Dear Margaret:

On 29 March 1982 I sent to you Eye Level Gallery's application for program and operation assistance for 1982/1983. Marina Stewart recently double checked the application because of the \$4,558 deficit which was indicated for 1980/81 (see page 9). This is in fact an error on my part.

On page 7 I double added the line items and the total for the Fixed Costs. Thus, the deficit is actually \$1,423 for 1980/81 and estimated accumulated deficit of \$1,458.00 and an estimated accumulated deficit of \$1,040.00 at year end 1981/82 (eg June 1982).

I am very sorry for this error and want to apologize particularly as it caused real concern to Marina. I would say, however, that the layout of the forms does make it easy for people like myself to make stupid errors!

Thank you for your patience with us and please make the necessary corrections to the grant application. I look forward to meeting you,

Most Sincerely,

John Murchie
Treasurer
