

Dear Tavarish,

M<sup>rs</sup>. Agathe  
July 2 - 23.

Your letter remains unanswered  
because we've had a long spell of  
fine fine weather & I've been  
out in the field the days long  
& have improved amazingly. My  
reading has gone to pot prin-  
cipally because the Doctors landed  
on me with both boots for  
being too much. "Nicholan's Young  
Man" & "Sir Reynell Rados Memoirs"  
have been sitting in front of  
me, little read, for 3 weeks. Dad  
& Alfred have been here recently &  
were delighted with my robust  
appearance. I have 12 months more  
to do but leave here in Sept. en  
route to England & France: it  
will be some compensation. The  
enclosed is, I hope, prophetic by  
George it sounds well in the  
mouth & echoes full in the  
heart. To Madame, Jean & Die.  
Felicitation.

Anna
