# TWO CANADIAN FOOTBALL LEAGUE GAMES TO BE PLAYED ON CAMPUS

## Editorial

# **Sportsmanship**

# **Gate Receipts**

The Dalhousie Field, which the University renovated at a cost of \$20,000 during the last two years, will be the scene of only two Canadian football games this season.

The Dalhousie Canadian football team will play a total of three home games this year under the regular schedule of the Halifax Canadian Football League.

It is planned that the two games that are played on our field will both be subsidized; one by the Students' Council, and the other by the University. In each case half the admission price will be paid and the students will only have to part with 25c per game.

The reasons for this strange state of affairs are to be found in past history, and are the result of a clash between what may be termed "sport for sport's sake" and a mercenary interest in gate bater and was a former editor of receipts.

Last summer, when the schedule of games to be played by the League was drawn up, Dalhousie of Pine Hill was chosen secretary. University authorities were uncerplaying condition by fall, and the field was overlooked when the League considered the matter.

In fact, Dalhousie had no representative at this meeting.

It was agreed at this meeting that all games would be played at the Wanderers' Grounds.

When the League met this week to consider the matter further Wanderers' produced this agreement and insisted that it be kept.

The League refused to allow Dalhousie students in to Dal games at half price, even after Dalhousie offered to allow spectators for the opposing team in at the same rate. Dal even suggested that all spectators be allowed in free. This idea was squelched by other members of the League.

The League would not allow Dalhousie to play any games on its own field until they were guaranteed the full admission cost would be met. . The factor which finally persuaded them to do so was the unwillingness of some of the teams to play mid-week

games. The cause of this essential difference of opinion was that Dalhousie participants were in the

\$10,000 A GAME Take a look at the football field around which was centred a lot of controversy. The University spent \$20,000 to give the students a field but the Football League says only two home games. Next year it is anticipated that more games will be played (Photo by Marshall)

# Quarter Admission for All Students Granted Through University and Council

Dalhousie University and the Students' Council won a moral victory over the Halifax and District Canadian Football League Tuesday night which will guarantee two league games on the campus football field.

Technically, the league had the upper hand. When it was organized in Augusteams agreed to play the games at Wanderers Grounds, with Dalhousie's representative acting on the assumption that the university field would not be completed by this Fall.

Coach Gabriel Vitalone, going® to bat for university football enthusiasts, tackled the ticklish a half hour earlier than games at problem of avoiding this agreement with vigour and defended the Council's stand which insisted Tigers will have a little milder on at least two fixtures on uni- competition on Monday when they versity grounds.

The league would have no part both their games to date. of Dal's request for a third game on the Campus on October 21.

Another arrangement was arrived at as a result of the meeting. Vitalone, speaking on behalf of the Council and the University, sked for reduced admission for asked for reduced admission for students for these two games.

## Time to Clean Up the Mess

The mess of accumulated trash left by thoughtless students on the floor of the Common Room in the Men's Residence is a disgrace to the university and a reflection upon the standards of the student body.

Before the canteen was introduced into the Common Room the floor was occasionally messy, but not more so than could be expected under the circumstances. Last year, however, after the canteen was opened for the convenienc of the students, the floor was littered with empty coke bottles, discarded chocolate bar wrappers, and other refuse.

People would buy refreshments at the counter and then throw the wrapper on the floor, among a litter of empty coke bottles and apple cores. The main reason for this was just plain laziness.

If a number of suitable containers were available however, students would be less apt to throw their trash on the floor. The Powers that be should make more allowance for human weakness and install a few more waste paper baskets in the Common Room.

This would solve the greater part of the problem, but there are some students, born trash-throwers, who can never be cured by such methods. More severe measures should be available.

To end this mess once and for all, the Students' Council should make it known that all students found throwing rubbish on the floor of the Common Room will be fined. Several signs announcing this fact should be posted in prominent positions, and an example should be made of offenders.

If there is no improvement this year, it would not be too surprising if the University authorities, disgusted by the mess, should withdraw canteen privileges, and thus deprive the students of a convenient refreshment counter. The students would have none but themselves to blame if this were to happen.

The audience was puzzled by the deapan "Lost Wanderstudents would have none but themselves to blame if this were to happen.

### Dawn

There is a misty aura of sparkling gems Dancing above the waves at dawn, Apollo spilled them, his gift to day As his chariot pranced Through the pillars of haze.

The flickering fingers of quivering silver Playfully snatch at each tiny beam There are too many for the palm to grasp They spill and lie forgotten Until eternity gathers them in.

M. E. N.

#### Frosh News

The Freshman Class of 1950 made their official debut at Gym on Monday night and their Freshman Show was an outstanding success. The sophomores seemed to be enjoying their lordly positions, undoubtedly being spurred onward by the too vivid memories of their own trials and tribulations of last year.

