MOIR'S CHOCOLATES

Admitted by all good Judges
to be the greatest and best of
CHOCOLATES.

STUDENTS! Be Careful of
Your Eyesight.

You surely do not wish to begin your life's work handicapped by poor eyesight. If your eyes ache or cause you any inconvenience when you are reading or studying, there is a cause for it. Even though it should be slight, better have me examine your eyes, and if necessary, supply glasses. Scientifically fitted glasses correct defective vision, and make reading a comfort.

I devote my whole time to optical work and have the latest appliances to aid me in it and the only complete lense grinding plant in the Maritime Provinces.

The Present Crisis.

In the February number of the *Gazette*, Mr. G. S. Campbell, the Chairman of the Board of Governors, announced the purchase of the Studley property by the University, outlined the plans of the Board and made a stirring appeal for the support of the friends of Dalhousie and particularly of her Alumni. In this number, produced particularly for the Alumni, they will doubtless look for news. Unfortunately the Chairman himself is not here to give further information. Dalhousie misses him but all Dalhousians will be glad to hear that favourable reports come from him.

Since February, things however have been done. The deed of the Studley property has been delivered and the title to the property is now vested in the "Board of Governors of Dalhousie College at Halifax," as the University corporation is called. It is scarcely necessary to add that the property is subject to a heavy mortgage. Now the College is face to face with the necessity of clearing off that mortgage and of providing funds to meet the other obligations which have been assumed. Of these more anon. Meanwhile the Governors, confident of the whole-souled support of those who own Dalhousie as their *alma mater* and of those who recognize the importance of her place in the educational system of these Maritime Provinces have courageously undertaken great things.

It is the writer's duty to recount briefly what is intended and what so far has been accomplished besides the acquisition of Studley.

The Chairman has already stated that the University needs at least three hundred thousand dollars, (\$300,000.) This may seem a large sum, but it is no larger than is actually necessary to meet obligations already assumed. First of all, Studley must be paid for. Then it is necessary to secure an endowment to provide for the increase in the salaries of the principal professors. Through the generosity of several members

of the Board it was made possible two or three years ago to increase the salaries of five professors. Annual payments were promised for five years. The period is now nearly ended, and the only way of ensuring for the future the additional \$2,500 a year necessary is by investing funds sufficient to produce that income. These funds must be obtained. A Science building must be erected at Studley, and a large sum is required for the Medical Faculty and for the general purposes of the University. It will readily be seen therefore that the sum named by the Chairman is absolutely necessary. The Board has been considering ways and means. To start the fund and as a proof of their interest, several of the Governors have already promised subscriptions amounting to \$25,000. Surely men who give their energy and their money to the University as generously as our Governors merit our heartiest support. They have undertaken a great task, and they need the best assistance we can give them. As a preliminary step the governors invited representatives of the Senate, and of the Executive Committee of the Alumni Association to consult with them as to the methods to be employed in the campaign for these funds. The word 'campaign' is used advisedly, for all must realize that the expansion of the University involves a struggle requiring earnest effort and self-sacrifice. At this joint meeting, a special committee was appointed to name standing committees, define their duties and appoint their members. This committee reported and their report was adopted within a week of their appointment. Their report has also been approved by a meeting of the Board and the standing committees are at work.

The Engineering Department has prepared a contour plan of the property. A copy has been sent to a good architect with whom the Chairman had been consulting. On his return, the architect will be prepared to visit the new site, and to advise as to the employment of a landscape specialist.

So much for that phase of the advance.

Incidentally it may interest the reader to know that whereas heretofore, the Board has had only one standing committee, that on Finance, now a new one has been added to which has

been given the duty of looking after the University property, that is to say, the land and buildings used for educational purposes distinct from realty comprised in the endowment.

All Dr. Forrest's old students heard with regret of his resignation. The splendid gathering at the Alumni dinner witnessed the strength of that sentiment. It was undoubtedly the largest and most interested assembly of old Dalhousians ever held. But one hears on all sides the inquiry "What of his successor?"

The necessity of appointing a new President and of providing for the teaching of history and economics has been very apparent to the Board. The matter has been fully discussed and many enquiries have been made. A special committee has been entrusted with the task of going over the data already secured, of obtaining more, if necessary, and of making a recommendation. Happily there are no other gaps to fill in the fighting line.

Thus it appears that the new property, the new appointments and the matter of getting new funds have been dealt with.

But we might almost say that the half hath not been told. In addition to the great responsibility of launching a new scheme of material expansion, and to the critical task of selecting a man to lead the advance, the Governors have quietly and without ostentation undertaken another very important duty. They have taken over Medical Education in the Maritime Provinces. This in itself means a heavy load, and even without the Studley move would justify the use above of the word "courageously."

Possibly some are ignorant that while Dalhousie gives a degree in Medicine it hitherto has given no instruction for that degree, other than in natural science; and it may not be generally known that it has no organic connection with the Halifax Medical College. To quote from the Calendar: "In Medicine and Dentistry the University provides instruction in pure science, and recognizes the teaching in professional subjects of the Halifax Medical College, the Maritime Dental College, etc." The University has had for many years a faculty of Medicine, and has examined candidates, chiefly from the Halifax Medical College, and has granted degrees. The Halifax Medical College is, however, an entirely distinct organization, existing as a body

corporate under an act of the Legislature of Nova Scotia. Its power to grant degrees has been allowed to lie dormant, and its students have been sent up for examination by the University. For some time a feeling has existed among many members of the medical profession and of the corporation of the Halifax Medical College, that its resources and powers were hardly adequate to the growing calls upon them. This resulted during the autumn of 1910 in action. The Halifax Medical College by resolution requested the Board of Governors to take over the teaching of Medicine. The Medical Faculty of the University and the Senate joined in the request, and subsequently a resolution of the Provincial Medical Association, expressing a similar desire, was communicated to the Board. The Board at once appointed a committee, which consulted with representatives of the Medical College, of the profession generally, and with the Hospital Commission. This committee recommended that the University in the interests of medical education assume the responsibility for it; and after full consideration the Board decided to undertake the work. Needless to say a very considerable financial responsibility is involved, to say nothing of the difficult and delicate task of reorganizing the staff and the equipment. However, it seemed necessary that the University should meet the call, and negotiations were at once continued with the members of the Medical College. These have now been satisfactorily concluded. The real property and equipment of the Medical College will be transferred to the University, and the Halifax Medical College, so far at any rate as its teaching and degree granting powers go, will cease to exist. A committee of the Board of Governors has been appointed, and is making arrangements to carry on the teaching during the coming season. The ambition of the Board is to establish a Medical Faculty that will commend itself to the profession and to the students. As soon as their report is approved the scheme of reorganization will be announced. This much, however, may now be said, that one or two regular professors will be appointed to reinforce the practising members of the profession whose services may be available, and additional laboratory accommodation will be provided. When the

