OCCUPATIONAL THERAPY

OUR STUDENT BODY

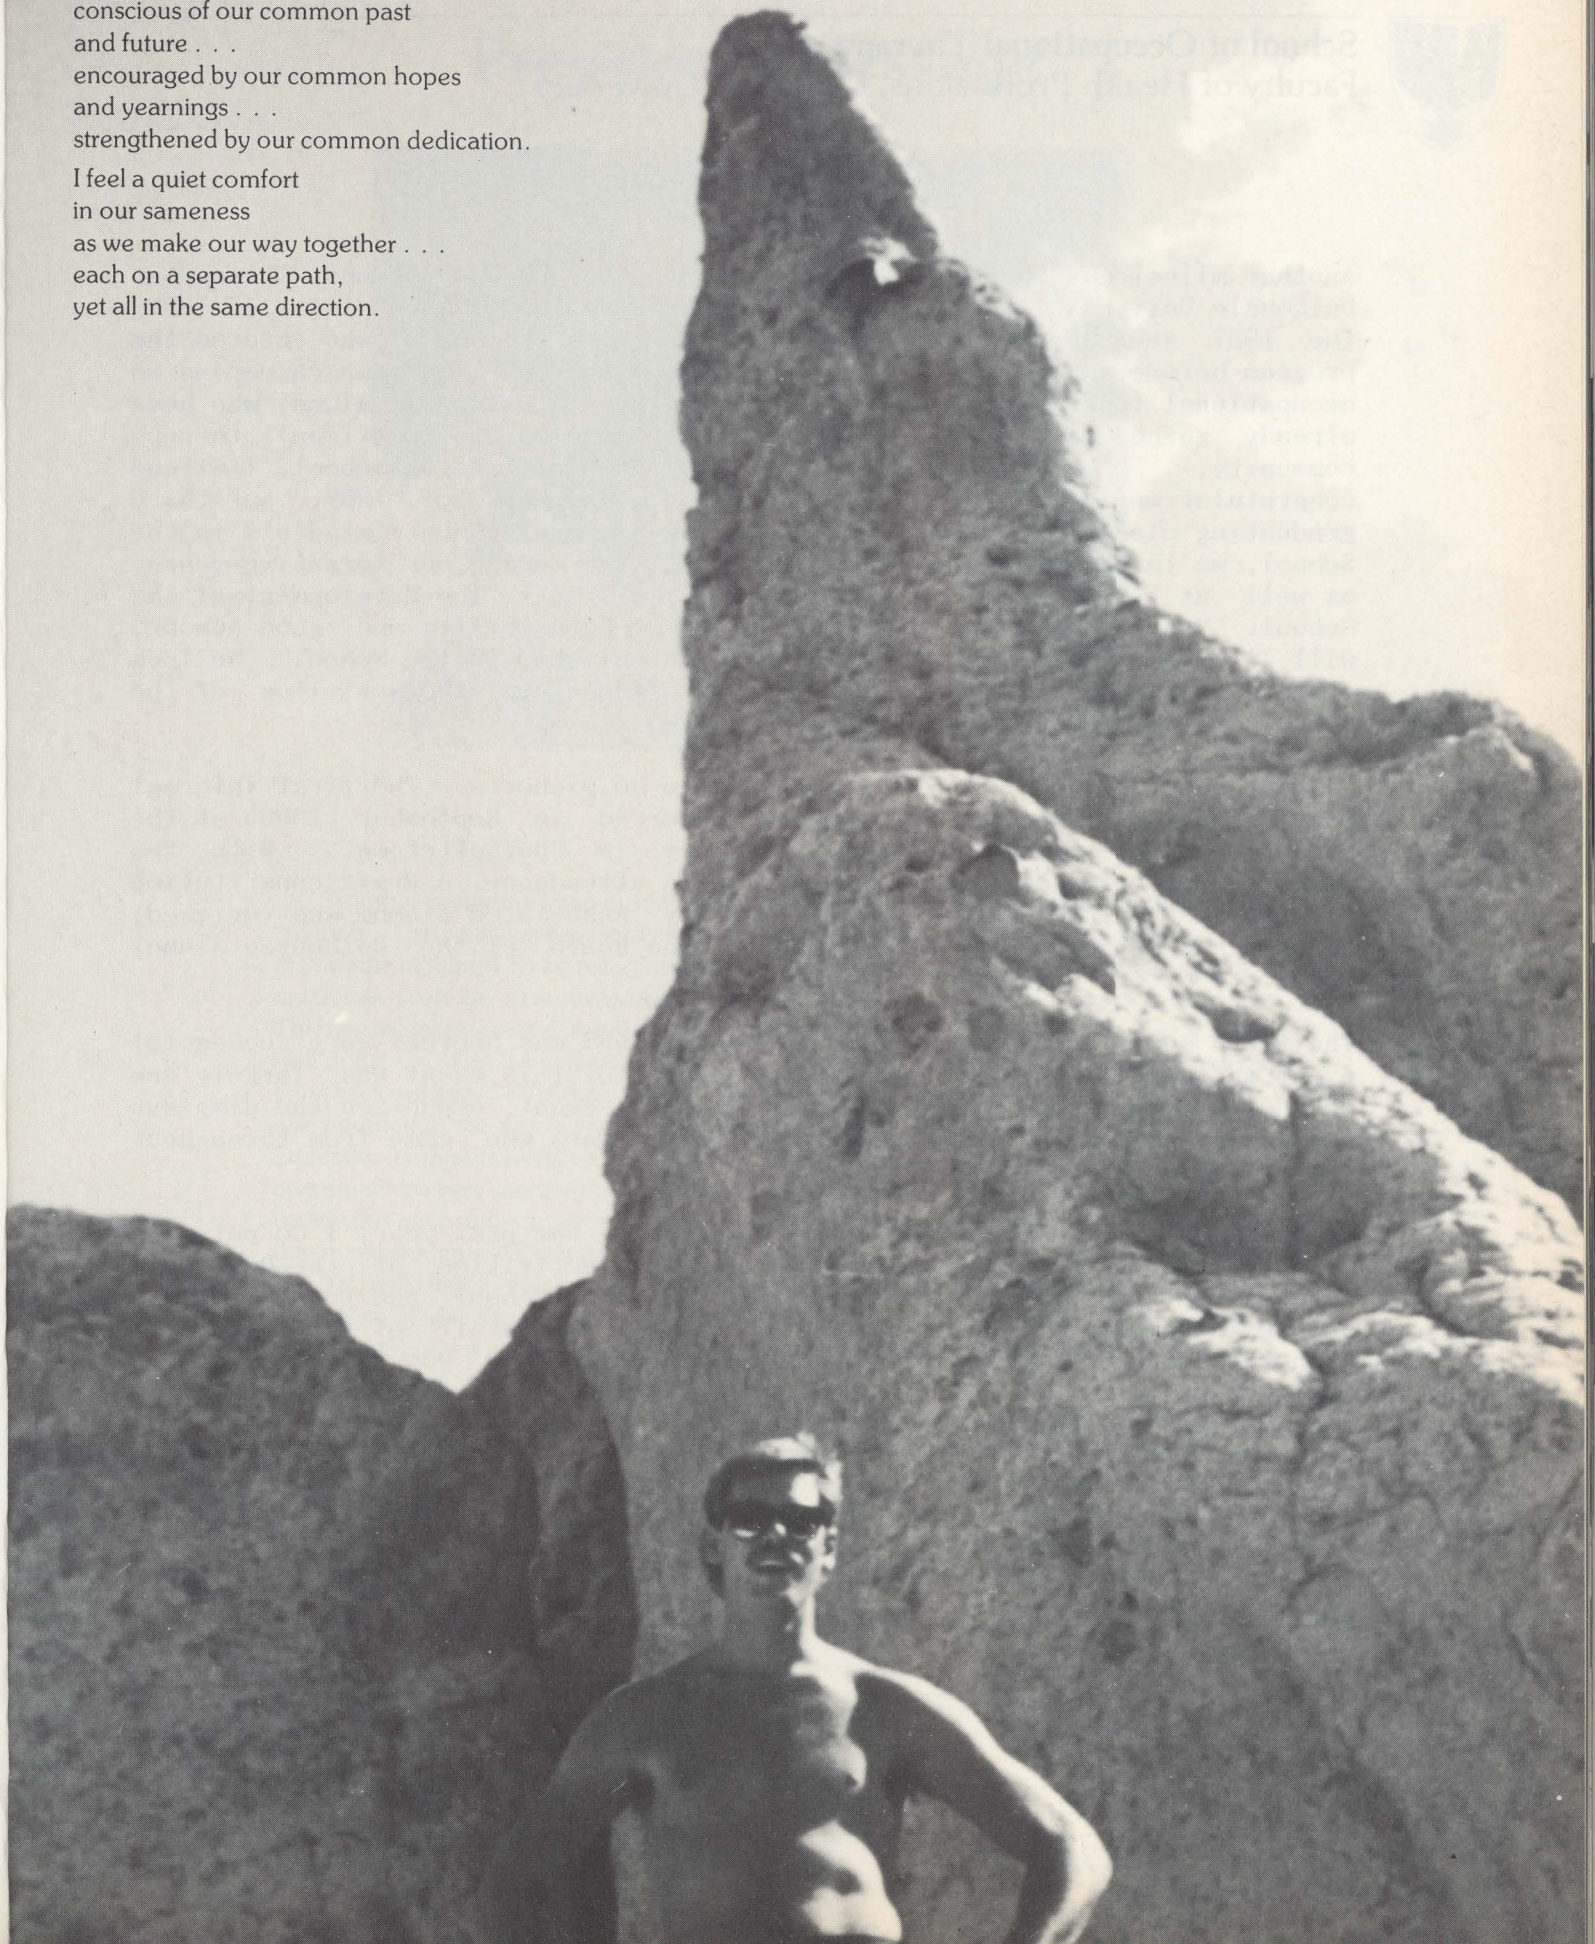

“Can you see the forest through the trees?”

I am one of many . . .
equal with my brothers and my sisters . . .
conscious of our common past
and future . . .
encouraged by our common hopes
and yearnings . . .
strengthened by our common dedication.

I feel a quiet comfort
in our sameness
as we make our way together . . .
each on a separate path,
yet all in the same direction.

School of Occupational Therapy
Faculty of Health Professions, Dalhousie University

DIRECTOR'S MESSAGE

Another milestone in the history of the School of Occupational Therapy at Dalhousie University is reached with the graduation of the class of 1987. The 1987 graduates are the last students in the School who entered the program before anyone had graduated. Now as you embark on your career as an occupational therapist, you join a select group of Dalhousie alumni who have already gained recognition within