DALHOUSIE UNIVERSITY  
HALIFAX, N.S.  
B3H 4H6

PRESIDENT AND VICE-CHANCELLOR

TO THE CLASS OF 1980

As I shall be giving you the Presidency of Dalhousie University a few months after you graduate, it occurred to me to look up the 1937 PHAROS to see what was said forty-two years ago when I left Dalhousie as a student, after having acquired my second Bachelor's degree.

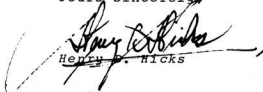

In a message to the graduates in Arts and Science Dr. C.B. Nickerson included the following words, which I think are still appropriate forty-two years later:

"Real education can result only from a post-graduate course in life. We have endeavoured to supply you with the equipment which should make that course relatively easy; easier for you than for the less fortunate ones who have not enjoyed your advantages."

Perhaps I have not taken much time to philosophize in the past seventeen years that I have been President. With the strong support of the Board of Governors, chaired by Dr. Donald McInnes for the whole of this period up to April 30th of this year, and with the co-operations from alumni, business, government, and friends of Dalhousie, my efforts have been primarily directed to improving our teaching and research staff, and providing the physical facilities to enable a good university education to be secured by an additional five thousand students. This amounts to an increase of about 200 percent during the years of my Presidency. I believe we have been successful in maintaining the quality of our staff and our physical facilities.

In leaving Dalhousie to begin your "postgraduate work in life" I hope you will remember that the vision and sacrifice of many people, including your parents, has given you the "equipment" for a good start.

Yours sincerely,

HENRY C. NICKS

**Dr. Henry D. Hicks**  
**President and Vice-Chancellor**

# Henry D. Hicks

For a man who said 'No' to the first offer of the Arts and Science Deanship at Dalhousie, who was later approached by a group of faculty and, in effect, warned off the university, who, three years later, on being offered the presidency was then invited by a committee of the Board of Governors to sign an undertaking not to get involved in politics (and unhesitatingly declined the invitation), Henry Davies Hicks weathered two decades at Dalhousie remarkably well.

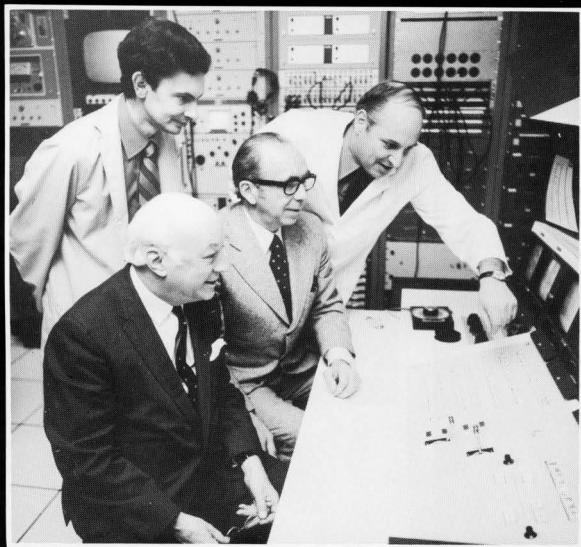

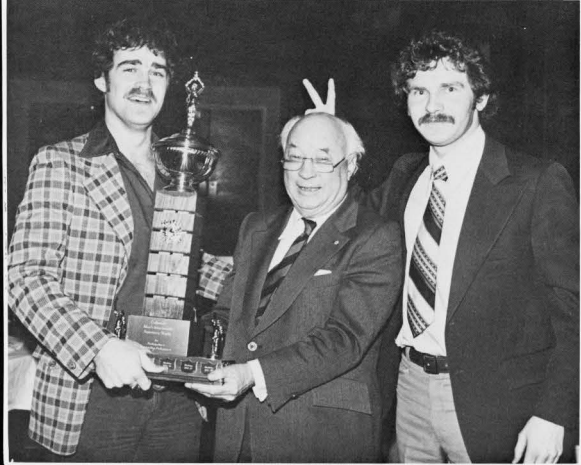

Dalhousie, too, did remarkably well under his driving leadership, being transformed from what the institutional advertising of the 1950s called "The Small College by the Sea" into the \$70-million-a-year, multi-facultied university which today ranks with the best in Canada.

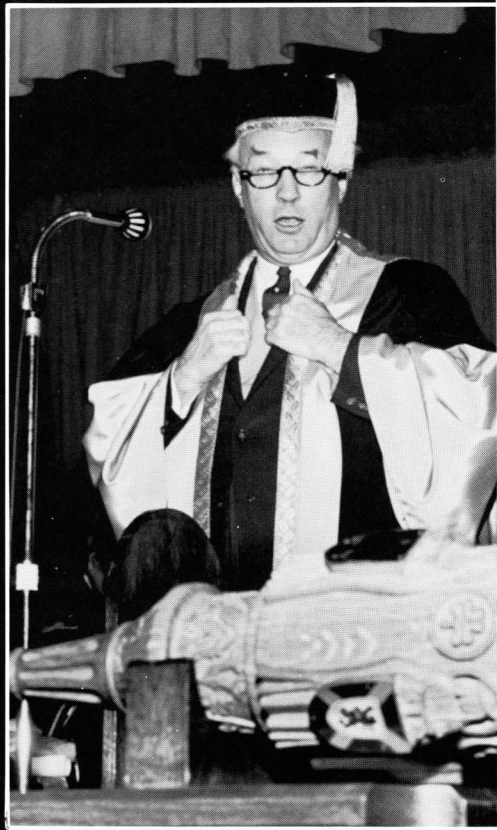

When, in the distant future, the history of the university is updated, it will record that in its long (and early chequered) life, Dalhousie's most important period was during the 1960s and 1970s, and that Dr. Henry D. Hicks will rank as the greatest leader the university has had.

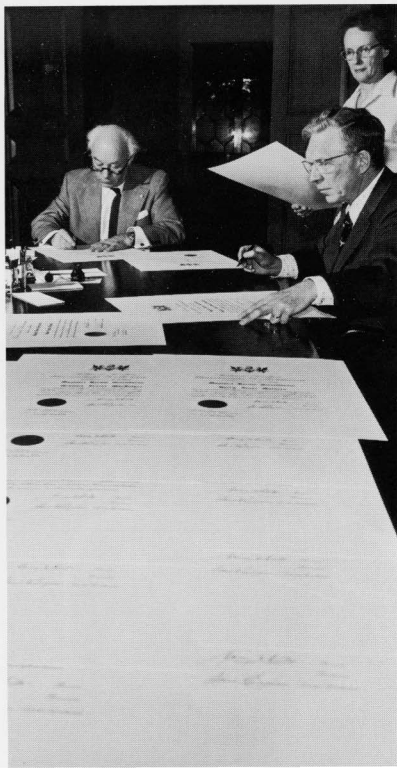

Henry Hicks never was a fair weather sailor, which is just as well for Dalhousie, because a weaker personality could not have put the university into the top flight of Canadian higher education. Yes, he enjoyed the respite of the calm periods; but he was practical enough to recognize that there would be times of controversy, both within and without.

And when controversy arose, Henry Hicks not only stood firm, but took action, more determinedly than ever if he believed that what he and the university were doing was right. As one writer said of him, "He rushes his fences as though they were not there."

Dr. Hicks was born on March 5, 1915 in Bridgetown, N.S. That one of his ancestors was active in public life more than two centuries ago may have had something to do with Henry Hick's bent for law and learning and public life. The ancestor, a Rhode Island Quaker and pre-Loyalist immigrant, was in 1759 one of the original grantees of Falmouth township, who later moved to Granville and was a member of the Nova Scotia Legislature.

Educated in Bridgetown, Mount Allison University, Dalhousie and Oxford, Henry Hicks was a good chemistry student, but after winning a Rhodes scholarship and arriving at Oxford, turned to law. His university days were not all work. At Mount Allison he was a good track man, and at Oxford was active in ice hockey, rowing and mountaineering. As president of the Oxford Rowing Club he organized the first wartime Oxford-Cambridge Board Race, and at one stage was cox of the Oxford crew.

After war service as a radar officer in Europe, Dr. Hicks began a law practice in Bridgetown and became Liberal Member for Annapolis County in the Legislature. He was the province's first Minister of Education, serving also as Provincial Secretary and Premier (1954-56). He was Opposition Leader from 1956 to 1960, when he lost his Annapolis seat.

Henry Hicks was on the verge of joining a Halifax law firm when his predecessor, the late Dr. A.E. Kerr, invited him to become Dean of Arts and Science. At first he said 'No' but some members of the Board of Governors "painted an interesting picture of the prospects if I came. So I came ... and I've not been sorry."

In 1972 he was appointed to the Senate of Canada, and

unlike the reaction to his joining Dalhousie, no one objected this time.

Dr. Hicks took over the presidency in 1963, at a time of rapid growth, and immediately embarked on the biggest building program Dalhousie has had, a program to cope with the then tremendous enrolment boom. "I think really I have not been a planner so much as I've been a pragmatic doer of the things that seemed to be necessary," he says today.

A pragmatic, forthright, doer he has been - and more. An intellectual with a love of good jazz and the music and words of the Beatles, an Oscar Wilde fan, a salmon angler and rod-maker of note, a stamp collector, a cabinet-maker (the furniture kind), Henry Hicks is a master of many trades and jack of none.

His departure as president may mean that he will be missed, by students, faculty and administrators alike. But he will not be forgotten, for everywhere on campus the products of his drive as a builder and leader are much in evidence - the residence extensions, the library, the Arts Centre, the Life Sciences Centre, the Tupper building and so on are all monuments to the Hicks era.

THE RIGHT HONOURABLE GEORGE RAMSAY  
NINTH EARL OF DALHOUSIE.  
FOUNDER OF DALHOUSIE COLLEGE.

## Our Heritage

Meeting of the Tandem Club Outside the Original Dalhousie College. (Now Halifax City Hall).

"Before I proceed with this ceremony, I think it necessary to state to you, gentlemen, the object and intention of this important work; I think it necessary to do this because I have never yet made any public declaration of the nature of the institution I am here planning among you, and because I know that some part of the public imagine that it is intended to oppose the college already established at Windsor. This College of Halifax is founded for the instruction of youth in the higher Classics and in all Philosophical studies; it is formed in imitation of the University of Edinburgh; its doors will be open to all who profess the Christian religion; to the youth of His Majesty's North American Colonies, to strangers residing here, to gentlemen of the military as well as the learned professions, to all, in short, who may be disposed to devote a small part of their time to study. It does not oppose the King's College at Windsor, because it is well known that college does not admit any students unless they subscribe to the tests required by the Established Church of England, and these tests exclude the great proportion of youth in this province. It is therefore particularly intended

for those who are excluded from Windsor. It is founded upon the principles of religious toleration secured to you by the laws, and upon that paternal protection which the King of England extends to all his subjects. It is under His Majesty's most gracious approbation of this institution that I meet you here today, and as his humble representative I lay this cornerstone of the building. I here perform an act which appears to me to promise incalculable advantages to this country; and if my name as Governor of this Province, can be associated with your future well-being, it is upon the foundation of this college that every blessing may flow over your country; in a few months hence it may dispense those blessings to you whom I now address; may it continue to dispense them to the latest ages! Let no jealousy disturb its peace; no lukewarm indifference check its growth! Protect it in its first years, and it will abundantly repay your care!"

Address of George Ramsay  
Cornerstone Laying  
May 22, 1820

FACSIMILE OF THE BRASS ON THE CORNER STONE OF  
THE ORIGINAL DALHOUSIE COLLEGE.

In 1917 George Ramsay, ninth Earl of Dalhousie and Governor of Nova Scotia, determined to found a college that would be open to any student regardless of class or creed. Although Nova Scotia boasted a college at Windsor, the exam required effectively excluded large segments of the population. The funds used to begin construction were the customs duties acquired by the British during their occupation of Castine in 1814. The original site of the college was the Grand Parade where the Halifax City Hall now stands.

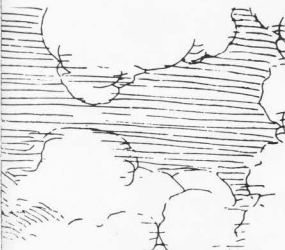

The buildings were ready for occupation in 1823, however the college still had many unsolved problems. Not only had the professors not been chosen, but the early supporters of the college were apprehensive, believing King's College was sufficient. As a result, the college served as a community centre from 1829 to 1838. Two attempts to amalgamate the two colleges failed. Eventually the college came into its own opening its doors in 1838.

Dalhousie offered only three chairs on opening: Classical Languages, Mathematics and Natural Philosophy. The first class consisted of only twelve students. Courses lasted four years; tuition was between \$6 and \$24.

Rev. John Forest D.D.  
Third President, 1885-1911

In 1885, Dr. John Forest succeeded President Ross. Together with George Munroe, Forest founded five new chairs: Physics, History and Political Economy, English Literature, Law and Philosophy. Munroe donated \$350,000 to erect new buildings and attract new staff. The generosity shown has been repaid with the declaration of Munroe Day. In 1886, the College moved to Carleton Street, and later in 1912, the college purchased the Studley Estate. Here, the Science Building and the MacDonald Memorial Library were built (see above). Studley Campus now houses the major administration offices of Dalhousie University.

