Box 710. Wolfville, N.S.

23 May, 1972.

Dear Mr. Raddall:-

I have quite recently received a letter from the history tutor of Brasenose College (Oxford), containing the following two or three sentences:-

"I have just read the King William IV of Philip Ziegler (who wrote an excellent life of Addington a few years ago), published last year. In 1787, Prince William (as he then was) was serving in the Navy, and was stationed in Quebect Here his mistress was Mrs. Wentworth ... the mother of their the Wentworth's son, Charles Mary] who came to B.N.C. Brasenose] in 1792."

Apparently the writer of those semtences was unaware of the vivid accounts of the earlebr associations of 'Captain Guelph' and Florence Wentworth contained in your books, The Governor's Lady and Halifax, Warden of the North, and I must therefore send him word of them.

The calendar of State Papers contained in the Report of the Public Archives of Canada of, I think, 1889, records that Prince William Henry arrived at Quebecon 8 August, 1787, and left again on 3 October, so that it would seem just a little incorrect to say that he was really stationed there. There is no proof positive in that calendar that the Wentworths were there at that time. But mention of a report by the Surveyor General at seems to show that they were in fact there and with Mr. Wentworth conveniently well away on survey work.

Permit me now to submit to you a few observations on points in your $\underline{\text{Halifax}}$.

Parr was not - in form, at least - the last Captain General and Governor in Chief of Nova. Scotia. From the time of Dorchester onward each 'Governor General' came out with a bunch of commissions, each one of them appointing him, separately, as Captain General and Governor in Chief of each of the several provinces of British North America; and each Lieutenant Governor received a commission which authorised to act as Governor in the absence of the genuinely commissioned Governor. This, in fact, meant always - though there was one occasion, in the early 1840s, on which the Governor General paid a visit to Nova Scotia for a few days and at that time assumed the office of Governor of Nova Scotia for the purpose of settling some local matter of controversy. (A few days later, he visited to New Brunswick - where he was received as a personage of supreme standing, but where he did not assume to office of Governor.) The consequences of this complicated confusion, which I am mentioning only very briefly here, are to be seen in the terms of the Confederation settlement of 1867.

In December, 1941, I spent a couple of hours ashore in Freetown, Sierra Leone; and there I was told of a 'Nowe Scotia Settlement' and a 'Nova Scotia Church' within the town, but without particulars of

them. Some years ago - and I cannot remember when - I read an article in, I think, The Canadian Geographic, which depicted the present day descendants of the freed slaves from Nova Scotia as the present aristocracy of the town.

And a book, <u>Creoledom</u>, by Professor Arthur T. Porter, Director of the Department of African Studies in Fourah Bay College, goes into the stories of the migration from Nova Scotia and of other liberations in Sierra Leone in considerable detail. If you would like to see my copy of the book I would be very glad to send it to you. I think you will find it fascinating.

Charles Mary Wentworth left Halifax for England, carrying despatches from his father, in late September; and he must have taken with the news of the recent death of the first President of King's College, news that would seem to have led to the electiom of Charles Porter as President of the College in December, 1806. When Charles Mary and his mother arrived in Halifax in July, 1799, Charles Mary must have made the suggestion that a Brasenose man, the Rev. Thomas Ashley, should be given an invitation to accept the presidency of King's. I don't know what became of that suggestion — which his father sent back to London. But I fancy that Ashley was too comfortably established in a Brasenose fellowship to feel any inclination to give it up in favour of Nova Scotia.

I have recently accepted an invitation to contribute an article of 400-600 words on Charles Porter to the <u>Dictionary of Canadian Biography</u>, and think that I have sufficient material already for an article of that length. But I do want to obtaim more material about him for an article in the <u>Dalhousie Review</u>, to which I can make reference in a foot-note to the <u>Dictionary article</u>; and that <u>Review</u> article will require further research, and principally in <u>England</u>.

