The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry, no matter how small, should be recorded to ensure the integrity of the financial statements. This includes not only sales and purchases but also expenses and income. The document further explains that proper record-keeping is essential for identifying trends, managing cash flow, and complying with tax regulations.

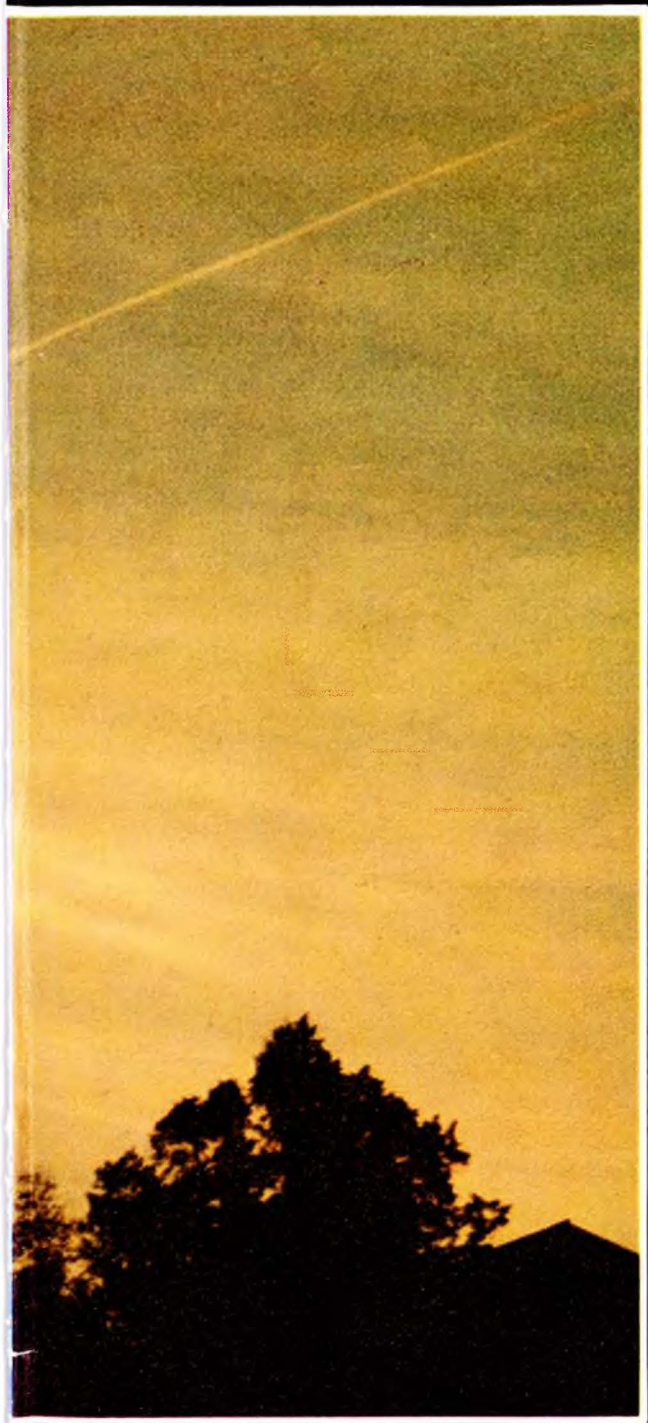

In the second section, the author provides a detailed overview of the accounting cycle. This cycle consists of eight steps: identifying the accounting entity, choosing the accounting method, analyzing transactions, recording transactions in the journal, posting to the ledger, preparing a trial balance, adjusting entries, and preparing financial statements. Each step is explained in detail, with examples provided to illustrate the process. The document stresses that following these steps in order is crucial for producing accurate and reliable financial information.

The third section focuses on the classification of accounts. It distinguishes between assets, liabilities, and equity accounts, as well as revenue and expense accounts. The document explains how these accounts are organized into the accounting equation and how they interact with each other. It also discusses the importance of understanding the normal balances for each type of account to ensure that debits and credits are correctly recorded.

Finally, the document concludes by highlighting the role of the accountant in providing valuable insights into the company's financial performance. It notes that by analyzing the data recorded in the accounts, accountants can identify areas of strength and weakness, recommend cost-saving measures, and help management make informed decisions about the future of the business.

PRESIDENT AND VICE-CHANCELLOR

May 6, 1976

TO THE CLASS OF 1976:

The Reverend Doctor James Ross, Dalhousie's President in 1875, did not need to write a farewell message to his Class of '75. He could, and probably did, shake hands with all twelve of them! The President one-hundred years later is grateful for this opportunity offered by the Editor of PHAROS to bid a warm good-bye to the Class of 1975, approximately seventeen hundred strong.

It is the hope of those of us who have contributed in one way or another to your programme of studies while at Dalhousie, that in the years ahead we may hear well of you whether your field of activity is one that draws public attention or whether you contribute quietly and steadfastly in some way to the welfare and happiness of your fellows.

