2006 - 2007

YEARBOOK MESSAGE

Pharmacy Yearbook Committee 2006/2007

This book contains still photos of events that occurred during the 2006/2007 College of Pharmacy school year.

Mechanism of action: Stimulates the sensory regions of the brain, causing an increase in excitatory neurotransmitters.

Pharmacokinetics: Effect is transient and depends of age, sex and school spirit. Also, CF* levels may contribute to overall effect. (*coolness factor)

Indications*: This can be used by pharmacy students and pharmacy professors for fun. (*Off label use: everyone else)

Contraindications: People without a sense of humour may sustain permanent vision changes.

Precautions: Avoid use in people with a history of urinary incontinence.

Adverse Effects: Digestive system - nausea, vomiting
Nervous system - confusion, tremor, nervousness, hallucinations
Respiratory system - shortness of breath
Special senses - blurred vision, diplopia

Overdose: No treatment. Just put the book down and do not talk about pharmacy for a couple hours.

Dosage: About 60 doses are available. Maximum dose: none.

Supplied: Each hard cover book is full of extreme pharmacyness.

Thanks to everyone who sent in pictures - we couldn't have done it without you all! Special thanks to Leslie (Jostens Rep) and Rita Caldwell. We had a great time putting it together. We hope this book captures some of your favourite moments....enjoy!

Ashley, Danielle, Emily, Jason, Melissa, Zainab
Pharmacy Yearbook Committee 2006/2007

DIRECTOR'S

MESSAGE

On behalf of the Faculty and Staff of the College of Pharmacy, I am pleased to have the opportunity to extend our warmest congratulations to the Class of 2007.

It is hard to believe it was just four years ago that you entered the College of Pharmacy and now it is time for you to move on to the challenges of your new careers in pharmacy or to continue on with your education. The past four years have been an exciting time in the Colleges history. This year, The Dalhousie Student Pharmacy Society (DSPS) won the A-level Student Society of the Year Award, sponsored by the Dalhousie Student Union. This is the second time in four years the DSPS has received this award. It was wonderful to see the establishment of the Dalhousie Pharmacy Student Endowment Award. The leadership of your graduating class, DSPS and CAPSI in establishing this fund for future students is commendable.

These are also exciting times for our chosen profession of pharmacy. The Canadian Pharmacists Association (CPhA) recently led a Blueprint for Pharmacy calling pharmacists to shift more attention to patient-centered, outcome-focused care. CPhA also provided us with key actions in order to realize this vision. Legislative changes are occurring in some provinces to support various forms of prescriptive authority. The role of our technicians will soon be changing. Many of our licensing bodies are looking at incorporating technicians under their Acts along with the pharmacists. Our accreditation body, CCAPP (Canadian Council for Accreditation of Pharmacy Programs), will be accrediting technician programs as soon as 2008. The scope of practice for pharmacists continues to expand and pharmacists are finding new roles within primary health care reform. Patient safety is still one of the hottest topics in health care and pharmacists in both community and hospital settings are taking leading roles to improve the medication use system. Hospital Accreditation will be requiring all hospitals to have a plan within the next three years to implement medication reconciliation for all patients.

Our profession is not without its own challenges: the outdated payment schemes that focus on dispensing fees rather than service, our lack of access to patient information, and the debate over the educational requirements for entry to practice in Canada continues. Change will not occur immediately but we are on the right path.

I am confident that as graduates of the Dalhousie College of Pharmacy, you are equipped with the skills needed to meet any of these challenges and to take advantage of every opportunity. Be sure to become involved and help with the necessary changes to move our profession forward.

Congratulations and best wishes for the years ahead. Please be sure to keep in touch.

Rita K. Caldwell, BSc(Pharm), MHSA
Director

KAREN WALSH

What did you want to be when you were younger?
Well, I really wanted to be a veterinarian but I also wanted to be a rock star and just before deciding on pharmacy, I wanted to be a marine biologist.

If you could have a different first name, what would it be and why?

Well, I like my name as it is but I think it would have been cool to have a more unique name. Maybe if my first name was Storm or Ziggy, I'd have made it big in the music biz! Irish would have been a fun name considering my maiden name was Moss : P

DAVID GARDNER

Do you have any lucky charms?

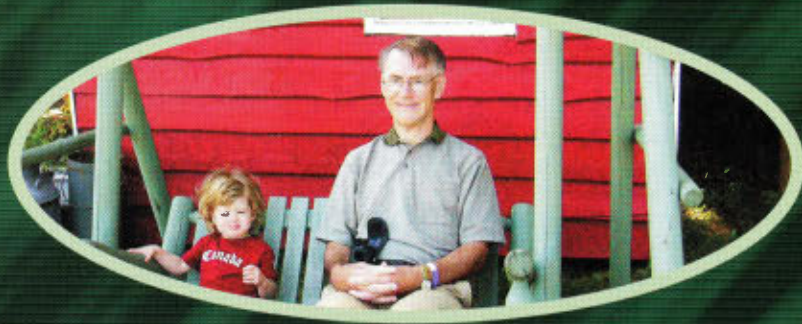

The "golden boy" (what my sisters called me when we were young) doesn't need lucky charms!

What's the worst aspect about teaching?
Marking. No doubt about it.

If you could have a different first name, what would it be?

Hmmm. That's a hard one. Either Stig or Xabi.

PHARMACY

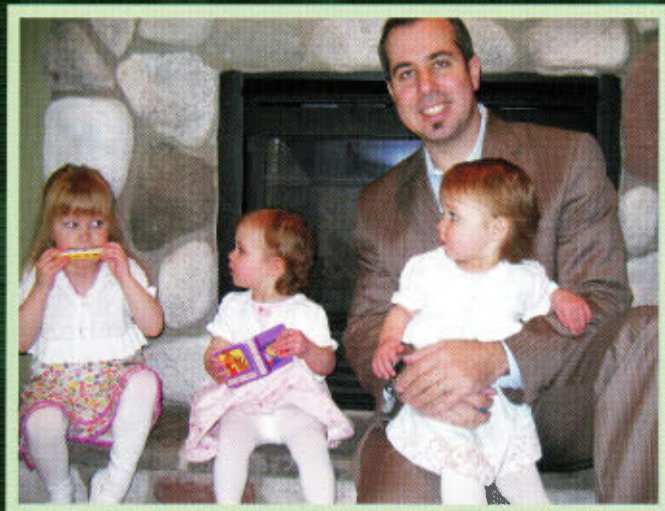

DAVID JARRETT

What would people be surprised to learn about you?
My favorite sport is skiing.

What did you want to be when you were younger? A grown up.

What is your favorite place on Earth? Top of Whistler Mountain.

If you could have a different first name, what would it be? Randy.

WILL ALKINSON

What would people be surprised to learn about you?

In real life, I don't look like my pictures and I am actually 6 foot 10 inches tall.

What is your favorite place on Earth?

This is a pretty cool place:

<http://disneyworld.disney.go.com/>

If you could have a different first name, what would it be?

"Zainab" could be interesting.

You are taking a medication and your doctor gives you a choice of equipotent drugs to choose from. The only difference between them is the main side effect. Arrange the following adverse effects, from most to least desirable --- dysuria, dependence, photophobia, alopecia, insomnia. I have no problem with those side effects. I would just be grateful that these drugs don't cause the dreaded hellenologophobia (the fear of complex scientific terminology).

FACULTY

SUSAN MANSOUR

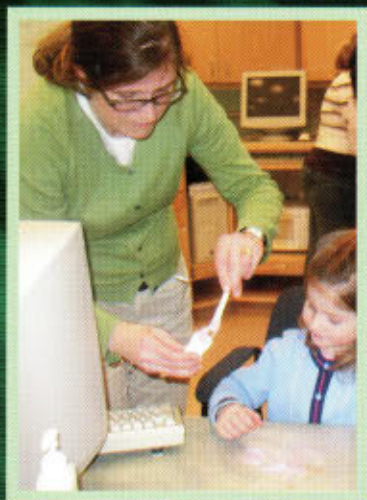

What would people be surprised to learn about you?

That I'm a grandmother.

You are taking a medication and your doctor gives you a choice of equipotent drugs to choose from. The only difference between them is the main side effect. Arrange the following adverse effects, from most to least desirable --- dysuria, dependence, photophobia, alopecia, insomnia.

Alopecia (you can wear a wig!), photophobia (sunglasses), dependence, dysuria, insomnia (very cranky when tired)

What did you want to be when you were younger? A teacher.

"So you like to party?" -ancient Yemen proverb

In all seriousness, 2006-07 was a banner year for the Dalhousie Student Pharmacy Society (DSPS). The DSPS continued to be a true Cadillac Society, with our members organizing numerous professional initiatives, charity drives, and fun-filled events that set the bar for years to come. Such dedication by you, our members, culminated in the 2006-07 Dalhousie Student Pharmacy Society winning the DSUs coveted Society of the Year award for the second time in four years!

Orientation week started off with a bigger bang at the XVIII Annual VIP T-Room Bash welcoming the Class of 2010! They were subsequently wooed at the Pharmasave Luncheon, educated on the subtle arts of brewing at the Keiths Brewery, exposed to way too much spandex at the Pharmacy Dodgeball Tournament, spent a fine evening surveying the waterfront on the Queen Mary II, and capped off a tremendous o-week with an old fashioned ho-down at Hatfield Farms. We have to credit Stephanie, Laurie, and Greg for putting on such an awesome orientation week!

The fun continued with the first 80s HPL, where tinsel wigs and mid-thrift mesh shirts were back in style. Classiness found its way back to the College with the 3rd Annual White Coat Ceremony, where dignitaries and faculty welcomed the Class of 2010 to our profession.

As with every year, our student members were always willing to go above and beyond expectations to make a real difference in the community. Thanks to the tremendous work of Alicia and Jennifer, DAL Pharmacy had a huge turnout at the Run for the Cure, raising over \$5000 for such a great cause. Numerous food, clothing, and blood drives were successful thanks to Lindsey, Leah, and the aforementioned. Katie, Amanda, and Vania achieved record fundraising for the DSPS, helping to raise thousands for worthy causes. We should all be proud of our members actions that have resulted in the betterment of those less fortunate.

Professional development continued to play a huge role at the College of Pharmacy. The DSPSs annual Evolve: Career Fair helped to expose students to the many facets of our profession. Thanks to Valeries hard work our peers saw our profession practiced at a community, hospital, government, and volunteer level. The Atlantic Pharmacy Advancement Conference (APAC) took place in November and was a great success here in Halifax. Over 300 delegates from Dalhousie and Memorial Pharmacy programs attended and were engaged by challenging clinical and professional speakers from our region. InPharmation editors Lindsay and Hayley helped bring interesting and entertaining stories to our attention throughout the academic year. And of course Colleen and Megans CAPSI symposiums were very thought provoking, and deserve high praise for bringing debate back into our Colleges curriculum.

The good times continued to roll with Chris Cormier winning the 3rd annual Mustache Mania as Goth Stache, a memorable Pharmacy ball at the world trade center, numerous HPLs, Grawood nights, PDW, and of course the DSPSs Pharmacopeia where the class of 2009 rode Dr. Jakeman and Dr. Goralski ever increasing academic dominant male tension to victory (along with the most uncanny Michael Head imitation ever seen)!

In closing out the year the DSPS underwent a crucial executive structural re-alignment at the AGM meeting to bring the DSPS up the par with other pharmacy student organizations across Canada. In addition the DSPS teamed up with the Grad Class of 2007 and CAPSI to start the Dalhousie Pharmacy Student Endowment Fund (DPSEF), whereby the fund will help support students financially, provide teaching resources, and bursaries for students travelling on aid missions throughout the world. The DSPS contributed \$7000 raised from the Evolve: Career Fair to help the fund reach its \$10 000 goal. The hope is that future students will receive the benefits from this fund for many years to come.

So this is what all of you have achieved over the past year by attending, volunteering, organizing, and enjoying all the events the DSPS has facilitated over the past year. Thank you all for making this year such a great success!

P.S. Val, Michael, and Tiffany congrats on a year well done!

Cheers,

*Alistair Bursey
DSPS President 2006-07*

Class of 2007

Zainab Abidali

I can't believe that I don't have to photocopy another page out of Korda-Kimble, or study another PAW, or ask my dad for about \$4500 for my tuition each term, or memorize the chemical structure of vancomycin, or sell pizza in the hallway, or find parking around the Dunn building, or put another \$10.00 on my debit card for photocopying, or have a study session with Kelly in the Killiam library, or break my neck writing another exam in the McCain Building, or do another learning issue!!! I am sad too because it was routine to do all that and see the same 39 faces for the past four years. Thanks to my parents and sisters and brothers - I couldn't have done this without you supporting me. Remember, we are the class of 007 so be cool like Bond.

Michelle Amoaka-Tuffour

I Chronicles 16:8 Give THANKS to the Lord, call on his name, make known among the nations what he has done. In all things thanks must be given to the Most High for it is through Him that I am here today. It is by the grace of the Most High that I have had the strength to move on. He told me to cast my burdens on him, trust in him with all my heart. He told me to lean not on my own understanding and he would make my path straight. And that he has! There is no greater love than the unending love of the Most High and over the past years he has shown his love through my wonderful family and friends. Thank you for being there, for your love and support. Class of 2007 I wish love and many blessings...A

Charline Arsenault

I can't believe how fast these past four years have gone by. I am grateful for the friendships I've made, especially Travis and the "French girls" - Alyson, Becky, Brigitte, Lacey & Sylvie - two of whom are actually English. I've had the best times in pharmacy, and I will never forget the fun parties at Karim's, HPLs, skit nights, PDW 2006 in Montreal, and even some good laughs in PBL. I would like to thank my family for their love and support as I couldn't have done it without them. To the class of 2007, congratulations and best of luck!

