church. 1000
 church carrying in wood

when immediately after
 he is said - the same night
 the fact is said to have been
 mentioned in the Kings
 - Reflections -
 At Geneva a most ou-
 fur'd church not yet finish'd
 elegant Gothic architecture
 on columns of Corinthian
 order finish'd in solid
 - At some distance from the
 - St. Sulpice but much in-
 ferior in point of archi-
 tecture - known as St. Jean
 - It is said they are well built
 the measurement to have been
 a French stone -

Oct. 20th Sep.

Gobelins - beautiful tapestries brought on the simplest apparatus - a drawing is placed behind - it is traced off on small paper. Litographs then are applied to the warm and traced on the threads which are all white, different coloured yarn or silks are wound on bobbins or bobbins as they may be called -

Two ways of working - horizontal - perpendicular. The first is the oldest - passed in many - Two needles moving over a small pulley - separates the threads with their

fingers - Two treadles at the one end in the most complicated work - A man must work twenty years at least before he is perfect says an artisan and I believe it - They were at work on the siege of Calais -

- Danlomin - Spinning
wheel -

The various Buffoneries
on the Boulevards, et c.
said, are continued chiefly
to prevent the people from
thinking —

Mirrors in Paris are
large and numerous —
especially well polished
Glass Lenses extremely
abundant — concern in
general double the quantity
of Glass and not half
the number of candles
as in England —

Woolen tables are some
times covered with leather
in a garden like —

any article of news attracts
the attention of every person
— at the Pal. N. Groups —
— Doors in Coffee houses
are often of Speculations
Glass which was a
fine effect —

Goods & Toys are the
Fashion here — Prizes
Over Gallies & Boxes —
— Price free —

The publick amusements
are our, conclude much
easier in the Court than
in London —

The Tables in all the
publick and most of the
private houses are small
The seats in the Office have
little square stools with
rush bolsters -

- One of Chinese - Anti-
quarian works -

Lectures are given on Nat. History
in the Jardin du Roi -

no fire allowed in the Palais
Royal -

Orbelle - Bastille -

M. De Lorraine's geometrical
demerits approved by the
academy and Palais Royal

They will receive no papers
that have any tendency to
the quadrature of the circle

English pianos 13 francs for
a pair. French 12 francs -

All the publick buildings
at Paris are magnificent
- Palais Royal is a wonderful
place shops rents extremely
high

In the amount of the garden
in the Jardin Du roi there
is the figure of an eagle on the
roof. At 12 o'clock the
eagle burns a hair which
disengages a hammer which
strikes a bell and shows
12 o'clock. - for regulating
time Laborious Divines -

Idleness prevails among
all ranks - Banks of the Seine
covered only with fire wood -
Marchands de Bois - Shops
open on Sunday - Masons not
work on Sunday - all publick
works on Sunday -

a picture of the queen in
whose hair pressed by
a hair dresser in black
with a sword.

Double beam —

Lower Statues Paschal,

Turonne - Conde &c —

— Tea Break out with Mrs
D. A. C. — Jardin de roi
