The Year Book

DALHOUSIE

THE COLLEGE BY THE SEA.

PUBLISHED BY THE STUDENTS OF
DALHOUSIE UNIVERSITY
HALIFAX, NOVA SCOTIA.

Dedication . . .

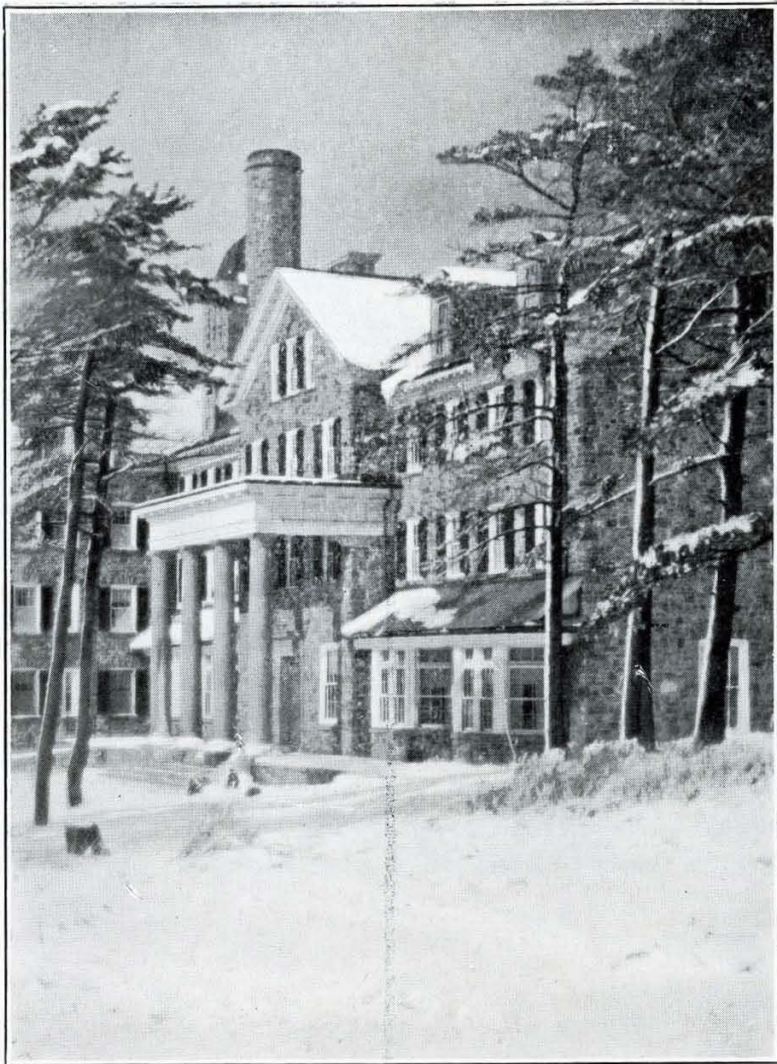

To the memory of
CARLETON B. NICKERSON, A.M.
Dean of the Faculty of
Arts and Science

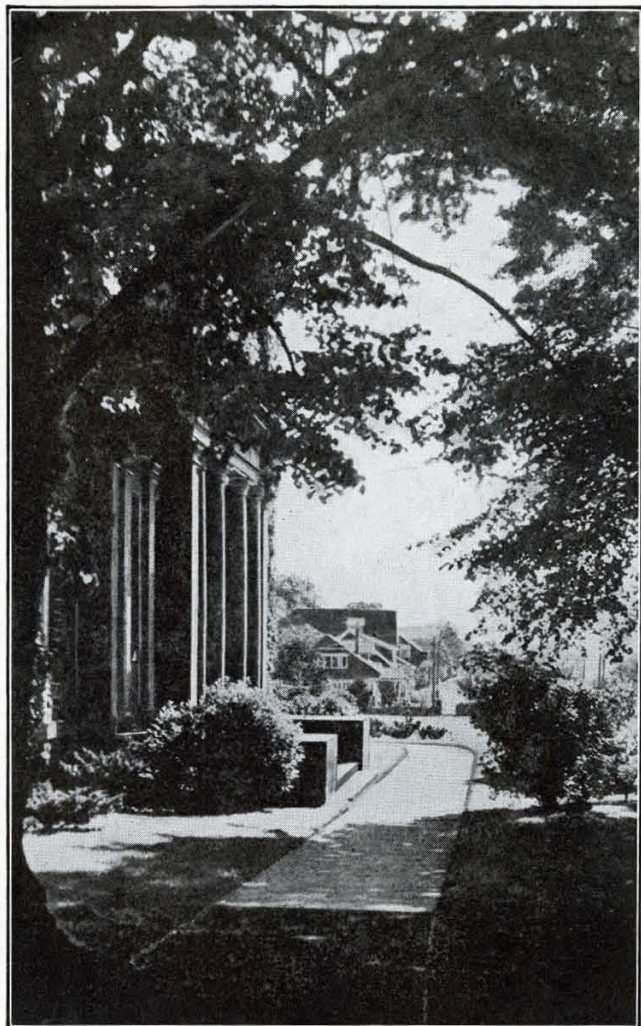

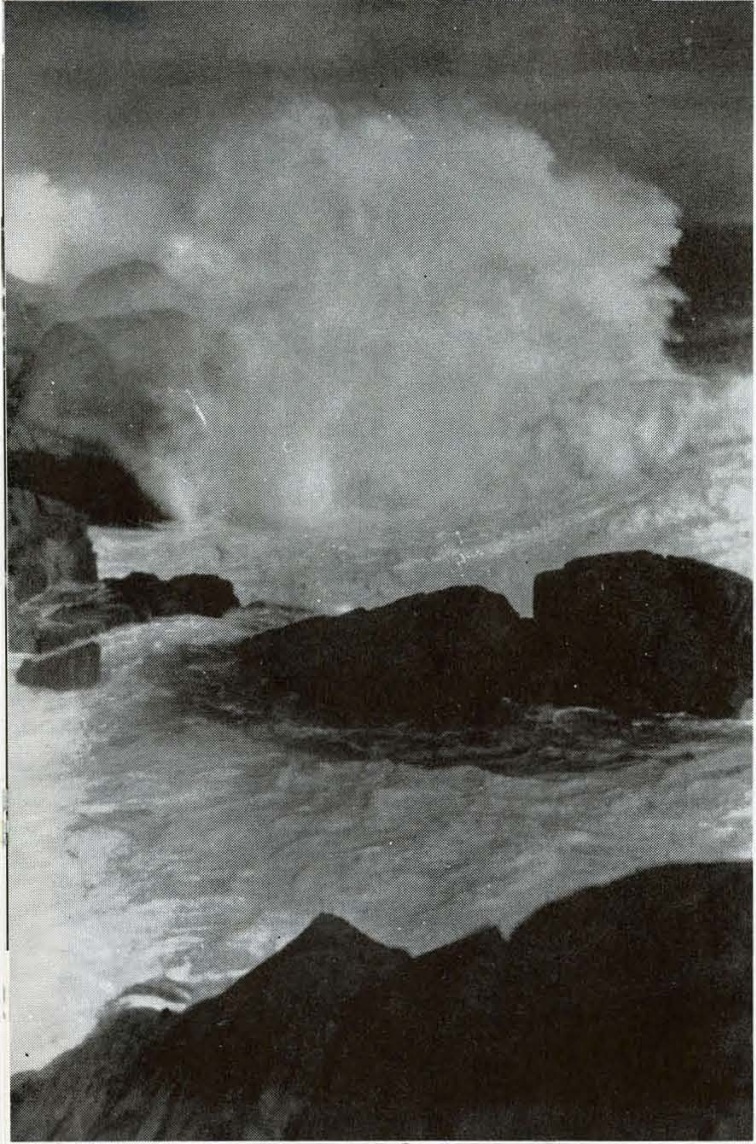

Foreword

CENTURIES ago, the lighthouse Pharos stood as a beacon at the port of Alexandria. Its welcome light guided storm-tossed ships to a haven of security.

Today the light of knowledge is going out with alarming rapidity. It is the humble purpose of this *Pharos* to keep alight the lamp of learning, in one section of the world at least by happy memories and pleasant associations. The thoughts of sunnier days will always be a reminder to us of that inner peace of mind which education alone can give.

PHAROS

The College by the Sea

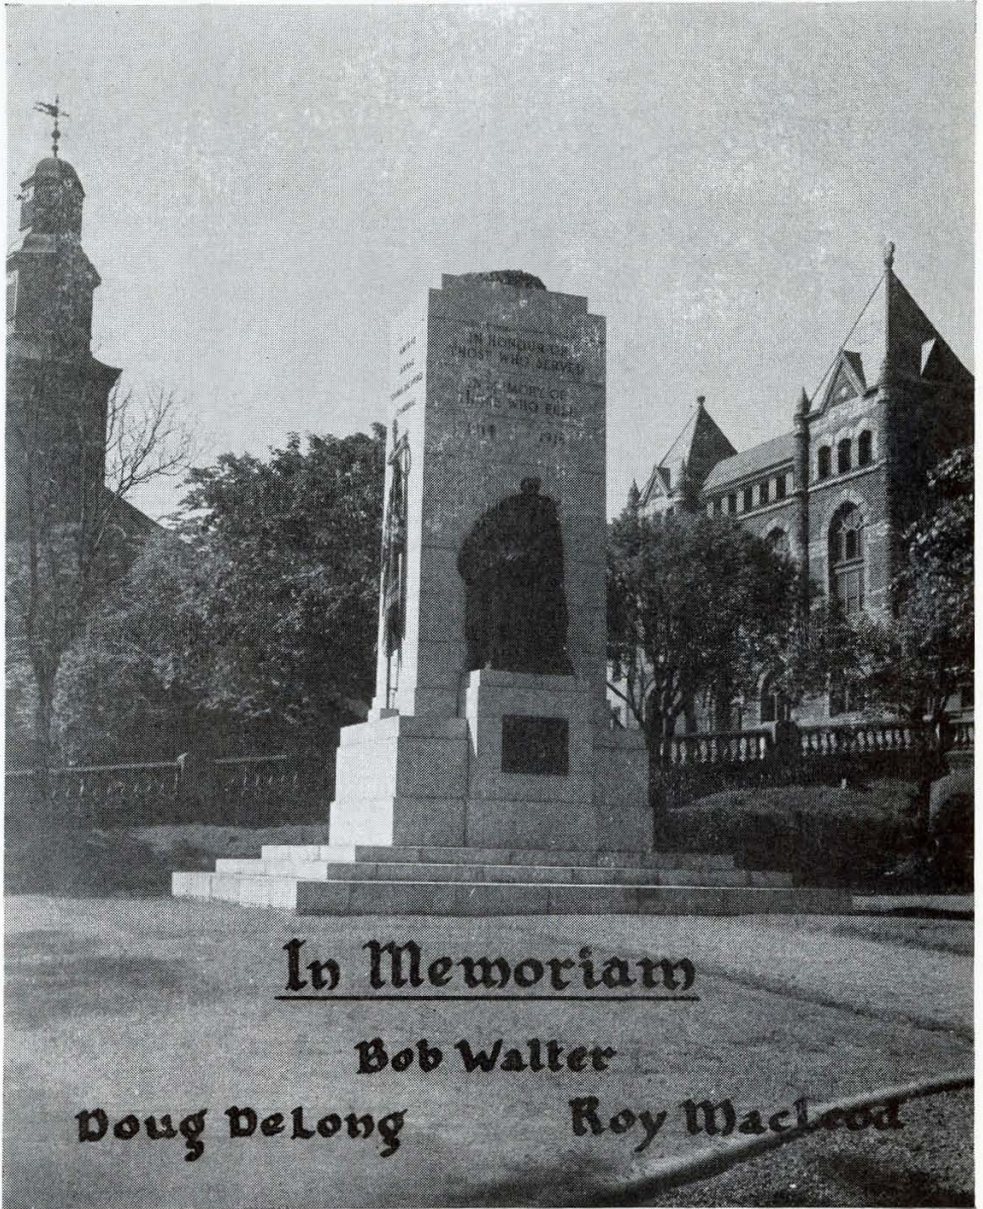

*The spirit of the North,
Indomitable, untamed,
Breathes through these walls,
Spirt of wind and waves,
Of freedom, unfettered
As the boundless sea
Which compasses them about.*

*O child storm,
The Breakers of destruction
Are booming at your base.
Raise high your head,
In dignified defiance,
And let your beacon shine
A gleam of joyful hope
In a dark and tottering world.*

*Shine on!
Like some unyielding Neptune,
Your stones shall stand
Against the fury of the storm
And flash a message
To the understanding stars
That here at least
The beam of knowledge
Is not dead, here lies
A port for eager mariners
Who sail in quest
Of beauty and truth.*

PRESIDENT'S MESSAGE

IF THERE is one thing that should be learned from the events since June, 1940, it is the supereminent value and force of courage. Napoleon used to lay it down that the moral was to the physical as three to one. At certain periods since June, 1940, the ratio must surely have been higher. At least it may be said that, of all the imponderables, courage is one of the most potent.

In academic circles the contrast is usually made between science, or exact knowledge, and ignorance, or mere opinion; and that contrast will always hold. But the retreat from Norway, the escape from Dunkirk on the part of soldiers, and the bearing up against mass bombers on the part of civilians, in the months which followed, are testimony to the value and power of courage. It may be that this lesson in courage is the most valuable lesson which Canadians now and in the future can learn. So often we have been content to let the game go by default: to talk about political ideals being sunk in political corruption, and to imagine that all our defeats were inevitable and that we must have nothing but defeat in the future. Well, victories of any kind against military aggressors, against superstition, against the dead force of inertia, seem never to have been won merely by intelligence. Intelligence lights the candle; intelligence holds up an idea; but, in every generation of men there has had to be a struggle to make the light and the idea prevail.

I have never dealt with you, nor with your predecessors in this University, in commonplaces, or assured you that the world lay open to your march because this University has given you a degree. I need not dwell on things at length now. I wish a stout heart to each and every one of you, to take part in the necessary re-making of the world.

*They aim
At knowledge and at culture
Which have their own reward.*

Arts and Science . . .

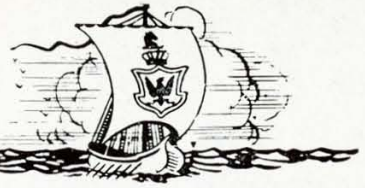

CHARLES BENNET, M.A.

The eternal verities appear as platitudes until we are made to come to earth. Faced as we are with realities, let us recall that there is no freedom except in service, nothing gained except by giving, no peace except by fighting for the good cause, no rest except in labour. Determine where your path lies, and follow it without wavering. If it come, as come it may, that you must work or fight for the final right to live, let us think of those whose courage has kept us with still a large reserve of freedom. From their joy in doing and giving we may learn even now to discard something of what is trivial and store the rewards of sacrifice against the better days to come.

PHAROS

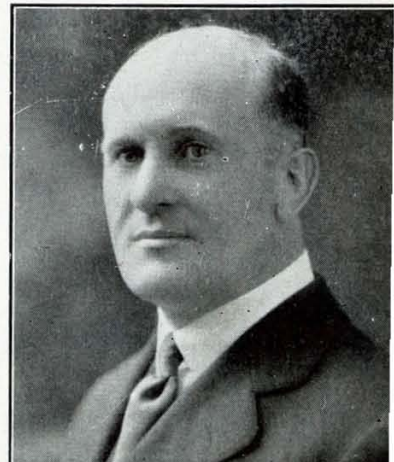

What can I say that has not been better said many times before?

We regret to see you go; we trust that your college days have opened up a world to you—a world of the mind and of the spirit—that shall be forever yours; we hope that your future life will be happy and prosperous. When, however, cares and troubles come, as come they must, we hope that an inner strength and peace, which only the wise can know, will bear you up even in your darkest hours.

With all our hearts we hope that you have become true aristocrats, valuing things at their real worth, companions of the wise and the just and the generous, ever seeking after knowledge and truth and wisdom.

If such is indeed the case your college life has been a success and your future life is assured.

GEORGE E. WILSON, M.A., Ph.D.
Hon. President of Class '41

PHAROS

FRANCIS GRACE ALLEN
Halifax, N. S.

ROWENA JANE BENSON
Bridgetown, N. S.

"Who can call me ungentle, unfair?"
Bloomfield High. Teachers Diploma, Halifax Conservatory of Music. Her Hobby, Music. Most often seen rushing from Dal to King's. Plans Education Course.

"A taste for books, which is still the pleasure and glory of my life."

Bridgetown High, Normal College. Hobby, Photography. Debating "D", two years intercollegiate and Bennett Shield. S. C. M. Executive member. Gazette proof editor, also one of the first girl co-editors-in-chief. Shirreff Hall House Committee. President Midlothian '40-'41. Plans to Teach.

JOAN THORNE BALLEM
New Glasgow, N. S.

MURRAY MCCULLOCH DAVIS
Truro, N. S.

*"She is pretty to walk with
And witty to talk with
And pleasant too, to think on."*

*"And thus he bore without abuse
The grand old name of gentleman."*

New Glasgow High. Most often seen Gym Store. Hobby, street cars. Vice-President Shirreff Hall. Pi Beta Phi Fraternity. Plans Social Service at Toronto Varsity.

Colchester Academy. Bennet Shield Debating Winners in Freshman Class. 1st year Med. President. Interfaculty Sports. Football '38. Plans, Medicine.

