My Darling Little Chem,

Received your letter this morning. When I wrote you I was thinking to get it off the limited but thought afterwards that it would probably come on the Mauntine as it did.

See but I was a happy boy while I was reading it over. I don't mean that I'm not happy all the time, but you know how it is, after us being around so much together or then not to be able to see or hear from you for a couple of days, I was right down in the Blues. Talk about you wanting to eat me, if you

could see the way I devour your letters, Darling, I believe you'd be afraid to see me after I've been on a trip for fear I really would eat you. However I believe you'd be glad to see me even then wouldn't you Little Girl?

I wish we were together now for always, too Gili, you know how much I love you?

Heavens I feel so lonely tonight. It's raining up here & there's hardly anyone around the hotel. If I only had you here tonight Dearest, it wouldn't be so bad even if we couldn't be together all night. I'd rather you

wee here o we could be together all  
the time though, wouldn't you  
Sweetheart?

I often think about what "Our Little  
Baby" would be like Dear. I'd want  
it to take after its mother more than  
after me though, Lucie. How can  
I help hoping that "Our Baby" will  
be like the Dearest Little Girl in  
this wide World.

I'm going to address this to  
the office Dear so that you 'll  
be sure to get it before I get home.  
See don't I wish I could get home  
on Friday night. If I could have

just one long kiss before I went  
to bed I think I'd be satisfied  
then, to wait till Saturday, but I  
don't see how that can be, do you,  
Sweetheart mine.

It's about bed time now Dearest  
(9:15) so I'll quit this for now. Am  
hoping to get another letter sometime  
tomorrow.

Bye Bye for this trip Girlie,  
Try not to be too lonesome on Friday night  
Your Own Loving Boy with a heart  
that belongs to you  
Cap.
