# PHAROS '53

Edited by:  
DON HALL and ESTELLE MacLEAN

DR. H. L. SCAMMELL, M.D., C.M.

# Dedication

The students of Dalhousie respectfully dedicate their year book, "Pharos", to Dr. Howard Lambert Scammell, M.D., C.M.

Dr. Scammell received his education at Pictou Academy and Dalhousie University, and returned to his Alma Mater in 1946 for an all-too-brief term as Registrar.

A Loyal Dalhousian, Dr. Scammell will always be remembered for his interest in education and in those who seek it. He has proven himself to all with whom he has come in contact a gentleman, a teacher and a friend.

Although he has again left Dalhousie we know that he is interested in us as individuals and as students of his University.

We wish him well.

President of the University  
A. E. KERR, B.A., B.D., D.D., LL.D.

# The President's Message...

I have heard of a teacher who told each successive graduating class that they were undoubtedly the finest students he had ever had! He might have done so with complete ingenuousness, because even Shakespeare observed that each one of a series of things which are as much alike as halfpennies may seem exceptional till his fellow comes along. Fortunately it is not necessary for me to indulge in comparisons between one class and another: it is enough to assure you, the young men and women with whom it has been my esteemed privilege to associate during the past few years, that in my judgment you are eminently worthy to stand in the Dalhousie tradition, and that is very high praise indeed.

In your time at the University you have seen several important advances accomplished. The most recent of these was the transfer of the Faculty of Law from the Carleton Street division of the campus to the fine building, completely remodelled, which had been designed for its use more than two decades ago. New generations of students will see progressive changes—and these will not be confined to the enlargement and improvement of our physical facilities, which are related to the real purpose of the university only as means are related to ends—for we dare not be disobedient to the growing vision of Dalhousie. I have every confidence that when you fix your eyes on the greatness of the Dalhousie which was foreseen by our fathers and which is gradually emerging in response to the needs of our expanding society, you will be filled with the love of her, as the Athenian was filled with the love of his native city when he contemplated her glory, and you will be proud to follow and encourage her development with your loyal support.

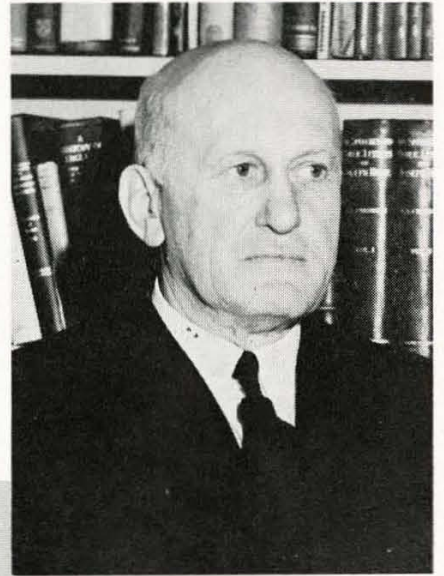

The Dalhousie Year Book derives its name from the famous lighthouse which the ancients regarded as one of the seven wonders of the world. It is a sincere tribute to this University that her students should refer to her under this complimentary figure, and it is not inappropriate in view of the essential service which she is endeavouring to render. It is pertinent, however, to add that individuals as well as institutions may fulfil a radiant function. They may not only possess that priceless treasure, "the glory of the lighted mind", but they may obey the familiar injunction which dates from a remote and inspiring past, "Let your light so shine before men, that they may see your good works, and glorify your Father which is in heaven".

My congratulations and best wishes to you all.

President.

Jeanie came to Dal in 1950 from Q.E.H., where she was known for her skill at the piano. She has studied piano for thirteen years, appearing in numerous recitals. She is a member of the Armdale Girl's Choir, and often acts as accompanist for the group. Always willing to give of her talent, we know Jeanie will succeed in her future work.

Coming to Dal from Q.E.H. after spending a year at the N. S. College of Art, her extra-curricular activities followed along artistic lines—stage work and publicity. We wish her the best of luck as she starts out on her musical career.

# ORGANIZATIONS

## Students Council

The Council of the Students is the principal administrative and legislative organization of the student body. It is the only recognized medium between the student body and University authorities, and also between the student body and other groups. As President of the Council, I have been asked by the Editors of *Pharos* to review briefly the past year and the record of our student administration.

Upon taking office, every administrative head has two or three definite ideas on how to improve various organizations responsible to that particular administration, how to stimulate interest in those groups and in what manner policies and activities should be carried out. In many cases, those ideas are considered and even acted upon; in some cases they are rejected. One objective of this year's Council was to reduce the cost of attending University functions and to give a maximum benefit to students for their council fee. We were quite successful in this regard. A local cleaning establishment, a clothing merchant and a Florist all agreed to give substantial reductions to students. There were more Football games played on our campus and students were admitted at half-price. Basketball games were attended without charge and the cost of Hockey games reduced.