Nicolas Basque

Class of '07,
As the last four years went by,
and after meeting so many good friends,
what I really want to say
is how grateful I am to have met all of you.

As we all move on in life,
Many memories of you all I hope to keep,
New beginnings calls for celebration.
So, cheers and keep having fun!

Emily Black

Over the past 4 years, we've grown from a roomful of strangers to a roomful of friends. I will leave the college with great memories of PDW, APAC, HPLs, boat cruises and yes, even moustache mania. But most of all, I will be leaving with many new friends. To the class of 2007, thanks for all the great times and good luck.

Alistar Burse

Seems like we were just at the Pharmasave Luncheon and now were poised to start a new stage of our lives! I can't believe what a great time we've all had. Jordan, Mark, Corey, Coern, and all the fellas; Erika, Emily, Neesur, and all the ladies, we've had so many great times, laughs, parties, and memories. Big warm thanks to Mom, Dad, and Sis for always being there through all the years. Class 007, honestly couldn't have found a more amazing group to study, laugh, celebrate and live life to its fullest with. I will miss all of you and will look forward to the day we can meet up and have some more good times. I will miss 3243 Tobin with all its lovely ladies and the good times we had! Corey, Trevor and Yalal, your parties were the best, you are the bossesses with the mostest! Best of luck!

Lindsay Cameron

To my friends, I consider myself lucky to have met you and grown with you during these past four years. I want to say thank you for being such a positive force in my life.

Jordan Clark

As I look back on the past four years, there have been countless memorable moments that I have had the opportunity to share with such great people and friends. The journey that has been pharmacy is one that would not have been possible without these great friends. For this, I want to thank those that have been such a big part of these past four years. The many nights out, HPLs and skit nights to name a few have helped forge the memories that I will always look back upon with hearts full of joy. To everyone, especially those that have become such close friends for me these four years, you've meant so much to me and helped make this ride an unforgettable one. Thank you to my parents and family, and Shannon, your unconditional love and support has allowed me to reach this point and you should also take pride in these accomplishments. Thank you all! Best of luck class of 2007!

Class of 2007

Nicole Cluett

Best of luck Class of 2007!

Jody Collin

Best of luck Class of 2007!

Christopher Cormier

Class of 07, down the road is where I'll always be,
Every stop I make, I'll make a new friend,
Can't stay for long just turn around & I'm gone again,
Maybe tomorrow I'll wanna settle down,
until tomorrow I'll just keep moving on,
Down this road that never seems to end where new
adventure lies just around the bend, So if you wanna
join me for a while, just grab your hat, come travel
light, that's hobo style. - John Crossen

Good luck in the future everyone! And remember
"...not to be afraid of computers/cell phones taking
over the world. They're just sitting there. You can hit
them with a two by four." - Thom York, Radiohead

Amy Cross

Wow, four years have come and gone so fast! It seems like only yesterday I was making my home in the backrow of 109 awaiting orientation. It's been such an incredible journey with all of you and even though it was a lot of hard work, the things I will remember the most are the amazing people I've met, the close friendships that I've made and the fun memories that we share! A special thanks to Ken, my whole family and my friends for your never ending love and encouragement. For I know the plans I have for you, declares the Lord, plans to prosper you, plans to give you hope and a future. Jeremiah 29:11.

Jeanne Crowdis

Best of luck Class of 2007!

Elizabeth Derrah

It's been a great four years here at the College of Pharmacy, learning all about the wonders of pharmacy and getting to know so many wonderful people. I will always cherish the many times we spent together (OST and Grey's Anatomy nights, Fenwick parties, and volley-ball). Now you can find me living in beautiful Woodstock NB, working for DrugStore pharmacy and living the Carleton County dream! Thanks to my parents and husband, Matt, for all your help along the way. Best wishes to all!

Adam Doyle

Big ups and shout outs to Mommy, Dad, Amanda, Tub, Lindsay Carruthers, Sex Panther, Monte, J. Nice, Uncle Kinte, T Money, Pillin Millen, Chadwick, BK, Goodie (Moncton Crew what what!), Swrvon, Nate Dogg, Muskrat, Handsome Mike, Max, Crime, Toweriss, Krystal, Ebony, Shortall, JV, Jordan, Big Al, KTD, Travesol, Nick, Duckman, Mark, Big and Lil Drew, Brodie, Lyndsay, Lori, Nikko, Maria, Meade, Amie, Leanne, Tim, everyone from Uniacke, anyone who partied at the Palace and anyone whose been in Trystans basement. Keep it real and holla at cha boyyyyyyyyyy!

Pamela Edmunds

Best of luck Class of 2007!

2007

Class of 2007

Mary Elliot

Well it's actually 2007! For four years now, that number has had a special meaning and I can't believe we're already here. Being a part of this class has been a wonderful experience and I know we've all made memories and friendships that will last a lifetime. Thank you to my family for their love and support and to my friends for making this about a lot more than books! Now the bubble bursts and were off into the real world. Best of luck to you all!

Jennine Ernst

If you had told me in high school I was going to be a pharmacist when I grew up, I would have disagreed. And although right now I may disagree that I am indeed grown-up, I would have to say that I am going to be a pharmacist. For that I would like to thank ALL of my friends, especially those from the Class of 007 whom with I have learned, worked, partied, traveled and had a most memorable 4 years! I now have friends, some even born in the 70s, who will scatter the country for me to visit/stay with for free over the years. To Mom and Daddy, your love landed me halfway around the world and life has been pretty damn good ever since, even with the other kids around. I love you all. All the best to the Class of 007 and to you I leave the fact that you now have an ethnic friend...well, an ethnic-looking friend at least :)

Crystal Fitzpatrick

I would like to thank my parents, friends, and family who have supported me through my educational goals. I would also like to wish my fellow classmates the best of luck in the future.

Angela-Dawn Frankenne

Thank you Ashley, Linda, Jody and Hannah. I wish you all the best.

Melissa Fraser

Wow! It's amazing how quickly these past four years have gone! It seems like only yesterday we were in room 109 meeting each other for the first time. Since then we've been put to the test and survived many a challenge and because of all of that we have ultimately created some very unforgettable memories... HPLs, skit nights, PROM and Cuba... just to name a few. It's been a blast! We have made lifetime friends and shared so many good times that will last forever. A special thanks to my mom, dad and brother for all their love, support, prayers and encouragement along the way and to 'the girls' these past four years would not have been the same without you... thanks for the memories!

Linda Gaudet

Best of luck to the Class of 2007... Four years went quickly! It must have been the coffees and desserts in the dentistry building. Returning to school after so long away certainly had challenges but new friends made it easier. Thank You to Angela, Jody, Hannah and Jeanne. It's the journey, not the destination.

Gregory Gill

Thanks everyone for four great years full of great memories. I hope everyone has a great start to their career and no one becomes bitter too fast. Just remember my motto...relax and don't work too hard and you'll be fine.