As I read this letter through, I feel appalled at the immense number of typographical mistakes that I have made. I must hope to recover better control after some restful weeks down here.

yours sincerely,

M

Dear Kr. Kuddall, I despatched breoledom to you yesterday evening, and hope that you will find it interesting! I do feel doubtful about the information received from Oxford about the associations of Prince William Henry and grances Wentworth in Quebec in 1787, and will write for more portundas. While I could be expected that the teadia library has not acquired a copy I megler's recent King William It, of Canadiana lacks a copy of Dyott's formal. The 1890 Report of the Public trehives of banala contains a calendar

of State Papers of the original province of Quebec; and its abstract of Minutes of the provincial Council for 30 gune, 1788 neconds a report relating to the grand (Ottawa) river by the surveyor general (name not mentioned). This does seem to create a possibility that Wentworth may have been in the province of Ineber at that time; but I shall not address any inquiry about it to tochwes until I receive a reply to my inquiry to oxford. yours sinevely. C. P. Wright.

Dear Mr. Wright:

Thank you very much for letting me see Porter's "Creoldom", which I return to you by today's post.

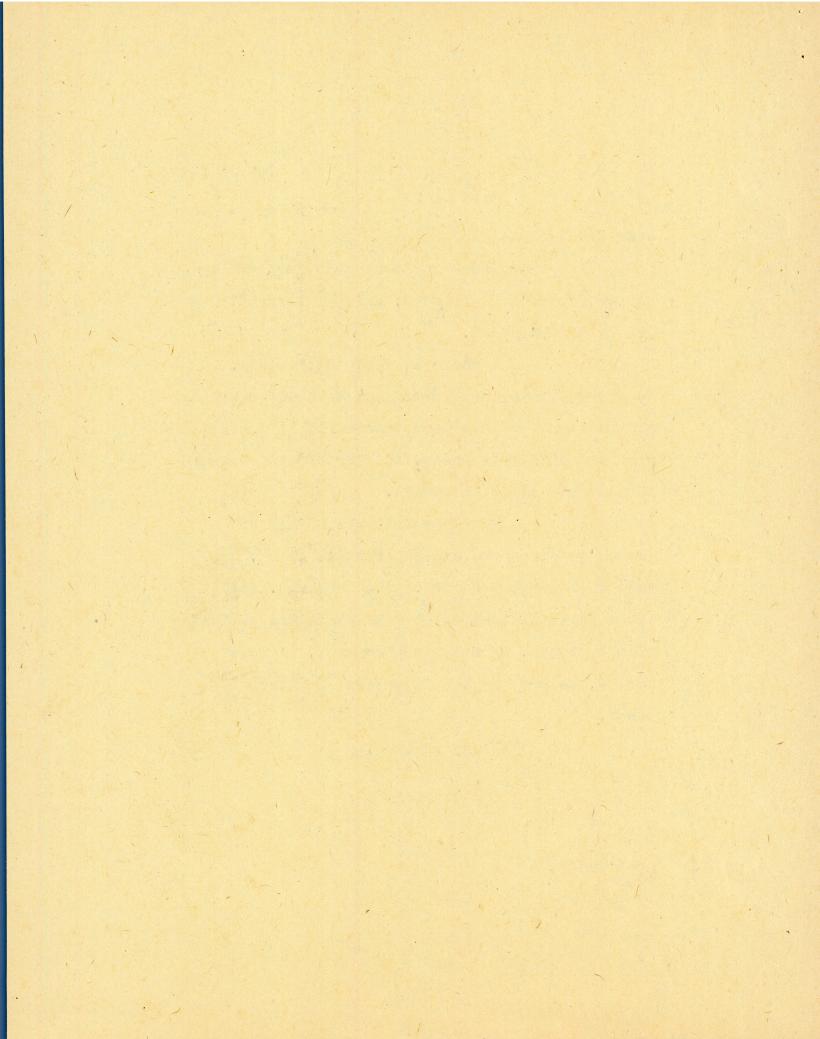

I found it most interesting.

My young visitor Haliburton had told me something of the impact of the Nova Scotia blacks on their new home in Sierra Leone, but "Creoledom" makes it all very clear in detail.

Possibly Haliburton knew of
Porter's researches and publication plans, and
gave up his own project on that account. Yet
there is still much to be told about the gathering
of the blacks, from various sources, in Nova
Scotia, before the two migrations to Sierra
Leone.

With my regards.

Sincerely,

Dear Mr. Raddall,

I write to request your help in locating sources of information, in the province, about the Wentworths.