Probably the most interesting and controversial event of the fall term was the result of the National Federation of Canadian University Students annual conference held this year at Quebec. At this conference the Soviet Student Exchange Plan was discussed and after much debate was turned down. As Dalhousie's delegates were mandated to support this plan, the decision had repercussions here. However a referendum was held and the students reaffirmed their faith in NFCUS.

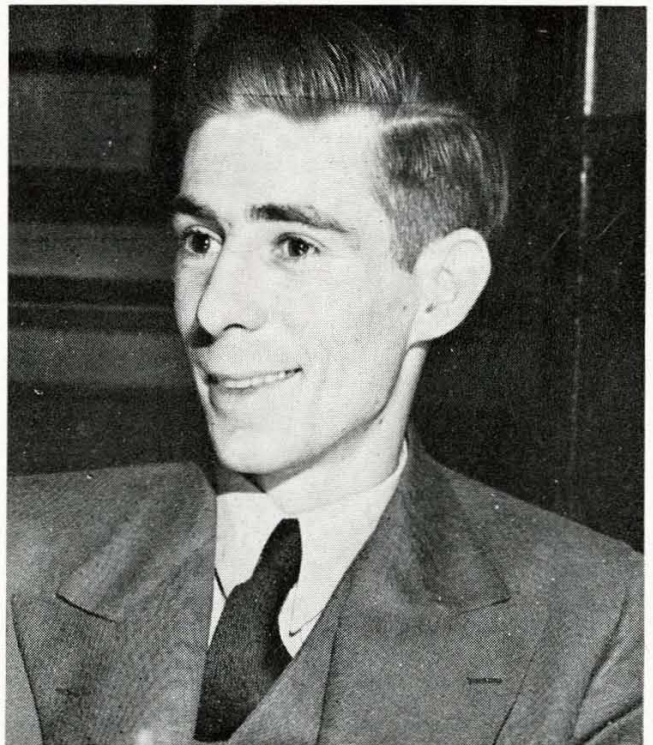

PRESIDENT, GEORGE KERR

The major event of the spring term was Dalhousie's participation in an Intercollegiate Blood Drive competition. A clinic was set up on the campus and the campaign was also conducted in an Inter-faculty and Inter-fraternity competitive basis. Under the chairmanship of Vice-President Roger Cyr, the drive was successful and our effort was a credit to the University.

In the realm of financing, the Council is responsible for all receipts collected at athletic functions, as well as receipts collected by other Student organizations under the jurisdiction of the Council. This year the Gate Receipts Committee, with David Bryson as Chairman, has enjoyed a very successful year and this has been due mainly to Dave's constant interest and hard work. Skating receipts especially were an all time high.

Among the changes hoped to be implemented before the end of the year is a proposal to change the *Gazette* from a four page bi-weekly to a six page edition once a week. We hope this will improve the student newspaper. The Council is also endeavouring to get more ice time for students at our University Rink. It has been difficult this year to include all skating and hockey activities into the time allocated to us.

In closing, I wish to thank all those who have helped me in my efforts to discharge the duties of Council President. Especially our Secretary-Treasurer, Bernal Sawyer, whose help has been invaluable. We have had a successful year and no one person can be responsible for all the achievements recorded by a student administration. Next year there will be a new President and Council. Give them your support as their responsibilities are numerous. Good fortune and Good health to all.

# Gazette

EDITOR-IN-CHIEF, BILL INGARFIELD

BUSINESS MANAGER, FRANK HALL

Several controversial questions were the subject of a series of news stories and a barrage of letters to the editor of the Dalhousie Gazette during the past term, and no matter what else can be said of the GAZETTE, it generally experienced an increase in student interest and comment.