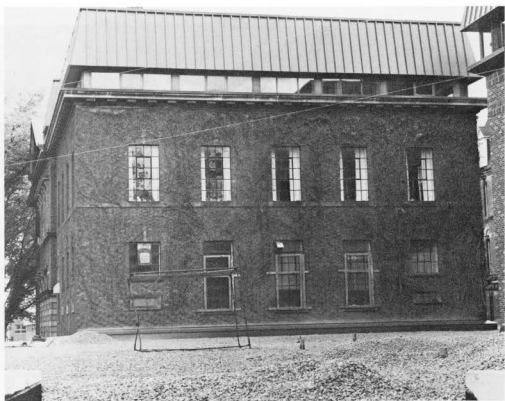

Between 1920 and 1930, the women's residence and the Law Building were completed. During the 1930's, the Gym and the Medical-Dental Library were built. The 50's saw the construction of the A & A Building and the Memorial Rink. (In 1978, the Memorial Rink burned to the ground.) The fall of 1969 saw the opening of the Student Union Building (complete with a live tiger)

The history of Dalhousie is past. What lies now in the future? It's not in the buildings, but in the dreams and goals we all have. Everything at Dal is a tool to be used: the experiences, the parties, even courses. Take a deep breath and plunge into it all. It's all here for us. Go for it.

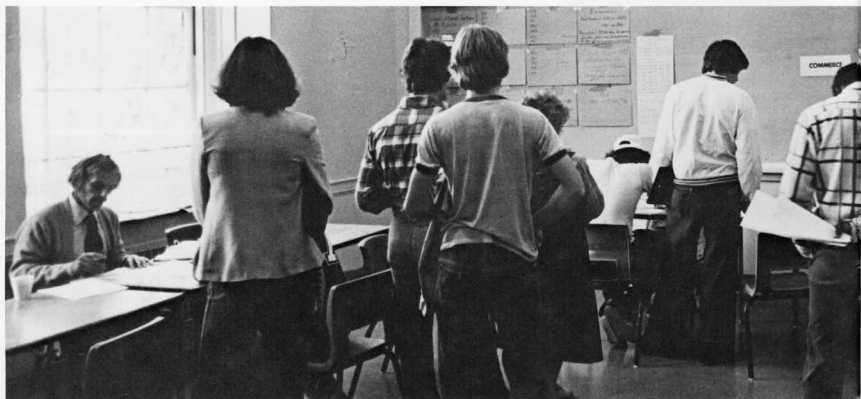

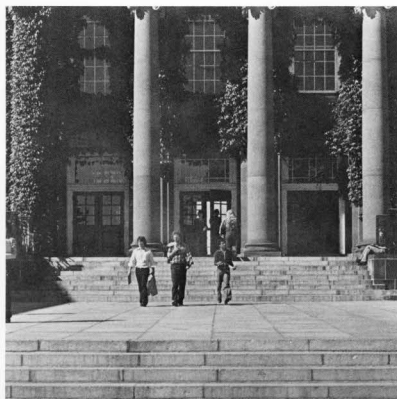

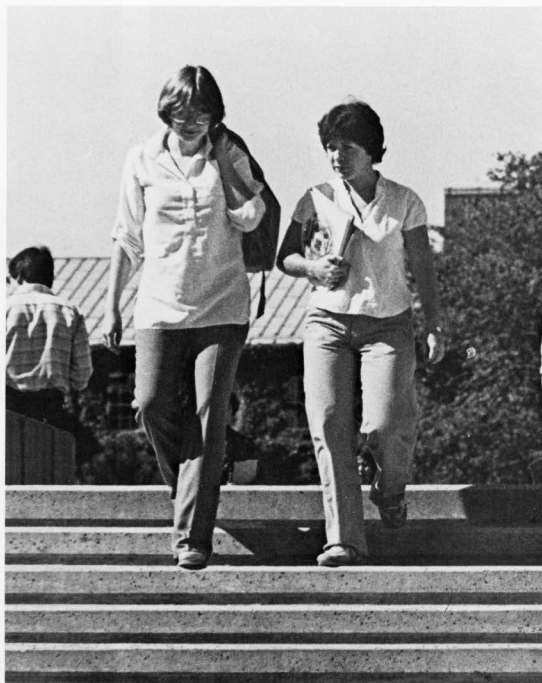

# The First Step

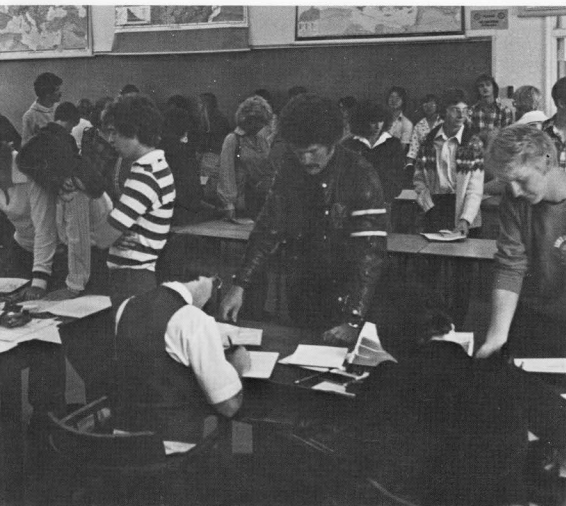

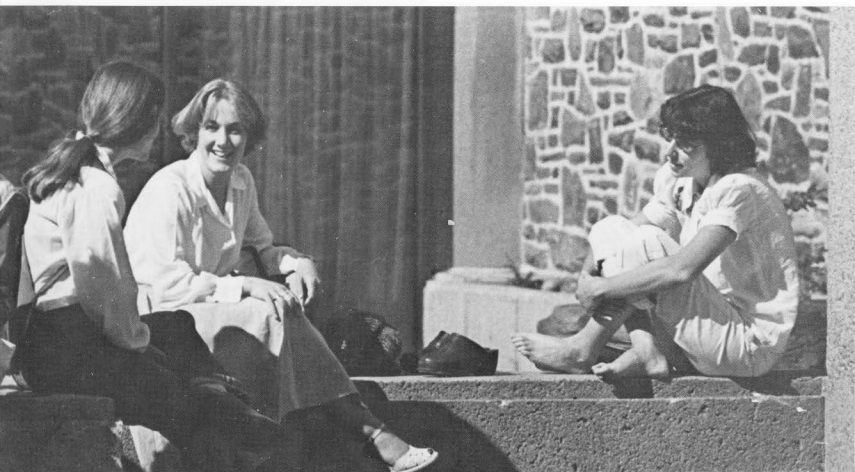

## Waiting

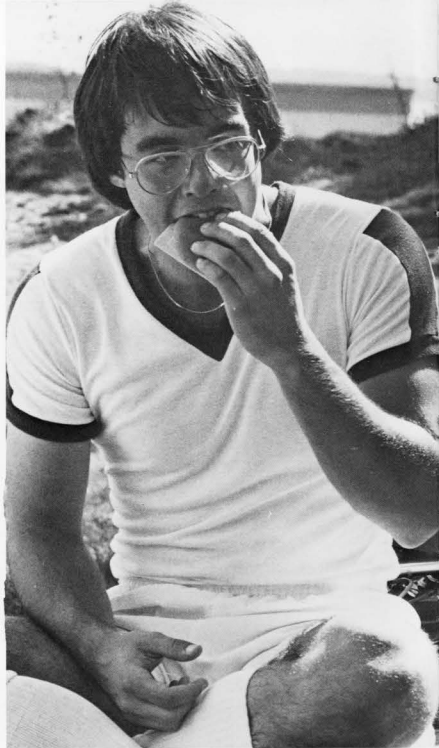

Lines and more lines; three days spent in triplicate. Sound familiar? It's the yearly migration which finds hoards of students assembling for a test of their strength and patience. Only the fittest survive the ordeal that leaves most in a dazed state. God you're lucky when you graduate!

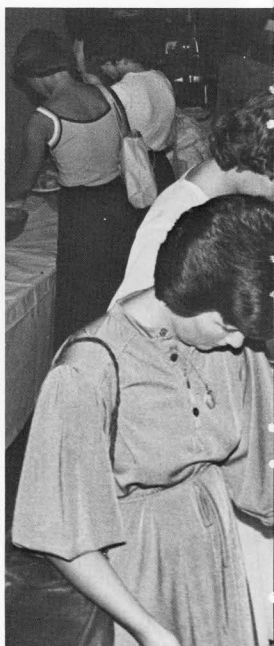

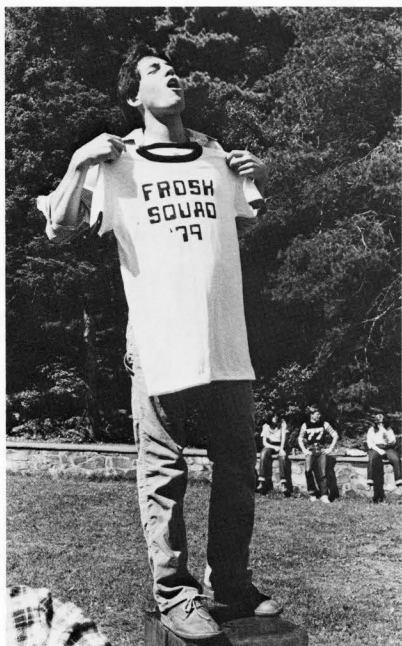

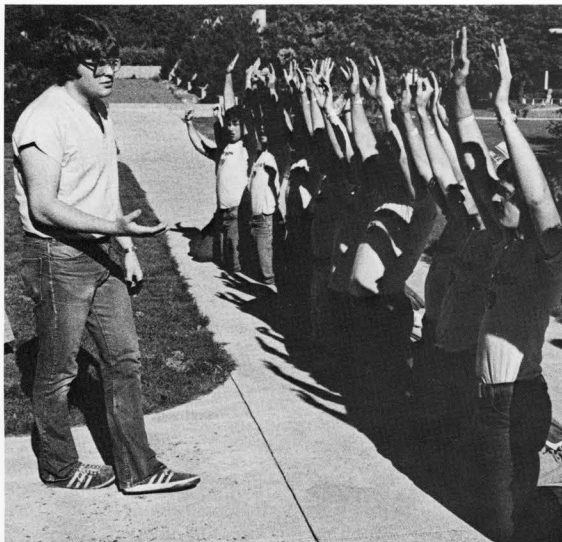

This year's orientation events were well coordinated and all enjoyed what was offered. Point Pleasant Park again felt the crunch of over 200 eager students. The barbeque was terrific and the activities unique. The Faculty Frosh Buffet was also a mixture of fine company and a delicious meal. Finally, the Super Sub which hosted the Minglewood Band, gave everyone a chance to strengthen new friendships.

The 'Plex  
Dalhousie's New Toy

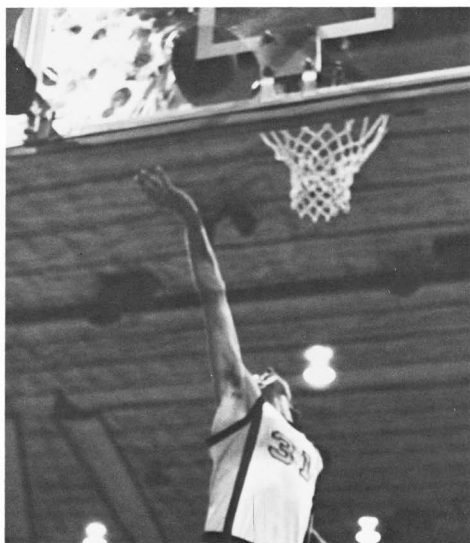

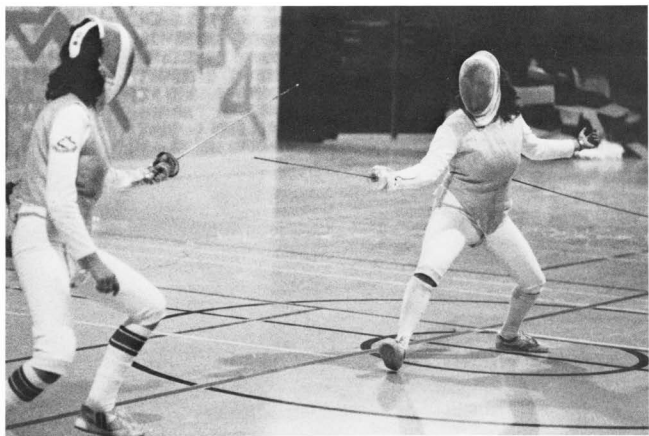

It's taken forever to get it and now that we have it, the Dalplex will soon be taken for granted. The Olympic-size swimming pool, the massive field house and that roof will soon be ho hum. For the present we can compare with what we had and rejoice. Now if they could only fix the lights ...

