Arts and Science Nominations

The following were nominated in the Arts & Science meeting Thursday noon in Room 3 of the Arts Building.

President-Art Hartling. D.A.A.C. Repres.-Bill Mingo. Secretary-Nancy Wilson

Nominations for bye-elections to be voted for on October 19:

Senior Repres .-Jim McLaren, Alan Blakney. Junior Repres .-Carl Giffen, Carl Dexter.

CAMPUS CLIPPINGS

by GRAHAM BATT

On reading the headline, Skunk Goes To University, in The Ubyssey, we could scarcely believe our eyes. The facts of the case are, that Archibald, a skunk whose scent glands had been removed, arrived at the University of Texas. His owner noted with distress that people were rather hesitant about meeting Archibald. A nervous breakdown threatened because of the black looks and belligerent remarks of some unfeeling students. But now his owner reports that Archibald has been accepted in college circles and is recuperating as well as could be expected.

The unlettered linotypist causes editors many a headche.

Recently The Star printed the following blunder:

"Hurling a brick through the Yonge Street furrier store last night, two mash-and-gab thieves stole two mink coats."

The Varsity made the comment: SOUNDS LIKE WOMEN, ANY-WAY.

Med students are the most prolific poets we've found, and here is one of their most recent and best.

A schizophreniac we know Has got no mother, But he doesn't care-He's got each other!

And then there was the colored lass who had just been baptized in the river. As she came to the surface she cried: "Bless me Lawd, I'se diced" jury of Sophomores. saved. Last night I was in the ahms of the Debbil, but tonight I'm in de ahms of de Lawd."

"Sistah," came a baritone voice from the shore, "How is you all fixed up for tomorra ebening?"

affairs and was asked to dance by a nose. great big thrid-year man. With all the savoir-faire connected with third Christy Irvine and Nancy Wilson. year men he began conversation with The verdict was guilty and they line No. 1-"Where have YOU been were ordered to sing "How Dry I all my life?" - and then, proving | Am" while eating a lemon and munthat a University education sharpens ching on dry crackers. We gather the wits, he followed it up swiftly that they were too dry as not much with an addition of his own. "Be- music came forth. cause," he said, "you poor child, it must have been horrible."

The Varsity.

Initiation Trials End For Frosh Delinquents

CROSSING THE FINISH LINE in last week's dramatic "Vaseline Race" are Freshette delinquents, Ruth Manning and Marge Schwartz. Supported by the mike, "Prosecutor" Don Harris, is giving an awesome account of the proceedings to a sadistic assemblage of onlookers. Task of rcording this event for posterity was assigned to R. Tuck, newlyappointed staff cartoonist of The Gazette.

Hair is no longer being braided, or parted in the middle; the fall breezes are no longer swirling around those frail masculine legs, and freshettes still look sweet, but no longer wholesome. The initiation period of new students formally ended with the Freshie-Soph dance and now our Frosh class need no more cower before the no longer mighty Sophomore, need no longer walk around the senior walk, for they too are now legitimate members of the student body.

On Friday evening, Oct. 6, at 9 . p.m. the Frosh class for the last time p.m. the Frosh class for the last time dutifully filed over to the gym, their Dal Organizing Round pigtails waving in the breeze, and looking similar to a measle isolation squad with a yellow quarantine sign hanging before and aft.

Full of Spirits

the persons of Dr. and Mrs. Bell, and Prof. and Mrs. Bowes, good lems. music by Don Lowe, and both spirit few of the Frosh, however, it resembled something like a Judgment judged and penalized.

COMMISSION **PREPARING** HEALTH REPORT

An enthusiastic meeting of the Dalhousie group was held on Tuesday night in Room Three of the Arts Building. There were about forty people present.

The Chairman, Abe Sheffman, and ideals of the Youth Commission and announced that there would be a dance on Saturday, the 21st of October, and a regional Dal Represented at conference to be held on the 21st and 22nd of October.

The meeting decided to prepare a report on Health Insurance for the conference and four groups of five students each were organized to handle different aspects of the problem. These committees will report on their findings at the next general meeting of the Dal Youth Commission which will be on Wednesday, October 18th, at 7.30 p.m. in the Arts Building. Everybody is welcome to attend as the organization is open to every student on the campus.