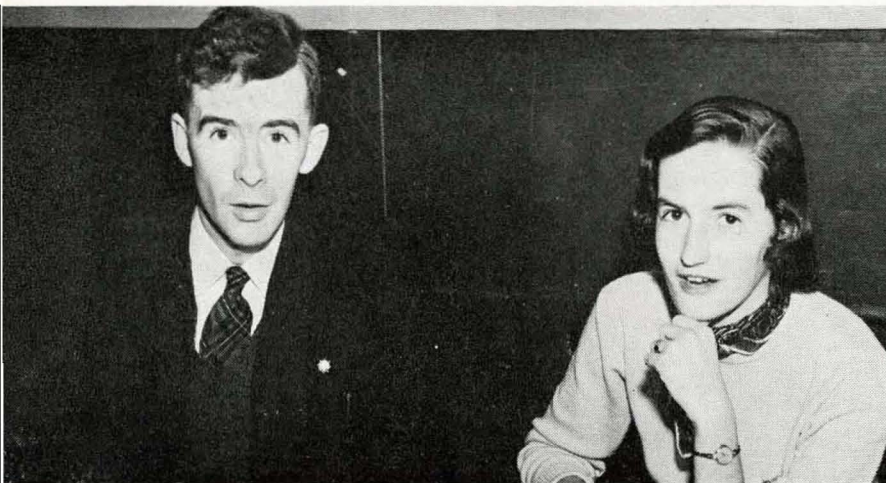

Among the top news stories of the year were the NFCUS rejection of the proposed Russian-Canadian student exchange and the stand Dal's delegate took at the national conference and his subsequent justification for his vote.

The special law convocation and formal opening of the Law Building on Studley campus, in the presence of jurists of international eminence, was another major news story.

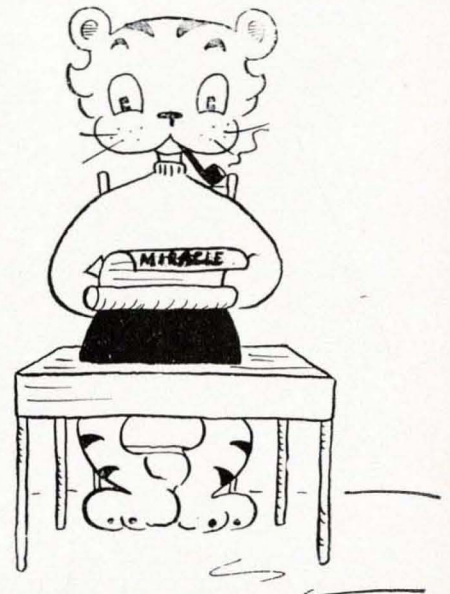

Perhaps among the unusual stories of the year were the Mock trial of the Editor on a charge of libel, conducted by law school students, and a satire which drew a barrage of letters to the editor, both for and against the publication of such material.

At the time of writing, the latest prominent news story was Dalhousie's lead in the Inter-University Blood Donor competition with a total of 58% volunteers.

A high spirited staff and complete co-operation between writers and desk men made this year's GAZETTE a success.

PRESIDENT, RALPH GARSON

This year, in addition to the entries in the I.U.D.F. and the Connolly Shield Competition, the Glee Club's two major plays have been Terrance Rattigan's "French Without Tears," and Moliere's "School For Husbands."

Edwin Rubin deserves special praise for his performances in both plays. Congratulations also to Nancy Wickwire, Ron Pugsley, David Peel, Iris Chappell, Anna McCormack and Joan Bissett. Many thanks to directors Mr. H. Leslie Pigot and Carolyn Wiles for their generous help this year.

Under Professor Harold Hamer's able supervision Gilbert and Sullivan's "Pinafore" has come back to Dal. again, starring Shiela Piercey, Joyce Kerr, Hugh Latimer and Bob Latimer.

# Dalhousie Radio Committee

This year, the Dalhousie Radio Committee became augmented to include programme and musical director, script writers, and announcers working under the members of its executive. As a result, it produced what is hoped to have been an enjoyable and informative series of half hour weekly broadcasts over radio station CBH of the Canadian Broadcasting Corporation. In addition, it has taken care of announcing coming campus activities over its P.A. system.

The chief aims of the committee are to publicize University talent, in whatever field, and to provide experience for those who are keenly interested in radio work. Let us hope that Dalhousie will have its own radio station sometime in the near future.

## Sociology Club

The Sociology Club resumed its activities for 52-53, by holding its first meeting on Oct. 22. at this meeting, Dr. S. H. Prince, Honorary President of the club, gave a brief talk outlining the nature and the purpose of the club, for the benefit of those students planning to enter into the field of Sociology.

On Nov. 5th, a second meeting was held where the speaker was Rev. Leonard Hatfield, Assistant General Secretary of the Council of Social Service of the Church of England in Canada. In his talk Rev. Hatfield discussed the special Social Problems of our day and the role the Church has to play in helping us to deal with them.

Many plans are being made for the future meetings, and it is hoped that the Club will continue to function successfully.

## Psychology Club

The Psychology Club was organized by the students of psychology in 1949, for the purpose of creating a better understanding and appreciation of ourselves and of human relations. Meetings are held twice a month at Shirreff Hall and are open to all.

Our purpose is achieved through films, lectures and discussions on topics of present day interest. The films shown have included "Childrn's Emotions" and "The Feeling of Deprssion". For future meetings we hope to draw spenkers from the related fields of social work and mental hygiene.