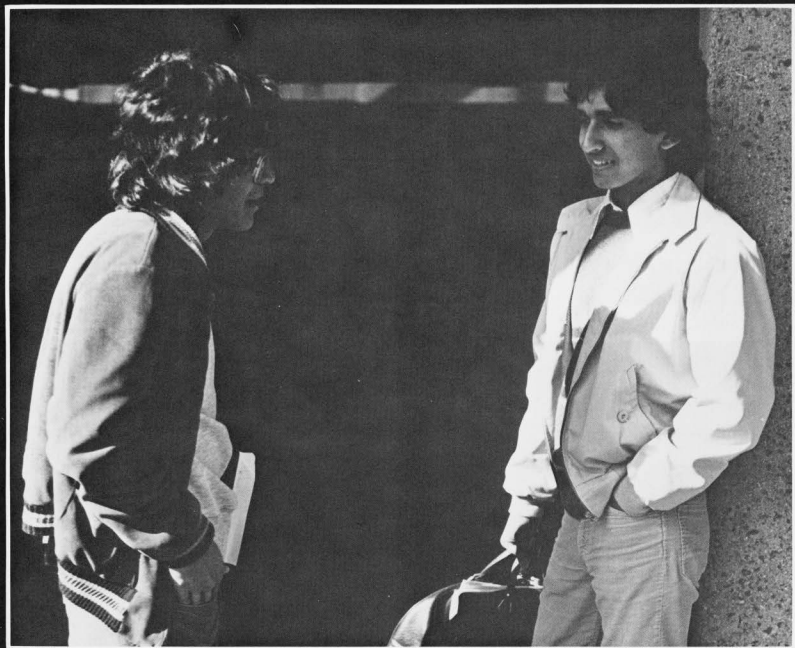

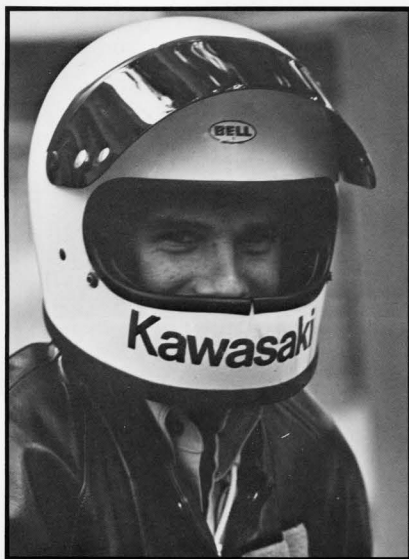

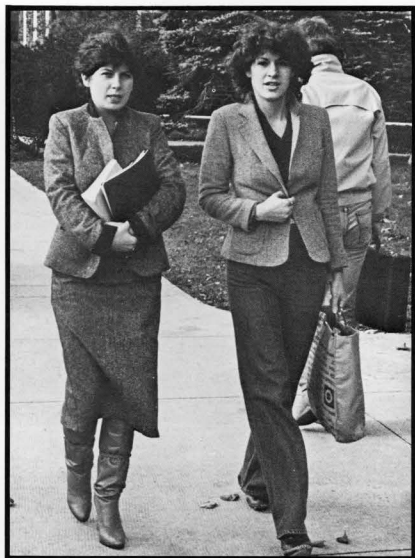

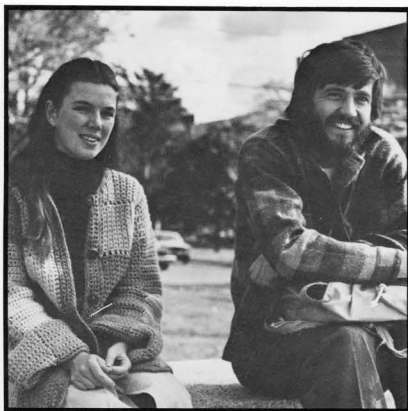

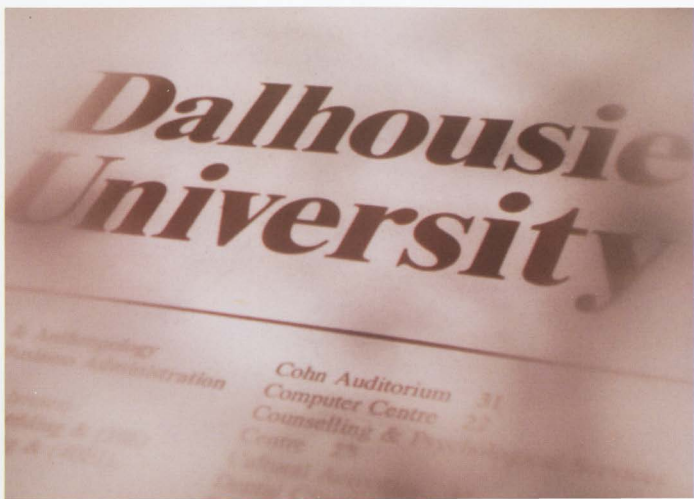

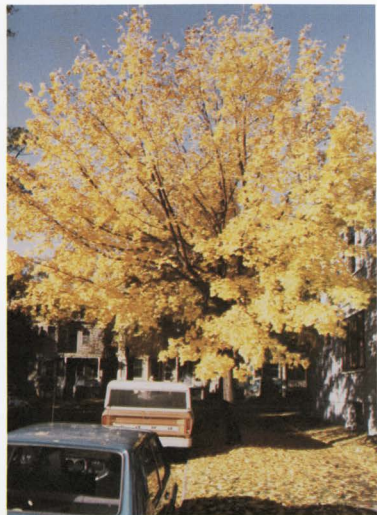

Fall on Campus

Fall Sports

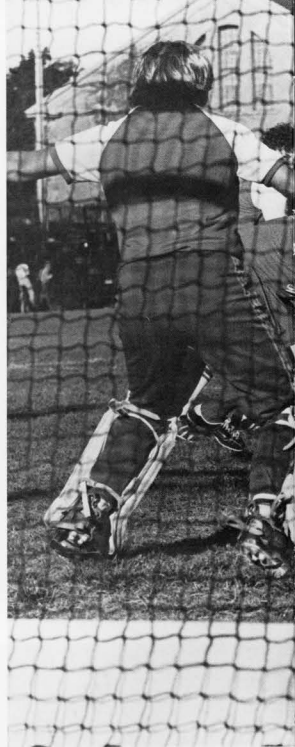

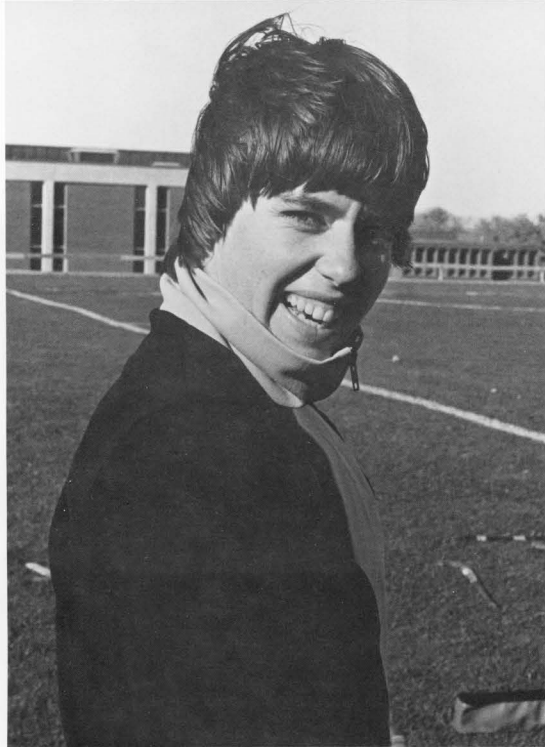

## A Winning Team

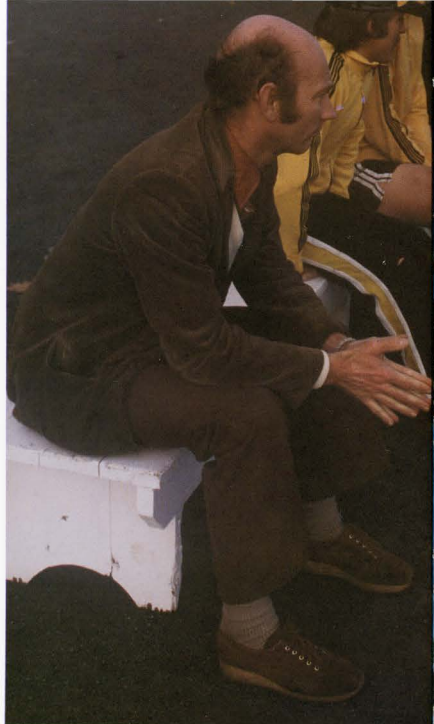

The women's field hockey team proved to be one of Dalhousie's best. A team that started without any proven scoring ability relied on a defense that allowed only three goals all year in AUA play. Brenda Ogilvie, Erin O'Brien, Pam Taylor, Mary Delmas, and especially, rookie coach Nancy Tokaryk, led this Tiger squad to an undefeated season and a berth in the National Championships in Victoria. A great team and a great season!

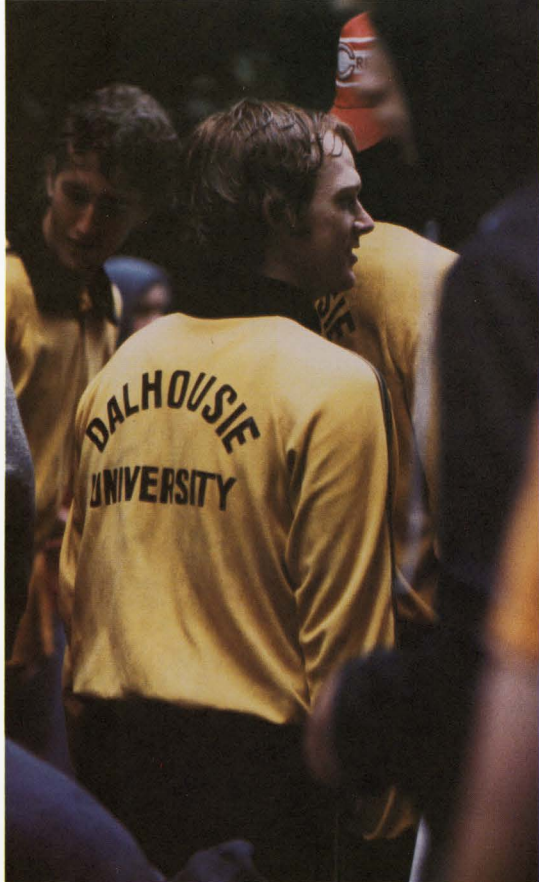

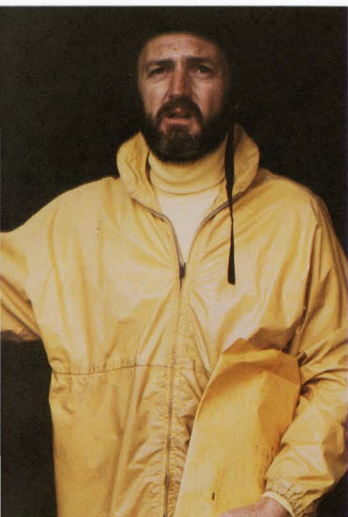

The soccer team was troubled all year with injuries. Several players were hurt seriously enough to end their season prematurely. Still, with a patched up squad led by All-Canadian, Dave Riddell, coach Tony Richards led the team into the AUA play-offs.

## Tigers on the Field

## Running for First

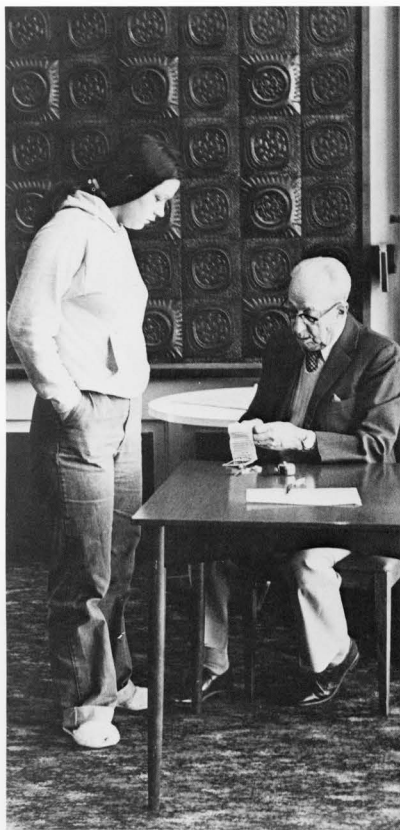

Cross-Country this year seemed mainly to take place in a rainstorm. That sailor in the sou'wester is none other than coach Al Yarr who had his teams win the men's and women's AUA championship this year. Both squads were strong, the men being led again by Robert Englehutt and the women by Pam Currie.

## Student's Council

Tact, reasonable adult dialogue, intelligent questions and answers; all were missing from our students' council as they all scrambled to be first to the House of Commons. Seriously, there were council members who cared and cared deeply about the problems their fellow students faced. They attempted to find solutions with the limited resources available. For these councilors Pharos says thank you and for the others, welcome to Parliament Hill.