autumn session opens, all medical instruction will be under the care of the University. Thus Dalhousie is rounded out by the addition to her teaching faculties of a faculty of Medicine. With Arts and Science, Law, Medicine and Dentistry, she will be able to give the foundation of a liberal education, and of training in two of the great and ancient professions. Her record for accurate and thorough work need not be recalled to her Alumni. Nor need the names of her teachers—of those of them who have passed from her halls, or of those who continue to labor there so zealously and so honestly. Now that the call has come to extend her spheres of effort and of influence; now that her governing body has boldly taken up the gage; it only remains for her sons and daughters, her friends and the friends of education, to lend their utmost aid generously and enthusiastically at this critical juncture, and another stride will have been made towards the goal set by her founder.

A Great Dalhousie Gathering.

Under the auspices of the Alumni Society, over two hundred Alumni gathered in the Queen Hotel, on Tuesday night, April 25th, to a real Dalhousie dinner.

To call the meeting the most successful of the kind ever held would be mild praise. It was an enthusiastic gathering of enthusiastic men, and is a splendid indication of the spirit of optimism and progress that breathes in the "new movement" of Dalhousie University.

Dalhousians, some of them graduates of many long years ago, were present from far and near. All were present to pledge their loyalty to their Alma Mater, and to do honor to the venerated President who is about to retire.

The president of the Alumni Society, Melville Cumming, well known for his splendid work as Principal of the Agricultural College in Nova Scotia, presided.

After the King had been honored, Humphrey Mellish, K. C. proposed the toast to "The Dalhousie Board of Control." Mr Mellish recalled the time when the Dalhousie Governors were not the popular body they are to-day, when it would have been considered a great thing for the alumni to have a representative on the board.

J. Walter Allison was the first governor to respond. Mr. Allison gave an interesting sketch of the history of the board concurrent with the history and progress of the university.

He read an extract of a letter from Mr. G. S. Campbell, couched in terms of highest admiration for Dr. Forrest and appreciative of his splendid qualities and abilities. The letter was written from a point on the edge of the Sahara, and Mr. Campbell concluded with a request that he be remembered to his friends. C. H. Mitchell followed in witty remarks regarding his appointment to the board of governors and various incidents that had happened thereafter. He congratulated the college on the acquisition of Studley, giving the chief credit therefore to Mr. Allison and Mr. Campbell, and paid a tribute to President

Forrest. Every alumnus of Dalhousie should use his influence and give of his means to help Dalhousie.

R. M. MacGregor, M. L. A., was the third speaker for the governors. He joined with the others in eulogy of President Forrest. Speaking of Dalhousie's forward movement, Mr. MacGregor confessed that he had been afraid of the purchase of Studley, but he had now come to see that it was wise and he believed the graduates of Dalhousie would nobly respond to the appeal. Mr. MacGregor spoke of the advantages of a smaller over a large university and amid enthusiasm referred to that great triumvirate—Lawson, Johnson and Macdonald.

The next toast "Dalhousie's future" was proposed by Professor Archibald MacMechan in a scholarly speech. He discussed the close relationship between Dalhousie and University of Edinburgh. Dalhousie is the history of a liberal idea in education—founded on the principal of no religious test for professors or students—a liberal idea to which much of Dalhousie's success was to be attributed.

President Falconer of Toronto University, on rising to respond was greeted with applause. He could not claim to be a graduate of Dalhousie, but he nevertheless thought that in some way he belonged to that university. His interest in Dalhousie could not and would not cease. He rejoiced in the college's outlook on a larger life. On returning to one's own province, for he looked on Nova Scotia as almost his native province, he recognized the struggles that had been undergone to secure what had been gained. He questioned whether the struggles in Ontario had been of quite the same character or intensity as here. Had it not been for the struggle of Dalhousie what would have been the state of higher education in Nova Scotia today? Dalhousie had stood consistently for the ideal mentioned by Dr. MacMechan. The ideal is conquering and will more and more conquer. Dalhousie had no reason to be ashamed of her graduates or of her teaching staff. The gaining of Studley was a splendid thing. The education within bare walls might be all right, but there was something in a fine building and beautiful grounds. Yet this was only one step on the way. Standards

and staff and the man who is to lead are vitally important. He had no doubt these would be forthcoming in every particular. A larger unit is necessary, for the Dominion of today is not the Dominion of twenty-five years ago. "You must develop and grow that you may get the power from the union of numbers and men to carry into effect the ideas which require more momentum than were needed in the past."

Dr. Howard Murray followed in one of those inimitable speeches for which he is famous. His sketch of Dalhousie since 1821 was both witty and wise. As to the future, much of Dalhousie's success would depend on the alumni. They are growing in number, in their interest in their alma mater and in their ability to give practical effect to their wishes. Dr. Webster of class of '92, a member of the New England alumni society had offered \$1,000 whenever the forward movement should start. Next came the governors. The third body entering into this consideration was the faculty. "What shall I say of them?" The loss of President Forrest, in his work and personality is very great. The fourth body of which he spoke was the general public. The governors of Dalhousie had gone deep into their pockets, and it was now up to the public to do their part. The public will be asked for \$300,000. In one year recently 36 colleges in the United States had received in gifts no less than \$18,000,000—half a million each.

At this point Principal Cumming presented the alumni testimonial to President Forrest in a fitting address, which is published elsewhere in this GAZETTE.

On rising to reply to this, the good old President received an ovation such as only Dalhousie men could give to the man whose name and that of Dalhousie are inseparable.

