Munro Day

The second Tuesday in March is Munro Day. Declared by the Board of Governors in 1881 as a Dalhousie University holiday, Munro Day is a day of tribute to the benefactors of our University. It is a day when Dalhousie students and gaduates everywhere should remember and offer thanks to those individuals and organizations who have contributed to Dalhousie. Without the aid of such persons and bodies, this University would not be an institution of higher learning today. It would not have such an illustrious list of graduates, and it would not have contributed in such great

measure to North American society. In the early nineteenth century, the idea of a nonsectarian University was first conceived. Not having the financial support of any particular religious group, Dalhousie existed on a fund established by its Founder, Right Honourable George Ramsay, Ninth Earl of Dalhousie. The fund soon diminished, however, and a young Dalhousie soon found itself in a storm of financial difficulties. With such leaders as McCulloch, Howe and Young, the idea of Dalhousie still shone through the mists of despair. Then in 1879, George Munro, a publisher of New York fame, bestowed the first of several considerable munificent gifts on Dalhousie. The benefactions secured several prominent teachers and Dalhousie was given a firm foundation on which it could carry on the work of an institution of higher learning. George Munro was Dalhousie's first great benefactor and it was in his honor that Munro Day was first established.

Since Munro, Dalhousie has been blessed with many benefactors and in 1928, Munro Day was declared in honor of all benefactors.

Dalhousie has come a long way since those early days. It has expanded tremendously and is following the trends of further expansion in University education in Canada. Although many universities have larger enrolments and more buildings, few can match or even approach the standards of Dalhousie. Its graduates have been most distinguished in virtually every field of Canadian and North American life.

Now, as another year draws to an end, another graduating class leaves Dalhousie. How many of these young men and women will follow in the footsteps of their illustrious alumni? Time alone will be the ultimate judge. One thing that is certain, however, is that they have received a first rate University education at Dalhousie. This is Dalhousie's gift to the graduates of 1955 and to you who are receiving such an education in undergraduate years. On Munro Day, let us be thankful for our University and be aware of the prominent part played by the benefactors of Dalhousie.

The Editor, The Dalhousie Gazette, Dalhousie University, Halifax, N. S.

Dear Sir:

I am writing in connection with the earnest attempt which was made to discuss the question of initiation at Dalhousie, in the February 8th issue of the Gazette. I would have written earlier, but I hoped that the points I thought should be raised would be raised by student contributors.

Unfortunately, the section on initiation is headed GAZETTE URGES RETURN OF INITIATION TO DAL-HOUSIE', and some of the articles are preoccupied, rather barrenly, with this theme. This is indicative of some confusion of thought. For initiation was never banned at Dalhousie. It was hazing that was banned. Hazing includes not only the 'oil and molasses treatment' but all elements of compulsion exerted on the members of the freshman class by students in other years. Surely, initiation is not to be regarded as synonymous with hazing; nor it hazing to be regarded as necessary to initiation. And surely hazing is not a desirable element in initiation. In fairness to the Gazette, I should add that there is agreement with this in the wise article titled, 'Hazing - What? Why?' and elsewhere, although I gather that the Gazette attaches a much narrower meaning to hazing than I do.

The essential purpose of initiation, I think all would agree, is to welcome and introduce, that is, initiate, freshmen to university life in all of its facets. This includes, of all of its facets. This includes, of the many aspects of university life, without subjecting them to complusion.

