To the Editor -

Oh-oh & more oh's.

Doesn't any of your staff of editors know any thing about boats.

Marine engines do not have "low", "second" & "high" gears - merely "forward" and "reverse." Gas tanks have to have air!!

The "Winter Idyl" of April 26<sup>th</sup> was just too, too much of an insult to us sea going yachtsmen. To swallow.

Max Sturges

"Ex circulation manager - 1916 - (S.E.P.)  
(then aged eleven) for Beaver Avenue,  
Cedar Rapids Iowa.
