PRESIDENT'S STATEMENT ON LATEST ORDER - IN - COUNCIL

Dalhousie University tries its best to put into effect all instructions received from the authorities. From the beginning of the war, we have made it plain, all round, that the University and its members will do everything in their power to win the war—short of closing the University down.

We believe that it is our duty, in spite of all difficulties, to maintain university instruction during the war, in the humanities as well as in the sciences and the professional schools. At times this has not been easy—there having been such a shrinkage in attendance of students and in teachers. In the way of enlistments and in the way of services to the Government, Dalhousie University has been second to none.

The Government of Canada have told us from the begin- Editor Announces ning that students should continue their courses. At times, of course, there has been a clamant demand for engineers, doctors, dentists, physicists, and chemists. And, at times, it has seemed that languages, mathematics and the humanities generally might be regarded as of secondary importance. But the Government, in all consultations, have wisely said that these studies, too, must be carried on, for winning the war and for winning the peace. The same is true of the study of law; and pointed Editor of the 1942-43 become increasingly stern throughthe Government themselves in the last year have had many posts which could be filled only with men of legal training.

I speak of these matters because I know that some of our students think that one statement made by the Government hardly adds up with other statements.

The most recent regulation has to do with notifying the worrthy of your college; one that quieter, and rumors are again authorities about students who are delinquent in an academic will in years to come serve as a around the campus that a gigantic way; and especially about students who fail in terminal or treasure-house of memories of your mid-term examinations. A student might say: "On the one campus days. We ask that everybody hand, we are told to continue our studies, and, on the other co-operate in this enterprise-let's hand, some of us at least seems to be suspected of not pursuing all help the staff in every way posour studies seriously."

This matter came up recently at a meeting of university heads of the Maritime Provinces and Newfoundland. It was pointed out that it was left to the discretion of the universities to say whether a student was really in good academic standing or not, and that there was no expectation that the universities should report to the military authorities every single slip on examination: in any given case the student's whole course examination in any given case the student's whole course examination pictures and only in examination in any given case the student's whole course examination in any given case the student's whole course examination in any given case the student's whole course examination in any given case the student's whole course examination in any given case the student's whole course examination in any given case the student's whole course examination in any given case the student's whole course examination in any given case the student's whole course examination in any given case the student's whole course examination in any given case the student's whole course examination in any given case the student's whole course examination in any given case the student's whole course examination in any given case the student's whole course examination in any given case the student's whole course examination in the student's examination in the s would be taken into consideration. For many years, even be- graduation pictures and only in exfore the war, our Dalhousie students have been a serious, ceptional circumstances will this rule industrious body of students, with few exceptions. Since the be violated. A feature of the 1943 war the exceptions have been rare indeed.

In answering the Editor's request to say something about medical graduation classes, the class this most recent Order-in-Council, I thought the time opportune graduating in January, and in Augto go into matters generally.

Dalhousie Institute of Public Opinion

Forrest Campus, long neglected by DIPO, is well represented in this week's quiz, and will continue to be called upon in the future.

Approximately How Long Do You Think the War Will Last?

Dal students indulged in a bit of interesting speculation when answering this question. The current opinion, supported by 37% of those quizzed, was that the war would last another year, while another 25% thought it would last two years. Other estimates were varied: 19% thought it would take five years to end the war; *% thought it would take longer than that, another 6% thought it would take three years, and 7% were undecided.

One student was quite certain that it would end next August 15, while another was just as certain it would take exactly 29 years. The opinion was expressed that it would take longer to defeat the Japs than the Germans. One student saw no definite end to the war, but a merging into a world revolution.

Other interesting comments were that its length was a military secret, while a Forrest wit said "it depends upon the red flannels the Germans have."

Do You Consider Arts Courses Essential During War Time?

The answers to this question varied with the course the student was taking. At Forrest, the great majority thought Arts courses unessential, while the opposite was true at Studley. The results were not very conclusive; 53% considered them essential, while 47% did not. One med student wanted to limit Arts students only to girls and physically unfit males. Others were less drastic, and considered some classes essential and some not. Only at Studley were there ardent champion of liberal education.

Should a Date Bureau Be Established at Dal?

Stimulated by a pity for the suffering of Dal's love-forlorn students, Friendly Aliens denied entrance! Gaztte's history. Let us not leave a the dance was set at the latter end some of the comments were revealing. Of those quizzed 48% were in of February. Laura Mackenzie, Don favor of the scheme, 44% against and 8% remained undecided.

The boys at Forrest didn't see much necessity for a date bureau. Typical comments: "Prefer to get my own" and "No need for it-lots of Seniors, make a date today to Prom could be held in the Gym. nurses around". "Babes, babes" and "gold-diggers" were some of the deprecating remarks used to describe Dal co-eds.