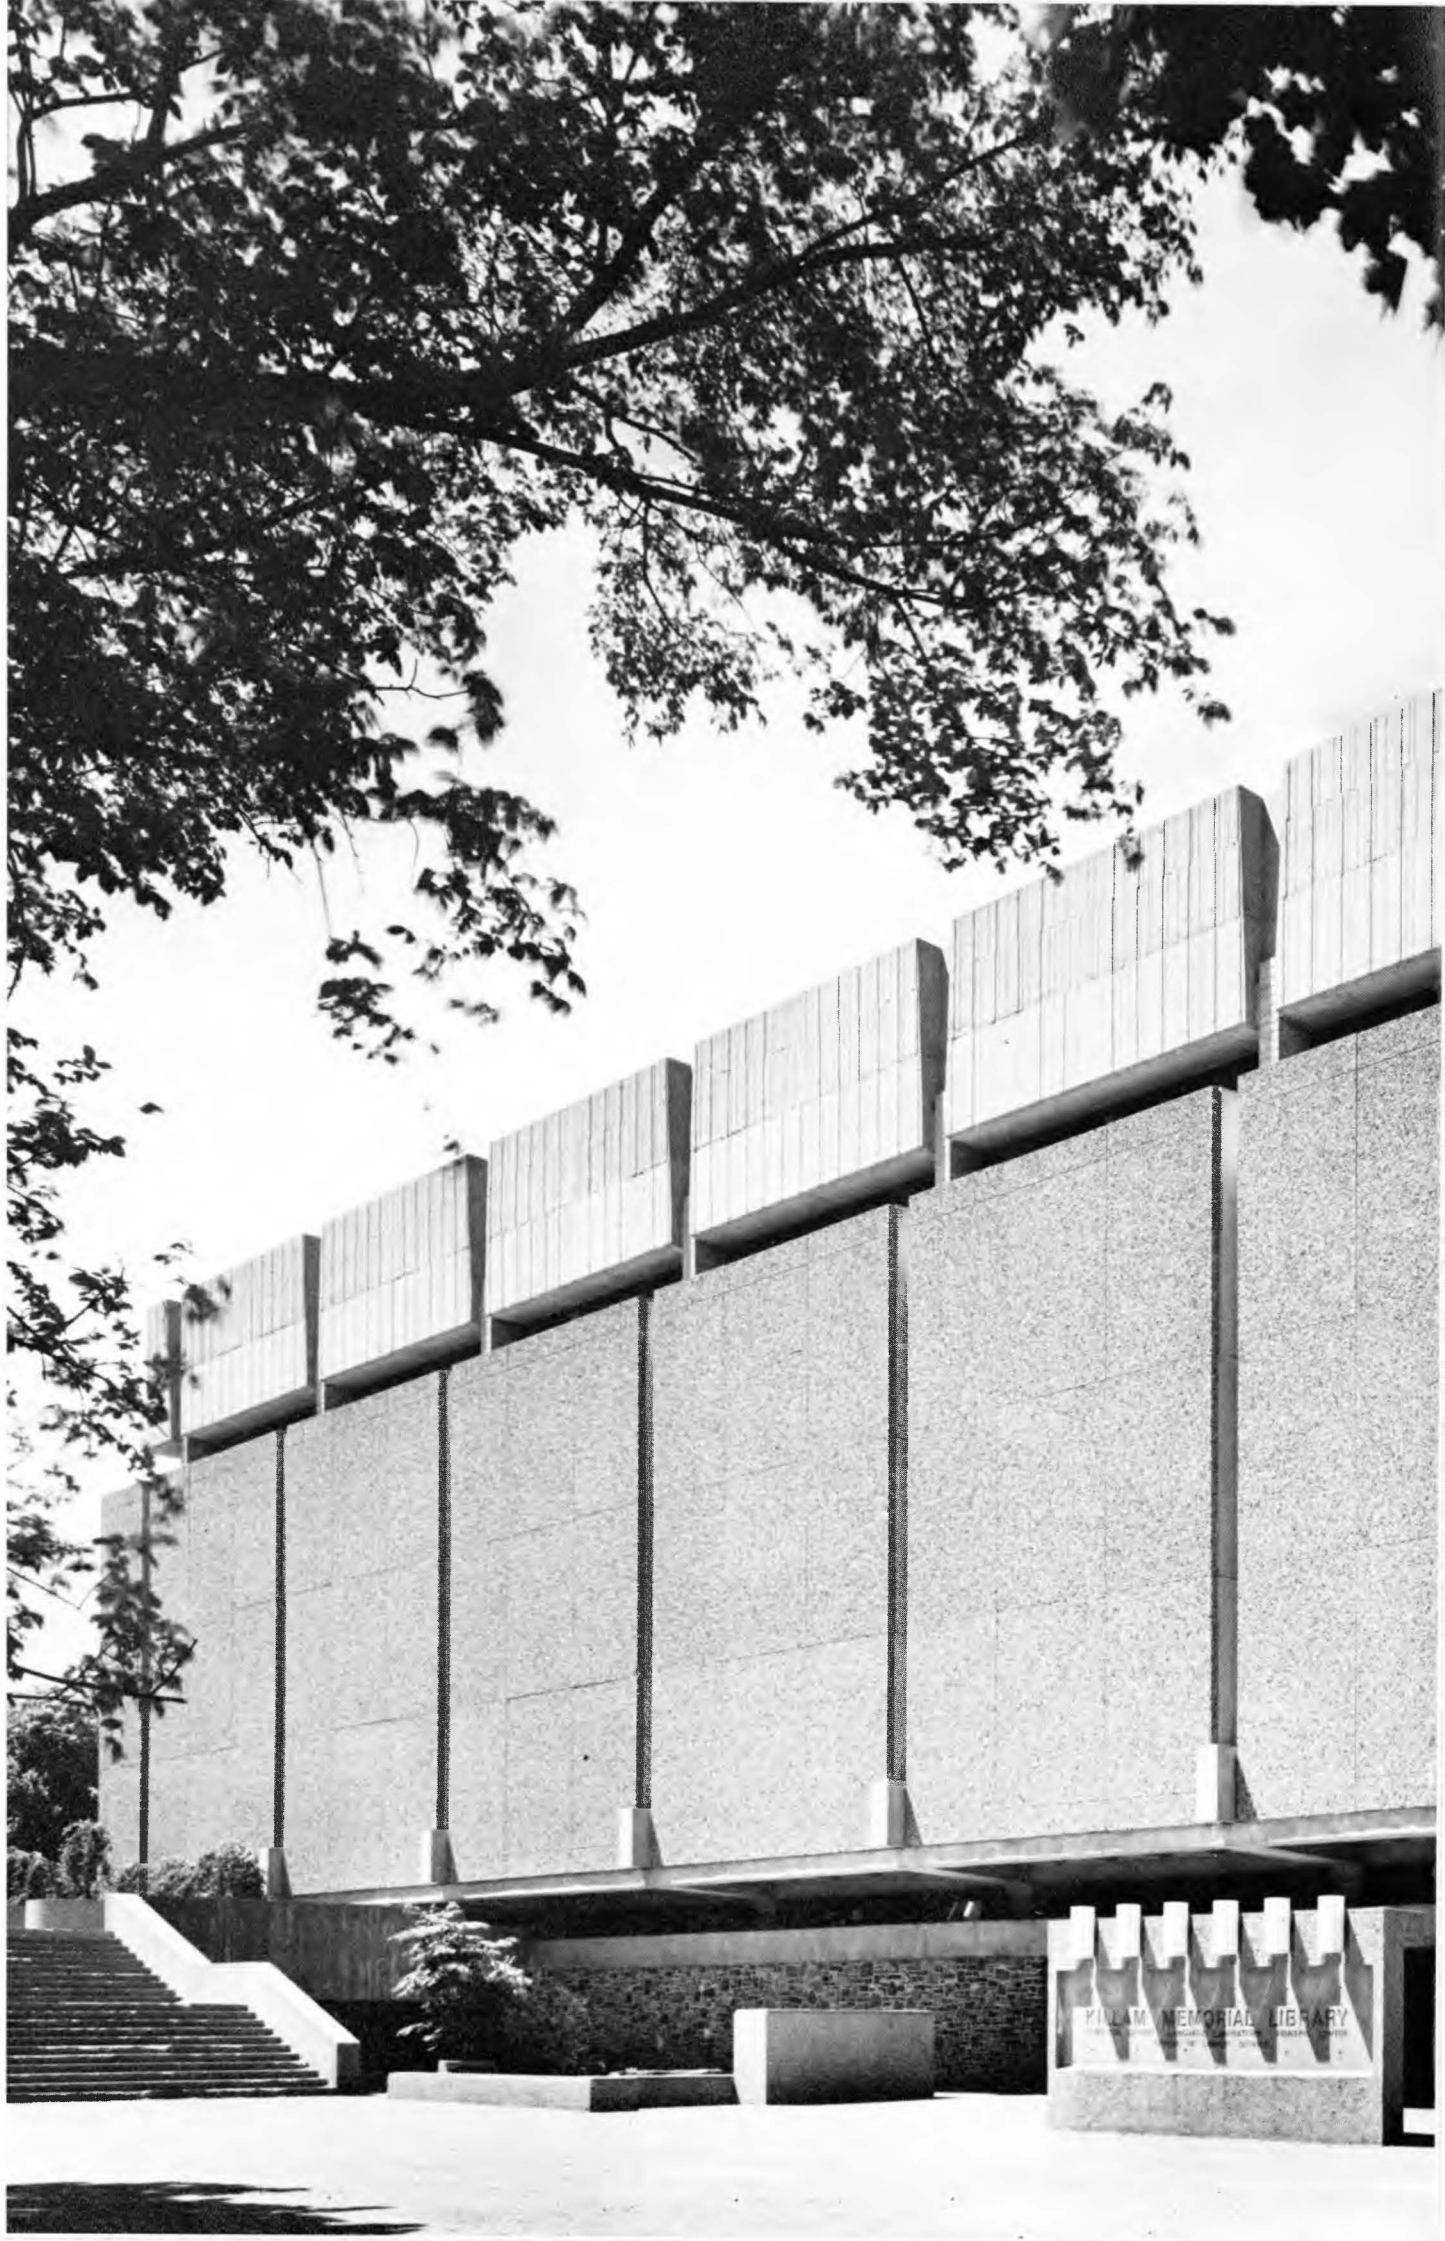

I urge you to keep in touch with your university, through the Alumni Association or however you may choose. We need your support and helpful criticism that Dalhousie may continue to be a significant part of the Canadian University scene.

Henry B. Hicks

Time,
Time,
Time, see what's become of me
While I looked around for my possibilities
I was so hard to please.
Look around,
Leaves are brown,
And the sky is a hazy shade of winter.

In Memoriam
Dr. Ernest Guptill

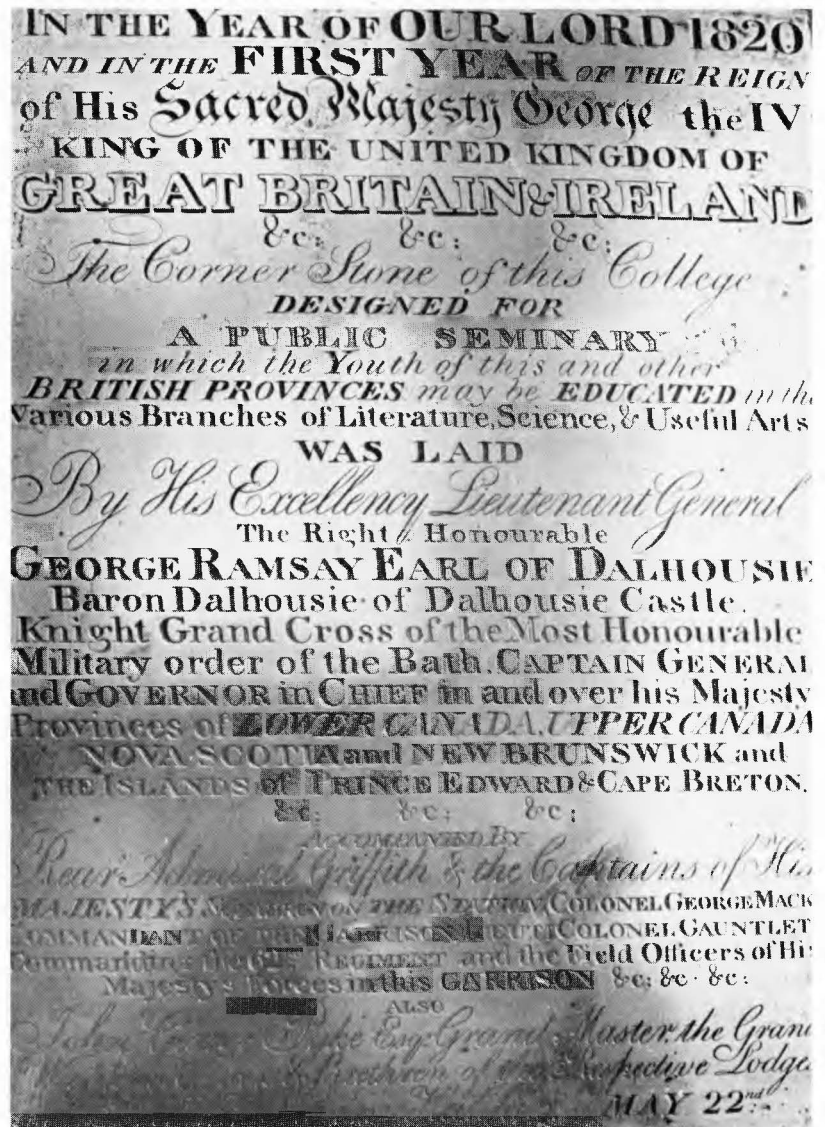

Life is an expansion, of growth and wisdom.
Full of struggles and experiences;
Little joys and pleasures,
Everybody trying their ideas, on one another.

George Ramsay, ninth Earl of Dalhousie

“Before I proceed in this ceremony, I think it necessary to state to you, gentlemen, the object and intention of this important work; I think it necessary to do this because I have never yet made any public declaration of the nature of the Institution I am here planting among you, and because I know that some part of the public imagine that it is intended to oppose the college already established at Windsor. This College of Halifax is founded for the instruction of youth in the higher Classics and in all Philosophical studies; it is formed in imitation of the University of Edinburgh; its doors will be open to all who profess the Christian religion; to the youth of His Majesty’s North American Colonies, to strangers residing here, to gentlemen of the military as well as the learned professions, to all, in short, who may be disposed to devote a small part of their time to study. It does not oppose the King’s College at Windsor, because it is well known that college does not admit any students unless they subscribe to the tests required by the Established Church of England, and these tests exclude the great proportion of the

youth of this Province. It is therefore particularly intended for those who are excluded from Windsor; it is founded upon the principles of religious toleration secured to you by the laws, and upon that paternal protection which the King of England extends to all his subjects. It is under His Majesty's most gracious approbation of this institution that I meet you here today, and as his humble representative I lay this corner-stone of the building. I here perform an act which appears to me to promise incalculable advantages to this country; and if my name, as Governor of the Province, can be associated with your future well-being, it is upon the foundation of this college that I could desire to rest it. From this college every blessing may flow over your country; in a few months hence it may dispense those blessings to you whom I now address; may it continue to dispense them to the latest ages! Let no jealousy disturb its peace; let no lukewarm indifference check its growth! Protect it in its first years, and it will abundantly repay your care!"

