August 9th, 1923.

Mr. W.S. Crandell,
A.P.W. Paper Company,
Albany, N.Y.

Dear Sir:

Herewith please find draft showing
run-off for 1917.

Please advise if you have in your
possession any additional hydrographs for the
years up to date. We find that the reconstructed
pondage will give us ample water to operate the
grinders five and a half months, operating the
generator unit over the balance of the time.
This, however, compels operation of the grinders
during the winter period.

Please let me have any information
you may have by return mail.

Yours very truly,

W.S. Painter

WSP-MB
enc.

*I have no other
information WSB*

Note: Run off capacity based on 115 sq miles
and data compiled from East River Street
Harbor Development.
