FURTHER PROGRESS REPORTED AT ANNUAL MEETING

Miss Emelyn L. MacKenzie, Q. C.
Our Honorary President

The following is Dr. Scammell's nomination of Miss MacKenzie to the office of Honorary President.

Mr. President and Fellow Dalhousians:

For many years the Dalhousie University Club of New York, the New York Branch of this Association, has been the brightest jewel in its Crown. It is fair to say that there have been times when the child outshone the parent in interest and activity. One of the founders of this Club and one of its most interested and enthusiastic supporters during its years of existence is Miss Emelyn Laura Mackenzie, now retired and living in Chester, Nova Scotia.

Miss Mackenzie entered Dalhousie from Pictou Academy. In 1914 she won a B.A. with Distinction, and the year following a Master of Arts Degree. In 1919 she was graduated from our Law School. Her career in Corporation Law in New York City has been successful and distinguished.

Dalhousie owes a great deal to Clan Mackenzie. In 1877, J. J. Mackenzie came by way of Pictou Academy, Dalhousie and Leisig to become our first professor of Physics. This was the first regular Department of Physics in a Canadian University. Two years later he died. There is no doubt that his brilliant career and his tragic death impressed a boy of 14, then a student at Pictou Academy. He was Alexander Stanley Mackenzie, who

Reports of continued growth, results of the annual election and periods of spirited discussion were highlights of the Annual Meeting of the Dalhousie Alumni Association held at Shirreff Hall on May 16th. A capacity crowd of 225 alumni and members of the graduating class attended the buffet supper which preceded the business meeting.

Alumni President Arthur Meagher called the meeting to order at 7.30, congratulated the Class of '60 and welcomed them to membership in the Association. Stuart G. MacKinnon, Life President of the Class of '60, introduced the Life Officers and thanked the Alumni for their hospitality.

Following the adoption of the Minutes of the 1959 Meeting, Mrs. H. Terry Creighton, retiring First Vice-President, thanked Miss Reynolds for the excellent buffet, and Mrs. Gordon Blair for her excellent co-operation during her term of office as Associate Treasurer. In closing, Mrs. Creighton paid tribute to Mrs. Kerr for the "graciousness with which she fills the office of Chatelaine of the Presidential residence."

President Meagher thanked Mrs. Creighton for her report and for her unstinting efforts in forwarding all endeavors of the Alumni Association. He then called on Bruce Irwin to present the report of the Director of Alumni Affairs.

Mr. Irwin reported on the changes in The Alumni News, the formation of four new branches of the association, the sponsoring of school tours of Dalhousie, the establishment of a tutoring service to assist Dalhousie students in supplementing their incomes, and the production of a long-playing record of Dalhousie songs which will be available in the months ahead. In closing, Mr. Irwin thanked the executive for their willing co-operation and untiring efforts.

Treasurer John Moore explained the Financial Statement which had been distributed in printed form. A condensed copy of this Statement appears on page 3 of this issue of The News.

Associate Treasurer, Mrs. Blair, explained the Financial Statement of The Women's Division which had also been distributed in printed form, and which is also printed in this issue of The News.

Dr. William A. Murray, President of the Dalhousie Medical Alumni Associ-

ation, reported their Annual Meeting would be held in November 7th, 1960. Medical membership for the past year totals 225 ordinary and 70 Life Members, and the association is working on the development of a Medical Museum and Archives, and the establishment of a scholarship fund.

Dr. A. B. Campbell reported that the Football Fund had been most successful and thanked all those who had so generously supported it. He recommended that these funds should be separated from the general funds, since they were administered by a special committee and not by the Executive as a whole.

In his report, Alumni President Arthur Meagher, stated that the most important change in the past year was the appointment of a full-time Director of Alumni Affairs, and he thanked Dr. Kerr and the Board of Governors for making the appointment. Mr. Meagher reported that our combined membership now stands at a new high of 2142, an increase of 41 over last year, and explained that this was in a large measure "due to the excellent work of our Membership Secretary, Mr. Carmen Moir, and to Mrs. Giffin of the Alumni Office and Miss Blauvelt of the Medical School."