Cornerstone of the original Dalhousie

Address of George Ramsay, Cornerstone laying, May 22, 1820

The site of the original Dalhousie on the Grand Parade.

Dalhousie University was founded as the result of an idea of George Ramsey, ninth Earl of Dalhousie, Lieutenant-Governor of Nova Scotia in 1817, that a university be open to any student, regardless of class or creed. The funds used to begin construction of the university were obtained from customs duties acquired by the British during their period of occupation of Castine, Maine in 1814.

The original site of Dalhousie University was the Grand Parade, where Halifax City Hall now stands. On May 22, 1820, the Earl of Dalhousie laid the cornerstone of the first Dalhousie College.

The buildings were ready for occupation in 1823, but the professors had not been chosen, and even the early supporters of Dalhousie were becoming apprehensive, believing that King's College in Windsor was sufficient as an educational centre. As a result, the college was closed and served as a community centre from 1829 to 1838. There were two attempts to

amalgamate with King's College, but both failed. Eventually, Dalhousie came to function as a college, in 1838, with Reverend Thomas McCulloch as President until 1843.

There were only three possible chairs at Dalhousie when it opened, classical languages, mathematics and natural philosophy, logic and rhetoric. The first class consisted of twelve students, which later increased to sixteen. The courses lasted four years with the tuition being \$20, \$24, \$12, and \$6 respectively.

When President McCulloch died, the college again closed. It remained so until enough funds accumulated, which was in 1848. A Board of Governors was appointed by Joseph Howe, with Sir William Young as Chairman. During the period between 1840 and 1860, Dalhousie College became a high school named Dalhousie Collegiate School and later, Dalhousie High School.

In 1863, Dalhousie had a second President, Reverend James Ross. President Ross resigned

in 1885 and he was succeeded by Dr. John Forrest, who, with his brother-in-law, Mr. George Munroe, founded five new chairs. They were Physics, History, and Political Economy, English Literature and International and Constitutional Law and Philosophy. Munroe donated \$350,000 which was used to erect new buildings and to improve the quality of the teaching staff. Mr. Munroe's generous grant was honoured with the proclamation of an annual University holiday in his name.

In 1882, due to a bequest of Alexander MacLeod, the chairs of Classics, Modern Languages and Chemistry were founded. Dalhousie moved to Carleton St. in 1886 where the Forrest Building was built housing the Faculties of Law, Medicine, Dentistry, Pharmacy and Biology. In 1912, for \$50,000, the Studley Estate was purchased and here the Science Building (now the Chemistry Building) and MacDonald Library were constructed.

Between 1920 and 1930, Sheriff Hall and the Law Building were completed. During the 1930's the Gymnasium and the Medical-Dental Library were built. The 1950's saw the construction of the Arts and Administration Building and the Memorial Rink. In the early 1960's, the Dunn Building was constructed, now housing Physics and Geology, and the Sir Charles Tupper Building, the new medical institute. The fall session of 1970 saw the completion of the beautiful Isaac Walton Killam Memorial Library where the faculties of Mathematics and Languages, and the Computer Centre are located. The following year, the elegant Arts Centre opened, containing the Rebecca Cohn Auditorium. The vast Life Sciences followed in 1972, and it now incorporates the Biology, Oceanography, and Psychology departments.

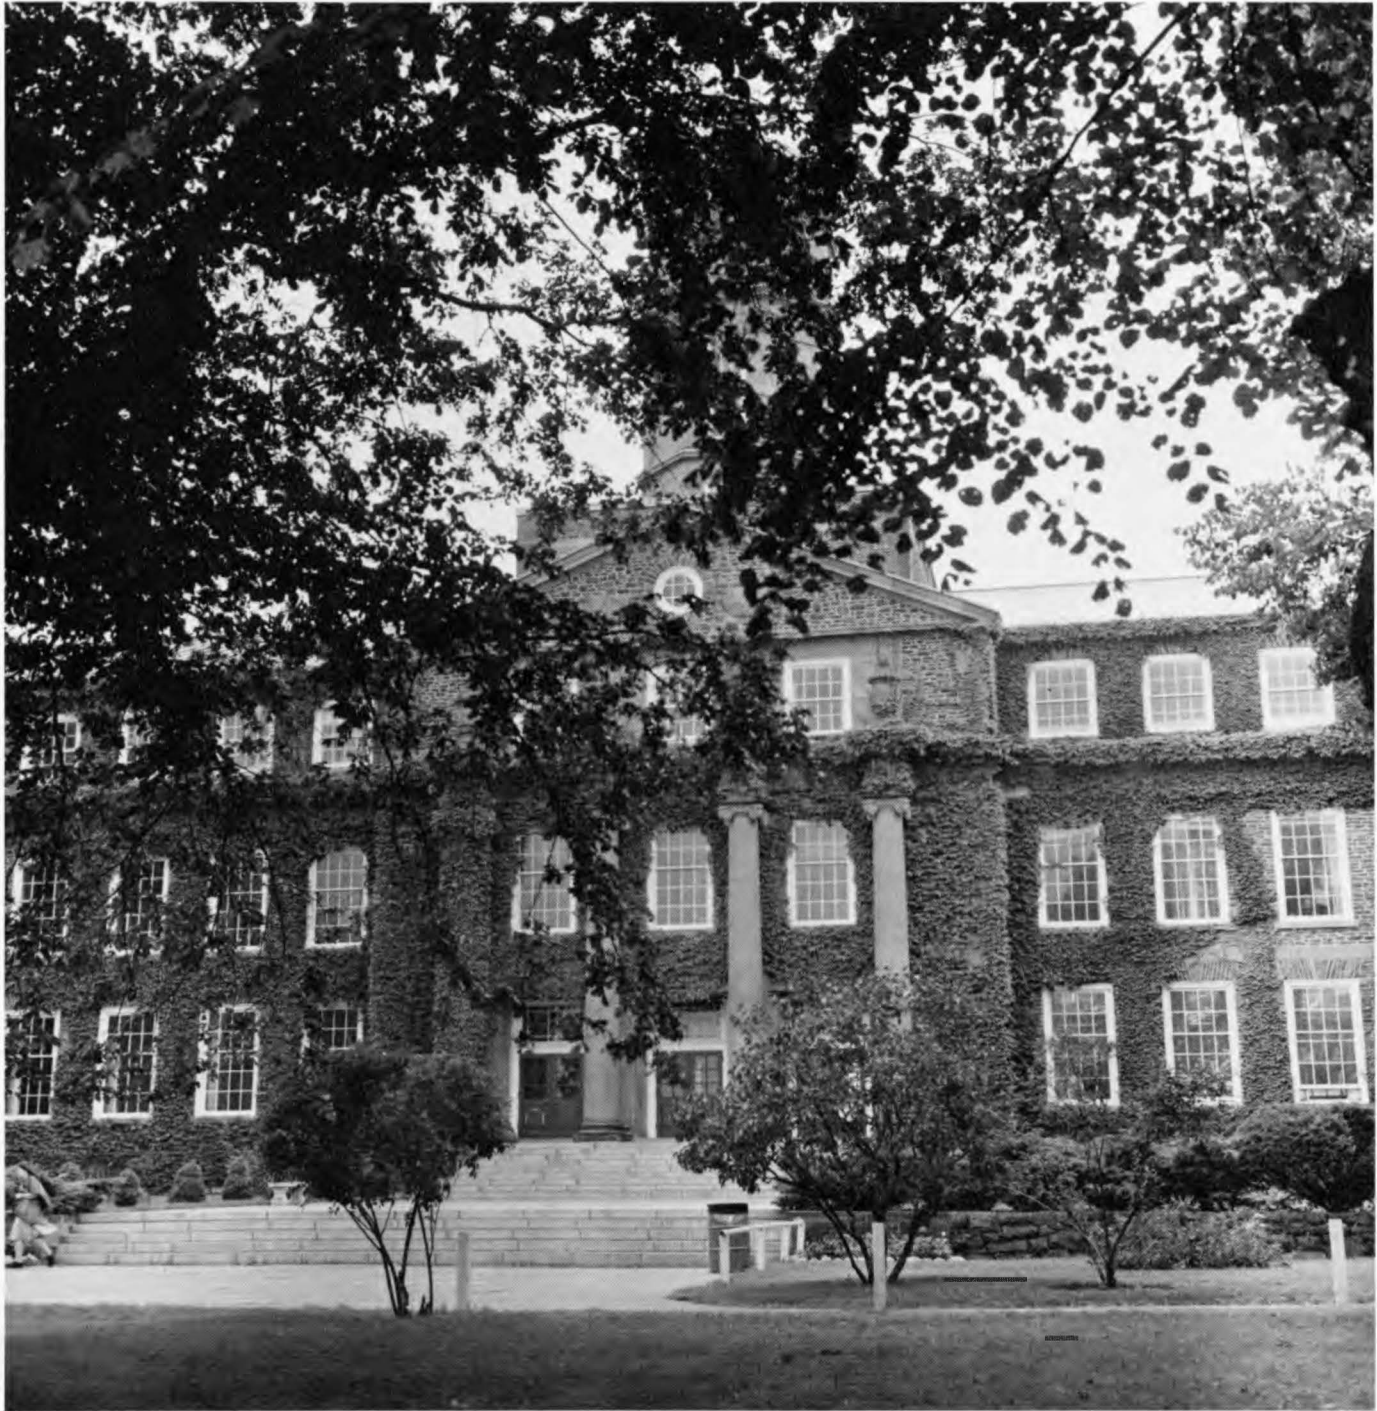

As Dalhousie celebrates its 158th anniversary, plans are in the making for further expansion of the educational facilities. Specifically, these plans include the erection of an Athletic Complex, Physical Sciences Centre, and Dentistry Building.