the Canadian occupational therapy community. On behalf of the faculty and staff in the School, I extend congratulations and best wishes to the graduates of 1987, our third graduating class. As you leave your role as undergraduate students in the School, we thank you for your trust and patience during our formative years, as well as for your many valuable contributions to the development of the School. Your initiatives, undertaken with responsibility and good humour, will live on as part of the traditions established in the School. We look forward to your continued support and involvement in the activities of the School in your new role as Alumni.

In your role as Alumni you will continue to be pioneers. The first informal meeting of the Alumni of the School occurred in September 1986 at the Atlantic Occupational Therapy Conference in Charlottetown. With ten members, approximately 26% of the Alumni in attendance, a draft constitution for the School of Occupational Therapy Associated Alumni was reviewed, amended and approved. It is now before the Board of the Dalhousie Alumni Association for their approval.

The fifth annual Open House held in October 1986 was another very successful event in the life of the School. The success of this event was largely due to the efforts of the students who planned the event, organized the displays and served as hosts and hostesses for the visitors who came from throughout the Atlantic region.

By highlighting a few of the activities during the past year, I do not mean to detract from the significance of all the activities of the Dalhousie Occupational Therapy Student Society to the School and to the broader Dalhousie community. On behalf of the faculty and staff of the School, I wish to thank all occupational therapy students for your involvement and commitment to the School and extend best wishes for continued success in all your personal and professional endeavours.

