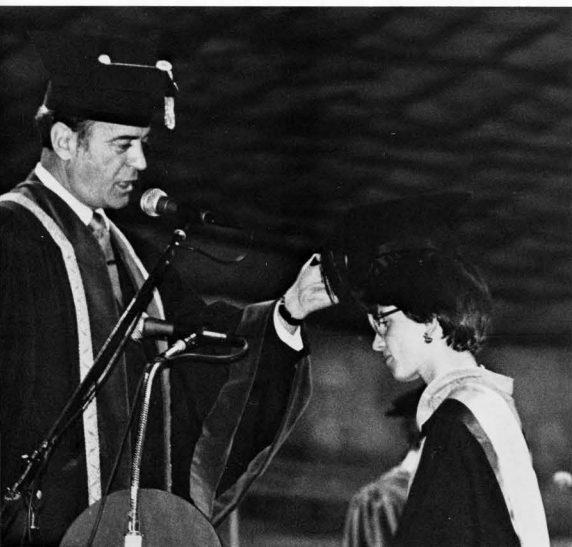

Clem Norwood will not pass forgotten, we are in his debt.

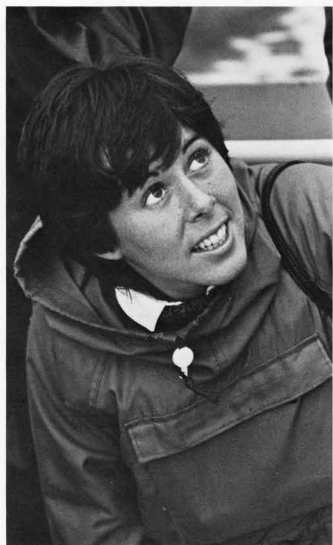

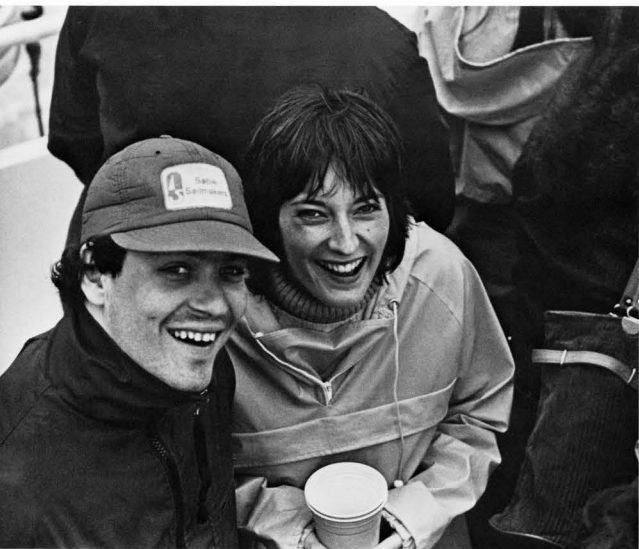

Graduation and Convocation

"It's taken my whole life to get here. I'm gonna have a good time on this boat tour and later at the ball, Y'know, I'm through school and I CAN'T BELIEVE IT.

**We're looking for
Engineers who aren't
at Sea in today's
modern technology**

You can take your engineering knowledge and become a Maritime Engineering Officer in the "today ships" of the Canadian Forces. Ships that are filled with computers and electronics. A whole new world of sophisticated equipment you may never come across in civilian life, which you can learn to master.

With experience, you could also become involved in designing systems for the ships of tomorrow.

You can join the Canadian Forces as an Officer and be paid according to your qualifications and experience. Salary increases and promotion opportunities come regularly as you gain more experience. And Maritime Engineering Officers travel far and wide like all men of the Sea.

It's an exciting, rewarding alternative to the Sea of civilian life.

To get involved in Maritime Engineering and join this team of young engineers, you must be educated as an engineer. We need graduate engineers in Mechanical, Electrical and Systems Engineering. We have several different entrance programs, one probably will be suited for you.

Being a member of the Canadian Forces means getting involved.

For more information, send details of your training and experience to:

Canadian Forces Recruiting Centre

Coal Oil

THE BALANCE OF POWER

1981

In 1981, the Nova Scotia Power Corporation will generate more power from Nova Scotia coal than from imported oil. Add to this the power generated by our hydro system and we'll be producing approximately 60% of the Province's needs without using expensive foreign oil.

Our planning for increased self-sufficiency was evident in 1978 when the Wreck Cove hydro station came on line, displacing 500,000 barrels of oil annually. 1979 saw the coal-fired Lingan #1 Unit in Cape Breton displace 1,500,000 barrels. In 1980, Lingan #2 began operations, displacing a further 1,500,000 barrels of oil.

Work has already begun on Lingan #3, which, when operational, will displace yet another 1,500,000 barrels.

Continuing development of hydro operations at Wreck Cove and Fourth Lake, along with the Annapolis Tidal Power project, will make further contributions to our increasing self-sufficiency.

