

March 18/94

D. J. H. Raddall

Medications: - Will see

Meals: Breakfast - at hospital.

Supper - Lobster & Rice Ice Cream

Remarks: Dr. J. to come home from the hospital to-day! Karen & I here till 10:30. Then Iris has the pleasure.

Dr. R had a small B.M. when I arrived at 3:00. Iris showed Marion everything & showed her how to clean Dr. R when he has a B.M. ate supper at 4:30.

Tom & Pam stopped in for a quick visit while Dr. R was eating his supper.

1 Gluconate
1 clavulin
1 cystatec
1 Ducosate } Dr. R took these pills
at 5:00. (Great!)

Karen Clattenburg

P.S. I forgot to tell Karen about chair leg = "Tom is unaware of the chair leg." Iris

March 18/94.

Meds. Novatriolam I @ 11:45

Dr. McCrossin came to visit Dr. R. at 6:45 P.M. says he'll drop in again tomorrow if he has time.

Dr. R. watched T.V. and slept on + off most of the evening.

Dr. R. informed he does not go to bed until 12:00 P.M.

Dr. R. told me a story before he went to bed.

Iris Harlow

Dr J. H. Daddall

March 19/94

12-500 . Relieved Iris at midnight Dr R. had just retired. He seemed a bit restless. I expect it will be a few days before he gets used to someone being with him constantly.

He fell asleep around 12:30 am but his breathing is punctuated with a coughing spell at regular intervals - 10 times till 2 am. He kicks off the covers too, but seems otherwise comfortable.

3am adjusted his covers again. He's awake but comfortable. - more comfortable after changing position from his back to his right side - much congestion in his chest though.

5:30 am He's very much quieter since he moved to his side - just the occasional cough now.

6:30 am Another day. Dr R. still sleeping soundly. 6:40 Dr R. called me in to assist him with a glass of water to get down 4 aspirin tablets. He was quite insistent but I'm not comfortable with this since I don't observe that it's part of any standard routine. That's 1300mg of ASA. He says he'd like to snooze a bit longer. It's early yet anyway. 7:30 Time to wake him and get him ready for the day.

Jamie MacNeil

March 19/94

Dr. J. H. Raddall

8 AM - 4 PM

Arrived 7.30 to get in the swing of things. Made his breakfast. 2 toast, 2 scrambled eggs, 2 apple juice, 1 coffee. He ate it all. Then he took his pills - CLAVULIN, CYTOTEK, FUROSEMIDE, ENALAPRIL. Did dishes, swept floor.

10 o'clock a big BM. We made out fine. WOW! Dr. Raddall is comfortable and reading. I have a wash on the go. Bed is made.

12.45 - Needed a B.M. and then got very sick - threw up about 5 times, sunny stool & urinated, nose running constantly, got him cleaned up but he was too weak to get up. Iris came & Benny & got him into bed. He is very weak.

2 o'clock - Dr. Woodford came and said there is really nothing he can do and if he throws up again Dr. will give him Gravol, suppository. There's a flu bug going around the Dr. said but hopefully its not the flu.

Resting comfortably.

Marion Nauss

March 19/94.

4-12

Meds. : Tylenol ii @ 5:00 P.M.
Novotriolam i @ 11:45 P.M.
Docusate i @ 11:45 P.M.

- Dr. McCrossin was in at 4:45 P.M. he ordered Tylenol ii every 4 hrs. until Dr. R.'s temp goes down.
- Dr. R. slept well from 6 till 7:30 P.M.
- I gave Dr. R. another bed bath at 8:00 P.M. and he seemed more alert and comfortable. We cannot get his pillow comfortable.
- Dr. R. asked for and ate 2 dishes of icecream at 7:30 + 8:30 P.M.
- Dr. R. had small B.M. (some liquid + some hard stool) at 9:30. It was difficult to get him comfortable in his bed again.
- Dr. R. took P.M. meds. and said he hopes to sleep to-night.
- I had a very busy evening.

Jill Harlow

March 20/94

Dr T. Raddall

12 am: Released Iris at midnight Dr R still awake. I gave him 650mg of plain Tylenol for his fever. He still sounds quite congested. I've left him to his rest.

2 am Dr R sleeping but not too soundly.

4:30 am Still coughing quite regularly.

5:40 am Dr R called me to help him into the commode. Small B.M. cleared him up and then back to bed. He's very thirsty so at least he's getting lots of fluids.

Still very congested in his chest though. Approaching 7 am and I'd soon have to wake him up to bathe him. We had a fairly uneventful night.

8:40 Scrubbed & powdered and ready for the day. I've turned his bed up and given him his glasses. He still feels a bit warm but not too bad.

Have a good day!

Jessie MacNeil

D. T. Raddall

8 AM. Making sure Dr. Radall is comfortable. He wanted a cough drop. He is not ready for any breakfast yet.

9 o'clock. Dr. Raddall ate nearly all his scrambled egg, juice, and a couple small pieces of toast. Took his medication with no problem.

9.20. He has drifted off to sleep.

9.45. awake and coughing quite a bit, and then goes off again.

Joyce came in this a.m. - really appreciated it. Dr. Raddall had a B.M. and Joyce had him on commode, so glad she was here. Once he settled back into bed he fell asleep.