Sylvie Goguen

Well here we are. It is hard to believe that the last four years went by so quickly, but I have to say that I couldn't have asked for a better four years. I have met lots of great people and made some truly amazing friendships. To the Girls (you know who you are), you made this all the more worthwhile!! I love you girls and remember to keep in touch. Special thanks to Jean-Marc, my family and my friends for their continued love, support and patience. I couldn't have made this journey without you. I won't be missing those long drives home even though we always had a blast (thanks Brigitte!). Congratulations and best of luck to the Class of 2007.

Class of 2007

Heather Goodland

Congratulations! Today is your day. You're off to great places! You're off and away. You have brains in your head. You have feet in your shoes. You can steer yourself any direction you choose.....and will you succeed? Yes! You will indeed! (98 and 3/4 percent guaranteed!)

Best of luck to the class of 2007, it has been an enjoyable and memorable four years!

Lori Graham

"Maybe, you have to let go of who you are to become who you will be"
Carrie, Sex and the City

Jessica Griffiths

Best of luck Class of 2007!

Christine Halef

It is time to move on to new experiences and make new memories, but the last four years will never be forgotten. Good laughs, great people, hard work, and unforgettable memories. It was a pleasure spending it with such an amazing group of people. Thanks to the "girls" that made every day interesting... I will miss our social updates! Thanks to my family and friends for their love and support along the way. Congratulations and best of luck to the Class of 2007!

Rebecca Hiltz Parks

It is hard to summarize four years in just a few sentences. From PBE to HEE (who knew one profession could have so many abbreviations), I've had many great experiences that I will never forget. Game nights with the French Girls, dinners, movies, chats, drinks, there is always something to do and always someone to do it with. I will miss you. I want to thank my loving husband and best friend Rob and my cute cat Roo (my study buddy). Without your help and support I know I would be lost. I also want to thank my friends and family for believing in me and being there when I needed you. Congratulations to all the grads. Good luck!!!

Aundrea Holmes

Four years has flown by and I've had a wonderful time with all of you, both inside and outside of the classroom. I wish you all love, joy, and peace as you move forward in your lives. Special thanks to my family and friends for being there for me throughout the years.

"Inspiration exists, but it has to find you working"
Pablo Picasso

Leslie Howard

Congratulations to the class of 2007! I have thoroughly enjoyed my 4 years at the College; it has been a pleasure working with all of you. Throughout my time as a pharmacy student, I can honestly say that I have met some of the most inspirational individuals here and I feel proud to call you my peers. I would like to thank my friends and family for surrounding me with the best support system a woman could ask for. Mom, thanks for a listening ear when I needed it. To my father, you reminded me that positive thinking will always guide you in the right direction. Your wisdom, motivation and reassurance were always appreciated. I wish all of you happiness and success in your future endeavours wherever your paths may lead you. "Destiny is not a matter of chance, it is a matter of choice; it is not a thing to be waited for, it is a thing to be achieved." *Winston Churchill*

Krista Holland

I want to thank my friends for the crazy fun memories that will stay with me for the rest of my life. I'd say some of the memories that stick out would be MUN/DAL, DR 2005, scooters in Cuba and of course 'stay classy but giver'! I'll never forget being Krytt from the crypt and hosting the Tyra Banks show starring the Cuban liars. Good luck to everyone in the future!! P.S. I was the only one in the class who went to PDW all 4 years!

Class of 2007

Lacey Hubbard

Four years ago I walked into room 109, a roomful of people unknown to me, and wondered what the next four years would hold. A lot of stress and studying is what I imagined. Little did I know I was about to spend the best 4 years of my life, and in that room were people who were going to become some of the best friends I have ever known. Thank you Class of 2007, for making these years so memorable. I wish you all the best of luck. I would also like to thank my boyfriend Jean-Francois and my family for supporting me throughout my studies. I couldn't have done it without you!

Krysta Hudson

Congratulations Class of 2007! I can't believe another 4 years has come and gone. I think I'll be lost in the real world without a tutorial group and my girls- Melissa & Leslie (keep in touch!) Thanks to the Class of 2007- it's been fun! I will think of each and every one of you when I pull your l's out from under my bed. Thanks to my family and friends, and especially Dan for helping me get through the rough times. Thanks to all of the great pharmacists I've worked with over the past 4 years- I've learned from the best! Good luck to all of the new grads and I hope we meet again soon!

Andrew Johnson

Best of luck Class of 2007!

Collen Johnston

To all my pharmacy friends - remember this one?

"You know this boogie is for real,
I used to buy my faith in worship,
But then my chance to Heaven slipped,
I used to worry about the future
But then I threw my caution to the wind,
I had no reason to be care free,
No no no until I took a trip to the other side of town
Yea yea yea, you know I heard that boogie rhythm
Hey I had no choice but to get down down down,
Dance, nothing left for me to do but dance,
Oh these bad times I'm going through just dance
Got canned heat in my heels tonight baby"
Canned Heat - Jamiroquai (from Napoleon Dynamite)

It's been a blast! - Collen

Donald Johnstone

Well here we are - four years certainly flew by in a hurry. I guess time does fly when you're having fun. A quick thanks to all those who made life at the College so enjoyable and to my friends and family for supporting me along the way. HPLs, skit nights, the endless late nights and all the other good times will certainly be missed but never forgotten. Good luck to all the grads of the Class of 007!

"As long as you're green, you're growing.
As soon as you're ripe, you start to rot."
Ray Kroc

Mark Karayacoubain

Thanks to anyone who made me laugh in the past four years, and good luck to everyone else.

Michael Kelly

It's amazing how much can change in 3-5 years. Some people have changed visually, some have changed emotionally, and some have changed mentally. Many of us will be spreading out to cover much of the country, and going our separate ways. However, one thing that has not changed (at least I hope) is our love for pharmacy. I would like to thank GG, JL, CM, BM, AN, AP, AR, and JU for the good friendships made over the time at the college, and hope to keep in touch. As to the rest of the class, it's been a great ride, and hope to see everyone down the road at some point. Good luck everyone!

Scott Knowles

I would like to sincerely thank my family and friends for your continuous support and encouragement throughout the years. Congratulations Class of 2007, I wish you all the very best in your chosen career paths. It is an honor to be associated with such a fine group. I am forever indebted to you for the camaraderie shared at the ColP over the past four years. To the back row, thank you for providing such insightful entertainment, it has been a pleasure. You Stay Classy 007. Be careful about reading health books.

"You may die of a misprint!" Mark Twain

Class of 2007

Jennifer LaPierre

After four years of hard work, we are finally finished and ready to start our careers as pharmacists! Thank you to my friends for making it all worthwhile. In the midst of all the learning issues, exams and studying, we've managed to make friendships that will last long after we step out of the Burbidge building for the last time. Thanks to Mom, Dad, and Jeremy for all your support. I wouldn't have made it without you.

Congratulations Class of 2007! Good luck in the future!

Stacey Larade

Best of luck Class of 2007!