AINSLIE THOMAS EMBREE
Port Hawkesbury, N. S.

SCOTT LEONARD ERNEST
Halifax, N. S.

*"He never burns the midnight oil
in search of useless knowledge."*

"Ambition has no rest."

Pert Hawkesbury High. Favorite expression "Good Gracious." Allan Pollock Scholarships. Plans Theology.

Bloomfield High. Activities, basketball, swimming, soccer. Plans Teaching.

WINSTON FRENCH
Clark's Beach, Nfld.

MARION INEZ ARLINE GAYNOR
McAdam Junction, N. B.

"A man not given to words or strife"

*"Who mixed reason with pleasure
And wisdom with mirth."*

Bishop Field College. Memorial U. College. Most often seen Library, Men's Common Room. Plans to go in Navy.

McAdam High. Hobby, reading. Favorite expression "No kidding, you should see McAdam"! Intercollegiate Debating Team '38-'39. Regional Scholarship, Bruce Scholarship. Plans post-graduate work.

FRANCES MARY GLASS
Halifax, N. S.

LAURA E. GOLDEN
Halifax, N. S.

*"A lot of joy, a lot of fun
In her see found that both these run"*

*"Fun-loving, carefree and withal
A loyal friend."*

Halifax Academy. Favorite expression "Imagine that!" Most often seen King's Campus. Basketball. Debating (King's). Plans Civil Service or Education.

Bloomfield High. Hobby, Music. Favorite expression, "y'know what?" Most often seen, In Upper Canada. Alpha Gamma Delta Fraternity, Badminton, swimming. Plans Wedding Bells.

ROSE J. GOODMAN ("Sweepy")
New Glasgow, N. S.

MARGARET ALICE GRAHAM
St. Margaret's Bay, N. S.

*Given to sports, laughter and
much company.*

*"O'er rough and smooth she trips
along
And never looks behind."*

New Glasgow High. Most often seen at the bridge table. Dal orchestra. Basketball Manager '40-'41. Glee Club. Vice-Pres. Junior and Senior Class. Secretary-Treasurer Shirreff Hall. Arts and Science executive. Plans Nursing.

Halifax Academy. Most often seen in the Library. Delta Gamma Executive. Manager of Intercollegiate Debating '40-'41. S.C.M. executive. Proof Editor Gazette, '40-'41. Plans a business career.

PHAROS

HELEN GRANT
Parsborro, N. S.

*Still the wonder grew,
That one small head could carry all
she knew.*

Parsboro High. Hobby, Hairdressing. Most often seen in Professor Bennet's classes. Favorite expression "Somethin' fierce". Badminton. Plans Teaching.

H. ST. CLAIR HILCHEY
Halifax, N. S.

*"I know thee for a man of many
thoughts."*

Bloomfield High. Hobby, Stamp collecting. Most often seen behind a book. Plans Divinity Course Wycliffe College, Toronto.

PAUL SHERMAN HOWARD
Saint John, N. S.

*"As a soldier I 'lited to grow in
great fame
And be shot at for sixpence a day."*

Rothsay Consolidated, King's Collegiate. Hobby, Brunettes. King's hockey, basketball, football, badminton, tennis. Plans Law.

RALPH LE DREW
Conception Bay, Newfoundland

*"He will hew to the line of right
Let the chips fall where they may."*

Memorial University College. Nfld. Hobbies, reading, boating. Most often seen at Pine Hill. Favorite expression "Let me figure this out." Plans to study Theology.

DONALD G. LITTLEJOHNS
Petite Riviere, N. S.

*"Born with a gift of laughter
And a sense that the world is mad."*

Bridgewater High. Hobby, Ping-pong. Most often seen fighting "Rtchy Wiggles". Basketball. C.O.T.C. Track, badminton. Plans to study Theology.

IAN ANGUS MacKENZIE
Todmorden, Ontario.

"Much have I seen and know."

Upper Canada College. Hobby, Transportation. Most often seen King's College. Haliburton Clubs, K. C. A. A. A. executive King's Record staff. Weldon Inn. Plans Law.

DORIS L. HARRISON
Dartmouth, N. S.

"Truth and sincerity, first of all".

Halifax Academy. Favorite expression "Well, I'll tell the Dean", Senior co-ed at King's. Vice-Pres. Quintilian Society '39-40, '40-41. Badminton Team. Pres. Co-ed's Club and Co-eds Student Council. Plans to teach.

CATHERINE G. HILTZ
Halifax, N. S.

*"Though naturally pensive
Yet I am fond of gay company."*

Southwestern High School. Hobby, Edmonton. Favorite expression "I guess so." Vice-Pres. of Quintilian Society. Member of King's Co-ed Student Council. Plans undecided.

RALPH CLARENCE LALTOO
San Fernando, Trinidad, B.W.I.

*"O for a beaker full of the warm
South."*

Naparinia College. Hobby, Johann Strauss. Most often seen "in wholesome solitude, the nurse of sense, where we are least alone." Classical Club. L'Alliance Francaise. C.O.T.C. Student Assistant in English '40-41. Plans M.A. at Dal. then B. Paed. at Toronto, then back to Trinidad

EDWARD LE GROW
Bay de Verte, Newfoundland

*"And at the stars, which are the
brain of Heaven
He looked."*

Blackhead, Memorial University College, Newfoundland. Hobby, gardening. Favorite expression, "Now let me see." Most often seen at Pine Hill. Skating. Plans to study Theology.

HAROLD MacDONALD
Bridgeville, N. S.

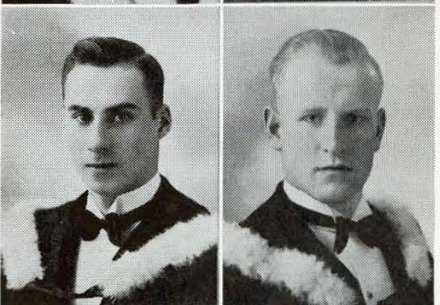

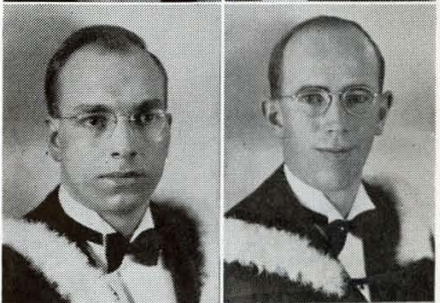

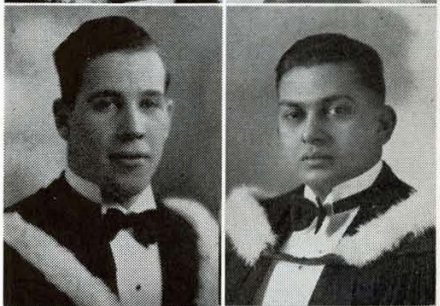

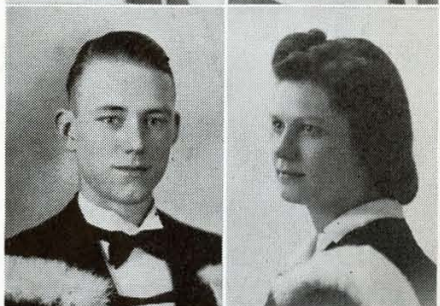

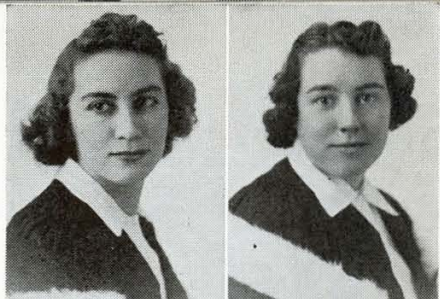

*"A moral, sensible, and well-bred
man."*

Plans to study Theology.

FLORENCE RUTH MacQUARRIE
Moncton, N. B.

*"Born for success she seemed
With grace to win, with hearts to
hold
With shining gifts that take all
eyes."*

Moncton High. Hobby, Dramatics. Most often seen around Glee Club. Student's Council, Arts and Science '40-41. Life secretary of Class '41. President Glee Club '40-41. Vice-President Glee Club '38-39. Exchange scholar Toronto University '39-40. Midlothian. Plans Teaching.

PHAROS

EDNA LOUISE MENGER
Campbellton, N. B.

MARION FRANCES MOORE
Halifax, N. S.

"I have made strong proof of my constancy."

*"A good sport, a true friend
What more could be sought for."*

Campbellton High. Hobby, Bridge. Favorite expression, My Soul! Glee Club, Basketball, Secretary of Pi Leta Phi two years. Badminton. Pans Teaching.

Bachelor of Science . . .

JOHN H. BARRETT
Curling, Nfld.

*"Animated, full of zest
His puns and jokes are of the best."*

Prince of Wales and Memorial Colleges, St. John's, Nfld. Photography. Interfaculty Hockey and Basketball. Glee Club, Dalhousie Band. M. Sc. next year. Keep climbing, Johnny.

DOUGLAS AUGUSTINE DARCY
St. John's, Nfld.

*"Thou hast—what we
Alas! have not—Brains!"*

St. Bonaventure's and Memorial Colleges, University of Toronto. Junior, Senior and Rhodes Jubilee Scholarships (Nfld.), Victor Ludorum (St. Bonaventure's), Univ. of Toronto Intercollegiate Soccer team. Music, Sports. Research in Biology next.

RUTH SHIRLEY FAULKNER
Halifax, N. S.

*"A quiet manner, pleasant smile,
Ana when she speaks 'tis well worth
while."*

Halifax County Academy. Hobby is Photography. Badminton team and Swimming. Plans to study Laboratory Technique. Heaps of success, Ruth.

ELIZABETH ELLS GILLIATT
Wabana, Nfld.

*"Love, sweetness, goodness in her
person shined."*

Bishop Spencer School, St. John's, Nfld., King's College. Badminton, Tennis, Ping Pong, Skating. A course in Laboratory Technique is Eetty's next step up the ladder. Aim high, Betty.

RUTH WOODFORD GRAHAM 2
St. Margaret's Bay, N. S.

*"She smiled on many, tho' she loved
but one."*

Halifax Academy. Tennis Team, Basketball Team, Riding, Skiing, Skating, Swimming. Convocation Committee. Her hobby is music. Will take a course in laboratory technique at the Pathological Institute next year. Best of luck, Ruth.

HARRY R. LAUDER
Saint John, N. B.

*"For some are born to do great
deeds."*

Saint John High School. His hobby is painting Pine Hill Soccer team. Plans to continue in Medicine. Lots of luck, Harry.

ELIZABETH ELEANOR BLIGH

*"It's nice to be natural
When you're naturally nice."*

King's County Academy. Entrance Scholarship '38. Social Chairman and Executive of Delta Gamma. House president of Shirreff Hall. Executive and Convention Delegate of Pi Beta Phi. President Dalhousie Panhellenic. Art Editor of Year Book. Convocation Committee. Midlothian Society. Plans to be a Medical Technician.

JOHN REGINALD DINGLE
Halifax, N. S.

*"He was one who had an eye for
such mysteries."*

Eloomfield High. Most often seen through Chem. Stock Room window saying: "Sign a slip please." M.Sc. next and then a Ph.D. Good luck, Jack.

ADELAIDE LOUISE FLEMING
Halifax, N. S.

*"A voice so thrilling ne'er was heard
In Springtime."*

Halifax Ladies' College and Mt. Allison University. Hobby is Music. Social Chairman of Pi Beta Phi Fraternity. Vice-President of Glee Club. Skating, Swimming. Continue her studies in Medicine. Stick to it, Adelaide.

Dartmouth, N. S.

*"Whate'er he aid was done with so
much ease."*

In him alone 'twas natural to please."
Dartmouth High School. C. O. T. C. Interfaculty Basketball, Football and Hockey. Most often seen in the Chem. Laboratory. Plans for the future are undecided as yet.

HUGH JOHN McLELLAN
Sydney, N. S.

*"Work and worry have killed many
a man—*

"So why should I take a chance?"
Sydney Academy. His hobby is sailing. Freshman football team, Pine Hill soccer team. C. O. T. C. Class Prophet, '41. Post-graduate work in Chemistry. Keep climbing, Sonny.

PHAROS

DONALD SELLERS MacKEIGAN
Halifax, N. S.

*"Cool, unperturbed by stress or
hurry
Inclined to work, but not to worry."*

Halifax County Academy. B.A. from Dal. last year. Dal. band. Interfaculty sports. Class treasurer. President Arts and Science Society. D.A.A.C. Management Committee. Will continue in Medicine.

ALEXANDER KERR ROY—"Lex"
North Sydney, N. S.

*"And still the wonder grew
That one small head could carry
all he knew."*

North Sydney and Sydney Mines High Schools. Interfaculty hockey. 1st year Representative on Medical Executive. "Doc" will finish Med. School and become an M.D.

OSCAR ADRIEN SANDOZ
Halifax, N. S.

*"The truest wisdom is resolute
determination."*

Halifax County Academy. Hobby, radio experiments, music. Interfaculty hockey. C.O.T.C. Engineering Society Continue his studies in electrical engineering.

CONSTANCE RAZEL SPINNER
Baddeck, N. S.

*"To friends, a friend;—
How kind to all!"*

Sydney Academy. Hobbies, music and sleeping. Regional Scholarship, '38. Delta Gamma Executive. Ping-Pong Manager. Gazette. Year Book. Glee Club. Convocation Committee. Skiing and Tennis. Medical Technician course at St. John, N. B. next year.

CHARLOTTE M. SULLIVAN

"Carly"

St. Stephen, N. B.

*"The reason firm, the temperate will,
Endurance, foresight, strength and
skill."*

St. Stephen High School. Regional Scholarship, '37. President D.G.A.C. Secretary Class '41. House Committee Shirreff Hall. Gold "D" for tennis and basketball. Manager tennis team. Chairman Junior Prom Committee. Alpha Gamma Delta. Lab. Technician and post-graduate work in Zoology.

DONALD MICHAEL R. VINCE
Halifax, N. S.

"Of asking he was never thru."

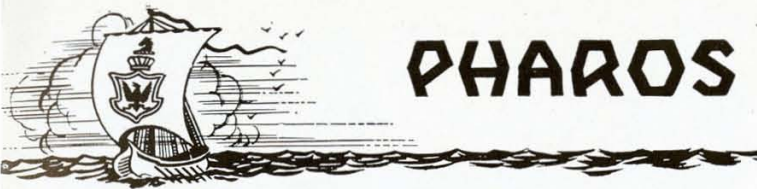

St. Mary's College. His hobby is stamp-collecting. Skiing, skating, sailing and swimming. His plans for the future are undecided, but whatever they may be — Lots of luck, Donald.

CHARLES EDWARD DOYLE
Moncton, N. B.

*"He's just what he is, what better
report,
A man, a student, a friend, a good
sport."*

Moncton High School. Zeta Psi Fraternity. Treasurer of Class '41. An active member in most class activities. Badminton. Plans are indefinite. (No photo).

PHAROS

Bachelor of Science and Engineering Diploma

MARTIN ALBERT EISENHAUER
Lunenburg, N. S.

"A skilful manager does not drive but leads."

Lunenburg Academy. President and Executive of Engineering Society. Student's Council '40. Dawson Geological Club. C. O. T. C. Boating. Intends to take Mechanical Engineering. Favorite expression, "Now, fellas, in Lunenburg we—." Everybody's pal, we say the best of everything to you, Martin.

LAWRENCE FRASER HORNE
Dartmouth, N. S.

"Let us pray."

Dartmouth High School, Halifax Academy. Hobby is fishing. Hockey team, interfaculty sports. C.O.T.C. Engineering Society. Favorite expression, "How about paying me, what you owe me." N. S. Technical College next year.

CHRISTOPHER S. McALDEN
Andover, N. B.

*"It is not growing like a tree
In bulk doth make man better be."*

C.O.T.C. King's Athletic Association. D.A.A.C. Engineering Representative. Basketball, football, softball. Plans to enter N. S. Technical College next year.

HERBERT AINSLEY MARSHALL
Dartmouth, N. S.

"He has achieved success, who has lived well, laughed often, loved much."

Dartmouth High School, Halifax Academy. Fishing. Sergeant in C.O.T.C. Co-author of "40 Eeers". Engineering Society. N. S. Technical College next.

KENNETH ROSCOE MITCHELL
Dartmouth, N. S.

"True to his word, his work, his friends."

Dartmouth High School and Halifax Academy. Hobby, drawing instrument collector. C.O.T.C. Interfaculty and senior hockey, interfaculty football. Engineering Society. Dawson Geological Club. Civil Engineering next.

MURRAY F. FRASER
Lunenburg, N. S.

"Whimsical, witty and somewhat critical."

Lunenburg Academy. Provincial Normal School. Hobbies, Hunting, Fishing and Mechanics. C. O. T. C. and Engineering Society. Most often seen in the Drafting Room. Plans to enter Technical College next year. Happy hunting, Murray. (No photo).

FREDERICK RALPH FRASER
Halifax, N. S.

*"Give him the stars to play with—
Give him the moon as well."*

Halifax County Academy. Amateur Radio, Astronomy. C. O. T. C. Engineering Society. Most often seen expounding—"Well, you see". Will continue his studies in Engineering. Success! Ralph.

WILLIAM RALPH LEWIS
Louisburg, N. S.

