Dear Tovarish.

So many thanks for the papers
& my congratulations on the success
of "Albino Thule". You certainly worked
hard enough on the series to merit
recognition though that has been yours
for many years.

I'm so out of touch now
with Halifax & things that have become
that there remain no topics of mutual
interest that I can write about.

I'm well for the most part
though a few more illnesses, operations
& accidents have somewhat retarded a
Campbell's recovery. I'm still labelled
80% unfit though I look wonderfully
well. I have my own secrets though
& don't reveal any more than it is possible
to avoid.

Hope all your brood & your
good help meet are thriving. My most
affectionate regards to them & to you,
of course. As always
Owen
