

Caledonia Dept 3/5-9

Mr Thomas Raddall

Liverpool

Dear Sir

I am sending by separate parcel one crooked knife, The handle is made of a different kind of maple knurle and should stand any strain that should be put on this kind of knife

I have sold a lot of knives with handles made of wood like I made of wood like I made for you and have used it for handles for my own use and I use a crooked knife a lot.

I have had one handle broken but I left it where an ox stepped on it.

Two others that I have repaired were broken using them for

Throwing knives and one man
used a stone on his to open
up a Moose.

However I have seen handles
that the grain of the wood ran
across the handle and they could
be broken by heavy whittling.

Hopeing that this knife will be
satisfactory to your friend and
that you and yours are enjoying
good health & are

yours truly

A. D. Freeman

The price of the knife is \$5.25-
