Camp Brook
Canning, N. I., June 1st 1913.

Mr J. B. Bigelow
Canning
N. I.

Dear Father,

You mentioned when I came away that you might come up for awhile and start the work. I will have to be away considerable this month and if you could arrange to come for two or three weeks it would help me out considerable.

Mr Spicer is here he does the lining and picks out the timber but is not used to letting down timber.

We have quite a start the bottom logs for the outer 80 ft are all down, have to dig about 18 in for bottom logs.

The man who has the job for inspection is away from home will not be on the job till Monday.

You could come to Parsons Monday or Tuesday and come up in the mail.

I expect to go over home Wednesday.