## Graduate Studies

This year has seen an increase in interest of the graduate students in their society as indicated by an increased attendance and participation in their monthly meetings. Probably the high light was the discussion "What is Life"? by representatives from some of the fields of graduate work. On occasion, speakers enlightened the group which climatized their year's activities with the annual banquet.

MELVINE GRAHAM, JOE LEVINE, LOIS ROBERTSON, HUGH BROWN

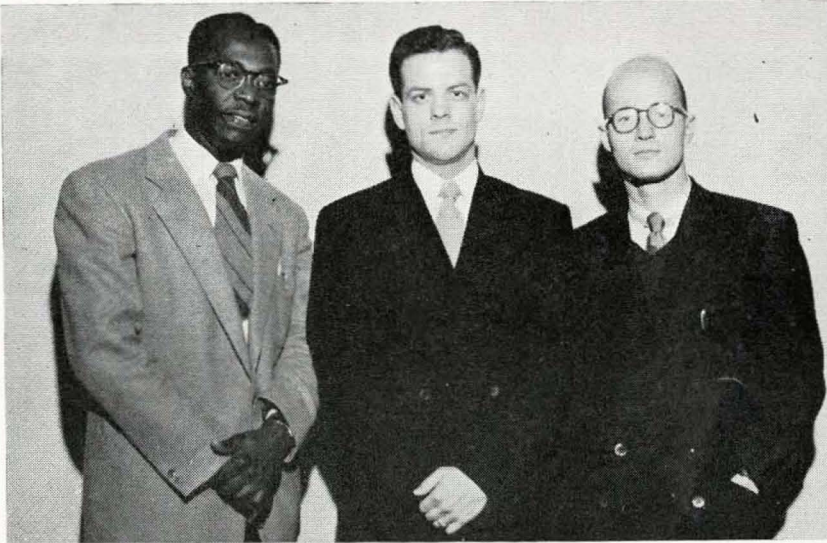

## Law Society

This has been an outstanding and significant year for the Law Society, having marked our transfer to the Studley campus. In late October, the members of the Society co-operated with the Faculty and the University in the official opening of the new Law Bldg. A convocation and legal symposium were held, attended by the largest gathering of alumni in the annals of the Law School.

As is usual, the Law Ball, Poor Man's Law Ball and Law Banquet were the social triumphs of the year.

So great was the interest in the Mock Parliament this year, that for the first time in many years the Society held an election to determine which party should form the government.

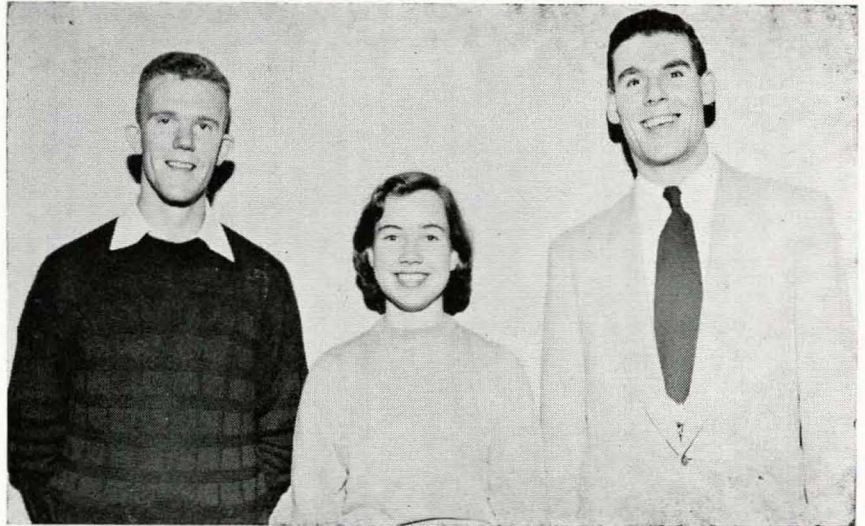

Rugby, hockey and two basketball teams were sponsored in interfaculty competition.

BEN DOUGLAS, NED CYR (Pres.), JIM FOGO

## Arts and Science

The Arts and Science Society had a very successful season. This year strong contenders were entered in the inter-faculty basketball, hockey, rugby and road racing leagues, under the leadership of Garry Watson and Don Hall. Several debating teams were entered in the inter-faculty debating, proving very successful. Forth-coming events include the annual society dance which is expected to be as big a success as in previous years.

NEIL MacKINNON, PATTY MacLEOR, BILL, HALEY, (Pres.), ESTELLE MacLEAN, missing.