"Boys," he said, "I hardly can trust myself to speak. The many letters I have received from almost every corner of the earth are sufficient reward for anything I have ever done, Gentlemen, I know you mean it, and that makes it doubly sweet!"

He then proceeded in a characteristic speech to give a short reminiscent account of his connection with Dalhousie.

He was grateful to the governors, ever kind, and to the

students, whom he was always proud to call his friends. If he had an enemy he did not know him. He had tried to do good to all men as he had opportunity. What could he have done had it not been for the governors and the students. It was not much he had done, he added.

He did not know what to say, but he would say, he was not going to leave Dalhousie. He would leave his place at the head of the rope, but would get behind and do his best shoving the old vehicle up the hill. He hoped from the bottom of his heart that the man who succeeded him would do ten times as much as he had done. He did not know who he would be, but of one thing he was sure, that he could depend on John Forrest doing everything that he could to assist. This gathering to-night was a guarantee of success—the best gathering of the kind the college had ever held. He thanked the company also on behalf of Mrs. Forrest. It was one of the happiest nights of his life. From the bottom of his heart he thanked every one.

“Our guests” was proposed by Judge Wallace, who appreciately spoke of one distinguished guest in particular—Dr. Patterson, of Edinburgh. “English and Scottish and Irish are we, but all of us Scottish in our welcome of thee.” The company sang, “For he’s a jolly good fellow.”

Dr. Patterson, in responding, said he had been making a great discovery which this evening had corroborated—that Canada has a great big warm heart. What had impressed him in these Canadian gatherings was that the Canadian possessed a great warm, overflowing heart.

Dr. Patterson, in speaking of the relationship of Dalhousie and Edinburgh universities, referred to Professors Seth and Macgregor. Dalhousie was an institution begotten in our likeness, and we have reason to be proud of her. England, with its two great universities, was contrasted with Scotland with four democratic universities. Scotland had been given an infinite advantage in this matter. Dr. Patterson spoke of Aberdeen, its noble sons, and its love for the universities. What Aberdeen’s university had done for it he believed Dalhousie might do for Nova Scotia. Make it worthy of this, and in doing so you will

do the most for your country. Dr. Paterson proclaimed himself a free trader, but at the same time he argued strongly for large and increasing subsidies for national higher education. These he claimed as a right. The university should be adequately backed up by the authorities.

His other discovery besides that of the emotional side of Canadians was a regard for the higher things which he found strongly in evidence.

“Graduates, Past and Present,” was proposed by Mr. R. J. Messenger '99, now President of the Nova Scotia Fruit Growers' Association. He said that the graduates of Dalhousie had acquitted themselves proudly, had kept themselves in the van of progress, and were, above all things, men of character and high purpose.

Mr. H. J. Logan, K. C., of Amherst, said that in politics one thing necessary was to gauge the feelings of the public. If he were any judge of the feelings of Dalhousie Alumni, it was that there was “victory in the air.” A few nights ago there had been a meeting of Dalhousie graduates in Amherst. He, himself, was celebrating the twentieth anniversary of his graduation from the University. Twenty years was not a long time in the history of a nation, but it was in the history of a man. Dalhousie graduates are everywhere. Twenty years ago, with “Dickie” McBride, “Billie” Bowser and Aulay Morrison, he boarded at a house on Carleton Street. Six years later, Bowser was running for the House of Commons in Victoria. McBride was opposed by Morrison in New Westminster, and he was running in Cumberland. To-day McBride was Premier of British Columbia, Bowser was his Attorney-General, and Morrison was a Judge of the Supreme Court in that Province.

The sum of \$300,000 was not much to raise for Dalhousie, the graduates could and would raise the amount.

In conclusion Mr. Logan said, “Let us carry on the work that has been started. Every man owes a debt to Dalhousie, and to pay that debt let us place Dalhousie where she belongs.”

Mr. A. D. Macdonald, of the class of 1911, responded on behalf of the Arts graduates. He said that there was a new

day dawning for Dalhousie, and the class of 1911 would do its share. On behalf of his class, Mr. Macdonald expressed pleasure that they did not come to Dalhousie too late to receive their degrees from Dr. Forrest.

Mr. A. M. Johnston responded on behalf of the medicine class of 1911 in a short and witty speech.

A number of letters and telegrams to the Alumni were read by the Secretary, including the following:

"Greetings to Alumni. A grateful farewell to the President. May Dalhousie flourish."

Cable from J. G. MACGREGOR, Edinburgh.

"May Dr. Forrest enjoy for very many years the comfort of release from active duties. This is the sincere wish of every true Dalhousian and of all his old students and friends. Every one of us has many reasons to remember his kindness."

W. C. MURRAY, Saskatchewan.

"I would like to express my admiration not only for his work in Dalhousie, but for his general public service, and for his sterling personal character. I sincerely trust that Dalhousie may secure a successor who will serve the University with as great fidelity and singleness of purpose as the retiring President."

D. M. GORDON, Queens.

"I speak for myself and for many others who have so expressed themselves to me when I say that the happy memories of old Dalhousie days are largely bound up with memories of one who was to us not only an inspiring feature, but a large hearted kindly friend."

REV. J. B. MACLEAN, '91.

"Congratulations and good wishes from Alumni in New York."

A. J. BARNES, Secretary.

In his concluding remarks, Principal Cumming paid a very fitting tribute to the "man behind the gun's." Professor MacNeill to whose untiring energy and keen insight the success of the gathering had been largely due. Earlier in the evening at the

meeting of the Alumni Society, they had had another opportunity of reviewing his splendid service in organizing the work of the association and in carrying out an aggressive policy for the advancement of its aims, and the Alumni Society is to be congratulated on having for its Secretary and Treasurer such a man as Murray MacNeill.

After this, the Dalhousie "One! two! three!" was given with enthusiasm and the national anthem closed the most successful Alumni banquet ever held, a real Dalhousie meeting, and one that will remain a long time in the memory of those privileged to be present.

Forrest Testimonial.

A most notable feature of the Dalhousie dinner, was the presentation to President Forrest by the Alumni of a handsome silver tea service, and a silver candelabra for Mrs. Forrest.

