January 5, 1983

Dear Elizabeth

Thanks for your Christmas greeting. I am glad to hear that D O I "is going strong." It has ample scope for useful activity re the new Law of the Sea. Our effort re a training program for people who will be involved in implementing its provisions was properly conceived. I hope that it will be able to continue at the level that ought to be supported. In this context I see International Oceanographic Foundation in Miami, and of which I am a trustee, has suggested to the University of Miami that they become involved in the I O I program, with my help. Up to now I haven't heard

2

from the University. I hope you would be interested in following up any interest they might show.

I am sorry I haven't been of any help to you lately. I have been invited by the Dept of Law at Queen's University here in Kingston to help them with a seminar on the Law of the Sea next month.

The reason for this being in long hand rather than typed is that my typist (Kate) is in the hospital for a cataract operation which I hope will be successful.

With best regards

Frank