The programme got off to a flying start with a presentation of an aptly performed "Bumble Bee" by Gloria Kent, followed by what sounded like a syncopation of "Three Blind Mice"

A quartet of four boys from "Canada's Newest Province" delighted the audience with their version of their old provincial Folk Song "The Squid Jiggin' Ground". They were followed by Ron Green with his imitation of Al Jolson. The Shirreff Hall contingent bid a fond "Goodnight, Irene" and a surprisingly lusty performance of the "Weaver's Song".

The audience was puzzled by the deapan "Lost Wanderers" but John Begin changed all that with a few poignant remarks. Those boys certainly know how to handle a "geetar". Wilfred Crouse, the "friend" of all frosh, was tossed into the act, and received as respectable an applause as one could expect for singing "Mountain Dew" in public.

Bill Haley presented Sally Ann Baxter and Doug Waller with the titles of Typical Freshette and Typical Freshmen of 1950.

The credit for organizing this successful performance (Continued on page 3)

### A Frosh's View of Initiation

We freshmen are going through a grueling ordeal. We are informed that we are the lowest of the low, and the lofty sophomores won't let us forget it for a moment.

Our first real glimpse of college life was at a meeting on Saturday morning. We sat on hard chairs from eleven until half past one. The most honourable sophomores would do well to plan their next meeting a bit better. It lasted so long that even their speakers began to leave.

The climax of that glorious day came that night at exactly (hmm) eight o'clock. At long last we were taken to the lockers to be painted up and literally pulled apart. The grand entrance was very effective, complete with painted faces, arms, legs, painted placards, and various articles of clothing put on at crazy angles. We dizzily spun our way around the gym screaming "Glory, Glory for Dalhousie" at the top of our lungs. After we sang so much that our voices gave out they forced us to dance all night.

The sophomores acted in a juvenile manner. It would appear, judging by their actions, that some of them have definite brute complexes and should be psychoanalysed and be declared cured before they are allowed to associate with sane and civilized freshmen. Some have the mistaken idea that they are dictators.

Well Fellow Sufferers, they tell us the worst is yet to come. To you I extend my very deepest sympathies, but a ray of light creeps through the grey gloom—there are only seven more days of this.

### Who's Library

There are always those few freshmen who seem to think that the library is a sacred precinct reserved for upper classmen and cramming before exams. consequently the reading room resounds to the sound of their footsteps at intervals as few and far between as possible. This year, as in the past, the authorities have issued for the benefit of these students, a handbook explaining what the library is and how to use to best advantage its facilities. These may be obtained at the desk.

There are over 82,000 volumes in the Dal library which number does not, of course, include the large and excellent libraries of Med. and Law on Forrest Campus. There are available books on practically any subject as well as many interesting and valuable fictional and non-fictional works. In addition the Library subscribes to over three hundred periodicals which may be found on the large table in the middle of the reading room. Up on the third floor of the building is located the modern library containing over three hundred recent publications of the major authors. These books are available to all students and staff of the university.

Remember, the Dal Library is YOUR Library.

This Is Your Campus

One of the beauties of Halifax is the Dalhousie Campus. Visitors to the city, no matter where they come from, all exclaim, "We love your campus". They are immediately impressed by the university, without knowing anything about its interior, its standards or its students. It is all very well for strangers and visitors to admire the campus, but do we, who are students fully appreciate the surroundings where we spend the greater part of every day?

What formerly was Morris Street has appropriately been re-named University Ave. This leads up to what will be, within the next twelve months, a horse shoe of college buildings. The new Arts and Administration Building will be the connecting link, and like the tremors of the upheaval, this other Dalhousie buildings, is being built of what has been called "Ageless Stone."

To the right and the left of this new building lie the Gym, the Men's Residence, the its presence on its chart. Arts Building on one side, and the MacDonald Memorial Library and the Science Building on the other. These are not just a group of buildings, which together make a college. These buildings, each with a specific purpose, and separated by wide lawns and shaded by tall, stately trees, are the basic part of Dalhousie.

Students come and students go: But the Campus is there forever.

# Dalhousie To Erect New

**Building for Seismograph** 

Following a long list of firsts, Dalhousie has added vet another modern installation to further the education of its university students. In the midst of the century old Campus surrounded by trees, a new building will be erected for all to see, and in it will be the most modern seismograph in

sitivity of the present one in in the then new observatory the Science Building, it was on Vesuvius. felt that a more up to date instrument was needed in its This announcement came from Dr. C. S. Beales, Ottawa, who is Dominion Astronomer. Dr. Beales arrived in this city a few days ago to discuss the project with Dalhousie officials.

The new seismograph will earthquakes, landslides, interdepths of the earths crust or on the surface.

No matter how faint the new instrument will indicate

It has yet another purpose, that of enabling the students of the Geological Department to study more closely and with more accuracy the geological movements on the earth's globe.

The Seismotor, the first of Jean Seeley, and the Initiating its kind, was invented by Committee—Bill Haley, Eddie David Milne in 1841 to denote Kinley, "Foo' Grant, Margot an instrument for the record-MacLaren, Marvin Ellis, Joan ing and measuring the movewas given to an instrument Dalhousie.

Owing to the failing of sen-erected in 1855 by L. Palmieri

The essential feature of the modern seismograph is that some point or line within it shall be at rest, or very nearly so, during the complicated movements of the ground in an earthquake. Various methods of obtaining such steady points have been proposed. but the instruments in genbe used to record any type of eral use are various forms of earth disturbance, including pendulums. The movements of the earths surface that are nal eruptions, or even man picked up by the seismograph made explosions; wherever are registered on a chart. these may be, either in the There are two methods now being used, one-mechanical, a fine point tracing the movement on smooth paper covered with a thin layer of smoke; the other photographic. The beam of light passing through a hole in the end of the pendulum, or more generally reflected from a mirror connected with the pendulum.

There are three main types of movement that the seismograph can pick up. These are earthquakes, earth tremors and earth tiltings. Earth tremors resemble earthquakes in their rapidity, but differ in being inperceptable, (owing to smallness of motion). # English Rugger Team Open Season Against Truro in Hub Town on Saturday

# Tigers Play Host to Shearwater on Campus

### Coach George Gray Predicts Strong **Showing from Team in Opening Game**

The 1950 edition of the Dalhousie Tiger's English Rugger team will play their first game of the current season against Truro in the "Hub" town this Saturday. The squad have been turning out for prac- the use of our gym last year, will tices for the past two weeks and Coach George Gray expects a strong put on only three concerts before showing from his boys against the Truro club.

The team has had two practice games with N. S. Tech, one of the strongest teams in the "B" section, and on both occasions showed the gym on Tuesday evenings, plenty of fighting spirit. Although lighter this year than any other while no specific time has been season the team has a well balanced Scrum and a very fast line.

The starting lineup for Saturday's game is as follows:

Forwards: Fairweather, Leslie. Ellis, Robertson, Kerr, Jardine.

Halfbacks: Sproul, Smith. Linemen: Guidry, Fraser, Delorey, Tracey,

Fullback: R. Medjuck.

Subs: MacPherson, MacLeod, S

The bus for Truro will leave the Gym at 10 o'clock and manager Dave Jardine has announced that there will be a few seats available for spectators.

### Cheerleaders Turn Out To Practice for Game

The cheerleaders for the football game tomorrow, between Shearwater and the Dal Tigers were getting their initial practise in the Gym on Wednesday afternoon when cheerleading veteran Joel Christianson was competently giving them their instructions.

Joan McCurdy, one of last year's squad, who showed ability at the task, turned out and consiasm shown by the whole squad.

This group of would-be cheerleaders consisted of freshettes as "Foo" Grant, Jean MacLeod, Joan Hills, Betty Dunn, Ethel Ruth Bulmer, Jerry Grant, Marg Smith, Ethel Schwartz, Martha "Sis" Nichols, Barbara McGeoch, Harlowe, Carol Cole and Betty Carol Bethune and Anne DeCar-Morse. Some more of last year's teret, of last year. However, cheerleaders are expected back.

### Bengals Prepare to Down Navy Fliers Fewer outside organizations will As First Gridiron Approaches

Coach Gabe Vitalone Dalhousie Tigers, 1950 version, went through their heaviest workouts of the season for the last week or so in preparation for their opening game with H.M.C.S. Shearwater Saturday in the Halifax Canadian Football League. The Bengals sweated through two hours of heavy scrimmage daily to round out new plays and to get used to heavy body contact. Saturday's game will be played on our own field and will be the first game played there since 1947.

There is a feeling of quiet confidence here. Vitalone and his quarterbacks, McKay and Clancy, scouted Shearwater Saturday.

Greatest asset we have this year is a lightning fast backfield packing a combination of speed and weight that should be hard to stop. Halfbacks Don Harrison, the "Bermuda Bombshell," and Gordie MacCoy have been almost unstoppable in practise, and with steady ball carriers like Eddie Kinley and Scott Henderson to spell them, they should both better their ground gaining averages of last season.

# MacLeod Scores Upset in our Studley team. Fellow coun-

On Tuesday of this week the Dal tennis tournament began. First and second round play was held on the Dal courts but the semi-finals and the finals will be played on the Cathedral Courts on Friday, Oct. 6.