President Meagher reported that the Alumni Fund has grown from \$55,391 to \$69,525 during the past year. In that period 649 members had contributed to the fund, 314 of them for the first time. He asked the association to "put on a special drive to complete its objective of \$100,000 as soon as possible."

Mr. Meagher expressed his appreciation to those members of the Executive who are retiring this year for their efforts on behalf of the association. He also thanked Mr. George Herman for editing the two excellent issues of The Alumni News in 1959. In closing, the President thanked all the members of the Executive for their co-operation during a very interesting year.

Following the reports, Dr. Scammell rose to nominate Miss Emelyn L. MacKenzie, Q.C., to the office of Honorary President. Miss Frances Lewis seconded the nomination and Mrs. Blair moved nominations cease. The motion was carried by a unanimous vote of the meeting.

Annual Meeting Story

Continued from page 1

Inrig, the Scrutineers, reported the following elected for the ensuing term: President—Arthur J. Meagher, Q.C.; First Vice-President—Mrs. D. K. Murray; Second Vice-President—Aaron Zive; Executive Members—Donald Mahon, Dr. J. K. B. Purves, Gordon MacConnell, Miss Verna Leonard and Miss Janet Sinclair. Elected to the Board of Governors for the 1960-63 term were C. B. Havey, Maurice Keating and Miss Margaret Graham.

Sam S. Jacobson was elected by the general meeting to fill the unexpired term of A. Gordon Archibald who has been made a full member and Vice-Chairman of the Board, by Order-in-Council.

Dalhousie President, Dr. A. E. Kerr, congratulated the Alumni for their achievements in furthering the affairs of Dalhousie. He stressed the need for increased scholarships and residence facilities for women if Dalhousie is to continue to attract top students. Dr. Kerr drew attention to the \$100,000 Alumni Fund and urged the Association to strive for a greater percentage of graduate participation in support of Dalhousie.

Under the heading of "New Business," Aaron Zive reported that the Alumni House Committee has been investigating, in co-operation with the Faculty Association, the feasibility of establishing a combined Alumni-Faculty Club House, and asked that the meeting indicate their opinion. A period of lively discussion en-

sued during which several opinions and queries were put forth. Finally, on a motion of Dr. Murray Fraser, seconded by Dean Horace Read, the meeting went on record as approving of the idea, and recommended that the Committee continue its investigation and report back to the Executive at the earliest possible moment. The Executive was given the power to take appropriate action following the Committee's report.

Further discussion developed regarding a letter from the Executive Committee of the Board of Governors stating that consideration was being given to a proposal that "The Act Relating to Dalhousie College," which excludes full-time teachers from membership on the Board of Governors, be amended to exclude part-time teachers as well. Because the information available was limited it was felt that the meeting was handicapped in their judgment and the debate was brought to a close with a motion that discussion of this subject cease.

The meeting ended on a motion of adjournment at 10.00 p.m.

CONVOCATION

Seven honorary degrees of Doctor of Laws and 339 academic degrees and diplomas were conferred during two sessions of the Dalhousie Spring Convocation on May 19th. Brilliant sunshine, which favoured both the morning and afternoon sessions, accentuated the vivid colors of the academic costumes as the processions moved across the campus and into the gymnasium.

During the morning session University Chancellor, The Rt. Hon. C. D. Howe, conferred the following degrees and diplomas: B.A. (58), B.Sc. (36), BSc. in Eng. Phys. (2), B.Com. (18), B.N.Sc. (1), Dip. Eng. (19), Dip. P.H.N. (24), Dip. in Teaching in Schools of Nursing (11), M.A. (8), M.Sc. (8), LL.M. (2), and Ph.D. (2).

For their many years of service and devotion to education and the cultural development of Canada, the degrees of Doctor of Laws, honoris causa, were conferred upon Leonard Brenton Hannon, Principal of Queen Elizabeth High School, Dr. Lorne Pierce, recently retired Editor of the Ryerson Press, Dr. George Earle Wilson, Professor of History and retired Dean of the Faculty of Arts and Science at Dalhousie, and Graham Putnam Hennessey, Principal of the Amherst High School.

Dr. Wilson delivered an inspiring address to the graduates in which he said the only cause to give meaning and dignity to our lives is a willingness to sacrifice ourselves for causes greater than ourselves.

