# Dr. Henry D. Hicks Appointed President

### To Succeed Dr. A. E. Kerr In August

Dr. Henry D. Hicks, Dean of the Faculty of Arts and Science and Vice-President of the University, will become President of the University in August of this year. Announcement of the appointment was made by Donald McInnes, Q.C., Chairman of the Board of Governors in early February. Dr. Hicks will succeed Dr. A. E. Kerr, who is retiring after eighteen years as President.

Once the youngest provincial premier in Canada, Dr. Hicks was born in Bridgetown, N. S. and attended Mount Allison University, where he received the degree of Bachelor of Arts, Summa cum Laude, in 1936. He then proceeded to Dalhousie where he obtained the degree of Bachelor of Science in 1937. That year he was awarded the Rhodes Scholarship for Nova Scotia and received his second Bachelor of Arts degree from Oxford University in 1939, the degree of Bachelor of Civil Law in 1940 and the degree of Master of Arts in 1944. He has also been awarded honorary degrees from several Maritime Universities.

During World War II, he served as Captain and Technical Staff Officer,

Radar, with the Royal Canadian Artillery in Belgium, Holland and Germany.

He was elected to the Nova Scotia Legislature from Annapolis County in October, 1945, and was appointed to the newly created post of Minister of Education in 1949. He became Provincial Secretary in 1954 and in the Fall of that year, at age 39, became Leader of the Liberal Party and served as Premier of the province from 1954 to 1956. He continued as Leader of the Opposition and Liberal Member for Annapolis East from 1956 to 1960.

In 1960, Dr. Hicks resigned as Liberal Leader of Nova Scotia and accepted the post of Dean of Arts and Science at Dalhousie, becoming Vice-President of the University in 1961.

During his career at Oxford, Dr. Hicks was coxswain of the Oxford University Rowing Crew, and was the first Canadian to be elected President of the Oxford University Boat Club.

He is married to the former Paulene Agnes Banks of Caledonia, Queens County, N. S., and has two sons and two daughters.

# WINTER CARNIVAL '63

Amid tumbling temperatures and falling snow, Dalhousie's first Winter Carnival started with a gigantic torchlight parade on February 5. After lighting up at City Hall, the torch lighters wound their way through city streets to the University Rink where they were treated to an excellent ice show, a fast moving hockey game and a humourous broomball game between Dal girls and non-skating foreign students.

Winter Carnival '63 held on campus between February 5th and 9th, was an unqualified success. With bare ground up until the day before the Carnival started, Chairman Dave Major and his Committee were more than a bit concerned, but the weatherman came through with a good snow fall just before the opening ceremonies, and from there on everything ran along as planned.

During carnival week, the students were offered a variety of entertainment, which included a Ball in the Mall of the new Halifax Shopping Center, a concert by "The Journeymen", a talent show, a cook out and a square dance. Because of a tie vote after several recounts, this year's Winter Carnival was blessed with two Queens, the honors being shared by Wendy Harrison and Joyce Smith.

On Saturday, the closing day of the Carnival, Varsity met Alumni in the first Snow Bowl Football Game. Despite the handicap of snow and cold, it was a well played legitimate football game with the "old-boys" using their experience to good advantage to come out on top with an 8-0 score.

The rest of the day was taken up with such diversified activities as ground hockey in the snow, basketball in the gym and the judging of the many snow sculptures on campus. The Carnival ended with a promise of warmer days ahead as the students enjoyed a colorful West Indian Carnival in the gym Saturday night.

A Cook-Out in zero temperatures but nobody seemed to mind the cold.

Football in the snow: Varsity versus Alumni, and believe it or not, the "Old Boys" won 8-0.

Two Carnival Queens: a tie vore after five recounts but two heads are better than one, even with a single crown.

