DIRECTOR'S MESSAGE

Thank you for inviting me to contribute to the year book. I have welcomed the opportunity to work more closely with you this year. The School has a long reputation for attracting the top students to its programme. It is obviously well deserved. After years of uncertainty it is a relief that you are in your permanent quarters in the Forrest Building and under one roof. I for one was pleased to see the Rededication of the Building occur last fall to successfully close a long chapter of planning and negotiations over several years by the three Schools to get the old building refurbished.

Let me thank you for your impressive displays and demonstrations following the official opening of the Forrest Building. However, I am pleased that you don't take life too seriously all the time. Your professional and spectacular variety show once again this year in 'For the Health of It' was much appreciated. Where do you get all the energy from?

The 1985/86 academic year is an important year for the School. We were able to appoint one of the outstanding physiotherapy educators in North America, Dr. Joan M. Walker, as the next director of the School. Dr. Walker will take up her full-time appointment on August 1st this year. Dr. Walker's appointment will, I am sure, hasten the advent of a graduate degree in physiotherapy which has been much planned by faculty and sought after by students and therapists alike. Last summer the School inaugurated the Hazel Lloyd Foundation to honour the memory of the founding member of the School who was a much liked and revered teacher. I am pleased to see students participating in the future planning of the Faculty as they have done this year. It speaks well of the physiotherapy students that the undergraduates in other programmes in the Faculty chose Loretta, your President, to represent them on the Faculty Academic Planning Committee. This is the year for the Accreditation Survey of the School. You or your representatives will be asked to participate in this process which I sincerely hope will turn out to be successful.

As the year draws to a close the faculty and I wish the graduating class every success in their future careers. We ask that you continue to learn and that you keep in close touch with the School. To second and third year students best wishes for a successful conclusion to your year of studies. We look forward to your return in the fall. Have a good summer.

Dean R. S. Tonks

PRESIDENT'S MESSAGE

“And what is as important as knowledge?”
asked the mind.
“Caring and seeing with the heart.”
answered the soul.

Dear Fellow Physios and Future Physios,

It is hard to believe that the year has ended, and for all my classmates the accumulation of at least four years of university (and many more than that for some of us) has come to a close.

I have enjoyed the experience of being president and I want to make a special Thank-You to Wendy, Gayle, Kim, and Louise — you guys were terrific. To all my committee chairmen, Thank-You for your long hours and hard work.

I want to wish everyone the very best that life has to offer — to those students returning, the best advice is GET INVOLVED! Dalhousie and the school have so much to offer, get out and enjoy it.

To my classmates, Thank-You for three wonderful years and a textbook full of happy memories. Best of Luck in your future endeavours.

May God Bless You,
Loretta

P.S. Special mention must be made to: Prof. Cheryl Kozey — Thank-You for your assistance. Dean Tonks — your guidance and kindness will always be an inspiration. Prof. David Egan — your patience and understanding will not easily be forgotten.

P.S.S. Gayle and Sheila — you two are a Godsend! Thank-You for your HELP.

P.S.S.S. To Trish, Nat, and Sue (my roomies at 1250) Thanks for the FABULOUS YEAR! By the way . . . “How Will I Know?”

For The Health Of It

I did not doubt it for a minute . . . well maybe for a few seconds. What was it like being a director? It was hell . . . of a good time. How could it be anything but great when I was working with nothing but the best.

An early start, hard work, and lots of practice made Robin Hood come together that Monday evening.

“Damsel in distress hotline, Lester the jester speaking . . . Maid Marian . . . being held captive . . . by the Sheriff of Nottingham . . . this sounds like a job for Robin Hood.” And it was. Robin and his men proceeded to challenge the sheriff and his evil men to the ANCIENT DUAL.

“Bop til ya drop,” said Howard Cosell, all the men did drop, leaving only Robin as the victor! Maid Marian was freed and Robin just got carried away! Since Physio is back on top our aspirations have gotten higher. Broadway here we come! Monique Breau

Back, L-R: Linda McCann, Monique Breau, Krista MacDonald. Front, L-R: Cheryl Theriault, Kim Furlong, Jill Henderson, Wallace Ross.

Practice makes Perfect!

The Tale of Robin Hood

“Five minutes til show time”

Hold the cheers, dim the lights
This is it, the night of nights
No more rehearsing, or nursing our lines
We know every part by heart . . .

Oh many long years ago, a fellow named Robin Hood
He used to rob the rich, most every chance he could
Well you shouldn't get me wrong because he was no square
With his trusty bow and arrow he could part your hair
His buddy was Little John and another was Allen Dale
With 140 more together they'd hit the trail
Well they would scamper through the forest to the Blue Bore Inn
Mr. Reitman told them where they should begin
They took from the rich man, gave it to the poor man
They had a fear of no man, but only for his chick who's name was Marion
Here is a switcheroo for Rob and his loyal crew
When King Richard forgave them all, here's what they had to do
Well they became his loyal rangers and were very good
And that ends our little tale of Robin Hood