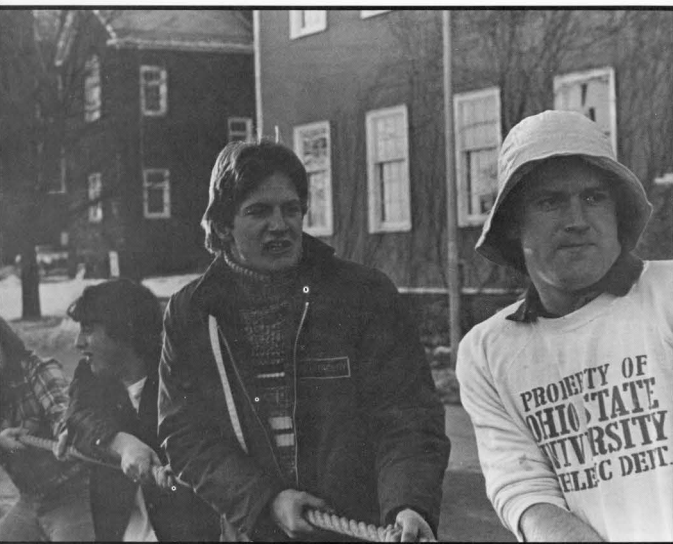

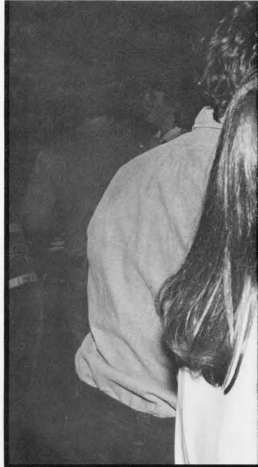

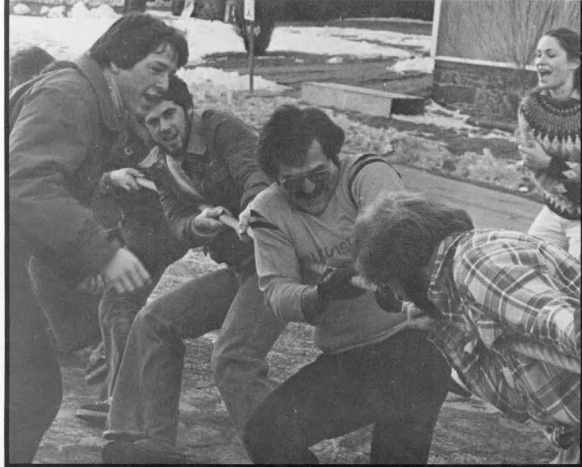

**Flake Out '80**

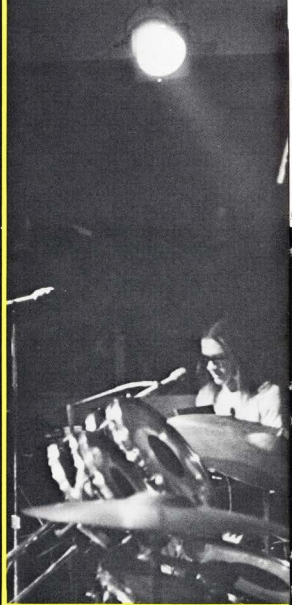

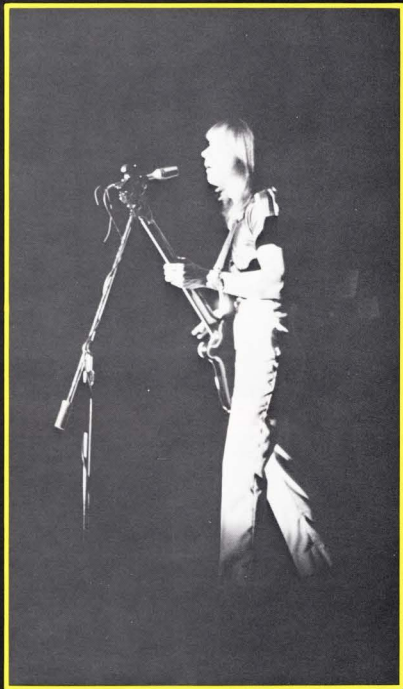

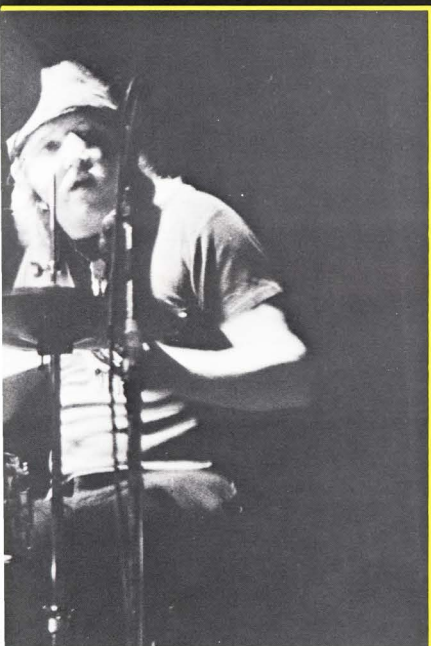

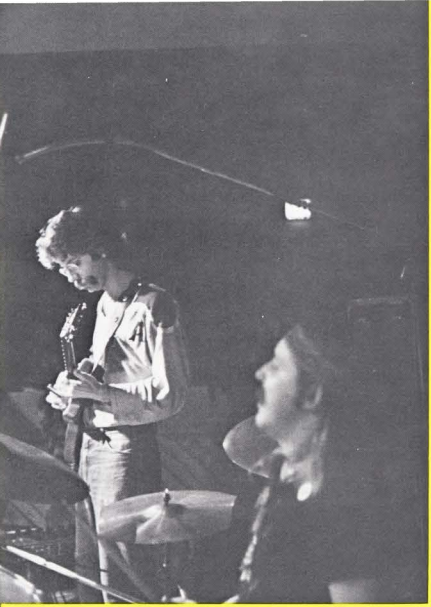

Almost a week of craziness overtook campus during this year's winter carnival. Flake Out '80 included something for everyone. There was the Rocky Horror Picture Show for the lunatics, a tug-of-war for the musclebound, the usual Super Sub for rowdies, plus countless other hilarities. The lack of the annual 'beer bash' had little effect upon the well coordinated efforts of both Chris Tilley and Kevin Feindel. Thanks!

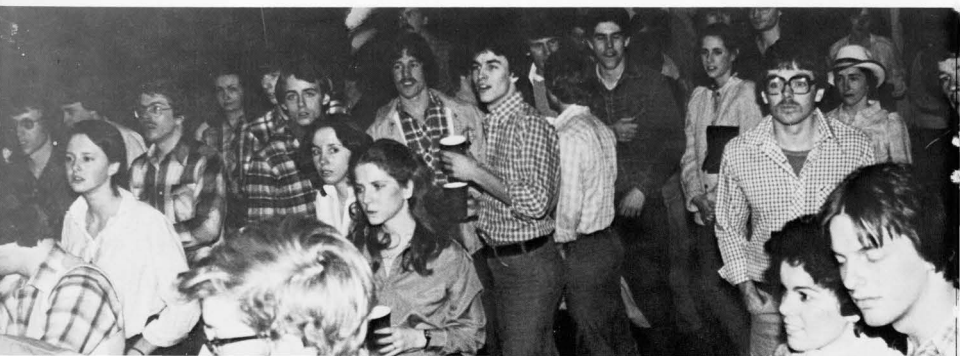

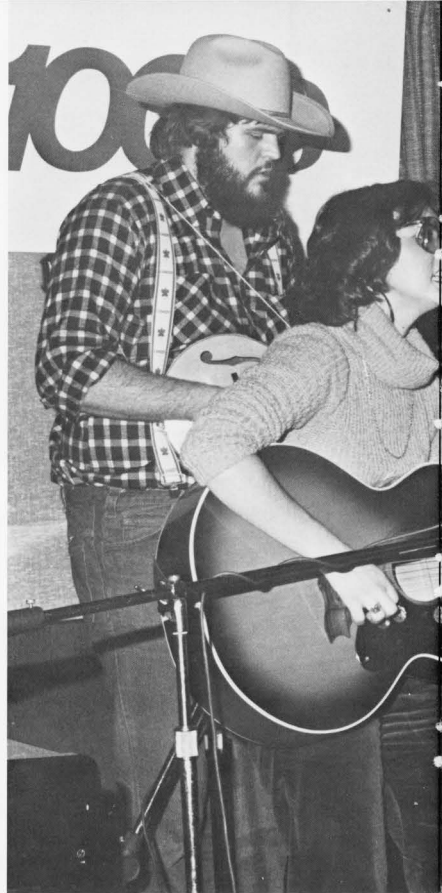

The Super Sub was again quite popular. Hundreds of fine up-standing students in various stages of intoxication, gathered together for a gigantic seige upon the Student Union Building to partake in the festivities. All present, providing they were coherent, saw The Jarvis Bennoit Band, Buddy and the Boys, and Ariel. Everyone staggered home happily.