I would suggest that the initiation program should not be procourse, helping freshmen to get tion program should not be pro-acquainted with one another and longed to the extent that students with their fellow students in other years. The proposition that this commendable goal can in part be reached by giving the sophomore class or any other students are unduly distracted from settling down to study (which is after all the main reason for their presence here). Some past programs have run from the Friday to the extent that students are unduly distracted from settling to the extent that students are unduly distracted from settling the main reason for their presence here). class or any other student group the duty, or the power, or the right, to enforce initiation rules and inflict penalties on the members of the freshman around the great off to get off to a good state. bers of the freshman group is untenable. It is a peculiar form of studies, in a term that is already short enough. Furthermore, so students to university life by shoving them around or subjecting them to the will of other groups. One of the distasteful things about such practices is the invitable position. ition in which they place the mempers of the sophomore class - in forcing obedience from and inflicting penalties upon a group of their fellow students. The argument in defence of hazing sometimes given—that the majority of both sophomores and freshmen favor hazing and that only a minority of the freshmen ever feel that hazing subjects them to personal indignities—is, of course, absurd. Action based on such a proposition is a travesty of the fundamental democratic principle that minorities must not be subjected to unnecessary coercion by the majority or by other minority groups. A university is the last place where such negations of personal freedom be countenanced and would not be worth much if it did not take a firm stand against them. Another charge the freshman an initiation fallacious argument for hazing is fee. I think the contention that it is in the initiation period that new students get to know one another is exaggerated. Certainly it is when they begin to get acquainted-and it should be an important beginning—but getting acquainted with one another and with university life is necessarily a slow continuous process that extends over a number of years.

A problem not discussed in the Gazette is the financial one. It has been the practice in the past to culty. The initiation fee adds to their financial burden. It was partly because last year's initiation committee agreed to reduce the fee it serves to promote the essential that the program was as short as purposes of inititation and whether it is consistent with the nature be desirable to concentrate on actiof a university.

This Is Education Week

Canadian Education Week was started in 1936 to stimulate public interest in education. Until 1950 the project was an undertaking of the Canadian Teachers' Federation. Then the slogan, "Education — field of higher education rounds out the total engaged in this conceptive project to approximately."

No other project in Canada has brought into effective working partnership such diversified groups as are found in the sponsoring organ-izations listed below. These groups want more and better education for Canadians. They are united in this appeal to all citizens to turn the spotlight on education and its contribution to Canadian life.

Dalhousie Orchestra Hits At Arts & Science Dance

The appearance of Wally Bergman's all-Dalhousie orchestra was the highlight of the Arts and Science Dance in the gym last Friday night. It was the first time in several years that an attempt had been made to organize a student dance orchesra, and the results were very pleasing.

The music of the Bergman orchestra had a few rough spots, but was always danceable, and usually very smooth. Dave Vine acted as emcee, and although roots of the deposit of most of the dancers did not listen too often, his presence was something new and different, and the idea should be carried out in future.

Congratulations were extended from many quarters to Wally Bergman and the band, and the Gazette joins in the best wishes. It is to be hoped that a band with a potential such as this one will continue to function on the

Parliament Is Successful Conservatives Undefeated

The first campus-wide Parliament ever held at Dalhousie was acclaimed by all who saw it or took part in its as an excellent experiment and something to be continued in future years. The Progressive Conservative party, forming the government, was ably led by Peter MacDermaid, with Tom MacQuarrie and Ken Pryke leading the Liberals and CCF respectively.

VANCOUVER, B.C. -(CUP)-It took 180 years to do it but the Conservative run Mock Parliament at the University of British Columbia finally restored the American Colonies to Her Majesty's Government.

The Speaker for the Conservative Government was enthusias-tic: "Mr. Speaker, it is the opin-ion of your government that Canada has gone too long with-out colonies; and first things first, the United States is clos-est at hand."

"We also wish," he continued, "to export the CBC out of Can-ada to enable it to culturize the

The Liberal opposition was indignant. They wanted no part of the U.S.

"Do we want the gangsterism of New York?" they asked. "We got," said the Conservatives. "Do we want the fleshpots of Hollywood?" the Liberal speaker ask-ed. The enthusiastic applause which followed answered his question.

The LPP suported the bill arguing that when the U.S. is annexed, "the contemptible sex orgies from Hollywood will be replaced by products of the National Film Board." Also, folk songs would take the place of the present day "corrupt jazz."

