Aug 7 - 1973

Dear Dr. Murray:

You enquired some time ago about a Leprosy Association. Here at Taecheon Beach I have had the opportunity to talk with Dr. Stanley Toppie who is in this work for the Southern Presbyterian Mission. He advised that you make an enquiry addressed to

DR. NORWOOD TYE
AMERICAN LEPROSY MISSION, INC.
297 PARK AVE. SOUTH
NEW YORK, N.Y. 10010,
U.S.A.

You can depend on whatever information you receive from that address. Dr. Toppie also warns that several unscrupulous fund raisers are using a post office box address in Seoul or Pusan or even in the U.S. and that these people are not really doing any authentic leprosy work in Korea or anywhere else.

I hope that you receive the information you need from Dr. Tye.

We have had and are having the usual hot, humid summer here. We are at Taecheon at the moment. Margie Moore is directing the musical "Finnian's Rainbow". The Moffets, Kilbourne, Charlie Stokes and many others are here - all engaged in a tennis tournament.

The rains came late this year - many were anxious about a drought but I think the rains have been ample and in time for a good rice crop. You perhaps know that there is a good four lane highway to Pusan now and also to Wouju.