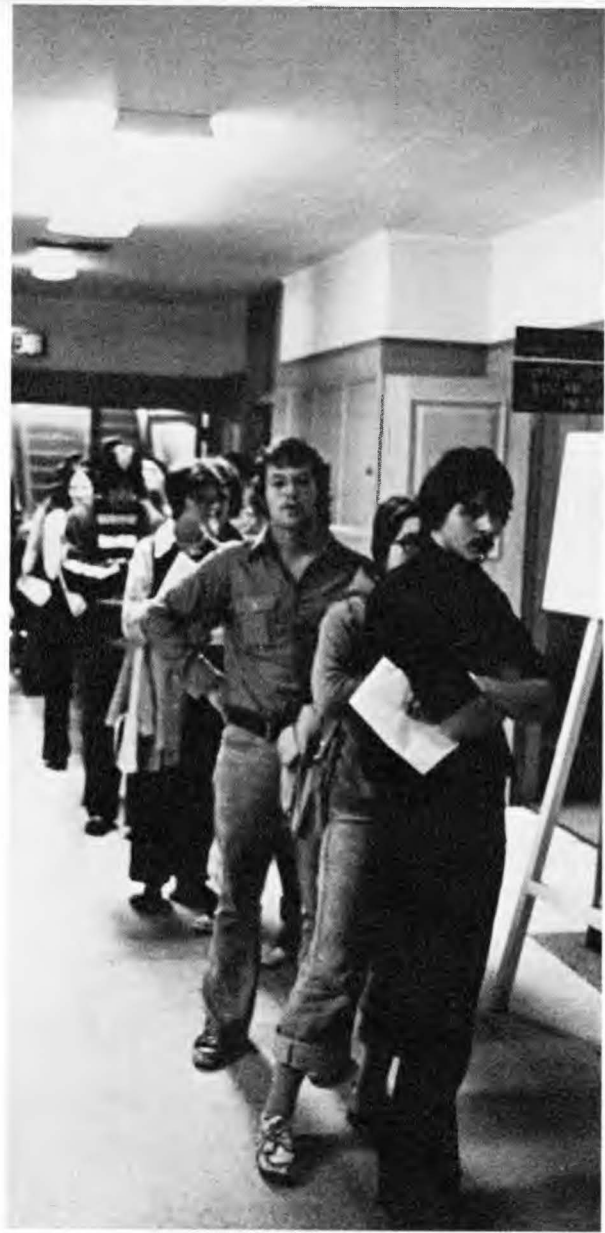

The Forrest building became Dalhousie's new campus at the turn of the century.