I may perhaps have mentioned when last I wrote to you, that I have undertaken to prepare an article for the Dictionary of Cavadian Brography on the Rev! Charles Porter, who was president of King's bollege grow 1807 to 1836. I think that I can manage easily enough the space of 400-600 words allowed me. I have not yet obtained a copy of his blaveles-Mary's will, which would have been proved in England. July 11.1972

Dear Mr. Wright:

With regard to your letter of July seventh.

I have the three-volume Wentworth Genealogy which was published by Little Brown & Company in 1878. Also I have the biography of John Wentworth by Mayo. I shall be happy to lend you these for a month.

John Wentworth's estate at Preston, near Dartmouth N.S. was on a hilltop, commanding a magnificent view. I have visited the site. The term "Wentworth Hills" probably referes to the extensive lands he obtained by grant in Pictous County, near Merigomish. I am told that Sutherland River therexgot its name from the first settler Wentworth brought there in 1786. "The track of the new road from Pictou", mentioned at the foot of Page 111 of my book on Halifax, appears to have been a track cut through the woods from Pictou and Merigomish to Musquodoboit Harbour, where goods and passengers could embark for Halifax. It was probably cut to provide access to Wentworth's lands as much as anything else.

An English informant on the Sunninghill area wrote me, in part :-

"Sunninghill is a parish in the rural district of Windsor, and adjoins the southern extremity of Windsor Great Park, i.e. the portion containing Virginia Water, and bounded by the Southampton Road coming out of Egham and Staines It was the practice for the upper crust of the inhabitants merely to head their letters "Sunning Hill" rather than with the name of their house Hughes' *History of Windsor Forest' (1890) refers to Silwood Cottage built in the 18th century, which was the residence in turn of Mr. River, Sir Charles Wentworth, Mrs. Ann Dawson, and Capt., afterwards Vice Admiral Hardyman. There was nearby a house called Silwood Lodge which was pulled down in 1877. Its occupants are known and do not helpk in regard to the Wentworth problem. ".... The county archivists of Berkshire and Surrey can find no record of Sir John Wentworth living in the Windsor area, he is not mentioned in Victorian County History. local contemporary directories or in any other records so far examined."

You should have no difficulty in seeing the Wentworth correspondence at Northampton, in both the Fitzwilliam and the (English) Wentworth papers. On my advice the Public Archives at Halifax got microfilm copies of many of them, from the records office at Northampton.

Call on us here in Liverpool, by all means. We shall be happy to see you and Mrs. Wright, and you may consult my notes on the Wentworths as much as you like.

12 February, 1973.

Den Mr. Kaddall,

I am going to present to you two questions in relation to the governor's Lady.

While in England in October, I made two attempts to locate Silwood bottage, in which Lady Wentworth and Charles Kary Westworth lived and in which Lady Westworth died. The first attempt was entirely unsuccessful, but upon my second attempt the local postmaster directed me to a cottage which he thought would be the one that I was seeking. Unfortunately, when I went to it I sid not find anyone at home, and in consequence all that I could do was to obtain from the postmoster the name and address of the present occupant. And here they are:

Mr. T. Amers. Sovereign's Cottage, London Road. Sunning hill, Ascot, Berks.

Mr. Hours, the postmaster said, is a retired bank manager, and spoke of him in a way that seemed to assure a griently reply to any letter of inquiry about the identity and past history of his cottage; and for that reason I do

not with I have produced the final version of my article on the Reverend Charles Porter for the Dictionary of Canadian Biography.
When I do write to him, I shall tell him of the

P.332

passage in The Governor's Lady that tells of the visit of John and Frances Wentworth to the Juningful region and of their dream of some day making a home there; and I shall offer to send him a copy of the book if he would care to have one. But before I do this I must want to to locate that passage for myself, and although I have gone through the pages of The Governor's Lady several times, I have failed to find it bould you, therefore, do me the kindness of directing me to it?