Mr. Howe conferred 150 academic degrees and diplomas during the afternoon session. These were: B.Ed. (38), LL.B. (31), M.D., C.M. (50), D.D.S. (17), Jr. Dip. in Ed. (5), Sr. Dip. in Ed. (3), Dip. Pharmacy (6).

J. W. A. Nicholson, retired Minister, and The Honourable George Nowlan, Minister of National Revenue.

In his address Dr. Nowlan warned that the world may be doomed if the international problems of today cannot be solved during the life time of the graduates.

soon afterward entered Dalhousie, graduated, took his Doctorate at Johns Hopkins in Physics and later returned to Dalhousie as Professor of Physics. In 1911 he became our fourth President and the fourth one to come from Pictou Academy. During his tenure of office another Pictou Academy graduate, Dr. Kenneth A. Mackenzie became Professor of Medicine, and remained the beloved physician to hundreds of Dalhousie students long after President Mackenzie had been laid to rest with his fathers. As though to fill a vacant space, "Stan's" nephew, Charlie Mackenzie was appointed to the Board of Governors, served as its Honorary Secretary for many years until business affairs made residence out of the city necessary and visits infrequent. Then we have our own Dr. Luther Mackenzie, distinguished retired internist of New York City who as you all know, has devoted so much time and effort to enlarging our pictorial archives.

So, in Miss Emelyn Mackenzie you have a worthy representative of a worthy clan, a Clan which has been a power for good at Dalhousie for more than four generations; a Clan which has sought her welfare and never her distress. She has used her well earned degrees to bring distinction alike to herself and to the university that granted them. She has been unremitting in her efforts to promote anything which she conceived to be of benefit to her Alma Mater. For all these reasons, and for her character, individual dignity and intrinsic worth, I move the nomination of Miss Emelyn Laura Mackenzie to the position of Honorary President, the highest honour in our power to bestow.

DR. AND MRS. KERR VISIT ENGLAND

Dr. and Mrs. A. E. Kerr left Halifax on July 2nd on the S.S. Newfoundland for England. Enroute they spent an enjoyable day in St. John's, Newfoundland, and Dr. Kerr was interviewed over the radio on Dalhousie's service to that province, particularly in the fields of Medicine and Dentistry.

Dr. Kerr was joined in London by Dean W. J. Archibald and together they attended meetings of the Tercentenary of the Royal Society. They also had an opportunity to interview academic leaders in England regarding the recruitment of staff.

Dr. and Mrs. Kerr attended a garden party at Buckingham Palace and were two of four Canadians presented to Queen Elizabeth and The Duke of Edinburgh. The Queen recalled her visit to Dalhousie and the Duke asked many pertinent questions regarding the development of the University.

During their visit to London Dr. and Mrs. Kerr were guests at a luncheon tendered them by the Dalhousie Society of Great Britain. The President, Mr. L. T. Pentz, welcomed them and assured them of the interest of Dalhousians resident in Britain in their alma mater. Dr. Kerr, in reply, thanked Mr. Pentz and those present for their kindness, and told of some of the recent activities of the University.

Dr. Kerr noted with satisfaction that of the fourteen living members of the Royal Society who have been awarded the Order of Merit, four of them hold Honorary Degrees from Dalhousie and a fifth is to receive one this fall. President Kerr returned to Halifax following the Royal Society meetings while Dean Archibald remained in the United Kingdom to make a tour of British universities.

MEDICAL ALUMNI

A feature of the Canadian Medical Association Convention at Banff in June was a reunion of Dalhousie medical graduates living in Western Canada and United States. This took the form of a reception and buffet dinner held at the Banff School of Fine Arts on Thursday, June 16. This gathering was under the chairmanship of Dean W. MacKenzie '33, of the University of Alberta Medical School. Local arrangements were under the capable direction of Dr. D. W. Ramsay '38 and Dr. Gordon Higgins '51, both of Calgary. Favors for the evening consisted of that famous Nova Scotia export, canned "Scotia Breeze," along with copies of Dr. Jim Reid's now famous speech on the same subject.