*"I love to work it fascinates me,
I could sit and look at it for hours."*

Louisburg High School. Hobby is Radio and Art. Manager King's Basketball team. King's College Record. Engineering Society Committee work. Electrical Engineering at Tech next year.

EARL BURGESS MacCUIISH
Pictou, N. S.

*"Much may be made of a Scotchman
if he be caught young."*

Pictou Academy. Music, books, radio. Dal. Band. Dawson Geological Club. Engineering Society Executive. Will study Aeronautical Engineering. Best of luck, Earl.

WILLIAM ALBERT MESSERVEY
Halifax, N. S.

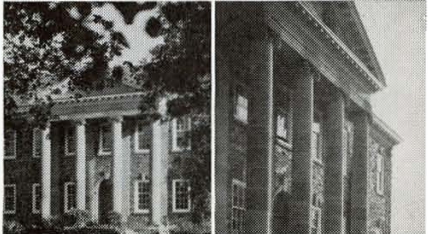

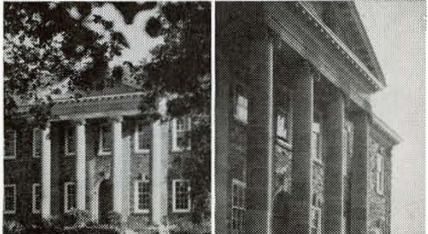

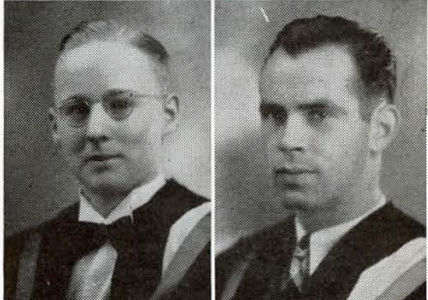

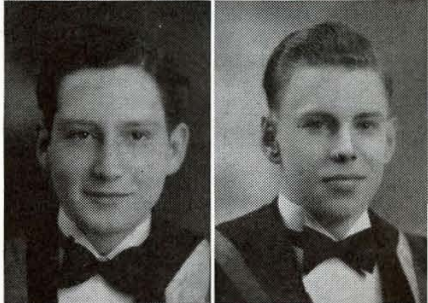

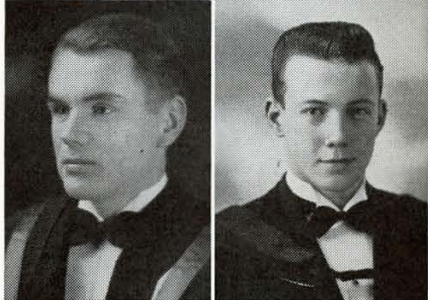

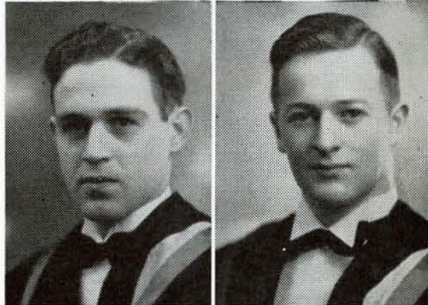

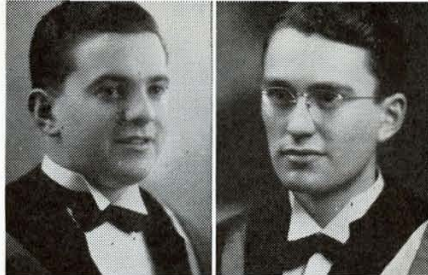

*"The incentive to outgrow ourselves
is the secret of all advance."*

Halifax Academy. Hobby, music and amateur radio. A.T.C. Vice-President and Executive of Engineering Society. Dawson Geological Club. Electrical Engineering at McGill next year.

BERT FRANK VAIL
Sydney, N. S.

*"To know how to hide one's ability
is great skill."*

Sydney Academy. C. O. T. C. Rifle team, football and basketball teams, all interfaculty sports Engineer's football and basketball manager. D. A. A. C. representative. Secty.-Treas. Engineering Society. Engineer's dance committees. Bob Walters' Memorial Award. Electrical Engineering at McGill next year.

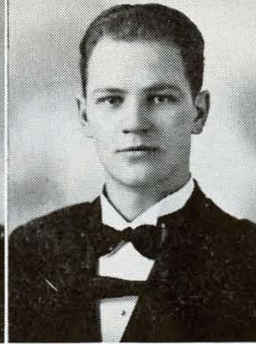

Bowes

Brownhill

Currie

Dumont

Edwards

Diploma of Engineering

WILLIAM HENRY BOWES
Halifax, N. S.

*"If he be not fellow with the best
king thou shalt find him the best
king of fellows."*

From Bloomfield High. Spends most of his time in the drafting room. Engineering Society. A. T. Corps. Plans to take Civil Engineering at McGill University next.

HAROLD E. BROWNHILL
Halifax, N. S.

*"Dare to do your duty always; this
is the height of true valor."*

From Quinpool Road, Charles Tupper, Morris Street and Halifax Academy finally arrived at Dal. Y.P.U. Minor sports and interfaculty basketball. Plans to take Electrical Engineering at N. S. Tech next year.

ROY CURRIE
Halifax, N. S.

*"'Tis not in mortals to command
success
But we'll do more—deserve it."*

From Tower Road School and Halifax Academy. Besides military training does committee work for the Engineers and is a member of the Engineering Society. Plans to go in for aeronautical engineering. Best of luck, Roy!

LINCOLN BALON DUMONT
Charlottetown, P.E.I.

*"He was wont to speak plain and
to purpose."*

From West Kent High School and Prince of Wales College to Dalhousie. Spends most of his spare time arguing about the war. C.O.T.C. Interfaculty hockey. Engineering Society. Plans to specialize in Aeronautical Engineering.

ROBERT G. EDWARDS
Halifax, N. S.

*"He hath wit and merit and a spark
of spirit."*

From B. H. S. and Chebucto Road Schools. B.Sc. from Dalhousie in 1940. Received his "D" for valuable work as the Glee Club electrician. Engineering Society. Plans to take Electrical Engineering next. Good luck, Bob!

JOHN STANTON FOSTER
Halifax, N. S.

*"Why take life too seriously—
You'll never get out of it alive."*

Came to Dal. from Halifax County Academy. Spends his time in the gym., playing tennis or skiing. Member of Engineering Society. Plans to continue with Aeronautical or Electrical Engineering.

JAMES A. MacLELLAN
Hants Co., N. S.

*"The world makes way for the man
who knows where he is going."*

Came from Colchester Academy to Dalhousie. Most often seen drawing furiously on a pipe. A. T. C. Member of the Engineering Society. His plans are indefinite but here's the best of luck!

GEORGE CLINTON MILLIGAN
Tyne Valley, P.E.I.

*"Pardon my dust—I have a date with
success."*

Came from Prince of Wales College to Dal. Most often seen around Pine Hill. Lieutenant in C.O.T.C. Member of Engineering Society. Plans to complete Electrical Engineering at McGill.

AARON DISRAELI SOLOMON
Dartmouth, N. S.

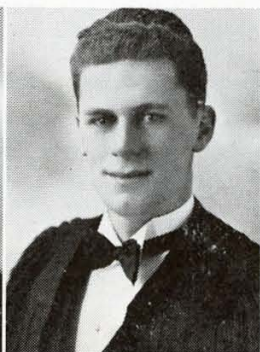

*"No one finds life worth living
"It needs to be made worth living."*

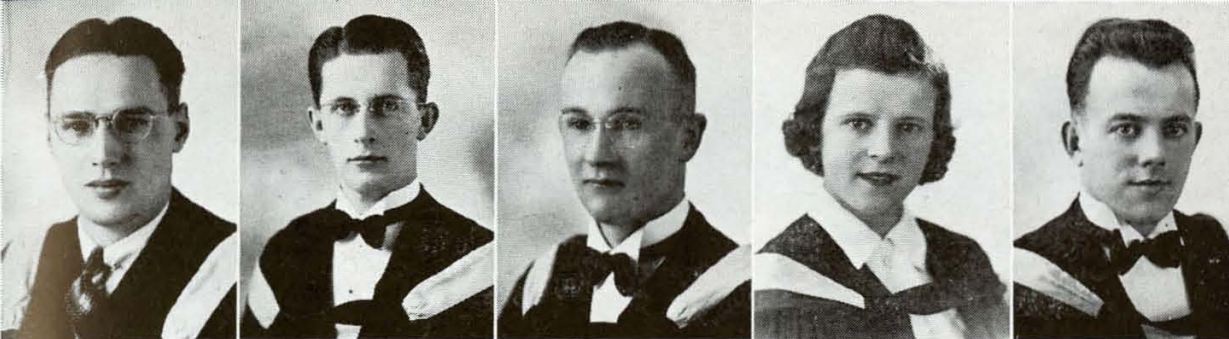

From Dartmouth High School. Interested in radio operating. Spends most of his time in the drafting room. Member of Engineering Society. Plans to take a B.Sc. in Electrical Engineering at the University of Toronto or McGill.

Foster

MacLellan

Soloman

Hanson

F. Johnson

R. Johnston

Lohnes

MacLean

Bachelor of Commerce

GRAHAM HANSON

*"See how his nimble fingers
Move with inimitable dexterity."*

We expect big things of Graham. Interested in sport, a sound student, and a cartoonist of some note—we predict no small measure of success whatever his undertaking.

FRANK MARVIN JOHNSON New Glasgow, N. S.

*"I like work; it fascinates me;
I can sit and look at it for hours."*

From New Glasgow High School. Commerce Representative on Students' Council 1939-40. President Commerce Society 1940-41. Treasurer Class '41, 1940-41. Life Treasurer Class '41. Phi Kappa Pi Fraternity. Plans to enter business.

ROBERT C. JOHNSTON Halifax, N. S.

"Little man, what now?"

Came to Dalhousie from St. Mary's College. Spends most of his time in the gym store or Quartermaster stores. Newman Club. Commerce Society. Although Bob's plans are indefinite we all wish him the best of success.

MONA JEAN LOHNES Halifax, N. S.

*"Thou hast no faults, or I no faults
can spy."*

Arrived at Dalhousie from Halifax Academy. Mona spends most of her time in the library or at her war work. She is a member of Alpha Gamma Delta Fraternity and plays badminton and tennis. Good luck, Mona, in your future office work.

REGINALD WILFRED MacLEAN Orwell Cove, P.E.I.

*"One thing is forever good
That one thing is success."*

From Prince of Wales College to Dalhousie. During his stay here Reg has been made secretary-treasurer of the Commerce Society. Here's wishing you the best of luck in the future, Reg!

GEORGE DEWAR MacLEOD Halifax, N. S.

*"A little mischief now and then
Is relished by the best of men."*

From Halifax Academy. D.A.A.C. 1940-41. Students' Council 1940-41. Senior football, 1940-41. Interfaculty hockey, basketball and softball. Sports writer for Gazette 1940-41. Plans to enter the Navy next — good luck, Dewar!

DOUGLAS MAHON Halifax, N. S.

*"Full of wise saws, and modern
instances."*

Came to Dalhousie from King's Collegiate School. Spends his spare time reading the Bulletin and going to C.O.T.C. Doug's plans are indefinite but we know he will succeed in whatever he goes in for.

WILFRED L. MYRA Lunenburg, N. S.

*"I can resist anything but
temptation."*

Came to Dal. from the Lunenburg Academy. In his spare moments he is most often seen on the Dartmouth ferry. Plans for a business career. Best of luck!

ALLAN T. SPARKES St. Johns, Nfld.

*"Here is a man, good without
pretense,
Blest with plain reason and sober
sense."*

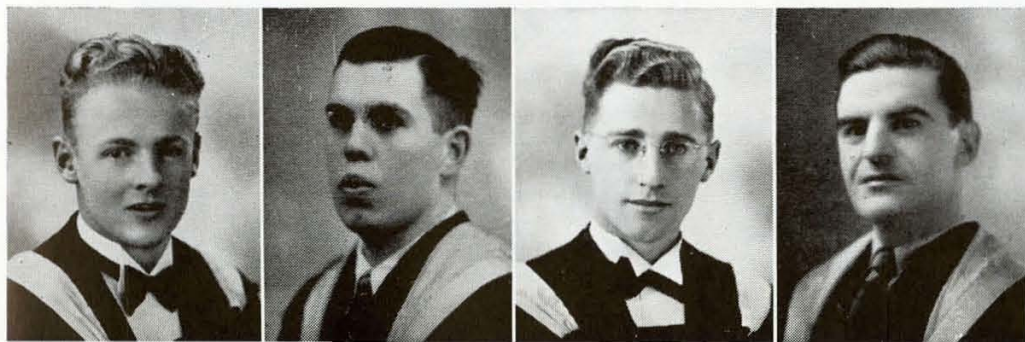

From Memorial College, Newfoundland and McGill University. Vice-Pres. Sodales. Pres. of Newfoundland Club. Pres. of Effective Speaking Club. Newfoundland Club soccer team. Interfaculty hockey. Plans to be a Chartered Accountant.

They go to make the world
A better place in which to live.*

Medicine . . .

HARRY G. GRANT
M.D.C.M., M.R.C.S.
L.R.C.P.

Dean of the Faculty of Medicine

As a rule I have great difficulty in writing farewell to the class about to graduate. No matter how hard I think the thoughts that come, sincere as they may be, seem so trite, I am ashamed to put them on paper.

This time, I have only one wish which is that every member of the graduating class offer his services to Canada in the present crisis. There is only one thing that matters now and that is for each one to see that Hitler and his former partner in crime are thoroughly licked. Dalhousie has always responded to the call of duty.

H. G. GRANT.

PHAROS

Doctor of Medicine & Master of Surgery

JOHN HENRY BALDWIN
Moncton, N. B.

Came to Dalhousie from Mount Allison; distinguished himself on the Medical hockey and basketball teams for four years. His hobbies, skiing, and skating. Plans to practice following graduation. Most often seen with his side kick—Frank Kinney.

HARRY BLISS MURPHY
St. John's, Nfld.
(No photo)

*These are the solons
Who unravel and create
The fabric of society.*

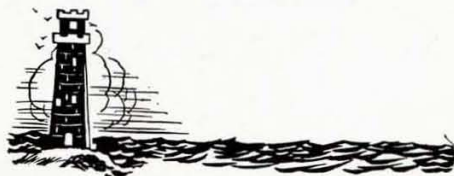

Law . . .

VINCENT C. MACDONALD
B.A., LL.B., K.C.

Dean of the Faculty of Law

Law bears the brunt of the task of maintaining, furthering and transmitting civilization. This is transparently true in time of peace; it is no less true in time of war. Men will and do fight to preserve for themselves the kind of civilization, the social order, the way of life, which they have developed under the system of law which they and their ancestors have evolved for the very purpose of making that kind of civilization possible. The political and social well-being of a nation is as much dependent upon its law as its physical health is dependent upon the rules of nature. In time of war we tend to realize that law, just law, observed law, must exist in the larger sphere of international affairs if civilization is to exist anywhere. And so in the present crisis we fight for law, for the establishment of some sort of external order which will enable us to enjoy the treasures of an ordered internal life. When we have re-purchased this right to liberty under law let all of us, lawyers in particular, seek to re-fashion our own law so as to make it the servant of an ever higher and nobler civilization.

PHAROS

Bachelor of Laws

DELMAR JOSEPH AMIRO
Lower East Pubnico, Yar. Co., N. S.

"Some day, something terrible will happen and I will say, 'Damn it all man!'"

From the School for the Blind and Halifax Academy. B. Commr. from Dalhousie. Premier Dalhousie Mock Parliament '39-'40. President Effective Speaking Club '39-'40. Vice-President Sodales, Debating Society. Treasurer C. S. A. '39-'40. Gold "D" for debating. Plans to continue law; politics or business.

*"I love work, it fascinates me,
I could sit and look at it for hours."*

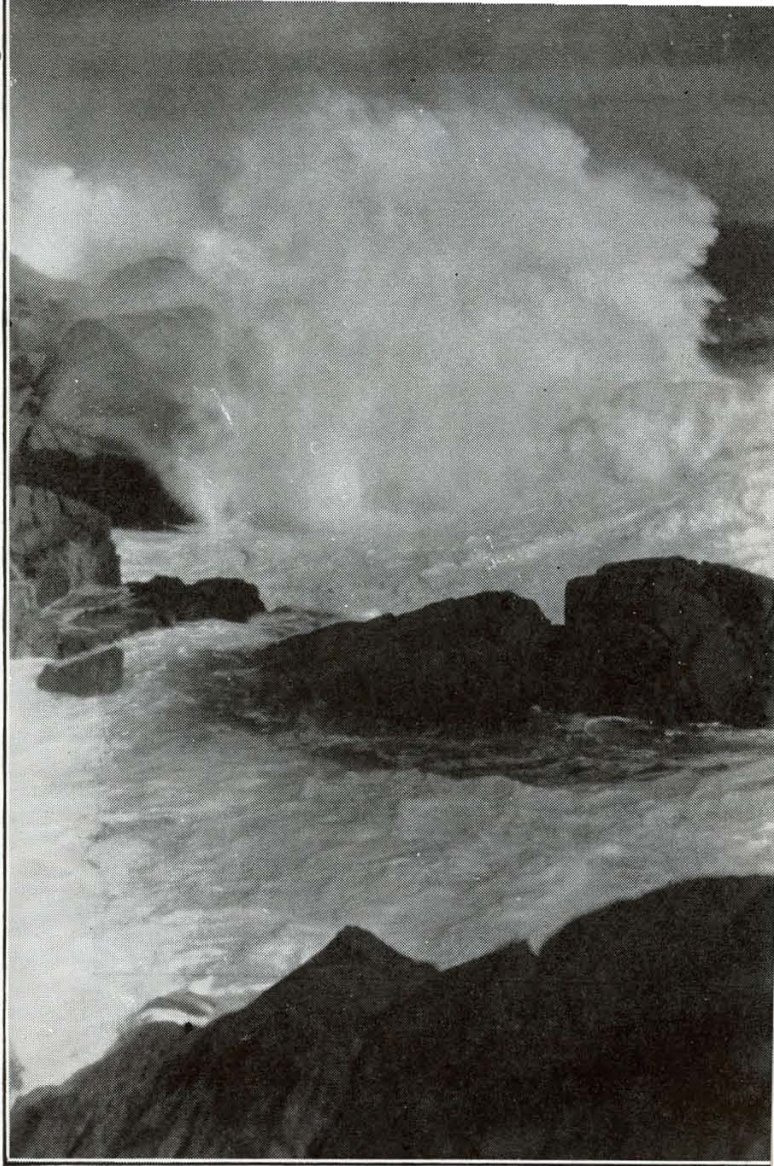

"A man not of words, but of action."

First the army and then the law will claim his attention. A sound student and a good sportsman, Fred is the strong, silent type—until politics are mentioned.

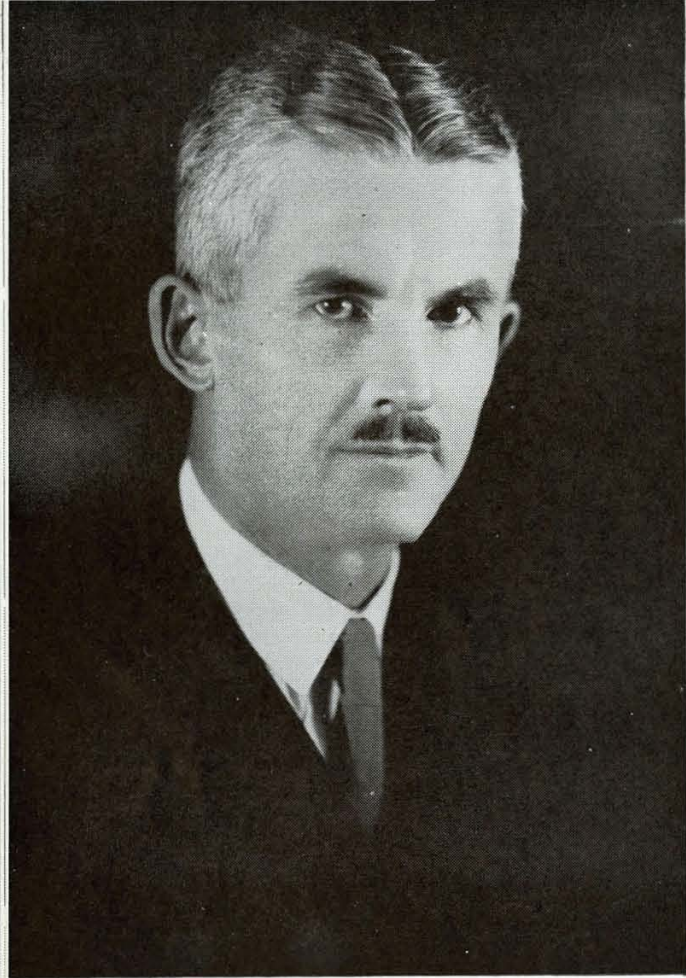

From Ford Roberts, King George High and University of British Columbia. B.A. from U.B.C. Ping pong and resting take up his spare time. Plans to practise law in Vancouver eventually.

*No mere technicians, these.
To them their science is an art—
Their art, a science.*

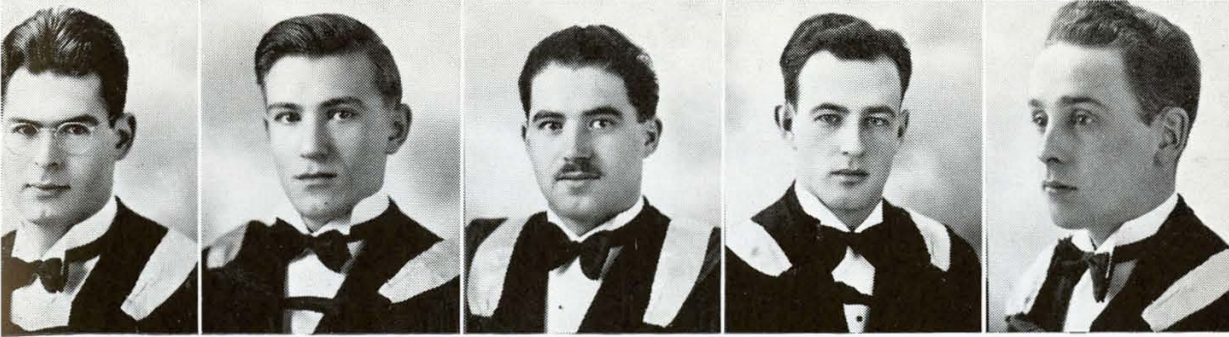

Dentistry . . .

WILLIAM W. WOODBURY
B.Sc., D.D.S.
Dean of the Faculty of Dentistry

It has been said that "the principles or truths of a science may be imparted to a student; skill and facility in applying them to the useful purposes of life he must earn for himself." Thus science and art must be combined by the student-practitioner. Your Faculty urges you to follow diligently this two-fold objective, and wishes you true success.

Brown

Goldberg

Liebermann

Marshall

Robinson

Doctor of Dental Surgery

E. A. BROWN

Alphabetically and scholastically Brown comes first. Ed hails from Bangor, Me., where they sport 'em quite big, and if you don't believe that just take a look at those 4th molars. In the Dal. band, you can't miss his trumpet playing. After graduating, he'll chug-chug-sput-sputting along in his famous "Maxwell" off to Columbia post-graduate school for more Orthodontia. Well, good luck, Ed!

L. S. GOLDBERG

Here's one fellow you must look up. Goldy is a born actor and comedian who has been torturing his classmates for years. His imitations keep the boys in stitches and he is a devoted friend of Brownie. Favorite expression: "Jenko wins again — I will not make a statement for the Je'enko Company!"

Goldy is a Halifax boy, although he spends a good part of his time in Glace Bay and we know why. Goldy is the best dressed man in the class—famous for his green suits, red socks, spats, and wide-brimmed hats. Goldy is a marvelous tennis player, excellent badminton man, as well as a clever shadow boxer. He expects to intern and we wish him every success.

J. LIEBERMAN

Having toured Europe, Asia, North Africa, Montreal, New York, Joe finally comes to us here in Halifax. We are very proud to have Joe with us, he has gained considerable experience, and is ALWAYS ready with a helpful hand to show the boys how it should be done. He holds degrees from Paris and Montreal in Dentistry and intends to practise in New York. A rabid bridge fan, a ski

enthusiast and a stellar defenseman on our hockey team, Joe just can't go away.

J. T. MARSHALL

Pretty boy Jack—can make any girls heart leap—but Jack's bachelor days are numbered. His easy going manner and exceptional sense of humor makes him a man you always want around. The class politician, Jack has been president of the Dental Society and served time on the Students' Council. Jack was a member of the Dalhousie hockey team, is a good softball player, and is a match for anyone in tennis. Favorite hobby, Tom Whyte. Favorite saying, "More fun than a barrel of monkeys." Jack has a great future ahead of him.

G. B. ROBINSON

Shaking the sawdust from the mill in Diligent River — wherever that is — and with a B.A. tucked under his arm from Acadia, Boyd arrived late one day in old Dalhousie. Ever since then, he's been known as the handicap man. He was the first to prove the old adage that two can live as cheap as one. An ardent cadet of the O.T.C., he's stepping into the Dental Corps upon graduation. His favorite expression, "Oh—I got time for it." A good operator, Boyd has a bright future ahead.

M. J. SAUNDERS

At the crack of dawn, Murray can be seen, with weasel bag in his hand, leaving his home for the dental lab to do a few castings. In the dead of night, Murray can be seen sinking home, with weasel bag tucked under his arm, after Mr. McLeod has swept him out.

Blue-eyed, dreamy-eyed M u r r a y

hails from Brooklyn where he has received a B.S. from Brooklyn College. His activities include tennis, softball, swimming and boxing. Favorite hobby is collecting Latin American records and dancing. What will Mr. Gardiner do without his right-hand man? Murray returns to the States for post-graduate work with best wishes for success.

H. TRABMAN

Look! up there—is it a bird?—is it a plane? No!—it's Trab-man. Girls take your last look. Hymie is leaving Halifax. Long wil H. T. linger in the halls and walk of the Dental School. Arriving from New York, H. T. has acquired a large collection of instruments which his classmates now look upon with green envy. Favorite expression, Mi-range-ania, where'd I put my . . . !!" Director of the laboratory Choral Club, his deep baritone voice starts the boys off. We are sure Hymie will be most successful in whatever he undertakes because he picks things up so fast! So long, Hymie, and good luck.

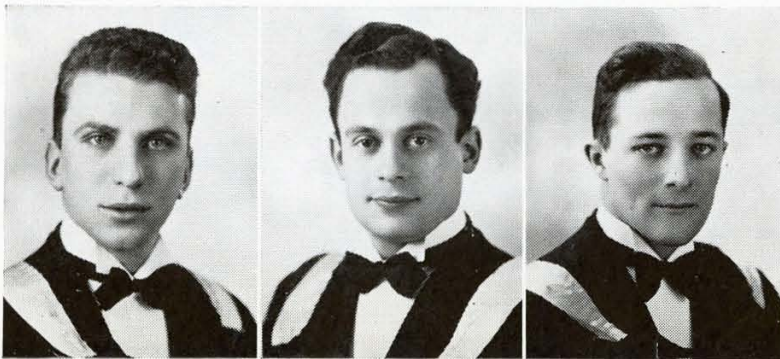

T. H. WHYTE

"For right and might—Tom White." This two-fisted, cherubic - looking classmate of ours, comes to us from Bridgewater and at times he is so strong as to be able to rip a paper napkin clearly in two. Possessing an unusual personality and fine sense of humor, he is constantly keeping the boys and the teachers in good spirit. Tom has been champion Maritime Intercollegiate boxer, member of the D.A.A.C. and homerun slugger of our champion softball team. Tom is a popular lieutenant in the O.T.C. and will soon be proud officer in the Dental Corps. O. K. Tom, go in swinging!!

History of Class '41

By ROSE GOODMAN

Class '41 on the Dal campus has always stood for keen enthusiasm. It gained attention during its first few weeks at the university by its large number and especially by its riotous spirits which were displayed during that memorable Freshman week. The very first year the class set about finding out what was going on in the various groups and organizations and succeeded in establishing some of its members in important positions.

The first independent activity was the Freshman party which proved to be a great success, both socially and financially. Perhaps it was stage fright, (but who can really say?) that caused the Freshman show to be something to be forgotten rather than an event to be remembered in the history of the Glee Club.

In the fall of '38 the majority of our class returned to Dalhousie, and having become Sophomores were eager for the initiation of the new Freshman class. The committee did a fine job and the Frosh were definitely kept in their place by the mighty Sophs. The usual activities were carried out ending with the Freshie-Soph dance. Here our class established a pre-

PHAROS

cedent by holding the dance informally in the gymnasium, and since it proved such a huge success the idea has been accepted by following classes.

As Juniors the members of Class '41 still held their own on the campus. The activities went on as usual and came to a climax with the Junior Prom. Rowena Benson and Albert Wilansky won for the class the Bennet Shield for interclass debating.

Bain Munro, who has served us as president during the past year has been chosen very appropriately to hold the office for life. Forbes Mountain was president during our Junior year and George Hagen filled the office in both our Freshman and our Sophomore years. Our vice-presidents have been Marjorie Mackintosh for our first two years and Rose Goodman held the office for the remaining two years and continues as that officer. Carly Sullivan, who held the position of secretary for three years, was succeeded by Ruth MacQuarrie, who becomes life secretary. Our treasurers have been Don MacKeigan, Charles Doyle and Frank Johnson. Frank Johnson takes on the position for life. Hugh MacLellan was chosen Class Prophet. Prof. George Wilson was unanimously chosen as our Honorary Life President.

Many of our boys have entered the service of their country. The first of these was George Hagen whose position as class president was difficult to fill. There are others whom we could also mention, and their absence makes us all realize the gravity of the situation in which the world is involved at present.

And as we leave the "College by the Sea" we enter the world with confidence, for Dalhousie has taught us perseverance, good sportsmanship and the will to succeed. With these invaluable gifts the Class of '41 will make Dalhousie proud of her.

PHAROS

CLASS PROPHECY

By HUGH McLELLAN

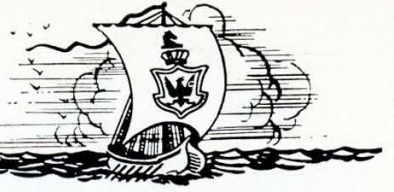

My friend Lex Roy tells me I must be a very lazy fellow having only such a job as digging ditches, and that if I am any good at all I will go right out to Jack Dingle or Oscar Sandoz, and have them give me jobs in their chemical and manufacturing industries. But I say to him I've got no kicks, life is just the people you meet and I give you 6 to 5 I see more guys and dolls in a day than most see in a week. Take yesterday, which was at best nothing but an ordinary day; I see George Little who just finishes a one-day stand in this town's largest opera house, and with him are members of his mob, such as Ian MacKenzie, Paul Howard, Ray Murphy, Joe Nowe and Carman Riggs, who personally I figure are nothing but a cheering section he takes along for appearances. Soon after I talk with certain citizens who say they are anxious more than somewhat to meet up with just this party. These citizens are none other than Lawrence Horne, Chris MacAlden, Jimmy Harrison and Bill Messervey, representatives of the Actors and Publishers Protective Society, and they are quite soured up about a matter of percentage, though hearing what Reg MacLean, their mouthpiece, says on the matter, they are more interested in blood this time.

Indeed these are quite some guys to see all in one day; but then last Tuesday while I am on a job on the main stem I see such famous folk as Adelaide Fleming who, if one can believe such journals as they publish in this town, is leaving the medical profession for a Hollywood career, and Frank Johnson, who uses up half the capital of a certain bank, just to entertain an evening a bevy of dolls who are Ruth MacQuarrie, Laura Golden, Helen Parker and Kay Hiltz. These dolls they say cut quite some shine in song and dance, and I see them often with guys who are more big stuff than somewhat, like Ralph Fraser, the radio tycoon, Harry Lauder, Don Littlejohn and Bain Munro, who promotes more sports in this town than most citizens care to witness. All these chaps dress like they are doing not too badly indeed.

I have an unexpected holiday less than a month back, when my work is badly disorganised by a street fight, which starts when Reg Stubbs and Otto Antoft each start a political speech on the same street corner. I join with Stubb's mob and hurl bricks with such old friends as Ainsley Embree, Crawford Anderson, Martin Eisenhauer, Herbert Marshall, Murray Fraser, Ken Mitchell and Bert Snow, and recognise direct hits as what might have been Doug Mahon, Wilf Myra, Bert Vail and Tommy Wilansky. The wholshow is becoming hotter than several hot places I know, when the mob is broken up by a group of dolls from the Antoft left wing party, Marion Gaynor, Marg. Graham, Rose Goodman, Frances Glass and Betty Bligh, all of whom are screaming such phrases as "Break it up", which is just what someone does with my noggin, for I wake up in a hospital owing Don MacKeigan and Murray Davis no less than two

PHAROS

fins for a repair job. I ride home in an ambulance, whose jockey, Bob Johnson, makes the big mistake of trying to drive through a tram car. This, as you might imagine, causes the conductor, Don Vince, to be quite stirred up emotionally. Ross Graham, a scribe for a local news sheet, runs up asking what goes on, so I ask him right back what goes on with him, and hear a long tale of his travels as a war correspondent; how he meets Ralph LeDrew and Ted LeGrow who are in Labrador organising the Eskimos to fight for the Free French, Ralph Laltoo, who is now the dictator of a pint-size South American establishment, and Doug Darcy and Charlie Doyle who are studying life in one of the darker parts of Africa. Also he says they have with them a missionary, Harry Hilchey, which puts the expedition on a paying basis. He says he hears Ralph Lewis is in South America studying the possibilities of marketing power he takes from electric eels by an invention he and Earl MacCuish think up.

I ask the scribe for news of other friends, and he takes me to the morgue of his rag, where he looks up dope on different parties. He finds pictures and social notes which make quite some fuss over Frances Allen, Doris Harrison, Marion Moore, Edna Menger and Mona Lohnes. He also shows me a new comic strip which Dewar MacLeod, owner of the largest pulp syndicate in these parts, has contracted for all his papers. The penman is none other than Harold Robbins, who uses Betty Gilliatt as a model for his modern counterpart of Daisy Mae. I am quite interested in information as to whatever becomes John Barrett, and I find from a news cut that he directs an all-girl symphony which plays each night in Winston French's new night club, and that he employs such artists as Helen Grant, Ruth Graham, Carly Sullivan, Connie Spinner and Ruth Faulkner. We also find pictures and stories of Jim Clark and the large chemical plant, belonging to Allan Sparkes, which he carelessly blows up some months back, and I read how his mouthpiece Leonard Ernst beats the rap for him, though most folks think Judge Charlie Rowe is very playful indeed to hand down such a decision.