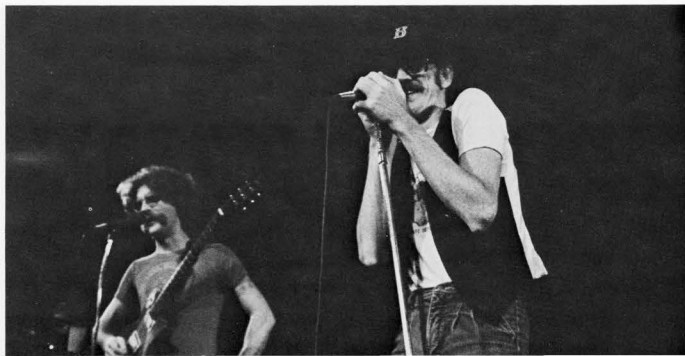

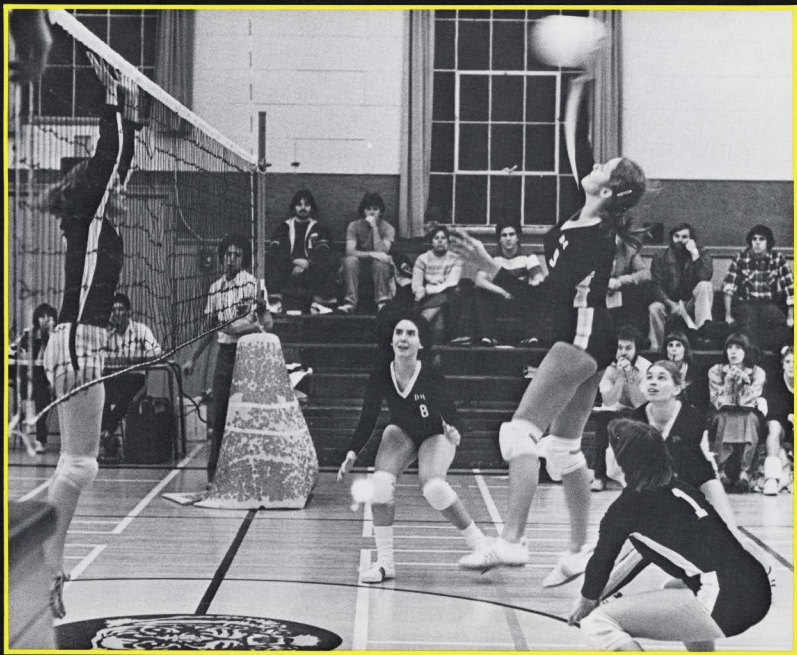

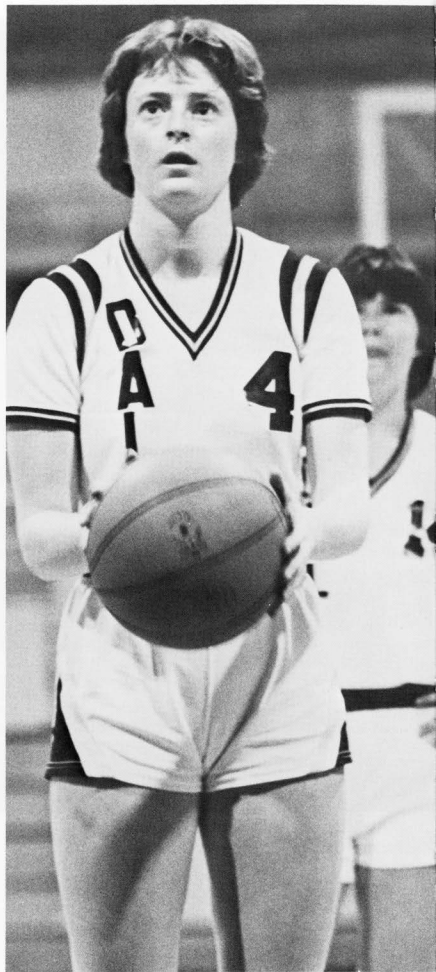

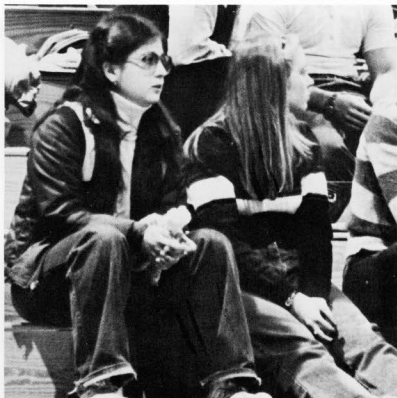

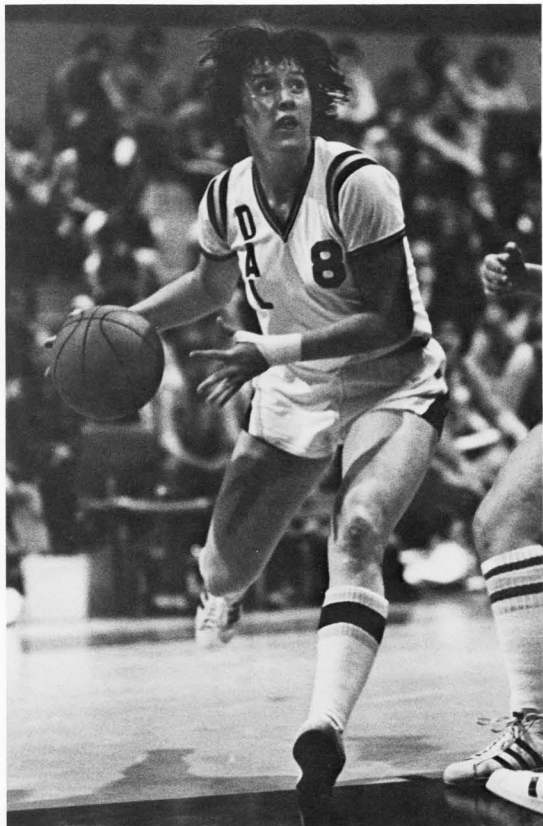

# Winter Sports

## Tigers on Court

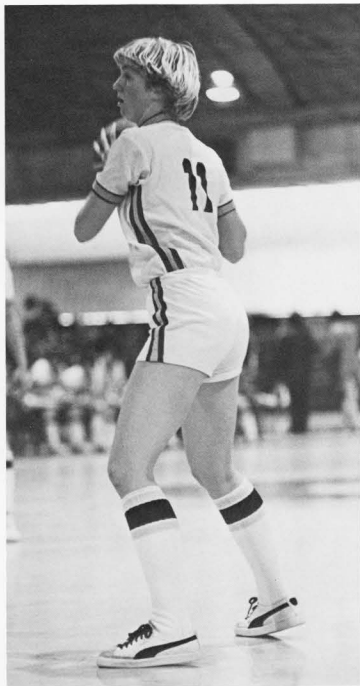

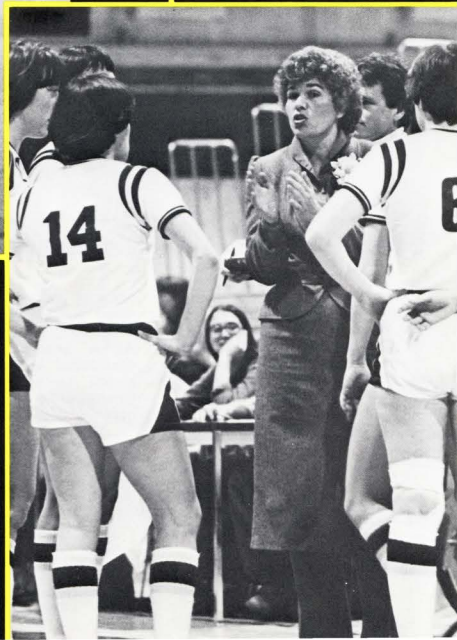

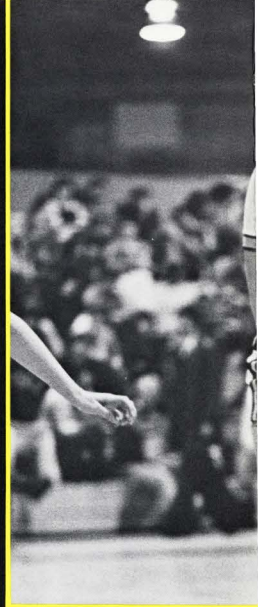

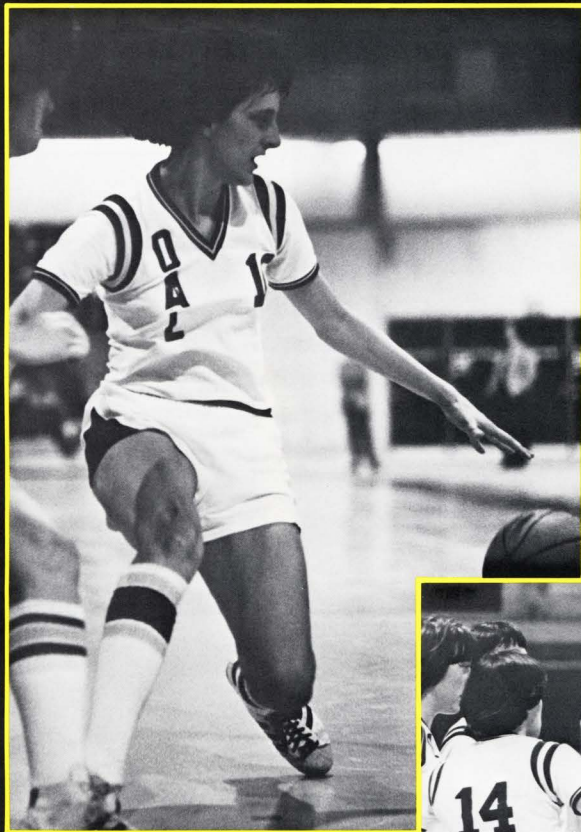

The team that stole our hearts. What a year the women had. First the AUSA Championship, defeating the UNB women's team, 77-54. Next they advanced to the final game of the CIAU National Championship against the University of Victoria.

This team played an exciting,

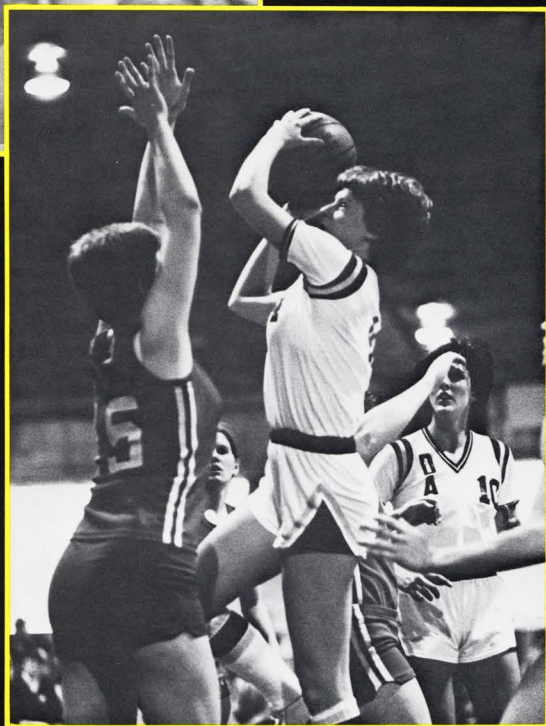

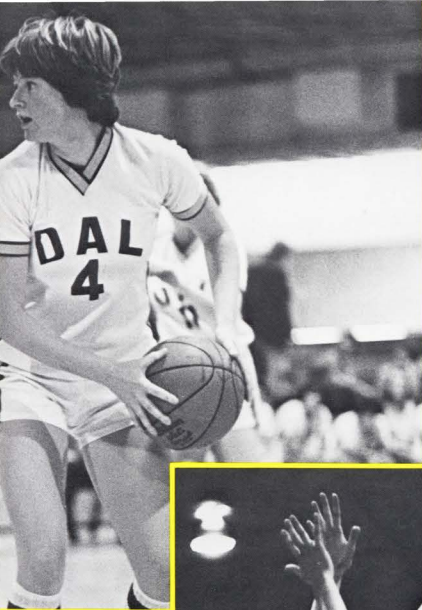

winning kind of basketball, and under coach Carolyn Savoy went undefeated during the regular AUSA season. Many factors contributed to this championship record but none more than the determination of the team members.

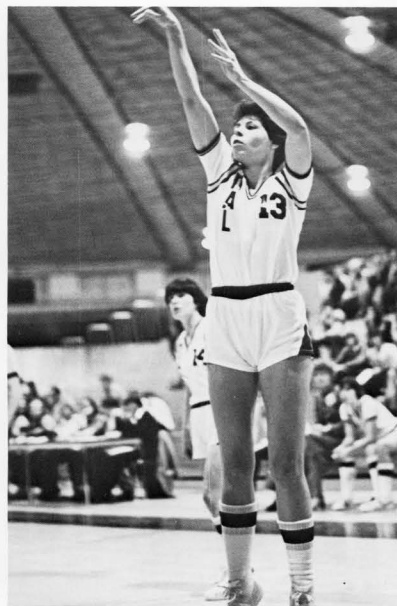

Anne Lindsay, the sure one, overpowered opponents with her leadership abilities and her jump shot. During one game earlier in the year, she even shot 100% from the floor, 12 shots out of 12. To round out an unbelievable year, Anne was voted to the AUA and CIAU All-Star squads.

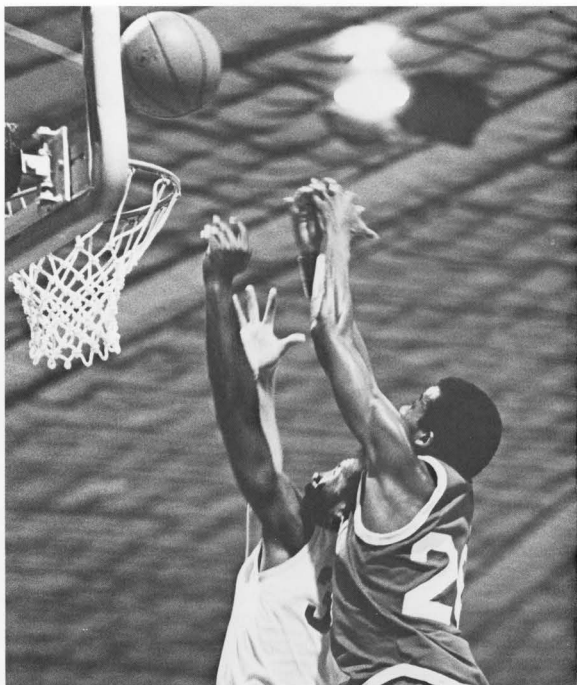

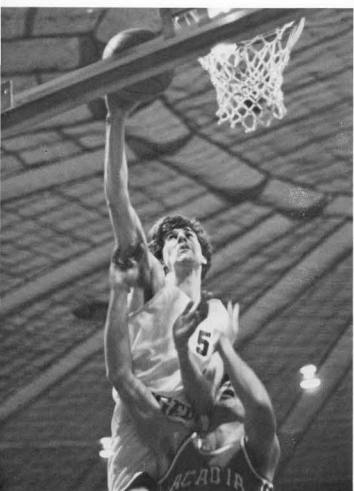

Another AUA All-Star, Carol Rosenthal provided a fine outside shot and good running ability. Anna Pendergast, Jill Tasker, and Anne Murray, provided excellent power on the boards at both ends of the court. Patti Langille amazed all who saw her. Spin, turn, dribble the ball behind her back, through her legs, or whatever it took to bring the ball up court.

Rounding out the team were subs: Andrea Rushton, sidelined most of the year with a knee injury, Chris Buckle, an inspiration to the team and the player who was lifted on her teammates shoulders in order to cut down the net after their victory over UNB.

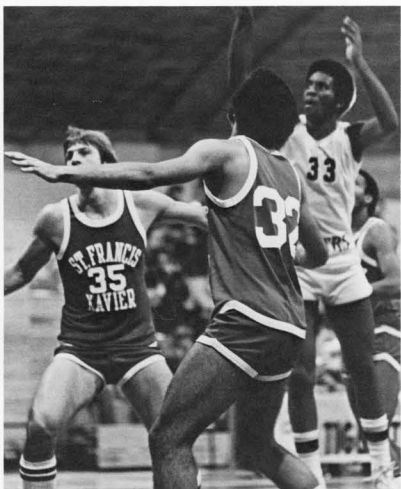

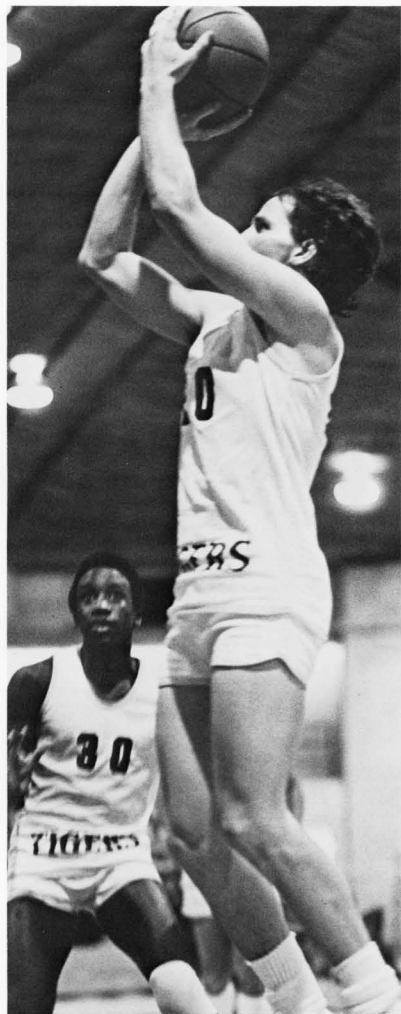

To all who participated, thank you.