Angela LeBlanc

The last four years at the college of pharmacy have been a great learning experience, both in and out of the classroom. I've been blessed with some amazing friends and many memories I will cherish for years to come. Thank you to my family for all their love and support. Best of luck to the Class of 2007 in whatever the future holds for each and every one of you.

Laurie Legere

The past four years have gone by so fast. Pharmacy has been one of the most challenging and yet wonderful experiences in my life. I will be forever grateful for the never-ending love and support from my family and friends.

To the class of 2007, I wish you all the best of luck in the future and I pray that "The Lord bless thee, and keep thee" Numbers 6:24 Congratulations! We have finally made it!!

Alyson Lizotte

Another 4 years have come to pass, my 2nd degree, hopefully my last! I first want to thank my family and Phil for their patience and support while I was here in Halifax. I also want to say thanks to all my crazy friends that I met along the way (you all know who you are!), and especially the French Girls. I wish we all had more time to spend together, but we'll never be too far apart! Congratulations Class of 2007 and good luck with all your future plans!

Marlene Ma

Congrats to the Class of 2007. It's been an amazing time and I would like to thank each of you for making the past four years so memorable. I have gained some amazing friends and have some fantastic memories of HPL, FTHO, APAC, PDW (Montreal and Winnipeg) and of course PBL. I've had such a great time getting to know all of you over the last 4 years and would also like to wish you guys the best of luck in the future. Thanks for all the laughs and the friendships and keep on having fun.

Lindsay MacCormack

The past 4 years of my life have involved countless learning issues, late night studying, and long days crammed into small classrooms with the same 90 people everyday - I wouldn't change a thing! The crew of friends I have made at the college are the reason why I enjoyed Halifax so much. Late night pizza and nachos, house parties, APAC, pseudo-balls, and living in every part of the city possible are just a few things that I will miss. To my mom, dad and Sarah, thank you for your love and guidance - and not letting me quit to work at wal-mart stocking shelves (true story). Thank you to Mike for your love and patience from a distance. I wish nothing but the best for the class of 2007 as we go our separate ways - only to meet up down the road for some more laughs and great memories. To the big city of Charlottetown... here I come!

Melissa MacDonald

Congratulations Class of 007! These past four years have been full of good times with great friends; here's to many more to come. Thanks to my parents, sisters and friends for being a constant source of support and motivation. To all the grads, I wish you lots of happiness and success in the future. "Wherever you go, no matter what the weather, always bring your own sunshine."

Anthony D'Angelo

Class of 2007

Ian MacFarlane

Best of luck Class of 2007!

Sarah MacKinnon

Congratulations everyone! Our four years together have certainly passed quickly. Although we are all excited about getting out and on with our lives and careers, we will one day look back and see how great it was to go to school each day surrounded by friends. Thank you to my friends for just being who you are and filling each day with laughter, you have been a true blessing in my life. A special thank you to my parents, brother, and sisters for shaping me into who I am today! I will look back on my years at Dal and cherish the moments surrounded by friends and family. Good luck to everyone wherever life takes you.

Lindsay MacLean

The past four years have flown by so fast. I never thought I would see the day when I was finishing school and entering the real world. The past four years have been the best in my life and I will never forget the friends or the memories we have made. Good luck to the grads of 2007, you will never be forgotten. In closing I will use my favorite quote given to me by my grandfather:
"In the cookies of life, best friends are the chocolate chips".

Kendra MacLellan

Kendra hails from small town Judique, Cape Breton and has spent her university career at Dalhousie University. She has fond memories studying with Krysten and will never forget the long late nights at the CompSci. She loved to hate PBE but will always remember the fun times she had over the past 4 years, celebrating her 21st birthday with BBB, Sexy Girl parties, Rashika's Bachelorette, pharmacy balls, and skit nights. Although Kendra has a small frame, she also has a big heart, and makes a damn sexy 80's aerobic instructor. Kendra will always remember the friendships she has made in pharmacy school and wishes everyone good luck in the future.

Brigitte MacMichael

Have had many wonderful experiences at the College and I am thankful to have been surrounded by all the great people in pharmacy. Not only have I gained lots of new knowledge, but I was also fortunate enough to develop meaningful friendships that I will forever cherish. I would like to thank my wonderful husband who has always given me his full support and encouragement throughout our relationship, especially during my time at the College since it was very difficult being away from each other. This brings me to thank the person with many hats - my "Halifax better half", my roomie, my gym partner - Sylvie, for sharing all the fun experiences we've had in our crummy apartment and at the College. I couldn't have picked a better person to live with for these 4 years. I will definitely miss seeing you all (especially my girls - you know who you are) and I wish you all the best!

Melissa MacQueen

Best of luck Class of 2007!

Erika Maher

We are now pharmacists! We've had a lot of great times along the way and I hope it doesn't stop here. If it weren't for all the pharmacy acronyms (PBE, IPL, HPL, APAC, PDW, DSPS, CAPSI), who knows what we would have learned and what we would have done for fun! I feel fortunate to have spent these past 4 years with all of you. I wish only success and happiness in your lives and careers and I look forward to seeing you again in the future. Thank you to all the great friends I've made from across the country (and beyond) and for all the unforgettable memories you've made these years some of the best of my life. Mom and Dad, thank you for your lasting love and encouragement through all the years, I appreciate it more than I can express. And remember, "If at first you don't succeed, skydiving is not for you!"

Philip Mang

Best of luck Class of 2007!

2007

Class of 2007

Carla McCormack

When we arrived at the College four years ago, 2007 seemed like a lifetime away. Now it seems like only yesterday we were introduced to the world of PBL and learning issues. To JU, JL, AR, MK and BM - thanks for being such wonderful friends! PBL always have fond memories of HPLs, Christmas Balls, APAC in St. John's, potlucks at Ash and Ang's (esp. turducken) and half naked men 31 and of course Pink Fest '06! Thanks to my family and Damian for their endless support and love. Best wishes to the Class of 2007. We did it!!

Drew McNeill

"You're 5 foot nothing! 100 and nothing, and you have barely a speck of athletic ability. And you hung in there and you're gonna walk outta here with a degree. In this life, you don't have to prove nothing to nobody but yourself. Ain't making myself clear?" (Rudy). Four years ago I was a little first year student with a dream of becoming a pharmacist, and here I am today, a little pharmacy graduate. Over those 4 years I've had memorable times with some wonderful people and hopefully left a lasting impression on the College. To my mother, father, sister, thank you so much. Fellow graduates, use your God-given talents to make a difference. "...remember kid, there's heroes and there's legends. Heroes get remembered, but legends never die. Follow your heart kid and you'll never go wrong" (Sandlot).

Erin Mikkelsen

Erin is one of the many Cape Bretoners in the Class of 2007. Prior to pharmacy, she completed a four year science degree at Cape Breton University. Her future plans include returning home to her roots to begin her pharmacy career. She will always remember the good times, such as pharmacy hall 2007, Rashika's bachelorette party, Kendras 888 birthday bash, girls nights out, Halloween HPL and skit nights to name a few. She will never forget the friendships she has made over these past four years. Erin would like to extend a special thanks to her family and Trevor for all the love, support and encouragement she's received along the way.

