Privateer Rover

Extracts from Simon Perkins's diary.

"Saturday Oct. 18, 1800. I receive letters from Mrs. Yeomans with Statement of Insurance on Good Fortune - and Policy of Insurance on the Duke of Kent £100 and £50 on the Rover - which is the first I have heard of the insurance being effected. It is underwrote by Charles R. Prescott & Thomas Hillis, £50 each on the D. of Kent and £50 by Thomas Hillis on the Rover, which is now a dead loss on the Duke as she made nothing but arrived safe.

The Rover has made a little, perhaps 18 to a 32nd part has been damaged a little but I conclude not to amount of Six Per Cent which is the sum stipulated in the Policy for recovering a loss.

The Cocoa in the Privateer Rover some Blankets Oznaburgh (?) are all taken out & stored in the Prize Store. Unbent the Rover's sails. The Prize Schooner's sails were unbent Yesterday"

Thursday. Aug. 18, 1803. The Rover is getting ready to go to sea. Some difficulties arise about some of the crew being indebted, etc.

Several persons of influence among such people have worked against the prize, and one is now said to be working in the crew to be appointed their Agent. He is on board with a Jugg of Rum.

It is reported that George Collins and James Rogers are the Agents for the crew. Mr. Zel Perkins wrote me from on board that in case he does not retain a Jam to have his Black boy until he is of Age. The Rover gets out at evening Stephen Snow has taken a sudden start. He has sold his half of the Harlequin to Capt. Joseph Freeman & is gone a Prize Master in the Rover.

Friday. Aug. 26, 1803. The Owners of the Rover meet to settle their Bills of outfit. The brig & outfit amounts to £57.

They have 36 men & boys on board.
The shaves sold @ £ 11 & £ 12.

Tuesday, Sept 13, 1803. Brig comes in. Proves to be a Spanish Brig from Havang loaded with Molasses 200 punchions sent in by the Rover, Capt. Benjamin Collins. Left her 9 days ago in the Gulph. Capt. Collins writes that he was informed --- it was right to send her in. The Rover has also captured a Vessel from Cape Francis bound to Salem & sent her for Liverpool, Capt. Steven Rice, prize master. She is an empty (~~broken~~) brig. She was sent off 16 days ago, it is probable some accident has befallen her. They also took \$1100 from a Frenchman bound to Plymouth & have sent \$600 by Capt. Snow, the prize master.

Monday, Oct. 17, 1803. Mr. Seymour (of Halifax) and Capt. Joseph Gandrello of the Spanish Brig Lanzarote call on me with letters from Hon. Andrew Belcher & John (C) Uniacke Esq. They recommend that the Brig be given up to the Captain as he is willing to receive her without any Damage or Demurrage. I immediately communicate with the Owners of the Rover. Everything appeared Amiable & Agreeable except ascertaining the sum of money taken out of the Brig by the Rover which Seymour says was \$3870. \$2300 of which is mentioned in the Register

given to the Captain to Repair the Brig & for his Expenses which is mentioned in the Request. The remainder belonged to the Second Master, Mate & others on board. This money I had never heard of before. Capt. Gandrells wished to have the monition from the Court of Admiralty served but Mr Seymour objected to this.

Tuesday Oct 18, 1803. Capt Joseph Freeman goes with the Spanish Captain to Halifax.

Thursday Oct. 20, 1803. Capt Parker recd a letter from Halifax, advising that Capt. Rider (of the Plymouth vessel that the Rover took money from) had wrote to recover it from the Owners. It seems the Rover's Officers have done wrong in taking the money out of a Neutral Vessel so I expect the money will must be refunded.

Friday Oct. 20, 1803. The Business of the Spanish Brig is amicably settled. The Spaniard pays his Lawyer & half the Court Charges. The Owners of the Rover pay Mr Unmacke & half the Court Charges. The Business of the Moses Myers (CAPTURED BY THE ROVER in 1800) is settled by allowing a Salvage of One Sixth to the Captors. There is news of a British Cruising Brig supposed to be the Rover chased a Schooner from San Domingo on the American Coast.

Saturday Oct 29, 1803. Mr. Seymour & the Spanish Captain go on board & hoist Spanish Colours.

