Creeps in this petty pace  
From day to day  
Until the last syllable of recorded time.”

### DIRECTORS MESSAGE

*On behalf of the Faculty and Staff in the School of Occupational Therapy, I extend congratulations and best wishes to the graduates of 1986, our second graduating class. Following in the footsteps of those who go first is perhaps a more difficult challenge than blazing the trail. Not only are there rough paths to be made smooth, but there are expectations to be met. In all of this, you have excelled! We thank you not only for your contributions but also for your patience and good humor along the way. You have played a significant part in the development of the School of Occupational Therapy at Dalhousie University. In your new role as alumni, as you continue your contributions to the occupational therapy profession, your support and involvement in the activities of your School will be welcomed.*

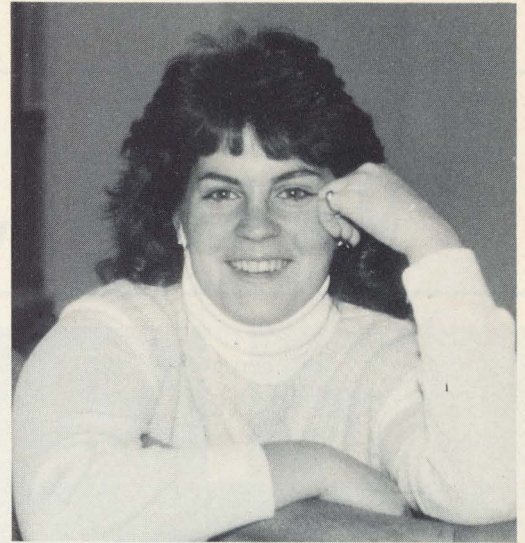

*A review of the year's activities in the School of Occupational Therapy at Dalhousie University has many highlights. One of the most significant in the history of the School was the rededication of the Forrest Building in October, 1985. This established the permanent home for the School of Occupational Therapy in the historic Forrest Building which once housed all of Dalhousie University. The highly successful openhouse which followed the rededication ceremony provided an opportunity for others to view and come to better understand the work of the School and the talents of the student body.*

*The Dalhousie Occupational Therapy Student Society continues to play a significant role not only in the activities of the School but also in the broader university community. Details of all these activities will be enjoyed through the pages of this yearbook, an archival record of the year's events.*

*To all of the students in the School of Occupational Therapy, I extend thanks for your many contributions and offer best wishes for continued success in all your endeavours.*

### *PRESIDENT'S MESSAGE*

*It was difficult to write an enclosure for the yearbook as there were so many things I wanted to say and many individuals I wanted to thank. Our mission this year, 1985/86, was to improve communication between all students as well as students and faculty. This is a difficult task to undertake due to courseloads, schedules, and outside interests of individuals. It doesn't have to be a difficult task.*

*We are a unique School in many ways. We are blessed with creativity, determination, and understand the reality of hard work. WE are pushed to be the very best that we can be, but let us not forget to treat each other with respect and patience as we would treat our own clients.*

*This year has been full of new and old challenges and hopefully has laid down one more stone in the groundwork of building a strong society. Some highlights include: the outstanding performance of "Clues She Wrote" which won us 2nd place in For the Health of It; our "Food Hamper" service project for Hope Cottage; 1st Annual "Angels and Earthlings" before exams; 1st year for involvement in Dalhousie's Winter Carnival; pancake breakfast; the first year for an O.T./P.T. representative on the DSU; our own constitution firmly established; and innovative fundraising like the Christmas Craft sale.*

*Although people were busy, many students pulled together to organize and carry out these events and these are accomplishments to be proud of. I would like to extend my greatest appreciation to Sharon, Nancy, and Margie, the other executive members, for giving "teamwork" a true meaning. I would also hope that at some point in 3 years in the School, that each student will get involved with the Society as it is your society, and it will only grow if everyone works...together.*

*To the 2nd year class, hang in there and best of luck with your first placements! To the 3rd year class the light at the end of the tunnel is closer, go reach for it! To my class, we've been 16 strong and our greatest challenges are awaiting us! To the Faculty, thank-you for supporting our society and always remember the importance of a humanistic approach to teaching.*

*Take Care and God Bless,*

*Brenda Dove*

## KAREN MacLEOD

D.O.B. September 8, 1963.