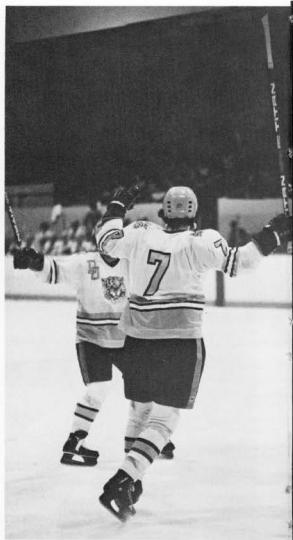

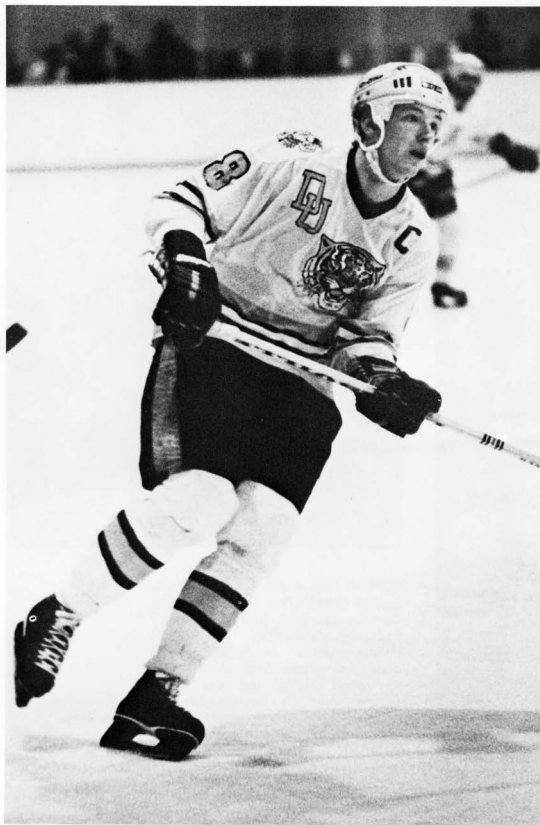

# Men's Basketball

1979-80 was a rebuilding year for rookie coach Doc Ryan. A team that in the past had been badly hurt by dissension, found itself under Doc's leadership and displayed effort and ability that developed through the year. 1980-81 promises to be an exciting season for Dalhousie Basketball and we're all looking forward to it.

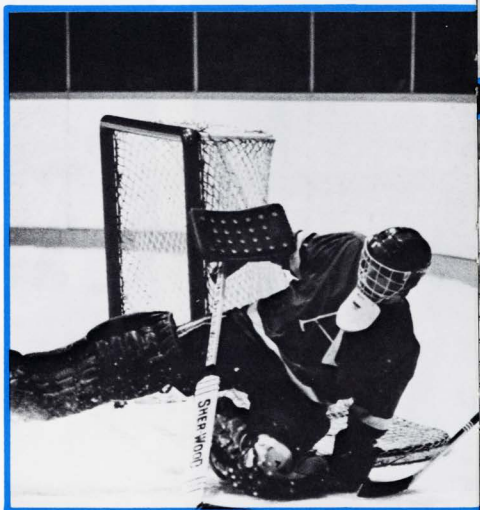

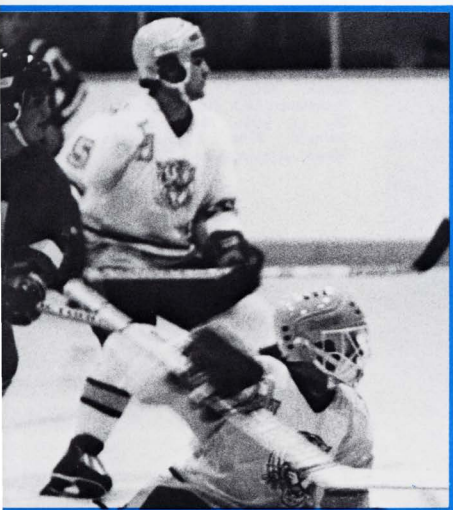

# Tigers on Ice

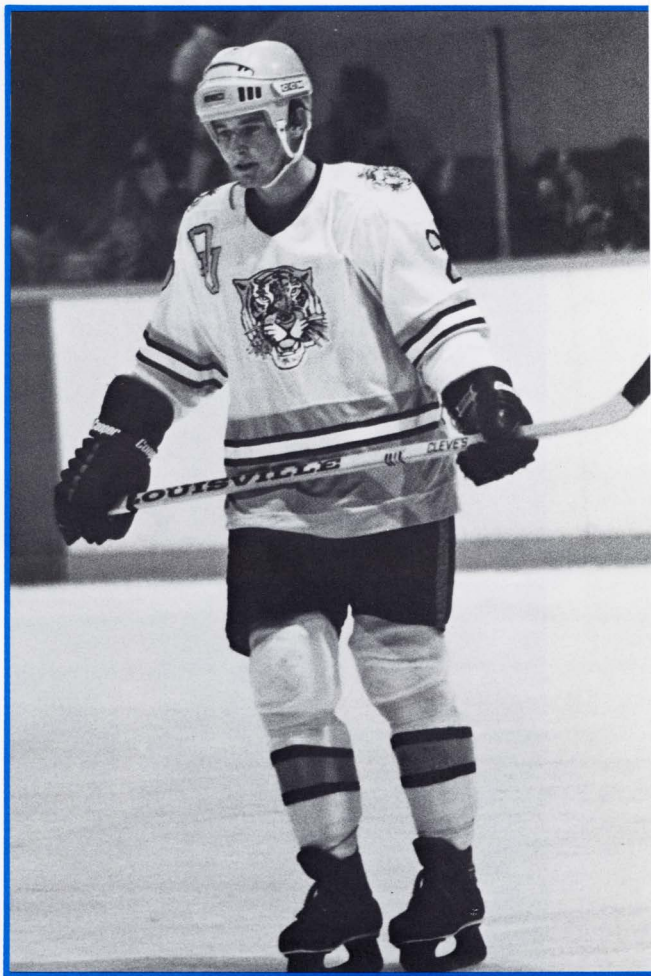

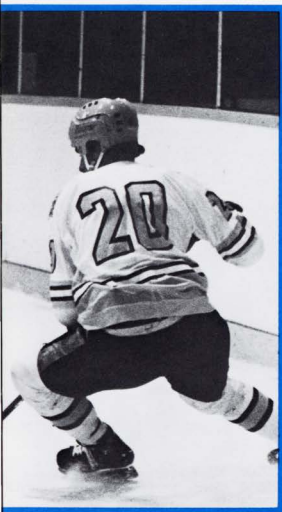

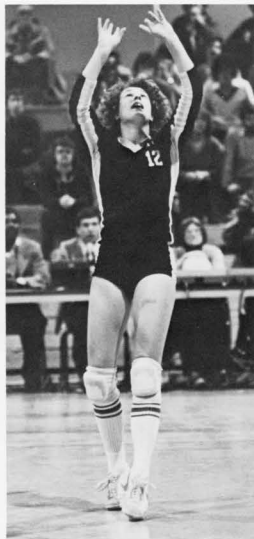

The 1979-80 edition of the Dalhousie Hockey Tigers was another bright spot in Dal's sports year. Excellent coaching by Pierre Page led the team to second place in the AUA's and we'd like to thank: Bicky, Black Bart, Buckethead, Dish, Fire, Gingersnap, Guy La, Jimbo, Porky, Starchy, Stringer, Sumo, Twinks, The Wizard, Ziggy and Zorro.

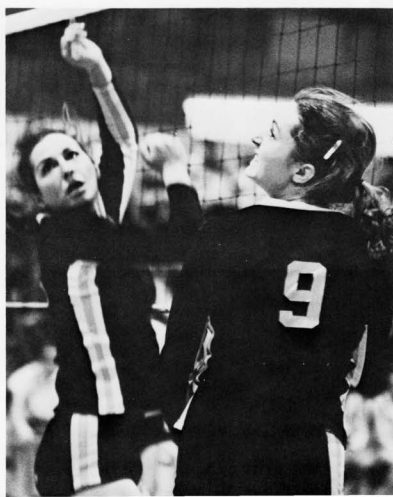

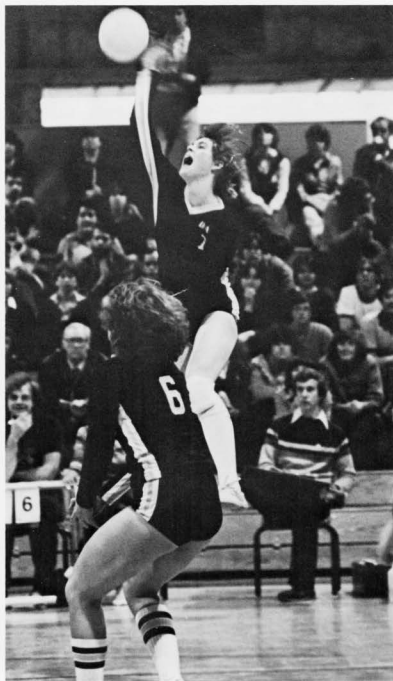

# Women's Volleyball

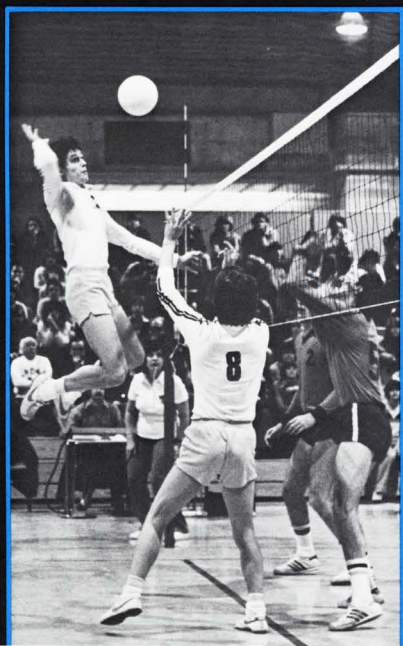

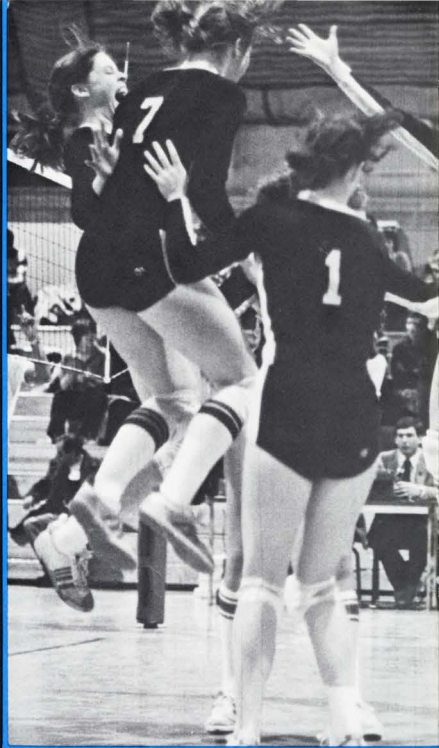

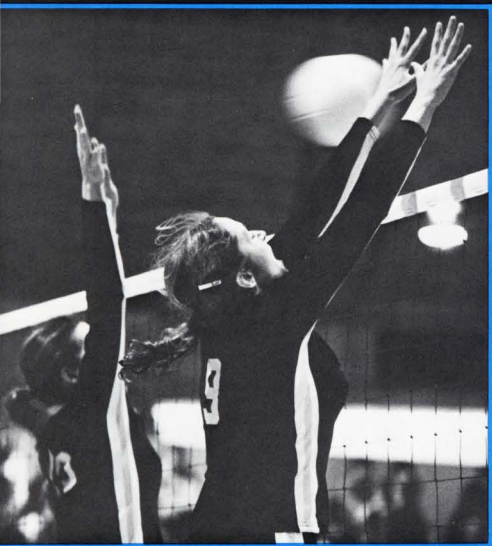

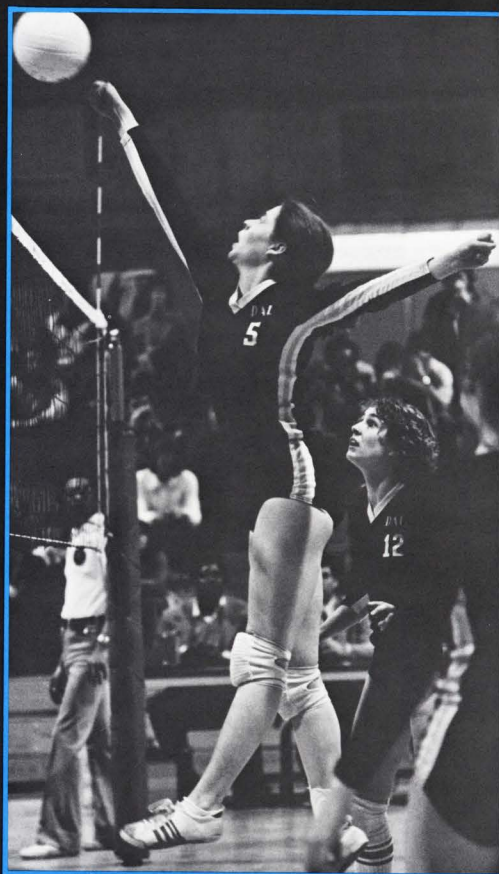

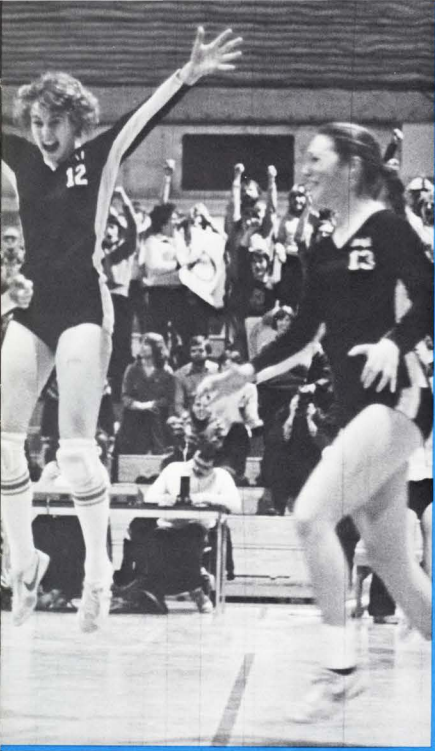

The 1979-80 edition of women's Volleyball was surely the most talented in years. Led by National Team members Karin Maessen and Karen Fraser, the Tigers clinched the AUSA crown despite a terrific effort by Memorial University in the finals. A team that was supposed to win, the women fulfilled their promise and kept to their destiny.