Eventually the Commission will hold weekly meetings on the campus in conjunction with the Dalhousie Round Table. There will be refreshments every evening, movies when obtainable, and dances for members. See this issue for description of Dalhousie Round Table. Watch for

\$2,000 Pledged to Loan Campaign

The first meeting of the Dalhousie Student Council for this term was held at the Murray Homestead on Thursday evening, October 5, 1944. President Art Titus was in the chair and the first topic under discussion was the immediate need for byelections, as there are two vacancies from Arts & Science and gave an outline of the aims one from Law. A committee was formed of Ted King and Connie Archibald to attend to these elections, the date set for October 19.

S. C. M. Conference

Mount Allison, Acadia, U.N.B., and all war services on the campus. Dalhousie met on the Thanksgiving weekend in a Maritime Planning Commission is to be held on Oct. 21, Conference at Acadia University, to at which a brief must be presented discuss the decision of the National from Dalhousie. Dal students are olications for the local units.

The National Council decision that Canada is thinking. gave direction to the conference was that concerning policy. We reaffirm our Aim and Basis; "The Student Christian Movement is a fellowship haps something is going to be done of students based on the conviction that in Jesus Christ are found the supreme revelation of God and the means to a full realization of life.

meticulous regard for all the evidence available to us-an approach objective and scientific in spirit, dispassionate yet sincere in outlook. quest can be no lower than the highest ones we know. The basic material of our study is the life and teachings of Jesus; for such study we must use the best material at our disposal, and relate this study, like all others, to every aspect of our

Criticizes Government

The conference disapproved of the action of the Government in disenfranchising Japanese Canadians, and also of the action of the General Council of the United Church of Canada in upholding the Government's decision.

The main study groups of the Dalhousie S.C.M. are those on "The Records of the Life of Jesus," led by Dr. Bronson and Dr. Archibald. With further discussion on the There will also be groups on the campus war effort, concerning Blood function of the university, and "Un- Donor Clinic, etc., the meeting adderstanding Ourselves" (a study of personal psychology).

DALHOUSIE INSTITUTE OF PUBLIC OPINION

Are College Students Socialistic?

60% think that college students in general are definitely socialistic; 10% think that students are pink generally but not a bright red. The other 20% were quite sure that students are not socialistic. The majority opinion was that students tend more to socialism than most other groups of young people.

How Would You Feel If Roosevelt Got A Fourth Term As President?

All students but one were strongly for Roosevelt. Expressions of opinion ranged from "good," "pleased," "satisfied" to "delighted," "elated" and "wonderful." The one dissenting opinion is unpublishable.

What Type of Music Would You Like At Dal Dances? All queried were unanimous on this question except two freshmen who are self-styled hep-cats and jive-bombers. 90% wanted more slow numbers and less fast numbers. What the students want are the "slow, dreamy, sweet and sentimental" numbers; more waltzes and rhumbas. Several students thought that "Dalhousie Dream Girl" should be played more often so take note, all ye dance organizers, and instruct your orchestras accordingly.

WHAT IS A UNIVERSITY EDUCATION?

During the strenuous course of the scholastic year, do we ever stop to ask ourselves . . . "What does a 'university education' really mean?" . . . and . . . "Am I making the most of my educational opportunities?" These vital questions demand the most careful consideration.

In answer, we will define "university" as that all-important phase in our life story, when mind is strengthened and outlook broadened to meet the contingencies of a realistic world. It is a concluding chapter to youth — that stimulating transition period from which we emerge (or should do) as fully responsible members of society. By logical deduction, then, it is apparent that what we do at university can "make or break" our future experiment with life.

Within easy access of us all, is the opportunity for study and research. This academic seriousness should, needless to say, be the framework of our university activity. We should conscientiously apply ourselves to our particular branches of study, realizing that as we acquire some modicum of intellectual reasoning, we are being reinforced for our embarkation on the troubled waters of a troubled world.

But, while the "academic" is important, so too is the "extra-curricular" — although its contribution to educational training is often underestimated. Leadership, organizational ability and self-confidence are essential qualities which can be gained through participation in the athletic and social life of the university. For, to be fully prepared to cope with the endless problems of life, we must first acquire that "universality" of mind, which extends far beyond strict academic pursuits.