The cottage in which Me timers lives has been enlarged, on one side, to the grout But the other side unaltered, does give the appearance of a well-bull cottage of the Wentworthe' time

When King's bollege came into being in 1790, its ofist president was the Reveren William bochran, a graduate of Trimity bollege Dublin; and he continued in that position until the avorised of the

royal charter for the college in August or September, 1802. There they seems to have arisen a feeling - on the part of some of the governors - that the president and professors of the college - should be graduates of oxefor or bambridge; and a letter of Bishop Juglis, written in the writer of 1802, speaks of Sir John Wentworth's attempts to remove bochron from the presidency, in favour of a relation of his, and of his resentment against bochran for his refusal to resign. My girst thought was that relation must have been his son; and I still think that it probably was. But there is another possibility in Benning Wentworth, his cousin and brother-in-law, who, as I see from The Wentworth genealogy, has also been at Oxford. (9 note your mention of this in The Governor's Lody.) I have recently written to the Reference division of the National Library to ask for the text of the entry in Joster's Alumni oxomienses about Benning Wentworth, and I may obtain some interesting information about him in that way. But what you say about him in the governor's Lady, and

Alumni oxonienses probably will not, is that he served in the Loyalist forces during the "War of Independence". I should be very glad indeed to have quetter information on that. P. 448

1333

It is easy to understand a bilter officition on the part of sir John and Benning Wentworth to the continuation of bochran as president of King's bollege. After all, he had left Britain for Philadelphia in 1783 in the hope of gaining a law of ideal greedom. a choice that dispossessed Loyplisto would find it hard to forgive; and Ireland, too, has been in rebellion only some four years before 1802 Even though his goly Wentworth certainly, and Benning Wentworth possibly, treated bochran most unfairly, I can entertain a good deal of sympathy for them. But I regard Alexander broke as a thoroughly detestable personality

bouras Wright.

Mr. C.P.Wright, P.O.Box 710 Wolfville, N.S.

Dear Mr. Wright:

The reference to Sunning Hill in my novel is on page 332, where I have Frances musing with John about a place for retirement in the still distant future.

The references to her young brother Benning Wentworth in England, after his service in the war, are on pages 333 and 448.

It is now nearly seventeen years since I began my research for "The Governor's Lady", and many of my notes are now part of a mass of book material in my attic, accumulated over the years. Hence I cannot give exact references for Benning's career as a Loyalist soldier.

I remember this much. Benning was one of "Governor Wentworth's Volunteers", the small group of Loyalists, mostly from New Hampshire, which John Wentworth raised as a private unit on Long Island. It was never recognized by the British army authorities. probably because it was too small (there were dozens of such groups), and I could find only a few references to it. The group disbanded when Wentworth made his voyage to England in 1778, and some of them, including Benning, appear to have enlisted in recognized Loyalist regiments. At any rate I found a reference to Benning having served four years in a Loyalist force when he came to England at the close of the war. He studied at Oxford. married an English girl, and settled at Hope, in Herefordshire, living on his half pay and an allowance from his father-in-law. In 1793, as you know, Lieutenant Governor John got him the appointment of Freasurer of the province of Nova Scotia, which he hled until his death in 1808.

Since The Wentworth Genealogy contains a statement that Benning Wentworth 'graduated at Oxford', I felt that it would be desirable to obtain any particulars of his attendance there that might be contained in Foster's Alumni oxonienses; and accordingly I wrote to the Reference branch of the National Library in Ottawa for a copy of the entry relating to him that would, I supposed, be found in it.

In reply I received a photo-copy (which I enclose) of the records of all alumni of the surname of Westworth; and you will notice that it does not contain any mention of Benning Wentworth. The absence of his name could not, I think, be due to any oversight. At that time it was forbidden to Fellows of colleges to marry; and I would therefore think it must unlikely that any college would accept a married man -Benning Wentworth was married in January, 1784 - as an undergraduate.

The Samuel Wentworth, of Worcester College, who is mentioned in Alumni oxonienses was a younger brother of Frances and Benning Wentworth.

I have accordingly written to the librarian of the Royal United Services Institute in London (of which I am a member) to ask for information on this point; and I would hope to receive a reply from him in a few days' time. If, when it comes, it does provide some information about his regimental service, I shall let you know of it as soon as possible. Issued directions.

I have not yet received any reply to the letter of inquiry that I recently addressed to Mr. Amers, in Sunninghill. But he may well be one of the people over there who are unaware that a letters despatched from England by surface mail may be some six weeks on its way. And in consequence I do not despair of receiving a reply from him in due course, even if not until towards the end of this month.

Dear Mr. Raddall:- continuo ni squadall:-

It has taken two letters of ingiry to London - the first of them sent on 21 February - to obtain from the library that used to be the library of the Royal United Services Institute (but has now be transferred to the Ministry of Defence) the information that I was seeking about the service of Benning Wentworth in an organised Loyalist regiment.

