O Canada

*O Canada! Our home and native land!
True patriot love in all thy sons command.*

*With glowing hearts we see thee rise,
The True North strong and free!*

*From far and wide, O Canada,
We stand on guard for thee.*

*God keep our land, glorious and free!
O Canada, we stand on guard for thee.
O Canada, we stand on guard for thee.*

O Canada

My country 'tis of thee,
Sweet land of liberty,
Where band of brothers,
For ever are united,
In liberty.

Thy children march on, thy banner still,
Thy mothers teach thee, thy fathers still,
Thy young men, thy old men,
Thy women, thy children,
Thy youth.

Thy fathers, thy mothers, thy sons,
Thy daughters, thy grandsons,
Thy young men, thy old men,
Thy women, thy children,
Thy youth.

Thy fathers, thy mothers, thy sons,
Thy daughters, thy grandsons,
Thy young men, thy old men,
Thy women, thy children,
Thy youth.

Doctor of Laws (*honoris causa*)

Dr. Nicholas Pippenger

Mr. Pippenger has shaped our understanding of theoretical computer science. A leading intellectual, he is considered the world expert on switching networks. He is well known among peers as an attentive listener, an enthusiastic mentor and an adept problem-solver. His success in research and within the community stems from his intuitive and imaginative nature, combined with an unflinching curiosity and deep intellect.

Dalhousie University Coat of Arms

The Dalhousie University Coat of Arms, which you see hanging at the back of the stage, is based on the heraldic achievement (commonly called "Coat of Arms") of the Ramsay family of Scotland. The Rt. Hon. George Ramsay, Lieutenant-Governor of Nova Scotia, founded the University in 1818. Initially the Ramsay family coat of arms was used to identify Dalhousie. But over time, it has evolved, as have most heraldic devices through marriage or political alliances.

The seal used by the University differs from that of the Ramsay family version in three ways.

First, through marriage one of the supporters on the Ramsay achievement has now changed to include a greyhound on the right.

Secondly, the original Ramsay supporters were griffins (half lion, half dragon). Dalhousie has dragons.

The third change occurred in 1950 when the Board of Governors changed the colour of the shield from white (silver) to gold, to reflect the University's colours of black and gold.

Since 1987 the university has used the eagle and shield as the basis for its logo.

Dalhousie University Mace

The Dalhousie University Mace is carried into the auditorium by the University Beadle, Åsa Kachan, University Registrar, who leads the procession. The Mace was first carried in an academic procession in May 1950 and once placed on stage, begins Convocation.

The Mace was designed by R. L. de C. H. Saunders, a Professor of Anatomy, and carved by A. H. MacMillan of Halifax. It is made of oak, enriched with silver and enamel, and measures 1.4 metres in length.

The lower end of the mace is adorned with silver fish in recognition of one of our most important natural resources. Above this is a circular scene of a sea nymph calling across the waves towards the setting sun in representation of the impulse that led navigators to our shores. The roots put down by early settlers and the tall trees that first met their gaze are reflected in a pattern extending the entire length of the shaft.

The head of the mace bears a maple leaf. Set above the leaf is a carved circle of mayflowers, which symbolizes both the province and the flowering of a new civilization in the province which led to the establishment of the University. Four robed medieval scholars facing the main compass points represent the university faculties of 1950: Arts and Science, Dentistry, Law and Medicine. Each figure bears a silver enameled shield with either the arms of the University or the Province of Nova Scotia. Alternating with these figures are the rose, thistle, fleur-de-lys and shamrock, depicting the home countries of the first European immigrants to the province.

The top of the mace head bears a five-rayed Scottish earl's coronet in recognition of the University's founder, the ninth Earl of Dalhousie. This part of the mace incorporates oak that came from the Earl's estate and was presented to Dalhousie University. Gracing the cap of the coronet, set above all, is a silver Celtic cross surrounded by the University motto "Ora et Labora" (pray and work). This cross was chosen as befitting a non-denominational institution with Scottish heritage.

Academic Dress

Graduates of the University wear gowns and hoods of black material. The lining of the hood identifies the graduates' field of study.

1. The first part of the paper discusses the importance of understanding the cultural context of the research. It highlights the need for researchers to be aware of their own biases and the biases of the participants. This is particularly important in cross-cultural research where the cultural differences can significantly impact the results.

2. The second part of the paper focuses on the methodology used in the study. It describes the sample, the data collection methods, and the analysis techniques. The authors emphasize the importance of transparency in reporting the methodology to allow for replication and critical evaluation of the findings.

3. The third part of the paper presents the results of the study. It includes a detailed description of the data and the statistical analysis. The authors provide a clear and concise summary of the findings, highlighting the key results and their implications.

4. The fourth part of the paper discusses the conclusions and the implications of the study. It reflects on the findings and their relevance to the field of research. The authors also discuss the limitations of the study and suggest areas for future research.

5. The final part of the paper is a brief summary of the main points discussed in the paper. It serves as a quick reference for the reader and reinforces the key messages of the study.