1 o'clock making Dr. Raddall coffee. Dr. Raddall was enjoying his coffee and then he felt sick. It passed over. Having some juice and had a coughing spell and a B.M. Got him changed & cleaned up but couldn't get him pulled back to the head. Dr. Raddall said I should call Joyce and Joyce is on her way. We got him flat on the ~~back~~^{bed} + on his side and comfortable & then he went to sleep. Resting comfortably. Thanks Joyce for everything. Dr. Raddall had no dinner yet.

March 20/94

Marion Naus

March 20/94

4-12

Meds. - Novotriolam I @ 11:45 P.M.

- Dr. R. had small B.M. at 4:15 after he was cleaned up he drank a full glass of juice.
- Dr. R. wanted ^{to} get up on the commode and had small B.M. After he got back to bed he drank $\frac{1}{2}$ a glass of juice.
- Dr. R. asked if I would bath him so I did. He enjoyed it.
- Dr. R. ate small dish of icecream.
- Every hour or so he has small B.M. It is 9:30 P.M. and we only have 3 Attends left.
- Dr. R. slept from 10:00 till 11:30 P.M.
- Sure hope Dr. R. is feeling a little stronger tomorrow.

Jis Harlow

8

March 21/94

Dr L. Raddall

12.30am Relieved Dr at midnight. All quiet when I arrived.

1.15 Dr R. very thirsty. He drank about 1/2 oz of apple juice. His throat is very dry. Also gave him a Bradenall lorange.

3am Still awake & dry throat & cough. Drinking lots of juice.

6am More juice - another 1/2 oz or so. Dr R. has had a long night with alot of coughing but extremely uneventful.

7am Time to get Dr R. ready for the day. It seems a shame to wake him - he just now quieted down - but awake. He had a bit of an accident - he explained that when he coughs he sometimes spels a little feces - very philosophical about it though. Anyway we got him onto the commode & finished when I changed the bed. He had his bath and is now contentedly reading his paper. I asked him about breakfast - he said the thought of food was revolting. He has been drinking lot of juice, but he's very weak. According to the recent 12-4 shift, he hasn't really eaten anything solid for at least 2 days. He seems in good spirit and hopefully today will be a good one.

Janni MacNeil

Dr R. has
sharp skin

D. J. H. Raddall.

March 21/94

- Arrived to find Jim ^{First day of spring!!}
(cloudy cold bad!)
had everything well in hand. ~~He~~ He decided
he'd like some coffee so I turned it on. He only
took a couple of small ones, but said it
tasted good to him. Seems extremely
weak altho his ~~mental~~ mental outlook
is excellent. Asked if I'd trim the back
of his neck to-day! Who said Vanities's name
is "Homan" agreed to it but we decided to
postpone it for awhile.
- 9:45 - wanted the paper to read the "obit."
10 - Marion popped in - went to store for
me & put laundry in - great!
- 11:30 D. J. has ~~not~~ slept most of the A.M. only
pausing occasionally for a sip of
steed coughing quite heavily.
- 11:45 Asked to be turned to right side.
Refused food however did eat a dish
of Ice Cream (^{maybe} ~~made~~ 3 Tablespoons) and
had a drink of Apple Juice.
Just seems so awfully weak and the
coughing only makes it worse.
- 12:30 Pam: Blair came in - still just a d.
Had just got him straightened out in bed.
- 1:15 Since 6. M. again as the result of the strain?
Coughing. Dr. W. called while I was ^{changing him} ~~changing him~~
I had to ask him to call back. He's coming earlier
around 4:30 P.M. 9:30. whichever he can make.
- Voided and had to change again 3:45. Serotum area
quite red so applied Nege Aint after I washed him.
Karen came in just as I finished.
- Then a good afternoon / night girls.

Voyce [Signature]

Dr. R resting when I arrived. At 5:30 Dr. R had a B.M. Washed + changed him. Sat him on the commode to change his bedding. Had a whole glass of A.J. when finally comfortable in bed. 6:30 had to change him again. Had problems getting him comfortable, but finally got him situated. Boy he is heavy! Had another glass of A.J. 7:00 Dr. R is finally resting comfortably.

Had to change him twice in the last hour. It is now 9:00. Dr. R wouldn't even eat ice cream for me this evening.

Dr. McCrossin was in 9:30 to check Dr. R. Says he will stop in tomorrow a lot earlier than today. Dr. R's cough seems to get a little worse as the evening wears on.

Dr. R had his sleeping pill at 12:00. Just waiting for James to arrive.

Karen Clattenburg

Dr T.M. Raddael

March 22/94

12:00 Dr R still awake when I arrived. After taxes left I gave him 2 tylenol - He seemed quite warm. He said he wasn't very comfortable and asked if I would tuck the bed up - it's up all the way now. He says he prefers this. Giked!

1:00 Dr R seems to have quieted down. I'll putter around a bit. (It difficult to be quiet)
- Did up the dishes, folded laundry and emptied the garbage can.

2:30 Dr R has hardly stirred at all.

4:00 He just called me to help him to change his position. He's still quite warm too I gave 2 more tylenol.

4:30 Changed Dr R's pad and got him cleared up. The sheets were wet and soiled so I changed those as well. He seems to have completely lost control of his bowels and bladder. He's quieter than past nights but seems more weakened.

Changed his pad again at about 5:30am.

These little ones are very nearly useless!

7:00 Dr R. has had his pad changed again and he's been bathed. I got him onto the commode so I could change another sheet and straighten his bed. He is if timely weak. Hopefully he'll eat something today.