It's like this I keep in touch with guys and dolls the world over, and with the odd party, and reading the best books of Joan Ballem and Rowena Benson, I make life interesting more than somewhat.

Arts and Science Society

This year the centre of activity on the Studley campus revolved around the largest non-professional society at Dalhousie. The Arts and Science Society is the oldest and yet the youngest of societies; at present it is really just "learning to walk", but with a "brand" new constitution upon which to depend it should stride along at a great pace from now on.

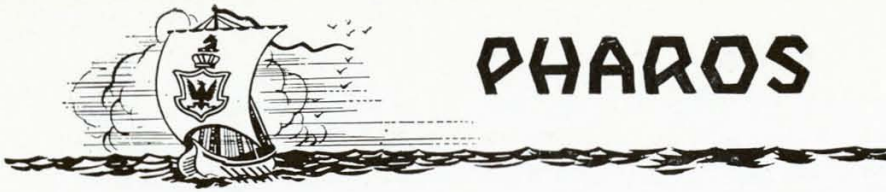

The old financial question raised its head again, but this problem was eliminated by a resolution which gave back all class money to the respective classes, namely, '43 and '44. From now on, membership cards will be sold for the nominal fee of \$1.00. This card shall entitle the bearer to all the privileges of the society free of charge, it is hoped. As yet the privileges are few and far between, but now that constitutional and financial difficulties have at last been solved, next year's executive can start action immediately upon taking over.

In spite of adverse circumstances, we have not been idle. In interfaculty sport the teams have been under the capable management of Bill Hagen and Colin Smith. The Special Events Committee consisted of Miss Penny Patchell, Miss Rose Goodman and Bill Mead.

With a girl for president for the first time, Inez is to be congratulated upon her successful meetings, especially guiding the members through those hectic days of finance. Her two reliables Bain Munroe and Daphne Christie also deserve a great deal of credit for their ever willing cooperation. To a great many students we also wish to extend our thanks for their continued and energetic interest in the society, without their support our society would not be!

To next year's executive we extend our best wishes for a very successful year and feel that '42 should be a great year for Arts and Science students.

PHAROS

(Back) Bob Wilcox, Earl MacCuish. (Front) Jack MacKenzie, Martin Eisenhauer, Eert Vail

The Engineering Society

The year 1940-41 has been a big year for the Dalhousie Engineering Society and the standard set for us in the long history of our Society has been maintained.

The Society has this year instituted an annual award to be known as the "Bob Walter Award" to perpetuate the memory of our last year's president. It will be presented to the member of the graduating class who is most like Bob with his fine qualities of unselfishness, courage and sportsmanship. The loss of Bob to us is one from which we shall not soon recover.

PHAROS

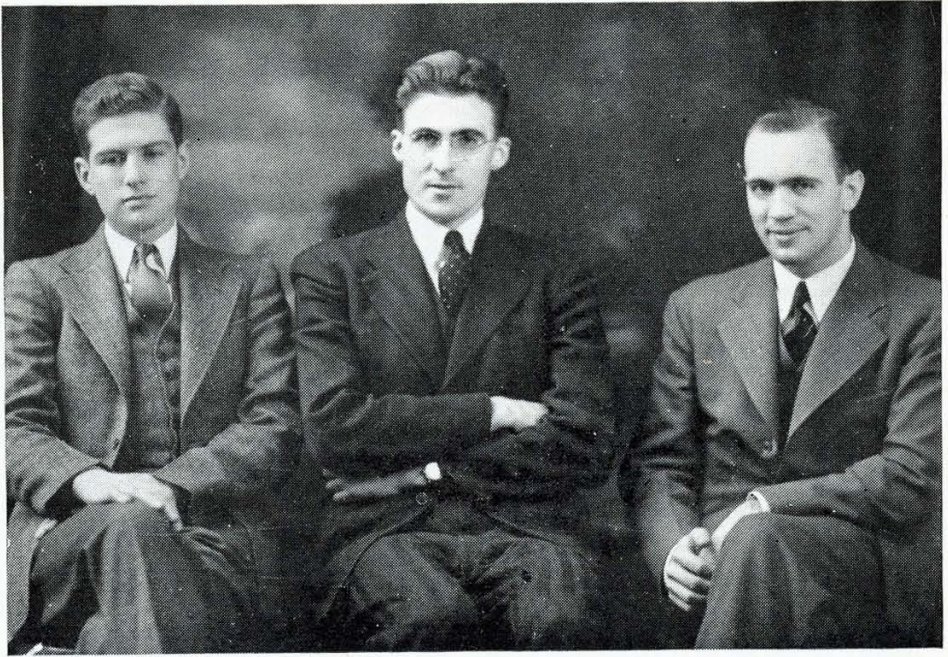

This year the Society has the largest graduating class in its history and over twenty of our members will be leaving. These hearty supporters will be missed, but it is hoped the spirit that they leave behind will carry the society on to even greater heights in comradeship and unity.

The two big social events of the year were the Boilermakers' Ball and the Engineering Banquet. The former, it has been unanimously agreed, was one of the best dances in our history. The banquet was enjoyed by all our members and was no less a success.

In retrospect, we have maintained the co-operation and unity of our organization which has in the past been so characteristic of Dalhousie Engineers. We feel we have finished a very successful chapter in our history to which we all look back with pride.

Jack Woodbury, Secretary; Lew Woolner, President; Pat Vienot, Vice-President.

The Medical Society

This year's Society proceedings commenced with Vice-President Inman in the chair, as last year's dynamic president, Jimmy Squires, was absent, interning. In a meeting with record-breaking attendance, the officers for 1941 were elected: President, Lewis Woolner; Vice-President, Jack Woodbury; Secretary, Pat Vienot; Treasurer, Gordon Mackenzie; First Year Representative, Lex Roy. After this election Major Hogan spoke briefly on the course of military training for the year. The discussion aroused much interest.

The steady hand of Editor-in-Chief Brown Crosby, with the assistance of a capable staff, guided the destinies of the Student Medical Journal through another successful season. The activities of this organ are more fully discussed elsewhere in Pharos.

In the Book Bureau, industrious Art Ormiston and Ned Fogo looked after the student interests.

Medicine has carried off the crown of interfaculty football, snared the hockey title, and looks forward with interest and anticipation towards the trials of skill in softball.

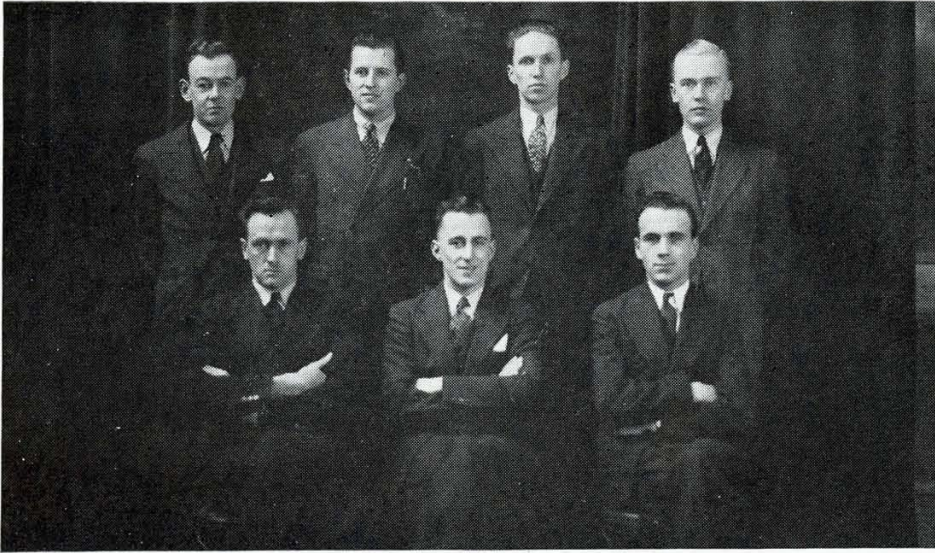

The Med Ball was engineered by socialites Ross, Murphy, and Ormiston. It was, of course, a stellar attraction.

An instructive obstetrical film was shown at one of the regular monthly meetings.

Major Sir Frederick Banting spoke before the Society in January on experimental work being done for the Services, and the relations between doctors and combatants in the Air Force. The address was greatly appreciated by the members and clarified many obscure points about the new Air Force Medical Arm.

Arrangements are being made for several interesting speakers for this term and the Society is to be addressed very shortly by members of a committee of physicians from Harvard University. The plans for the Medical Banquet, which will be the final social affair of the Society for the year, are shaping up well.

Generally, the year has been a good one and we look forward to a happy culmination. May we wish the graduates of this and other years all success and prosperity.

Ken Fraser, Walter O'Donnell, Don Robb, Art Bird
Austen Macdonald, Brown Crosby, Editor; Lew Lawton.

Dalhousie Medical Journal

With the close of this term, the Dalhousie Medical Journal will have passed its sixth year as the official organ of the Dalhousie Medical Society. The founding of the Journal by a group of Medical students was undoubtedly an ambitious undertaking, but subsequent efforts have proven that their efforts have been well repaid. The Journal is in every respect the voice of the Medical Student Body; all the aspects of the Journal's activities are in the hands of the Medical students, who guide its destinies in all the departments of business management, advertising, and editorial policy. An advisory board is formed by a group of prominent Halifax doctors, and there is one graduate on the editorial staff. With the exception of one or two articles in each issue written by graduates, all contributions are from the Medical Student Body. It is a publication of which any Medical School may well be proud.

A great loss was occasioned the editorial staff by the resignation of Major C. M. Bethune, R.C.A.M.C. For the past three years "Tabby" has been Alumnus Editor, but pressure of other duties has forced him to give up this position. Dr. H. L. Scammel has kindly consented to carry on this work for the remainder of the year, at least. This particular department has been of great interest to our graduates in all parts of the world.

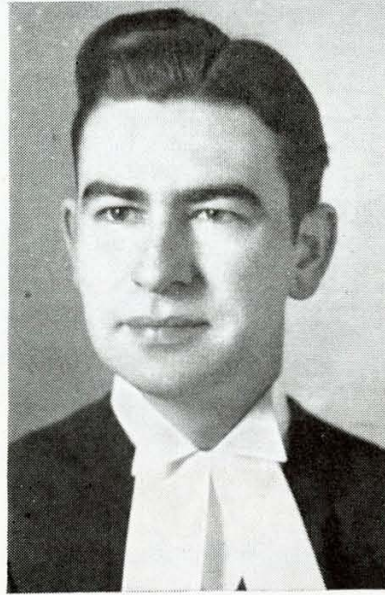

The students of the pre-clinical years have shown a greater interest than usual in this year's Journals, and many valuable contributions have been received from them. The senior men have continued their support as in the past, and have maintained a high standard in their literary efforts.

The circulation has been increasing steadily, and many outside points are reached by the Journal, mostly to graduates of our own Medical School. These subscriptions, together with the support given by advertisers, serve to make the Journal self-supporting, and financially independent.

For service to the Journal, either as a member of the staff or as a voluntary contributor, there is an award, consisting of a gold "D" and pine cone, which is given on a point basis. About eight students will receive this award at the close of the current session.

PHAROS

FRANK CORCORAN, President

The Law Society

Due to a decrease in the enrollment at the Law School this year, caused by the enlistment of many of the law students and prospective law students in His Majesty's Forces, the Law Society was smaller in numbers than it has been for quite some time. This numerical difficulty was made up, however, in no small way by the leading part which the Society took in campus activities.

The annual Law Ball, a perpetually shining example of what an enjoyable social function should be, was held at the Nova Scotian Hotel on Friday, Oct. 25, 1940, under the distinguished patronage of the Hon. Sir Joseph Chisholm, Chief Justice of Nova Scotia, and the Hon. J. H. MacQuarrie, Attorney-General of Nova Scotia. The committee, composed of Ed Disher (chairman), Peter Nicholson and Webster MacDonald, managed to produce a profit of four dollars, as well as a major social event.

The most venerable institution of the Law School, the Dalhousie Supreme Moot Court, was once again in operation this year, and the eminent jurists, the Lord Justices of the third year class, sat on the bench and decided seven regular cases, and one extra case concerning the heresy of a first-year student who was held in contempt by a full sitting of the Court. The committee, Delmar Amiro, Lawrence Hanway and Douglas Lyall, discharged their duties very well in a successful direction of the docket of cases.

PHAROS

Due to the lack of federal bills and material available for open discussion, it was decided with considerable reluctance that the Mock Parliament would not be held this year.

As usual, the Sodales Society drew from members of the Law School their star debaters for the intercollegiate debates. Delmar Amiro represented Dalhousie at U. N. B., and Walthen Gaudet took part in the annual debate with Mt. Allison.

Interfaculty sport was not lost sight of in this year's activities, and the Law School turned out strong teams for football, hockey and basketball. The team managers were Bus Phillips (football) George Piercey (basketball) and Sandy MacDonald (hockey).

If precedence governs social functions as it does the Law, the banquet in honour of the graduating class to be held at the end of the year will be a fitting end to another successful year in the life of the Dalhousie Law Society.

PHAROS

BOB BINGHAM
President

The Dental Society

1940-41 was a great year for the biggest little faculty on the campus. The Dental Society held its annual election early in October with Bob Bingham elected as president and Morse Nickerson as secretary-treasurer.

The major event of the year for the Dental Society was the annual banquet for the faculty and students at the Halifax Hotel in February. The banquet was a great success, being well attended by both faculty and students.

In the realm of interfaculty sports Dentistry showed up well in hockey. Softball had not as yet got under way at the time of writing, but if we live up to our former reputation, we should do very well.

The sudden passing of Douglas DeLong, whom we all respected and admired both as a classmate and friend, has cast a shadow upon this term. His passing has been keenly felt by the entire college.

A large number of the graduating class are planning to enlist in Canada's armed forces this coming year. The rest of us are carrying on with C. O. T. C. and military training.

So passed another year in the history of the Dental Society.

The Commerce Society

Since the arrival of Prof. Stewart Bates in 1938, the Department of Commerce has taken on new life. The appointment of Mr. Murray Rankine as lecturer in accounting, has been a popular one. Although registration in other faculties has fallen appreciably, there has been no drop in the Commerce enrollment.

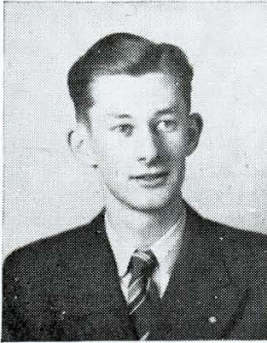

The activities for the year 1940-41 of the Commerce Society have not been numerous, but those entered into have been a marked success. The Campus social activities of the second term were ushered in with the Millionaires' Ball on January 7th. The annual Banquet, following on February 8th, maintained the traditions of the past.

This year, as usual, Commerce students have taken prominent parts in student activities, including: Students' Council, D.A.A.C., Gazette, and Sodales.

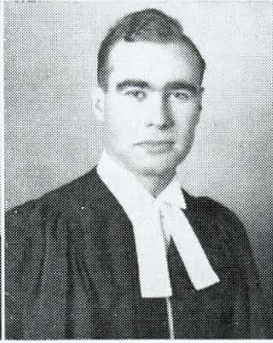

To those graduating the Society extends its best wishes for every success in the future.

The Dalhousie Amateur Athletic Club

The D.A.A.C. is the body entrusted with the regulation and promotion of student athletics at the university. Attention to the details of the task is the province of the Management Committee. That group, as in the past, has directed its utmost efforts to the furtherance of the purposes of its inception.

Those efforts, however, have, to an unfortunately large degree, been unavailing by reason of the handicaps under which they have labored. Firstly, at a conference of University heads during the past summer, the president felt himself obliged to subscribe to a resolution whereby intervarsity competition should be banned for the duration of the war. Secondly, the re-organization of the C.O.T.C. and the introduction of compulsory training for all physically fit students from the age of 18 and upwards has considerably subtracted from the time students have previously had available for athletic activity.

Both these facts have had far-reaching effects on the sports program for the year. In football, by reason of the aforementioned resolution, the senior team, not being able to play Acadia, played an interlocking schedule, the results of which, although not a repetition of our last year's City League championship, were highly commendable. As the highlight of the season, Caledonia, having accepted our challenge for the McTier Cup, were held to a three-all draw in a well-played match on Armistice Day.

The senior hockey team entered a three-team college service league consisting of St. Mary's, Tech and Dalhousie. The closeness of the scores are adequate indication how well-contested the games were.

Basketball, too, was greatly affected by the ban. Again an interlocking schedule proved to be the only solution. The success of the squad throughout that schedule amply shows the quality of our hoop talent.

The university is again well-represented in badminton and ping pong, both in numbers and quality.

Interfaculty sport has been given little support. The time available for it, however, has been very limited so the results are far from discouraging.

Throughout all our athletic activity our athletes have ever kept before them the twin ideals of sportsmanship and fair play and as gentlemen and sportsmen have been worthy representatives of the university.

The Council of The Students

To the Council of the Students is entrusted the handling of student funds, the organization of student activities and the initiation of enterprises which will be of benefit to the student body. In addition to this the Council is the intermediary body which bridges the gap between the Senate and Faculty on one hand and the students on the other.