## THESE MEN OF ACTION HELP UNIVERSITY DALHOUSIE

Since World War II, student enrollment at Dalhousie University has more than tripled. During the 1950's, several new buildings were erected, including the Dentistry Building on Carleton Campus, the Arts and Administration Building, the 150-bed Men's Residence, and the magnificent Sir James Dunn Science Building on Studley Campus. Further enrollment growth, 3,500 students by 1967 and 5,000 by 1972, necessitates the construction of additional buildings, The above photo of the Studley Campus model illustrates this dramatic expansion:

The story of the Dalhousie Law School is the story of people. Long rich in human resources, the qualities of graduates, students and faculty and their contributions to society have established the school's reputation. Its standing among law schools and with law societies in Canada will continue to depend upon the attainments of the students of today and tomorrow.

Some indication of continuity in the life of the law faculty is the entry of students who are children of graduates. This year there are seven sons of seven alumni in the first year class, and three sons of other graduates are in second year.

#### Enrollment

Enrollment in law is expected to increase substantially from the low average of 109 students over the last three years, caused by the small entering class of 1960, an experience of Dalhousie as of most schools in Canada. Next year it is expected to be about 135 students, to rise to approximately 200 by 1966 and perhaps to 300 by 1980.

#### Traditional Values of Dalhousie Law School

The primary task for the Law Faculty in the years ahead will be to preserve the traditional values for which the School has become famous and at the same time provide an opportunity to more students for education appropriate to the changing and complex needs of the second half of the twentieth century.

Perhaps the most important traditions at Dalhousie are the maintenance of a national character in the Law School where high academic standards prevail, and the fostering of interest in service to society and of a climate of self-education through close relations and co-operation between students and Faculty.

#### The Community Served by the Law School

Over the years Dalhousie has been fortunate in the community served by its Law Faculty. Unlike other schools in Canada a significant portion of the student body consistently comes from provinces other than that where the school is located. This year, for example, while 59 of the 111 registered students are from Nova Scotia, 18 come from the other Atlantic Provinces, 27 from homes located in all the other provinces of Canada and seven from abroad. Moreover, the majority of students of the Law School leave Nova Scotia after graduation. Students and faculty alike naturally take a broad view of legal and social problems. The diversity of regional origins of the students and of their undergraduate training, in subjects ranging from architecture to zoology, studied in many different universities, contribute much to educational development at the school.

Another way in which Dalhousie continues to be fortunate is in the high quality of its law students. With higher admission standards in recent years the student today is better prepared than most of his predecessors when he enters upon the study of law. This year all but twelve of the student body have already obtained a degree in arts, science, commerce or other discipline.

In the past twelve years Dalhousie law graduates have been awarded 49 postgraduate scholarships and fellowships by other

institutions. This is believed to be close to half of all such awards to Canadian law school graduates. This is a significant share for Dalhousie, which has produced less than seven percent of all graduates in this period.

The Sir James Dunn Law Scholarships Plan has done much to assure maintenance of the national character of the Law School and the high quality of student work. Under this plan, each year up to seven outstanding students from across the country may be awarded scholarships, valued at \$1500 per year and renewable by maintaining a high academic record. These were the first scholarships of substantial value made available for study in any Canadian law school. Thus far, four "Dunn Scholars" have graduated, and there are four in each of the three years. Their academic and personal contributions to the life of the school have been a source of satisfaction. They will continue to be of importance to us. As the cost of education rises funds for bursaries and loans are more and more essential to aid good students who find themselves handicapped by inadequate resources.

#### The Atmosphere and Standards of the School

Over the years the Law School has had relatively small classes and a full-time faculty whose efforts are dedicated first and foremost to guiding the work of students, in formal and informal sessions. Close relations and co-operative exploration of legal problems have established the traditions and standards of the Faculty. In recent years these have been enriched by an increasing emphasis on independent or small group work through courses involving written assignments for comment and criticism by the faculty and through student assistantships in particular courses. With cooperation of the local Bar and Bench students are also provided better insight into the legal process through guided attendance at the courts, in chambers, legal aid clinics and certain provincial institutions. Undoubtedly, these developments have increased the work load of student and teacher and have improved the study of law. Seldom now is the Library not crowded and often the demand for books outstrips supply.