Jahiro MacNeil

Dr. J. W. Sadalet

March 22/44

9:00 - Dr. J. awake, aware, however very weak. Talked him into some coffee & sugar. He said he'd enjoy that. Ties his knee as he trot down to drug store when it opens and see if I can't find something better for pads. Maybe I'll have to go to Pharmasart.

9:15 - Drant a cup of coffee, had his usual B.M. Small amount yellowish, a lot of slime. Got him all cleaned up and now that's done and Vida is here I'm going on an "Attends" search. - Found them!!

Shaved Dr. J. and scrubbed out his mouth. Changed his butt - gave him another good wash.

12:30 - Tom came in - had a good visit. Later John Dief came and spent some time with him. He wouldn't be tired!! Went in, that he was probably thirsty checked his britches (why'd I ~~do~~ that???) what a mess! Had to change pad, draw sheet and draper. You can see I put the larger ones on. When I finished so were both of us ~~in~~! He's HEAVY! Then Tom III came but he just was too tuckered to talk to him. Fell into a deep sleep. Sloke was soiled but not enough to haul him around. Asked him if he minded waiting for his then we could both do it and make it easier for all concerned.

virgin accomplished
 thanks Doc. It was really
 wended when we finished.

Stallenberg

Ate nothing all day
 just drank a few
 cups of coffee.

March 22/94

4-12

Meds. - Novatriolam i @ 11:45

- Dr. R. on commode at 7:00 P.M. had small B.M.
- Gave Dr. R. bed bath at 8:00 P.M.
- While cleaning Dr. R. mouth I made him gag. He was not pleased with me.
- Dr. R. refused food of any kind but did drink about 8oz. of apple juice.
- Dr. R. slept most of this shift.
- We are out of green pads.

Luis Harlow

Dr T.N. Reddall

March 23/94

Relieved Iris at 12am. Dr R resting comfortably. Coughing a little bit and hiccups I think but generally quiet and comfortable - at least until the early hours.

Gone Dr R. Junci and tuned him on his side a couple of times. His breathing is very shallow but his cough is considerably better.

While he's awake I think I'd try to get him to eat a little ice cream.

Had a large mess to deal with this am. With Joyce's help we managed to prevail.

Jamie MacNeil

Dr. J. H. Radcliff

March 24/94

3544558
R₄

Arrived to find Janina in a real predicament but she managed to get everything under control. Helped her financial up - makes it so much easier with two.

He settled down after a good drink of A. J. Coughing some, had a lab, however is so weak can barely speak.

10:00 Swabbed at his mouth again, was full of mucus then he drank some more A. J. Had a couple of snuggles started the music channel (4) on.

10:30 Hugh B. M. Ok. Some, soft, and very smelly. Changed Attends and bed pad. Gave another drink A. J. and off to sleep he went. It's so very weak can't hardly make out what he's saying.

Tom came in - he could barely talk to him except to ask for A. J. Sp. m. asked to go on commode but I convinced him that he was just too weak. He looked relieved and agreed. Believe me I would have much rather put him on commode. What a mess!! Bottom sheet, draw sheet, pads, top sheet and him all covered in - you know what!! Wipe now down to a fitted sheet over him with the balance of the bedding in either the washer or the dryer. By the time I finished rolling him around he was asleep in 2 seconds. Dr. is supposed to come some time this afternoon. Home.

Karen arrived and all is well. Good luck girl

Butterbury

Dr. R sleeping peacefully when I arrived. Joyce left at 5:00. Dr. R still sleeping. Dr. McCassin came in around 5:30 to check Dr. R.

Dr. R very weak this evening and complaining that he can't get comfortable. Wants his head up higher. Drinking lots of A. J.

8:00 - Francie called. She will be here this weekend.

11:00 - Dr. R took a tylenol, seems to be getting weaker and weaker. Still trying to get me to raise the bed higher.

11:30 - Dr. R had a B.M. Had to change the draw sheets + pads. Boy was that fun.

12:00 - Dr. R took his sleeping pill. All settled for the night. So I thought

1:30 - Had to bath + change him. Change top sheet + draw sheet + pads. What a mess!

2:30 - Had to do it all again.

4:00 - Same thing happened again. Have all his sheets in wash again. Finally, Dr. R dozed off. What a night so far.

6:30 - awake for a quick sip of A. J. Back to sleep right away. Hasn't slept hardly at all last night.

7:30 - Dr. R so weak this morning that he can't even drink through a straw.

Karen Clatterburg

Dr. J. H. Raddall

Mar 24/94

Dr. R. sleeping when I arrived. Came in early to give Karen a hand & his bath. All done!! That wit left him up higher in the bed before she left. Well! he was loaded! Stripped the bed-draw sheet, sheets, woolie and all, washed him down and got him settled in his nest while I put a load in the washer then shaved him. He had a couple of swellows Q. J. Now maybe he'd sleep. He must be exhausted.

10:30 Tom dropped in & the mail & had a visit & his father also discussed his condition to me. Swabbed Dr. J. mouth out & gave him some Q. J. after Tom left and he dozed off again.

His corn back & pads for the bed. She had a little visit & him. Other than that he dozed, moved some - a bit.

12:45 wanted more Q. J. so decided to check the butches - you guessed it!! Changed everything, washed him up well applied MO then got him settled again. Still wants to stay on his back. That's highly unusual, most often it's his left right side. J. H. dropped in for a few minutes.