The Clock Strikes

By PAMELA J. WARD (reprint from "Georgian")

Nobody seems to remember exactly how or when I first became a member of the family. Perhaps I was left behind by the previous owner of one of the many houses we occupied in England at one time or another like the glazed china shaving mug decorated with hand-painted roses, which we found in a coal-shed at Notting-ham, and the blue cut-glass vase such a development, the need for a co-ordinating organization cannot be overly stressed. The clock has been in the family several years. One member of the family distinctly recalls a time in the dim and distant past when it actually worked. Since, however, it possessed 'chimes' which shook the house and its occupants to a greater extent than did the worst of Hitlers bombs during the war, nobody was greatly upset when one day it suddenly stopped and became mute. Since then it has remained simply an object of con-siderable weight, occupying space. Many times I have wanted to get rid of it, but unless you have tried to dispose of such an object you can hardly appreciate the difficulties involved.

On the day we moved into our Montreal apartment, we watched from the window as the procession of men bringing in our furniture wended their way up to the door. The man in front seemed to be carrying the heaviest load, which he several times put down on the ground, and paused to wipe his brow. As the men approached the building, I recognized his burden . . the clock.

Trains, busses, a bicycle or hitchhiking will get you around. In most Central European countries, a mile by train costs about 2.4 cents, in Spain and Italy it is somewhat cheaper. In all countries there is a small extra charge for express trains. Busses are somewhat cheaper. If you are the husky type get a bicycle about 50.-4 with a gearshift. Especially in the northern countries and France this way of travelling is very popular. In nearly all countries the roads are very good for cycling, the motorcar drivers are considerate and have to give you certain rights. In some countries as Holland and Denmark there are special roads for cyclists. Hitchhiking, however is the cheapest way to get around. If you want to hitchhike in style you have to identify your nationality by means of a flag, you will definitely get more rides. In Spain, Portugal and Jugoslavia hitchhiking is not advisable. Not only men but also many girls hitchhike.

In any European country you can join the International Youthhostel Federation for a dollar as long as you are a student. The card you will get there will be valid for one year in all associated countries. A Youthhostel is a house in which hiking young people can stay for a limited number of days. They are not fancy but all in good condition. Their main purpose is to give you a cheap and clean place to stay overnight or several days but not to spend your vacation. Especially in summer resorts you have to leave after four days and it is in such cases safer to write ahead for a reservation. The rate per night is in Scandinavia about 30 cents,

In Scandinavia and Germany you can get a one course med from 25 cents up, if you know where to go, but any way you will learn fast. Just ask around in the Youthhostels. You will mainly find some one who knows his way around. I do not know the prices of meals and food in the other countries, but I do not think they are much higher. In all Youthhostels you can make your own food, especially your sandwiches, if you get used to the stuff they put on sandwiches.

In all bigger cities you will find a sufficient number of galler ies, museums, old houses, especially the townhall, which is the proud of each city, famous churches and a theatre or opera house to keep you busy and tired for a while. If you are lucky you will even see some interesting exhibitions or fairs. They will tell you that you just have to see everything, which in practice is mainly rather time onsuming. Most cities have a tourist information, which will give you all necessary maps and timetables for visiting hours. Note that there is mainly one day where there is no charge for admission, or lower rates for students.

If you get a little tired of art and culture go and visit the breweries. They are happy to show you around, and let you taste their products. Copenhagen, Hamburg and Munich are favorite places. If you are friend of good eats have some Danish sandwiches, Swiss cheese, Italian maccaroni, oysters in France or go to the best hotel in a French or German town and have a real meal. On a hot summer day is is quite refreshing to investigate how they store wine in deep cellars and taste the stuff. Just get a taxi before you get out of there.

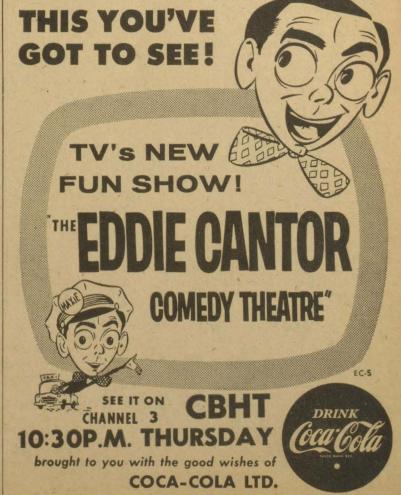

All along the North Sea, the Atlantic and the Mediterranean Sea are excellent beaches. The water is mainly warmer than in the North West Arm. In Finland you should not biss a sauna bath and in Norway a trip along the fjords.