Hometown: Halifax, N.S.

Favourite Saying: "I hate diagrams."

Pet Peeve: No oatmeal muffins at the Tupper cafeteria!!!!

Where Found Most Often: On my way to coffee break.

Where Found In 10 Years: Manufacturing oatmeal muffins as positive reinforcers for desirable behaviors in my parishioners.

## LAURIE NICHOLSON

D.O.B. March 26, 1964.

Hometown: Fredericton, N.B.

Favourite Saying: "But I don't want to play this game anymore."

Pet Peeve: Waking up early to make my own lunch — waking up late and deciding which is more important, my lunch or rushing off to get to class on time.

Where Found Most Often: Waiting for my half sub in a long line of hungry beasts at 12:30 pm, promising to wake up earlier tomorrow.

Where Found In 10 Years: Somewhere . . . far . . . far . . . away . . . Playing a very different game.

## BARB NORRIS

D.O.B. November 7, 1958.

Hometown: London, Ontario.

Favourite Saying: "If there's a will, there's a way."

Pet Peeve: Sitting inside on a glorious day.

Where Found Most Often: Usually in deep thought or daydreams.

Where Found In 10 Years: Heading westward, somewhere between Cape Spear, Nfld., and the eastern shoreline of the Atlantic, making a toast to 10 years!

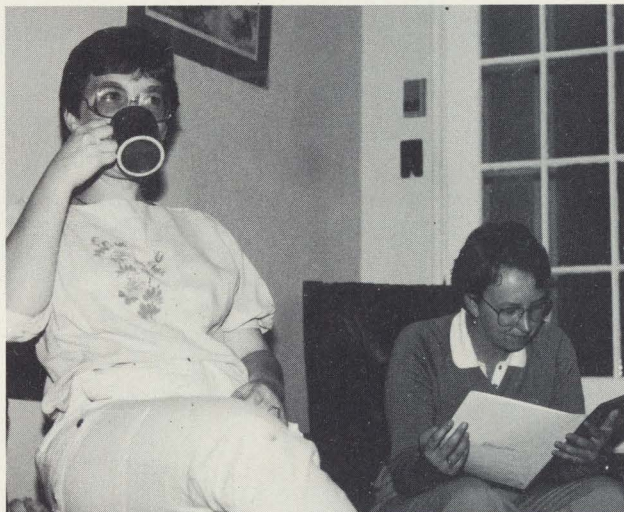

## LISA RAND

D.O.B. July 21, 1963.  
Hometown: Bristol, N.B.  
Favourite Saying: "Does anyone have any money for me?"  
Pet Peeve: Collecting money from my classmates.  
Where Found Most Often: Stuck in traffic on the Bedford Highway.  
Where Found In 10 Years: Doing Sensory Integration with self-abusive over-heads.

If you can love — and not make love your master;  
If you can dream — and not make dreams your aim;  
If you can meet with triumph and disaster  
And treat those two imposters just the same;  
  
If you can make one heap of all your winnings  
And risk it on one turn of pitch-and-toss,  
And lose, and start again at your beginnings  
And never breathe a word about your loss;  
  
If you can make the most of every minute  
And keep your faith through times of joy or strife —  
Yours is the earth and everything that's in it,  
And — what is more — you'll know the Best in Life!

## REDEDICATION OF THE FORREST BUILDING

### FORREST BUILDING

This building was constructed in 1887. Designed by J.G. Dumaresq, it was built by A.E. Milliken and Co. on a site obtained as part of the arrangements under which the original Dalhousie College building, on Duke Street at the north end of the Grand Parade where City Hall now stands, was sold to the City. The cornerstone was laid on April 27, 1887 by the Honourable Sir William Young, former Chief Justice of Nova Scotia who had served as Chairman of the Board of Governors of the University from 1848-1885. An early great benefactor of Dalhousie, his major contribution made this building possible.