2:15 Repeat performance. Not quite so hot this time. keeps wanting his elevated more but then he slides down in the bed. Stubbornly refused to get off his back all day. Enjoys getting his mouth swabbed out. Says it's "itchy".

3:30 ~~Called~~ Called me - wanted his mouth swabbed and announced he was "passing some more natural." I said I'd leave him a few min. to finish, then clean him up. Oh Jy!! It's a wonder his nose pore from all the washing etc. It's really looking forward to Francis' arrival. Vicky seems a tad stronger this afternoon. Kelly hasn't slept much today. Just sat, napped.

Put him to finished when his came so the two of us got up him. He's now settled on his left side. Have a good night with you 2.
Stutterbury

March 24/94

4-12.

Meds. -

- Dr. R. ate small dish of icecream at 5:45 and drank about 4oz. of juice.
- Dr. R. asked me to turn the volume up on his T.V. so he could listen to the 6 o'clock news.
- Dr. R. and Maureen a good visit.
- Dr. R. had a large musous like B.M. at 8:00 P.M.
- I washed Dr. R. mouth out with face cloth. He says he likes it better than the swabs. It removed the crusty stuff in his mouth.
- I broke glass in book case when I was moving his bed.
- Dr. McCrossin was in at 8:15 P.M. says if Dr. R. asks for his sleeping pill give it to him, if not, don't bother.

Jin Harlow

- 12:00 - Dr. R requested coffee. Quank half a mug
Probably be awake all night for sure.
Dr. R sounds a lot better tonight. Doesn't
sound a weak as last night.
- 1:00 - Boy Dr. R keeps calling for me about every
10 minutes for a drink. Couldn't convince
Dr. R not to take his sleeping pill.
- 2:00 - Dr. R asked for some more A-J. 3
glasses since I have been here.
- 2:30 - finally fell asleep.
- 5:30 - Woke up for some A-J. Till right
Back to sleep. Dr. R hasn't made a
mess all night. Hasn't even had a
pee yet.
- 7:00 - Gave Dr. R his bath and changed him.
He had the usual B.M., but still hasn't
peed. Dr. R dozed off again. I'll wait
until he wakes up to shave him.

Karen Clattenburg

Dr. F.H. Laddall

March 27/04

Arrived to find all in apple pie order. Dr. J. bathed, shaved & comfortable. Said "Good Morning" in a whisper - wanted some A.J. and his mouth swabbed out. Had me turn on the T.V. to his "music station" and wanted it faster on the loud side. Harder than yesterday.

Tom came in for a visit, chatted a bit (Dad & I) for a bit but his dad still slept so he didn't waken him. He wakened shortly after Tom left and wanted his mouth swabbed and more apple juice. Says he is as comfortable as he can be. 12:10 Francie & Bill arrived. So pleased to see them. (Both of us - Dr. Fred)

Francie sat with her Dad for 1 1/2 hrs. and he just perked right up. Even ate some Ice Cream for her. Fed him while she ate her sandwich - seems so different since she arrived.

We had a nap after the ice cream - Apple Juice. After he wakens I clean him up for the evening.

Marion came in - I helped her get him changed - cleaned his bum, another huge B.M. Shaved and washed his face gave him some A.J. Francie will be back shortly.

Dalenburg

Dr. J. H. Raddall

March 25/94

Came in a little early and checked things over with Joyce. Got him cleaned up and changed + made him comfortable.

His daughter + grandson come by but he didn't wake up - so at 5.05 they left + will be back later.

5.20 - He is still sleeping. Around 6. Dr. Raddall woke up feeling a little warm, ^{had juice,} gave him a bit of a back-sib, creamed his arms and head. He fell asleep again.

8 o'clock - Had some more apple juice + made him comfortable. Swabbed his mouth.

8:15 - Dr. Raddall had B.M. Joyce come through the door at the right time. His daughter, + husband + grandson come to visit him.

10 o'clock - His company left, another sip of apple juice and seems quite comfortable.

10.20 - Just finished bathing him and going over the inside of his mouth with a wet face cloth.

11 o'clock - Dr. Raddall fell asleep.

11.40 - Still asleep.

11.50 Hope Dr. Raddall has a good night.

Jois has arrived + hope you have a good night as well.

Marion Naus

Thanks Joyce
for your help
this afternoon
+ evening.

Meds. - Novotridam i @ 12:15 P.M.

- Dr. R. had small B.M. @ 12:30 P.M. after he was cleaned up he drank about 4 oz. juice.
- Dr. R. slept from 1:30 till 5:30 AM.
- Dr. R. asked for his mouth to be cleaned out. He took a few sips of juice at 5:45 AM and went back to sleep.
- Had a very long quiet night.
- Dr. R. had lg. B.M. @ 7:00 AM. gave him a bed bath but did not change bedding.
- Dr. R. can hardly sip his juice.
- Dr. R. had lg. B.M. @ 7:45 AM

Luis Gordon

Dr T.W. Raddall

March 20/64

8-4pm

Arrived at 8am & find everything in order. Dr R seems to be resting comfortably. I think I'd try to get him to eat something.

Well, I managed to get one egg into him. & a couple sips of coffee. It seems difficult for him to swallow though.

Dr R's sex was in at about 10am. He spoke briefly with him and then went back to sleep.

He will drink apple juice every 30-40 minutes. Tom III dropped in around 11am. Nice visit.

Gave him a shave & washed his face after Tom left. Swabbed his mouth. We used more oral swabs. Franice called and said she'd be here later.

changed Dr R's pad at about noon.

He had a small B.M. (Pale brown, soft) I cleaned his mouth out again - at his request. 1pm Dr McCrossin came in to check on his patient. Franice & Bill came in around 2pm and stayed til 3:30. Dr R drank about 4oz of apple juice for her. They've just left so I'll change his pad again before Dr J gets here.

Jamie MacCall

March 26/94.

4-12

- Dr. R. asked for glass of milk. He drank from the glass about 6 oz. (no straw)
- Dr. R. had B.M. He drank another 6 oz. of milk.
- Dr. R. daughter called, said they may drop in after supper.
- Franny was in to visit and Dr. R. drank another 6 oz. of milk.
- Dr. R. wanted a cup of coffee - he ~~eat~~ drank a full cup from the cup. Seems more able to drink from glass or cup than from a straw as long as bed is upright.
- Cleaned Dr. R. mouth with gauze + salted water. ($\frac{1}{2}$ tsp. salt to 1 c water)
- Dr. R. small B.M. @ 8:30.
- Dr. R. drank 4 oz. of milk @ 10:30 P.M.
- Dr. R. asked for some a. juice. He drank 4 oz. went back to sleep.

March 27/94
12-8

Dr. F. H. Raddall

11.30

I came in a little early to see how things were going. Dr. Raddall was asleep.

12.30 Dr. F.R. awoke, had milk with sleeping pill
Cleaned B.M and washed his face. Had about
 $\frac{1}{2}$ glass of milk by 1.30. He fell asleep.

2.15 - a small sip of milk - he is coughing off and
on which disturbs his rest.

4 o'clock - a lot of coughing Dr. Raddall was doing, had
a few sips of milk, it was hard for him to draw up
on the straw and rather hard to get it from the glass
so he took some from a spoon. Had a big B.M., a
lot of mucous like so got him cleaned up and he fell
asleep having a sip of milk, about 4.45.

5.45 - Dr. Raddall had quite a coughing spell
and still couldn't drink from a straw so he had
a few sips of milk by spoon. Bathed him and
another B.M. Around 7 was going to clean his
mouth + shave him but he continuously kept coughing.

7.30 - Was able to clean his mouth with salt + water
and also ~~swab~~ swab it and then gave him a shave.

Have a wash in.

8.15 - Helped Jenna to change the bed and clean
up another B.M.

Have a good day!

Marion Naus

Dr T.H. Raddall

March 27/24

8am Arrived to find Marie just finishing up with Dr K's morning toilet. She stayed to help me change the bed linen and he needed his butches changed again. I've got the door and window open to try and freshen the air a bit. Bill & Len were in to say goodbye.

Dr K seems to be coughing up quite a bit of phlegm. He has asked for milk twice this am. I cleaned and clipped his nails (fingers) for him. He instructed me on the proper way to do this.

Frank came in to Tom at about 10⁰⁰. I changed his butches again at 10³⁰. (Still very soft & mucous).

He's been drinking milk steadily and just now (11³⁰) ate about 4oz of chocolate ice cream. He says he'll have more later. Coffee at about 2^{pm} at his request. Changed his padlagani at about 2³⁰ pm. Sulkrey soft - lots of mucous. Changed his padlagani (small BM) at about 3:30 pm. Asked again for coffee. Here's Doc - so I'll leave Dr K in good hands

Jane MacNeil

12 - 8

Dr. T. H. Raddall

12.00 - Came in early as usual. Jess and I propped him up further in the bed. Gave milk and his sleeping pill. He finished his $\frac{1}{2}$ glass of milk and wants to sit up quite straight. I am folding sheets & towels. He fell asleep 12.30.

3.30 - Had slept quite well - wanted a couple sips of milk - dozed off. Cleaned up a small B.M.

4.00 - Doing a fair amount of coughing.

4.30 - Couple sips of drink

5.00 - " " " "

5.30 - I started bathing him & he fell asleep. Cleaned up B.M. mucous like.

6.00 - Got one side of his back washed, just need to get other side done. Cleaned his mouth with salt water & also swabbed it and gave him a shave.

6.30 - He is snoozing.

7.00 - Had a few drinks of milk but it's rather difficult for him. Cleaned up another big B.M. It was a job turning him. I think he wanted more milk but said "No", as I feel I am at fault. He was not able to draw up on the straw, I felt badly about it.

7.30 Dozing - a wash is on the go.

8.00 - Have a good day Joyce.

Marion Nauss

D. J. W. Raddall

March 28/94

Arrived this a.m. to find Marion had had a good night. She had him all bathed and shaved when I got here. 9:15 announced he'd like a little porridge & coffee!! I made it - pleasure and fed him, however he only ate 4 or 5 Tablespoons and about $\frac{1}{2}$ cup of coffee.

In the weakest I've seen him yet.

Dr's came in - went to the store for me, brought back coffee from Jim's - then helped me change his bed etc. Dr. J. followed that up with a good sleep. Slept till 11:45. Awoke up thirsty so Francis gave him some cold milk. Still unable to do more than mumble the words of to let us know what he wants. Washed his mouth with salt & water then swabbed it.