Barbara J. O'Shea, M.S., O.T.(C)

President's Message

Another year gone by so quickly! It seems as though we just met, when it's time to say "so long". This past year has certainly been a hectic one, and D.O.T.S.S. has been right in the middle of things! To be recognized as president of a Society that has accomplished so much has given me an immense feeling of pride. This year we put our first Occupational Therapy representative on the Dalhousie Student Union Council — thanks Janice for a job well done! Our Co-Ed volleyball team won the championship game in their division to bring back our first O.T. athletic trophy. Way to go Team!! The "For the Health of It" plaque was returned to the school for our outstanding performance in "Vaseline". Our P.R. and Education committee organized an excellent library display and mall display, as well as coordinating a very successful Open House. Finally, we were very fortunate this year to set up the first ever student loan fund to help O.T. students with fieldwork expenses. I hope that many students will benefit from it in the future.

I'd really like to thank all the students who were involved in Society affairs this past year. You all did a great job in bringing the Society so far. A special thanks to Angela, Venus and Lori for always being there in the crunch! I'd also like to say thanks to all of you for having given me the chance to serve you.

In closing, to my classmates I want to offer congratulations and wishes of good luck. The time has come for us to close one of the many chapters in our lives and begin yet another. These past three years seem like a dream now, and tomorrow appears only as a vision — but accepting these new challenges makes all our yesterdays a dream of happiness and all our tomorrows a vision of hope. Remember that while graduation will be the sunset of our past, it will also be the sunrise of our future.