#### Facilities for Legal Education

While it is people who have made the name of Dalhousie famous in legal education, they have done so only through adequate facilities for their training at the School. The existing law building, now more than forty years old, was originally designed for 100 students, a full-time faculty of four, one stenographer and a library of 17,000 volumes. It has served the Law School well since 1952 while gradually growing overcrowded. Now, while the 111 students are fewer than were in attendance prior to 1958, there is a full-time faculty of eight teachers, a Librarian and her staff of two, three stenographic and clerical personnel and a library of more than 32,000 volumes. Accommodating staff, books, reproduction equipment and storage has left student work space at a premium. There is but one classroom and one seminar room, used for a multitude of other purposes, in the building, the library collection is scattered around the three floors, and student locker and lounge facilities are completely inadequate. New acquisitions for the library involve constant shifting of the collection since additional volumes cannot be shelved in the law building but must be stored elsewhere, diminishing the utility and efficiency of the library.

Inadequacy of these facilities, particularly in view of the anticipated increase in enrollment, has been recognized by the University and provision of a new law building has been included in its capital development program. This is of prime importance if the students of tomorrow are to have the opportunity for education in the traditions of Dalhousie, and if the Law School is to remain among the outstanding centres of legal ecucation in Canada.

### ALUMNI TO ESTABLISH \$20,000 SCHOLARSHIP FUND

At the January meeting of the Executive of the Dalhousie Alumni Association, it was agreed to establish a \$20,000 Scholarship Fund by 1967, at which time the first of an annual \$1,000 scholarship is to be awarded.

The Scholarship Fund is to be established in line with the proposals made by a special Scholarship Committee under the Chairmanship of Dr. George Langstroth. The Committee recommended that the scholarship should be financed from income from an established fund rather than from current revenue, and that no scholarship should be issued until the total Fund had been established.

The Executive decided to build the Fund during a five-year period by investing \$3,447 each year. This amount, with accrued interest, will produce the necessary \$20,000 Fund needed to perpetuate a \$1,000 annual scholarship.

It was also decided that the scholarship would be limited to first-year tenure since the transition from high school to university normally raises, for the first time, the question of a large financial investment in education. The prospect of this, contrasted with the attractions of taking a paying job, sometimes deters bright students from entering university. Once having entered, however, and with a year's university experience behind him, transition to the second year is not likely to appear so great an obstacle, especially since he has been brought into contact with information regarding the various scholarships open to really good students.

The executive also agreed that it did not seem proper to limit the eligibility for the scholarship to some particular field of study, since the Association included representatives of all fields.

The Fund will be held by the Association until fully established and then donated to the University with an appropriate deed of gift to ensure that it is used in accordance with the intentions of the Association.

The Scholarship Fund will be built up during the next five years with money set aside from the annual revenue of the Association. Alumni Dues, which have been \$3.00 per year for 30 years, have been raised to \$5.00 per year and the Executive intends to use the additional revenue received from the increased dues to establish the Fund by 1967.

In commenting on the Scholarship Fund, Alumni President, Carmen F. Moir, said, "This is one of the most worthwhile projects undertaken by the Alumni Association and while it is anticipated that we will be able to establish the Fund from annual revenues, the Association will welcome special gifts allocated to the Scholarship Fund by alumni who are particularly interested in this type of project."

### ALUMNI DUES RAISED TO \$5.00 PER YEAR

The Executive of the Dalhousie Alumni Association has agreed to raise the annual dues of the Association from \$3.00 to \$5.00, effective April 1, 1963, which is the beginning of the 1963-64 year.

As far as can be determined, Alumni Dues have been \$3.00 a year for over 30 years, and the Executive was unanimous in its decision to initiate the increase. With both the scope and the cost of alumni projects gradually increasing over the years, the Executive decided it was necessary to increase the fees to meet the increased expenditures of the Association.

An immediate application of the increased dues will be the establishment by 1967 of an annual Alumni Scholarship of \$1,000. This project, which is one of the most worthwhile ever undertaken by the Association, will be financed by setting aside the extra \$2.00 collected each year in dues until the Scholarship Fund totals \$20,000.

In discussing the increase, members of the Executive felt that no Dalhousie alumnus would object to paying \$2.00 a year more to the Association, especially since the dues have not changed for 30 years and the additional revenue will be used for the Scholarship Fund.

In line with the increase in regular dues, it was also recommended that Life Memberships be increased from \$50 to \$100. This increase has been incorporated in the revision of the By-Laws which will be presented by the Executive to the Annual Meeting on May 13, 1963.

### Revision of Association By-Laws Completed

The By-Laws of the Dalhousie Alumni Association have undergone a complete revision. A special committee headed by Prof. Arthur J. Meagher, Q.C., spent over a year in re-drafting the By-Laws before they were given final approval by the Executive.

A notice of motion to amend the existing By-Laws, complete with the new draft, will be sent to all alumni in April, along with the usual Notice of Annual Meeting and Ballot Form. The new By-Laws have been designed to conform with the present aims and increasing activities of the Dalhousie Alumni Association.

Among the major changes proposed in the new draft is a change in the method of electing the governing body of the Association and a change in name of this body from "Executive" to "Board of Directors". Also included is an increase in the fee for Life Membership in the Association from \$50 to \$100. This is in line with the increase in annual dues from \$3.00 to \$5.00 which will become effective on April 1, 1963.

Under the proposed change in the method of electing officers, alumni will vote each year to elect six members to the Board of Directors for a two year term. Alumni representatives on the Board of Governors of the University shall be elected in the same manner as at present. The members of the Board of Directors so elected shall select a President and other officers from among their number at a Board meeting to be held immediately following the Annual Meeting of the Association.

Other changes have been proposed to streamline the By-Laws and bring them up to date with existing conditions.

### RHODES SCHOLARSHIP COVETED AWARD

The most coveted award sought each year by university students is the 58year-old Rhodes Scholarship. Out of a total of 55 Rhodes scholars chosen from Nova Scotia, 38 have been granted to Dalhousie graduates. The award is made annually if merited, but was not granted for a number of years during World War II.

On the average, seven out of ten Nova Scotian Rhodes scholars come from Dalhousie and this average was met quite neatly in the last ten years. In this period two other Dalhousie students won the award for other regions: one for Bermuda, the other for Newfoundland.

Ronald Eric McAllister, who received his B.Sc. with honours in physics at Dalhousie University in May 1962, is the latest Rhodes Scholar for Nova Scotia. He does post-graduate work in geophysics at Dalhousie, working on the problem of determining the thickness of the earth's crust.

This year's scholar-elect, a native of Bridgetown, N. S., is the seventh Dalhousian since 1953. His selection seems to have firmly established a trend among the scholars within Dalhousie. He is the fourth physics major to become a Rhodes Scholar in the last 10 years. His predecessors were Robert Henry March, of Bridgewater, N. S., who got the award in 1960; John Robert Geoffrey Keystone, the 1958 recipient; and R. A. G. Lines, of Bermuda, who was awarded the Rhodes Scholarship for his native country in 1961.

### PRESENTATIONS MADE TO DR. AND MRS. KERR AT STUDENT COUNCIL FORMAL

President and Mr. Kerr made their final appearance at an official student function March 8 when they attended the Student Council Formal at the Nova Scotian Hotel.

Dr. Kerr is retiring in August after 18 years as President of Dalhousie. During the tenure of his office, he and Mrs. Kerr have attended many student functions, but this, the last, was perhaps the most heart-warming of all.

The President and Mrs. Kerr received a hearty standing ovation from the 800 students in attendance following presentations of an engraved silver tray to Mrs. Kerr and a travelling bag to the retiring president.

During the dance, Beth Trerice was crowned Campus Queen by Dr. Kerr and the extra-curricular awards for the year were presented.

### DALHOUSIE CLUB OF NEW YORK

THE DALHOUSIE CLUB OF NEW YORK held its THIRTY-THIRD ANNUAL MEETING in the club quarters of the Canadian Women's Club of New York in The Savoy Hilton Hotel, Fifth Avenue at 58th. Street, New York City, on Wednesday evening, January 30, 1963. It was almost thirty-three years to the day since the Club was organized on January 31, 1930.