Not only are we taking the necessary action to reduce our dependence on foreign oil, but each year more of Nova Scotia's natural resources will be used to produce electric power for business, industry and homes.

The balance of power is shifting... to your advantage.

Dear Graduates,

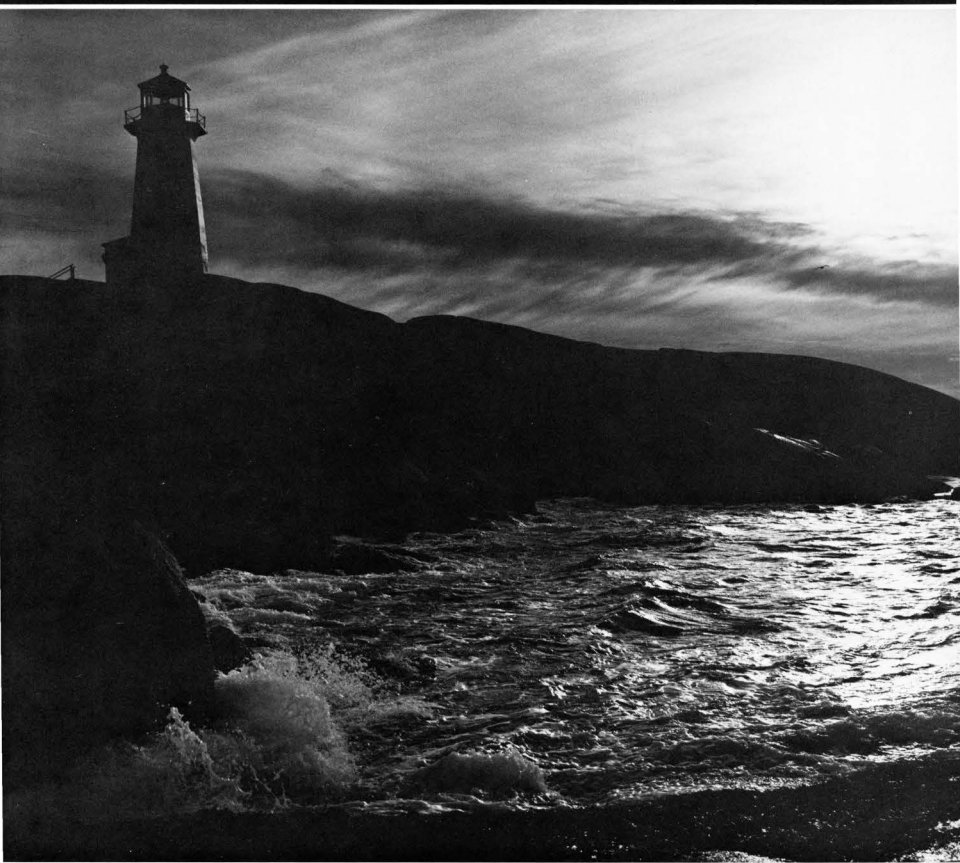

There, it is done, I'm finished! I hope you like *Pharos '81*. It took a lot of special people much time and effort and now it's in your hands. Please forgive any errors you might find, we've tried our best yet mistakes always seem to occur.

This yearbook will mean more to you in twenty years, we hope: memories of the sweet happy times before university ended. (You didn't believe this garbage when you read it in 1981, how do you feel now, in the year 2002?) Keep the book safe, read it from time to time, and have a nice life.

I'd like now to take this opportunity to thank some people: Mr. John Graham, General Manager of the Student Union and friend of Dalhousie students; Gordon Owen, President of D.S.U. and a good guy besides; The Photography Department led by Tom Higgins and Chris Hartt; Pat Jordan who made that extra effort in photography along with Bill Jensen who gave much of his time and finally, and most importantly to Dave Grandy and Herb Anderson of Inter-Collegiate Press without whom this edition of *Pharos* would not exist.

Lauren Schager

“Our College by the Sea”

the 1990s, the number of people in the UK who are aged 65 and over has increased from 10.5 million to 13.5 million (15.5% of the population).

There is a growing awareness of the need to address the health care needs of the elderly population. The Department of Health (1998) has set out a strategy for the NHS to meet the needs of the elderly population. This strategy is based on the following principles:

- To ensure that the NHS is able to meet the needs of the elderly population.
- To ensure that the NHS is able to provide a high quality of care for the elderly population.
- To ensure that the NHS is able to provide a range of services to meet the needs of the elderly population.

The NHS is committed to providing a high quality of care for the elderly population. This commitment is reflected in the following objectives:

- To ensure that the NHS is able to provide a high quality of care for the elderly population.
- To ensure that the NHS is able to provide a range of services to meet the needs of the elderly population.
- To ensure that the NHS is able to provide a high quality of care for the elderly population.

The NHS is committed to providing a high quality of care for the elderly population. This commitment is reflected in the following objectives:
