It is with deep regret that this issue of the ALUMNI NEWS goes to press, regret that it has lost the editor who served it so well for the past number of years, W. Graham Allen having severed his connection with the university to take up other duties. The thanks of the Association are due him for his work in assuming the editorship of the NEWS in the midst of his many other duties. His departure meantime has left a vacuum difficult to fill. Alumni will, we hope, bend a kindly eye on these pages, as a successor has not yet been found and this issue is being prepared minus the competent pen and wide knowledge of Mr. Allen.

*Deceased

DUNN FOUNDATION GIFT

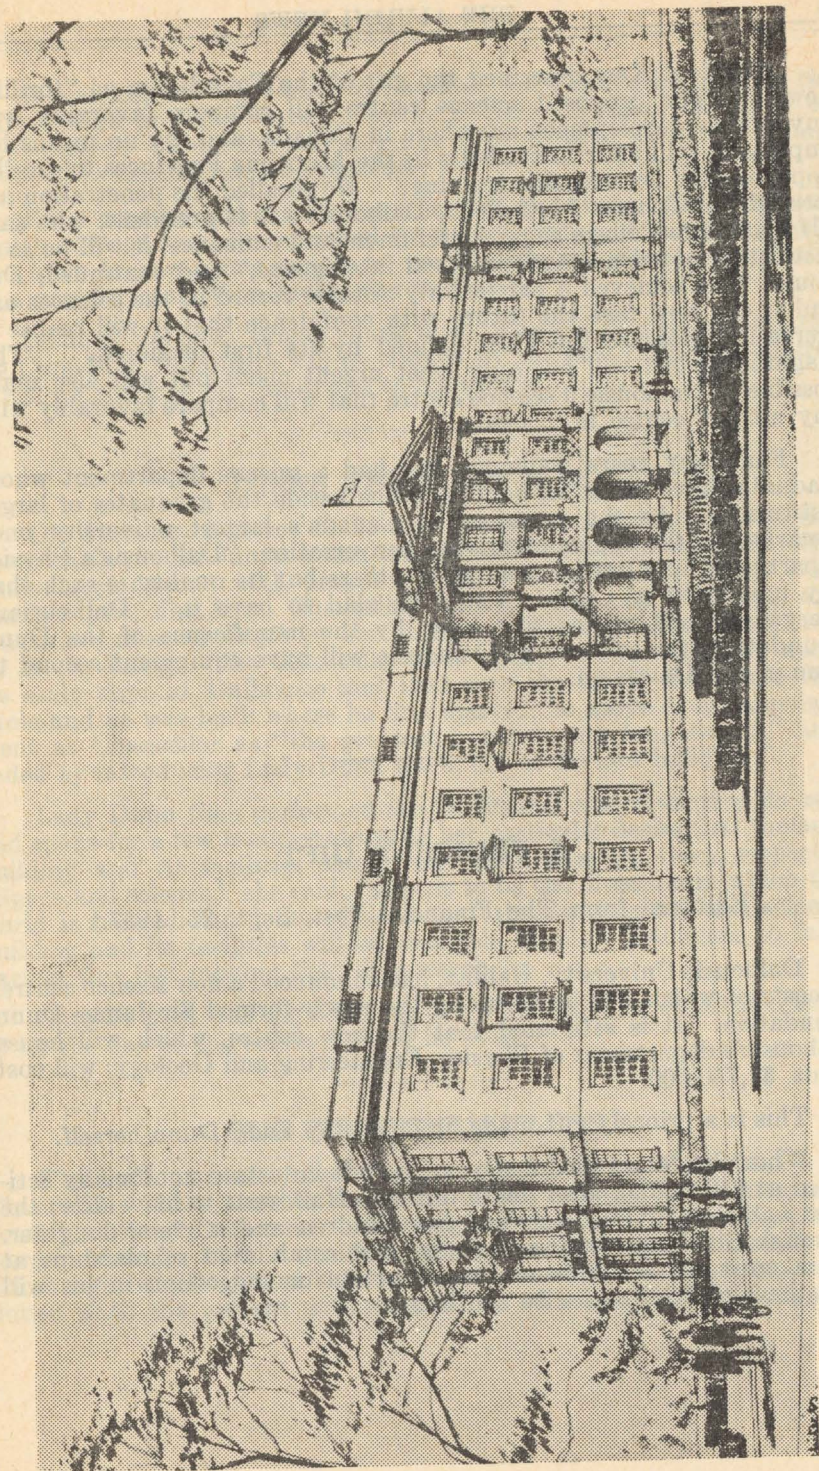

The announcement by Dalhousie's Chancellor, the Rt. Hon. C. D. Howe, P.C., LL.D., of the gift of a science building to Dalhousie, which will cost approximately \$1,750,000, donated by the Sir James Dunn Foundation, is the largest single gift ever made to the university. It will be located on the Studley campus and will house the three departments of Physics, Engineering and Geology. The building is being designed by the Toronto architects, Mathers and Haldenby, and will incorporate facilities specified by the Dalhousie Board.

SIR JAMES DUNN

Sir James Dunn, Bart., graduated from Dalhousie Law School in 1898, later was given the honorary degree of LL.D., by his alma mater, was a member of its Board of Governors, and was at one time Honorary President of Dalhousie's Alumni Association. After his graduation, Sir James practiced law in Nova Scotia, the West, Quebec and Ottawa, and distinguished himself in the world of finance in London and at home in Canada. During the first war he was knighted for the valuable services he had given. Now, not only by his previous gifts to the university, but by this last magnificent gift, his name will be perpetuated for all time to come on the campus of his alma mater.

"This gift of the Foundation," said Brigadier Laing, Chairman of the Board of Governors, "has never been equalled in magnitude in the experience of Dalhousie, and seldom if ever equalled in the experience of any other Canadian university. It will provide Dalhousie with facilities to undertake a programme of education and research in the physical sciences that has hitherto been beyond its powers. The preparation of architectural plans for the Sir James Dunn Science Building will be proceeded with at once, and tenders will be called for in the usual manner. It is estimated that the time required for the completion of the building will be at least a year and a half after construction commences, which will presumably be in the spring of 1958."

NEW SCIENCE BUILDING

President Kerr described the gift of the Foundation as "thrilling news." "The proposed science centre will compare favorably with any similar development anywhere in Canada, and, by no means less important, will offer to students in the Maritime Provinces unexcelled opportunities for scientific training." He recalled the penetration and foresight of Thomas McCulloch, Dalhousie's first president, who said, "If Dalhousie College acquire usefulness and eminence, it will be as an institution of science and practical intelligence," and continued, Dalhousie "has achieved a particularly notable record in the sciences and and it can now face the future with confidence that it will realise in increasing measure the ideal defined by its first president." "This magnificent gift will not only meet urgent needs but will also make possible at Dalhousie a science centre that will compare favorably with any similar centre in Canada."

For many years Dalhousie has had a science department whose graduates have taken an honored place beside the graduates of larger institutions. As the president of Canada's largest university once remarked in the course of private conversation, "Dalhousie's Physics department may not be as large as others but its quality is such that any university in Canada would be glad to have it." Dalhousians everywhere will rejoice that now, by the munificence of the Dunn Foundation, the sciences at Dalhousie will have equipment second to none in the Dominion.

A PRINCELY GIFT

(Editorial from The Financial Post, Sept. 25, 1957.)

Dalhousie University, Halifax, has announced a new science centre, all costs of which will be borne by the newly-formed Sir James Dunn Foundation. It is estimated that the new centre, which will house Dalhousie's department of Physics, Engineering and Geology, will cost about \$1,750,000.

This is a princely gift made, in effect, by Lady Dunn herself.

When Sir James died last year, he left an estate unofficially estimated at \$40 million after death duties. Half went to his widow; the other half was divided between five children and a grand-daughter. Although Sir James endowed chairs and established scholarships at several universities, there was no direction or suggestion in his will that these philanthropies be continued.

It was Lady Dunn's idea to establish the Foundation and its resources were provided entirely by her. An over-riding objective of its operations will be the carrying out of projects in which Sir James would have taken pride and pleasure.

For a century and a half, Canadian life and that of the Commonwealth at large has been enriched by the versatile and talented people who have been a prime export of the Maritimes. Such a one, built on a grander scale than most, was Sir James.

Some of the new "bright young men" who will deepen and enlarge the Canada of the future will be trained by the new Dalhousie centre. It will do honor to Sir James and to his widow.

URNS THE FIRST SOD

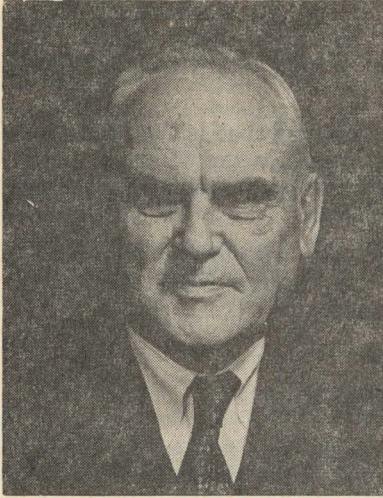

On Tuesday, October 29th, the first sod was turned on the site upon which the Sir James Dunn science building will be erected. The proceedings opened with prayer by the president after which Dalhousie's new, and first, Chancellor, the Rt. Hon. C. D. Howe, was introduced at some length by the chairman of the Board of Governors, H. D. V. Laing. The Chancellor then spoke briefly, touching upon his early days at Dalhousie and that now the wheel had come full circle and he was back where he first started, he spoke of his appointment as Chancellor as "the greatest honor in my long career," and ended by introducing Lady Dunn the donor of the new building.

Lady Dunn then performed the traditional rite of turning the sod and spoke for a few minutes stressing her particular desire that the new building and its facilities should be "first class in every respect." "Space and science," she said, "appear to be the direction in which the world is headed and I am pleased that the Sir James Dunn science building and its facilities will be available to allow Dalhousie to take part in this fast moving field of research."

October 29th was the birthday of Sir James, who would have been 83 on the day of the ceremony had he lived.

OUR FIRST CHANCELLOR

The appointment of the Rt. Hon. C. D. Howe, P.C., LL.D., as Chancellor, marks another milestone in the hundred and thirty-nine years history of Dalhousie. The original charter of Dalhousie made no provision for such a position. Patterned after the University of Edinburgh, which at that time had no Chancellor, Dalhousie has continued until the present without such an official. Meanwhile, years

RT. HON. C. D. HOWE

His work took him far and wide, among other, being at one time engaged by the Argentine as a special consultant in the building of their grain elevator system. The elevator at Fort William, constructed by his firm, is the largest in the world.

In 1935 Howe was elected to the Commons and entered the Dominion cabinet, in which he served in many capacities until the defeat of the government in 1957. His work at Ottawa needs no comment being already known from one end of Canada to the other. His seemingly inexhaustable energy, his forthright personality, his quick decisive judgment, and tremendous capacity for work, was a tower of strength to Canada, in particular, during the trying and anxious days of the war. Incidentally, during the war the ship in which he was sailing was torpedoed and he spent some trying hours in an open boat in the middle of the Atlantic.

It is but natural that his interest in Dalhousie should have been intimate and continuous, since it was here that he first mixed in Canadian life before becoming a Canadian citizen. It will be recalled that some years ago a number of his friends got together and endowed a chair at Dalhousie in his honor with an endowment of more than two hundred thousand dollars.

But Howe's interest in Nova Scotia dates farther back than even this as one of his forbears was a first cousin of the Hon. Joseph Howe, Nova Scotia's most illustrious son. On the other hand, with a foot in both camps, another family connection, was Julia Ward Howe, the author of "The Battle Hymn of the Republic."

ago, Edinburgh instituted the post of Chancellor and Dalhousie now tardily follows suit.

The new first Chancellor has had a long and intimate connection with Dalhousie. Massachusett's born, he came to Dalhousie as professor of Civil Engineering in 1908 after graduating from, and teaching for a year in, the Massachusett's Institute of Technology. After teaching in Halifax for five years, Howe left to become chief engineer of the Board of Grain Commissioners of Canada, where he remained for three years, after which he entered private practice, supervising the construction of grain elevators, pulp mills, coal docks and other heavy engineering structures, their value running to over a hundred million dollars.

With his keen insight, wide experience in business and administration, and his forthright personality, together with his long association with Dalhousie, the words of Principal Kerr, on Mr. Howe's acceptance of the position fitly express the general feeling of all Dalhousians, "It would be impossible to imagine a man better fitted for the Chancellorship."

LADY DUNN'S FURTHER GIFT

While public attention from coast to coast has been caught by the magnificent gift to Dalhousie by the Sir James Dunn Foundation, set up by Lady Dunn, of the new Science building soon to rise on the Studley campus, Dalhousians will deeply appreciate a further second gift by Lady Dunn, a gift of such nature that it will, perhaps, even more intimately associate Sir James with his alma mater.

Should a visitor go to Charlottetown, there, in the cradle of Confederation, he will proudly be shown the chair in which Sir John A. MacDonald sat at that momentous time; and in future years the visitor to Dalhousie will be proudly shown the desk at which Sir James used to sit, the bookcases in which he kept his records, and the wardrobe in which he hung his hat and coat. Lady Dunn has given to his alma mater the specially made suite of furniture which originally stood in Sir James' London office, and later in his office in the Sun Life Building, Montreal.

The suite consists of seven massive mahogany pieces which now adorn the offices of Dalhousie's president. These seven pieces are made up of two breakfront bookcases with cupboards beneath in mahogany, each eight feet three inches wide, two feet two inches deep, and seven feet nine inches high; two small glass and mahogany bookcases, each five feet five inches wide, twelve inches deep, and seven feet five inches high; two desks in mahogany and blue morocco, each six feet by four feet, and two feet seven inches high; and one small mahogany double-door wardrobe, three feet seven inches wide, one foot seven inches deep, and six feet five and one half inches high. While their intrinsic value is very considerable, their chief value in the eyes of Dalhousians will be because of their association with the man who used them.

SIDNEY EARLE SMITH

Of more than passing interest, not merely to Dalhousians but to the nation, was the selection made by the New Prime Minister to fill the most responsible post in his cabinet. With the resignation of the St. Laurent government and the vacating of the Department of External Affairs by the Hon. L. B. Pearson, where he had served with such acclaim, instanced more recently by the award to him of the Nobel

SIDNEY EARLE SMITH

succeed John E. Read, now a judge of the International Court, as Dean of the School. Here his indefatigable industry and warm personal interest in his students has never been forgotten.

After five years of rewarding work, in 1934 he was called from Dalhousie to the presidency of the University of Manitoba, at a time when the fortunes of that institution had sunk to a low ebb, the youngest university president in Canada. There he remained for ten years, during which time the university advanced rapidly under his administration. Such was his success that when the presidency of Canada's premier university was about to fall vacant, he was asked to assume the principalship of University College for a year, and to succeed to the presidency of the University of Toronto in the following year, 1954. He has served in that office notably for the past twelve years.

In all these positions, at Dalhousie, Osgoode Hall, Manitoba and Toronto, he has shown his capacity in administration and his skill in dealing with men. Now he has left the comparative quiet of academic life to be the voice of Canada in the confused tumult of the nations. It is a great leap into a field which tries men's souls, but to those who know his qualities of heart and mind, it would seem that the Prime Minister could not have made a happier choice.

The new Minister of External Affairs and his predecessor resemble one another in at least one respect. "Mike" Pearson's great work was not that of making speeches in the United Nations, gravely responsible

Prize, there was wide questioning and no little anxiety as to the choice of a successor. Who was there in sight qualified to step into "Mike" Pearson's shoes? When, to the general surprise, the President of the University of Toronto resigned to assume the vacant portfolio, there was a general feeling of satisfaction and relief.

Graduating in Arts from the University of King's College, "Sid," as in Dalhousie he is more popularly known, after serving for three years in the first world war, took his LL.B. at Dalhousie and then went on to Harvard, after which he returned to lecture for four years in the Law School. Next, from 1925 to 1929, he served on the staff of Osgoode Hall, returning in 1929 to

as that was, but his tireless work among the delegates, his quick mind always exploring a way to a solution and quietly winning support, so that the battle was already half won before it reached the formalities of the U.N. forum. And it is just here that "Sid" Smith is fitted to do most effective work, quietly, man to man, behind the scenes.

That he has already realized what the post demands is clear from his words describing the U.N., not as a body launching decrees or else,—for that it is not, but as a body of "multi-lateral" diplomacy or negotiation, and that is exactly the sphere in which the qualities of the new Minister should make themselves felt.

No one will expect too much of any man in this all important post, since any man's work is conditioned by the world circumstances in which he finds himself, but the Hon. S. E. Smith, Q.C., D.C.L., LL.D., has precisely those qualities of head and heart which make for effective work among his fellows. Throughout Canada, and particularly among his old friends, confreres and former students, he will be followed with understanding sympathy and confidence in this arduous post.

It is interesting to note that two old Dalhousie friends represent Canada at the U.N., the one, the Minister, the other, Dr. R. A. MacKay Canada's permanent representative. Both were charter members of the Halifax branch of the Institute of International Affairs and both have had a life-long interest in them.

NEW DENTAL BUILDING

For years the Dental School has been housed in a section of the Forrest building. Soon this will become a thing of the past and Dentistry will be housed in a building of its own. Its cramped quarters and consequently limited apparatus have hitherto conditioned the number of students Dentistry could take, and this at a time when the need for dentists is more than urgent as all the Dental schools in Canada are insufficient to supply enough graduates to meet the demand.

The new Dental School building, which is rising on the south-west corner of the Forrest campus, will in some measure assist as it will be able to accommodate double the number of students than has hitherto been possible. The new building is completed externally and the work in the interior is now going forward rapidly so that it is likely to be ready for occupancy early in the new year. The building is in keeping with the other buildings on its campus and will give a forward thrust to the teaching of Dentistry in the Maritimes, as the building and its equipment will be the most modern. The construction of this building will also release much needed space which will be available for other uses.

DR. HUGH P. BELL

On Friday, October twenty-fifth, the heart of Dalhousie was saddened by the passing of Professor Hugh Bell who for so many years headed the Department of Biology. Dr. Bell took his Bachelor of Science degree from Dalhousie in 1912, and the degree of Master of Science in 1914. Then came the war and he went overseas, serving as Captain with the RCRS and being severely wounded in France. Following the war he took his Ph.D. at the University of Toronto and thereafter returned to Dalhousie to assume professorship in the Biology Department, where he remained until his retirement three years ago. Since that time he has not been idle but busy in his chosen field with the Nova Scotia Research Foundation.

Professor Bell was for many a year a popular figure on the campus. His work brought him into close contact with generations of students in whom he took an abiding interest. Botany was his particular subject and in it he carried out research work, publishing some fifty or more scientific papers dealing with subjects of particular interest to this province. His effectiveness as a teacher, his scholarship, his ready wit, and native friendliness, endeared him to a multitude of friends.

At its last annual meeting, the Dalhousie Alumni Association paid him its highest honor in electing him as its Honorary President. Now that he has crossed the river the Association may be glad that he was given this token of their confidence and esteem before it was too late.

PROFESSOR WILFRED BERMAN

Only a few days after the death of Professor Bell, Dalhousie was called upon to mourn the passing of one of its younger men, and one who had already made an honored place for himself both in Dalhousie and in the community at large. Professor Wilfred Berman, B.Com., L.I.A., R.I.A., C.A., suddenly passed away, from a heart attack, on October 31st at the early age of 37.

A native of Montreal, he served with the Navy as Communications Instructor at Halifax from 1940 until 1945, thereafter completing his studies in Commerce at McGill and joining the Dalhousie staff in 1949. In addition to his regular duties he gave special evening courses at the request of the Institute of Chartered Accountants; the Society of Industrial and Cost Accounting; and gave courses in Investment at the request of the senior and junior Boards of Trade of Halifax. He was the first Canadian to be awarded a Ford Foundation fellowship, in April last, for a summer seminar at Harvard University's Graduate School of Business Administration. He was a member of the Royal Commission, appointed by the Provincial government to inquire into and report on Automobile Insurance.

A thorough teacher, popular with his students, the very high regard and general esteem in which he was held was marked by the large gathering of students and citizens who taxed the capacity of Shaar Shalom synagogue where the funeral ceremonies were held.

HE SAVED DALHOUSIE

Strangely enough little has ever been written about Dalhousie's earliest great benefactor, George Munro. For many years now Dalhousie has honored his memory by the observing of Munro Day, but to most students and many a graduate it is little more than a name and Munro, an almost forgotten man. It was only known that he came to the rescue of the University when its fortunes were at a low ebb, and through his support Dalhousie was revived and began to flourish as she had never done before.

Munro himself was, perhaps, partly to blame for this void regarding him, for his was a disposition which sought no notoriety, but followed rather the precept "let not thy left hand know what thy right hand doeth." Yet, seventy-five years ago, Munro, for that time, endowed Dalhousie lavishly, making to it the greatest financial contribution which up to that time had been made to any university in Canada. He did more, and even selected the professors whom his generosity sustained.

It was he who chose James Gordon MacGregor for the chair of Physics, Dr. Jacob Schurman for the chair of English, Dr. Richard Chapman Weldon for the chair of Constitutional and International Law, Dr. John Forrest for the chair of History and Political Economy, and later transferred Schurman to the chair of Metaphysics and nominated Dr. W. J. Alexander to the Chair of Literature, all men whose names became household words throughout the land. But in addition to these brilliant men, Munro inaugurated a system of competitive bursaries and scholarships which stirred the high schools and academies from one end of the province to the other. He saved Dalhousie and stimulated higher education far beyond the bounds of Nova Scotia.

Despite all this, there were floating mists clouding his benefactions as if the monies which he gave were obtained in none too creditable a fashion. Dr. A. J. Crockett, not a Dalhousian but a graduate of Acadia, a fellow Pictonian, has delved into the past and written a booklet, "George Munro, The Publisher," which makes nonsense of the uncertain allegations against Munro and tells the story of his long years of study, his industry and his publishing ventures and of what he did, not only to further higher education but, to give a whole generation access to worthy literature at a price within their reach.

The Dalhousie University Press has published five hundred copies, which can be had by writing the Alumni Office and enclosing the sum of \$1.00.

ALUMNI PRESIDENT'S REPORT

ANNUAL MEETING - MONDAY, MAY 13, 1957

Our First Vice-President, Mrs. J. L. Ryan, has reported on the activities of the Women's Division. On behalf of the Executive, I submit a report on the more general work of the Association as a whole during the past year.

At our 1956 Annual Meeting — and on any other occasion when I could work it into my remarks — I spoke at some length on our major project, the Alumni Fund. Presuming optimistically that there may be some among you who have treasured and retained the words and sentiments which I uttered on those occasions, I shall content myself for the moment with a brief summary of returns since we opened the fund in the latter part of November 1955 — less than eighteen months ago. In that period we have received and turned over to the University approximately \$31,000.00 made up as follows:

Initial contribution from Association fund (i.e. from our accumulated surplus, which in turn arose from membership fees collected in previous years)	\$ 5,000.00
871 contributions from individuals	17,925.00
10% allocation from funds (cash — NOT pledges still outstanding) raised in separate campaigns by the Faculties of Medicine, Dentistry and Law ...approximately	8,000.00
	\$30,925.00

All told, in less than 30% of the initial five year period which we set ourselves, we have collected approximately 31% of our \$100,000.00 objective. It is worthy of note that we seem to be doing a little better in collecting from individual alumni as we go along — in the two months since we sent out our last letter (dated March 1, 1957, and mailed March 16) we have received \$5,032.00 from that source. If we continue to improve on our performance, we should be able to make a fairly substantial contribution to the University's finances.

The other principal task which we set ourselves during the past year was to maintain and develop alumni interest in student affairs. Here we have a number of items to report.

On Monday, October 8, 1956, we sponsored a "Kick-Off" Dinner in the Lord Nelson Hotel for the football team. In so doing, we took over as a project of the Association what had been started the previous year by a group of alumni acting as individuals. In all probability this is a project which will be carried on in the future — unless of course a study of last year's results indicates that what we need is a "hungry" team.

On Friday, November 23, 1956, we held our sixth annual Freshman Party in the Gymnasium. For a number of reasons — principally competing events which were not within either our control or that of the Students' Council — this party was not as well attended as those held in previous years. It may be that the Freshman Party in its present form has had its day. At the moment we are discussing with the Initiation Committee the possibility and desirability of making some change in our method of greeting — and making ourselves known to — the new students next fall.

During this year also we extended our activities in this direction by sponsoring the Munro Day Dance held in the Gymnasium on Tuesday, March 12, 1957. It does seem to me that this or some other activity connected with Munro Day is a thing which we might well plan to carry on, as the occasion of a tribute to Dalhousie's benefactors seems one in which alumni and students have a common interest. After all, in point of time some of us are a lot closer to George Munro than are the students.

On Monday, April 1, 1957, we held our fourth consecutive Semi-Annual Meeting in the Nova Scotian Hotel. This year we experimented a bit and instead of a guest speaker had as the principal feature a presentation of some of the highlights of the Glee Club's 1956-57 productions. I should like to record our appreciation of the willing co-operation which we got from the Glee Club and assure its members that those present enjoyed their performance.

Two other recent developments indicate that we may be worming our way into the affections of somebody or other without necessarily either feeding them, entertaining them, or being entertained by them. By Resolution of the Senate, there has been established an Advisory Committee to the Students' Health Service, with the President of this Association ex-officio member. Likewise, the matter of future administration of athletics at Dalhousie has been under consideration for some time. While I believe no definite change has been made as yet, our representatives have met with representatives of the Senate and of the Student Body to consider next year's athletic program.

As I have indicated, some of our established projects are being carried on satisfactorily, a few new ones have been added, and one or two old ones may be about to vanish from the scene. I am not especially disturbed about that, as I think there should be some continuing change and adaptation in the work of any live organization. If everything worked perfectly, the job would cease to be interesting.

This happens to be an anniversary which is not especially noteworthy or significant to anybody except me — namely, the tenth anniversary of my graduation on May 13, 1947. For the last nine of those ten years I have been a member of your executive. If Barnum was

right when he said that there was a sucker born every minute, I am unable to explain why there is no other present member of your executive who has served continuously during that period. Having had a ringside seat for so long, I cannot resist the temptation to review the past decade as well as the past year. While there may seem to have been little change in our work from year to year, I believe that a brief resume of what the Association has done during the past ten years will indicate substantial progress and substantial achievement.

The first and most obvious point to note is the increase in the number of members paying annual fees. In the three years 1946-49, the average number was 505. In the next two years (1949-51) the average was slightly over 1250. In the last six years (1951-57) the average figure has been 1695. At the very least, this indicates that we are better collectors than we were. At best, it may indicate that we have a somewhat stronger organization than we had and that we have created some interest in its work.

In the election of next year's officers, we have received 360 ballots — approximately ten times the number which we received ten years ago, and three or four times the number received in recent years. Presumably this shows a growing interest in what we are doing, although it could mean merely that a large number of alumni take strong exception to one or more of the candidates.

One constant factor in the work of the Association has been the publication of the Alumni News, revived in 1943 under an Editorial Committee of which our present Honorary President George Farquhar was the leading light and subsequently put out by a series of very capable editors — George Farquhar (1945-1948), Maurice Keating (1948-1951) and Graham Allen (1952-1957). My own feeling is that publication of the Alumni News is perhaps the most valuable service which the Association has rendered in that — aside from occasional appeals for funds — it is almost the only link between the University and many of its former students. Incidentally, the News itself has grown since it was re-established in 1943 — from 20 pages in the first issue to 40 pages in 1947 and to 64 pages in December 1956 — one recent issue went as high as 72 pages. Unfortunately the cost of publication has increased also from \$1160.67 in 1943-44 to \$1280.74 in 1946-47 and \$3917.13 in 1956-57. We may reach the stage when we must publish less news or collect more dues.

Throughout this period also we have made a contribution in varying degree by providing our quota of representatives on the Board of Governors. I would not go so far as to say that our Alumni Governors are any bigger or better than they used to be, but I do suggest that through them also we have made a contribution to the welfare of Dalhousie — in fact, the present Chairman of the Board got his start as one of our representatives.

Last — but not least — we have something now which we did not have ten years ago — namely, the Alumni Fund. We considered it desirable to provide some means whereby all alumni could contribute regularly to the financial support of the University in such measure as they could afford and to establish a fund for gifts both great and small. Initially, we set ourselves the objective of raising at least \$100,000.00 in five years to be applied towards provision of a men's residence — and as I have indicated we are well on our way towards that objective. However, our long range objective was and is to encourage *all* alumni — we are a long way short of that — to contribute to the fund regularly, and thus to establish a source of comparatively predictable revenue which will be available either for the current operating expenses of the University or for such special projects as may arise from time to time. We feel that we have made a good beginning — and we feel that there is much more that remains to be done by our successors.

At any rate, what I started to say some considerable time ago was that I believe this Association has made a lot of progress in the last ten years — and that it is now strong enough to look forward to greater achievements.

Having reviewed the past year and the past decade, I suppose the next logical step would be to review the past century, or at least the eighty-six years since the Association was organized in 1871. However, out of deference to you, I shall resist that temptation to do so, and instead attempt to peer briefly into the future. After all, one of the joys of leaving any office other than by way of dismissal is the privilege of suggesting some project — vague, or vast, or both — which you think somebody else ought to undertake. There is much that needs to be done. Notwithstanding the progress which we have made, the number of dues paying members is only about one quarter of the eligible alumni, and the number contributing to the financial support of the University — both through our Fund and otherwise — is probably less than that. It is not within the power of volunteers who have to devote some time to making a living to undertake the work which needs to be done among our widely scattered alumni. During the last ten years we have been fortunate to receive a lot of help first from Dr. H. L. Scammell as Executive Assistant to the President and later from Mr. W. Graham Allen as Director of University Liaison, although both of them had many other duties which prevented them from working among the alumni as much as was desirable. At this point I should like to express our regret that Mr. Allen has resigned, and to pay tribute to the services which he rendered both as Editor of the Alumni News and in other capacities. However, the point which I wish to make now is that we feel that if we are to continue to expand our work among the alumni — and if the University is to derive the maximum support, both financial and otherwise, from the alumni — it will be necessary to place the major portion of the task in the hands of someone who has

both the time and the talent to do it. We are happy to know that the Board of Governors is aware of this need, and we offer our co-operation in any steps which may be taken to meet it.

C. B. HAVEY,
President.

REPORT OF VICE-PRESIDENT

Mr. President and members:

As Vice-President of the Dalhousie Alumni Association and Chairman of the Women's Division, I wish to submit the following report.

On November 6, 1956, the Musical Tea and Sale was held — this is our annual fund raising event. The proceeds, amounting to approximately \$480.00 were expended as follows:

- (1) to provide two scholarships of \$200.00 each for women students intending to take post graduate studies.
- (2) fifty dollars was added to a similar sum, received from Miss Helen Steeves of Calgary, to provide a one hundred dollar undergraduate scholarship for a woman student in Arts and Science.

During the year we also participated in the following events:

- (1) assisted at the Freshman Dance in November by preparing and serving the refreshments.
- (2) assisted with the Semi-annual Dinner Meeting in April.
- (3) Assisted with the arrangements for the Annual Meeting.
- (4) The Women's Division will provide servers for the Convocation Tea.

At the Fall Meeting we had as our speaker Miss Mary Wall, one of our members who gave an illustrated talk describing her visit to the Middle East.

As the semi-annual meeting was being held on April 1st, and the Annual Meeting early in May, the Executive deemed it advisable for this reason not to hold a Spring Meeting.

Miss Marion Haliburton and Mrs. G. B. Blair are our representatives at the Local Council of Women; Dr. Roberta Nichols and Miss Florence Wall at the Cancer Society; Miss Charlotte Allen, Miss Eileen Burns and Miss Mary Falconer are on the Shirreff Hall Library Committee and Mrs. H. S. Heaps on the Art Committee.

I would like to conclude by thanking all those members who assisted in any way with the various activities of the Association during the past year and also Miss Helen Reynolds and the staff of Shirreff Hall for their help and co-operation.

MARGARET H. RYAN,
First Vice-President.

ALUMNI IN NEW YORK

The Canadian Universities Club of New York held a get-together party on May first last at the Carnegie Endowment for International Peace, New York City, its purpose: to bring together the alumni of Canadian universities in the city and its environs, to promote acquaintance, and arrange for a more formal gathering in the fall. Over three hundred were present, Dalhousie being well represented.

The officers of the Canadian Universities Club of New York are: President, K. Sheldon MacLean, Arts '19-'20 (Dal) M.D., C.M., (McGill); Secretary, Warren Publicover, B.A. '26 (Dal), and Treasurer, J. Ralph MacLean, Arts '24 - '25 (Dal).

The formal dinner was held on October fourth at the Metropolitan Museum of Art. At the head table were twenty-six college presidents or their representatives, in addition to the guest of honor and four other distinguished guests. Mr. J. Ralph MacLean writes us:

"Although we had the misfortune of picking a very strict Jewish holy day which prohibited any of the Jewish faith from attending, we had exactly three hundred and twenty-eight paid diners. After dinner, we went to the auditorium, which was ideal for speaking. Dr. K. S. MacLean, president of the Canadian Universities Club introduced Dr. Shotwell, president of the Rockefeller Foundation, who in turn introduced the guest of honor, "Mike" Pearson. The Canadian Universities Club made, what later proved to be prophetic, an award of merit to Mr. Pearson in the form of a scroll for his 'leadership in the cause of peace and for his interpretation to the nations of the world of that heritage of freedom which is the foundation of Canada's greatness.'

"In the afternoon preceding the dinner, the visiting presidents were guests at a luncheon given at the Century Club. The luncheon was attended by twenty-eight corporation executives and heads of foundations particularly concerned with university work. As you undoubtedly know we were greatly pleased to have President A. E. Kerr attend both the luncheon and dinner.

"Our next Dalhousie Club of New York function will be a social evening at the home of president Perry Sachs next month, at which Dr. "Larry" MacKenzie, president of the university of British Columbia will be guest of honor. This will be attended by the Hon. Sidney Smith if he can arrange it."

LABOR - MANAGEMENT COURSE

Thirty-seven persons, consisting of nine from labor unions, nine from the ranks of management, and nineteen students, make up the group attending the course in Labor-Management Relations which is

being offered as a regular university credit course this year. The majority of the students are from Commerce, with several from Law, and two working towards their Master's degree. The groundwork for this course was laid by the Institute of Public Affairs in co-operation with the Faculty of Arts and Science and is in response to requests received by the Labor Bureau and the Bureau of Industrial Relations, both related to the Institute of Public Affairs.

It is a new departure in public service for the University, and its aim is to develop knowledge, skills and understanding in the field of Industrial Relations. It will consider such matters as: why workers join unions, the basis for wage determination, the nature and extent of collective bargaining, union security and management prerogatives, administering a labor agreement, the history of labor unions, and industrial versus craft unions.

The instructor is G. A. Hillier, M.Sc. (Cornell) '56, whose course included study and practical work in the Cornell School of Labor and Industrial Relations. A native of Glace Bay, Mr. Hillier worked in a colliery for two years and was a member of the United Workers' Union. Before the war he attended the Provincial Normal College winning the Governor-General's medal. After the war, he took the College's course in industrial arts. He has also worked with the Aluminum Company of Canada and H.M.C. Dockyard, Halifax, as well as during the past year with the Nova Scotia Light and Power Company, where he is now Industrial Relations Officer.

VISITING LAW DEAN

The Dean of the Faculty of Law of the Hebrew University of Jerusalem, visited the Dalhousie campus early in the fall and addressed the students and faculty of the Law School on "The Development, Growth, and Form of Law in the New State of Israel." Dean Benjamin Akzin, in addition to being a noted authority and teacher on Law and Political Science, has written widely in this field. He holds doctoral degrees in political science from the University of Vienna; in law from the University of Paris; and in Jurisprudence from Harvard University. He has headed the law faculty of the Hebrew University since 1951.

INSTITUTE APPOINTEE

Donald F. MacLean has been appointed assistant to the Director of the Institute of Public Affairs at Dalhousie. He has taught in the High Schools of Nova Scotia, Manitoba and British Columbia, and taken an active part in community projects and adult education. For

the past three years he has been Secretary of the Adult Education Division of the Nova Scotia Department of Education. He is a graduate in Arts from Acadia University and in 1947 received the Master of Arts degree in History from Dalhousie.

PUBLIC ADMINISTRATION COURSES

Three evening courses in Public Administration are currently being given by the Institute of Public Affairs at Dalhousie. "The Government of Canada: Its Structures and Processes" was given by Mr. Henry D. Hicks, who outlined the Federal system, the processes of formulating public policies, and the methods of carrying them out. The second course, "Government and Economic Life" will be given in two periods, one by Professor John F. Graham of the Department of Economics, the other by Miss Zilpha Linkletter, Director of the Economic Services Division of the provincial department of Trade and Industry. The third course, "Personal Skills for Public Service" will give training in improving reading, the better writing of letters and reports, verbal outlines and conference methods, and such similar matters. A number of well-qualified instructors will deal with each section of the course.

These courses are experimental and may be enlarged in the light of experience.

GIVING LEADERSHIP

Since 1918 the Canadian Barristers' Society, through its Conference of Commissioners on Uniformity of Legislation, has been working towards the standardisation of laws in the various provinces. There are many fields, common to the provinces, where the subject matter is the same, as for example, health, welfare, wills, insurance etc., but the statutes regarding them vary from province to province. The advantage which would accrue in the transaction of business, were each province to pass identical statutes in a common subject, needs no stressing. It is a slow process which takes time, entailing, as it does, the close study of the relative statute of each province and the phrasing of a common statute which would be acceptable to all.

This year, Horace E. Read, LL.B. '24, Dean of the Law School, has been appointed president of the Conference, John A. Y. MacDonald, LL.B. '33, deputy Attorney General, has been appointed vice-president, and Henry Muggah, LL.B. '34, Legislative Counsel for the Province of Nova Scotia, has been appointed secretary.

SHATFORD SCHOLARSHIPS

The late J. D. Shatford, a native of Hubbards and a millionaire industrialist, on his death bequeathed the sum of \$1,000,000, with which the Hubbards Community Trust Fund was set up in his name. This year, the Trust Fund has set aside four scholarships, available to students from "the bequest area of Hubbards" of the value of \$900 each. Four of these scholarships are to students attending Dalhousie and one to a student attending King's College.

NEW APPOINTMENTS

(Arts and Science)

New Professor of Geology succeeding Professor G. V. Douglas is C. G. I. Friedlander, Ph.D. (Zurich), Carnegie Professor of Geology and head of the Department. Dr. Friedlander is a petrologist and mineralogist. He is a Swiss by birth. He has published over twenty research papers and is well known throughout Europe for his work. He was recently Chief Geologist for the Chartered Exploration Limited in Northern Rhodesia.

George Clinton Milligan, M.Sc. '48 has been appointed Associate Professor of Geology. He has completed the requirements for his Ph.D. degree at Harvard. He is a native of Prince Edward Island, and has recently come from Manitoba, where he was employed by the Department of Mines and Natural Sciences.

Alec Thompson Stewart, B.Sc. (Dalhousie) '46, M.Sc. '49, Ph.D. Cambridge, '52, is a new Associate Professor of Physics. He is a native of Windsor, N. S. He was on the staff as Assistant Professor of Physics for the year 1953-54, when Dr. W. J. Archibald, now Dean, was away on sabbatical leave. Dr. Stewart has recently resigned from the Atomic Energy Commission of Canada, Chalk River, where he was doing research work.

C. Keith Hoyt, B.Sc. '49, M.Sc. '50 (Dal) Ph.D. (M.I.T.), has also been appointed Associate Professor of Physics. He joined the staff in the department of Physics in 1955, as Assistant Professor. His research in Acoustics included design and construction of electronic timing devices and servomechanisms. His appointment as Associate Professor of Physics (Electronics) is a new one, the main purpose of which is to increase the opportunities of students in Physics, Engineering Physics and the regular engineering course, to become familiar with the very important and expanding field of electronics.

Miss Maria Teresa Garcia Lopez, Ph.D. (Madrid) has been appointed Assistant Professor of the Romance Languages, Spanish. She is a sister of Professor A. M. Garcia Lopez, who was on the staff for three years. She received both her M.A. and Ph.D. degrees from the University of Madrid, with high honors.

Alexander M. Kinghorn, M.A., Ph.D., (Aberdeen) is the new Assistant Professor of English (King's). From 1953-55 he was Fulbright Visiting Lecturer in the University of Texas, and for the past two years Lecturer, McGill University and Assistant Warden of Wilson Hall Residence.

Guy Robertson MacLean, B.A. '51, M.A. '53 (Dalhousie), B.A. (Oxon.) has been appointed Assistant Professor of History. He has completed all the requirements for his D. Phil. at Oxford, and was Rhodes Scholar for Nova Scotia in 1953. He is a native of Sydney, N. S.

Peter Michelsen, D. Phil (Gottingen), M.A. (Wales) is the new Assistant Professor of German. For 1951-52 he was Assistant Professor in Gottingen University, and in 1952-54 he was lecturer in University College of Wales.

Richard L. Vatcher, Dip. of Engineering (Dalhousie) 1955, B.E. (civil) N.S.T.C. has been appointed to the Engineering staff. He was born in Channel, Newfoundland. He has had considerable experience in the business world as a draftsman with Cossor (Canada) Ltd., in the United States Air Force in Greenland, and in the Royal Canadian Navy (Reserve) as a cadet and later as a construction officer.

Russel V. Webber, B.Sc. '48, M.Sc. '49 (Dalhousie) Ph.D. (Wisconsin) is the new appointment in Chemistry as Assistant Professor. For the past two years he has been studying in Germany. Mr. Webber has been appointed for the academic year 1957-58, during the absence of Dr. W. R. Trost, who is away on sabbatical leave.

Owen H. Wheeler, Ph.D., D.I.C. (London) has been appointed Assistant Professor of chemistry. He is a Post-Doctoral Fellow at Purdue University, Indiana, 1953-54, and from 1954-56, a Rockefeller Foundation and Teaching Fellow, Institute of Chemistry, National University of Mexico. He was also a Teacher and Research Fellow in the same institution during 1956-57.

Mrs. Usmiani, B.A. (Hobart), M.A. (Harvard) has been appointed lecturer in the Romance Language Department. Mrs. Usmiani is an Austrian and has studied in Austria, Belgium, and England. While at Harvard she taught for the Bureau of Study Council.

FACULTY OF MEDICINE

Horace D. Beach, B.A. (Saskatchewan), B.A. (Oxon.), Ph.D. (McGill), Rhodes Scholar, has been appointed Associate Professor of Psychology in the Faculty of Graduate Studies. Until recently he was Psychologist at the Hospital for Mental and Nervous Diseases, St. John's, Newfoundland. He is a native of the Province of Saskatchewan.

FACULTY OF DENTISTRY

Dr. G. H. Faulkner, B.Sc. '50, DDS. '53, has been appointed to the part time staff of the Faculty of Dentistry. He is a native of Bass River, N. S. and since graduation has been practising in Halifax.

LAW APPOINTMENTS

George V. V. Nicholls, Q.C., B.A., B.C.L. (McGill) has been appointed to the professorial staff at the Dalhousie Law School. He was born in Montreal, but moved to Halifax at an early age when his father the late Dr. A. G. Nicholls was appointed Professor of Pathology and Bacteriology at Dalhousie. He has had experience both in civil and common law systems. In 1947 he assumed the full time editorship of the Canadian Bar Review, with headquarters in Montreal. He attended Dalhousie in Arts from 1925 to 1927.

William Andrew MacKay, B.A. '50, LL.B. '53, LL.M. '54, has been appointed assistant professor at Dalhousie Law School. Since leaving Dalhousie, he has been a member of the secretarial staff of the Department of External Affairs in Ottawa, and was on loan from that department, serving as Assistant Secretary of the Gordon Commission on Economic Affairs in Canada for the past year and a half. While at Dalhousie, "Andy's" career as a leader of student activities was outstanding. These included debating, student government, journalism, basketball and football. In 1952 he was selected as the most valuable player of the Nova Scotia Canadian Football League, and in 1953 won the Malcolm Award. He is the son of Dr. R. A. MacKay, permanent representative of Canada at the United Nations, and previously professor of political science at Dalhousie.

HUNGARIAN STUDENTS

Dalhousie welcomed its first two Hungarian students to the campus in September. Both are refugees from last year's unsuccessful revolution in the small European Communist satellite. The two are, 21 year old Leslie Horvath and Gabor Altmann, 22. Both came from Budapest

and have registered for Arts and Science respectively. They will receive free tuition from the University for the period of time required to complete their courses, and will be assisted financially by various student campus organizations. Chairman of the Dalhousie branch of the World's University Service of Canada (WUSC) who are largely responsible for aiding the incoming Hungarian students, is Ed Harris, B. Com. '54, law student at Dalhousie. Mr. Horvath escaped from Hungary in November, 1956, and arrived in Canada before Christmas. He is chiefly interested in journalism and social studies. Mr. Altmann, who attended Budapest University prior to coming to Canada in January this year, will study chemistry.

APPOINTMENT OF CHAPLAIN

The appointment of the Reverend Hanns Skoutajan, B.A., B.D., as Chaplain to students at Dalhousie, the Nova Scotia Technical College and the Dalhousie School of Nursing has been announced by the United Church of Canada.