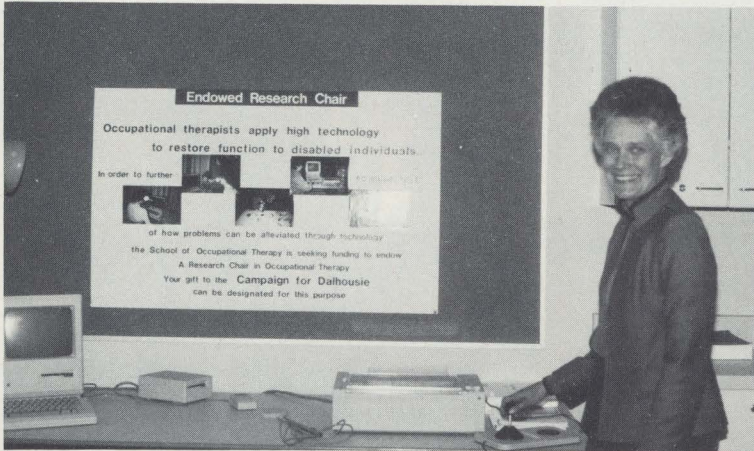

The building was occupied in the fall of 1887 as the second home of Dalhousie College and University. It originally housed the entire university as it then was and over the years it has served departments and schools in virtually every faculty of Dalhousie. The building was named in 1919 after Dr. John Forrest, third President of Dalhousie University.

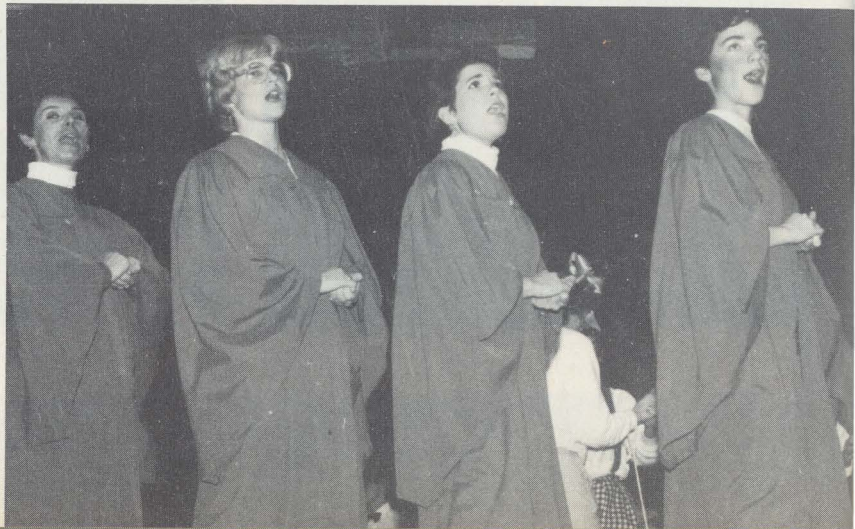

The Dalhousie Gazette, November 4, 1887, referring to the new building, said

*"Every student must feel very sensibly the vast change effected in our condition within six months. Ugh! those old musty walls that left a stain on the clothes of the followers of Minerva! the strong savour of ancient days that pervaded the entire building! But now an air of comfort breathes through each handsome room of our new home, and might inspire with some degree of ambition the most unwilling student. . . ."* "With regard to the new site, we understand that even its most bitter opposers are reconciled to the selection by the superior advantages of its central position. Distant enough from the noisy traders' seats to escape the din that formerly proved a serious hindrance to good work; near enough for any sake of convenience, what more could we desire? Let every true Dalhousian, then, hail with joy the new era that has dawned upon his Alma Mater."