By a sensible intermingling of the "academic", "athletic" and "social" opportunities of a university, we will have written a sizeable introduction to the Book of Life.

The Editor's MAILBOX

"WHERE'S THE YEAR BOOK?" ASKS SHIRREFF HALLER

A common question about the campus these days is "Where's our 1944 Year Book?" It is on the lips of every student who paid for his book last sprirng and was promised he would receive it come mid-August. And here it is-mid-October, and no "Pharos"! It seems regrettable that we could not have our Year Books at the first of the summer for one never tires of reading and re-reading such a book throughout the holidays-thumbing through the pagesbringing back memories of the past year at Dal. Now we have started a new term, and by the time our Year Book reaches us now we will have lost the enthusiasm we once had for it.

This is not a letter to criticize the staff of the Year Book (indeed, they have done their best-and a commendable job, too) but rather to point out a plan by which we could have our Year Books a month after Convocation. The staff should be formed and organized before Christmas in order to start work immediately after. They should see that all the necessary pictures are taken, all the biographies, all the articles on the different societies and sports are written, and with the help of fifteen or twenty volunteers, that all the advertisements are solicited. All of this to be completed before the end of February-a lot of hard work but not interfering with the final exams. Then all the material could be edited before Munro Day and the account of the Munro Day activities (awards, etc.) should be the last article submitted.

Thus, following this plan, the material would reach the printers by mid-March and we might then hope (and pray) that it be ready by the middle of June, at the latest. A Year Book speaks for its college, so let's make '45 "Pharos" a real success-a book we will be proud to share to residents of other universities. The Students' Council will soon be asking for applications for editor, business manager, etc., so let's have a hearty response!

-CONNIE ARCHIBALD.

MOVIE - OF - THE - WEEK

Following the current trend of revivals, here's a re-release of David O. Selznick's opulent "PRISONER OF ZENDA". Those who saw the movie years ago will probably want to see it again and those that missed it should see it now. Ronald Colman heads the superb cast, which includes Madeleine Carroll and Douglas Fairbanks, Junior. The action is swash-buckling, the sets magnificent, the photography superb, even in these days of superspectacle.

There are two obvious reasons for its revival-first, its strong

escapist appeal, and, second, the current interest in Selznick and his eight-star film of the home front, "SINCE YOU WENT AWAY." This trend of revivals certainly has its points. One gets a little tired of war pictures whose only claim to distinction is their variation on a too-familiar theme.

I'd like to see Warner's "CALL IT A DAY", Metro's "THE WOMEN" revived. Anyway, it's refreshing to see a screen classic. For that reason you shouldn't miss "PRISONER OF ZENDA" -United Artists' film.

SIGNS

Night seemed breathless, But a faint leaf stirred, As though a breeze Gave promise of the dawn; And yet, no flesh tints Paled the darkened sky, The quiet night slept on Unmindful of a shaking leaf, A small bird's drowsy trill, A whisper In the tangled grass, Of light, beyond the hill.

K. E. B.

TEA WITH MRS. COPLEY

(Continued from last week)

"Oh I think so. I think these robot bombs are only a last desperate effort to break our morale." Mrs. Bromford sighed, and allowed her glance to fall reflectively on a brown mantle piece where some delicate porcelain figures had been carefully arrayed. There was the boy in the Lord Fauntleroy suit waving a gaily plumed hat, and the lady at the spinet, with the wistful face and flower sprigged skirt. Mrs. Bromford even fancied she heard the soft tinkling notes of the spinet playing some half-forgotten melody. Hastily she turned her glance on a bright bowl of flowers, placed on a table near the fireplace.

"My, what lovely flowers," she exclaimed. "Did they come from your garden, Elizabeth?"

"No, my daughter-in-law brought them to me. She is planning to move in with me. We have been alone since . . . since . .

"Yes I know," interrupted Mrsr Bromford. "I think that her coming to stay with you, is an excellent idea. You will be able to bear your loss better, if you are both together."