Some kind med lads were for the scheme because they "took pity on by the board of governers at a meet- you have your own choice. See dance. It was definitely decided not the girls at the Hall", but for no ulterior motive. Studley students , how-Lunatic: "How do I know? I won't ing Thursday. A CHALLENGE TO ALL STUDENTS

Wednesday night, Nov. 25th, a huge rally in Toronto at the Maple Leaf Gardens was held to inaugurate the Canadian Aid to Russia campaign. Under the chairmanship of J. S. McLean, head of Canada Packers Limited, the drive got under way with a magnificent appeal from Wendell Wilkie, who was the main speaker at the rally.

The fund in Canada will provide an opportunity to Canadians to express in tangible form and in continuous measure the admiration, gratitude and sympathy they feel in their hearts for the heroic Russian people—the people who, as Mrs. Churchill recently stated, "have set an unparallelel example to all of us.'

Russia's needs are so great that everybody's help is needed. The fighters behind the lines, the refugees in far eastern areas and in the territories being reoccupied and those already reoccupied by the Red Army need warm clothing, bedding, food-stuffs, medical supplies. They need large quantities of these things, and help to them must go continuously.

Already the free peoples the world over, in Great Britain, United States, the Argentine, Palestine, Australia, New Zealand and South American countries, have responded magnificently to Russia's needs. In Canada, last year, the Red Cross collected, through a public appeal, the sum of \$860,000, and now the Canadian Aid to Russia Fund will promote, on a continuous basis, aid to Russia activities throughout the Dominion. Clothing, medicine, food supplies and above all friendship and understanding, are the things the Canadian Aid to Russia will ask the Canadian people to extend.

It is only to be expected that Canadian students will do their part in this great task of good-will through tangible assistance. We in the universities are in a position to realize the value of freedom; the freedom to live, think and read without the fear of being tossed into a concentration camp. We can realize the agony of students and professors who have seen their libraries go up in smoke, their classrooms sealed, and themselves subjected to all forms of torture at the hands of the 'super-race'

Up until now, the Russian people have to a great extent been responsible for keeping the beasts of Berlin away from our door. Now, through the Canadian Aid to Russia, we have a chance to show our appreciation. We as university students can and should help to the utmost of our ability. A committee should be set up on the campus through the Students' Council, and with the aid of all the campus societies, this campaign could go over in a big way. Here is a chance for every student to really do a job for the War Effort. How about it?

A LETTER TO THE EDITOR

It finally happened and its birth was painless. For weeks now, ers of the editorial board, we had been pacing the floor. and hoping against vain hope that the next mail would bring us a letter to the editor. It has come and so pleased are we with it that it is printed in full in the middle of this editorial. It is obviously from a college student, deduced not from the fact the Gazette is a college newspaper, but because of the language of the letter itself. Never has such a collection of adjectives - each diminishing the potency of the others - come from any but a letter from a student who has at last found there are seeevral ways of expressing one's thoughts.

NOVEMBER

Sparrows clinging to bare twigs, Pigeons to bare roofs, This, November, month of varying moods, And branches naked, leafless in the wind.

This November with the haggard face, The grey, gaunt face with grim and sorrowing eyes, And the whole world a twilight shadowed place Wherein the landscape slowly melts and dies.

This November and a bloodstained sky Where the cold, clear, glittering day has run its span, From which the heart turns shudderingly away, Seeking a fire in the soul of man.

K. R. B.

FOG

The trees stretch leafy fingers through the fog Which hovers thick and turbid on the night, Pierced only by the shafts of light from cars And the brilliant line of street-lamps on the hill. Buildings like silhouettes in the haze appear, While shadows moving in the damp, dark streets Mingle with the night and disappear.

K. R. B.

FOREST STEEPLES

Fir and spruce Slope upward on the hill And penetrate a slender scarf of fog. They look like steeples, tall, dark, serene-One almost would expect the bells to ring: Yet only the thud of cones. The drip of rain, Calls birds at eventide.

Soon winds will huddle in the depths of swaying branches Moaning soft lullabys;
Birds will fold feathers— Duck their heads in sleep.

But the line of forest steeples marching solemnly skyward Must continue to ring silent chimes In the night.

articles the reader does not want to see in the Gazette, and will make the newspaper itself try to better the article under criticism. We feel that such a letter is definitely helpful in allowing us to form a better policy for reader appeal.

A few issues ago, the Gazette fell into disrepute among many of the Faculty and for a week the inner ferment of college authority gave serious consideration to the condition this paper had allegedly fallen into. At a meeting with Dr. Stanley and Deans, quite obvious criticism was directed to the paper for certain articles, and jokes which had appeared. The accusation of one student made to University authorities was responsible for this.

