LEBANON

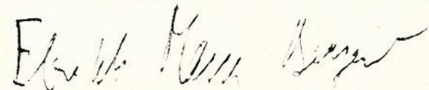

Gentlemen:

Thank you for your circular letter announcing your Mediterranean Symposium. I would be very much interested in seeing as much of the documentation as possible.

I know you are in touch with my colleague Dr. Sidney Holt at the International Ocean Institute in Malta, but if you have an extra set of documentation, I would be grateful to have it.

With all good wishes,

Yours sincerely,

Elisabeth Mann Borgese  
Senior Fellow

# International Ocean Institute

The Royal University of Malta

26 March 1974

Dear Mr. Fabre:

Further to our recent correspondence about your forthcoming meeting in Beirut, I have just realized that we have here the report of the Mediterranean colloquium, held at Porquerolles, in May 1972, which had in it a note from you concerning membership of the network of Mediterranean colleges. We would like to become members and to receive the "Bulletin de Liaison". It would be very convenient if you could send us also back numbers of that "Bulletin". We have only issue number one, which is out of date. Please send an invoice to this Institute. We would like to have published in the "Bulletin" a note about our activities and when I have seen the format of recent issues of it, I will let you have the material, if that is in order.

I take it that by sending our subscription for the "Bulletin", we would become members of the Association of Mediterranean Colleges.

I look forward to hearing from you soon.

Yours sincerely,

Sidney J. Holt  
Director

Mr. André Fabre  
Secrétaire Général  
College Méditerranéen de Réflexion et  
d'Échanges sur l'Environnement  
2, rue Beauvau  
13 Marseille 1e  
FRANCE

P.S. I have been struck by the similarity between your stylised Mediterranean sea symbol, and our dove as it appears on the IOI Reports - see the enclosed copy.