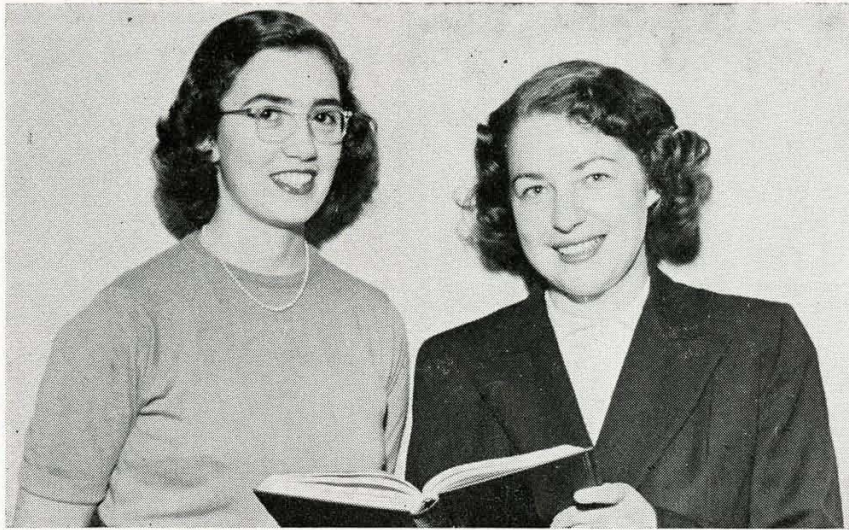

## Cercle Français

Le Cercle Français, a Club organized by and for the Dalhousie French students, is finding 1952-53 a most successful year. The first meeting was held in October. At this and subsequent meetings good numbers of students joined the Club, and enjoyed the movies, songs and games—all in French—led by the President, Prof. Chavy and Dr. Smith.

Under the direction of Prof. and Mrs. Chavy, and Dr. Smith, the different French classes will stage a "French Evening" similar to the most successful production of last year. It is indeed a pleasure to find such an active French group on the campus.

## Midlothian Club

Midlothian, Since 1941, has been an active organization on the campus. Comprised of about fifteen girls from Dal and King's, chiefly Arts and Science students, the Society meets once a week, on Wednesday afternoon, on the Second Wing of Shirreff Hall.

The Club members in turn review books, fictional or non-fictional, current or classic, written in any literary form.

Over a welcome cup of coffee, the reviewer gives a brief biographical sketch of the author's life, outlines the main sections of the book and leads the lively discussion that follows.

On occasion a book of particular interest to the group is reviewed by a guest speaker, usually a professor on the campus.

FRED PRINCE, DOUG ROBB, BEN GOLDBERG, DAVE JANIGAN,  
ROSS PARKER, MIKE DeLORY (Pres.), ADRIAN MacKENZIE

## Medical Society

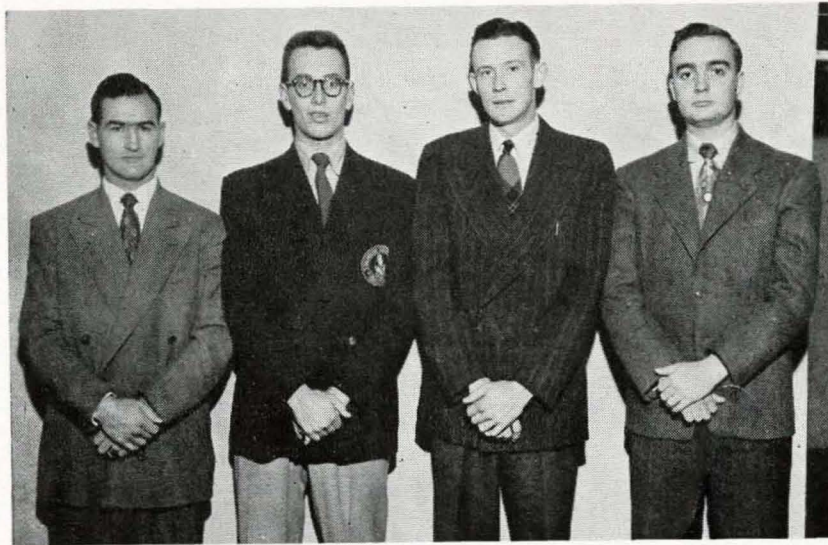

Unfortunately during the fall term little interest was shown in the Society except for a first in the Society except for a first-year party. Due to this lack of interest the Medical Choir became non-existent. However with the Annual Banquet in February and the Annual Ball in March, each proving big successes, apathy was lessened. The introduction this year of compulsory membership, and dues included in tuition, has proven beneficial in helping the Society function smoothly.