To sum it up, you will be able to live good on \$100 per month, even if you stay in hotels, but don't go too much by train or bus. It is very difficult to get a job of any kind in Europe, so do not de-pend on that. Most governments do not give you a working license. Before you go over contact the consulates of the different countries you plan to visit to find out in Germany 12.5 cents. The other countries have about the same rates. In all countries there are a little different regulations about there.

Dal Girls Take City Senior Crown By Downing Martlets

The Varsity Basketball Tigresses copped another title last Thursday night when they defeated the Martlettes at the Dal gym for the city title. The game started out in Dal's favor and they racked up 10 points to their opponents' two in the first quarter and the Martlettes began to catch up.

From there on the game consisted of Dal trying to hold its small lead, which the team succeeded in doing with the help of some effective guarding. The final score was 28-22 for Dal. The forwards were lead by Clancy as she scored 14 points. For the Martletts it was Rex Moore who did the fancy shooting. Moore who did the fancy shooting.

As the City League stands now Dal has lost only one game and that was to the Tartans. However both the Tartans and the Martletts have lost two games and Dal Varsity wins the league. This week the other two teams will play the final game and battle for second place.

All these teams will play again in the N.S. Women's Basketball Tournament which will be held on March 18th and 19th. Tartans are defending champions for this title as they defeated the Dal team last year by one point. The team last year by one point. The Tigresses hope to have recaptured the Crown when play end next week. At present the entry is hoped to consist of the Tartans, Martletts, YWCA, Dal Intermediates, New Glasgow and Dal Varsity.

And Wayne Mickerson, who had improved with every game, hooped 14 and played a strong game under the backboards. Centre Dave Matheson and forward Al Sinclair each hit for 13 and 10 points respectively for Dal, while John Nichols hit for 9, his high for the season.

Law "C" and Dents Tied for Top Spot in B'ball League

The interfaculty Basketball League wound up its regular 45-game schedule last Saturday afternoon as five games were played, all ten teams seeing action. The league, which started back on January 8, this year enjoyed one of its most successful seasons. In contrast to some former years, there were very few defaulted games, and close and keen competition prevailed throughout the season. Dents and Law "C", who ended the season in a tie for top spot in the loop, meet on Munro Day for the League championship.

The big game on Saturday afternoon saw the smooth working Law "C" squad down the Dents 32-20 to hand the Dents their first loss of the season. The game was a low scoring affair with each team playing posses-sion basketball. For the winners, Young scored 14 points, Doliszng 11 and Atkinson 10. King and Ross stood out for the Dents in a losing cause, swishing 6 and 5 points respectively.

Law "B" 28—Med "B" 21

Law "B" gained undisputed possession of third place in the league as they downed Med "B" 28-21. Don Clancy collected a total of 16 points for the lawyers while Kinley and Brown with 6 and 5 points respectively led the Medics in their last game of the season.

JV Hoopsters Drop City Title To YMCA By Three Points

Thomas, outplayed and outscored the taller "Y" team in the first half and led by a single point, 26-25, going into the second half. Lanky Wayne Nickerson was hot for the Tigers in this half, scoring 11 points on some long set-

as they moved into an 8 point lead with minutes left in the game. A Tiger rally fell just short of pulling the game out of the fire in the dying seconds. "Bones" Harnish iced the game for the "Y" when he sunk a foul that with short with short with short with short with second left.

High scorer for Dal in the qurater was again Wayne Nickerson while Russ Carson, seemingly scoring at will in the latter stages of the game, scored 10 for the "Y". Referees Eddie Alan and Snowden Johnson called 35 fouls, with 22 goins against the "Y." The winners lost the services of Kirkpatrick in the final half via the five foul rule.

The Y-men had a better average in the free tossing parade as they collected 11 points on 23 free throws, while the best the Tigers could do was 12 out of 31.