Reverend Mr. Skoutajan has just completed a year of post graduate studies in the field of Ethics in Germany and the Ecumenical Institute in Switzerland. He is a graduate of Queens University, Kingston, from which he received his degrees.

The new appointee was born and lived in the Sudeten Land, Czechoslovakia, until 1939 when he was forced to flee, with his parents, from the Nazis. Since then he has lived in both Saskatchewan and Ontario and has worked for three summers as Chaplain to immigrants at the ports of Montreal and Quebec City. He will carry on similar work at the Halifax port.

REGISTRATION UP

Registration for 1957-1958 has increased slightly over last year. Following are the figures to date and comparison with last year's totals:

	1956-57	1957-58
Arts and Science.....	934	990
Nursing.....	43	52
Law.....	182	152
Medicine.....	274	279
Dentistry.....	47	53
Graduate Studies.....	60	53
	<hr/>	<hr/>
	1540	1579

NEW MUSIC APPOINTEE

This year Dalhousie welcomes a new musical director in the person of S. Hylton Edwards. The appointment is conjoint with the Maritime Conservatory of Music. Mr. Edwards is a Fellow of the Trinity College of Music, London, and Fellow of the Royal Society of Arts. He was examiner of Form Orchestration, Harmony and Counterpoint at the Guild Hall Music School, London, and was Assistant Director of Music at St. John's College, Johannesburg from 1948 to 1957.

INCREASE IN FEES

Rising costs, unfortunately, have forced the University authorities to increase fees in all faculties this year. Costs have been rising generally throughout the economy and from their impact the universities could hardly hope to escape. The expansion of facilities, salaries and the many items which go to make up the budget of the university have all been rising, and throughout the colleges across the country fees have had to be increased.

The increases at Dalhousie are as follows:

- Arts from \$46 to \$51 per course.
- Science from \$66 to \$71 per course.
- Dentistry from \$395 to \$420 per year.
- Law from \$330 to \$380 per year.
- Medicine from \$405 to \$500 per year.

Medical loan funds, which were set up to assist worthy students with low incomes, have been increased to offset the \$95 increase in tuition.

EXECUTIVE DIRECTOR CPAC

John A. McVittie, M.A. ('48-'50) formerly Director of the Institute of Public Affairs at Dalhousie, has been appointed Executive Director of the Nova Scotia Division of the Community Planning Association of Canada. Mr. McVittie will continue his association with Dalhousie as research consultant, with special reference to Municipal affairs. His new duties include liaison with Association branches in Halifax, Sydney, Dartmouth and corresponding committees in other centres.

POSTED TO NORWAY

Dr. R. A. MacKay, so well known to Dalhousie in which he taught with great acceptance for twenty years, has been appointed ambassador to Norway and Minister to Iceland and will take up his new duties early in the new year. Dr. MacKay came to Dalhousie in 1927 as professor of Political Science, and took an active part in the life of the university and the city. He was one of the moving spirits in establishing the local branch in Halifax of the Canadian Institute of International Affairs.

During the war, in 1943, given leave of absence, he took a temporary position in the Department of External Affairs. Previous to that, he had served as a member of the Royal Commission on Dominion-Provincial Relations from 1937 to 1940. In 1947 he severed his connection with Dalhousie and went to the Department of External Affairs, and in 1948 and 1949 was deputy chairman of the group dealing with the union of Newfoundland with Canada. Since 1950 he has been a member of the Permanent Joint Defence Board of Canada and the United States. Presently he is serving as Canada's permanent representative at the United Nations in which post he will be succeeded by Charles Stewart Almon Ritchie, now Canadian ambassador to West Germany, who took Arts at King's in the twenties. The many well-wishers of both will wish them every success in these very responsible positions.

BLUENOSE IN CHARGE

Dr. J. Robert Downing, M.A. '38, is director of the Cook Research Laboratories at Morton Grove, Ill. He is a native of Oxford, N. S.

The following is from an article which appeared in the Halifax Herald, November 19, 1957.

A short time ago scientists of Cook Research Laboratories shot a rocket hundreds of miles into space and returned it intact, thus overcoming one of the most difficult obstacles in the path of perfecting an ICBM . . . and Dr. Downing was one of the men who made this possible.

President Eisenhower in a recent television address held up the nose cone of the rocket for millions of viewers to see and called attention to the importance of the scientific feat.

Brigadier General J. A. Barclay, commanding U.S. Army Ordnance Corps Army Ballistic Missile Agency, said in a letter to Dr. Downing the accomplishment "is another important technological step toward the accomplishment of our mission which is so important to national security."

Dr. Downing received part of his education in Maritime colleges having received his B.A. from Mount Allison University in 1936, and his M.A. from Dalhousie in 1938. He then received his Ph.D. in Physics from M.I.T., Cambridge, Mass., in 1942.

After receiving his doctorate Dr. Downing worked on the development and construction of high vacuum equipment for industrial use and while assigned to the staff of the "Manhattan Project" worked on the development of the Atomic Bomb.

Since taking up duties with Cook Electric Company in 1945 as director of Cook Research Laboratories, a division of Cook Electric Company. Dr. Downing has been responsible for building up the laboratory from a small group of 12 people to its present size of more than 500 engineers and physicists.

Dr. Downing has been active in guiding work in scientific and engineering fields including nuclear physics, radar, sonar, guided missiles, general electronics and airborne instruments, fire control systems and weather reconnaissance.

A LIFE-TIME STUDY

(The New York Times, September 8, 1957)

Dr. James A. Dawson of City College has turned an experimental nuisance into a life-time study.

The first scientist to devise a practical method of breeding amoebas and other lowly single-celled protozoa he has been culturing the minute blobs of protoplasm for more than thirty years.

He tends his cultures when he is not occupied with his duties as Professor of Biology and chairman of the department at the college. Dr. Dawson breeds the tiny creatures in a basement laboratory at his home in Floral Park, L.I.

He supplies the specimens of protozoa used by City College students in their laboratories. The animals for his students now are direct descendents of cultures he began as long ago as 1926. He has maintained pure cultures of six species of the Amoeba and many other cultures of mixed species.

As is the case with many scientists, Dr. Dawson's interest in the problem was stimulated by necessity. He was first introduced to the intricacies of successful rearing of protozoa in 1925 as an instructor at Harvard College.

There he found that the specimens purchased from commercial suppliers were both expensive and unreliable.

"We had to buy our amoebas from a biological supply firm in Nebraska" he recalled, "Many of the specimens died en route and those that weathered the trip often perished before our experiments could be completed."

A workable technique for culturing large amoebas had not yet been discovered, so Dr. Dawson set out to find one. He began his experiments with different culture mediums, using small finger bowls as containers for his specimens. In time he had more than one hundred dishes of culture.

He exposed these to varying combinations of heat, light and food concentrations. He nurtured these first cultures and took them with him when he went to City College in 1929.

(Note: Dr. J. A. Dawson is a native of Nova Scotia. He is a graduate of Pictou Academy and received his B.A. degree with Great Distinction from Dalhousie University in 1915. His wife is the former Myrtle MacLean, B.A. '15).

PERSONALS

Dr. H. Sinclair Tait, M.D., C.M. '14, has recently resigned as Superintendent of the Weston State Hospital in West Virginia, having held this position for the past nine years, and has taken a position with the Veterans' Administration Mental Hygiene Clinic at Wheeling, West Virginia, as Chief Psychiatrist. Dr. Tait was recently elected a Life Fellow of the American Psychiatric Association.

Dr. Irving Chipkin, M.D., C.M. '40, was recently elected president of the Nassau Neuropsychiatric Society, which is a District Branch of the American Psychiatric Association. He was also elected to the Board of Directors of the Nassau County Mental Health Association.

Lloyd K. Smith, Arts '09-'11, '13-'14, has been appointed a member of the Colchester Municipal School Board for a term of three years.

Gordon Cowan, LL.B. '32 was elected president of the Nova Scotia Barristers' Society at their last annual meeting.

E. S. Campbell, Sci. '17-'19, Registrar of Motor Vehicles for Nova Scotia was named to a four-man regional executive committee of the Eastern Region, American Association of Motor Vehicle Administrations at the annual convention in Atlantic City.

Rev. Dr. Archibald Donald MacKinnon, B.A. '25, was recently elected moderator of the Presbyterian Church in Canada. For the past 30 years he has been minister at Little Narrows, N. S.

Dr. Moses Claener, Med. '30-'34, of Sydney, is the new president of the Nova Scotia Dental Association. The 67th annual meeting was held in Moncton.

Thomas G. Feeney, LL.B. '46, has been appointed senior professor and director of courses of the newly established English Common Law Department of the University of Ottawa. He was Gold Medalist in Law in his graduation year.

Dr. Sidney E. Smith, LL.B. '20, received a Doctor of Laws degree from the University of New Brunswick at their Spring convocation, making his 11th honorary degree.

Dr. H. O. Tonning, B.Sc. '40, M.D., C.M. '43, was elected president of the Saint John Medical Society at the last annual meeting.

R. Lorne MacDougall, LL.B. '43, was named president of the Colchester County Progressive Conservative Association at the annual meeting held in June.

Dr. H. J. M. Creighton, B.A. '06, M.A. '07, was honored with another degree — Doctor of Science — from Swathmore College, Pennsylvania, where he taught for forty years. From 1943 to 1946 he was associated with atomic research on the Manhattan Project at Columbia University. In 1930 Dalhousie honored him with the degree of Doctor of Laws.

Ernest Buckler, B.A. '29, of Bridgetown received one of the four awards made by the University of Ontario for literature this year. The awards are made for outstanding contributions to periodicals. Mr. Buckler's winning short story "The Dream and the Triumph" was published in *Chatelaine*.

Professor James B. Milner, LL.B. '39, of the University of Toronto law faculty was elected president of the Association of Canadian Law Teachers at the annual meeting held in Ottawa in June. His immediate predecessor as president was Dean Horace E. Read, LL.B. '24, of Dalhousie University Law School.

Lt. Col. J. R. Feindel, M.D., C.M. '43, of Lunenburg, medical liaison officer at Canadian joint staff headquarters in London, represented Canada when the Duchess of Kent placed a cornerstone for the parish church at Orpington, England this summer. The church is on the site of a former hospital used for Canadian soldiers during the First World War. Fifty Canadians are buried nearby.

Ronald R. Shaw, Com. & Eng. '51-'55, was awarded a Bachelor of Science degree by Alfred University, New York. He majored in ceramic engineering at State University of New York College of Ceramics at Alfred University. His home is in Halifax.

Mason MacDonald, B.A. '51, received his M.Sc. at Springfield University, Mass. He is a native of Sydney and a well-known P.T. Instructor and basketball star.

Leonard Mitchell, B. Com. '43, LL.B. '48, was recently appointed Deputy Crown Prosecutor for Halifax County. He is a veteran of World War II, and holds the rank of Major with the Halifax Rifles.

Dr. Donald MacRae, B. Sc. '30, M.D. C.M. '34, was elected secretary of the Canadian Otolaryngological Society at its annual meeting held in Banff.

Air Commodore W. E. Bennett, CD, D., Eng. '30, of Halifax has been appointed air member for technical services at AFHQ. He was previously chief of personnel at Air Force Headquarters.

Peter L. Judge, Q.C., LL.B. '27, is the new Registrar of Probate for the County of Yarmouth. He is also Town Solicitor and Past President of the Nova Scotia Bar Society. He succeeds C. Curtis McKay, LL.B. '11, who practises law in Yarmouth.