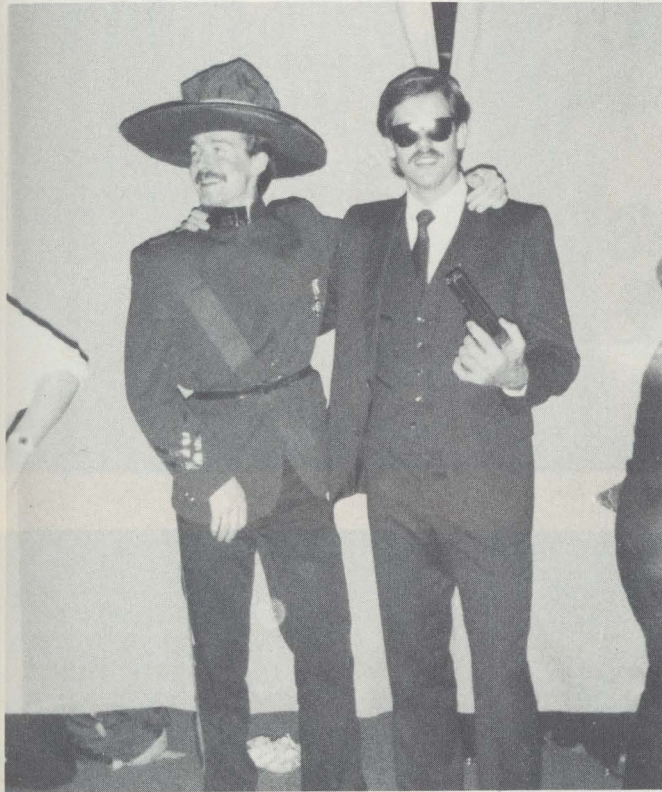

In 1984 the Forrest Building was completely refurbished to accommodate the Schools of Nursing, Physiotherapy and Occupational Therapy, in the Faculty of Health Professions. This restoration was made possible by the support of the Government and the people of Nova Scotia.

# Last Will and Testament

- I, Carol Bowlby, bequeath my perfectly illegible set of notes and my chair in the back row.
- I, Lori Cyr, being of sound mind and body (sort of), bequeath a fail-safe method of dealing with panic attacks — submit to them (e.g., leave the restaurant even if it means missing dessert).
- I, Brenda Dove, bequeath my alarm clock set for 7:00 am, my running shoes and my blank page representing the first five minutes of my next class.
- I, Jennifer Eames, leave an outboard motor to Dana, in case Brenda and I aren't around.
- I, Kathy Glenn, being of sound mind and body, leave my trusty sandpaper — now smoother than my tanagram could ever hope to be — to all O.T. students with a misplaced streak of perfectionism.
- I, Dana Hornibrook, bequeath my organizational skills and compulsive behaviors to whomever can tolerate them.
- I, Colleen Kinch, the first, bequeath to all future classes, my manual entitled: "The How Tos To Stuffing Your Whole Class In A Chevette" — You won't be able to live without it.
- I, Michelle Knox, leave my 99th half empty bottle of whiteout to whoever is as compulsive as I am.
- I, Monique LeBlanc, leave my pocket size travel alarm clock to any first year O.T. student who doesn't mind being 15 minutes late for their first written Anatomy exam, Theory exam, Kinesiology exam . . .
- To my colleagues, I, Bev Legere, wish to leave a copy of *The New Guide to More Rationale Living*, by Ellis & Harper.
- I, Nancy Levo, leave my persistence (or foolhardiness) to whoever needs it as much as I did (do).
- I, Faye MacLaren, bequeath to all future classes, my "special" shorthand system of writing for all those students who are compelled to write every word the professor says.
- I, Karen MacLeod, bequeath my skill in co-ordinating boots and skirts, to the fashion conscious individuals in my class.
- I, Laurie L. Nicholson bequeath my "Nikes" that were faster than Brenda Dove's "Skors" to some poor student who dislikes as much as I, being the very last person to class.
- I, Barb Norris, leave my activity analysis for "twirling", to all those who recognize the virtues of this activity for one and all!
- I, Lisa Rand, being of sound body and somewhat sound mind, hereby, bequeath my two parking spots at Dal. — the one I can't find in the morning and the one I'm blocked in to in the afternoon.

Thank you to my parents, Russell and Murial Sifton, whose love and nurture has been a life-long blessing, to my husband Paul for his continued love and encouragement, to my children Joseph, Miriam and Nathaniel, who have been patient with my absences and excited for my progress and last but certainly not least, to the many O.T.'s, most particularly Hetty Mogford, and future O.T.s, my classmates, who inspired me to continue.