Best of luck to all, and God
Bless,

Sharon Murphy-Horan

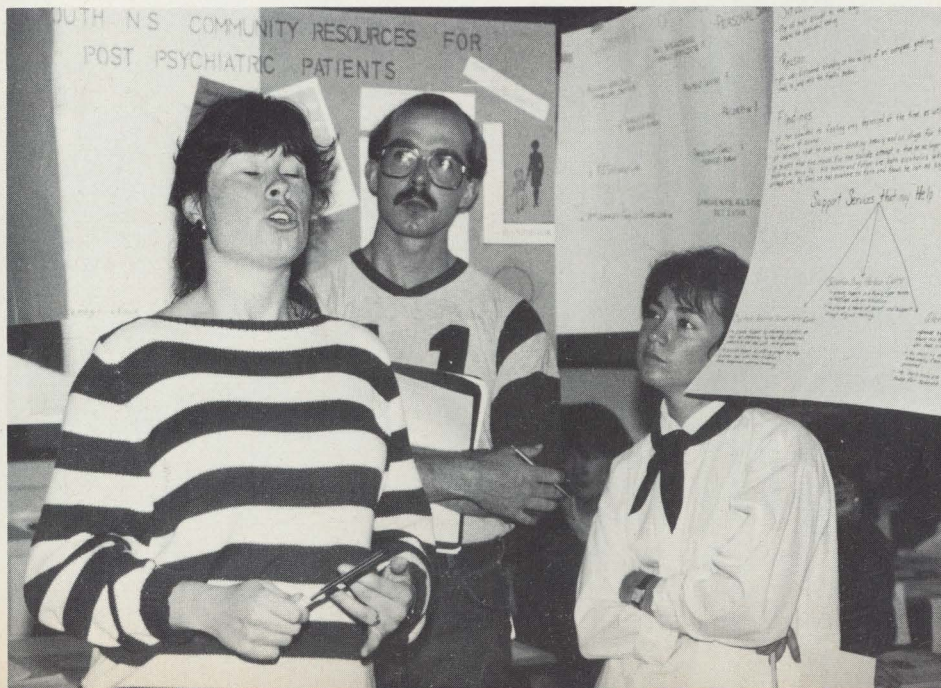

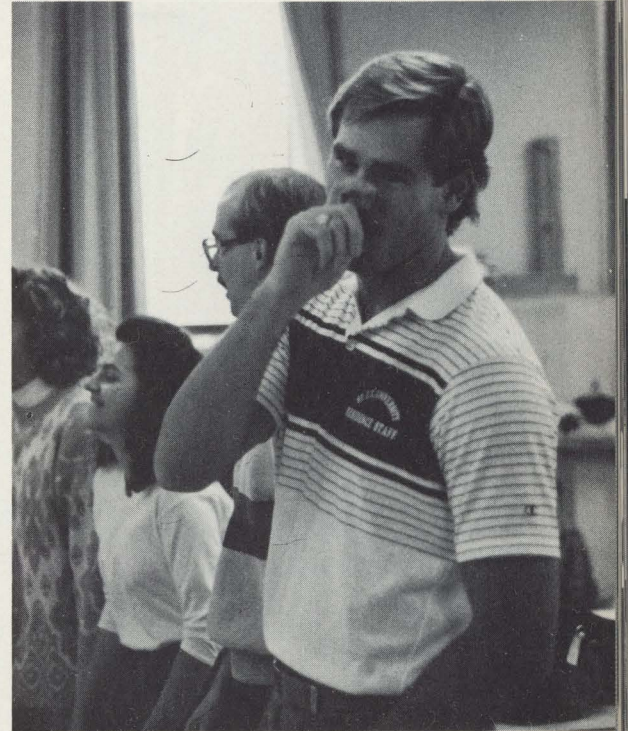

The Graduates

1984-1987

Friends are friends forever if the Lord's the Lord of them, and a friend cannot say never 'cause the welcome will not end — though it's hard to let you go, in the Father's hands we know, that a lifetime's not too long to live as friends.

Last Will and Testament

- I, Sharon Murphy-Horan, being of sound mind and body, do leave to all OT students who follow, the "How to Book" on how to rationalize a monthly \$300 phone bill!!!!
- I, Erryl Hines, being of sound body only, following of OT school, do leave my spot on the Co-Ed V-Ball team to any OT student who also wishes to at least maintain a sound body.
- I, Arlene Allen-McCarthy, being of neither sound mind or body let alone a sound rocking chair, do leave this ole, beat up and broken down rocking chair to anyone who can break the springs as many times as I have. Mike can fix it!!
- I, Theodore Arnold Scholten (the first), "I" being a "no-mind" and a "no-body", do hereby leave this piece of advice: "Don't stop living — take it easy, if you don't take it easy, don't take it at all!!!!
- I, Barb Rowe, being of sound mind and (short) body do hereby bequeath my space on the waiting list for Chocolate-Chip Oatmeal Muffins at the Tupper cafeteria.
- I, Nancy Scott, being of scrambled mind and too much body, do hereby leave to future 4th years my stress management manual — "How to Sit Through Lectures While Thinking about Acapulco"!!
- I, Margie White, being of overworked mind and deteriorated body, leave to the following OT students the advice: "Keep Fit"!! It's impossible to get in shape for Alcapulco in 1 week!!!!!!
- I, Simona Vortel, being of a pregnant body at present and therefore of a happy mind would like to recommend to all our followers not to labour over things, you might need the labouring skills in future occurrences!
- I, Rae Fitzpatrick, have definitely questioned soundness of mind and body over the past three years, leave my strategies on how to cope with school responsibilities and outside activities and interests. Note: These strategies have been revised as a result of pre and post OT school, physical and mental status assessments.
- I, Mary Howard, being of hardened mind and body bequest my methods and procedures on breathing slow and easy through the final daily countdown. (Hopefully the people to come can translate theory into practice!)
- I, Deborah Murphy, **some times** being of sound mind and body, leave to 2nd and 3rd years my procrastinating and last minute assignment/report writing in the hope that this skill(?) stays at the OT school and does not follow me to Manitoba!!
- I, Lisa D. Urquhart, being of withered mind and body, leave my notebook on how to handle men who insist on residing in classes with thousands of beautiful women! It's not safe girls!!
- I, Joanne McNeary, being of lost mind and body, do leave my position as Treasurer of this yearbook to anyone who doesn't mind collecting lots of money from people and hounding them constantly for more and more \$\$\$. It's a tough job, but somebody's got to do it!?!\$\$
- I, Raylene Jessome, being of sound mind but deteriorated body, leave my skill for being able to "Whip up" a term paper, presentation, research project . . . the night before (or morning of) the due date, for OT students who are too busy to be bothered by the "little things" like assignments.
- We, Alana James and Anne Marie Delaney, being of aerobically fit bodies(?) and _____ minds, do hereby leave our 2 litre bottle of diet Coke and Ikea table and chair set, to any 2 OT students who want to sit across from each other for 2 years and study(?).
- I, Dianne MacAusland, being of somewhat sound mind and occasionally hypothermic body, bequest an assortment of wooly scarves to be worn all at the same time (weather permitting) to any individual who dislikes being cold as intensely as I do. It's an effective strategy!! Brrrr.
- I, Greg Parsons, being of no mind and a food-laden body do leave to all students my appetite, my briefcase and my A/V skills, as the profs need someone who is not afraid of being electricuted!!
- I, Sandy Delaney, do hereby leave my place at the tolls on the Mackay ridge to anyone who is crazy or confused enough to enter a potential smash-up-derby every day at 7:10 am and 4:45 pm in order to get a degree where nobody will believe you when you say you have a Bachelor of Science with a major in being Obviously Terrific!!

