My Dear Sister

I am welcome and loving lettered to day and I
one did enjoy it very much & also rec'd a letter from Lillie to
day and one yesterday & answered her last evening & am
expecting one from Mother yet probably I shall get that one
this evening & did not get my parcels yet but will get them
pretty soon now it takes a parcel about six weeks to reach
here I am patiently waiting for it to come well now sister just
a few things have changed around here which keeps me
here for a couple of weeks longer if it had not been for
them I would have been in France by now but still I
expect to be one there before you get this letter now the few
things that I have mentioned I am not allowed to tell you
just what they are nothing very much it is raining terrible
hard here to day and that makes it quite disagreeable especially
with Kilt's on and so you are sending Candy to Charlie
are you well you may be one that I will see that she gets
his share poor little fellow he is getting smaller every day &
we are doing very much to day just sitting around the fire
and Charlie is not doing very much now I would like to be
near home to day I would be able to stay home all day
and then we would have some time and so you liked
the Circus getting Candy you are some lucky wish that I
could be there to try my luck but you I would not get one

thing and so Eph Gladwin was out to the 46 acre with
his Wife and Jan had a good time laughing at his saying
he can't see cure & always liked Dick he was a good old
scout in the sixty third bunch & rec'd a letter from him and
was awful sorry to hear that them old timers destroyed half
my letter to him & am sure that I did not have anything of
importance in his letter so his little boy as I'm looking as ever &
always thought him so quite and Mrs Gladwin is very
nice & always liked her very nice in her home & am glad for
her sake that Dick has that job at the Dennis Bldg, and so
Jan liked my cards that I sent Jan all from home & thought
that Jan would they are much prettier in reality than to see
them personally & did like Scotland very much & could hardly
realize myself in Scotland Charlie was with me and he
seemed to enjoy himself now Sister & James that I haven't
very much more to tell Jan for this time and in good health
and hope that Jan are all same at home Jan's some Ice Cream
for me when I come home as I will be able to eat the Green
Lantern and when I get started and so Jan think that I will
have a whole days reading when I get Mother's letter well &
am anxiously waiting & I do enjoy her letters and Jan's like
wise Jan are all so good to me at home I get the times more
letters than any other fellow and I have my two dear little sister
Mother Brother to thank for them give my love to all and write
soon like a good little girl Jan's love loving Brother Webster