Much of the business which comes under the care of the Council is ordinarily a matter of routine. This year the pressure of wartime conditions has been in evidence in its effect upon all student activities, so that routine business has been demanding unusual attention and prominence. The accomplishment of the year has been the adaptation of peace-time activities to suit wartime conditions.

The Annual Council Dance was held early in the fall term for the purpose of introducing new students to the social life of Dalhousie. It was a most successful dance. In the second term a number of students enjoyed the Council Skating Party, which was followed by a dance in the gymnasium.

The Council meetings at the first of the year were concerned chiefly with student finances. A decreased enrollment of students at the University, which means a decrease in student funds, made careful management of all expenditures necessary. The splendid cooperation of organizations on the campus in the matter of budgeting has made it possible to continue student activities with appreciable changes* due to lack of funds. In order that there might be no danger of expenditures exceeding income the Council introduced a mid-year check on its financial position by requiring that every organization present a financial statement at the beginning of the new year.

Early in the year the Council showed its hearty support of Canada's war effort by its decision to re-invest a thousand dollars of its surplus funds in Canadian War Loan Bonds. The proceeds of the first league game of football was donated to the Red Cross Society. This spring the Council endorsed and assisted in conducting a joint campaign for funds for the Red Cross Society and the International Student Service. The activities represent the response of Dalhousie students to the exigencies of the times.

The Directory which was published for Dalhousie students this year contained much useful information. The college songs and yells and the constitutions of University organizations provided a convenient reference book for old and new students alike.

At the present time arrangements are being made for procuring the use of, and possibly the possession of, a splendid pair of spotlights which will be added to the stage equipment available for use in the Gymnasium.

The Council has had particular reason this year to appreciate the cooperation and support of the student body. There have been no changes in the personnel of the Council, but during the year it has been necessary on several occasions to make appointments to fill vacancies which have occurred in various organizations. In every instance students have been found willing to offer their services when there was need.

The Council extends its thanks to all students and organizations for their support during the year, and its sincere good wishes for the success of our successors.

Glee Club

In recent years the Glee Club has presented a play for the freshmen during the first week of college, with a cast made up of Halifax Dalhousians. This year, due to the C.O.T.C. Camp session, in September, which took away all the available male Dalhousians the play was not presented. The Glee Club finally got under way with the Freshmen show. This show, which was a Musical Comedy, was directed by Mr. Graham Allen, a well known figure in Glee Club productions. It was a modern version of "Cinderella" written a few years ago by several former Dalhousie students. The snappy dances and songs were a good indication of the Frosh talent.

A few weeks before Christmas the three-act play for the year was cast and rehearsals started immediately after the holidays. This play "Spring Dance" by Phillip Barry differed from the plays usually presented on the Glee Club stage. It was a comedy of college life and the witty dialogue could make even the greatest sobersides smile. Mrs. Karl Clark was the able directress of this play and aided her players in portraying their characters well from the pompous Professor—"Mr. Beckett" to that irresistible lover, "Alex", the College Senior.

This play was presented one night for His Majesty's Army, Navy and Air Force under auspices of the Canadian Legion War Services, and the following night for the students and public.

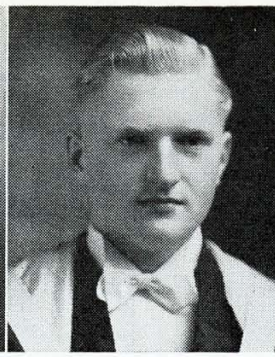

The Connolly Shield Competition for one-act plays is the current attraction of the Glee Club at the present time. One play "Petticoats Preferred" by T. B. Morris, has already been presented by Delta Gamma Society and there are also to be plays by Pi Beta Phi Fraternity and The Arts and Science Society.

The Munro Day Variety Show and Musical Revue winds up the activities of the Glee Club for this year. The Dalhousie Jazz Band, formed by talent from the Glee Club, will add to the festivities and rumor hath it that a bang up show will result.

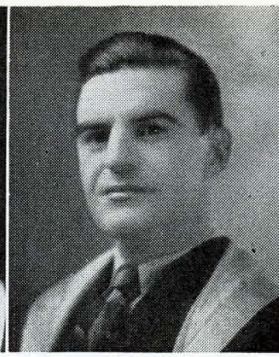

The stage crew and costume mistresses have given a great deal of time and energy toward the success of productions this year and the executives of the Glee Club wish to thank them and any others who have helped for their co-operation in presenting the shows successfully.

DELMAR AMIRO
Vice-President

Sodales

It is a matter of common knowledge that debating activities on the campus have been curtailed to no small degree due to the war. Although intercollegiate debating has thus far escaped the fate of intercollegiate sports (banned for the duration), the number of persons at Dalhousie actively participating in debates is very small. At the beginning of the term a survey of the student body revealed that only a half dozen male students had, at one time or another, represented Dalhousie in intercollegiate debates.

A great falling away of interest in this field of university activity was first noted some years ago. Compulsory military training has accelerated this trend. Trials have been very poorly attended and audiences at intercollegiate debates have been hard to find.

In view of these facts the executive felt justified in presenting a comparatively low budget to the Council of Students, involving, nevertheless, the pursuit of an extensive and ambitious program.

The Maritime Intercollegiate Debating League drew up a schedule at the beginning of the term. In November a Sodales team of A. W. Gaudet and Ted King represented Dalhousie at Mount Allison, supporting the negative of the resolution "Resolved that higher citizenship can be produced by government legislation." The judges voted two to one in favor of the home team.

A very successful M.I.D.L. debate was held at Fredericton on February 7th, between Dalhousie and U.N.B. The Sodales team of Ted King and D. J. Amiro lost a close decision to an experienced home team on the topic "Resolved that the times make the man".

Sodales completed its schedule of M.I.D.L. debates for the term on March 20, entertaining a visiting team from St. Francis Xavier University. Dalhousie supported the affirmative of the resolution: Resolved that the United States of America can aid the cause of world democracy more effectively by a policy of all aid to Britain short of war than by a formal declaration of war against the Axis powers. This debate proved to be one of the best presented here in recent years. The St. F. X. team was composed of Messrs. Philip Adams and Alex. MacDonald, of Bangor, Me., and Woburn, Mass. respectively. The visitors succeeded in convincing the judges and the small, but interested audience that the U.S.A. can better serve democracy by declaring war. For Dalhousie, Ed. Morris and Jim Stevens presented a very creditable argument in their first intercollegiate debate.

At the time of writing, the final of the Bennett Shield Debates is some days in the future. The Junior Class team, composed of John Windebank and Louise Bishop, will defend its last year's win against the freshmen team of Jim Stevens and Anita Rosenblum. These ever-popular interclass debates comprised the only intra-mural debates conducted this term. Proposed debates with Delta Gamma and the Newfoundland Club had to be abandoned.

The executive was in favor of entertaining a team from St. Thomas College, Chatham, N. B. in a return debate. Plans, however, have been postponed until next year.

The executive wishes to express its thanks to Professors Curtis, Richter, Bennet, Mercer, MacKay and Wilson, who have adjudged our trials, and to the Honourable Mr. Justice Carroll, Dr. F. G. Morehouse and T. H. Coffin, who served as judges in the debate with St. Francis Xavier.

PHAROS

The Dalhousie Gazette

Campus life at Dalhousie during 1940-41 is best recorded by the weekly issue of the *Gazette* which remains the most important organ of student interest and one of the very few means of maintaining unity among the scattered faculties of the university.

The World War had embarked upon its second year when Dalhousians returned to pursue their studies amidst a new atmosphere of compulsory military training. The first editorial of the *Gazette* adopted the policy of encouraging the students to think clearly and freely as true democrats, but at the same time to be ever mindful of the Defence of Canada Regulations.

The functions of the "oldest college newspaper in North America" were to provide its readers with well written news about the activities of campus organizations and individuals, and to maintain that high literary standard in the endeavour to satisfy all tastes: from "Pig-Sty" to "Beethoven and Idealism."

Midway through the term, pressure of studies in courses made heavier by military training, forced the retirement of the editor-in-chief and of the "exchanges" editor. The war showed signs of taking its toll, for what greater casualty could be inflicted at Dalhousie than "putting out of action" the vitally important life centre of college interest?

The new year witnessed a turning point in female aggression. In true "Sadie Hawkins" style, Jacqui Cahan and Rowena Benson threw themselves to the task of editing the *Gazette*—thus filling the gap left by the ever capable and brilliant John Windebank. The college weekly continued to roll from the presses. Pioneers were at work in a new wartime job for the so-called weaker sex. A few years ago it was considered quite a remarkable novelty for the girls to write and layout a complete "Co-ed issue." Present indications say that the boys will play an increasingly less important rôle in the publication of the *Gazette* as it carries on, much the same as before, but with the indefinable something added to it by the female of the species.

Delta Gamma Society

The purpose of Delta Gamma has been expressed very ably by a previous president as follows:

Delta Gamma has as its members all women students of Dalhousie University, and all women's activities come under its jurisdiction. These activities necessarily cover a wide range, as it is the purpose of Delta Gamma to make available to all its members all of the benefits of university life.

Delta Gamma sponsored the Royal Canadian Navy Band in a symphony concert in November in aid of the Canadian Red Cross. This concert was most successful and realized over two hundred dollars for an excellent cause.

Very shortly after the symphony concert we had our annual Community Chest dance. We regret to say we were not as fortunate as last year, but every contribution helps.

Under the management of Kay Robinson, Delta Gamma entered the one-act play "Petticoats Preferred" in the competition for the Connolly Shield. This play was something new for Delta Gamma to present, requiring Renaissance costumes and being written in blank verse. We are deeply indebted to our excellent director, Mr. J. L. Roberston.

The Intercollegiate debating team, under the management of Margaret Graham, was unable to debate with Acadia University but is to debate with Mount Saint Bernard in March.

In the absence of Intercollegiate basketball, badminton has become a more popular sport among the girls. Interclass basketball did not develop as we had hoped it would this year, probably because of the irregularity of practice periods.

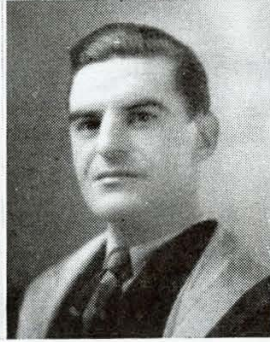

Delta Gamma is in charge of the 'Sadie Hawkin's Dance' this year. We wish to thank Major Hogan for his help in connection with the decorating.

Effective Speaking Club

The Effective Speaking Club was established as the Dalhousie Public Speaking and Parliamentary Procedure Club at Forrest campus in 1932. It has been an active campus organization for the past eight years.

With the passing of time the nature of the meetings has changed considerably and at present the club devotes itself entirely to public speaking.

At the beginning of the present season the club underwent considerable re-organization. Of the changes which took place, the chief were its removal to Studley and the admission of women to the membership.

A number of entertaining and instructive discussions, covering a wide range of topics were held during the year. Membership increased considerably and the future outlook is encouraging.

The club owes a great debt to Prof. G. E. Curtis for his kindly interest in its welfare and for his advice and instruction.

All students are invited to participate in its future activities.

OFFICERS DALHOUSIE-KING'S CONTINGENT C. O. T. C.

Canadian Officers' Training Corps

The purpose of the Canadian Officers' Training Corps at Dalhousie, from its inception in 1914, has been to provide qualified officers for the non-permanent active militia. That object has been, and is still being, realized.

The increased intensity of Canada's war effort, however, necessitated a re-organization of the university contingent. As a result, Lt.-Col. C. B. Smith, M.C. was appointed to command the unit on August 10, 1940. Prior to his appointment, on July 15, 1940, Major R. V. Hogan, C.R.O. North Nova Scotia Highlanders had been appointed Chief Instructor. On re-organization Captain R. L. Nixon and Lieutenant A. R. Jewitt were received on strength as Paymaster and Quartermaster respectively; Captain J. W. Merritt, R.C.A.M.C. still remained attached as M.O. and Lieutenant R. H. Murphy also continued on strength. Lieutenant Begg and Second Lieutenants Price and White were granted commissions in the unit. Officers of other units, who by reason of being students were attached for the training period include Lieutenants Jones and Chappell, Second Lieutenants Peake, Walker, MacDonald, Bauld, Tupper, Feindel, Keays, Milligan and Reardon. Second Lieutenant G. C. Piercey is also training with the unit. Since the beginning of the college year Lieutenants W. N. Wickwire and R. A. Ritchie have been attached to the permanent instructional staff and Major R. E. Balders, M.C., R.C.R. (Reserve) and Captains G. V. Douglas, M.C. and A. E. Ettinger, Halifax Rifles (Reserve) have acted as part time instructors.

The unit, at the present time, numbers some 228 members, a considerable number having been struck off strength on their enlistment in other branches of the services.

The training period extended from October 15 to December 10 and from January 10 to April 5. Moreover, following the closing of the university in May, the unit will proceed to camp for 15 days' intensive training in those fundamentals of infantry training to which their attention has been directed during the college year.

During the first term the training consisted of lectures on general organization, duties, map reading, field engineering, hygiene and sanitation, military law and both instruction and practice in infantry drill and the use of arms. For the second term the course of training prescribed includes organizations and administration, tactics, field engineering, infantry drill, and instruction in the use of arms. Throughout the year special lectures have been given those who have been selected to write the Common To All Arms and the Special To Arms Papers.

PHAROS

On December 15, 1940, some 38 wrote the "Common To All Arms" Paper: 11 were successful. On March 22 and 23, 23 candidates will write the "Special To Arms" Paper and those unsuccessful in the aforementioned paper will re-write it. Those successful in passing both examinations will take their practical examination during the camp period.

The contingent has appeared publicly on three occasions to date, namely, a route march on November 3, 1940, a church parade on November 10, 1940 and a church parade on January 26, 1941. It is expected that there will be at least another church parade this term. Plans are at present going forward to promote a contingent dance towards the latter part of March.

Generally speaking, the progress of the unit has been highly satisfactory. The transformation of a recruit into a trained soldier is a long and tedious process. Under the capable direction of the instructional personnel that alteration is proceeding steadily.

His Majesty has said: "These are grim days." More than ever there is need of leaders both in the present emergency and for the days to come. In the tremendous task confronting our Empire the universities must and will do their share. Dalhousie's contribution to the combined effort will be, as in the last war, one of which she may feel justly proud.

Auxiliary Training Corps

At a conference of the representatives of the leading Canadian Universities held in July last at Ottawa, a resolution was passed that all male students physically fit would be required to undergo compulsory military training.

On August 27, 1940, the Department of National War Services announced its regulations for the calling up of men for compulsory training under the National Resources Mobilization Act. These regulations provide that "a bona fide student of a recognized university or college, of the class or classes called up for compulsory training under the N.R.M. Act will be entitled to have his training postponed until the end of the College Session, provided he is undergoing compulsory training at his University or College."

The compulsory training of the students was left entirely to the discretion of each University and College. Following the said resolution and announcement the Senate of the University approved regulations whereby all physically fit male students, British subjects, above the age of eighteen years at registration were required, unless specially excepted, to take the afore-mentioned training.

As a result of these regulations a group of 240 students began training on October 15, 1940. It is stipulated that their training period during the college year will include 110 hours, and it is further provided that the University session will be followed by two weeks in camp.

The course of training prescribed was in accordance with the syllabus laid down for N.P.A.M. Training Centres. In general, the aim of the training has been to instill in the students the fundamentals of infantry training.

The task of such instillation fell to the C.O.T.C. Instructional Personal by whom it has been ably and efficiently supervised.

The aptitude of individual members of the group has been recognized as is shown by the fact that some twenty-four have been taken on strength into the C.O.T.C.

The students fully realize the privilege extended them whereby they are enabled to continue their studies and yet become active participants in the mobilization and training of Canadian man power. Therefore, they strive to indicate by their steadily increasing efficiency their gratitude for the privilege so extended.

LAWRENCE READ, President

Student Christian Movement

EXECUTIVE

President—Lawrence Read
Vice-President and Graduate Representative—Bernard Graham
Recording Secretary—Margaret Graham
Corresponding Secretary—Rowena Benson
Treasurer—Harvey MacHattie
Librarian—Helen Parker
Study Group Convener—Jacqueline Cahan
Social Convener—Elisabeth Littlejohns

The Movement began its activities this year with an informal freshman meeting during the first week of classes, at which a report of National Council was presented. This was followed by a fall camp conference during the last week-end in October, at which the main leader was Margaret Kinney, Associate National General Secretary of the Movement. Other meetings with graduates and under-graduates were held during Margaret Kinney's five-day visit in Halifax.

A series of fortnightly general meetings was started in November, at which either a special speaker or an open discussion was featured, followed by a social period. Several joint meetings of the student group and the Advisory Board have been held with a view to closer co-operation between the two groups, and a new joint budget system has been set up.

During the second term general activities have continued. A special feature was the celebration of the World Student Day of Prayer on February 16th by a

PHAROS

worship service, planned and conducted by the student group, in King's Chapel. Both students and senior friends were well represented.

Rev. Hugh MacMillan, National General Secretary, spoke in Halifax at the end of February, and Dr. Liston Pope of Yale University in the middle of March.

The Movement continues to co-operate with Dr. Bronson in the study of the "Records of the Life of Jesus". Another group on Fine Arts got under way in January. Plans for Spring Camp are as yet indefinite.