International Health

The International Health Committee welcomes students from all three years to become involved. The general purpose of the committee is to promote awareness of international health to the student body as well as to the school's faculty. Each year, usually in the Fall, a potluck supper is organized. Students and staff are encouraged to prepare food that has an "international flavour". A guest speaker is invited to share his or her experiences about work or involvement in some type of international project or issue. The committee also tries to maintain communication with the rest of the university and the community regarding events and activities that are happening. An international health bulletin board is kept up-to-date with current events and items of interest. This year the committee organized some fundraising events in support of a Nicaraguan disabled group, ORD; this project was set up through CUSO. A big thankyou to all the committee members for your participation throughout the year and thankyou to all the students and staff who have supported the committee's activities. Best of luck next year!

25th Anniversary Faculty of Health Professions

School of Occupational Therapy Faculty of Health Professions, Dalhousie University

This past school year marked the 25th anniversary of the Faculty of Health Professions at Dalhousie University. A series of special events and promotions commemorated the anniversary, and the School of Occupational Therapy was very much involved.

Throughout the fall of 1986, representatives from the School met with other schools of the Faculty to plan publicity events, such as newspaper articles, two library displays, and a mall display in January, 1987. At the School of Occupational Therapy's Open House in October, 1986, t-shirts with the "25th Anniversary" logo were sold as a fundraiser.

The highlight of the commemorative events came in March with the Symposium on education of health professionals, held at the Sheraton Hotel.

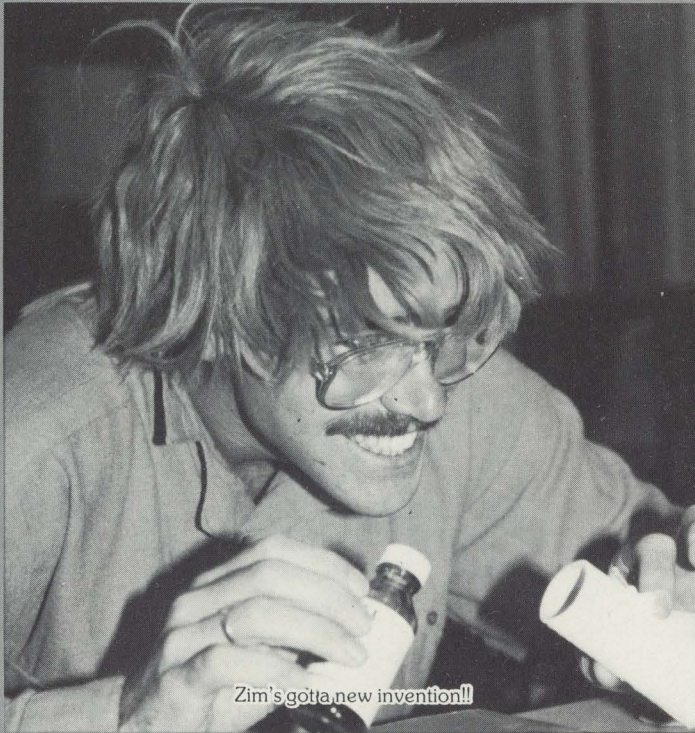

Congratulations to all the student and faculty organizers who did such a great job putting together the 25th Anniversary events!