In making the presentation, Principal Cumming said:

Of all the annual meetings and banquets held by the Alumni of Dalhousie college and university, that of to-night is the most important and will be remembered no doubt, longer than any that have preceded it. We celebrated, to-night, the conclusion of the most successful year in the history of the university; we commemorated the most prosperous year by far in the work of the Alumni association; and we look forward to another progressive step in the policy of the university in connection with the purchase of a site for the new buildings that are to be constructed and the launching of a propaganda for securing more funds for its support.

With all these movements the president of the university, Dr. Forrest, has been prominently identified and indeed has taken the foremost position.

But our joy at these developments is not unmitigated joy. There is a large share of sorrow associated with it, for we have learned that he, who for so many years has guided the destinies

of Dalhousie, has decided to resign his position as leader and to give away to another who will take up the work where he has left it. Therefore, amid our rejoicings at the growing prosperity of the college, we stop to record our feelings of personal loss and in a most inadequate way to give testimony to the esteem in which, as a body of students, past and present, we hold our retiring president.

President Forrest is one of Nova Scotia's great men. He has achieved greatness in many spheres of life. One of the foremost, if not the foremost, citizens of Halifax; prominently identified with the leading charitable institutions of the province; honored by the church of his choice with the highest position in its gift,—the moderatorship,—he has achieved distinction which all of us might envy, but few hope to attain.

We, the students and graduates of Dalhousie, have taken a personal pride in these achievements of the president of our alma mater. But it is not for these that we seek to do him honor to-night. These have not been the great issues of his life. The work by which Dr. Forrest will longest be remembered and for which his name will be handed down to posterity, has been his work for Dalhousie college and university, whose career he has personally directed for over a third of a century and to whose success he has given the very best of his great talents.

We honor our retiring president because of his inspiring teaching; because of his unbounded enthusiasm; because of his big heartedness and kindly friendliness and above all because of his unblemished traits of character, which we might well emulate and which have won for him the highest esteem of both church and state.

Dalhousie college would not be what it is today had it not been for the work of Dr. Forrest. Indeed, it is doubtful if it would be in existence at all. For he took the leadership of the institution at a time when it was in sore straits and seemed almost ready to close its doors. By his energy, his enthusiasm, his personality, he enlisted the aid of Dalhousie's great benefactors and placed the college on a firm financial footing.

To Dr. Forrest it was not sufficient that those who occupied

the chairs of the college be scholars only. His was a high ideal. The professor, no matter what his subject, exerts a great influence upon the student body and the university can make no greater contribution to the country it serves than to see that the men who occupy its important chairs, are men of personality and power. Dr. Forrest has rendered a great service to education by insisting on this.

Great as the president has been in these capacities, we believe that no trait of his character will be remembered longer than his kindly interest in the welfare of every student. I do not know if Dr. Forrest ever forgot a face—certainly not that we have heard of. And many a struggling student who has passed through college classes could tell of not only kindly words but of material assistance without which attendance at the college would have been almost impossible.

In presenting this testimony to President Forrest tonight, I speak for graduates from all parts of Canada, from the United States, from Great Britain and other parts of the world. Only a brief time was allowed during which our secretary could get into communication with these men. But the response has been most spontaneous and generous and I am sure it must be most gratifying to Dr. Forrest and certainly to all those who have worked with and studied under him to know that tonight I speak for men, students, and graduates, of the college, engaged in so many different callings and residing in so many parts of the world.

President Forrest, on behalf of the students, past and present, we ask you to accept this gift as a slight testimony of the high esteem in which you are held and on behalf of her, Mrs. Forrest who has been your life partner in the many activities of your life, we ask you to accept this slight evidence of our appreciation of one who has occupied such a large place in the distinctions you have won.

And we hope and pray that in the eventide of your lives you may, for many years to come, have the joy of seeing your beloved college and ours continue to develop upon the foundation you have had such a large part in laying.

A few weeks before Convocation the Alumni Executive decided to invite past and present students of the University to contribute a small amount to form a testimonial to Dr. Forrest. This opportunity is taken of making an acknowledgment to the contributors:

Alumni Association.

MINUTES OF PROCEEDINGS OF THE FORTY-FIRST ANNUAL MEETING OF THE ALUMNI ASSOCIATION OF DALHOUSIE COLLEGE AND UNIVERSITY.

HALIFAX, April 25th, 1911.

The Annual Meeting was held at the Queen Hotel, at 6.30, p. m., the President, Prof. M. Cumming, in the chair. About seventy-five were present. The minutes of the last meeting were read and approved.

The chairman made a report of the work of the Executive, referring particularly to their conferences with the Governors and Senate on the question of procuring a site, and also on advancing the forward movement. He spoke of the pleasure with which the Alumni everywhere had heard of the purchase of Studley.

The financial statement was read by the Secretary-Treasurer.

A report was made by Professor Moore on the work of the Biology Department during the past session and on the needs of the department in the way of equipment.

The resignation of R. M. MacGregor, M. P. P., as representative governor, was received. On motion of A. S. Barnstead and H. E. Mahon, Mr. MacGregor was nominated for another term.

The articles of the constitution relating to membership, admission and privileges of, and payment by members, viz., Articles 1-11, were deleted, and the following substituted therefor:

(1) **MEMBERSHIP:** Those eligible for membership shall be all who for one year have been registered students of the University, members of the teaching staff, or of the board of governors.

(2.) **FEES:** Active members only shall be entitled to take part in the meetings of the Association, and are those eligible for membership who during the year have paid the sum of two dollars, or are life members.

The chairman appointed a nominating committee of three, and from the nominations made the officers for the year 1911-11 were elected as follows:

President—M. Cumming.

1st Vice-President—W. E. Thompson.

2nd Vice-President—W. W. Woodbury.

Secretary-Treasurer—M. MacNeill.

Other Members of the Executive—A. S. Barnstead, J. H. Trefry, S. A. Morton, E. P. Allison, J. D. Vair, H. S. Davis (Alumni Editor of the GAZETTE.)

After a few remarks by Dr. Forrest the meeting adjourned.

MURRAY MACNEILL,

Secretary-Treasurer.