Congratulations to the Class of 2007 and all the best in the future!

Bradley Mitchelmore

On our first days at the college, we thought this day would never get here. Yet, in the blink of an eye, we are ready to venture of into a new chapter of our lives, armed with new friendships and a wealth of knowledge. I'd like to thank my friends and classmates for making the past four years a rewarding and memorable experience. Thank you to my parents for all their support over the past five years. Without you, this would not have been possible. Congratulations and best of luck to the Class of 2007!

Angela Morrison

Here we are at last! Seems like just yesterday we were all sitting in room 109 for the first time. I never imagined then that I would become a part of such an amazing group of people. Though some times were stressful, I always took comfort in knowing that 89 others were going through the exact same agony! The good times though, far outweighed the struggles, and it is these memories that I'll cherish. All in all, these years have been the best. I've learned some neat things, had some great times, and made some truly fabulous friends.

So Cheers to the Class of 007! Best of luck in your future life as a pharmacist, and remember, "If opportunity doesn't knock, build a door!" Milton Berle

Katherine Rainforth

Another four years done, congrats everyone. It has been fun and I will leave with lots of memories. A big THANK YOU goes out to my husband, Adam, without you and your support I likely would not have found myself here where I am today, so thanks babe. To the Class of 2007: It has been an amazing journey, congratulations and best wishes for future success and happiness - hope to see you around Halifax.

Taryn Reid

Congratulations to everyone and thanks for the fun times over the last four years. Good luck to everyone and hope to see you all again in the future. Thanks for all the great times at KTD's, JC & AJ's, TS's, AB's and everyone else's parties! Thanks especially to my family for their support over the years.

Brodie Rhodes

Four years of toil and torment has transformed into a lifetime of friendships and memories. As for words of wisdom specific to our profession of pharmacy: Be careful whose toes you step on today, they may be connected to the ass you're kissing tomorrow. I wish the best of luck and unbridled success to all the graduates of 2007 and sincerely hope that life's journey takes you to your desired destination.

Kelly Richard

These past four years have surely passed by quickly. Feels like it was just yesterday when I was sitting in room 109, wondering how these four years were going to play out. Although there were stressful times, there were many memorable moments that I will never forget. I would like to thank my family for being so supportive. To the Class of 2007, congrats and best of luck!

Megan Ricketts

To every thing there is a season and I am heartbroken to see this season change. It has been a journey and now, with the destination in sight, I am realizing it's everything we've become along the way that will stay with us most. I have fallen in love with Halifax, pharmacotherapy, and lifelong learning. I've been helped through every joy and stumble and had the best provision a girl could ask for. I've been changed because I have known each of you.

"And when you finally fly away, I'll be hoping that I served you well. For all the wisdom of a lifetime, no one can ever tell. But whatever road you choose, I'm right behind you, win or lose. Forever Young."

Class of 2007

Ashley Ross

Congrats to the Class of 2007! Thanks to my friends for the fun times: (X-mas balls, PinkFest, potlucks and 'secret' Santa). Good memories with Ang: baby seals in NFLD, microphones, the unseasonal display, Point Pleasant, fez twins and the infamous \$2 toaster.

Good Luck to everybody!

Suzanne Saunders

Best of luck Class of 2007!

Rashika Sethi

Rashika was born and raised in a small town on Prince Edward Island by her loving parents Baldev and Rashmi. From an early age, she longed to grow up and move to a bigger city with more exciting things to do. First leaving home to complete her undergrad at LIPEI, she then moved on to Pharmacy at Dalhousie. During her final year at school, she lived out another one of her dreams by getting married in India to her loving husband Bryan. Now that school is over, she is finally getting to move to the big city as she heads off to Ottawa to start working. She regrets having to leave behind all of the great friends she's made, but is looking forward to settling down to her future.

Ashley Silliker

Only those who dare to fail miserably can achieve greatly - Robert Kennedy. From the banks of the Miramichi river to the windy harbour of Halifax (and many places in between), the past 8 years of schooling has taught me many things. However, the memories I've made with the Class of 007 both inside & outside of the Burbridge walls - are what I will not forget. Thank you to my classmates, peers, and teachers for teaching me that if you aim for the moon, at least you'll land among the stars! I would like to especially thank my parents, my brother Dax and friends for all of their support and encouragement through the past 8 years of study. To the Class of 2007, we've finally made it! I wouldn't have wanted pharmacy any other way, or with any other people! Best wishes in all that you aspire to achieve and never stop reaching for your dreams.

Winston Singleton

Best of luck Class of 2007!

Krysten Smith

Krysten Smith, a native from Sydney Cape Breton, entered the pharmacy program after a biology undergrad from St. Marys University. Krysten enjoyed her time at the College of Pharmacy and fondly remembers such events like the DALMUN conference in St. John's, the halloween HPLs, the wild cigarette parties, and who could forget the time her and Kendra had with BobbyBeBad. Even though Krysten spent much time on her studies, she found the time to make close friends among the group. Krysten is remembered for her creative style such as her illustrative cake making skills and her Tannis Juggens impersonation. Krysten thanks everyone for a great four years and wishes all the best to the Class of 2007.

Jenna Sonier

Best of luck Class of 2007!

Patricia Ssebazza

Born in Mozambique but originally from Uganda, Patricia arrived at the College after completing 2 years at Saint Marys University.

First and foremost, Patricia would like to thank God - through whom all things are possible; she couldn't have gotten this far without his everlasting presence. Patricia would like to thank her family for their continued love and support.

To her friends - Marcita, Osas & RL, thanks for being there through thick and thin. Patricia would also like to thank her fellow classmates especially Michelle, for making these past four years memorable.

Congratulations Class of 2007 and God Bless!

Class of 2007

Travis Stone

Four years ago I was terrified to go back to school after a couple years off, constantly thinking about how old I was going to be when I finally graduated. Looking back, I couldn't have been more wrong. I met so many great people along the way, and definitely made some lifelong friendships. Special thanks to Charline, who made the last couple years even better than the first. Best of luck Class of 2007!

Anna Tasiopoulos

"Goodbyes are not forever. Goodbyes are not the end. They simply mean I'll miss you until we meet again!" ~ *Unknown*
We did it! It's crazy how quickly our time at the college has passed! Although I am happy to be moving on to the real world, I am sad to be leaving such a great group of people. I will cherish the many friendships I have made, and I want to thank you all for the laughs and good times we've shared over the past four years! A special thanks to my family and SM for the constant support and motivation. I wish you all the best of luck. Keep in touch! Congratulations 007!!