The annual meeting and election of officers of our association will be held during Refresher Course Week, which will be in the form of a reception, dinner and social gathering on the evening of Tuesday, November 8th, at the Lord Nelson Hotel. Further notification of this will be forwarded in the mail and we look forward to a large gathering of alumni.

Those who have not forwarded their Life or Annual dues are urged to do so before the annual meeting.

From the first floor visitors will be taken down through the 234 seat lecture theatre to the basement level where they will be shown a complete Physics machine shop, electronic equipment shop, laboratories and a liquid helium machine used for low temperature physics.

On the second floor are the Physics and Geology staff offices, the library for the three departments, research rooms and laboratories. On the third floor are the Engineering staff offices, Geology labs., various lecture rooms and the Engineering drafting room.

The Alumni Fund?

Shown prior to the Kings-Hants Dinner are Dr. and Mrs. D. Archibald, Dr. Ronald Forbes, and Dr. and Mrs. A. A. Giffin.

KINGS-HANTS

Dalhousie Alumni from Kings and Hants Counties held their first Reunion Dinner at the Paramount Hotel, Wolfville, on April 13th. W. Marshall Black, Kentville, presided at the meeting which was attended by over 50 members of the Alumni Association. Also present for the occasion were Alumni Director Bruce Irwin and Dr. J. Gordin Kaplan, Associate Professor of Physiology at Dalhousie. Dr. Kaplan impressed the guests with his pertinent observations of education at the pre-college level in which he claimed that our modern educational system, being geared to the bottom one-third of the class, induces a state of boredom in those students with ability and a desire for advanced study.

Following Dr. Kaplan's address, the Nominating Committee consisting of Dr. G. R. Forbes, Kentville; Dr. P. S. Cochrane, Wolfville; and Judge Horace Dickey, Kentville, presented a slate of officers for the coming year. Elected were: President—W. Marshall Black, Secretary—Gordon Tidman, and Directors—R. C. THE ALUMNI FUND - GROWTH CHART UP TO AUGUST 1960

URGENTLY NEEDED: a gift from each Dalhousian who has not contributed to the Alumni Fund in 1960. In 1955 your Alumni Association pledged \$100,000 to the University toward the cost of a Men's Residence, payable in 1960. The residence will be completed in December. Your support is essential if we are to honour our obligation. Please send in your contribution to day. All gifts to this Fund are income tax exempt.

A MATTER OF PRONUNCIATION

By Dr. H. L. Scammell

Those who attend meetings of our Association are often puzzled at the uncertainty of speakers with the pronunciation of certain words which are commonplace in our everyday activities. One day in the summer of 1946, soon after I had assumed responsibility for the operation of the Alumni Office, I had a visit from Jotham W. Logan, bearer of the banner of Classical Education in Halifax for many years. I pass on to you his remarks on this relative subject of pronunciation, as nearly as I can recall, verbatim:

"An alumnus is a male, and it is pronounced. . . .al-um-nus.

An alumna is a female, and it is pronounced. . . .al-um-na.

These are Latin words and the singular form is pronounced the same in English as in Latin.

In the plural it is different. The Latin plural of alumnus is pronounced. . . .al-um-nee, but in English conversation you should say. . . .al-um-nigh. The Latin plural of alumna is al-um-nigh, but in English you say. . . .al-um-nay.

Since our Association is composed of both men and women the masculine plural is used as a composite word and we speak of the Al-um-nigh Association.

Now don't you ever forget that!"

I promised to remember and in order to keep the faith I pass it on to you. Our Dalhousie Al-um-nigh Association is made up of Al-um-nay and Al-um-nigh, and please do not refer to it as the A-loom-nigh Association.

A good many years ago some pundits began to refer to our University as Dal-hoosie. On being asked to determine the issue the then Earl of Dalhousie said:

"The uneducated speaking in the vernacular may pronounce it Dal-hoosie, but we say Dal-howsie."

So boys and girls you may clean your slates and put them away until Monday.

A span of fifty years is represented in this picture taken at the 1960 Annual Meeting as two members of the Class of '60 talk over college days with Mrs. H. Terry Creighton, B.A. '27, M.A. '57 and Dr. D. C. Harvey, B.A. '10, LL.D. '41.