**General News Collected from some of the Alumni
in Various Localities.**

NEW ENGLAND ALUMNI.—The New England branch of the Dalhousie Alumni Association has a membership of about forty. There are no dues, but at the annual dinner, which usually takes place in March, the hat is passed around for the secretary's expenses. The members are much scattered, so that is difficult to get more than a dozen at these dinners, although on one occasion we had as many as thirty. However, those who do come are wonderfully enlightened and cheered by the representative of the Faculty whom the college has always sent to give us the latest news. And when Professor Macneill reported that Studley was actually bought we were thoroughly satisfied and delighted, realizing that at length Dalhousie had for so long as one can foresee a site worthy of her, and a definite programme on which to appeal to her children and well-wishers. The New England Alumni have confidence in those who are conducting the affairs of their alma mater, and wish them God speed!

K. G. T. WEBSTER, *Pres.*

VANCOUVER, April 14, 1911.

DEAR GAZETTE,—During the last few weeks there has been a good deal of interest taken by university graduates here in the formation of a University Club for Vancouver. Meetings have been held, committees elected and reports submitted. Now the club is actually incorporated and applications for membership have been made by many of us. Mr. H. W. C. Boak, '85, a Dalhousian, was chairman of the meetings that considered the proposition and many other Dalhousians took part. It is felt that a University Club will enable college men to meet together more than heretofore, and that it will prove a great convenience to those living at a distance.

H. F. McRae who has been engaged in the real estate business in Prince Rupert has opened a branch office in Vancouver.

Ross Archibald left Vancouver recently to start as barrister and solicitor in Kamloops.

Frank Smith has resigned from the Kamloops Vancouver Trust Co. Ltd., and is now inspector of the Great West Life Assurance Company, for the Kamloops district.

Fred Dawson '08, has begun work at Kamloops as a Provincial Land Surveyor.

The Rev. Ronald MacLeod '08, has just been inducted minister at the Presbyterian church at North Vancouver.

Denis Stairs and G. A. Gaherty are still with the Western Canada Power Company, Ruskin, B. C.

C. H. Cahan Jr. is practicing law in Vancouver. Associated with him is Jack Morrison of the class of 1900.

A. W. Seaman '07, is teaching school at Nelson, B. C.

R. F. Logan is now manager of the Kamloops Vancouver Trust Company, Kamloops.

Frank Archibald '10 is occupying a responsible position with the Canadian Northern Railway survey in the Fraser Valley division.

Campbell Macdonald '04, has been engaged in engineering at Vancouver during the winter. For part of the season he played foot-ball with the Vancouver Rowing Club and captained the All-Vancouver team that defeated Leland Stanford University on Christmas Day.

Charles M. Macdonald, now of Vancouver is engaged in the exploitation of some mining properties on Vancouver Island.

Tom Morrison has been out in the bush on survey during the winter.

G. W. S. '08.

SASKATOON, Canada, March 27th, 1911.

DEAR SIR,—The Royal Bank to-day handed me your receipt for the \$125.00 remitted to you by wire on account of the Saskatchewan Branch of the Dalhousie Alumni. I regret the

delay in remitting this money. It was largely, I think, due to my neglect, but our next instalment for the present year will reach you in time, I hope, or perhaps a little in advance.

On separate sheet you will find the names of those who contributed the amount already remitted. I thought it advisable to give you this information so as to avoid any conflict in sending out requests or circulars from Halifax.

Yours truly,

DONALD MACLEAN.

Extract from the separate sheet:

"Whereas, the Graduates of Dalhousie University most heartily approve of the Forward Movement recently inaugurated by the purchase of Studley for the University site, and by the establishment of two additional Chairs;

We, the graduates residing in Saskatchewan, wishing to show our approval and sympathy with the new movement, agree to raise a sum of not less than \$125 a year for five years as a contribution to the funds of the Alumni Association."

TUCSON, Arizona, March 25th, 1911.

DEAR SIR,—I was very pleased to hear that a new site has been secured for Dalhousie, and that an early start is anticipated in building operations. There is no longer any excuse for not paying up one's subscriptions, so I enclose my third instalment of \$10.00. If the amount subscribed proves not to be sufficient I shall be pleased to raise my subscription somewhat.

I have often thought that if Dalhousie had the money that this and some other State Universities have it would be much more profitably spent. For instance, with a smaller student body than at Dalhousie, there are five teachers of English here, and only one at Dalhousie. There are a dozen men employed the year round in improving the campus here, but so far as I know Dalhousie has no one employed for this purpose. Notwithstanding this, however, the work accomplished at Dalhousie is much superior.

Wishing you and the rest of the Executive Committee much success in your work.

Dalhousians in Amherst.

On the evening of April 21 the debating teams of Mount Allison and Dalhousie repeated, for charity, their debate on "Reciprocity," in Amherst, Cumberland County, N. S.

At the close of the debate they were entertained at the Woodstock Cafe by the Dalhousie graduates of that town.

Ivan S. Ralston, one of the latest products of the Dalhousie Law School, presided in a happy manner, and after the oysters, lobsters and rarebits had been disposed of, a short toast list was taken up. C. E. Casey, in a reminiscent mood, proposed a toast to Dalhousie, which was responded to by Major W. E. Thompson and E. E. Hewson. Major Thompson spoke of the forward movement in connection with Dalhousie, and showed that the future of the University depended upon the graduates which had gone out from her halls. There was no church or denomination back of Dalhousie, and at this time her old sons should rally to her support.

Adolph Landry proposed the toast to Mount Allison, which was responded to in fitting terms by Mr. Guy and Dr. Burrill.

H. J. Logan, K. C., proposed the toast to "Our Guests," which brought Mr. Vair to the front in a happy speech. Auld Lang Syne brought the function to a successful close.

Class of 1896—Reunion.

The fourth reunion of the Class of 1896 was held in the English Class Room of the College, on the afternoon of April 26th.

Of the original thirty-three members of the class, ten were present, viz.: Mrs. A. F. Robb, Mrs. Percy Shaw, Misses Marshall and Baker, and Messrs. MacGregor, MacNeill, Robb, Irving, Johnson and Mahon.

