

Dear Professor Harvey

Thank you for your
promptness, & forgive
my delay. When I
tell you that I have
spent the last two
mornings in the
dentist's chair you
will understand.
The wording of the
inscription has been
in my mind, con-
stantly and I have

written on a separate
sheet what I wanted
like. Mrs. Swartz, (Pills)
who looked after the
small plate, which
is to be placed
under the portrait in
the library, tells me
that the work on the
small tablet we
have in mind, will
take at least two
weeks, so, if possible,
could you give
the order at once?
I should so like
to see it in place

before I sail Sept. 23rd
I leave the final de-
cision to you - only
please use 'College'
instead of 'university',
you may remember
how strongly he felt
about using 'university'
when speaking of
Dalhousie -

thanks
with many
very sincerely yours
Edith MacMichael