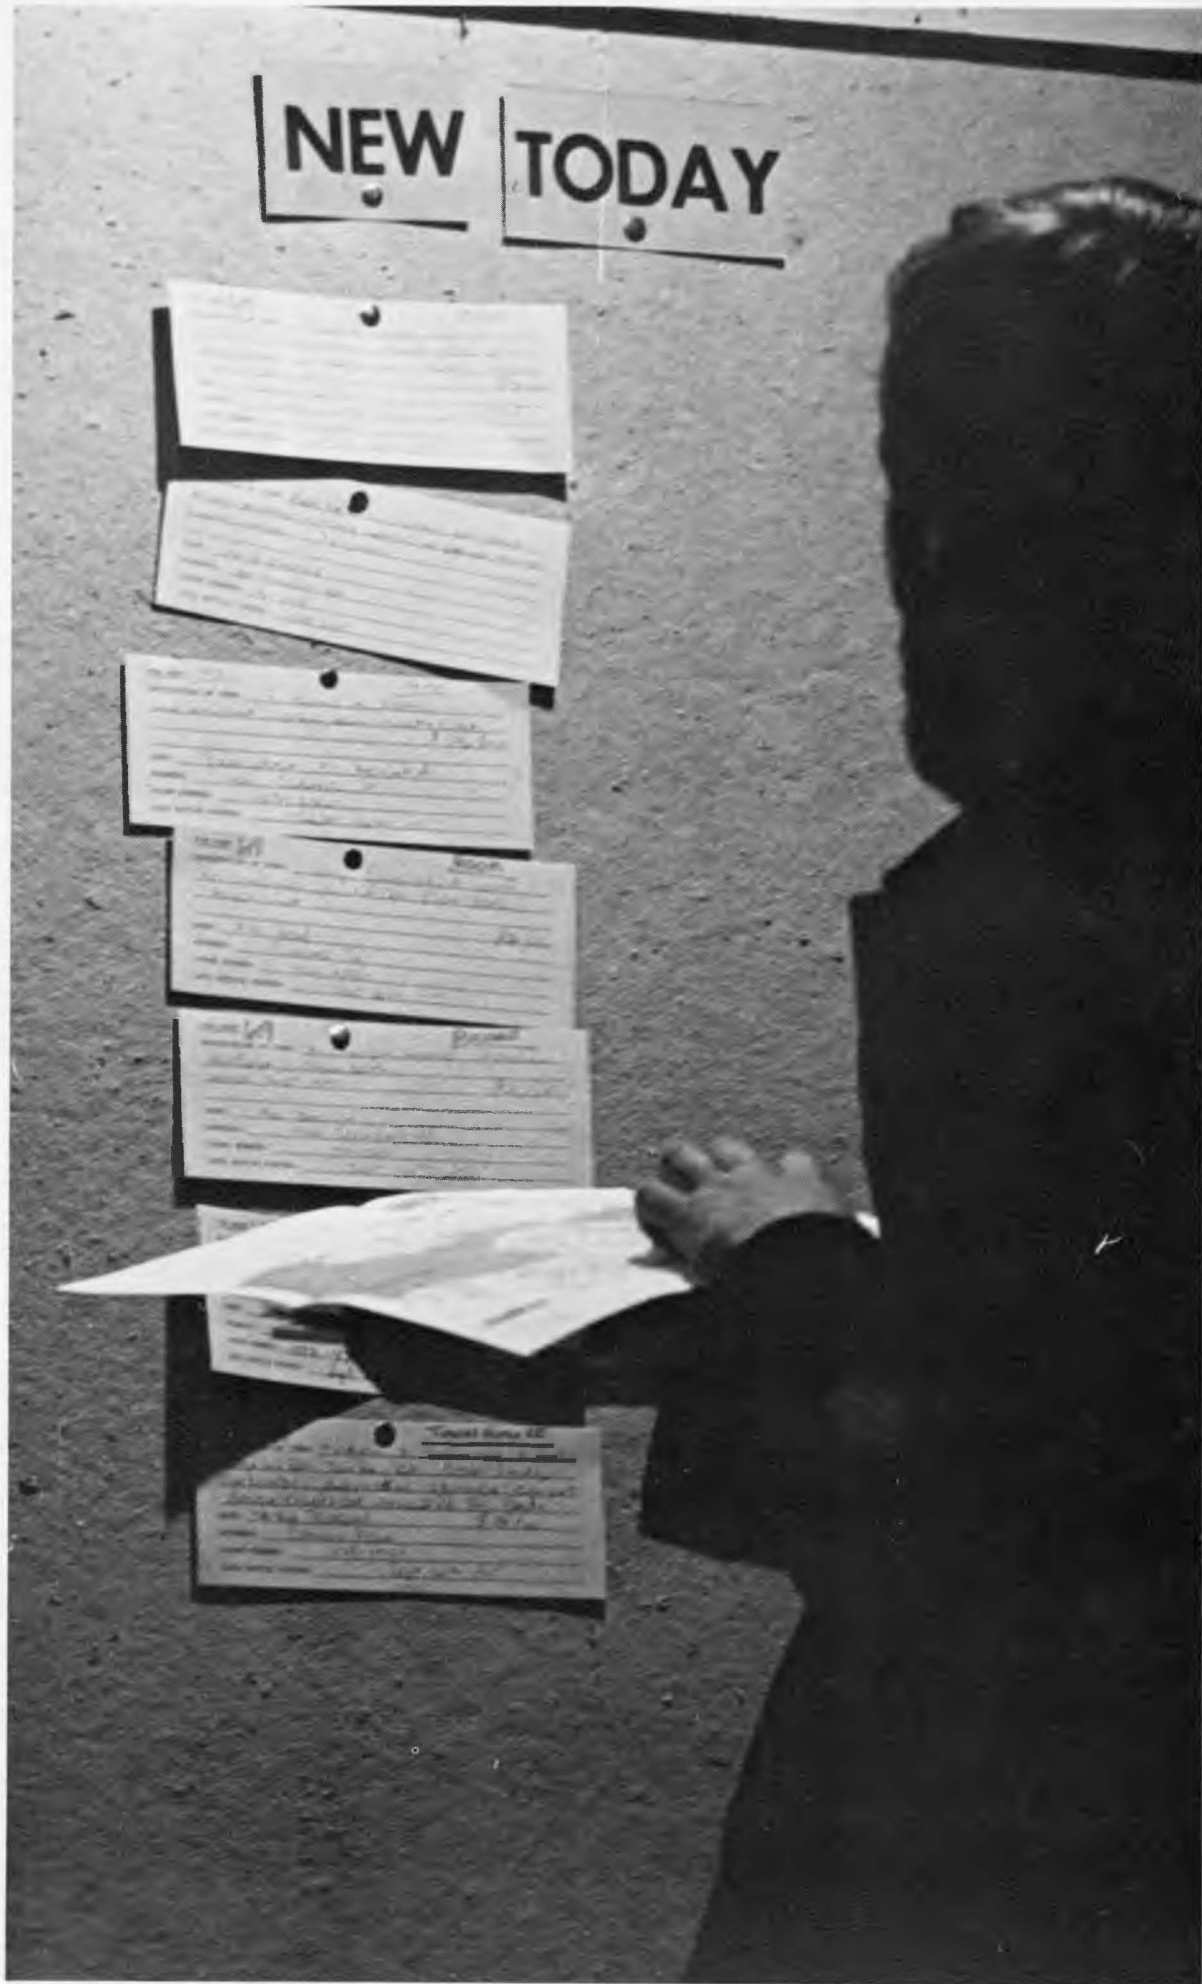

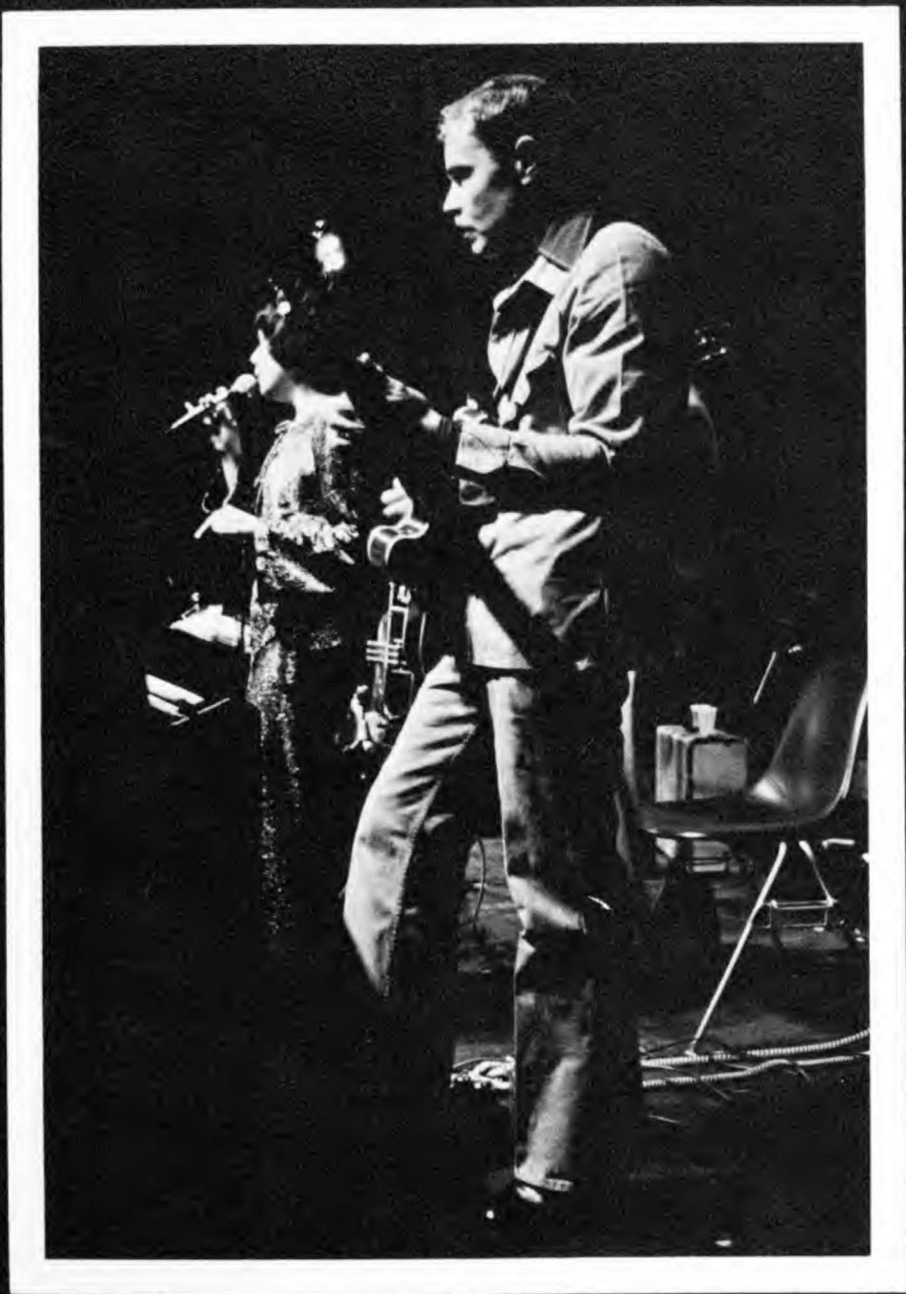

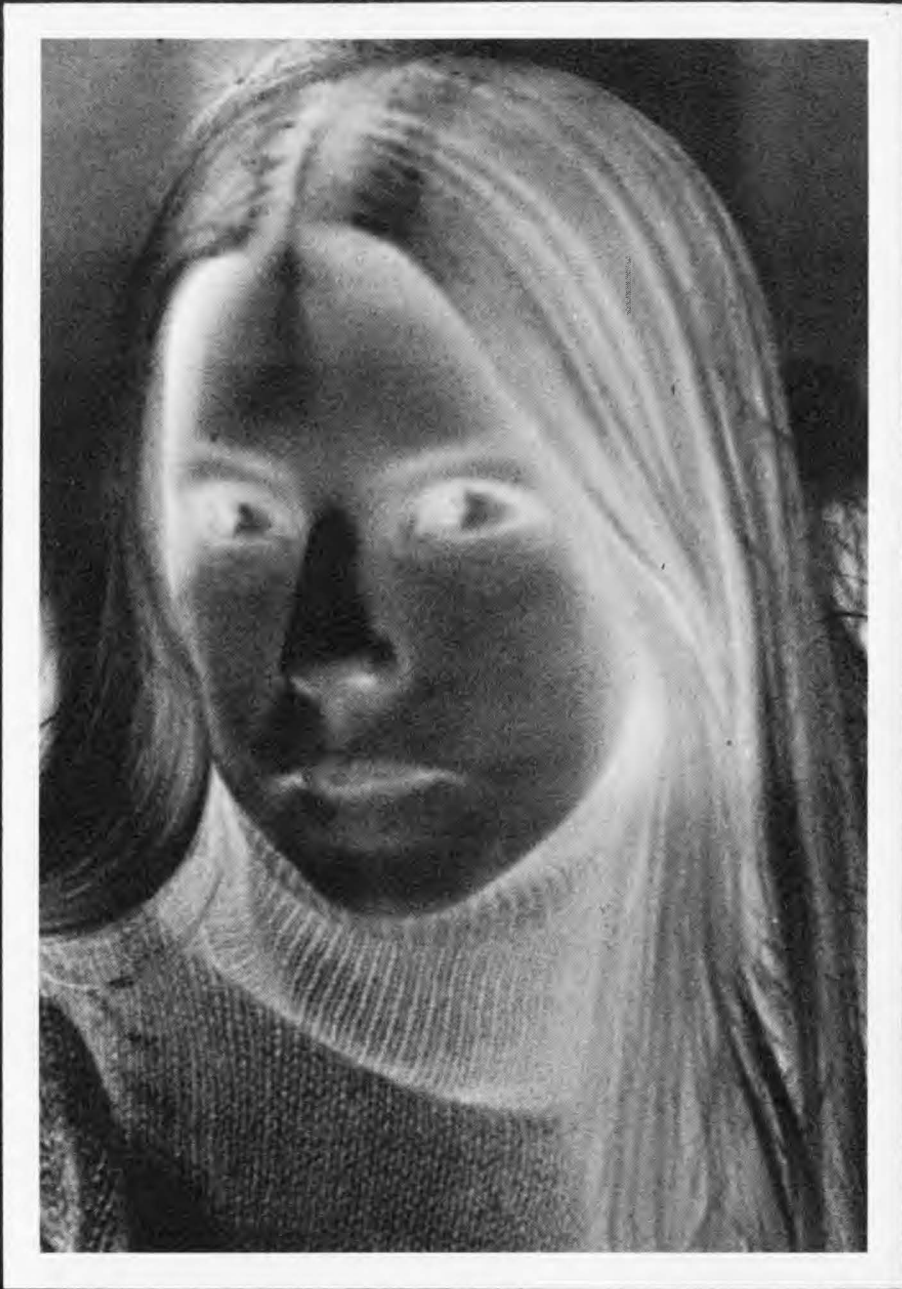

The return of registration at Dalhousie turned the quiet summer campus into a mass of confusion. Amid the lost forms and frayed tempers, many new and returning students found solace in the events during Orientation week.

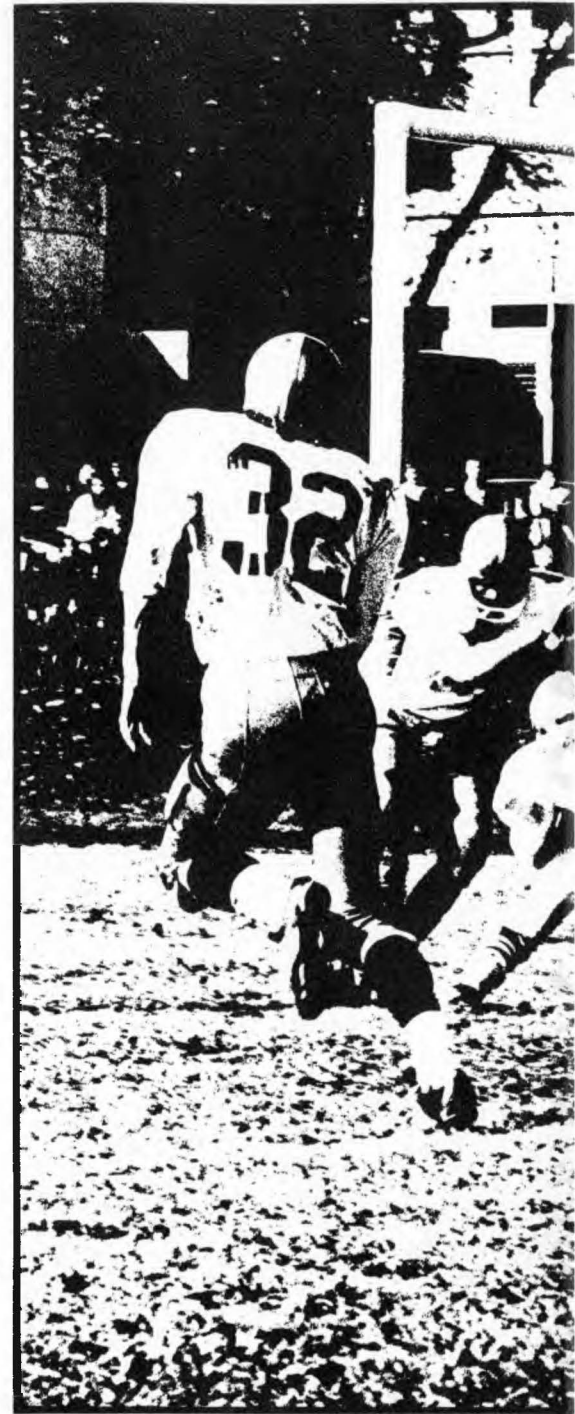

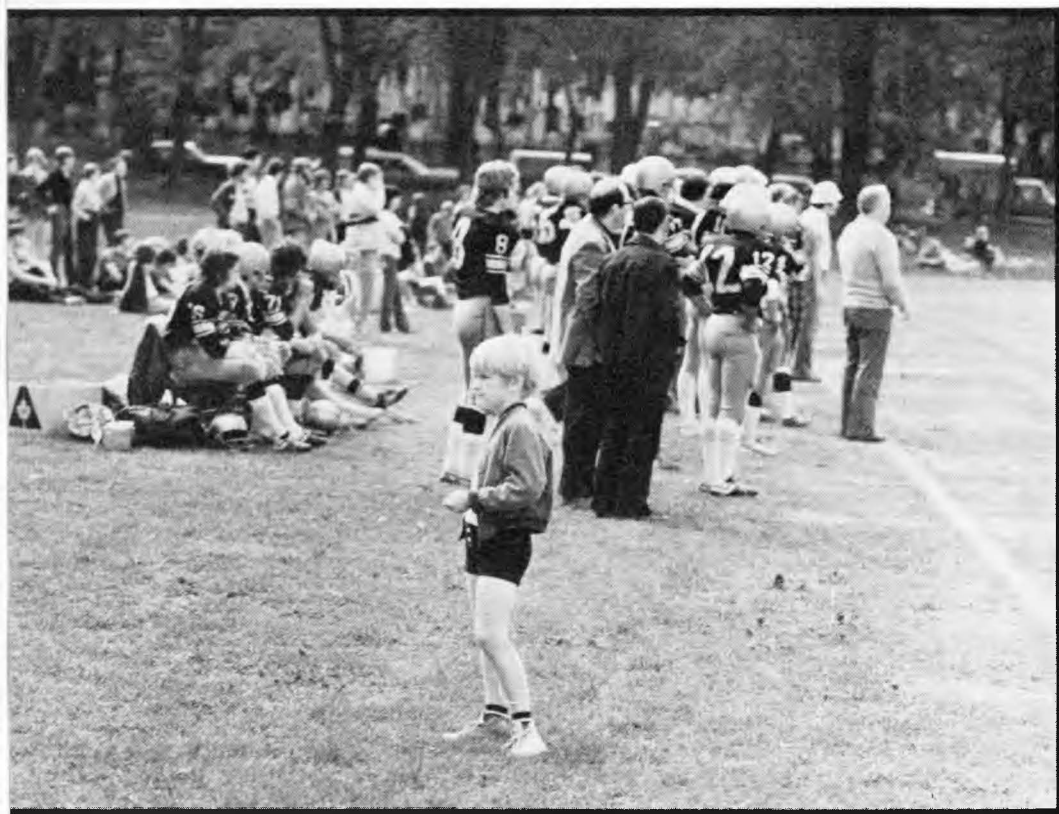