12:15 - Francis gave him some milk then I changed him - Hugh B.M. Had him up in bed and gave him some milk right from the glass. He enjoyed that. Did quite a bit of coughing after. 3pm Dom came in as did Pam and Gladie. Another big B.M. Still too weak to speak aloud, is having some coughing. Drinking lots of milk. Dr's having more success with sitting him up $\frac{3}{4}$ supporting his back and giving it to him direct from the glass. The effort the straw takes seems just too much! By the time he's changed and had his milk he's simply exhausted.

3pm Swabbed his mouth again. Drank more milk - from the glass - then settled back. Notice his groin area on his right ~~side~~ - under the scapular where it rests against his upper leg is quite red. I've been putting the ointment on it each time I change him. (After cleansing it - of course)

3:15 - Wanted Coffee! Made him some - he drank $\frac{1}{4}$ cup then that he'd have a "little rest" (over)

3:30 - Went to know "Louis the coffee coming"

forgot his just had some - gave him some more
then wanted his mouth swabbed out again
to pull H₂O then a swab. I think he's getting to
the point he doesn't want to be alone. - Did the
above then just said to him for a few men. Seemed
to dry off, but as soon as he dries seems to
pull himself awake again. This is something
new. Still has a bad cough. Guess that won't
get any better. Day is warm but certainly
doesn't feel it. 5:45 - Franzi came back & went in
to him. I asked him if he'd like to hear the music -
"Oh yes" - so I turned it a bit louder - got a smile for
my reward 😊 Good! Been rather a busy day
hope you have a good one. ~~Peterburg~~

March 28/94.

4-12

Dr. R. drank 8 oz. of milk between
4:00 + 5:00 P.M.

Dr. R. ate about 8 Tsp. of C. soup
for his supper at 5:30 P.M.

Dr. R. had sm. B.M. at 6:15 P.M.

Dr. R. asked for milk, drank 4 oz at
7:00 P.M.

Gave Dr. R. a full bed bath at 9:00 P.M.
and he had 2 oz. of milk.

Dr. R. is sleeping most of the time.

P. 66 R. 20

- Dr. R. had small B.M. at 10:30 P.M.
- Dr. R. drank 4 oz. milk at 11:00 P.M.
- Dr. R. drank 4 oz. milk at 11:20 P.M. —
11:30 3 oz more, 11:45 3 oz more.

Liz Stulen

Dr J. S. Raddall

March 29/74

12^{pm}

Relieved J's at midnight. Dr K is a light sleep
- coughing intermittently.

3 oz milk @ 12:00 am

3 " @ 12:45 am + 3 oz more

asked for sleeping pill so I obliged him
1^{am} - ~~no~~ ^{one} ~~tranalax~~ ^{tranalax} 25 mg + 4 oz milk

sleeping soundly(?) at 2^{am}

4^{am} still sleeping with a bit of coughing
every few minutes. Put sheets dryer -
shouldn't be any noisier than the furnace.
Dr K seems to be coughing quite a bit
not waking though - keeps throwing
off the blankets. So far, an uneventful
night.

He awoke bright eyed around 6^{am} with
a request for cold milk. drank about 5 oz.
I started his bath around 7^{am}. He had
a small BM but a very heavy "misting".
changed the pads underneath him
but the sheets are O.K. Now he's
stunned. I'll try and clear his mouth
out before Joyce gets here.

Have a good day.

Jamie MacNeil

N.B. I used mouthwash or a dampened cloth before
I swabbed his mouth. He seemed to like this.

Dr J. H. Laddall

March 29/94

7:45: Arrived early, that Janina might need a hand, however she had everything under control. Started some milk, then his mouth swabbed then some more milk. Put the bed up, more milk, swabs again etc until 9. At 9 he came up to the idea maybe Tea would do his feet!! Wanted them soaked however convinced him she'd wash them down and cut his toenails - Fine. Seems to want someone nearby I think I'd take a chair in there later and just sit & read. Maybe he'd relax more if I was at hand. Lummum???

9:20 - a dash of Ice Cream.

9:30 - Checked his buttocks - clean, rubbed his back & alcohol. Dropped the head of the bed more milk please. His tires but won't give in to sleep. Throat, drifted off @ 9:45 -

Tom came in - he ~~was~~ knew he was here but didn't really acknowledge it. This is all so bloody hard on the family. 10:30 asked for coffee. I made - he went back to sleep before it was ready. However - he can have it when he wakes.

Francis came in about 11:30. He was awake and pleased to see her. 12:30 wanted coffee after eating a big (for him) dish of ice cream. Fell asleep before it was perked. The ice cream seems to soothe his throat whereas milk & coffee seem to bring on coughing spasms.

1:45 - had another cup of coffee, Gave him another back rub to the alcohol, and turned him onto his R. Side. Sarg. he's comfortable. Even got his clock lined up - first try! ☺

2:30 - Had some more ice cream - it seems to ease the coughing.

(over)

3:10 - swabbed his mouth again - first
w/ salt & water then w/ the mouth swab.
Seems a bit stronger this afternoon, at
least his voice does.

3:30 Sleeping - still clean & dry - what a
difference - hope he doesn't make up for it
to-nite.

3:45 Has soaked, really wet and a
small B.M. Sucked him on his
Rt. side - said he was going to rest.
Have a good nite girls

Stattenburg

Dr. T.H. Raddall

March 29/84

Dr. R. found to sleep when I arrived at 4:00.

5:30 - woke up for some milk } 6 ozes all together
6:00 - had some more milk }
7:00 - dozed off again
had some more milk - 2oz.