The first reply, dated 28 February, told me merely that he appears in the Army Lists of 1779-81 as a Captain Lieutenant and Captain in the 89th Regiment of Foot. Feeling certain that that must be a Loyalist regiment, I wrote again, to ask whether it had in addition any name. And on this point I have now been informed that did not have any name, but that, since it appears to have been raised on 19 October, 1779, and was disbanded in 1783, it can be presumed to have been a Loyalist regiment. Its commanding officer was a Colonel L.F. Cary.

The date of Benning Wentworth's commission, as both Captain Lieutenant and Captain was 25 October, 1779 - so that he evidently got in at the very beginning. Why there should be those two designations of rank I do not know; but I suppose one served to indicate seniority within the regiment and the other seniority within the Army.

to 1808

According to the Army Lists from 1798, B.W. was also Secretary of the Garrison of Nova Scotia - and probably thus, immediately under the lieutenant-governor, ax administrative head of the garrison. This was an appointment for him of which I had not seen any other mention.

Perhaps, in Sir John's later, and possibly declining years as lieutenant-governor, many of the duties of his office fell to the attention of his cousin and brother-in-law.

I have not yet received any reply from Mr. Amers, of Sovereign's Cottage, Sunninghill.

Dear Mr. Radholl, I enclose two letters that I have recently received from Mr. timers, and grow the latter of them you will see that the identity of silwood bottage, with its accompanying history, is now, for us, established. I have just now written brufly to Mr. Amers to thank him for his letters, and I shall write to him again, and at length, in a gew days time. A copy of the governor's lady will be despatched to him to-morrow. 9 must also write a letter of thoules to M. Lave, the source of the information that My timers has sent on to me.

From the Kinistry of Defence library in Loudon (formerly the library of the Royal United Services Institute) I have been able to obtain some further information about the military service of Benning Wentworth after the disbanding of governor Wentworth's Volunteus, The 89th Regiment of Foot was raised, unler bolonel L. S. Cary, on 9 the October, 1779, and Benning Wentworth was commissioned in it, on 25th October, 1779, as baptom heatenant at Baptain. Of the two ranks granted at the same time one would,

I think be regimental, and the other 'Army', considerations

of removily being involved.

The regiment was destanded in 1783, so that it must certainly have been a Loyalist regiment: whether it had a name in addition to its number the M. of D. libraries cored not vay: and I shall accordingly with to a griend of mine, the libraries of loyal Military bollege to ask for information on this point — and perhaps also on the service of the regiment in the girl.

How I mentioned to you that Forter's Alumni oxomienses has no needed of Benning Wentworth as having matriculated at Oxford? I think The Wentworth geneslogy must be at fault on this point. In the termy Lists grow 1798 he is

listed as Secretary of the Garrison at Nova Scotia.

gracing the descendants of Sarah Wentworth and Sarah Wentworth tepthorp (363 and 967 in the Wentworth genealogy) has brought me down to griselda Eastwick burningham and Perez Morton burningham, and thereby to some interesting questions relating to King's bollege and Windson - with a possible dipession to tustralia.

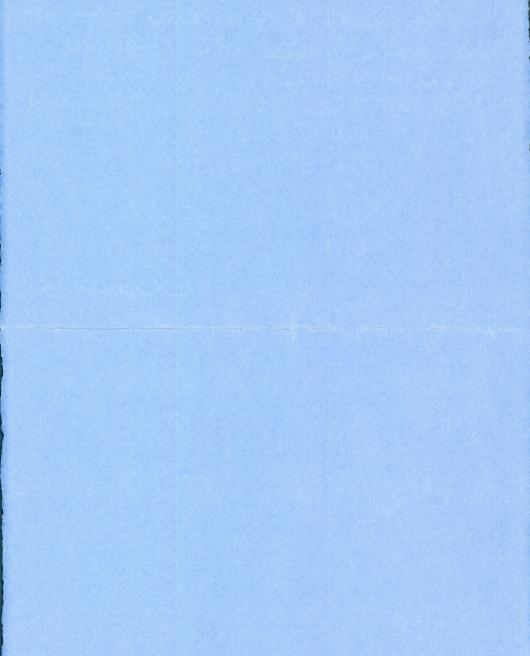

Of the two number aparted at the same time one would