Midlothian Society

Honorary PresidentMiss Anna MacKeen
PresidentRowena Benson
Chairman of Refreshment Committee.....Mary Doull

Midlothian Society was founded in the Spring of 1927 by a small group of co-eds interested in reading and discussing modern literature. The name is significant both because of its association with literature and because the home of Lord Dalhousie was in the Midlothian country.

Membership is limited to fourteen active members and meetings are held once a week at Shirreff Hall. Each member prepares a paper or reviews a book at least once during the year. Miss MacKeen gave a very interesting address at the last meeting before Christmas. Arrangements are being made to have another special speaker at the final meeting in April.

The Dalhousie Band

The Band this year commenced its program with several practices in September, and appearances at the football games.

Early in the term, Major Hogan of the C.O.T.C., desired a college band for the university contingent. It was decided that new instruments would have to be purchased for a satisfactory military band. The request for new instruments is now receiving study, and it is to be hoped a favorable decision is reached.

Just after the new term began, a dance band was formed with most of the former band as members. Excellent progress has been made, and the revamped band provided part of the Munro Day activities. This double function of band and orchestra composed entirely of student talent is very commendable indeed and it is hoped that the new precedent will be maintained.

The Year in Sports

By DON BLACK

Sport at Dalhousie during the '40-'41 session was carried on with comprehensive programs in most fields in spite of difficulties arising from wartime conditions. When college opened in the fall the effect that military training would have on the time available for games and practices was unknown. Fortunately with the start of training the prospects for sport activity seemed much brighter. A ban on intercollegiate sports agreed to by the presidents of various universities meeting in Toronto in September also made prospects for any extensive program look dim. A reduced budget available for the D.A.A.C. was another black cloud that did not help the picture any.

The ban on intercollegiate competition however, did not seriously affect the major sports at Dalhousie. Arrangements were made in both the City football and basketball leagues in which the university has always participated so that Dal teams would not have to meet Acadia. The intercollegiate boxing tournament was cancelled and Dalhousie entered no intercollegiate playdowns in any sport.

As for the interference with practices due to military training, the major teams found time and opportunity to work in enough play to be able to give a good account of themselves. The managers of the teams found Major R. V. Hogan very cooperative in the securing of players for various games, when the time set for the contests clashed with the training hours.

The football team was the first to start sport competition for the year. Dalhousie participated in the City League with Navy, Acadia, Aldershot, Truro and Wanderers. A satisfactory schedule was arranged so that the Tigers would not have to meet Acadia. The team won four of six games and stood second in the league at the conclusion of the series. Acadia won the League title, but fell before Caledonia in the McCurdy Cup game.

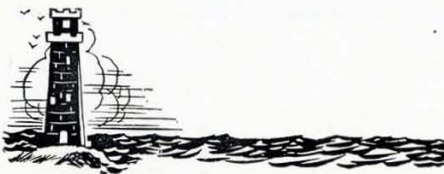

The sports event of the year was the McTier Cup game with Caledonia which the Tigers missed winning by the smallest possible margin, a 3-3 tie.

The Cubs played good ball during the season and came out of a local intermediate series with two wins in five games.

Hockey started before Christmas with a new league being organized as the College Service Hockey League including Dal, Tech and St. Mary's. Dissolution of the city intermediate league caused the formation of the new loop.

Although offered stiff competition the Santamarian sextet ran through the schedule undefeated to take top honors for the season.

The prospect of a successful basketball season appeared very bright at the beginning of the season with all of last year's squad except one, on the campus.

PHAROS

Coach Ralston has woven together a smooth-working combination of vets and newcomers.

The league is composed of teams from Dal, Acadia, Navy, Army and Grads. Navy and Dal proved themselves the pick of the league and at this writing have capped playoff positions.

Dal also entered a strong team in the City Intermediate League.

Interfaculty sport received more attention this year, due to the restriction on intercollegiate sport. Competition in football, hockey and basketball leagues has been pushed forward by D.A.A.C. vice-president Bob Blois. A softball league was also formed.

The professional schools seem to have gathered most of the interfaculty honors with Law taking basketball and Medicine garnering the title in football and hockey.

There was no activity this year in swimming, boxing, wrestling, track or soccer, mainly because of lack of time under present conditions.

Although plans were made in the fall as regards a university tennis tournament, they failed to materialize. There was some tennis played, however, and the net star on the campus kept in practice.

The game that showed the most improvement during the year and actually flourished where others wilted in adverse conditions, was badminton. Prof. C. H. Mercer was successful in organizing two leagues and operating both satisfactorily. This has not been possible heretofore. Dalhousie A and B teams made excellent showings for themselves and seemed destined to enter the finals with the Y.M.C.A., Y.W.C.A. and Air Force squad. More students turned out for this game than in any previous year.

Ping-pong, another game easily worked into a crowded time-table flourished under the new sport conditions with two tournaments being played during the session.

The various minor sports carried on by the students were sparsely patronized with the military program taking the place of fencing, tumbling, archery, handball, etc.

Looking back over the year in sport just concluded, we are able to understand the feasibility of a moderate sports program, as compared with pre-war conditions. On the other hand we realize that there are some loopholes in the present system that are self-evident, that could be remedied without injury. We feel sure that these weaknesses will be eliminated as a result of the experience gained this year.

SENIOR FOOTBALL TEAM

Russ Weber, Sig Neilson, Bert Vail, Norm MacRitchie (Capt.), Web Macdonald, Charlie Burke, Burnie Ralston (Coach), Bill Martell, John Jefferson, Dewar MacLeod, 'Dooley' MacIntosh, 'Yank' Forsythe, Jim Feindel, Bus Philips, Lawrence MacIvor, Lew Sutherland.

Senior Football

JAMES G. MacLEAN, Manager

The 1940 Tigers started the season with four of last year's team, but soon filled the gaps with fresh material. To this setback was added another—only two or three practices were possible each week due to military training at noon. In spite of this and the usual toll of injuries they made a very good showing.

The league was made up of eight teams and as a result of the agreement reached by the Presidents of all Canadian Universities that there be no intercollegiate sport, we did not play Acadia. Dalhousie finished second on a percentage basis and then challenged Caledonia for the McTier Trophy, emblematic of the Championship of Eastern Canada. This game ended in a 3-3 draw.

Following are sketches of the Dalhousie players—1940:

Russ Webber—Fullback, weight 177. This is Webber's first year at Dalhousie. Last year he played several games with Wanderers' and while in high school played with Halifax Academy.

"Jo-Jo" Feindel, weight 165, wing three-quarter. "Jo-Jo" calls Bridgewater home and for the past three years has played on the three-quarter line for the Tigers. Before coming to Dalhousie, Feindel starred with Acadia Axemen.

John Jefferson, weight 163, centre three-quarter. This is Jefferson's first year with the Dalhousie team. Last year he played with the King's collegians. John comes from Bear River, N. S.

Alec MacIntosh, weight 160, inside three-quarter. "Dooley" comes from Sydney and this was also his first year with the Tigers. He played with Mount Allison for two years.

Sig Neilson, weight 185, wing three-quarter. Another former Mount A. player. Neilson was one of the outstanding additions to the Dalhousie team this season. A former Olympic sprinter Neilson has turned his talents to football and his many spectacular runs were responsible for many a Dal score. This is Neilson's first year at Dalhousie and his home is in Plaster Rock, N. B.

"Yank" Forsythe, weight 155, outside half, comes from Long Island, N. Y. Forsythe is fast and tricky and played his first year in senior company. Last season he played with King's College.

Charlie Burke, weight 170, wing forward. Burke is also a former Mount Allison player and played his third year with the Tigers. Charlie always plays a steady and aggressive game. His home is in Loggieville, N. B.

Jack Ferguson, weight 160, picking quarter. Jack is a Halifax boy and learned his rugby at the Halifax Academy. This was his first year at Dalhousie and he plays a heady and fast game.

Web Macdonald, weight 176, tailup. Macdonald was another former King's player. This was his second season with the Dalhousie senior squad. His home is in Kentville.

Lou Sutherland, weight 178, tailup. This was Sutherland's first year with the Tigers and he more than held up his reputation gained from the two years experience with Fred Kelly's Acadia Axemen. Sutherland's home is in Lockeport, N. S.

Norman MacRitchie (captain), weight 210, centre lock. Big and fast, Norm was a powerhouse for the Tigers. As in other years Norm distinguished himself this year with his long accurate kicks. His home is in Sydney.

Bert Vail, weight 175, ventre lock. Another hard worker who also comes from Sydney. This was Vail's second season with the Dal squad.

"Bus" Phillips, weight 175, front line right. A Halifax boy who learned his rugby with the Halifax Academy. This was his third year in senior company. Phillips shared the kicking duties with MacRitchie and was particularly accurate on the shorter kicks.

Lawrence MacIvor, weight 160, centre heeler. MacIvor was another newcomer to Dalhousie and a very welcome one. He played with Acadia for two years and his home is in Glace Bay.

Ian MacGregor, weight 155, front line. This was MacGregor's first year in senior company. He started rugby at the Halifax Academy and has played on several Dalhousie intermediate squads. MacGregor is a good hooker and is very aggressive.

INTERMEDIATE FOOTBALL TEAM

Hockey Team

"SANDY" MacDONALD, Manager

This season Dalhousie entered the newly-formed College Service League comprising St. Mary's and Technical College. Owing to wartime regulations restricting intercollegiate competition this league was organized as a substitute.

From the point of view of games won and lost the season has not been a successful one, yet the men who played on the Tigers squad of '40-'41 deserve commendation for their fight and good sportsmanship.

The hockey set-up at Dalhousie is by no means an enviable one and a quick glance at the situation reveals the dire need of a college rink. To many this may appear as a large undertaking, yet when one considers the amount expended each season for hockey practices alone (altogether too few for the welfare of the team) he would readily conclude that it is by no means an obstacle that cannot be hurdled. This term the strides taken have been of a preliminary nature, nevertheless the seed has been sown and there is no doubt in the mind of the writer that the goal shall be attained if fostered by one and all.

To Coach Ralston, already burdened with many other coaching responsibilities, went the onerous task of guiding this year's team. We extend many thanks.

PHAROS

The following is a brief sketch of the '40-'41 edition of the Tigers:

Bain Munro—Reliable and steady goalie playing his third year with the Tigers.

Webbie Macdonald—Left defence—a smashing player who gives recklessly and takes gamely—second season with the Tigers.

Ken Mitchell—Right defence—the pride of the Harbour town—an effective blocker at his best when the going is tough.

Bruce Hotchkis—Defence—another expert in the science of “knocking 'em down” and “dragging 'em out”—a King's import.

Gordie Wilson—Centre—star member of last year's H.C.A. Championship team—he's lost none of his effectiveness with the Tigers.

Martie MacDonald—Left wing—team captain—a dangerous puck carrier and scoring threat—a sophomore with the gold and black.

Alex “Dooley” MacIntosh—Learned his hockey at Mt. A., playing his freshman year with the Tigers—works effectively both up front and on the rear guard.

Dave “Versatile” Doig—A clever playmaker who finds time to star in hockey as well as golf, basketball, badminton, and ping pong.

Bob Blois—Left wing—H.C.A. product and second year man with the Tigers—a speedy and aggressive forward.

Johnnie Mullane—Right wing—a Tiger veteran who still carries the mail along the right boards—packs a wicked drive.

George “Duke” Corston—Right wing—student council prexy who takes time off from his other duties to make the red light flicker—another Tiger veteran.

Russ Webber—Left defence—second graduate from last year's H.C.A. team—a stalwart bumper and smart puck carrier.

Willie Kapak—utility—“Wasy!” added the western touch “a la Joe Benoit” to the Tigers.

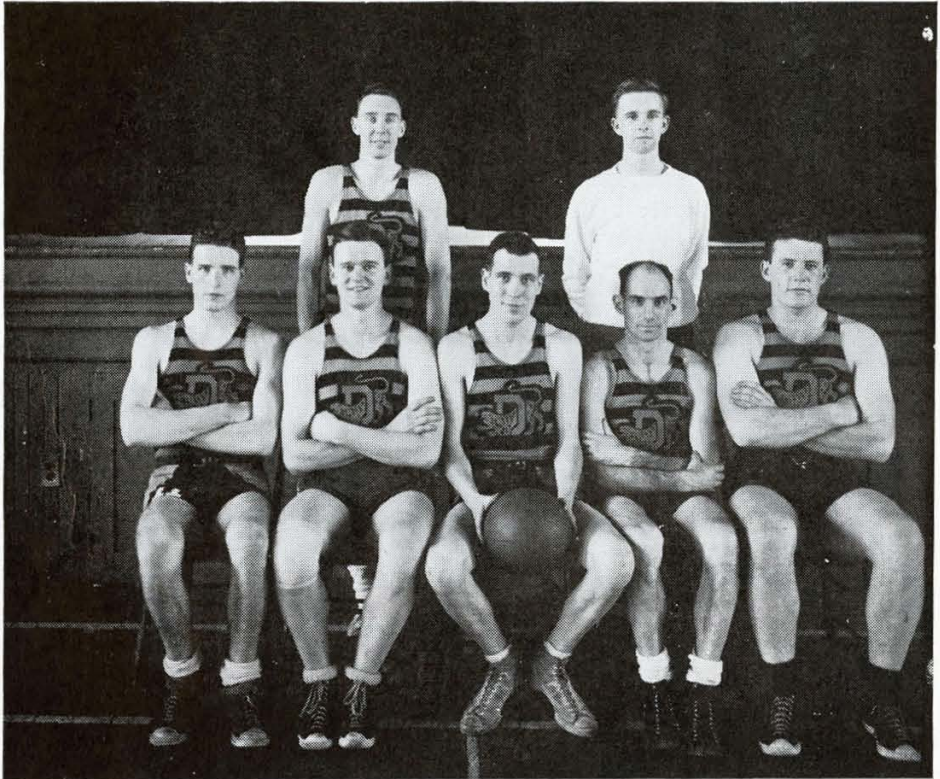

Blanchard Wiswell—utility—a fast skater with plenty of promise.

Don Warner—still another H.C.A. man—as a sound custodian Don bids well for next year.

PHAROS

SENIOR BASKETBALL TEAM

Jack MacKenzie, Dave Doig

Al MacLeod, Mike Smith, Ben Wilson, Johnny Martin, Norm MacRitchie

Basketball

AL NICKERSON, Manager

This season Dal. entered a basketball league with teams representing the Navy, Army, Acadia, and a local team masquerading as Dal. Grads. Many an exciting battle was fought to the accompaniment of bruised bodies and bloody thoughts. In this day of blitzkrieging who can deny the benefits experience! in a rugged, fast breaking, quick thinking game of basketball. This aspect of the game was clearly exemplified many times during this season's schedule. At the time of writing the Navy quintet's method of blitzkrieging has proved to be the most effective with Dal. running a close second.

SENIORS—

MARTIN:

5 ft. 9½ ins.—150 lbs. Formerly played for Cranston High and Brown's College. Fifth season with Dal Seniors. Easily recognized by his snappy passes and accurate shots.

SMITH:

6 ft. 1 in.—200 lbs. Played at Liverpool High and Mount A. Third year on team. Reliable guard and hard to score on.

PHAROS

MacKIMMEE:

6 ft. 2 ins.—180 lbs. Formerly starred for Sydney Academy and Acadia. Third year on team. Good playmaker and all-round man.

MacLEOD:

6 ft. 2½ ins.—180 lbs. Played with Mount A. and joined the Tigers this year. Uses height to great advantage and is a prolific scorer.

MacKENZIE:

6 ft.—156 lbs. Came to the Cubs from H.C.A. and has played one year with the Seniors. Has a fast break and is a hard worker.

SEAMAN:

5 ft. 8 ins.—165 lbs. Fourth year on team. Formerly with Liverpool and Mount A. Plays a heady game and is well up in scoring.

WILSON:

6 ft. 1½ in.—165 lbs. Second year on Dal Seniors. Formerly with Bloomfield and Acadia. Current choice for All Star City Team. Well known for his fast breaks and accurate shooting.

MacRITCHIE:

6 ft. 2½ ins.—225 lbs. Played with Mount A. and King's. A tower of strength for the past two years on the Dal. defense and recognized for his good all-round play.

Badminton

JACK MATTHEW, Manager

During the past year interest in badminton has been at a very high level. Despite the reduction in the time available for badminton, the increase in the number of players and their enthusiasm made it possible to support two teams. Both the "A" and the "B" teams have been highly successful in their respective leagues and all the matches have been marked by keen competition and good sportsmanship.

At the start of the year, it was felt that the services should be represented in one of the leagues. After an unsuccessful attempt by the Navy to get up a team, the Air Force was approached and they brought forth an enthusiastic team. Each week these R.C.A.F. racqueteers displayed the same fighting spirit in their friendly encounters with our badminton teams that their brothers overseas have shown against the Nazis. The result has been some very closely contested matches.