John M. Booth, B.Sc. '49, D. Eng. '50 has been appointed plant engineer for Moirs Limited, Halifax. He has been latterly employed as industrial engineer with the E. B. Eddy Company in Hull, Quebec.

Mrs. R. F. Ross (Esther Elizabeth McKay), B.A. '24, has been appointed by the provincial government to the Truro Board of School Commissioners. Her term expires in 1960. She has previously served on the Board as Citizens' Representative.

C. Roy MacDonald, Q.C., LL.B. '34, accompanied by his family has left for Saskatoon where he will take a position as magistrate. He is a former Glace Bay Stipendiary Magistrate. He will be

magistrate for the Rosetown area in Saskatchewan.

Dr. Helen M. Hunter, M.D., C.M. '49 of Halifax was recently elected to membership in the American Academy of Pediatrics, whose purpose is the fostering of child health and welfare in United States, Canada, Hawaii and Latin America.

Mrs. Reiner Halbach, the former Natasha Coffin, B.Sc. '53, received her Doctor of Philosophy degree from McGill University in May. She was winner of the Governor-General's Gold Medal while at Dalhousie, and awarded a Russell J. Eddy Foundation Scholarship in 1955. She took her degree in Chemistry.

Robert F. Scott, D. Eng. '56, has been appointed examiner of patents with the Canadian Secretary of State Department at Ottawa. He is an honors graduate this year from the Nova Scotia Technical College.

David Vaughan Hartigan, LL.B. '50, has been appointed to the position of Crown Prosecutor for the City of Lethbridge. He previously practised law at North Sydney before going to Alberta.

J. R. Dingle, B.Sc. '41, M.Sc. '42, winner of the Governor General's Gold Medal while at Dalhousie has been named councillor of the Chemical Institute of Canada. He is a physical chemist at Atlantic Technological Station, Fisheries Research Board.

Miss Marion Golda Fry, B.A. (K) '53, M.A. '55, has been awarded a \$600 Scholarship by the University Women's Club of Halifax to enable her to complete her graduate studies at Oxford, England. She is working on her thesis for a D. Phil. degree, and expects to return to Canada early in the New Year.

S. C. Gordon, B.A. '26, inspector of schools for King's County, was presented with a life membership in the Nova Scotia Teachers' Federation. Before his appointment as inspector of schools, he taught in a number of provincial schools, and is noted for his help and support in the organization and growth of the federation.

President N. A. M. MacKenzie, B.A. '21, M.A. '23, has been appointed to head the 26-member national commission to link the Canada Council with UNESCO. He was a member of the 1951 Massey arts commission which recommended that the commission be set up.

Dr. Harold Scammell, M.D., C.M. '27 was re-elected president of the Pietou Academy Educational Foundation. This foundation was set up in 1916 to administer trust funds and other grants and bequests to the Academy.

Arthur L. Foote, B.A. '51, LL.B. '54, has accepted a position on the law faculty at the University of Ottawa. He was Rhodes Scholar to Oxford, and since his return was on the staff of Dalhousie's Law School.

Rev. A. A. MacLeod, B.A. '06, M.A. '07, B.D., D.D., retired this year after 48 years of active ministry. Of late he has been minister of visitation at St. Andrew's United Church, Sydney.

Dr. R. L. Aikens, B.Sc. '34, M.D., C.M. '39, was elected a fellow of the American College of Chest Physicians, at the recent annual convention held in New York.

J. Russell McKinney, B. Com. '49, of the Department of External Affairs has been appointed First Secretary at the Canadian Embassy in Djakarta, Indonesia. He formerly served in Belgrade, Yugoslavia and for the past year has been attending the National Defence College at Kingston, Ontario. Mr. and Mrs. McKinney and daughter left Canada at the end of July to take up their new assignment in Indonesia.

R. A. Ritchie, Q.C., LL.B. '30, was appointed counsel for the federal government before the royal commission reviewing the terms of Newfoundland confederation with Canada. The hearings opened in July.

Dr. L. G. E. Bell and Mrs. Bell, the former Muriel Ord, B.Sc. '48, M.Sc. '50, and their two children have recently arrived from England. Dr. Bell is commencing work on a post doctorate fellowship at Dalhousie, and Mrs. Bell

also holds a Ph.D. degree resulting from studies at London University on a British Empire Nuffield Scholarship.

S. Edgar March, B.E., LL.B. '93, celebrated his 87th Birthday at his home in Bridgewater in August. The celebration took the form of a family dinner party at which four sons and two daughters were present. Mr. March is Stipendiary Magistrate for the Town and does some surveying, enjoys gardening and painting in oils and water colors in his spare time.

Dr. Gordon R. Hennigar, M.D., C.M. '45, has received the appointment of Professor of Pathology, Associate Director of Laboratories and Pathologist-in-Chief of Kings County Hospital, New York. Following his graduation, Dr. Hennigar did post-graduate work at Johns Hopkins School of Medicine, and for the past seven years has been Associate Professor of Pathology at the Medical College of Virginia.

Charles Ritchie, Arts '24-'26 (K), Canadian Ambassador to West Germany has been named to head Canada's delegation at the London disarmament conference. Mr. Ritchie is a native of Halifax.

H. Ray Milner, LL.B. '10, has been named chancellor of the University of King's College succeeding the late Lionel A. Forsyth of Montreal. Mr. Milner is chairman of the Canadian Western Natural Gas Company and Northwestern Utilities Limited, vice-president of Trans Canada Pipe Lines Limited, and a director of many other Canadian industrial and financial organizations including the Royal Bank of Canada.

Bernard Keeler, B.A. '51, supervisor of schools in Milton, Queens County, was the winner of an UNESCO Travel Fellowship, only one of which was granted for Canada. He will explore and assist in the establishment of a workable self-help project in Iran. This project is financed by the Junior Red Cross, and enroute to and from Iran, Mr. Keeler will visit a number of European countries to study Junior Red

Cross activities. He expects to return to Canada around the first of the new year.

Arthur Cooke, B.A. '36, has been appointed director of guidance for the Halifax County Vocational High School. He has been lately with the Yarmouth Vocational High School. He played an important part in organizing plant training classes in many of the war industries in Nova Scotia, after his return from overseas where he served with the RCAF. He was at one time superintendent of the veterans trade training courses, until he went to Yarmouth.

Donald McInnes, B.A. '24, LL.B. '26, has been named president of the Eastern Trust Company. He has been a director since 1947. He was also elected vice-president for Nova Scotia at the annual elections of the Canadian Bar Association held in Banff in the summer.

A. Webster MacDonald, B.A. '40, LL.B. '43, Kentville barrister has gone to Calgary where he has accepted a position on the legal staff of the California Standard Oil Company.

John M. Kearney, D. Phar., '52, has joined the Elliott-Marion Co. Ltd. as an associate. During the past three years he was a medical service representative with one of the major drug firms in the Maritimes. He resides in Dartmouth.

Donat Pharand, LL.B. '52, LL.M. '53, is now associated in the practice of law with the firm of Vincent, Addy and Carbonneau in Ottawa.

Rear Admiral Gordon M. Bruce, M.D., C.M. '25, Professor of Clinical Ophthalmology at Columbia University, New York, has been appointed Consultant in Ophthalmology to the United States Navy.

Dr. Jean Whittier, M.D., C.M. '29, medical missionary for the United Church of Canada is home in Halifax on leave from India where for many years she has served in training hospitals. Immediately prior to her return she was in charge of Banswara, an 80 bed hospital in the province of Rajas-

than. She plans to resume teaching in a hospital in central India when she returns to the East.

Dr. J. C. Wickwire, M.D., C.M. '28, of Liverpool was elected president of the Atlantic branch of the Canadian Public Health Association at the last annual meeting. Dr. J. E. Hiltz, M.D., C.M. '34, was named vice-president.

Rev. Douglas A. Conrad, B.A. '31, was elected President of the Synod of the Lutheran Church in Nova Scotia at their recent convention. The appointment is for a term of two years.

Barry D. Speton, LL.B. '56, was called to the Bar of British Columbia in October. He is a member of the law firm of Campney, Owen and Murphy and is posted to their branch office in Kitimat. Three other '56 law gradu-

ates are presently in Vancouver: Donald Clancy, Paul Mosher and Malcolm Smith.

Dr. Catherine O. Hebb, B.A. '32, M.A. '33, Ph.D. (McGill) '38, of Cambridge, England, where she is a member of the Research Council of Britain, arrived in Canada in September. Travelling first to the West Coast, she visited relatives in Vancouver and the University of British Columbia. She then stopped in London and Ottawa at the invitation of the Chief of the Department of Entomology of Canada, before visiting her brother, Andrew O. Hebb, B.A. '25, LL.B. '28, and family in Toronto. In Montreal, Dr. Hebb visited another brother, Dr. Donald O. Hebb, B.A. '25, and family, before coming to Nova Scotia, where she visited for a month at the home of her father, Dr. A. M. Hebb, B.A. '99, M.D., C.M. '02, and Mrs. Hebb, who reside at Marriott's Cove.

W. Graham Allen, Arts '25-'29, was recently appointed CBC News Supervisor for the Maritimes. He will be responsible for the overall supervision of all CBC news broadcasts originating in the Maritimes. He was formerly University Liaison Director for Dalhousie University.

Dr. Arthur L. Knight, B.Sc. '45, M.D., C.M. '49, has been appointed medical director of Bausch and Lomb Optical Company, and will have charge of all medical activities at their Main Plant and Navy Building. Prior to this appointment, he was medical director of Ravenna Arsenal, Apco, Ohio.

Ronald Richard Shaw, Eng. and Comm. '51-'55, has gone to Arvida, Quebec to take a position as a ceramic engineer with the Aluminum Laboratories Limited, a subsidiary of the Aluminum Company of Canada Limited. He is a recent graduate of the New York State College of Ceramics, Alfred, N. Y.

DEATHS

Roy Charles Wilson died at Chester, New Hampshire, February 13. He was born at North Sydney in 1903, and educated at Sydney Academy and Mount Allison University. He graduated in Law at Dalhousie in 1926, and since that time had made his home in New York State. For the last few years he was employed by the Esso Standard Oil Company of New York.

Dr. Robert Russell Strong died at his home at Grand Falls, Newfoundland early in the summer. Born at St. John's, he attended Prince of Wales College, and Memorial University before entering Dalhousie Medical College. He graduated in 1938, and since then had practised at Grand Falls.

Dr. J. W. Pennington died in Montreal June 13 at the age of 85. He was born at Jordan Falls, Nova Scotia, and graduated from Dalhousie Medical

College in 1896. He first practised medicine at Tusket, and later at Argyle, N. S. before moving to Moosejaw. After serving with the Canadian Army Medical Corps overseas in the first war, he took up medical practice at Regina, Rosetown, and Radville where in 1946 he retired and took up residence in Regina. In 1947 he came out of retirement and accepted the position of medical doctor for Caledonia-Milestone Health Unit, which he served until 1956. He was a lover of sports and also took a keen interest in political as well as local affairs.

Word was received in July of the death of Judge Harry Irwin in Hilo, Hawaii at the age of 83. He went to Hawaii in 1901, and since 1904 had practised law in Hilo. He was a native of Shelburne, and as a young man studied law at Boston University and later at Dalhousie receiving his degree

in 1897. He served with Canadian forces in the Boer War in South Africa at the turn of the century. He taught at several Big Island schools, and for a time was principal at Honokaa. He was appointed deputy attorney general in 1918, and attorney general the following year. While in that office he prepared much of the original Hawaiian Homes Commission Act. Judge Irwin was district magistrate in Hilo from 1942 to 1950, and at one time was president of the Hawaii Island Chamber of Commerce and for several years was president of the Hawaii County Bar Association. During the last few years he had his own private law practice.