It was of no avail to make the excuse we were following the policy of former Gazettes: the President threw the argument out. We had nothing to stand on then. And yet it is a basic and very fundamental argument. If that person who made the complaint had sent a letter to the editor, much of the trouble might have been averted that way; we are susceptible to public opinion. We were only patterning ourselves on other newspapers, and the Gazette in particular.

The student's method was criminal to the student body itself. The higher authorities at this University are too busy to have to be bothered with student affairs, and indeed such affairs fall under the jurisdiction

of the Students' Council.

> OUTSTANDING SINGLE REC-ORDS: XAVIER CUGAT-"Aversidad" and "En La Plantacion" on Victor 27973. The first new Cugat record in several months brings him back to the Victor Label. "Aversidad" is a bolero son with a smooth unusual melody, and features a haunting sub-tone clarinet solo. "Plantacion" is a slow rhumba of the "Sibonney". Cugat's orchestration has an interesting chimes effect and the vocal by the rich voice of Miguelito Valdes is in Spanish. Both sides are plentifully decorated with the flute and marimba passages that have become Cugat's musical trade-

SPORT - O-SCOPE

by ED MORRIS

Absolutely the last reference this column will make to the subject of football this year comes by way of congratulation to a St. F. X. team composed of one "Tarp" Walsh and fourteen others upon whose collective brows rests the provincial crown for another year. Despite all the antitank and crossfire tactics at the disposal of the Army squad, the Antigonish boys controlled the play all the way home. The mighty "Tarp" idol of Mount Saint Bernard girls, Yo-ho High School, and the Dingle restaurant of fame immemorial, settled down to the rather boring task of eluding four stalwart soldiermen who were blissfully ignorant that such a technique left the rest of the game rther one-sided. Just for the hell of it Mr. Walsh did a few sheenanigans of hi sown, including a few cross-field runs that made the Army look like a host of superannuated jeeps. Well, our hats are off to you, St. F. X. Next year you may come brack is left. Around him the quarback and get the toupees.

The slap of basketball on the Gym those who take an active interest in the traditional indoor game. The showing to date has been somewhat Mixed Ping-Pong above average although the floor is plenty large to accommodate a few more aspirants. Regular practise sessions are now in full swing, with more in the immediate future. The one disappointing fact, quite probexamination turnouts barely get started when they must taper off again. That leaves plans for the post-vacation period hanging in midmight correct this situation some-

LETTER TO THE EDITOR

In a recent issue certain unfavorable remarks have been published about the game of ping-pong which I feel should be cor-

First, I would like to state that a ping-pong player is an athlete, not a he-man. The game is essentially built on speed and requires skill and dexterity. A good ping-pong player can drive his opponent back from the end of the table fifteen or twenty feet, and can himself go back that distance in order to retrieve a hard driven ball. Anyone who is rather slow either physically or mentally better try some less arduous sport.

A football player or any other so-called "athlete" who relies on power and brute force need not try ping-pong. It would be too difficult, for it takes more nower and strength. It takes speed and decention, outwitting one's opponent, skill in placing the ball where the other fellow "ain't", sharp eyes, and a clear head.

If a certain college sports editor does not agree with the above, I cordially invite him to be present when the finals of the current tournament are being held. BILL POPE.

"Need Life Insurance-MHO - ME?"

The younger you are when you take out your first life insurance policy, the lower your premium will be. So, you should start thinking

about your life insurance when you get your first salary cheque. Will you need insurance? Yes-

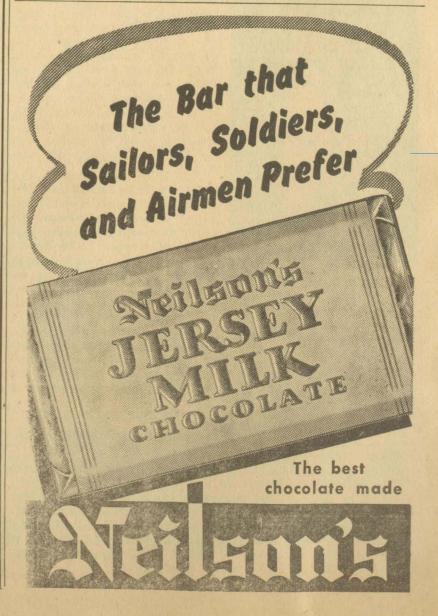

unless you intend to live like a hermit without human contacts and responsibilities. One day you may have a home of your own to keep, a family to provide for. One day you may need security for a business loan; and, some distant day, you will certainly need money for your own retirement.

There are Mutual Life policies that can do all these things. When the time comes for you to buy life insurance, see a Mutual Life representative. He will help you to plan the right kind and amount of insurance protection to suit your
