PREFACE

This "Directory of Graduates and Former Students" is an attempt to publish a complete list of all those who ever attended Dalhousie University.

Although great efforts have been made to secure accurate information, there are bound to be errors in addresses in this publication. Every Dalhousian who sees this book is asked, first, to see whether the information regarding himself or herself is accurate, and secondly, to correct any mistakes in our list concerning either classmates or other Alumni. If he or she would be good enough to notify the Secretary of the Alumni Association, Halifax, of the corrections that should be made, the Association would be greatly obliged.

Alumnae who have been married since leaving the University have a double listing, appearing under both their maiden and their married names.

The Alumni office will gladly furnish more complete information about former students on receipt of an enquiry.

The following abbreviations have been used throughout the book to indicate the courses taken:
