Dear Ben:

Attached is my son's record at St. Mary's College. It is remarkable I think in view of his almost complete pre-occupation with athletics. He will work off his condition via a supp in September.

He wishes to return to St. Mary's - I am not so keen preferring him to take Grade XII. \$64? Assuming he passes in Algebra where does he stand:

- (a) in relation to Dalhousie matriculation;
- (b) in relation to a boy who has passed Grade XI at an ordinary High School?
- (c) If he takes Grade XII at St. Mary's what credit would he get next year at Dalhousie?

Yours,

VCM/EM.