It was a great pleasure to those present to greet again Mr. and Mrs. Robb, who have been laboring as missionaries in Korea for the past nine years.

Mr. MacGregor, Class President, briefly reviewed the history of the class, noting that fifteen of the number had chosen the ministry as their profession, seven had taken up teaching, while a smaller number had gone into law, medicine, engineering, business, etc. He referred feelingly to the death of Dr. W. D. Currie since the last reunion. Dr. Currie contracted a contagious disease while in the exercise of his professional duties, and died—martyr to his profession.

Mr. MacGregor voiced the feelings of all present when he expressed his regret at Dr. Forrest's retirement from the Presidency of the College.

It was moved and seconded that the class of '96 put on record its sincere appreciation of Dr. Forrest as President, teacher and friend, and its regret that he feels called upon to resign the office which he has so worthily filled.

After brief speeches made by nearly all the members present, those of Rev. A. F. and Mrs. Robb being of special interest, the meeting adjourned, and the time and place for next meeting were left open for some special occasion.

Class Reunion—Arts' '99.

The third Reunion of the Class of '99 Arts' was held in the Mathematics room of the University on Thursday, April 27th, at ten o'clock in the forenoon. The President, W. E. Outhit, M. A., was in the chair. The minutes of the Reunion meeting of 1906 were read by the Secretary, Rev. J. H. A. Anderson. Only seven members answered to the roll-call, but in view of the great distances that separate the members of the class, this was considered quite representative.

Letters were read from several absent members, including Messrs. A. H. Stewart Murray of Winnipeg, R. J. Messenger of Bridgetown, N. S., Dr. Frank Fisher of Bay of Islands, Nfld., Roy Davis, Master in the Mechanics Arts High School, Boston, Theodore Ross of the Department of Agriculture, P. E. I., and Miss Eugene Archibald, Librarian of the University of Alberta.

Memories of "the former days" were recalled with pleasure, and the fortunes of the several members of the Class were noted with keen and sympathetic interest. From the far West of Vancouver, B. C., to the farther East of China and Korea, there stretches "a thin red line" of Dalhousie '99, and every soldier "ready, aye ready" to do his duty in the ranks. In law, in medicine, in the fields of literature, in the ministry of the gospel, in the sphere of agriculture in the teacher's and professor's chair, in the world of commerce and of politics etc., the men and the women of "Class '99" may be found making the principles and ideas of their alma mater tell for the good of the common weal. There was but one note of sadness in all these memories and observations, for one had fallen at his post since last reunion, O. F. O'Brien of Noel, Hant Co., N. S., deceased January, 1909.

"Dalhousie and her future" claimed a large share of the interest and attention of the meeting. It was noted that Professor Walter C. Murray had in the quinquennium become President Murray of the University of Saskatchewan, and a letter of congratulation was sent him accordingly, mingled with regrets that the gain of this new University of the west meant the loss of the old University of the east. The retirement of President Forrest from the leadership of Dalhousie was not allowed to pass unnoticed. An address appreciative of his faithful services and his personal worth was prepared, and at a later hour in the day presented to him the class waiting upon him in a body. Dr. Forrest made a characteristic feeling and fitting reply. The "Forward Movement" being initiated in the interests of Dalhousie was heartily appreciated, and a fine enthusiasm was displayed upon mention of the purchase of the beautiful and commodious grounds of "Studley" as the home of the "Greater Dalhousie."

Some discussion took place on the question of the continuance of a Class Fund in the interests of our Alma Mater, but in view of the aggressive steps being now taken by the Alumni Association to the same end it was thought wisest to leave the issuing of the matter in the hands of the incoming Executive.

The officers elect are as follows:

President, W. E. Outhit; Vice-President, Rev. A. M. Macleod
Secretary, Rev. J. H. A. Anderson. Members of the *Executive Committee*, Miss Grace D. Burris, Messrs. A. H. S. Murray, J. A. Ramsay, R. J. Messenger and Roy Davis.

The Class adjourned to meet again in the year 1916.

J. H. A. ANDERSON,
Secretary.

Alumnae Association.

The third annual meeting of the Alumnae Association, held in the Munro Room, on the evening of April 25th, was well attended, and manifested considerable enthusiasm for the work of the Society. The President, Dr. Eliza Ritchie, spoke of the work involved in furnishing and equipping the residence for women, which the Society has undertaken to open September, 1912. At one time it had been proposed to open a residence next September, but on the whole it had seemed wiser to defer the opening until the Studley Residence would be available, and this decision Dr. Ritchie heartily approved.

There was a discussion on ways and means of raising money for the work in hand, and it was decided to hold a bazaar next autumn. (For this the Alumnae will work during the summer, and contributions are solicited from Dalhousie women and their friends.) Dr. Magill's lectures on Architecture had not only proved most instructive and entertaining, but had also added substantially to the Alumnae purse. Thus there was encouragement to persevere in the effort to provide a course of lectures under the auspices of the Society for the following winter.

Though the Alumnae are bending their energy to increase their residential fund they decided to continue their offer of the Alumnae Bursary on the same terms as last year.

The report of the treasurer, Miss Grace Saunders, was highly satisfactory, showing a balance of \$1,440.75 in hand.

After the general business and election of officers for the ensuing year there was a song from Miss Courtney, which was much enjoyed. Then Mrs. Charles Archibald gave an inspiring address, looking backward to an earlier generation, when a girl's desire for college education could not be gratified, and forward to a brighter future awaiting Dalhousie, as foreshadowed in her dreams. Mrs. A. F. Robb, B. A. ('96), who was joyfully welcomed, gave an admirable account of her work in Korea. She spoke of the inordinate zeal of the Koreans for learning, of their reverence for their teachers and respect for authority. There followed a delightful violin quartette by Miss Crawford, Miss Harrington, Miss Hensley and Miss Helen Crichton.

A hearty vote of thanks was tendered to the speakers and the musicians of the evening, and the meeting adjourned to the waiting room for coffee and conversation.

The following are the officers for 1911-12:

Honorary President—Mrs. Trueman.

President—Dr. Eliza Ritchie.

1st Vice-President—Mrs. Magill.