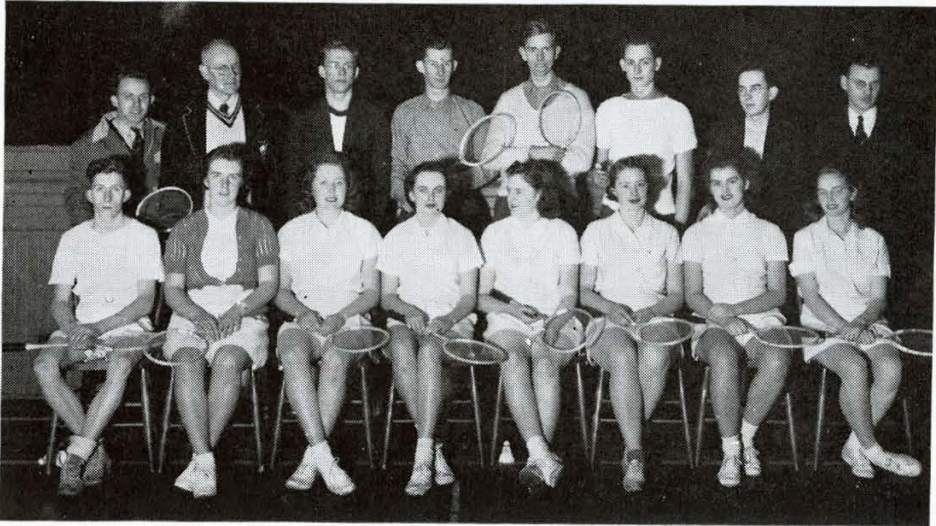

PHAROS

Besides these matches, many of our ardent badminton enthusiasts took advantage of every opportunity that was available on the gym courts to indulge in friendly practice games. A students' tournament is well underway to decide the University Champions in the two singles and three doubles events. The present champions are expected to encounter some heavy opposition as many of the challengers are confident that at least some of the trophies will have been won from the present holders when the finals have been completed.

Much of the success of Dalhousie's badminton teams has been due to Coach Clyde Sperry and Professor Mercer, the former for the capable assistance he has given to his eager protégés, and the latter for his untiring efforts to keep badminton the most popular sport at Dalhousie. To both these men the management and students wish to extend their gratitude for such hearty co-operation.

BADMINTON "B" TEAM

John Moore, Prof. Mercer, Jim Farquhar, Bob Blois, John Misick, Jack Matthew, manager;
Mac Creelman, Clyde Sperry, coach.

Frances Webster, Betty Bird.

PHAROS

What does Physical Education at Dalhousie Offer?

By BURNIE RALSTON

FIRST, possible improvements in health by encouraging personal participation in wholesome big muscle activity. Athletic sports and games, dancing, rhythmic calisthenics, club swinging, swimming and similar activities influence the body functions, stimulating and satisfying muscle hunger. These activities improve strength, endurance and vitality.

SECOND, it teaches many individuals skill, in a variety of activities, which afford immediate use while being learned. With this in mind, the required program for Freshman Physical Education offers an opportunity for individuals to elect a variety of team game activities such as soccer, football, basketball, hockey, track and field, softball, etc., which are based upon instruction in skills as a means of physical development and of building muscle coordination during the formative years.

THIRD, the Department also offers a wide variety of activities of carry-over value for recreation during middle life. These include golf, tennis, swimming, volleyball and badminton. Participation in these activities are required, not solely because of their importance as a recreational opportunity for middle life, but because of their value as a means of teaching social efficiency. Confidence which comes from self-mastery from acquired skills, in physical activity, helps to overcome inferiority complexes and self-consciousness. Many individuals crave the skill to take their places as equals in golf, tennis, swimming, badminton and other sports. The Physical Department accepts this challenge and with

sympathetic and competent instruction endeavors to equip individuals to become competent in a variety of carry-over or social skills.

FOURTH, an ideal program should offer instruction and opportunity for participation in activities desired by the students. By means of a questionnaire we find out how many of the freshman class have previously taken part in some form of big muscle activity prior to entering college. The questionnaire list designate the choice of the students who have expressed the desire to avail themselves of the opportunity to receive instruction in the various Carry-Over-Value activities and social sports offered by the Department.

Physical Education for Women at Dalhousie

By PHYLLIS WRAY BARRETT

This winter some progress has been made in the educational system in Halifax schools. Physical education is to become a normal regular part of the curriculum. In a few years, Dalhousie University will feel some effects from this step.

At present, with the exception of private school students, those entering Dalhousie have not taken part in physical activities as an integral part of their education. For the last four years, Dalhousie women students have been required, for somewhat less than seven months of their first year, to take two periods of physical activity a week. On entering their second year, the majority have breathed deeply, and, while approving in theory of physical education, have thanked the kind authorities that they are not required to actually put their beliefs into action. This is perhaps a not unnatural reaction; for when one is required to do so many things to call oneself educated, it is good to be relieved of one compulsion. Thus does health become a theoretical subject for the majority, to be talked about and to know about, but not really in the sphere of actual living. Only when health is lacking or poor does it become a real thing.

What changes the introduction of regular physical activity into the schools will have on Dalhousie students will be seen some years from now. Meanwhile a minority takes advantage of the facilities at Dalhousie.

This year of 1940-41 has been relatively active. In the fall first year women took lessons in tennis and golf, played a little ground hockey and attended gym classes. In the post Christmas term they played basketball, badminton, and took gym and dancing classes.

Badminton is the most popular activity among the girls, forty-one percent of all women students have played badminton with some consistency this year.

Basketball has a group of strong supporters. Fifteen percent of women students played basketball this winter. The Intercollegiate League did not function due to the 'no-intercollegiate sport agreement.' Occasional games with outside teams were played, and the game-supper arrangement proved extremely successful.

In addition to the freshettes gym classes there were classes for the older students in gymnastics and apparatus work.

The D.G.A.C. executive have planned a night of dancing and folk dancing, gymnastics and sports, as a demonstration of the activities that are sponsored by the Girl's Athletic Club. Some of the practices have been enjoyable and have aroused enthusiasm.

This demonstration of Dalhousie Women's activities will close the year. The committees have been planning much and working hard to make it a success.

This year first-year women are taking a course in Health Education. It is part of the required course in Physical Education and should prove of value in correlating the sciences with personal healthful living.

GIRL'S BASKETBALL TEAM

Rose Goodman, Reta Harrison, Chris Arklie, Phil Wray Barrett, (coach)
Helen Levine, Mary MacKeigan, Ruth Graham, Kay Smith, Kay Hicks.

Co-ed Basketball

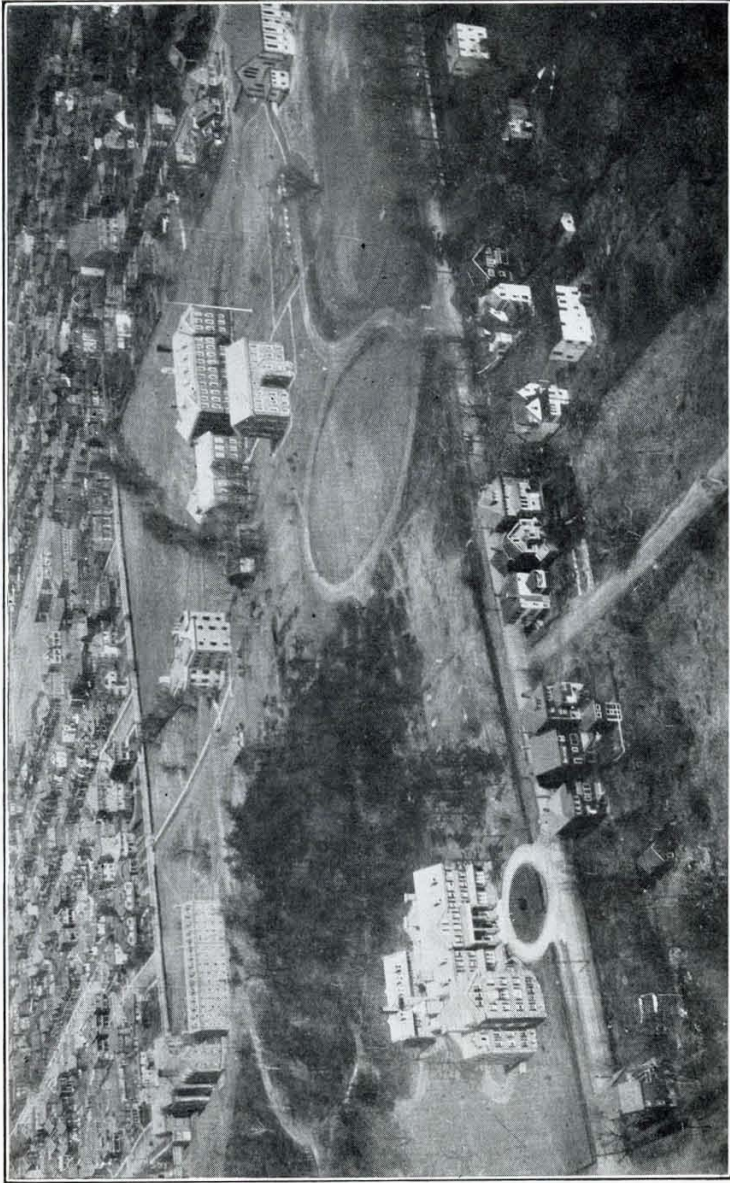

ROSE GOODMAN, Manager

This year the Dalhousie Girls' Basketball team has not participated in the Intercollegiate League. This, however, does not mean that the girls have lost interest in this major sport. An interclass league of five teams has been formed and girls have turned out with keen enthusiasm. Besides the interclass games we have played the City League—consisting of the Y.W.C.A. team under the able management of Miss Kay Cummings, and an undergraduate team from the Halifax Academy.

The official team chosen by Mrs. Barrett is as follows:

Mary MacKeigan, Jerry Hart, Carley Sullivan and Anita Rosenblum as forwards, and Kay Smith, Kay Hicks, Barbara Schwartz and Inez Smith, as guards. In this lineup we have three new members who are playing for the first time on the Dal team and are showing great ability. These are Kay Smith, Jerry Hart and Anita Rosenblum.

The Basketball girls and myself wish to take this opportunity to thank Mrs. Barrett for her splendid work and encouragement in coaching the team.

*For service rendered
They reap their due reward.*

Awards . . .

PHAROS

JIMMY MALCOLM

The Malcolm Honour Society

In the summer of 1903 James Malcolm, a graduate in Arts that spring, gave his life in a heroic attempt to save a drowning comrade. Those who knew him realised that such a death was a fitting close to a life of unselfish service to others. To keep the ideals of Jimmy Malcolm before the eyes of all Dalhousians, the James Malcolm Honor Society was formed. As members of this society are chosen those of each year's graduating class who, in the opinion of fellow-students have shown, in the proper degree, the spirit which inspired his life. Its award of a small gold key is the highest honor which can be conferred by Dalhousie students on one of their number.

The Malcolm Honour Award

CLAYTON HUTCHINS

It is not often that a student at this university comes so close to exemplifying the qualifications required by the Malcolm Honour Award as does Clayton Hutchins. Versatile and capable in every way, his likeable personality has made him the unanimous choice of the Award Committee. A leader in his law classes, president of the D.A.A.C. and a brilliant athlete in his own right, his character epitomizes the requirements for an award winner, viz. a sportsman, a scholar and a gentleman. More than any of these definite qualities, there is an intangible something, (call it moral force, or 'character', or what you will) that 'Hutch' has, that makes him the logical person for the award.

Dalhousie is grateful for what you have done, Clayton, and will watch your future with deepest interest.

GEORGE PIERCEY

Smith Shield

The annual Smith Shield Competition was held in the Dalhousie Moot Court Room on Friday, February 28th, at 8 p.m. The competition, meeting in the nature of an appeal from the Supreme Court of Nova Scotia en banco, to the Supreme Moot Court of Dalhousie, sitting as the Supreme Court of Canada. The case on appeal being the recent Nova Scotia decision in *Re Mailman* (1940 2 D.L.R. 721).

Counsel for the appellant were G. C. Piercey of Halifax, N. S., and H. MacAdam of Margaree Harbour, N. S.; D. J. Amiro of L. E. Pubnico, Yar. Co., N.S., and F. Corcoran of Moncton, N. B., appeared for the respondents.

The high regard which this competition, established in 1920 by former Dean of Dalhousie Law School, Sidney E. Smith, then Associate Professor, enjoys in the legal profession is shown by the willingness to help of those who so ably composed the Court: Chief Justice the Hon. J. H. MacQuarrie, J. Gordon Fogo, K.C., and J. Wilfred Godfred, K.C., Associate Justices.

Their Lordships expressed satisfaction with the way the case was handled by all participants, awarding the decision to the appellants, and selecting George Piercey and Frank Corcoran to have their names inscribed on the Shield.

Bob Walter Memorial

The Dalhousie Engineering Society has this year instituted an award to perpetuate the memory of Bob Walter, who died in a hunting accident in the Fall of 1940. Bob was one of the best loved students at the University and his great qualities of leadership made him stand out among his fellows. He was a fine sportsman, helping many Dalhousie teams to victory. He had a magnetic personality, a keen sense of duty, and gave unselfishly of his time for the benefit of others. Bob held numerous student offices, including a seat on the Students' Council for two years, and in 1940 was President of the Engineering Society.

The award consists of a gold "E", with an engineer's transit, and is to be awarded annually to the member of the engineering graduating class whose qualities most resemble those of Bob Walter.

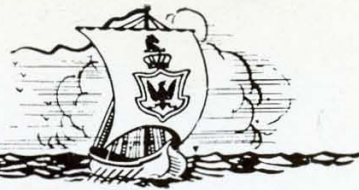

We are proud to announce that the first award goes to Bert Vail of Sydney, N. S. Bert came to us in the Fall of 1937 and immediately showed his skill on the football field. Bert has played senior football for four years, intermediate basketball for three years, and interfaculty hockey.

This year Bert was made engineering representative on the D.A.A.C. and is secretary-treasurer of the society, using much of his time in efficient service for the engineers. Best of luck, Bob, in your electrical engineering career.

Panhellenic Award

The Panhellenic Award was instituted three years ago and is presented by the two women's fraternities on this campus, Alpha Gamma Delta and Pi Beta Phi. The award is made to the most outstanding freshette in scholarship, extra-curricular activities, personality and character. This year the Panhellenic award committee conferred the honor on Helen MacKay, of Pictou, Nova Scotia.

King's College Kaleidoscope

Freshmen were the first interesting event of the year at King's. The upper classmen's greatest pastime for the first week or so is meeting the self-centered newcomers and forming opinions of them. The year's entertainment began with theatre parties, tours of the city, and informal dances held for the benefit of these latest arrivals to the family. Then the fun was over and the verdant neophytes were subjected to the actual initiation.

A few days after this event the freshmen and the sophomores together, as is the custom, sponsored the first formal of the year, the Freshie-Soph dance. Under the management of Doug Miller it turned out to be a lively party. During the month of October two very fine teas were held. The first was given by the Alexandra Hall co-eds in honor of the Frosh; the second, The President's Tea, was one by which President and Mrs. Walker welcomed the students to their new year at the University. On Hallow'en the usual old clothes party was held. Music was supplied by a six-piece orchestra from the city and was very appropriate for the occasion. Entertainment for the term was brought to a close by the approach of the Christmas examinations, but before this the November Formal was held. As a result of the efforts of a committee headed by Edison Lane this dance will go down as one of the best Student Body hops for many years. Students and ex-King's men alike enjoyed a perfect evening with the music of Jerry Naugler. For the next two or three weeks revelers turned into book worms and all was quiet.

PHAROS

The sixth of January saw the return of students from all parts of the Maritimes as well as a few from more remote points, to begin the final term of the college year. It was decided at a Student Body Meeting to have a sleigh drive as well as the customary January Formal Dance before Lent. The sleigh drive took place on January 24. After a couple of hours in the outdoors the party returned to the Haliburton Room for lunch and dancing. This was a novel affair for many, and although the sleighs were a bit crowded, everyone seemed to enjoy themselves. A week later tuxedos and evening dresses were donned and Kingsmen, after shoveling all afternoon to clear the snow from the driveways so as to enable taxis to enter, spent an evening dancing. It was the January Student Body Dance which, under the direction of Ted Retty, proved very successful. During lent, spirit was kept alive by the presentation of a one-act play, followed later by a co-eds' debate. In the last of February, the King's Dramatic Society produced A. A. Milne's one-act comedy "Urzel-Flummery". Parts were played by Joy Morison, Edith Moore, Ted Retty, Alfred Forsythe, and Bill Bishop. Further entertainment for the evening was provided by musical solos and a sing-song. In the middle of March the University of New Brunswick Co-eds' debating team visited King's College. After the debate, which was witnessed by a large number of students, a reception was given for the visitors at Alexandra Hall.

As the Haliburton Club meets once a fortnight it is probably fitting to mention it separately. The Club opened for the year on October 5th, with a business meeting. Two weeks following the first regular meeting of the organization was held. As is the custom a number of interesting papers were given on various topics. These were followed by musical entertainment and refreshments. The evening was closed by toasts and the traditional "Auld Lang Syne". Similar meetings were held throughout the year. With the annual dinner in Encaenia Week the Club closed for the 1940-41 season.

As the Year Book goes to press, many of the year's outstanding events have yet to take place. Extensive preparations have been made for Convocation Week with its grand finale, the Encaenia Ball is generally conceded to be one of the stellar social events of the city.

Autographs

Thank you!

To all those who by their untiring effort and willing support made possible the publication of this 1941 *Pharos*. Special thanks is due to W. R. MacAskill for his generous contribution of pictures which enabled the nautical theme of this book to be carried out.

To the advertisers, to the various photographers, the photo engravers and to the publisher, we are indeed grateful.

In conclusion, we should like to pay tribute to that vast and unacknowledged body of workers who by their contribution, however small, aided in the creation of this book.