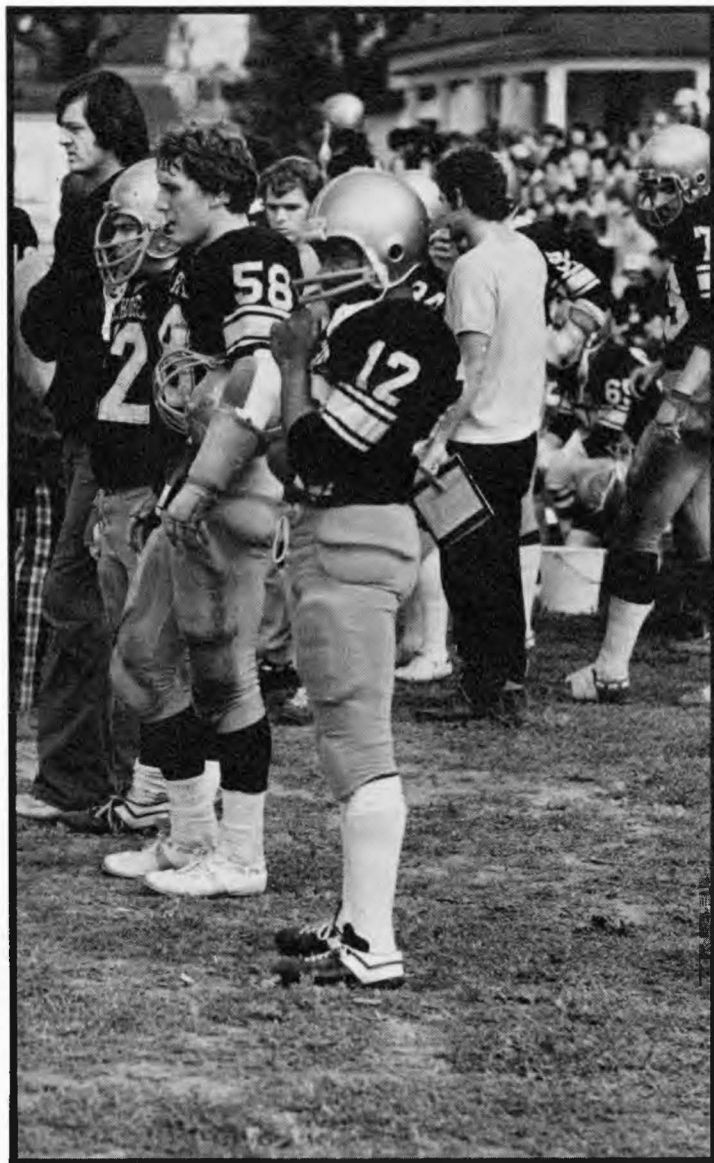