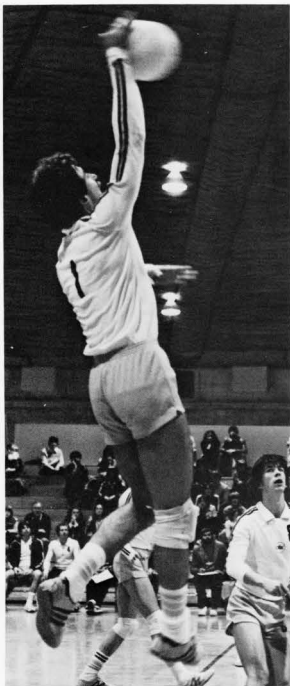

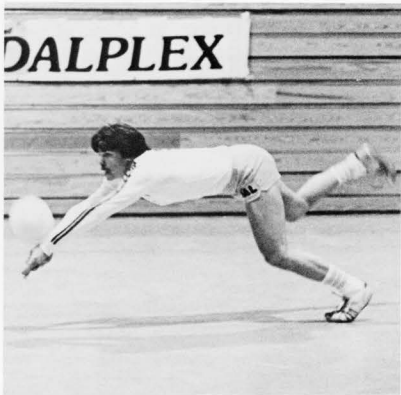

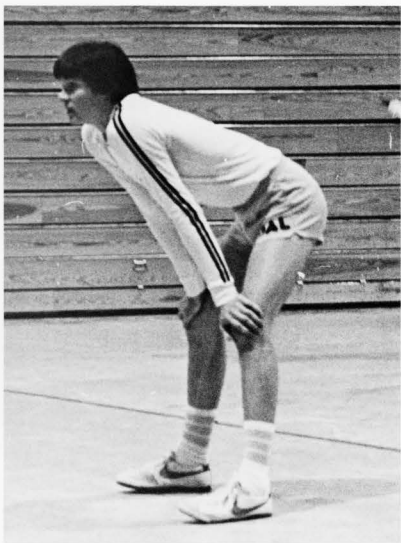

# Men's Volleyball

The difference between this year's team and last year's was the return of AUSA All-Star, Jan Prsala and the work of AUSA Coach of the Year, Al Scott. The team, in an absolute upset, defeated UNB and Universite de Moncton to capture the AUSA championship.

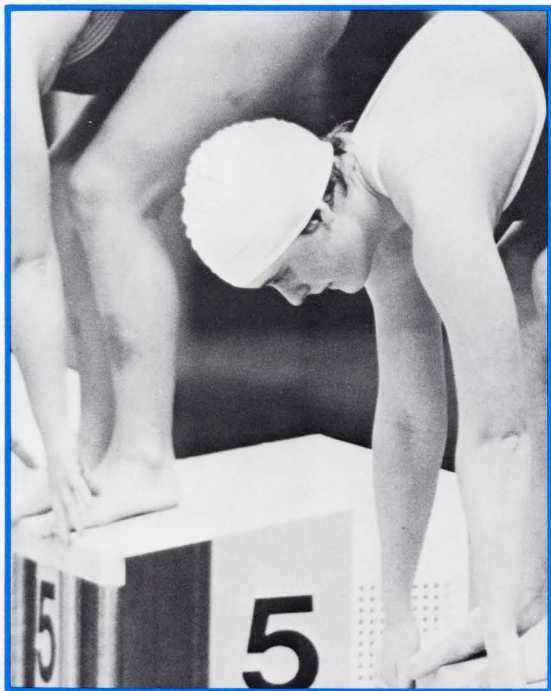

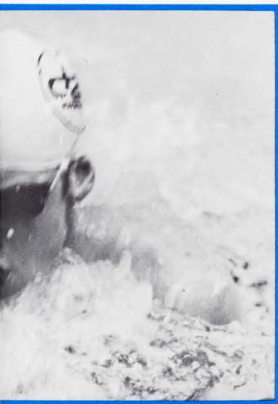

# Dalhousie Swimming

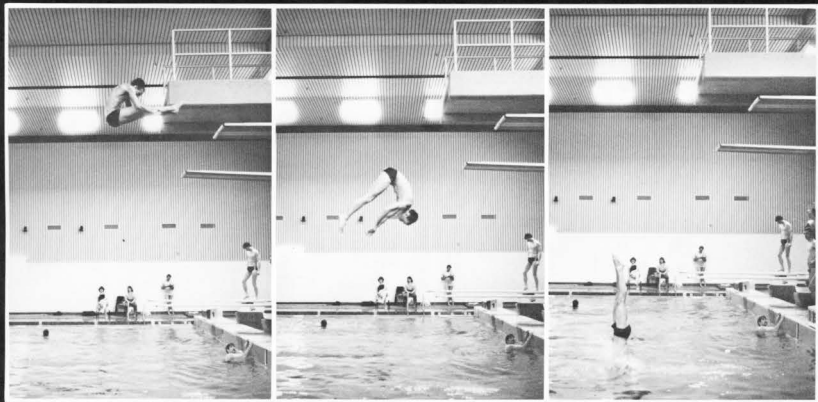

It was an exceptionally good year for swimming as the Dalplex pool opened, the men's team won the AUSA Championship, and the women defeated an Acadia women's squad for the first time ever. Inspiration and superb coaching came from CIAU Swimming Coach of the Year, Nigel Kemp, and his swimmers made us all proud.

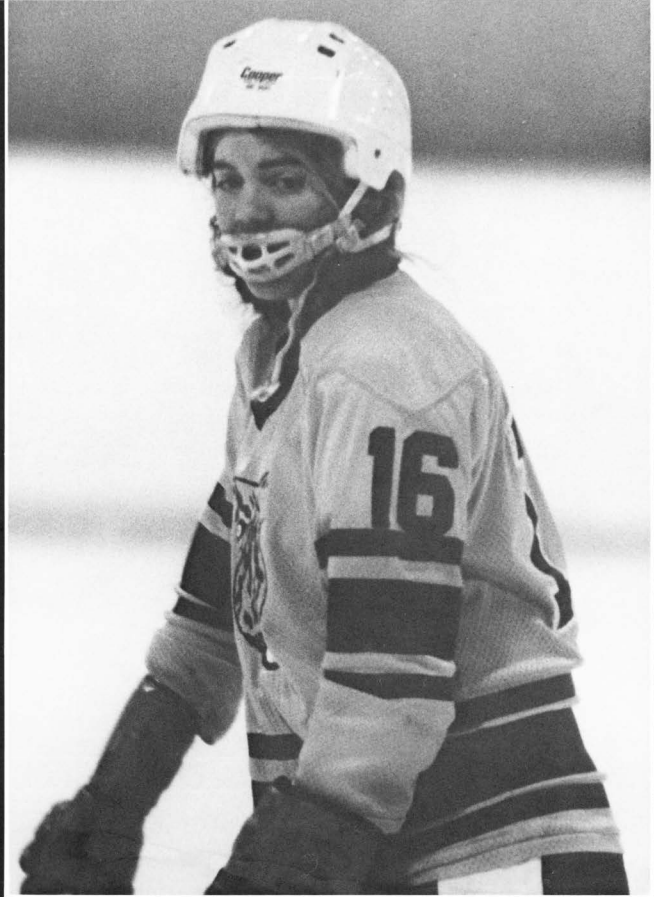

Along with swimming this year, the Dalhousie Diving Team won the AUSA Championship. This was the first year of varsity diving and with talent such as Marcel Arsenault and Tracy Willar, this AUSA crown won't be Dal's last.

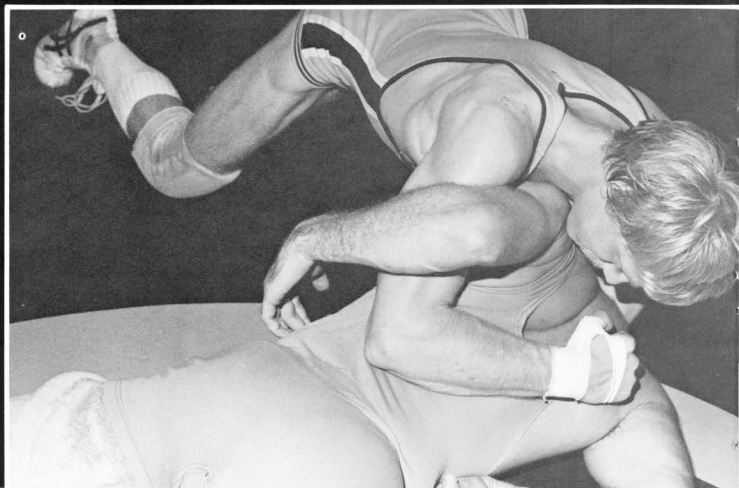

# Women's Ice Hockey

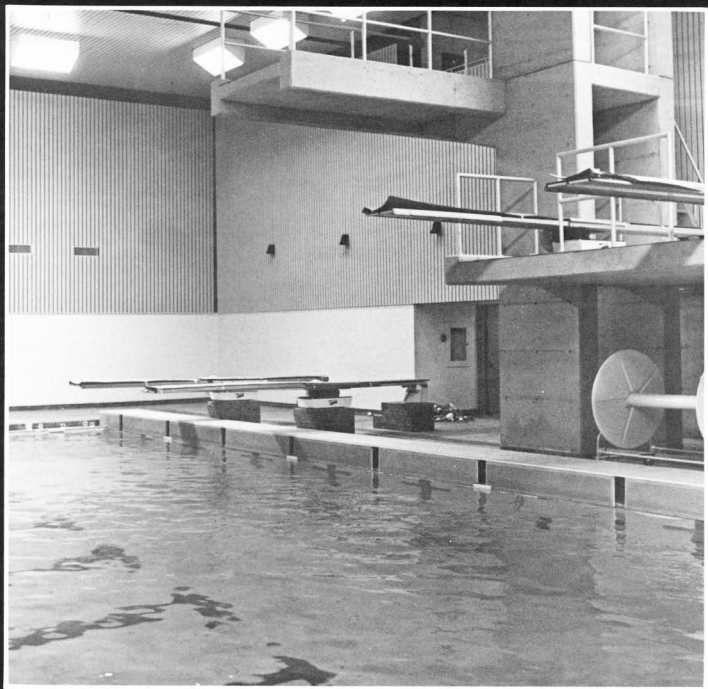

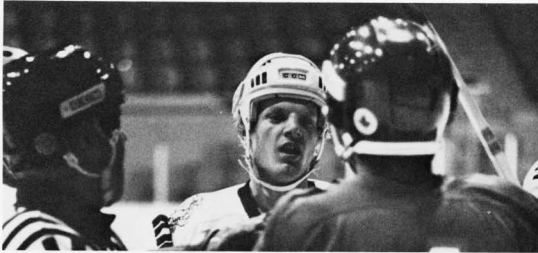

Although still a Club Team, the women's Hockey squad competed with all the spirit and intensity any AUSA team could possess. It is unfortunate that women's athletics are still not given the same status as men's, but the situation is changing led by women such as these.

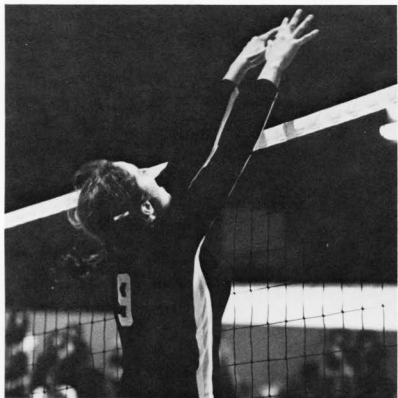

# Sports Recap

"Poor Dal", "bunch of losers", "too bad", "there's always next year", etc., etc., yeah, right. It's all a lie. Dalhousie won, get this, 13 out of 24 AUSA championships. For the record they are: Women's Badminton, Mixed Badminton, Women's Basketball, Women's Cross Country, Women's Curling, Women's Field Hockey, Men's Swimming, and Diving, Women's Swimming and Diving, Men's Tennis, Women's Tennis, Men's Track and Field, Women's Track and Field, Men's Volleyball and finally, Women's Volleyball. We didn't win Men's Hockey, Basketball, or Football but we didn't pay anyone to compete for Dal either.