Dr. William Thomas Morris MacKinnon died at Amherst June 30, after a long illness. He was born at Baddeck but moved to Amherst at an early age where he received his high school education. He graduated from Dalhousie in 1898, and from Toronto with his medical degree in 1903. In 1953 he received his honorary degree from the University of Toronto. He served overseas with the RCAMC during the First World War, and received the C.M.G. from King George. During the Second World War he served as medical examiner at Ottawa and was awarded the O.B.E. Returning to Amherst after the War he carried on his medical practice as an eye, ear, nose and throat specialist until illness forced his retirement.

Miss Mary Cleworth died in Halifax July 6 after a lengthy illness. She was born in Dartmouth where she received her early education, graduating in Arts from Dalhousie (K) in 1935, and in 1936 received her Education degree majoring in French. She was appointed to the Dartmouth teaching staff 21 years ago, and for the last number of years taught French in the Junior High School. She was widely known for her activity in the field of golf and several times won the local championships in the ladies' tournaments.

John Smith McIvor, Q.C. died June 12 after a long period of poor health. He was Speaker of the Nova Scotia Legislature from 1953 to 1956 and member for Cape Breton South from

1945 to 1956. He was born in Glace Bay in 1913, and was well known as a rugby player both at Acadia University where he received his B.A. and at Dalhousie where he received his degree in Law in 1937. The following year he opened his first law office at North Sydney, moving to Sydney a year later. He was the first provincial magistrate appointed in Nova Scotia, and resigned that post to contest Cape Breton South for the Liberals in the 1945 election. of late years he was senior member of the law firm McIvor and Ross.

News of the death of Gower Angus Lodge of St. John's, Newfoundland was received in July. He received his early education in St. John's at United College and Memorial University. He entered Dalhousie in 1930, graduating in 1933 with a B.Sc. degree and a Diploma in Engineering. Since then he had made his home in St. John's.

Thomas Francis Gaul of the Finance Department in Ottawa died recently in Ottawa. He was a native of Halifax, and was a graduate of Halifax Academy before coming to Dalhousie. He attended classes in Science and Engineering from 1904-1906, the remainder of his life being spent in Ottawa.

Goldbury Henry Heighton Holmes died at his residence in Edmonton August 11. Born at Halifax in 1893, he served in the 1914-18 war, and on his discharge entered Dalhousie for the study of chemistry, later moving to Edmonton. On the outbreak of the Second World War he joined the Royal Canadian Medical Corps with the rank of captain, proceeding overseas. He was wounded and returned to Canada in 1943.

Dr. John C. Trainor of Port Hawkesbury died July 11, following an illness of several weeks. He was in his 66th year. He was born at Kinkora, P.E.I., receiving his early education there and at St. Dunstan's University before coming to Dalhousie. He also served with distinction in World War One with the 25th Infantry holding the rank of captain. He entered Dalhousie Dental College on his return to Canada, and graduated in Dentistry in 1924. He

practised for a time at St. Martin's, N. B., before moving to Port Hawkesbury in 1929 where he had resided since. He was at one time president of the Board of Trade for the town and served twice as mayor.

John Joseph Cameron, Q.C. died in Liverpool August 18, at the age of 81. He was born at Heatherton, Antigonish County, and was a graduate of St. Francis Xavier University before entering Dalhousie Law School. He graduated in law in 1910, and practised in Sydney until 1913, and for the following five years was associated with Justice W. L. Hall, then of Liverpool. Since then he practised law in Liverpool, and at the time of his death was Town Solicitor and Stipendiary Magistrate. From 1937 to 1941 he represented his constituency in the local house, and had always retained active interest in the Conservative party. He was a distinguished member of the Knights of Columbus, and an active member of the Liverpool Kiwanis Club.

J. Frank Outhit, Q.C. died in Kentville, September 6, following an illness of several months. He was in his 90th year, and was a member of the Nova Scotia Bar for 62 years. Born at Melvern Square, Annapolis County, he received his education in the local schools and Pietou Academy before entering law school at Dalhousie University. He received his LL.B. degree in 1895, and the same year was admitted to the Bar. His long career included school teaching, editor of a weekly newspaper, The Parrsboro Record, clerk of the Nova Scotia Legislative Council, 1907-26, and solicitor for the Municipality of Kings for 35 years. He was president of the Kings County Bar Association, and from 1945-52 was Registrar of Probate for King's County. He was also many times elections campaign manager for the Liberal party in his constituency. He retired from active practice in 1949, since 1911 having practised in Kentville. He is survived by a daughter and a son, William D. Outhit, Q.C., B.A. '26, LL.B. '28.

Rev. William Ira Green died at the home of his son at Elmsdale, P.E.I., March 21. He retired from the ministry in 1945, and took up residence at Stanley Bridge, but for the last few months of his life lived with his son. He was born at Mount Pleasant in 1875 and attended Prince of Wales College, teaching for four years before entering Dalhousie. He graduated in 1905 with a B.A. degree, and from Pine Hill College in 1907, and was ordained the same year. He went to Trinidad in 1910 as a missionary, where he served for 21 years in educational and evangelistic work. Since his return he held pastorates in New Brunswick and Prince Edward Island.

Dr. Shirley E. Bishop died in Kentville July 7, after a long period of ill-health. Born in Freeport in 1908, he moved to Kentville in 1919, and attended Kings County Academy, and Acadia University before coming to Dalhousie where he received his B.Sc. in 1932. He graduated in medicine from Queen's in 1939. He practised in Kentville until 1943 when he joined the RCAF. Following the War he took post graduate studies at the Polyclinic Hospital, New York, and then resumed general practice at Kentville. He was medical health officer for Kentville for many years but resigned early this year. He is survived by his wife and one son, and also by his sister, Mrs. Ewan Clark (Helena) B.A. '33, of Halifax.

Henry Treadway Jones died in Halifax, September 13. He received his early education in Halifax where he was born, and entered Dalhousie Law School in 1885. He received his law degree in 1888. For many years he made his home in Bedford, but for the last several years had lived in Halifax.

Leonard W. Fraser, Q.C. and Carl P. Bethune, Q.C. died the same day, Sept. 8, in Halifax. Both were 55 years old, and both were graduates of the 1925 Law class. Leonard Fraser was at one time leader of the Progressive Conservative Party in Nova Scotia, manager of the 200th birthday celebration for Halifax in 1949, and president of the Nova Scotia Barristers' Society. Re-

cently he had been appointed chairman of the Nova Scotia Hospital Services Planning Commission. He was born in Amherst and educated in the New Glasgow schools, coming to Dalhousie in 1919. He graduated in Arts in 1923, and two years later in Law winning the Carswell Prize and other honors in his senior year. Following graduation he entered the Civil Service and for some years was secretary to the late Premier E. N. Rhodes. Later he opened a private practice in Halifax, and remained actively interested in politics up till the time of his death. He is survived by his wife the former Kathleen Blanchet, B.A. '27, Paul, LL.B. '55, and David, B.A. '55, LL.B. '57.

Carl Bethune was an authority on municipal law and served as city solicitor for Halifax for the past 25 years. He was born in Halifax, and after obtaining his B.A. in 1923, and LL.B. in 1925, he practised law in Halifax until 1929, and served as assistant deputy provincial secretary from 1930 to 1932. He then joined the City Solicitor's department as head of the department and in 1940 was made a King's Counsel. He was chairman of the Court of Tax Appeals for many years. He was a past president of the Nova Scotia Barristers' Society and was Nova Scotia vice-president of the Canadian Bar Association for two years, and for many years prior to his death was a member of the Association council. He was actively interested in many of the City service clubs, where he held executive positions, and was a member of local golf, yachting and curling clubs.

Dr. Maureen Elder, one of Nova Scotia's pioneer women in the field of medicine died in Kentville on September 25 after a ten week's illness. She had lived in Kentville since 1953. She was born in Halifax, and attended a convent school in Saint John and later Adelphi College on Brooklyn where she received her B.A. degree in 1905. She attended Dalhousie Medical School from 1915-'18 1921-'22, and received her M.D., C.M. degree from McGill 52 years ago. She first practised in Halifax, then for a time in Montreal before joining the staff of the Montreal General Hospital,

with which she was associated until her retirement in 1945. During the War she was chief anaesthetist and oxygen therapist at the Montreal General. She was also active in all branches of war work and was a captain of the Women's Volunteer Corps.

Mrs. Arthur Dill (Kathleen Isabel Keith) died at her home in Windsor, N. S. September 23. She was born in Halifax and since her marriage in 1915 had lived in Windsor. She was educated at Mount St. Vincent, and at Dalhousie, Sp. Arts, 1909-'11.

Dr. Dexter Scott McCurdy died in hospital from injuries received in a car accident near Truro September 25. He was born at Old Barns in 1888, and was a graduate of Colchester County Academy and the Provincial Normal College. He taught manual training before he was graduated from Dalhousie Medical School in 1916. He then proceeded overseas as captain with the Camel Corps, a medical unit. He was president of the Truro Philharmonic Society and chairman of the music festival committee. He was also past president of the Truro Rotary Club, and of the First United Church choir. He was interested in curling and figure skating, for many years being director of the figure skating class in Truro. He was also interested in welfare work and devoted much time to work among crippled children.

Dr. W. Roy Mackenzie died suddenly at his summer home at River John September 27. He was born at River John and received his B.A. degree from Dalhousie University in 1902, and his M.A. in 1903. In 1910 he received the degree of Doctor of Philosophy from Harvard. After lecturing at Harvard and Syracuse University in 1910, he joined the Department of English at Washington University, St. Louis, and in 1918 became professor and head of the Department. He continued as head of the department until his retirement in 1952. In 1950 he received the honorary degree of Doctor of Laws from Dalhousie University. Dr. Mackenzie was an authority on Elizabethan drama and literature, and was the author of "The English Moralities"

in 1914 and "The Quest of the Ballad" in 1919. His principal work published in 1928 "Ballads and Sea Songs from Nova Scotia" was the result of summer vacations spent in searching for and recording many ballads and sea songs which otherwise would have been lost forever. He was a member of the Modern Languages Association of America, Medieval America, Folklore Society, American Philological Association, Medieval Academy of America, and the English Speaking Union. He is survived by his wife, the former Ethel Stuart, B.A. '02. Dr. T. G. Mackenzie, B.A. '04, M.A. '05, B.E. '06 is a brother.

Dr. Joseph E. LeBlanc, died in hospital in Boston, September 30, at the age of 67. He was taken ill in Paris while on a visit with his wife to their son in Rome, and was flown back to Boston. He was born at Church Point in 1890, and attended the local school, later graduating with a B.A. from St. Ann's College. In 1915 he graduated in Medicine from Dalhousie University, and the same year opened a general practice at Middle West Pubnico. In 1924 he received his Master's degree from St. Ann's College. He was an ardent advocate of Acadian culture and history. During his lifetime he was honored with decorations from many institutions including L'Academie Francaise, the Government of France, Laval University, the Jacques Cartier Medal, and the Alliance Francaise. He held many offices among which was the presidency of the Public Health Association (Atlantic Division), and was a member of many local organizations.

Dr. Donald Wilson MacDonald of Montreal died there October 13, following a heart attack. He was 51 years old and had been in ill health for several years. Dr. MacDonald, an eye, ear, nose and throat specialist was a native of Glace Bay, where he received his early education, graduating from Dalhousie in Arts in 1928, and in Medicine in 1932. He practised in Glace Bay before World War Two, and during the War served as a medical officer with the RCAF. Since then he had practised in Montreal.