Elizabeth had paled and quickly diverted the conversation to some other topic, but inevitably, brought it back to her lost son, and was soon showing Mrs. Bromford some snaps that had been taken of Keith before he went away, and some pieces from a fallen Messerschmitt that had come with his last letter.-K. E. B.

"You know," said Mrs. Bromford, examining the pieces from the Messerschmitt, "I had a very strange dream last night. I was thinking about you, and when I fell asleep, I dreampt I saw your son, wounded, but safe in Allied hands. I had a queer feeling about this dream, as though it wasn't a dream somehow. I thought it would be a good thing to tell you about it. If I were you I wouldn't give up hope yet."

Elizabeth sat quietly and gazed desperately into the fire.

"I know," soothed Mrs. Bromford. "I think I can understand how you feel. But you mustn't give up hope yet, not when there's still a chance that your son might be alive."

Gradually, she saw the look of pain leave Elizabeth's face, and something like a ray of hope taking its place. In a short while she was pouring tea into fragile china cups, and they were again conversing about other things-about people they knew, about the report that the blackout was soon to be lifted, and about how close the day of victory seemed, with the Allies marching into France. In the midst of their conversation, came a shrill, harsh ringing of the doorbell, and Elizabeth hurried quickly to answer it, leaving Mrs. Bromford to sip at her tea before the fire. The elderly woman thought that she heard a youthful voice in the hall, then the sound of a door closing and rapid feet beating a hasty retreat down the steps outside. Her heart beat swiftly-agonizingly, as she heard the rustling of paper followed by a brief silence. Suddenly, there was a gasp and Mrs. Bromford rose from her chair. Then she was Elizabeth walking towards her, tears brimming in her eyes.

(To be concluded next week)

Council took a step in the completion of a policy which has been dear to the hearts of many critical perusers of the campus scene. For years it has been their heart-felt thought that college spirit definitely does not rate high enough at the University.

The Council's proposals, in simple form, are to provide a leadership for the usual manifestations of college spirit. Cheerleaders are to be taught how to lead a bleacher-full of Tigerphiles, and the students as a whole will be given opportunity to learn the old Dalhousie songs, dear to the heart of the Alumni and

Not resurrecting the past performances only, it is hoped to have present-day students at Dalhousie write new cheers and songs. There is considerable talent in this University which could do such, it is felt, and the Council is planning to bring such talent into the open. Students are requested to give their ideas or contributions to Alex Farquhar, head of the Committee of the Council which is in charge of such Dalhousiana, or send it to the Gazette marked "Committee on Cheers,

Question: Do you prefer Harry James or Frank Sinatra? This, it was soon proved, was a d- foolish query. On examination it was found that Harry James and Frank Sinatra are mentioned in the same ecstatic breath. One charming doe-eyed freshette, who shall forever remain anonymous, uttered a gurgle of reminiscent joy and went on record (affidavits are on file at the Gazette office) as saying that she doesn't go to movies any more (not since "The Shining Future") because they don't bill Frank Sinatra and Harry James in the same picture.

When asker what she wanted for a half-dollar, she blushed and whinnied away. Frustrated, we sought refuge in Roy's, sinking our miniscule sorrows in coke.

Q.: What type of reading do you enjoy in your leisure hours? The endless possibilities to this question had us reeling with delight, and happily we set out to find interesting and informative answers. Soon, we struck a snag, however. The great majority remarked sarcastically, "What leisure hours?" One freshman, encountered after a History session, revealed that instead of reading the required Chapter Fifteen of Gibbon's "Decline and Fall" he was "just thrilled" with the rest of the work and

was plowing through the two volumes clause by clause. Engineers, we learned, after drafting hours, curl up happily with a Mister Glencannon or the newest issue of the Saturday Evening Post.

High in their ivory tower in the Library, we ran to earth several postgrads doing some fascinating research on the table etiquette of our Elizabethan forbears. Flushed from the exertion of their quest, their answers were disturbing. Their private reading tastes ranged from Untranslated Homer, straight through the Bible, down to "True Confessions".

But the pay-off is this: Riding to class one morning, I sat next to a filly who was having quiet hysterics over a pulp magazine. The title of the story she was reading, I chanced to see, was "The Nude Corpse on the Burned Mattress"

TIGERS CLASH WITH IRISH TOMORROW, 2:15 p.m.