2nd Vice-President—Miss H. Bayer.

Recording Secretary—Miss F. Blackwood.

Corresponding secretary—Miss J. Forrest.

Treasurer—Miss G. Saunders.

Executive—Mrs. Howard Jones, Miss Elizabeth Stewart, Mrs. MacMechan, Mrs. Howard Murray, Miss Frances Grant (Alumnæ Editor of the GAZETTE.)

College Notes.

Y. W. C. A.—The last meeting of the Y. W. C. A. was held on March 23rd. The retiring officers reported on the work of the year, after which an excellent paper on "The opportunities of the College Girl" was read by Miss Davidson, who is to be our delegate to the Y. W. C. A. conference at Muskoka.

The election of officers for 1911-12 then took place.

President.—Miss Mary I. Davidson.

Vice-President,— Miss Lois McKinlay.

Treasurer.—Miss Margaret Nicoll.

Secretary.—Miss Jean M. McGregor.

The College Y. M. C. A.—A new movement was initiated recently by the Dalhousie Y. M. C. A. When Mr. C. W. Bishop, Canadian Secretary of the Students Department of the Y. M. C. A., visited the association in January, the matter was brought up of engaging the services of a man to devote half of his time to secretarial work during next session.

The proposition met with the favour and hearty co-operation of the student body, and, at the practical suggestion of Professor Bronson, a number of pledges were printed and circulated among the professors and lecturers, as well as among the students. By signing a pledge, one agreed to pay a certain amount towards the fund of the Y. M. C. A.; on or before the reopening of College next autumn. Some fifteen men volunteered to conduct the canvass, which was to last a week. A great deal of interest was manifested in the campaign, and each morning the results of the previous day's work were posted.

The success met with along this line excelled the most sanguine expectations of the workers, and, to date, the magnificent sum of \$740.00 has been pledged. Response was prompt and hearty from all quarters. The Instructors in the different Faculties, the Staff of the Nova Scotia Technical College, some outside friends, and the men of the various classes all did their part nobly.

Subsequent to the campaign, the Cabinet met and nominated Mr. A. D. MacDonald, of the senior class, for secretary, and this nomination was ratified at the annual meeting on March 25th. It is understood that the new secretary will attend one or more of the student conferences next summer, and thus become more thoroughly versed in the work.

A new era has dawned for the local Y. M. C. A. and the retiring Cabinet heartily commends the association to the support of the students in the years to come.

Y. M. C. A.—March 26th. The annual meeting of the Association was held on this date, with a large attendance. Reports were received from the conveners of all the committees except two. The affairs of the Association are in a prosperous condition.

It was moved, seconded and passed unanimously, that a vote of thanks be extended to the musicians of the city who had so kindly aided in the success of our meetings.

It was moved, seconded and passed unanimously, that a vote of thanks be tendered to Professor Bronson for his work during the past term.

The following officers were elected :

Honorary President—Professor Bronson.

President—W. J. McLeod.

Vice-President—J. S. Smiley, M. A.

Permanent Secretary—A. D. McDonald, B. A.

Recording Secretary—R. J. Zwicker.

Treasurer—J. P. McQueen.

April 2nd. A large gathering greeted Mr. Frederick Campbell, of London, England, on this date, and heard a very good lecture on Social Problems in Canada. Mr. Hubley, of St. Matthew's, sang a pleasing solo. Professor Magill, Ph. D., acted as chairman.

Sodales.—March 30th. The annual meeting of Sodales was held in the Munro Room, Vice-President Johnson presiding. The following officers were elected :

Honorary President—Dean Murray.

President—E. T. Parker.

Vice-President—C. L. Gass, B. A.

Secretary—M. A. McPherson.

Executive—J. D. Vair, B. A.; J. A. Doull, B. A.; W. M. Nelson, J. P. McQueen.

Auditors—J. C. McDonald, B. A.; H. M. Blois, B. A.

Intercollegiate Representative—J. D. Vair, B. A.

The medals were then presented to the Intercollegiate Debating Team, and speeches made by the recipients.

Votes of thanks were then passed unanimously to the following :

Lieutenant-Governor MacGregor, for presiding at the Intercollegiate Debate; Messrs. Colwell Bros. and A. M. Bell & Co., for their kindness in decorating and advertising; J. P. McIntosh, B. A., for coaching the team; E. J. O. Fraser, B. A., for advertising the Debate; the retiring officers, for their efficient performance of their duties.

Delta Gamma—Delta Gamma held its last meeting for 1910-11 on March 17th, at Mrs. Crichton's, 5 College Street. A short Irish programme was given by the Freshettes and Sophomores, and the following officers were elected for the coming year :

President—Edith A. Chisholm.

Vice-President—L. Fillis Boak.

Secretary—Kathleen E. Allen.

Treasurer—Marion Smith.

Votes of thanks were extended to the retiring President, Miss Armitage, who has done much to make the year a success, and to Mrs. Crichton, at whose home Delta Gamma has spent so many pleasant evenings.

Obituary.

D. J. NICHOLSON.

Again the grim reaper has visited our College community and laid low one of our idols.

Mr. D. J. Nicholson, son of Jonathan Nicholson, Esq., was born in 1887, at Middle River, Victoria County, where he received his elementary and high school education. After receiving his "B" certificate he was engaged for two years in teaching, and one year in the employ of the C. P. R. in the Canadian West. He entered Dalhousie in the fall of 1908, and almost immediately became a leader in College life.

The epidemic of measles, which visited the College early in February, claimed Nicholson as one of its victims, but he had so far recovered by the end of the month as to be able to take the Law examinations. Immediately after there was a relapse, and he was taken to the hospital. Good hopes were entertained for his recovery, but on April 8th he became unconscious. His family was immediately notified. The operation, which was deemed necessary, failed to bring relief, and shortly after the arrival of his father Nicholson passed away.