Twenty-seven members and associate members were in attendance. Mrs. Edward Corsi, President of the Club, presided as Chairman. The Secretary, Mrs. Roy D. McNutt, presented the Minutes of the last Annual Meeting. The Treasurer, Mrs. Bertha Baird, read the Treasurer's Report showing a balance of almost \$900.00 on hand.

The President reported the loss by death since our last annual meeting of one member and two associate members: They were:

Mr. Frank R. Archibald, a Past President of the Club, on April 23, 1962, in Vancouver, B.C.

Mrs. Remi Benoit, Associate Member, on June 22, 1962, in New York City; and Mrs. Orpha McNutt Rake, Associate Member, on January 9, 1963, in Princeton, New Jersey. At the President's request, all stood while

At the President's request, all stood while a minute's silence was observed in memory of these departed members.

Mr. Ross McLeod, Chairman of the U.S.A. Committee of the Dalhousie Fund Campaign, gave an interesting report on the aims of the Campaign which has as its objective the raising of \$16,100,000., and described the organization being set up to accomplish the result.

Reports were presented by various committees and the President reported on the two very successful parties held by the Club in the past year, the Spring Party in May and the Autumn Party in November. The increasing attendance at these parties indicates that such informal gatherings seem to be the best means of bringing the members together in a social way.

The Nominating Committee consisting of Dr. Albert Sloan, Chairman, Mrs. J. Arthur Dawson, J. Raph MacLean, Roy D. McNutt, Dr. Perry M. Sachs and Miss Blanche J. Urquhart, presented its report, recommending the re-election for another year of the same officers and executive who have served the Club so well in the past year. The Report of the Nominating Committee was unanimously accepted, and the President declared the following Officers and Executive Committee re-elected for the year 1963:

#### OFFICERS

Honorary President:

Rev.	Dr. John Sutherland Bonnell		
President:	Mrs. Edward Corsi		
Vice-President: Dr. Samuel N. Roser			
Vice-President:	Miss Isabel M. Metheral		
Secretary:	Mrs. Roy D. McNutt		
Treasurer:	Mrs. Bertha Woolaver Baird		

EXECUTIVE COMMITTEE

Dr. Seymour S. Balkin Dr. Tobias Beeber Mrs. Mildred Lavers Bradley Dr. Harold Davis Mr. Howard C. Glube Dr. K. Sheldon MacLean Dr. Robert Weitz

The President expressed her thanks to the Officers and Executive Committee and all the members who had been so helpful in making her first year as President so successful and looked forward with pleasure to another happy year with the splendid cooperation of all the members.

Plans were made to hold our Annual Spring Party on April 24th this year, and a committee of ladies who have served so well in the past was appointed to make the necessary arrangements for the Party.

The Annual Meeting this year was marked by the enthusiasm of the members present in matters pertaining to Dalhousie and the Club which led to much discussion on many topics of interest but without the accomplishment at this time of much in the way of definite action on the matters discussed.

After the meeting, a social hour (perhaps two to be correct) with refreshments was enjoyed, during which the Treasurer was kept busy and happy accepting payment of annual dues for 1963.

Those present at the Meeting were: Mrs. Frederick M. Baird, Dr. and Mrs. Seymour S. Balkin, Mr. Remi Benoit, Dr. A. Stanley Cook, Mrs. Edward Corsi, Mr. and Mrs. Howard C. Glube, Dr. and Mrs. Robert Levin, Mr. and Mrs. Ross McLeod, Dr. and Mrs. Roy D. McNutt, Miss Isabel M. Metherall, Mr. Burnett Ralston, Mr. John D. Rathbun, Dr. and Mrs. Samuel N. Rosenberg, Miss Jean L. Ross, Dr. and Mrs. Perry M. Sachs, Dr. and Mrs. Albert Sloane, Mrs. Harriet M. Stoddard, and Dr. and Mrs. John V. Tokosh.

> ALUMNI DUES For 1963-64 Due April 1, 1963 \$5.00 Per Year

Robert Louis Christie, Dip. Eng. '33 formerly of Truro, has been appointed President of Canadian Kodak Company Limited and Canadian Sales Limited, at Toronto. He first became associated with the Company in 1935 as a draftsman in the engineering department.