Albert H. Buckley died at his home in Halifax on October 14. He was in his 96th year and one of Dalhousie's oldest living Alumni for the last few years, as well as one of Canada's oldest pharmacists. He was president of Buckley's Limited of Halifax. He was born in Halifax, educated at Mount Allison University, Eastman College at Poughkeepsie, N. Y., the Halifax Medical College and Dalhousie University. He was a registered pharmacist for more than 73 years, having entered Dalhousie in 1881, and completing his pharmacy course in 1883. Last year the Canadian Pharmaceutical Association of which he was a past president awarded him a certificate in recognition of his long service to pharmacy. He was an active community worker before ill health caused him to retire, being vice-president of the Society for the Prevention of Cruelty and a member of the Nova Scotia Historical Society, and other local clubs. He is survived by one daughter, Mrs. G. P. Morrison, Sp. Arts, '10-'11, London, England, and one son Gerald R., B. Com. '26, of Halifax.

Dr. C. S. Bezanson died at his home in Aylesford on October 17 following an illness of several months. Born in Farmington, Lunenburg County 60 years ago, and attending school there, he was graduated from Mount Harmon College, Mass., attended Acadia University, and Dalhousie University, graduating in Medicine in 1922. For six months he practised medicine in Newfoundland before returning to take up practice at Aylesford where he spent the remainder of his life. He was active in community affairs and in medical societies, not only in the Valley Medical Society, but the Provincial, and was a member of the Canadian society. For the past 16 years he had served on the Kings county municipal council and was chairman of the municipal school board. During the depression, Dr. Bezanson developed the cranberry industry to give employment to many in that vicinity. He built and developed three large cranberry bogs. Among his hobbies he operated a kennel of Sayomed dogs, and showed champions in Canadian dog shows and

also in the United States. He took a leading part in promoting and maintaining the annual apple blossom festival and was a member of the committee up until the time of his illness.

Hiram Alexander Embree died September 6 in Antigonish. He was born in Port Hawkesbury in 1897 where he received his early education. He attended Dalhousie, pre-dental, 1917-'21. He entered the employ of the National Fish Company in 1921, remaining with the Company throughout his lifetime. Following a heart attack Mr. Embree had been a partial invalid for the past 15 years.

Harold Laurence Flynn died suddenly in New York July 16, where for a number of years he was associated with the magazine publication business. He was born at Murray Harbour in 1910, and studied at St. John's Academy and St. F. X. before entering Dalhousie. He attended two years in Law and Arts, '33-'35. He was well-known in sports circles more than 20 years ago, and was a reporter for the Sports department of the former Halifax Chronicle. He was married and had three children.

Harry Weston Menzies, Q.C. died in Lethbridge in August after a year's illness. He was a native of Tatamagouche, and a graduate of Pictou Academy as Gold Medalist. He received his LL.B. at Dalhousie in 1909, and had the distinction of being top man in every subject in both Academy and Dalhousie. He practised at Sydney for one year before going to Lethbridge where he had since practised. Many years ago he established the partnership of Hogg and Menzies which continued until his death.

Dr. James Harold Bingay died in Yarmouth October 30 after an illness of some weeks. He was born in Tusket in 1878, and received his early education in the Tusket and Yarmouth schools. He studied at Dalhousie in 1899-'00 before proceeding to Queen's University where he obtained his Bachelor of Arts degree, and later earned the degree of Doctor of Paed. He was especially interested in history and was the author

of the History of Canada which was used for years as a school textbook in the schools of the province. He taught in Yarmouth for some years and in 1909 was appointed Supervisor of the Glace Bay schools, which position he held until 1934. He was then appointed Supervisor of Attendance for the Province. Later he became principal of Pictou Academy, and afterwards taught in the Tusket school for a few years.

Mrs. Sara Miller Dennis Rowell died at her home in North Tarrytown, New York, after a long illness. She was a daughter of the late Senator William and the late Dr. Agnes Dennis of Halifax. She was educated at the Halifax Academy and Truro Academy before entering Dalhousie in 1908, she graduated with a Bachelor of Arts degree in 1912. She also graduated from the nursing school of Massachusetts General Hospital in Boston during the First World War. Her husband Dr. Hugh Grant Rowell survives, as well as a brother and three sisters, Dr. Agnes Miller Dennis, C.B.E., B.A. '09, Dr. Clara A. Dennis, '05-'07, and Mrs. Robert Jamieson (Margaret, Sp. Arts '06-'07.

Ernest Rene Richard, Q.C., died at his home in Sackville, N. B., November 5, following a long illness. He was a prominent barrister of that town and was in the midst of his third term as mayor when death occurred. He was born at Dorchester, and was educated in Quebec and later at St. Joseph's University where he received his bachelor's and master's degrees in Arts. In 1910 he received his LL.B. degree at Dalhousie University. From 1933 to 1940 he served on the pensions appeal court and was a member of the Canadian Bar Association and New Brunswick Bar Society for many years. He was also past president of the Union of Towns of New Brunswick, and was actively interested in many local Associations and Clubs. Surviving are his wife, two daughters and one son.

Dr. Stanley Harcourt Peppard died at White Plains, New York, November 16, after a lengthy illness. He was a psychiatrist and director of the Essex

County Guidance Centre in East Orange, N. J. He was born at Port Howe, N. S. in 1899, and attended schools in Amherst and Oxford, N. S. He graduated in medicine at Dalhousie University in 1923 and later studied in Boston. Since then he practised in New York.

Reverend David McKean Reid died recently in Camrose, Alberta, after a

long period of ill-health. He was born in Middle Musquodoboit, and graduated with a B.A. degree from Dalhousie in 1897, and later from Pine Hill Theological College. He went west after graduation and held pastorates at Qu'Appelle, Glenavon, Khedive, and Milestone in Saskatchewan. Since his retirement some years ago he made his home in Calgary. He was 84 years of age.

MARRIAGES

June, 1957, in Halifax, Pamela Sutherland, B.Sc. '57, of Halifax to Paul Gardner Kennedy, Dip. Eng. '56, B.Sc. '56.

May, 1957, in Sussex, N. B., Audrey Mae Friars, of Sussex, to Dr. Allison Carmen Kelly, M.D.C.M. '56, of Saint John, N. B.

May 17, 1957, Sackville, N. B., Betty Margaret Cooper, Sussex, England, to Laurie MacCallum Allison, Jr., B.A. '49, of Sackville, N. B.

June, 1957, in Edinburgh, Scotland, Elizabeth Johnston, of Edinburgh, to Captain Peter Sederis, B.Com. '50, of Halifax, N. S.

June, 1957, in Toronto, Ont., Frances Rose Bachynski, of Espanola, Ont., to Donald F. Maclean, M.A. '47, of Halifax.

June 1, 1957, in New Glasgow, Joan Elaine Woodside, B.A. '54, of New Glasgow to Murdock Stewart MacLeod, of Sydney, C. B., N. S.

June 1, 1957, in Montreal, Bernice Marie Therese Parson, R.N., of Montreal, to Dr. Rex Lomar Langdon, M.D.C.M. '57, of Botwood, Nfld.

June 8, 1957, in Halifax, Gwyneth Anna Eileen Gwynne-Timothy, "Craigmore," Fairview, to Ronald Edward Harris, B.A. '55, Fairview, N. S.

June 15, 1957, in Halifax, Carolyn Cleveland Myrden, to Peter Ramsay Doig, B.A. '51, B. Com. '53.

June 25, 1957, in New Glasgow, Jean Marie Ballantyne, of Cape George, Antigonish Co., to Dr. George Ross Langley, M.D.C.M. '57, of New Glasgow, N. S.

June 29, 1957, in Jollimore, Halifax, Co., Frances Raddall, of Liverpool, N. S. to William Fraser Dennis, Med. '56-'57, of Brookfield, N. S.

June 29, 1957, in Bridgetown, N. S., Jeanette Elaine LeBrun, B.A. '55, of Bridgetown, N. S., to Barry James Humble, of Brantford, Ont.

June, 1957, in Halifax, Donna Jean Shaw, Arts '52-'53, of Halifax, to Kenneth Elliott Tingley.

July, 1957, in Embro, Ont., Isobel Lenore Barker, of Woodstock, Ont., to Eric Bligh Kinsman, LL.B. '52, of Kentville, N. S.

July, 1957, in Montreal, Paula Pascal, of Montreal, to J. Stuart Cohen, Com. '47-'49, of Sydney, N. S.

July, 1957, in Lower Norton, N. B., Kathleen Lawrence, of Lower Norton, to William Graham MacLeod, Sci. '53-'56, of Dartmouth, N. S.

July, 1957, in Sydney, N. S. Gwendolyn Mary Cave, of Dorset, England to Dr. Earl E. Lewis, B.A. '32, M.A. '33, of Sydney, N. S.

July, 1957, in Fredericton, N. B., Barbara Elizabeth Bell to Ronald Charles Stevenson, LL.B., '53, of Edmundston, N. B.

July, 1957, in Lunenburg, N. S., Ruth Murray Creighton, of Lunenburg, to Richard George Taylor, B.Com. '56, of Windsor, N. S.

July 3, 1957, in Halifax, Bette Joyce Wilton, of Halifax and Saskatoon, to Dr. Albert Ernst Johnston, M.D.C.M. '56, of Montague, P.E.I.

July 6, 1957, in Ottawa, Phyllis Audrey Button, of Ottawa, to William Murdoch Chisholm, Dip. of Eng. '50, of Dartmouth, N. S.

July 20, 1957, in Scotsburn, Eileen Olga MacKay, of Scotsburn, to Donald Ellsworth MacLeod, B.A. '51, now of Scotsburn, N. S.

July 26, 1957, in Halifax, Carolyn Ann Dobson, of Halifax, to Michael Donald MacDonald, LL.B. '57, of Halifax, N. S.

July 27, 1957, in Halifax, Diana Mary Roberts, of Ottawa, to Hugh David Peel, B.A. '54, LL.B. '57, of Truro, N. S.

July 27, 1957, in Montreal, Heidi von Brackenhansen, of Montreal, to Robert E. Giffin, Sci. '47-'48; of Halifax, N. S.

August, 1957, in New Glasgow, Mary Christine MacLennan, of New Glasgow, to James Gordon Lawley, B.Com. '51, of Glace Bay, N. S.

August, 1957, in Dartmouth, Florence Marie Martin, of Dartmouth, to David Ignatius Jones, LL.B. '56, of Rockingham, N. S.

August 13, 1957, in Renforth, N. B., Josephine Mary Russell-Wakefield, B.A. '56, of Brookville, Saint John Co., N. B. to Dr. Michael Selwood, of Penticton, B. C.

(Other summer marriages)

Barbara Ann Grossman, B.A. '55, formerly of Halifax now of West Vancouver, to Edward Arnold McAlpine.

Florence Eleanor MacDonald of New Glasgow, to Daniel Brian Joseph O'Brien, M.D.C.M. '57, of Moncton, N. B., formerly of Halifax.

Catherine Aileen Munro of West Vancouver, to Dr. James Alexander Gibson, M.D.C.M. '54, of Fredericton, N. B.

June Eikhoud of Wheatley River, P. E. I., to Rev. Flemming Holm, B.A. '46, M.A. '47, of New Glasgow.

Amy Gertrude (Judy) Carew of Lindsay, Ont., to Ian Christie McDermid, B.Sc. '51, LL.B. '54, of Halifax.