If students will call up Ungar's (429) teams will call for and deliver their laundry each week

By his death the College loses one of its most prominent students. He was a leader in every branch of college activity. He was a member of the Arts and Science Society, in the cast of the College play, and deeply interested in Y. M. C. A. work. In his class—1912—of which he was president in this sophomore year, he was the leader, and a most energetic worker for the success of all its schemes. It is in athletics, however, that we will miss him most keenly. By his strength and endurance, and especially by his unselfish play, he won the admiration of all on the football field; by his faithfulness in practices and his eagerness to learn he endeared himself to the Executive. In addition to his ability at football he was Field and Track champion for 1910-11, and record holder in the shot-put. As a mark of their appreciation of his playing ability and sound good sense, the Athletic Club elected him Vice-President and a member of the Executive Committee for 1911-12. In spite of his wide interest in college societies Nicholson was a splendid student. In all his classes he proved himself earnest and attentive, and in examinations he always stood high. But, like a true Scot his genius turned particularly to mathematics.

The funeral took place at 6 a. m., April 13th, from his boarding house, on Edward Street. The students and professors were there in a body to follow the remains of their friend to the station. Idolized by his class, loved by the students, respected and admired by his teachers, we feel that no one can properly fill his place in our college life.

J. McG. S.

Degree Examinations.

CLASS LISTS.

Names in "Class I" and "Class II" are in Alphabetical Order. Names under Heading "Passed" are in order of merit. The Asterisk indicates a High First Class.

DEPARTMENT OF CLASSICS.

Why Hesitate

To Get a

“Beaver”?

YOU NEED A “BEAVER”

THE BEST ONE DOLLAR FOUNTAIN PEN MADE.

Connolly, the Stationer,

127 BARRINGTON STREET.

It is positive joy to use a “Beaver” fountain pen. It is easy and safe to carry, easy to fill and easy to write with. It starts to write immediately the smooth, gold nib touches the paper, and the same “just ample” flow continues to the end.

If your shirt requires a new neck-band remember that Ungar's puts it on free of charge.

Phone 1395.

Your class-mate always looks neat and tidy in his dress. Here's the secret: He is one of Ungar's regular Patrons.

The Late A. H. R. Fraser.

Many Dalhousians will hear with regret of the death of Mr. Alexander H. R. Fraser, L. L. B., Law Librarian of Cornell University. He passed away at Ithaca, N. Y., the University seat, on Tuesday last. For three years he had been suffering from Addison's disease, an ailment which almost invariably results fatally.

Mr. Fraser was 45 years of age, and was a native of Port Hood. He graduated from Dalhousie Law School in 1892, and was for four years Librarian, for which position he had special qualifications and aptitude. During these years he did great work in building up the library of the Law School, and the reputation which he won here brought him to the notice of the authorities of Cornell, where he had held for several years a most lucrative position as chief Law Librarian.

The funeral of the late Alexander H. R. Fraser, L. L. B., took place at Halifax on May 15th. The funeral procession included the professors and lecturers of Dalhousie university who are in town, and a number of other friends. The religious services were conducted by Rev. President Forrest, who made an appropriate and touching address, dwelling on the splendid qualities of mind and heart of Mr. Fraser. Prayer was offered

	THE UNDERWOOD	UNITED TYPEWRITER CO.,
	<p>The Underwood typewriter is sold in Canada by a Canadian Company, operating with Canadian capital and with Canadian employees.</p> <p>(14 Yrs. on the Mkt.)</p>	<p>Of Nova Scotia, Limited,</p> <p>146 Hollis St.</p> <p>HALIFAX.</p>

Freshmen frequently find Ungar's a friend in need, for there they get buttons replaced on Linen, new collar bands on shirts, also suits and over-coats put into shape again after hard usage.

by Rev. John M. MacInnis, of Park Street Church, which is attended by A. Sinclair Fraser, a brother of the deceased.

The Cornell Daily Sun, of last Wednesday, heads its editorial with this quotation from Milton:—"Servant of God well done." Its leading article, which is devoted to Mr. Fraser, is as follows:

"A life of well directed effort with tangible results, of self-sacrificing application to the task before him, of patient consecration to the betterment of others—such a life has been cut off in the death of Mr. Fraser.

"To the thousands of alumni and undergraduates who knew him, to the many who have sought the aid of his broad knowledge of the literature of the law, his end will bring a rush of that sincere sorrow which only the death of an esteemed friend can arouse

"For he was a good friend and a valued one to all who knew him. Another generation of judges, jurists, and men learned in the law, will bear the impress of his training and will themselves pass it on to younger men. And thus the good which he has done lives on and on.

"For this university his work is none the less lasting. A magnificent library of many thousand volumes will endure for long decades, a fitting testimonial to his memory."

STANDARD LIFE Assurance Company, Edinburgh

ESTABLISHED 1825.

HEAD OFFICE FOR CANADA, - - MONTREAL.

You'll Get the Best

There is quality about what we have to serve and excellence about the way we serve it. Our Oyster Stews, Hot Teas, Coffee and Chocolate are right up to the mark, Our Cold Drinks and Ice Cream are simply delicious, Our Fruits and Chocolates are the best.

PATRICK'S Open to 11 p. m.
25 George Street.

Students are reminded that Ungar's way of Laundering Collars, Shirts, etc., is unexcelled.

COLLEGIAN'S CLOTHES

WE have made a specialty of Suits for Students, College Overcoats, Evening and Professional Dress, and undoubtedly (owing to our large buying facilities) our Cloth Values are the **VERY** best. If you want **ANYTHING** in the clothing or furnishing line—from a collar, a sweater, to a fine dress suit—come here.
A Special discount to Students.

FOUR FACTS

FROM THE

CANADA LIFE ASSURANCE COMPANY'S SIXTY-FOURTH ANNUAL REPORT.

1. **THE SURPLUS** earned, \$1,233,163.00, was the greatest in the Company's history of 64 years.
2. **THE ASSETS** now stand at \$40,820,856.00, having more than doubled in the past 12 years.
3. **THE PAYMENTS TO POLICYHOLDERS** in 1910 amounted to over \$4,789,000.00, exceeding by more than one and a half millions of dollars the payments made during any previous year. Over \$2,000,000.00 in **PROFITS** alone were allotted to Policyholders.
4. **THE NEW PAID-FOR BUSINESS** amounted to \$10,838,384.00, bringing the **TOTAL ASSURANCES IN FORCE** up to \$128,274,973.00.