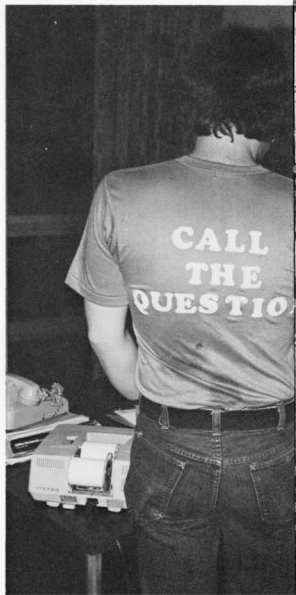

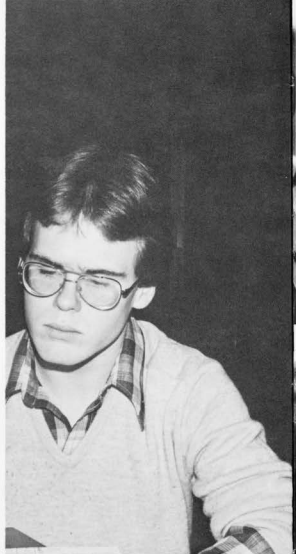

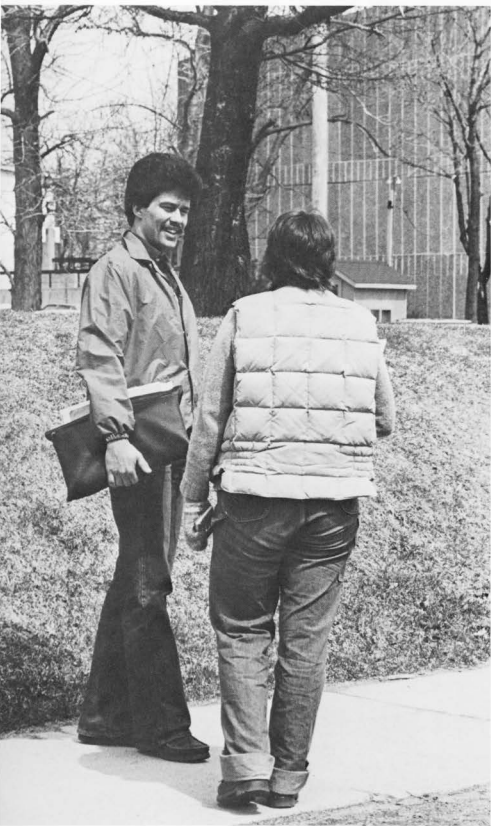

# Election '80

You wouldn't exactly call it a horse race but none the less there were two teams 'battling it out' for those coveted positions of President and Vice-President. Notice how Pharos had the foresight to cover only the winners on election night.

## The Final Test

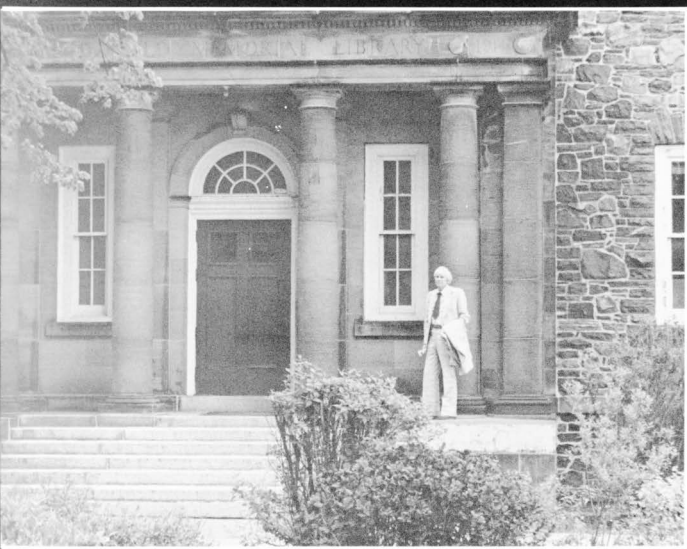

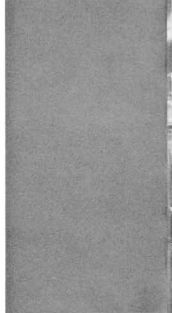

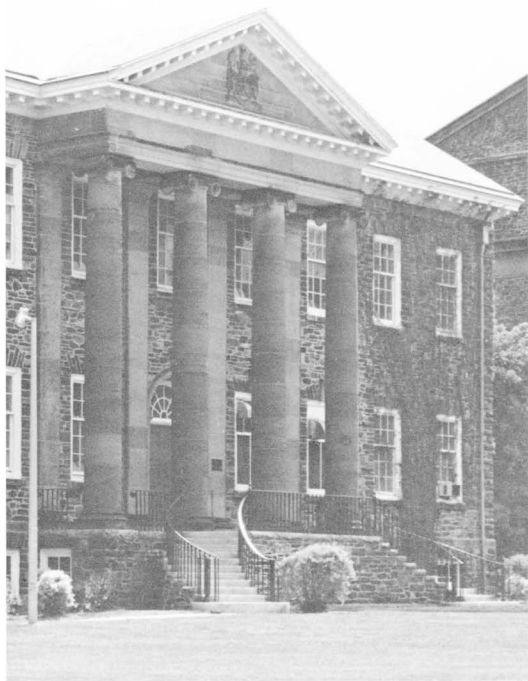

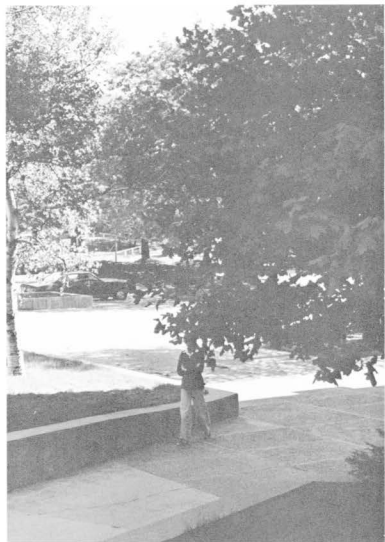

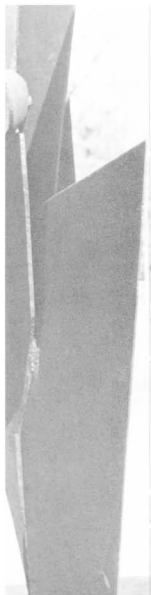

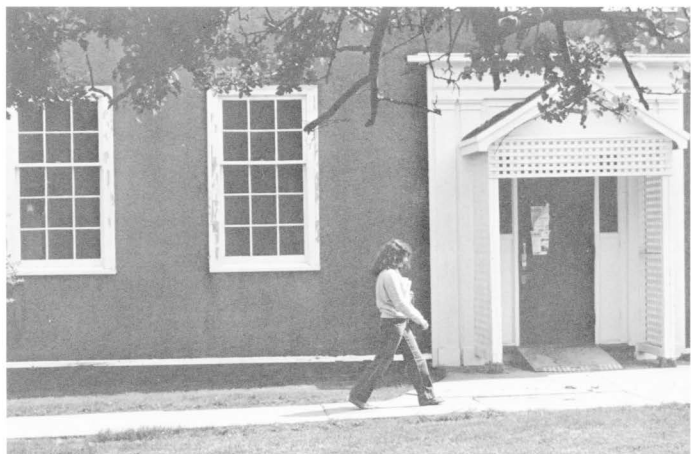

Spring!

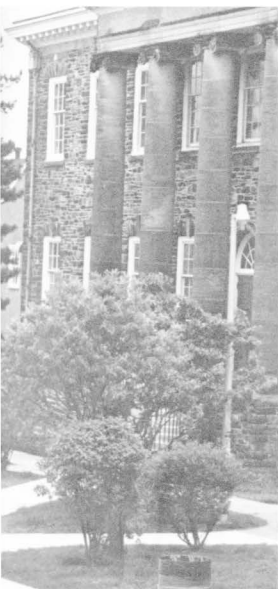

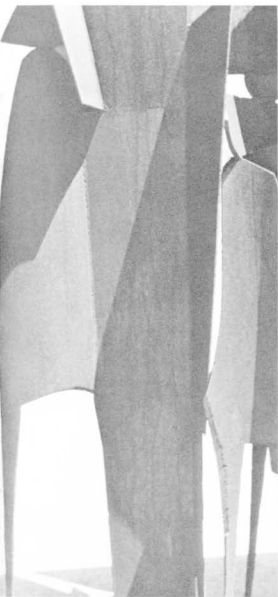

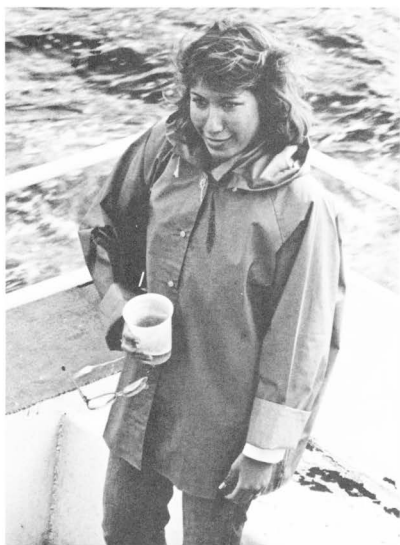

## Boat Trip!

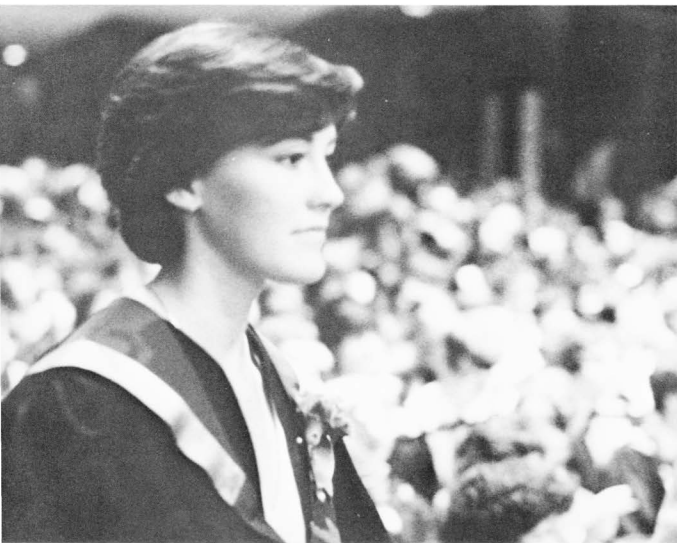

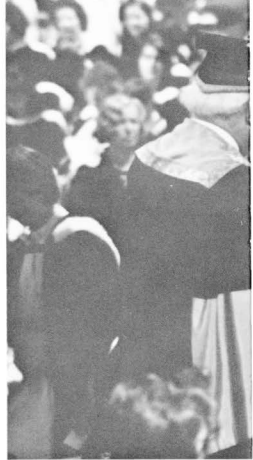

Well, when we're finally leaving we get a tour of Halifax. But doing things "not necessarily in this order" is natural for Dal. For some of us it would be the last time we'd see these fellow Dalhousians and the people, as usual, made the trip worthwhile.

A line-art illustration depicting various aspects of food service. In the center, a large man's face is shown with a thoughtful expression. To his left, a person is riding a bicycle. To his right, a person is performing a basketball jump shot. Below the central face, a woman is talking on a mobile phone. In the foreground, a large cup with the 'Major Foods' logo is prominent. To the right of the cup, a person is working at a counter, and another person is sitting at a desk with a computer. The illustration is composed of simple black outlines on a white background.

# Coal Power.

Nova Scotia coal has become an increasingly significant factor in our efforts to reduce our dependence on imported oil.

In October of 1979 the first coal-fired generating unit at Lingan became operational. The second unit will begin production this fall. Together, these units will require 800,000 tons of Cape Breton coal annually.

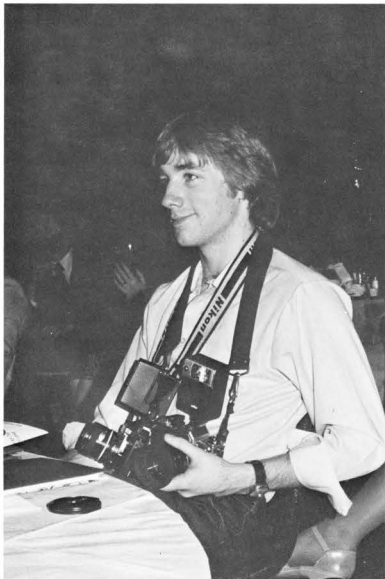

This use of 'coal power' (which will replace more than 3 million barrels of oil each year) is but one indication of the Corporation's realistic approach to the problem of reducing our reliance on offshore oil.

## Pharos Staff

You've worked hard to achieve your present standing. This yearbook is a record of your beginning in life; something we hope you will save until the end when you can look upon it with fond memories.

The staff at Pharos have also worked hard this past year in order that we may produce this book for you. I ask that you treat this book with care throughout the years to come. Like fine wines and cheese, you'll find that a yearbook becomes better with age.

In a book of this scope, errors will inevitably occur. I apologize for any mistakes that are made where you are concerned and hope that you will take into consideration the fact that we are a volunteer staff doing the best we can do.

Lauren Schagen,  
Editor

These are the people that helped produce this book.