## Engineering Society

The highlights of the year for the boys at the "Shack" included the annual educational trip which this year took them to Trenton Steel Works. Also there was the "Hayloft Jamboree", the Annual Banquet and the magnificent Engineers' Ball. Home and home basketball and hockey series were held with the Acadia Engineers. On the local scene the engineers participated in all inter-fac sports. All in all the engineers had a very successful year.

PAUL BALCOM (Pres.), JACK DAWSON, BILL HALEY

ELMER MORRISON, ALAN STEWART, JOHN MacCONNACHIE (Pres.), ALF CLUETT

## Dental Society

The year '52-'53 has been an active year for the Dental Society. Under the capable direction of President John MacConnachie and the efficient management of his executive, all projects undertaken were a distinct success.

The Annual Ball was held on Nov. 14, while the banquet was held in February. The 'smokers' also proved big successes.

Embarking on a new policy of more participation in campus activities, the Dental Society solidly backed the hockey and basketball squads, in fact, these two teams finished well up in the standing.

To those of the Society who graduate this year we convey best wishes and further your hopes of success in the future.

## Shirreff Hall

There exists at the "Hall" a democratic society commonly known as "House Committee". The functions of the Hall governed by this organization include the popular Hall Formal and the Christmas Party. This committee takes in hand the punishment of all those wayward girls who in any way violate the rules of the House, which are on an honor system. No grudges are held, and we are very grateful to those who watch so carefully over the inmates of the "Hall".

JANET RODD, ANN PARKER, ESTELLE MacLEAN (Pres.), JOAN MacLEAN BARBARA CREELMAN

BEN DOUGLAS, BETTY MORSE, DUNCAN FRASER (Pres.).

## Sodales

The purpose of Sodales is to promote debating in all its forms on the campus. This is accomplished through its sponsorship of Intercollegiate and Inter-Faculty debates. All Intercollegiate debaters are eligible for the MacDonald Oratorical Award, while the victors in Inter-Faculty competition receive the Viscount Bennett Shield, awarded on Munro Day. This year a total of twenty-one teams participated in Inter-Faculty debating.

Sodales also sponsored a discussion of the NFCUS question, and a Parliamentary debate was staged against a visiting team from the University of Toronto.

It is hoped that the long standing tradition of debating will continue at Dalhousie, and Sodales can assist in fostering its growth and maintenance.

## Commerce Society

This year was a very successful one for the ever-strengthening Commerce Society. The social activities were a big success, particularly the Commerce Sweater Dance, where Miss Barbara Doull was chosen Sweater Queen.

The Society, as usual, sponsored teams in all interfaculty sports. Discussion groups were again presented this year, where prominent men in the fields of business and labour participated in informal talks with the students.

PETE POWERS, JOHN DOIG, DOUGLAS PYNN, BILL SCHWARTZ (Pres.)

REV. BLAIR COLBORNE, ALAN JAKEMAN  
MARIGOLD FRY, JANE JOHNSTONE, ANN MARSHALL (Pres.)

## Student Christian Movement

The Student Christian Movement exists to help students discover the meaning of the Christian faith. A number of study groups were conducted on "The Life and Teachings of Jesus", on "Marriage", and on "The Christian in the Modern World". A fall camp was held at Short's Lake over the Thanksgiving week end. A series of talks by professors representative of different branches of study were sponsored, dealing with their faith or the relation of their subjects to religion. Chapel services were held every Thursday noon. Membership is open to all students in the university.

## Newman Club

The Newman Club, an organization for the Roman Catholic Students on the campus had its most successful year since its regeneration in 1946, with the completion of the school year '52-53.

This year Newman Club received a new Chaplain in the person of Rev. Lloyd Robertson, of St. Joseph's Parish. He took over from Rev. Ernest Sweeney who was forced to retire from Newman Club work, having been transferred to Dartmouth.

Skimming over the highlights of activity, the Spiritual committee chieved its aim of having one Communion Breakfast every month, which were exceptionally well attended.

