

Belgrade, 23th 2.1981

Very dear Elisabeth,

I am not quite sure where to write, IOI or Dalhousie Un. I would like this letter reaching you before NY session. I hope, IOI would fulfill my desire. I must be very brief owing to so many work that must be done before leaving for NYC. I am leaving B. at 10a.m. 3. March, alone. The others, but in restricted number (Inflation, Stabilisation!), are coming 6th march. Your letters dated 17.I. and 23.I. I have received on 21 February! (The Administration!)

1. Meglio tardi che mai! Thank you very much for your fervent wishes. I am joining your wishes wholeheartedly with an Annex for your personal health and Happiness. Regarding the Conference and the Convention, I quote from Goethes Prologue: "Mag ich zum Augenblicke sagen, verweile doch Du bist so schön, und so w."

2. I find your article very interesting and, more, very pertinent. All 3 points could be envisaged but, already the word disarmament in the Conference could provoke havoc. It does not mean you shouldn't come with it in an article! I agree with you on the interlinkage with development. Let us speak more about in NY. On Research the same but more promising in mine view. We (Bohte) have always pledged for the coordinating and decisive role of the Authority over research in the Area. Joint venture would be one of the solutions! Most depressive is the news (it is not a news, we all have known about nodules in the EEZ long time ago!) from Chile in connection with the change of USA administration regarding the relations with Chile! I agree in many points with you but I am somehow reluctant to involve

the PC.with enlarged mandate.The reason? It could be an appetiser for those who would like the PC.as temporary (spell durable) Authority!Please!Let us continue the discussion in NYC.

3.I dont know yet wether Anton recieved your letter or not. I will meet him on 1. of March and discuss it over.But I am already undertaking some preparatory work to have all necessary answers at time fixed for applications.My interest of sending somebody for EEZ managment to Canada is greater then for the course at IOI.I think Anton would prefer Area managment and IOI.I will let you know more in NY.Only if ^{you} will come later to NYC.,let me know where ^{to} write.

4.The best adress for Anton is:Dr A.V. PREDSEDNIŠTVO CK SKJ SR SIOVENIJE, 61.000 Ljubljana,Yugoslavia or as before to the Primeministers Office in Ljubljana,they will transfer to him quicker then the FO.

Poor Shirley!He didnt succeed to see the convention! I fear,we will spend two weeks for election of the new Pr. That is all (for the time being!

Yours very cordially,