ONTHE SIDELINES

by FARQUHAR and MINGO

Well, what is going to happen tomorrow? Will "Burnie's boys" youthful, inexperienced, but literally overflowing with the enthusiasm and resolve to win--or else, come through with the victory, or will it go to the St. Mary's squad, older and heavier, but equally as inexperienced?

Either way it promises to be a great, if not the greatest, exhibition Organize Activities of sheer fighting spirit this campus has seen in several seasons. Although they have seldom met on the gym a hive of activity as the femfield, due perhaps to the strange cir- inine athletes of the campus assemcumstance that each has always ac- bled to formulate plans for an active centuated different sports, both Dal winter. Make all ground hockey practices had already the noise you can. Anyone able to begun utter an intelligible sound on Sunday ought to be ashamed to admit he (or she-women can make a racket, you know) is a Dal student.

For the first time in several years Dalhousie is forming a soccer team. With a nucleus of a few former West Indian players and augmented by several other enthusiasts, the team is shaping into a strong eleven. Since there is no league in the city now, only exhibition games will be played. Some of the lads turning out are: the Feanny boys, Jim Mc-Laren, Gordie Simon, Doug Clark and others.

What you have all been waiting for! The Acadia trip: November 4. Yes, plans have been made that the Tigers journey to Wolfville on Nov. 4th to grind the edge off the Axemen. By the time that revered date rolls around the Bengals will have several games under their belt and will be in top shape to give the agelong rivals the works!

Let's have plenty of spirits for the trip. Acadia claims that they have a strong team to oppose us, but we figure that we have a stronger one. It ought to be quite a struggle, so make plans now to be there.

SPORTS Fielding Powerful Squad

For the first time in three years Dalhousie's Tigers march on to the rugger field to battle against the Irish from Saint FROSH WHIPPED Mary's College. The game is scheduled to get underway at 2.15 IN "SOPH" BALL sharp, Saturday afternoon. Everybody on the campus is wondering how the new edition of the Bengals will fare in the first game of the year. Many new faces will present themselves to the fans and much untried ability will be put to the test.

frontliners like Feanny, Burgess to get the most out of his scrum. and Forgan Burnie Ralston is con-Hartling, two former Intermediate players, will be in there battling. Bob MacDonald, who was outstanding on last year's Cubs, will take care of the tail-up's duties and with his vim and fighting spirit will put lots of life into the forward pack. It is not definite yet that these particular men will be in there Saturday but from observation for the past week, Burnie thinks that they are very likely men. Ralston is quite proud of a new "find" this year in the West Indian gentleman, Feanny, who with his fast and the center-heeler.

> Frosh: Potechi, Cunningham, Cooley, Smith, Miller, Cook, Sikel, Lightfoot and Burgess.

Schedule Drafted

Last Friday night the executive of the Halifax Services Rugby-Football League met and completed their arrangements for the coming season. The Navy and Fleet Air Arm definitely promising to field teams, a schedule was drawn up Oct. 14-Dal. vs. St. Mary's.

Navy vs. Fleet A. A.

RUGBY FOOTBALL

(1st of a series by B. A. Ralston)

No. 1-The Art of taking the ball ... Better ball handling.

There are two ways of taking the ball: (a) with the hands and arms when the ball is falling from a high kick, and (b) with the hands when it is rolling along the ground or bouncing low, but in neither case should the ball be grabbed. In taking the ball from a high kick the arms should be fairly close together, elbows not too far apart, thus forming receptacle into which the ball falls easily but yet cannot pass through and drop to the ground. In a high kick the hand must be above the level of the eyes and the player must watch the ball fall into his hands. The eyes must not be taken off the ball to watch the opposing players. When caught the ball must be brought into the chest by a quick, nursing movement, being careful not to let the ball hit the of the U. A. T. C. to take over the star in the game he loves. Fundahurling duties. On the first pitched mentals mean almost as much in player. There is much to be gained from football. It is a character builder as well as a body builder. Glance over the leading figures in business, professional, and political life throughout the Maritimes and it will be a revelation in knowing that many of them were stars in their day. They loved the game for its own sake.