## Delta Gamma

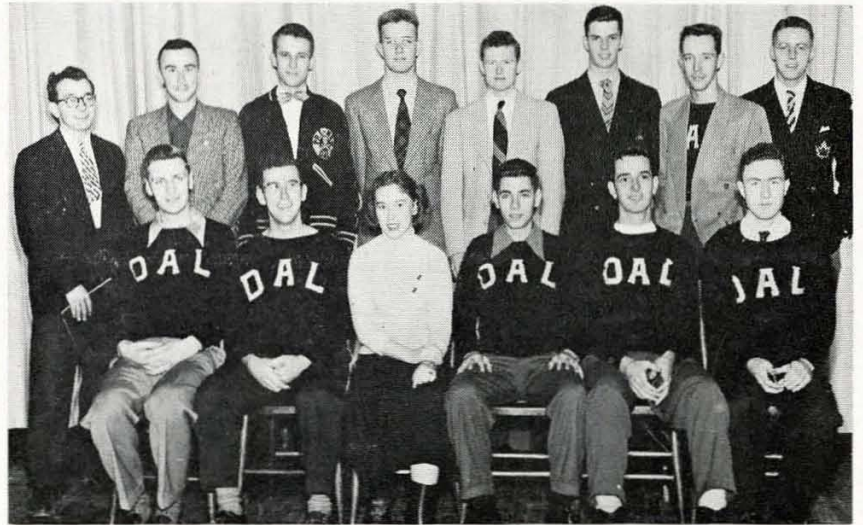

Delta Gamma, the organization for all women students on the campus, was this year under the Presidency of Gretchen Hewat with Barbara Davison as Secretary.

Activities got under way with the "big sister" project. In November the annual Open House was held at Shirreff Hall with Joe Laba's orchestra.

In the winter term Delta Gamma, entered three teams in Inter-faculty debating and a play in the Connolly Shield competition. Sadie Hawkins Week was again very successful, including this year a new type of entertainment—a Moccasin Dance in the rink.

## Band

The Band was again operated this year under the direction of the Public Relations Board. With the loss of Roy Smith, Wally Atwood directed the Band this year, making it a successful season. Their efforts at all the football games greatly helped to add to the enthusiasm of the spectators.

## Publicity Committee

The Publicity Committee is responsible for every form of publicity connected with Dalhousie student affairs, both on the campus and off. It publicizes sports, Glee Club productions, dances, and all Faculty and class meetings.

The team work of the Publicity Committee has contributed greatly to the success of student functions. For this, much credit must be given to all members of the Committee and to Wilf Crouse who has worked hard to keep the students at Dalhousie and citizens of Halifax informed as to the coming events, educational, recreational and entertaining on the campus.

JANET DAWE, TED IRWIN, WILF CROUSE (Director).

## W.U.S.C. Committee

Last fall, in order to more clearly show its association with the World University Service, I. S. S. in Canada became W.U.S.C.

The present program focuses attention on the Far East, particularly India, and includes plans for student seminars and student exchange.

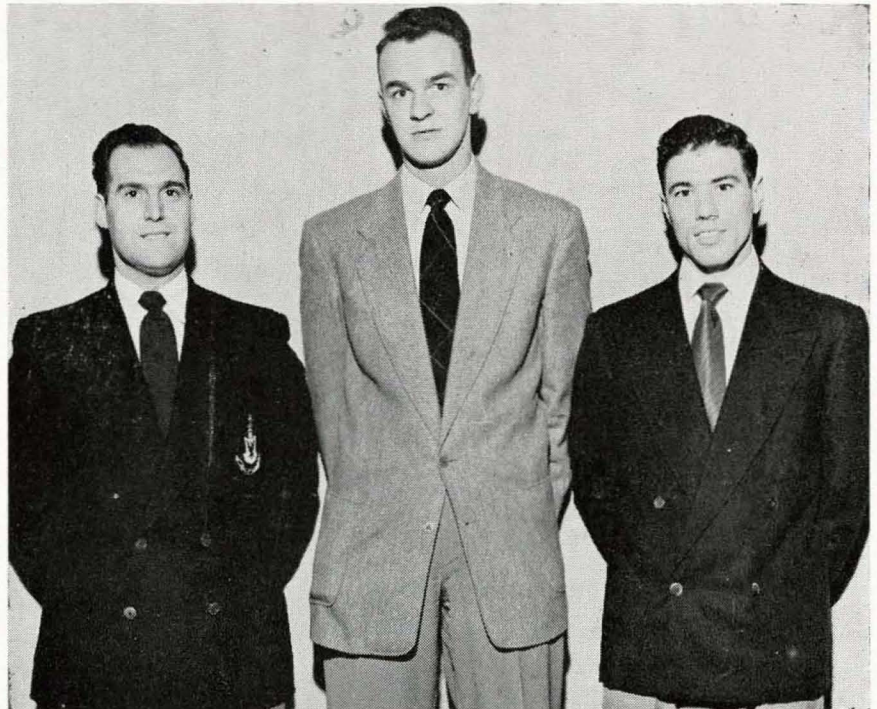

The Dalhousie committee has been very active during the past year. It sent delegates to the National Conference, produced the "Black and Gold Revue", published an edition of the Gazette, held a Tag Day, a dance, an Exhibit and Sale of Indian Handicrafts, and an International Night, to raise funds and draw attention to its work.