Need some more milk. Will wait for Francis to come back + go to the store for me.

8:00 - Dr. R. had some ice cream + about another ounce of milk. Francis went out to Tom's. after she gave him a back rub.

11:00 - Dr. R. has been sleeping since Francis left and is still sleeping.

11:10 - Dr. R. woke up for a drink. Gave him a quick sponge down. Made him feel better also swabbed his mouth out. after bath had a little coffee and took his sleeping pill (what a combination)

Have a good evening Janina

Karen Clattenburg

Dr T. N. Raddall

12-800

(Remember to Garbouse
out?)

March 30/24

Dr Raddall sleeping when I arrived
at midnight.

2 ^{15⁰⁰} Dr R still sleeping - not coughing
much at all.

Coughing spell around 3⁰⁰. otherwise
sleeping peacefully.

Dr R awoke at about 4⁰⁰ and asked for
milk. He's extremely weak. Could only
manage about 1oz. He asked to position
his bed higher up. His throat was still
quite dry so he agreed to eat a little
ice cream 2oz. More milk at 5⁰⁰. Time
to change his pad - lg BM and very very
heavy wetting. Had to change the
draw sheet as well. Now he's exhausted.
Dozing on and off, asking for milk
in between cat naps. Good time for
morning bath.

7⁰⁰ Bathed & shined Dr R. Another lg BM
still very soft. just a light wetting this time.
Rinsed out his mouth with mouthwash
& a swab. Now he should be ready for
another day. I hope it's a good one.

Jamie MacNeil

Dr. W. Kaddal

March 30/94

9:4 Arrived to find all in good order altho he was restless about 8:15 started coughing, heavily gave him some Ice Cream. An alcohol rub, changed his pillow case (we got Ice Cream on it), lowered the head of the bed a bit and at 9:35 I think his going to settle for awhile. Marion called to see how he was also Thence checked in.

9:30 Ice Cream please. He didn't ask arrived at the decision by suggestion. I wanted something I could see, but couldn't quite say it. Offered another pack rub but he shook his head (slightly) at that. His clear & dry.

10:15 Resting.

10:35 turned Pillow - another pack rub. He seems a bit feverish. That it might make him more comfortable. Had a drink of WATER! (That's a surprise)

11:00 - milk - Dry Back Rub. Just some comforting

11:15 - Checked his bitches - wet and soiled.

Gave him washed, applied NO. That leg & scrotum area needs some attention - almost appears scalded. Washed it ^{very} with very warm H₂O and applied NO. Hopefully that'll do the trick. Still hard to sleep on top of it. That he wanted ice cream - ate 1 top and fell asleep.

2:20 wanted something - what - by the process of elimination arrived at mouth swabbing then finished a some Peeps. (this was preceded by a big drink of milk, this was followed by Ice Cream. Tom " came in to the baby, he saw them the bings! dropped right off to sleep. Bill had ice cream in his mouth. Let him figure out swabbed at his mouth again. It's so hard to figure out just what he wants. Bill called for an update. Have a goodnite

Patentberg

- 4:00 - Joyce + I changed Dr. R and washed him good. Then tried to make him more comfortable. Poor soul was almost at the foot of the bed in a little ball.
- 6:30 - Dr. R had a few sips of milk. Seems to be having trouble sucking on a straw. It is awful hard to understand him today. A lot worse than last night.
- 8:00 - Dr. R had a few more sips of milk. Francis came in for a visit. Told her that Bill called.
Dr. R. seems to be breathing very rapidly for the last 30 minutes or so.
- 10:00 - Dr. R still sleeping. His breathing is getting worse
- 11:00 - Gave Dr. R a sponge bath. He didn't even wake up the whole time. He was a little wet, but no B.M.
- 11:45 - Still very quiet here. Dr. R still sleeping soundly. Stopped breathing a couple of times, just long enough to put a scare in me.

Karen Catterburg

March 31/94

12-8

- Dr. R.
- 12:30 washed up dishes put garbage away
 - 1:20 A.M. small nose bleed rt. nostril, cleaned face + mouth, had sips of milk.
 - 1:30 A.M. large B.M., wet from head to foot - Attends not fassened.
 - 2:00 A.M. put wash on, folded dry things
 - 2:30 A.M. very warm to touch so gave bed bath removed blanket, more sips.
 - P. 68 R. 45' R. very shallow P. very faint.
 - 2:45 asked for ~~bed~~ to be fully raised.
 - 3:30 sips of water, still wants to be rolled all the ^{way} up in bed.
 - 4:00 A.M. sips of water
 - 4:30 sleeping
 - 5:00 finished second load of washing
 - 5:30 sips of water
 - 7:00 bed bath + large B.M. sips of water.
 - 7:30 P 60 R 44