Dr. Freeman K. Stewart, B.A. '34, B.A. M.A.(Oxon), M.Ed. (Tor), has been given a two-year leave of absence from his position as executive secretary of the Canadian Education Association to act as director of the Commonwealth Education Liaison Unit and secretary of the CEL Committee in London, England. He is formerly from Riverton, Pictou Dr. S. A. Morton, B.A. '22, M.D., C.M. '26, has received a three-year appointment as professor of radiology in the medical school of the American University of Beirut in Lebanon. Dr. Morton a noted radiologist, is a native of Halifax, but for many years has practised in Milwaukee, Wisconsin.

Dr. A. D. MacDonald, B.Sc. '45, M.Sc. '47, has been elected a fellow of the American Physical Society, in recognition of contributions to research in microwave gas electronics. He is a native of Sydney, and is on the staff of Dalhousie University as professor in the department of mathematics and head of the division of applied mathematics.

John W. Fisher, LL.B. '37, formerly of Sackville, N. B., has been appointed chairman of the 1967 Centennial Committee. Since 1961 he has been special assistant to Prime Minister Diefenbaker.

Dr. S. W. Williamson, M.D., C.M. '96, recently celebrated his 94th birthday. He has served the community of Yarmouth and county for many years, and is still in practice and takes a keen interest in affairs of the community.

Rev. Perley C. Lewis, B.A. '20, Pine Hill, '22, recently retired from the active ministry and is now associate Minister of St. Paul's United Church, Orillia, Ontario. Mr. Lewis served pastorates in Brockville and Cornwall, Ontario, since leaving the Maritimes in 1936. He was president of the Montreal and Ottawa Conference of the United Church for the year 1958-59.

Dr. Florence J. Murray, M.D., C.M. '19, has now retired from the United Church Korean Mission after 40 years of active service. However, she is now with the Mission to Lepers in Taegu, Korea which is an international and interdenominational body, where she will supply for a time. In a letter received lately Dr. Murray writes: "We are re-ceiving about one thousand leprosy patients every month in four city and sixteen county clinics. We also examine as many contacts as we can get to come to us for examination. There are still hidden cases afraid or ashamed to come for treatment as well as those who have not yet discovered what their trouble is, but more patients are appearing at nearly every clinic and in ten years we hope there will be noticeable decrease in the numbers of those affected with the disease. Our new hospital for the treatment of seriously ill patients and those

requiring restorative surgery was recently opened and will afford means of restorative surgery to some of those not too seriously crippled."

John H. Buntain, B.A.(K) '59, LL.B. '60, M.A.(So. Meth. U.), formerly of Kentville, has been appointed as an Associate Secretary to Hon. George C. Nowlan, LL.B. '22, LL.D. '60, Minister of Finance.

M. Alban Farmer, LL.B. '28, Charlottetown lawyer, has been appointed Provincial treasurer and Attorney-General for Prince Edward Island. He was first elected to the legislature in 1959.

Mr. A. S. Barnstead, B.A. '93, LL.B. '95 of Halifax celebrated his 90th birthday in January. He and Mrs. Barnstead held a small reception on the occasion at their home. They have since left to spend some weeks in Florida.

Charles Gavsie, Q.C., LL.D., CBE., B.A. '27, LL.B. '29, of Montreal was recently made a director of Bonnell Furniture Limited. He is the former president of the St. Lawrence Seaway Authority and a former deputy minister of National Revenue. Thomas Cyril Doyle, Q.C., LL.B. '28, died in Halifax March 24, following a sudden illness. He was born in Halifax and educated at St. Patrick's High School and Saint Mary's College before entering Dalhousie Law School. For a time he practised in the city and later joined the staff of the department of Highways as solicitor. In 1939 he became solicitor for the Workmen's Compensation Board. From 1944 to 1961 he was City solicitor and since then he had been acting as prosecutor in the City Police Court. He is survived by his wife and one son.

