Dear Dr. Tom,

It was great pleasure
to see and hear you last night on C.B.C.
Good to see the familiar swinging gait
as you were brought in for the study setting.
How often you did "The Milton" song,
same as mine.

Then too, your sound, clear, estimate
of Canadian life was so helpful.
Good for you, to remind the country that
Nova Scotians had handled French,
English and Scottish folk so that
general respect and some real affection
are usual, not rare.

My impression of N. B. from this
northern site seems another achievement.
The premier stressed this for the province
in upper Canada last week —

With good wishes to you wife
and the young families,
from Kathie and John