CAROL BOWLBY

The support and encouragement from my family and friends is immeasurable. Thank you for loving me and putting up with me! Mom and Dad, who finally understand what O.T. is; my roomies over the years — Pat, Sharon, Terressa, Mich and Joc; Sis Paula and Clay, their gorgeous Chad, Stephanie, Tyler and Brendan who have brightened up my life with too many special moments to count; Daryl, who will share in my degree and the rest of my life and to you, my classmates — I love you all.

BRENDA DOVE

To Mom and Dad who gave support, encouragement and money . . . To Brandy who gave me much to laugh about . . . To Kelsey Eames Christensen whose arrival made life a whole lot brighter . . . To Jean Durrant who is non-O.T. and wishes to remain so . . . To Heather MacLeod who kept the jokes coming . . . To Erryl Hines, the brother I've always wanted and to my classmates . . . many, many thanks!

I would like to thank my parents, especially, for supporting me in this effort; to Anne and Mike for putting me up and for putting up with me for two years; to my sister, Wendy, who is one of my best friends; and I would like to say a special Thank You to Ina, for increasing my education in many ways and not only the academics.

With Love, NANCY

Words alone cannot express the gratitude I feel for those who have provided me with much needed support and encouragement during my university days. A simple thank you and the deepest feelings of love are extended to those who have helped me — you all know who you are.

LOVE ALWAYS FAYE

To faculty who modeled and facilitated my learning in O.T.; to classmates for fun, fellowship, encouragement and many, many memories; to my family for always being there during the stresses and confusion of these past years of study — Thank You.

LOVE KAREN

I'd like to take this opportunity, not that I'm an opportunist, mind you, to thank all my friends in the school who have made it such a memorable experience. Thanks, guys, I'll never forget Hallowe'en.

LORI CYR

Well gang, I would never have made it without you! I am especially thankful for Carol's feasts, Bev's spirits, Jenn's tunes and trivia, Faye's company on the rehab unit in P.E.I., Lisa and her car to be able to have fun exploring in and around St. John's while we were there, Kathy's cruises down the shoreline, Colleen's easy-going nature during stressful term times and Brenda's spunk!! Thanks, you guys!

LOVE BARB

To those who walked beside me:  
"You've shared with me my troubles!"  
Please share with me my joy!"

Special thanks to: My Mom and Dad, the consolers of many troubled phone calls, to Shaz, Lisa and Bren for their invaluable companionship and to Wayne, my personal tutor and very "special someone."

LAURIE (TOOTOO)

I am grateful to my family and friends for their support throughout my years at university. In particular I am eternally indebted to my husband Stephen. Thank you for writing over my papers, paying my tuition, feeding both me and my cat and most of all for being there and believing in me even when I didn't. You deserve a medal.

LISA RAND

I would like to thank Ted for his support and patience over the last three years and for leaving me this past year so I could get this done. Thanks also to Faye for helping me get through that time when graduation seemed furthest away.

KATHY

Thanks go to Bev Oliver Leger for talking to me in first year, giving me the support to continue with school and to not give in. You may not remember the talk Bev, but I do! To my classmates and fam-family for putting up with me — I know how hard it can be! To all of my special friends — you know how much I treasure you . . .

LOVE COCO

I, Michelle Knox, wish to thank first and foremost, my "Teddybear", Theodore E. Veinotte, for his loving support over the past three years, (as well as for his money). Thank you to my family for being there when I needed you. Finally, thank you to all my classmates, we've done it all together.

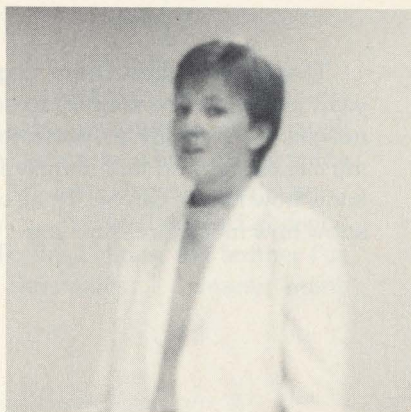

MICHELLE KNOX

To my fellow "BLACK SHEEPS" of the Class of '86, I would like to thank you for helping me maintain this status during the last three years. (That's Baaaaaad.)

DANA HORNIBROOK

The Legers, thank God it's over . . .
