

November 23, 1931.

A. J. Campbell, Esq.,  
Assistant Director, Bureau of Information,  
Halifax, N. S.

Dear Mr. Campbell:

At President Stanley's request, I am sending you  
herewith an item which has been prepared for publication in the booklet  
which you have in hand.

Yours very truly,

/R.

Secretary to the President.

OFFICE OF THE DIRECTOR

BUREAU OF INFORMATION

Halifax, November 13, 1931

Dr. C. W. Stanley  
President, Dalhousie University  
HALIFAX

Dear Dr. Stanley:

We are preparing the data for a publication which will describe our Province in detail, for the benefit of our summer visitors. This booklet will include information about our educational facilities, and in this connection we should like to have a description of Dalhousie University.

Perhaps you will kindly see that a brief statement covering your university is supplied us promptly. Forty or fifty words will suffice. So many points have to be covered in a work of this kind that, unfortunately, we cannot devote much space to any single subject. We are sure you will understand.

It is proposed to distribute the booklet gratis amongst incoming tourists, and it is hoped that a perusal of its pages will add to the pleasure and profit of their visit.

A stamped addressed envelope is enclosed.

Yours very truly,

ASSISTANT DIRECTOR  
(A. J. CAMPBELL)

AJC:O

Dalhousie University, founded 1820, by the Earl of Dalhousie, had as original endowment funds collected as customs at the Port of Castine, Maine, in 1814, during its occupation by British forces.

It has faculties of Arts and Science, Law, Medicine, Dentistry, and cooperates with the Nova Scotia Technical College in Engineering.

The University buildings are to be seen on the old Carleton Street Campus - the second home of the institution, which was originally on the Parade Ground - and on the beautiful Studley Campus.

The University of King's College was affiliated with Dalhousie in 1925.

November 21, 1931.

Dalhousie University, founded in 1820, has ~~the~~ Faculties of Arts and Science (with undergraduate courses leading to degrees and diplomas in: Arts, Science, Commerce, Music, Pharmacy, Fisheries, Engineering, Household Science and Education; and graduate courses leading the the Master's degree in Arts and in Science), Law, Medicine and Dentistry.