Jennifer Ulman

A million thanks to five people who made the past 4 years the best a girl could ask for: Carla, Brad, Mike, Jenn and Ashley, it's been an adventure. Concerts, themed potlucks, HPL's, days at the beach, the pink party and let's fold scarves! will be greatly missed. We may be parting ways, but I predict our paths will cross again sometime over drinks and unhealthy food at Gatsby's. To the class of '07, congrats to you all, and may you all find happiness in your futures. Finally, to my family, your support has been the key to all of this, and a lifetime of thanks to you. Good luck everyone.

"Our doubts are traitors, and make us lose the good we might win, by fearing to attempt!"
Measure for Measure, William Shakespeare

Melissa Venzia Best of luck Class of 2007!

Jeremy Vuozzo

Best of luck Class of 2007!

Ashley Ward

Best of luck Class of 2007!

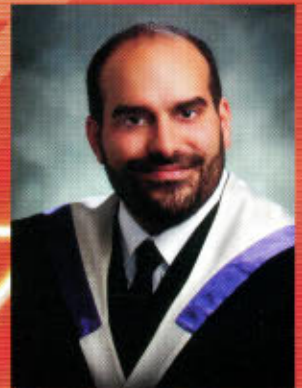

Carla Wilson

I can't believe our four years are over - they went by so quick. Sometimes it seemed like learning issues, tutorials, and lectures would never end, but we finally made it! I know all of you will have very successful careers and will make endless contributions to the profession. Congratulations and good luck Class of 2007!

Abdul (Karim) Yafai

I leave this college with a great career, the best of friends, and the love of my life. Thanks for all the memories.

Cheers,

CLASS OF 2007

CLASS OF 2007

CLASS OF 2007

of LASB
2008

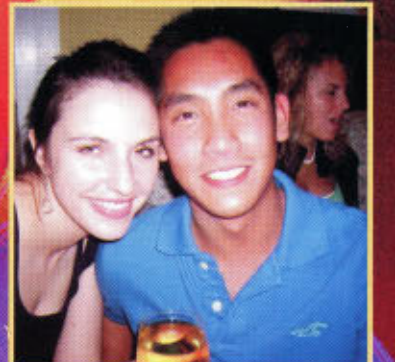

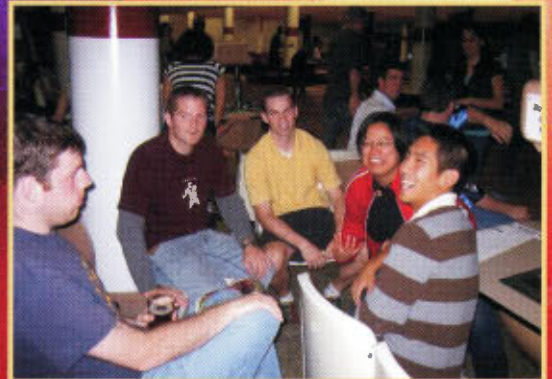

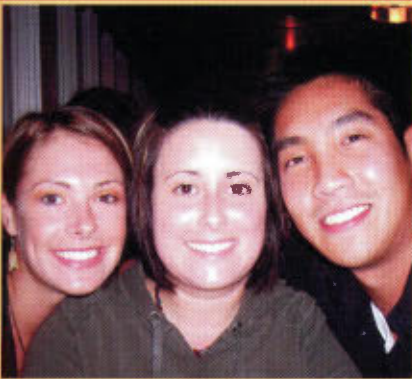

2008

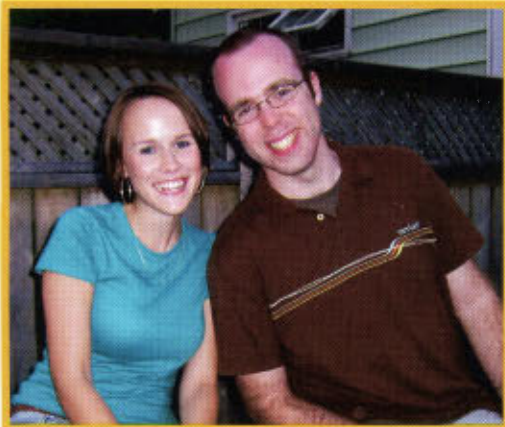

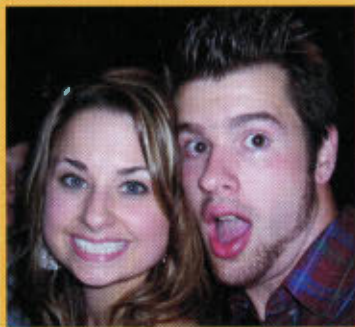

Well, it's hard to believe there is one year left at the College for the Class of 2008. The past three years really have flown by; it seems like just yesterday we were arriving at the College not knowing anyone and wondering what the next four years would be like. Now, almost pharmacists, we have just one year left before we graduate and enter the working world. With us, we will take so many memories of HPLs, PBL, PDW, APAC and all the other pharmacy-related abbreviations we've grown to love over the past three years. The memories that we have and the friendships that we've made will continue on beyond the doors of the College. Congratulations Class of 2008 on completing a very intense third year and best of luck as we enter our last year of Pharmacy! - Aiysha

Class of

2009

Class of 2009

College of Pharmacy

Well another year down, two left to go, which makes us 50% pharmacists right?? Geepers, where does the time go when you are having fun?!

Yet again we have had a year filled with memorable moments. The initial shock of having a thick binder filled with kinetics notes is the perfect way to ease back into pharmacy life I guess. All those notes, all those spelling mistakes, need I say more.

Then came the 2nd year tag team of profs that we got to know REALLY well for the rest of the year. Susan, Jakeman, Agu, Hoan Linh, Wilson, Tamara, Jane, Glenn, and the list it goes on and on my friends... The med chem lectures (or bane of our existence?), Susan as our pharmacy mom that we could turn to (*awww*), Hoan Linh's true affection for Eli Lilly, the list is endless but memorable!

In looking back at the social events this year, I think it is safe to say that our class still dominates in attendance for festivities. We were fortunate to have 3 excellent social directors, a great band, and of course the best skit of the year! It has been a real privilege being the class representative this year. Thank you all for giving me this great opportunity once again.

In closing, please ensure that you get a P for the relaxation course over the summer term or else you may not be eligible to return to the College. I look forward to seeing you all again in September. All the best, Mark C. 2nd year Class Rep.