Sunday, Oct 30, 1803. Mr Seymour & the Spanish Captain are at the Methodist Meeting in the morning. Mr. Newton preached, Mr. Mordey being gone to Port Mutton to spend the Sabbath.

Monday, Oct 31, 1803. Capt. Sandrello leaves a letter from Mr. Belcher & afterwards calls on me with Mr. Seymour. There is a mistake of 90 dollars in the settlement. It is settled at £ 945 and should be £ 964-10/-
Capt Parker agrees that the mistake shall be rectified.

Saturday Nov 5, 1803. The Spanish brig gets safe over the Bar.

Tuesday Nov 8, 1803. The Brig Rover Privateer arrived last evening. They have captured an American brig from Savannah & sent her for Liverpool 28 days ago. She has Coffee on board. I understand the Spanish Captain made wrong representation of the money taken from the Brig Lanzarote having charged upwards of \$ 1000 more than Capt Collins allows he took, also a topsail & awning & other articles that were not taken.
This found the Prize Brig sent off

28 days ago has met with misfortune.
The Noble Cruise has seemed to be attended
with misfortune.

Wednesday. Nov. 9, 1803. The Rover is
discharged. Some goods landed from her which
were taken out of a Schooner from Cape Francis
supposed to be French property.

Saturday Nov. 12, 1803. Capt. Benj Collins
goes in the Active to Halifax & carries
\$1700 in part of what Messrs Forsyth
& Smith & Co. gave obligation for to Mr.

(al) Belcher on account of the Spanish Brig.
Also depositions specifying that \$2641
was all the money taken by them from
the Brig, which is \$1229 less than the
Spanish Capt. charged.

Sunday. Nov. 13, 1803. Papers from Boston.
No present appearance of a War with Spain.

Friday. Nov. 25, 1803. The Rover's prize,
David Barro Prize Master, is at the
Vineyard & Barro has given up the Brig
to her former master.

Tuesday. Dec. 6, 1803. David Barro, master
of the Rover's prize Brig is in goal in

Mead & Thos. Gibbs given 30 lashes each at
the Publick whipping post and committed to
gaol 30 days for stealing Rum.

came in the Triton. Has bought the Brig
Rover from Capt. Freeman for £ 725.

Judge Archibald's tale of the pro-German
at Windsor, whose house stood on
a clay bluff overlooking the Avon
River. A construction battalion was
being raised at Windsor, & one night the
whole outfit turned out with picks and
shovels & dug away the bank until
the house collapsed into the river. It
was vacant at the time. It was well known
who did the job, & legal proceedings were
instituted, with the result that the
battalion was assessed \$2500 to be deducted
from the men's pay. An insignificant
private asked to be paraded before the O.C.
claimed he had "pushed the house over all
by himself," & paid down \$2500 in

United Church

Union between Congregational, Methodist & Presbyterian was first discussed in Canada about 1902. In 1912 a vote showed all three in favour, but the Great War interrupted, & afterwards the Presbyterians insisted on another vote. The Methodist church government was largely in the hands of a central group of authority, while Presbyterians had "local option".

Some of the Presbyterian churches voted to stay out of Union, the rest went in. Actual local unions began to take place as early as 1920, but the official act of union, bolstered by federal and provincial legislation, was accomplished June 10, 1925.

Local officers (lay men) are called deacons in Methodist, Presbyterian, Baptist & United Church; Elders in the Disciples of Christ; wardens in C. of C.

Methodist ministers stayed 4 years in each place. On request of the congregation they could stay 1 more, making five in all.

“Good Material”

IT is not always pleasing or flattering “to see ourselves as others see us”. But, happily, there are exceptions, and here is a noteworthy instance. The current issue of *Blackwood's Magazine*, London, a journal of many long years of literary history, under the caption, “Where To Go For Good Material,” has this to say of Nova Scotians:

Canada's Nova Scotians are a thrifty lot, and their only extravagance is education. You couldn't throw a snowball in one of their settlements without hitting a college graduate. They supply Canada with prime ministers and bank managers, and the U. S. A. with college faculties—and the rest stay home and keep the Province going.

That's an enviable reputation for our people to enjoy. It has the further merit of being true. *Blackwood's Magazine* is by no means alone in the recognition of the “good material” which Nova Scotia, with remarkable consistency, supplies to the professions, to commerce, and to statesmanship.
