## HAMILTON, BERMUDA

December the 10th, 1932.

Dear Mr. Raddall:

I have only now commenced to catch up on some of my long over due correspondence on my return from an extended business trip to Canada, the second since I met you. You will therefore, I hope, understand my seeming indifference in writing to thank you for your most generous and thoughtful gift of your book "The Sea Rover". It is a fascinating tale which I thoroughly enjoyed, doubly so knowing the author. The inscription which you wrote for me was much appreciated! I passed it on to some friends who thot it a fine sea story.

With many thanks, and hoping to have the pleasure of meeting you again, I am, with kind regards,

Yours very truly,

EWO/M

*Say it with Flowers.*