Luis Harlow

- Arrived to find all in order. (Over) Ins. I checked
 Dr. J. up in the bed and got him settled. His breathing is
 still shallow & rapid. Heart beat very faint. Difficult to
 find. 9 AM - Gave him a wipe down, bathed his
 legs with cold water, fed him some ice-cream,
 Change his "Aetones". He'd had a medium sized
B.M. Very soft, yellowish, mucousy. A mess! (like
 a week ago) ~~Clear~~ Cleared him up, rubbed his back
 to alch. turned him on his side and went to
 sleep. Rapid breathing - shallow. Called the Dis
 office, asked him to drop around just to check
 him over.
- 11 AM - Voided - A bucketful - dark orange in color,
 very small B.M. puny & mucous. Got him
 cleaned up, he ate about a tablespoon of ice cream
 then off to sleep. Rubbed his back to Prodel, his
 very clammy. Tom came in about 11:30. His dad
 knew him: knew he was here but couldn't communicate
 to him.
- 12 AM - Another ^{mess} fairly B.M. washed & changed him - he
 should be tubed out. Vera called to see how he is.
- 12:30 - more ice cream - wanted his glasses off.
- 12:45 - B.M. then wanted milk - couldn't see the clock.
 He must be getting exhausted.
- 1:30 Called and announced he was having a movement!
 I could understand it - he said it aloud, with great
 effort and strain - told him to wait 5 min and I'd
 change him. Just to be sure he'd finished. 5 min.
 later I checked him and he was clear as a
 whistle, his bleeding a bit from the ~~left~~ rectal.
 Not a lot but some. Went to sleep @ 1:45
- 2:30 still sleeping.
- 3:00 - Awake - thirsty - gave him milk
 also pants loaded (over) large B.M. more brown
 in color than before.

Changed him. Heavy mucus draining from the mouth. Didn't void.

3:40 - wanted milk then wanted his mouth cleaned. Just can't seem to be comfortable. Lowered the bed 2 turns. He's very flushed, no temp. but extremely red.

3:50 - wanted milk - swab out his mouth. Gave a very large groan while I was doing it. Rubbed his back. He's so clammy. Francis came back @ 4:10. brought the Mayflowers, in bed, and left again.

4:30 - a bit of Ice Cream. Is still clammy. Couldn't see the damn clock.

Another day have a goodnite girls

Patent Pending

- 5:00 - arrived late. Found Dr. R sleeping. Joyce going to stay for awhile.
- 6:00 - had a mouth full of milk, but it all came out again through his nose. A lot of mucus is running out of his mouth.
- 6:30 - had some more milk + the same thing happened again. Swabbed his mouth out to try to get all the mucus out of his mouth.
- 7:30 - Dr. R is sleeping right now. He seems to keep reaching his arms out as if he is trying to grab something.
- 8:30 - Dr. R still sleeping. Must be breaking wind, boy what a smell!
- 10:00 - Dr. R wake up for a little while. Gave him his nightly bath. Had a really sunny B.M. Dr. R fell back to sleep during his bath.
- 11:30 - Both Joyce + Dr. R. sleeping soundly. (See you) just waiting for Marion to arrive. (☺)

Karen Catterburg

- 12:00 - Joyce is staying all night - So glad. I gave him a few sips of milk & washed his face. Gone back to sleep.
- 12:30 Finished up one of the glasses of milk in fridge - (1/4 glass) some mucous came out of his nose & mouth.
- 1:15 a couple sips of milk and cleaned up a small mucous-like B.M. Dozed off to sleep.
- 1:30 a sip of milk & made comfortable.
- 2:10 a sip of milk, washed his face & he dozed off.
- 2:30 Wiped mucous from his mouth and then swabbed it with a swab.
- 2:45 Washed & cleaned a small mucous-like B.M.
- 3:00 a wee sip and wiped more mucous from his mouth. Breathing quite rapid.
- 3:30 Same procedure as 3:00.
- 3:45 - More mucous from mouth & another B.M. Cleaned legs & back & washed his face.
- 4:30 - He is not back to sleep yet.
- 4:45 - Sip of milk & another B.M. Mucous still coming from mouth.
- 6:00 - I bathed him & another large B.M. Amazing.
- 6:45 - Garbage cans emptied & wash ready to go.
- 7:30 - Françoise called - just making Dr. + R. comfy.
- 8:00 - Shaved Dr. Raddell.

Have a good day Joyce

Marion Naus

D. J. N. Gaddal

April 1/94

D. J. seems to be fighting for every breath this A.M. Got a few sips of milk into him, enough to dampen his mouth & throat - is cool.

9:5 Dr. McCrain dropped in - finally - saw his condition and feels he can't make it thru the next 24 hrs. Breathing so shallow & rapid - 55 - and his general condition seems to indicate the outcome. Also says if he starts to thrash around call him at the Hospital and will come & sedate him.

Francis & Bill dropped in, discussed their day and decides to visit friends in ~~that~~ Mahon Bay.

There's really nothing they can do here anyway.
10:30 - Sleeping soundly. Tom came in - no change.

11:30 - sleeping (?) Rapid shallow breathing.
2 pm. Changed Dr. J. Small, semi-solid, normal colored B.M. Changed his position in the bed. His hands and arms in way to his elbows are like ice. Still very shallow, rapid breaths. He wasn't aware that I had worked on him at all.

2:30 Same

3:00 "

3:30 "

- not one pup, dog doesn't even blink!

Quiet day
Battensburg

April 1/94.

4-12

April 1/94.

4-12

4:00 P.M. Dr. R.'s breathing was very shallow and he was cold to touch.

5:00 P.M. Washed Dr R's mouth & face.

5:45 P.M. Dr. R's breathing very shallow & very slow.

5:10 P.M. I held Dr. R's hand he looked at me twice while I was talking to him, he took two more small breaths and then was very still.

6:00 P.M. I called hospital and Dr. McCrossin came to the house. Called Joyce & she came to the house. Chandlers came and took Dr. R. to the funeral home.

Luis Harlow