## Pharmacy Society

This organization consists of all students registered in Pharmacy at The Maritime College of Pharmacy and at Dal.

The big activity of the Society is the annual Pharmacy Banquet and Ball. Although the Banquet is confined to Pharmacy students alone, the Ball is open to all students and it has been a great success each year.

Last year the Society sponsored a Bill, effecting every Pharmacist in Canada, which was passed by the Canadian Pharmaceutical Society. This shows the interest taken by the members of the Society.

STERLING FEERO, DAVE MacDONALD (Pres.), FRED VALENTINO

NEIL MacKINNON, JACK O'NEILL (Chairman), JOHN NICHOLS,  
PATTY MacLEOD, JOAN McCURDY, SHELIA PIERCEY.

## Rink Rats

The rink Rats have completed their fourth year on the campus as an organization to raise the students contribution to the Memorial Rink.

During the year the committee has been seen selling ribbons and banners at the football games. A highlight of the year was the "Black and Gold Revue", produced in collaboration with W.U.S.C. and featuring Audrey Farnell. Other events were a Thanksgiving Dance in honor of R.M.C. and other gym dances. The rink itself was used for an "Ice Revue" sponsored by the Rink Rats and produced by the class of '55.

## Cheerleaders

The Cheerleaders added much to the campus spirit this year. They are particularly remembered for their faithful support of the Dal football team during their periods of either win or loss. Under the able leadership of Janet Petrie, they have practised hard with excellent results.

Dal got off to a slow start this year losing the first three league games. This was due mostly to the little time before the league opened to get into condition. Then the team hit its stride winning the next three games by a wide margin. However the team seemed unable to cope with the games on the road for we lost the next two to Shearwater and Dartmouth the last being a semi-final sudden death. There were a couple of highlights in the season. Andy MacKay, a veteran quarterback won the most valuable player award for an outstanding job. Scott Henderson, Star halfback, won the award for being highest scorer.

Of much interest was the trip mde by R.M.C. to the maritimes to play Stadacona and Dal. This trip did much to advance the game here with their clean, precision playing. We hope it becomes an annual affair.

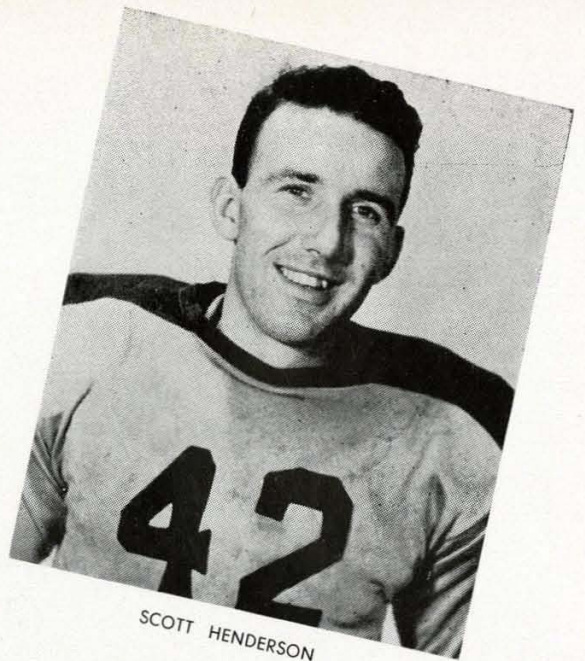

The team under coach King was young and inexperienced but for the most part the boys will be back next year and should be strong contenders to regain the trophy.

We say goodbye to Andy, Scott, Spence, John who graduate this year. Thanks for a job well done. We will miss you next year

**For Quality In Men's and Boys' Clothing**

Quality is never an accident—it is always the result of intelligent effort. There must be the will to produce a superior thing; a clear conception of what quality is; a knowledge and skill equal to the purpose at hand, a willingness to test the product under any conditions. A standard of quality once attained must be held by a will no less firm than that which established it.—John Ruskin.

# WANTED: EXPERIENCE!

Sound judgment stems from experience . . . but experience takes time! For instance, Jenkins Bros., for more than half a century have been learning through experience to make the longest-lasting, lowest-upkeep valves money can buy!

While **you** gain experience, profit by the knowledge of others. Thousands of industries, relying at first on the reputation of Jenkins Bros., know from experience now that valves bearing the famous Jenkins diamond trade mark have **extra** endurance . . . give trouble-free service **longer**. Uninterrupted production and low upkeep records are proof of the sound judgment that specifies Jenkins Valves.

We invite you to consult us on any problem concerning proper valve selection, installation or maintenance.