Class of 2010

College of Pharmacy

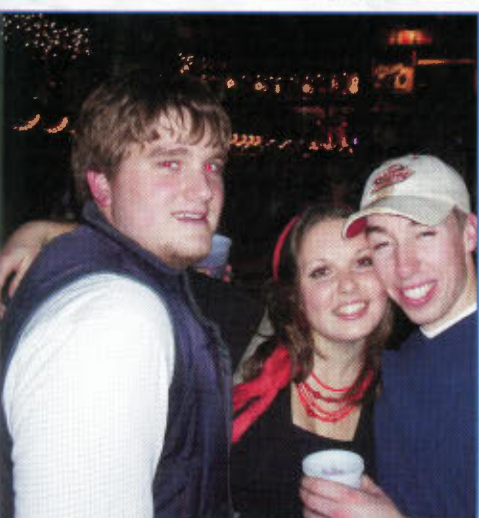

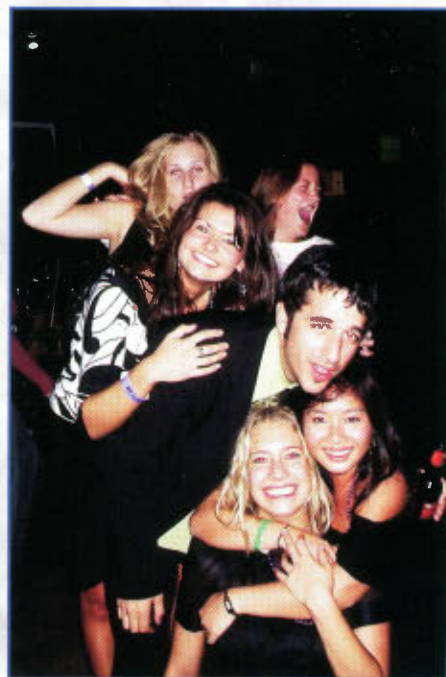

The Class of 2010 came through the 2006-07 academic year, our first year and survived. After surviving hand cramps in Lesser's BioChem, and then Morgunov in Physiology, we still managed to complete our schoolwork. As a class, we also excelled in some of the other aspects the College had to offer; orientation week, APAC, and the ever-popular HPL's gave us many opportunities. Thanks for a great year!

Exploring Life  Fulfilling Dreams

Science For A Better Life

Six billion people already live on our planet, and the number is growing by 220,000 every day. How can we provide food for more and more people without damaging the environment?

How can we improve everyone's health and prevent diseases? How can we develop new materials to help us conserve resources?

To provide better answers to these questions, research is under way in Bayer's three subgroups: HealthCare, CropScience and MaterialScience. Fields in which Bayer is already a global leader – and whose importance to the future of humankind grows by the day. www.bayer.com

Pharmacy 
at **SAFEWAY** 

Come Join Our Team!

Dear Future Pharmacy Graduate,

Please let us tell you about employment opportunities as a professional licensed pharmacist with Canada Safeway Limited. Canada Safeway opened its first Pharmacy in Canada in 1984. Safeway is one of the largest employers of retail pharmacists in North America, and in Canada operates pharmacies in British Columbia, Alberta, Saskatchewan, Manitoba, and Ontario.

We are a people-oriented company that believes in the responsibility of the Pharmacy profession and community involvement. We are fully committed to "Service With Care". In addition, we believe in reimbursement for cognitive services and as such have developed positions in many practicing specialties including:

- ◆ Diabetes Certified Pharmacists
- ◆ Certified Menopause Practitioners
- ◆ Asthma Certified Pharmacists
- ◆ Certified Geriatric (Long Term Care) Pharmacists

Canada Safeway provides employees with competitive salaries and an industry-leading, comprehensive benefit package including Annual Pharmacist Staff Bonus Plans.

We also offer moving reimbursement and relocation allowance programs for employment in select locations.

Safeway Pharmacy is committed to offering the best in Pharmaceutical and Patient Focused Care to our patients. We utilize professional Certified Pharmacy Technicians as well as the latest technology in our pharmacies. We believe that Canada Safeway can provide you with the type of community practice that you are seeking.

If this is an opportunity of interest to you, or you would like to learn more about the benefits offered by Canada Safeway, please contact our Pharmacy Recruiting Team:

Come to **KINGSTON!**

www.kgh.on.ca

KINGSTON GENERAL HOSPITAL, a 456-bed academic health sciences centre affiliated with Queen's University and a Cancer Care Ontario partner, services a population of 500,000 in Southeastern Ontario. Situated in Kingston, Ontario, we are mid-way between Toronto and Montreal at the gateway to the St. Lawrence River and the 1000 Islands. History, culture, recreation, entertainment, and a rich academic community combine to make Kingston a showcase for quality living. A family-oriented centre renowned as the Fresh Water Sailing Capital of North America, Kingston was chosen as one of Canada's top five cities for business and lifestyle - all good reasons to consider KINGSTON GENERAL HOSPITAL for your future.

Care with Nutrition

It's the inspiration for everything we do. Every day.

Nutrition for an enhanced quality of life.

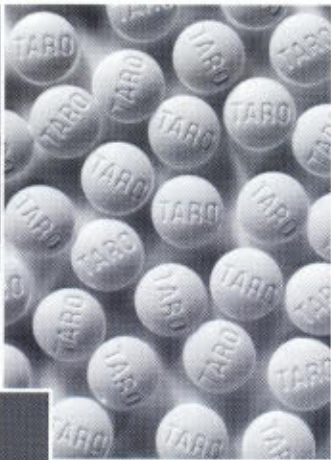

Our mission? To provide nutrition leadership in products, services and medical education. To support the health and care of people with special needs – at every stage in life. And the healthcare professionals who help them.

How? With the science of healing through nutrition. With over 130 years of nutrition research & development expertise. In every product we make. Every program we develop. Every patient we support. All from the world's largest food company. To help enhance the quality of life of every one in need.

Visit the Nestlé Nutrition booth today.

Learn more about how we can help you deliver nutritional solutions that can make a real difference. Or visit www.nutrition.nestle.ca for nutrition intelligence at your fingertips.

What does it take to stand out in a crowd?

PPC's support of Pharmacy is one way we make a difference you can see.

You don't always have to be a big fish to make a big difference.

At Pharmaceutical Partners of Canada, we're proud to have supported Pharmacy in Canada for more than 20 years, with special educational grants, awards, and funding that allows Pharmacy students to achieve their full potential. We also believe in the research and other contributions made by Hospital Pharmacy. Across the province and throughout the country, we are privileged to give back to an industry that has given so much to us.

We may not be the biggest fish in the pond, but supporting Hospital Pharmacy, and worthy health care organizations, is a proud part of our culture at PPC. Because we believe that how much you stand apart depends on what you stand behind.

Congratulations to the Pharmacy Graduates of 2007 and wishes for every success as you begin your Career!

Régie de la santé du Restigouche
 Restigouche Health Authority

"Individuals, families and communities taking responsibility for their own health by making a commitment to wellness."

Located in the Campbellton area of northern New Brunswick where the mountains meet the waters of the Restigouche River and the Bay of Chaleur, the region offers an abundance of fresh air activities in all seasons.

Comprised of one Regional Hospital, a tertiary psychiatric facility and Community Health Centers, along with various other programs, we offer a range of healthcare services delivered by a dedicated staff of over 1,300 employees and 60 (active) physicians.

PHARMACY

SERVICES AND PROGRAMS

We are looking for pharmacists to actively participate in the clinical programs of the RHA including: general medicine, oncology, palliative care, acute and long term psychiatry, a healthy aging program, a satellite renal dialysis program, addiction services, cardiac and diabetic teaching. In addition, the pharmacists supervise the medication distribution system (Pac-Med unit dose).