# **Dalhousie Given Four Million Dollars By Anonymous Donor**

On the eve of going to press, it was announced by Dr. A. E. Kerr that an anonymous donor has given Dalhousie more than \$4,000,000 - the biggest single endowment received by the University. The President, in making the announcement on behalf of the Board of Governors, said that a Graduate Scholarship Fund has been established with the money which was given on the condition that the donor remain anonymous.

A statement from the University said the Fund had been established to help in the building of Canada's future, by encouraging advanced study. "Accordingly the net income from the Fund will be used to provide Canadians with fellowships and other grants for advanced study or research in Canada.

"These studies may be carried out at universities, hospitals, research and scientific institutes or other similar Canadian institutions."

The scholarships must be used for work within the general fields of medicine, science. or engineering.

Donald McInnes, Q.C., Chairman of the Dalhousie Board of Governors said that the endowment came at the start of the University's \$16,000,000 Fund Campaign.

'The fact that Dalhousie has been entrusted with such an important role in the building of Canada's scientific future, will strengthen the appeal for funds needed for expansion. "This \$4,000,000 endowment makes it more than ever necessary that the objective

of Dalhousie's Fund Campaign be reached."

The statement from the University gave the following as further conditions of the gift:

"Those selected to receive scholarships should be likely to contribute to the advancement of learning or to win distinction in a profession.

"Insofar as possible, scholarships should be granted for work leading to a doctorate. for subsequent study, or for work of similar standing. "However, a scholar should not be a one-sided person and each scholar's special

distinction of intellect should be founded upon sound character and good manners.

Scholarships shall be granted for two years initially (but subject to review and termination at the end of the first year) and shall be renewable for as many more years as may be deemed appropriate if the standard of work and the future plans of the scholar concerned justify such renewal."

D. H. McNeill, Business Manager of the University, said that about \$1,000,000 of the donation had already been received in cash. It was expected that cash to the value of the remainder of the gift would be received from time to time in the next few years.

### Rooms Donated in Men's Residence

The furnishings in an additional room in the Men's Residence have been paid for by a donor, bringing to twenty-five the number of rooms donated to date. The plaque which has been placed on the door of the room most recently furnished bears the following inscription:

> Furnished in Memory of Mrs. Christina Ellen Brown by

Dr. Louis Raider, M.D., C.M. '41

16

Alumni wishing to donate a room in the Men's Residence or the new wing of Shirreff Hall are asked to send their cheque for \$300 payable to Dalhousie University to the Alumni Office along with the inscription they would like to have appear on the plaque for their room.

United States residents should make their cheques payable to The Dalhousie University Foundation, Inc. and send them to Mr. Gerald Andrew, Treasurer, 350 Park Ave., New York 22, N.Y.

### Women's Division **Coffee Party**

The Coffee Party of the Women's Division of the Dalhousie Alumni Association was held in newly renovated Shirreff Hall on Saturday morning, February 9.

Guests were received by Mrs. A. E. Kerr and Miss Janet Sinclair, Chairman of the Women's Division. Hostesses for the occasion were Mrs. H. T. Creighton, Miss Dorothy Rhind and Miss Margaret Graham.

As this was a change from the Annual Tea and Sale and therefore something of an experiment, we are gratified to report that in spite of there being no gift table the net receipts were approximately \$590, which compares favorably with previous ventures. A major portion of the receipts will be used for the Women's Division Scholarship Fund.

Mrs. Gordon Blair was General Convener; Mrs. Frank O'Neill and Mrs. Joseph Connolly were in charge of refreshments and coffee was poured by the wives of the Deans.

Other Conveners were: Books - Miss Helen Scammell and Miss Bonnie Murray; Candy - Mrs. E. F. Crease, Mrs. Clarence Gosse and Mrs. Ian MacKeigan; Pantry -Mrs. W. A. MacKay and Mrs. Reg. Evans; White Elephant - Mrs. Wesley Campbell, Mrs. Ralph Hebb and Mrs. Murray Rankin.

Decorations, which were in a Valentine motif, were done by Mrs. William J. Sewell. The Executive would like to express its gratitude to Miss Christine Irvine, Dean of Women, for her help and co-operation.