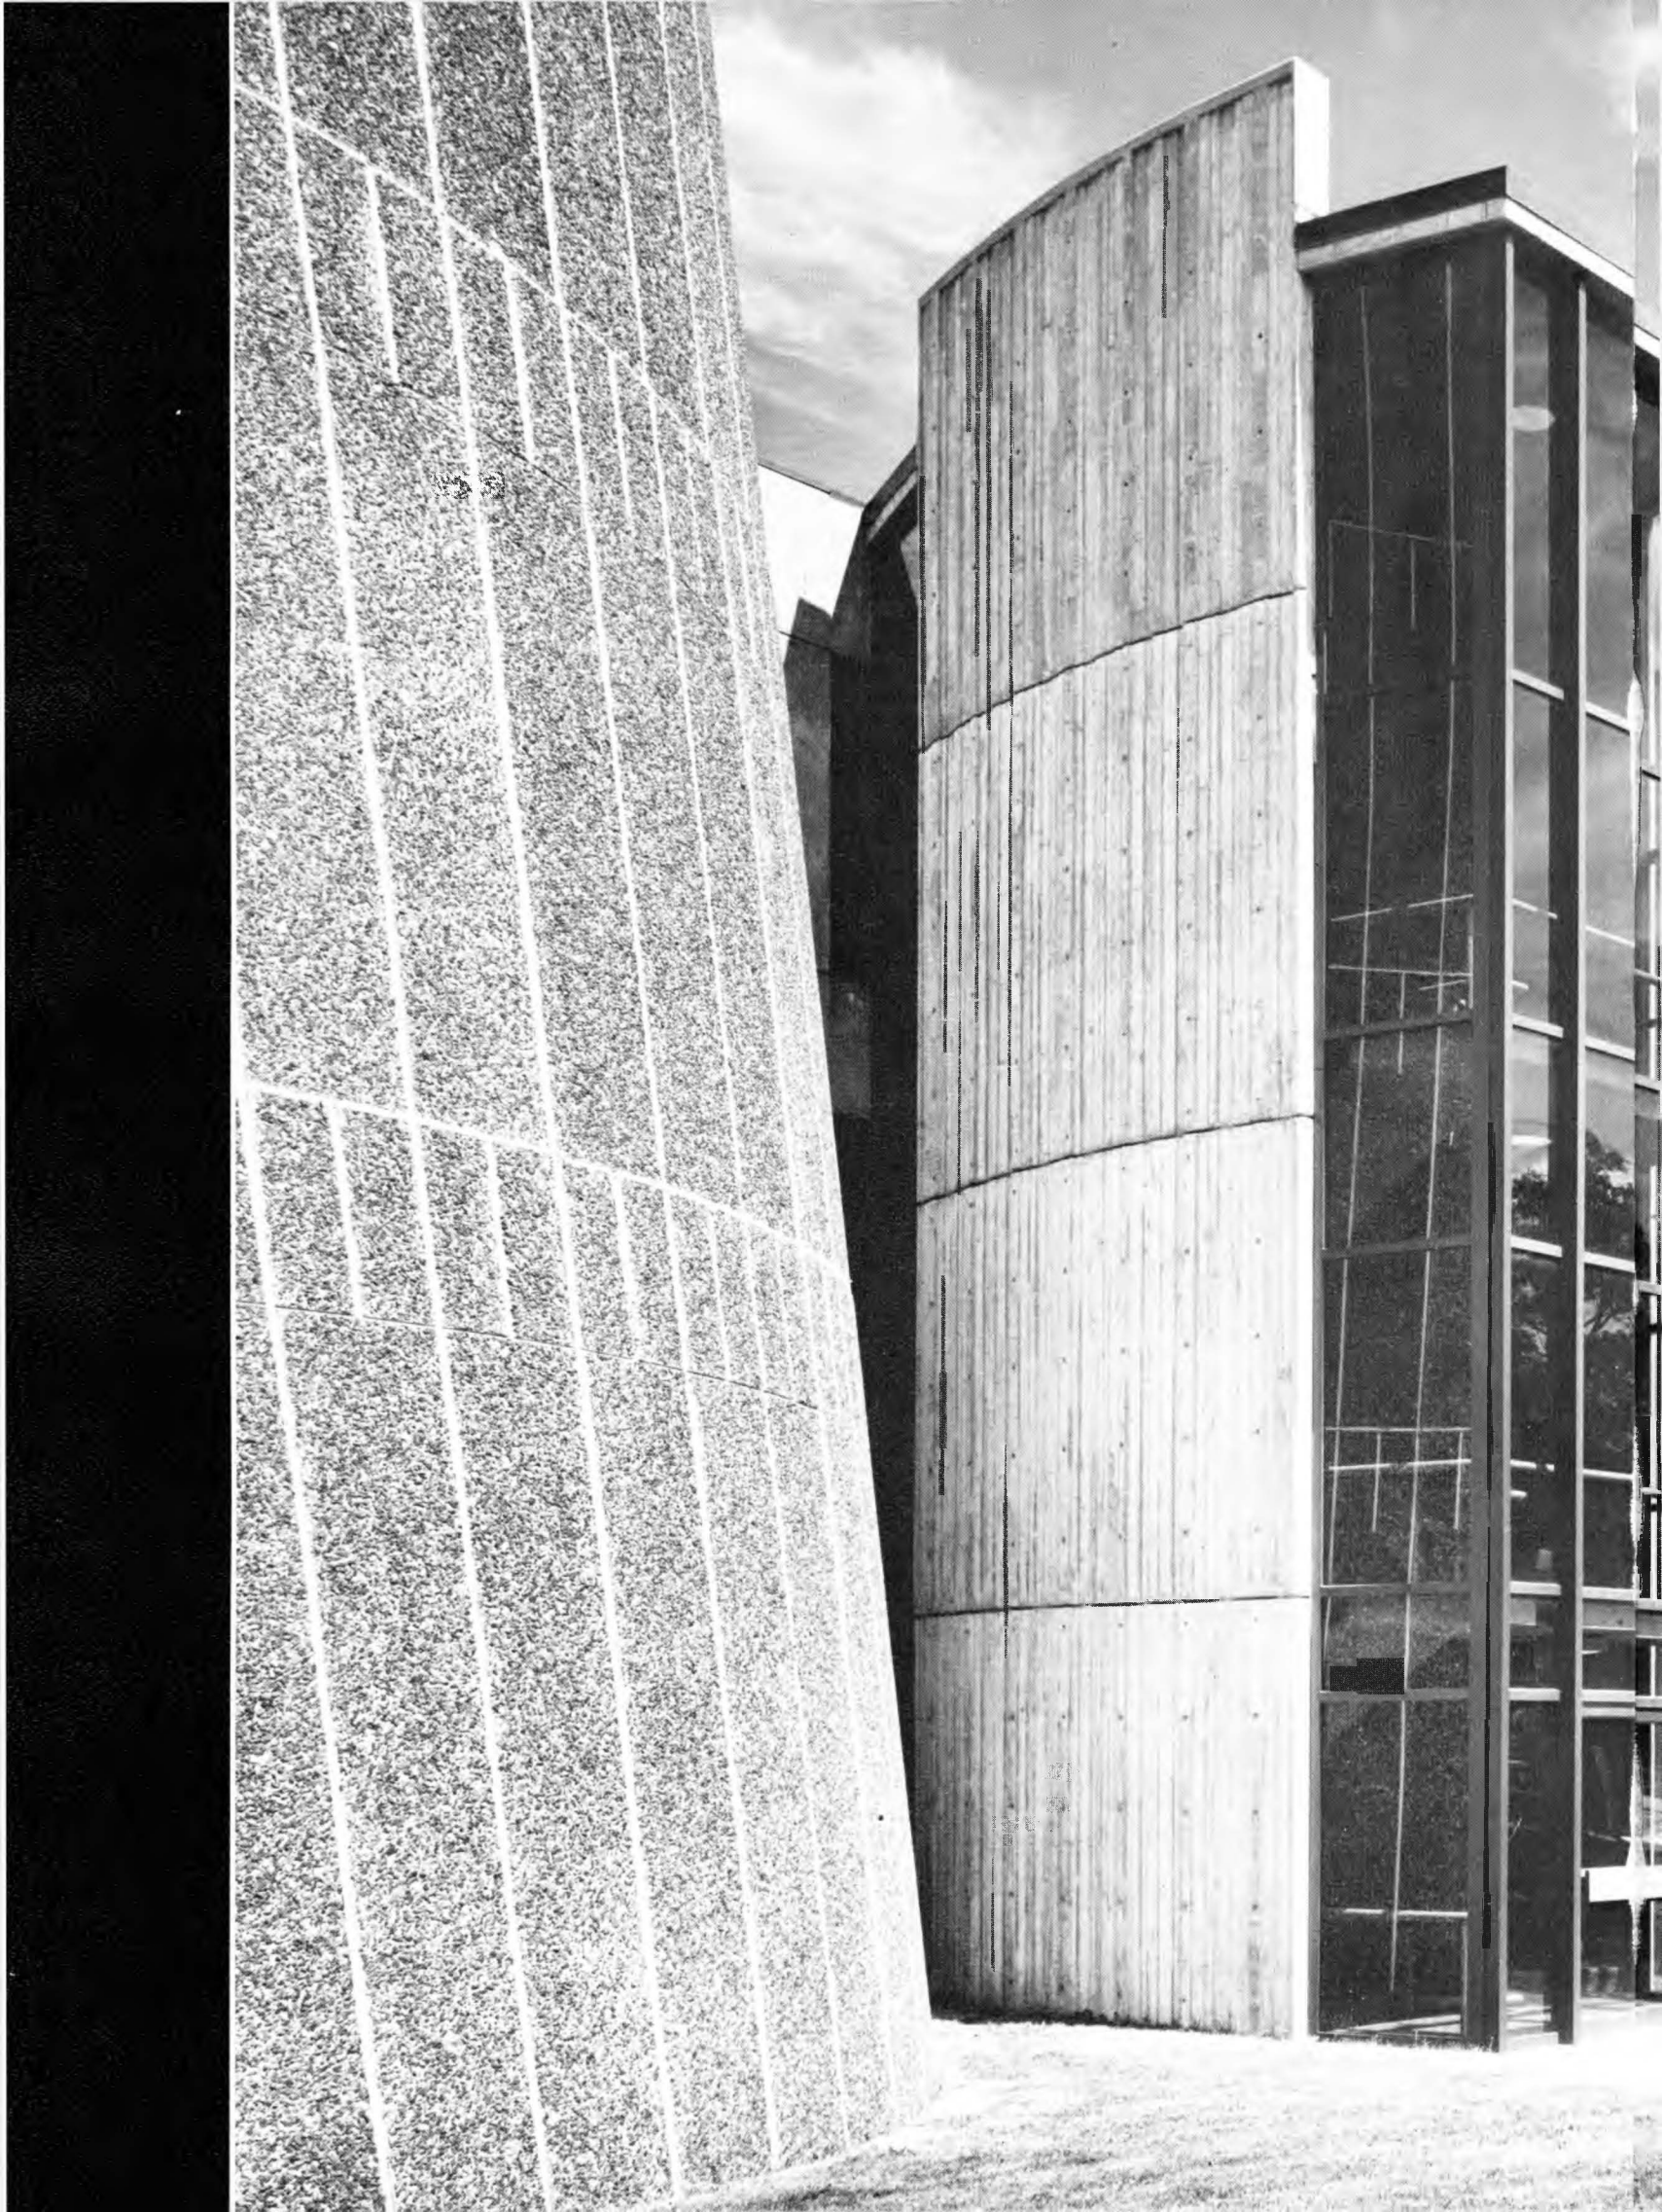

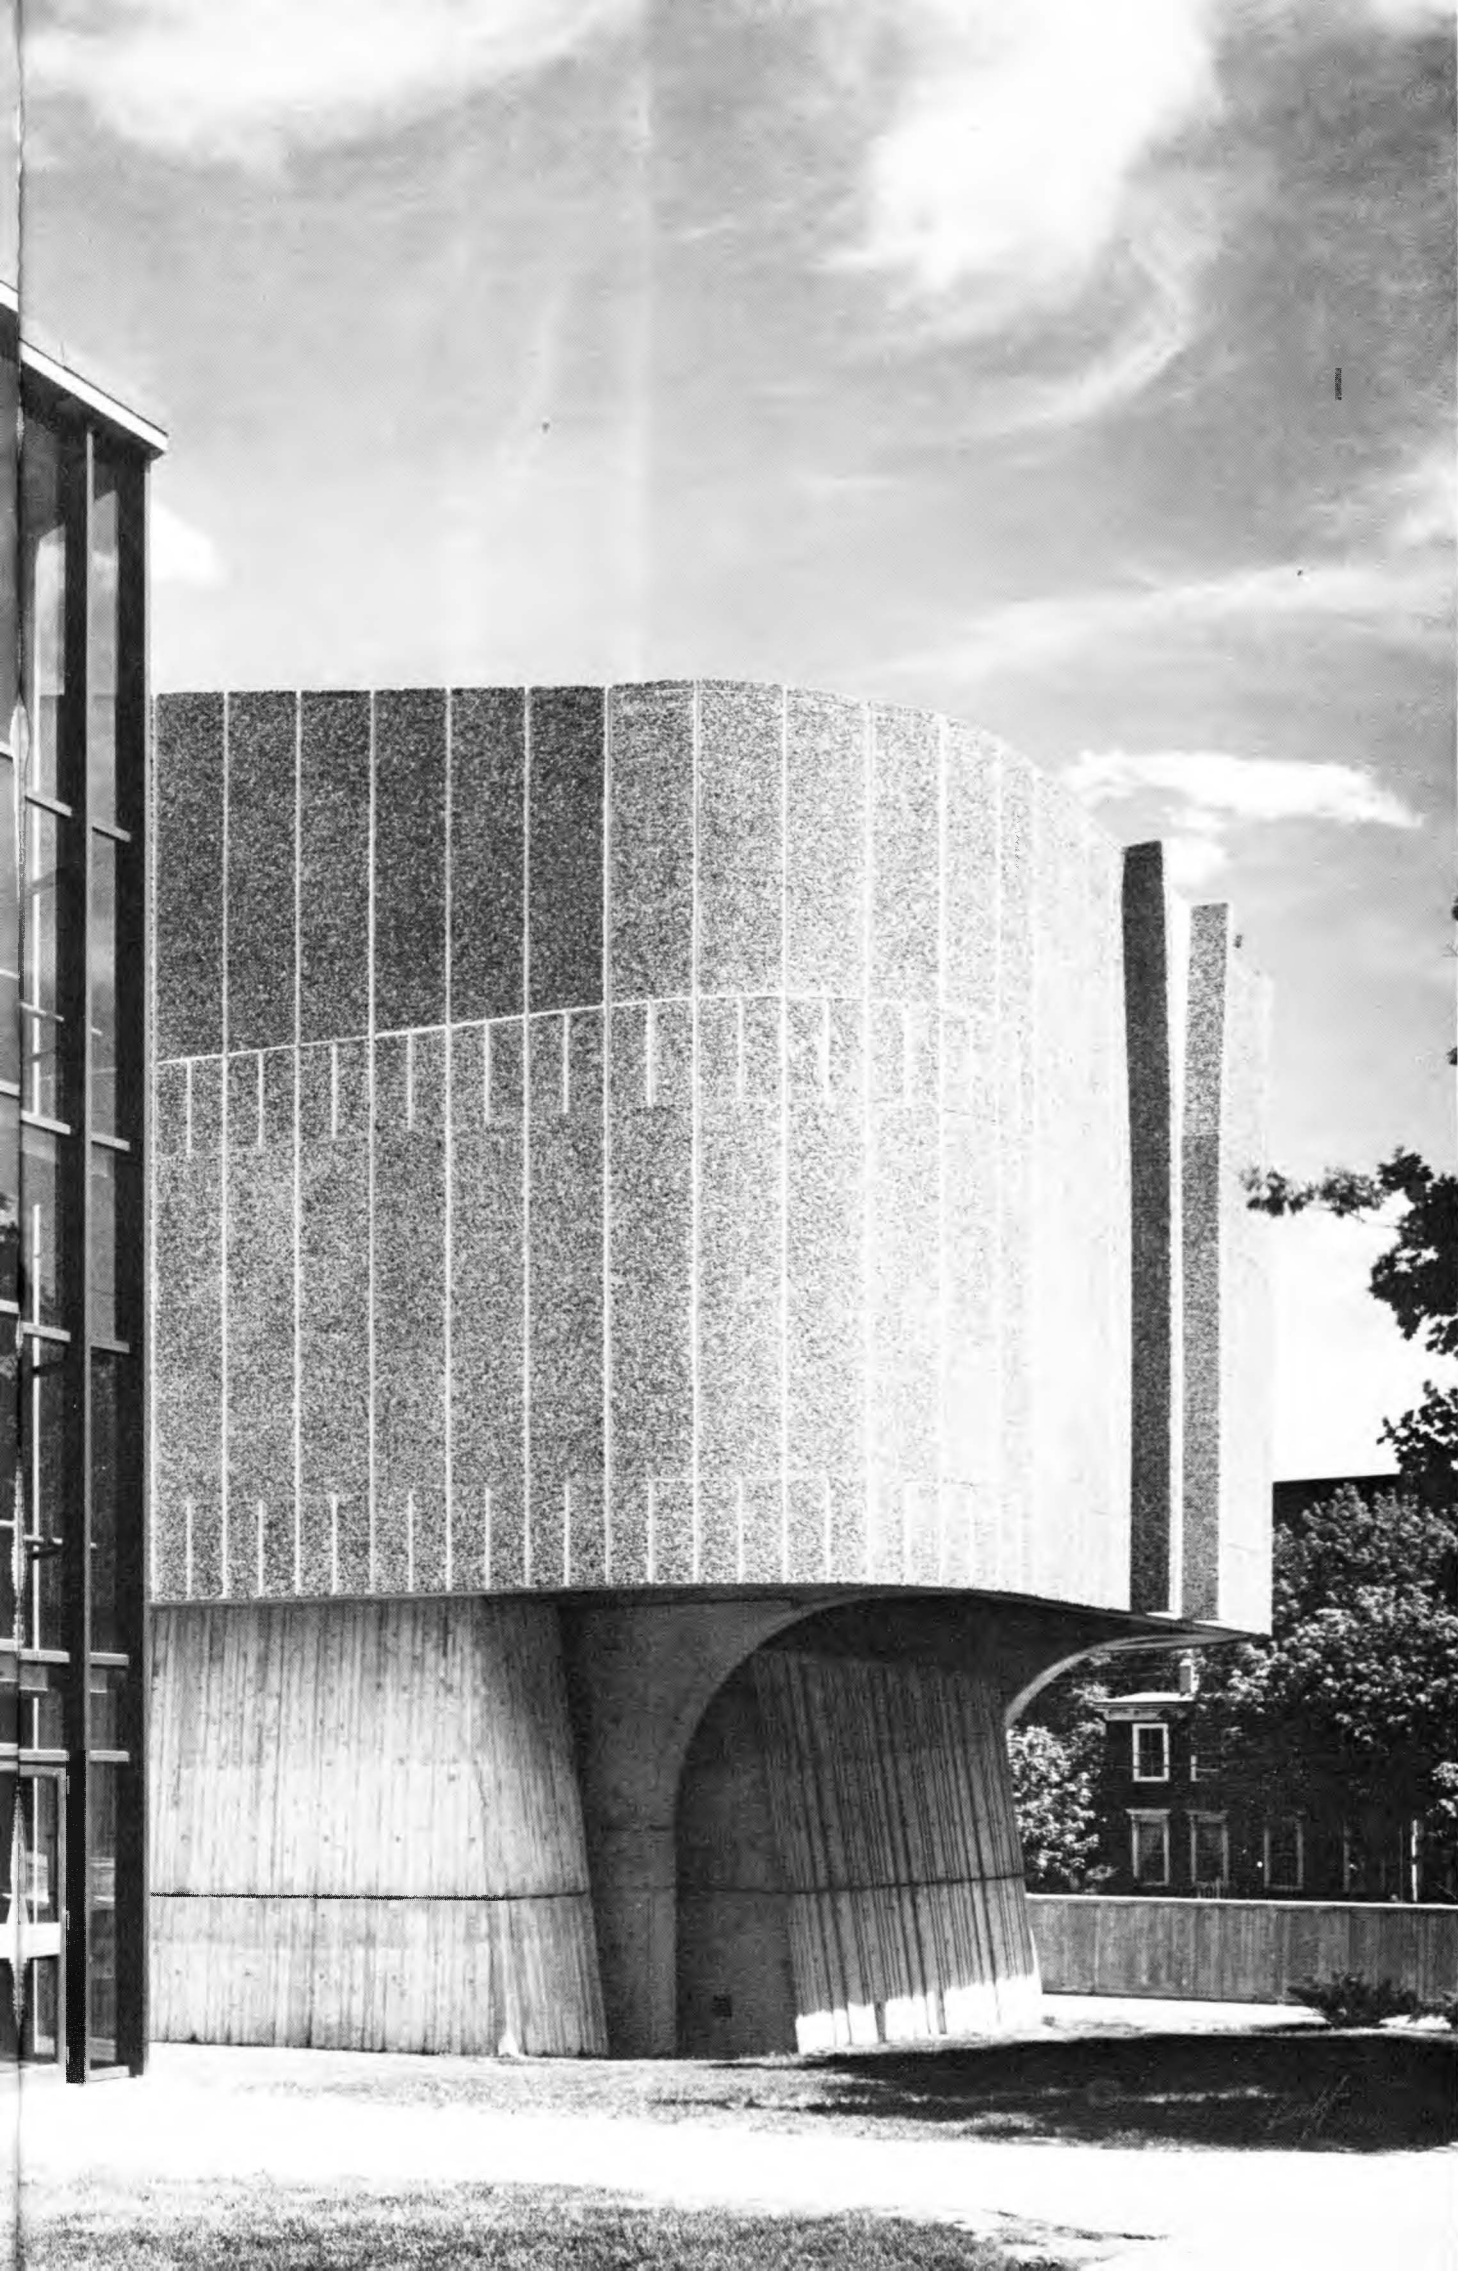

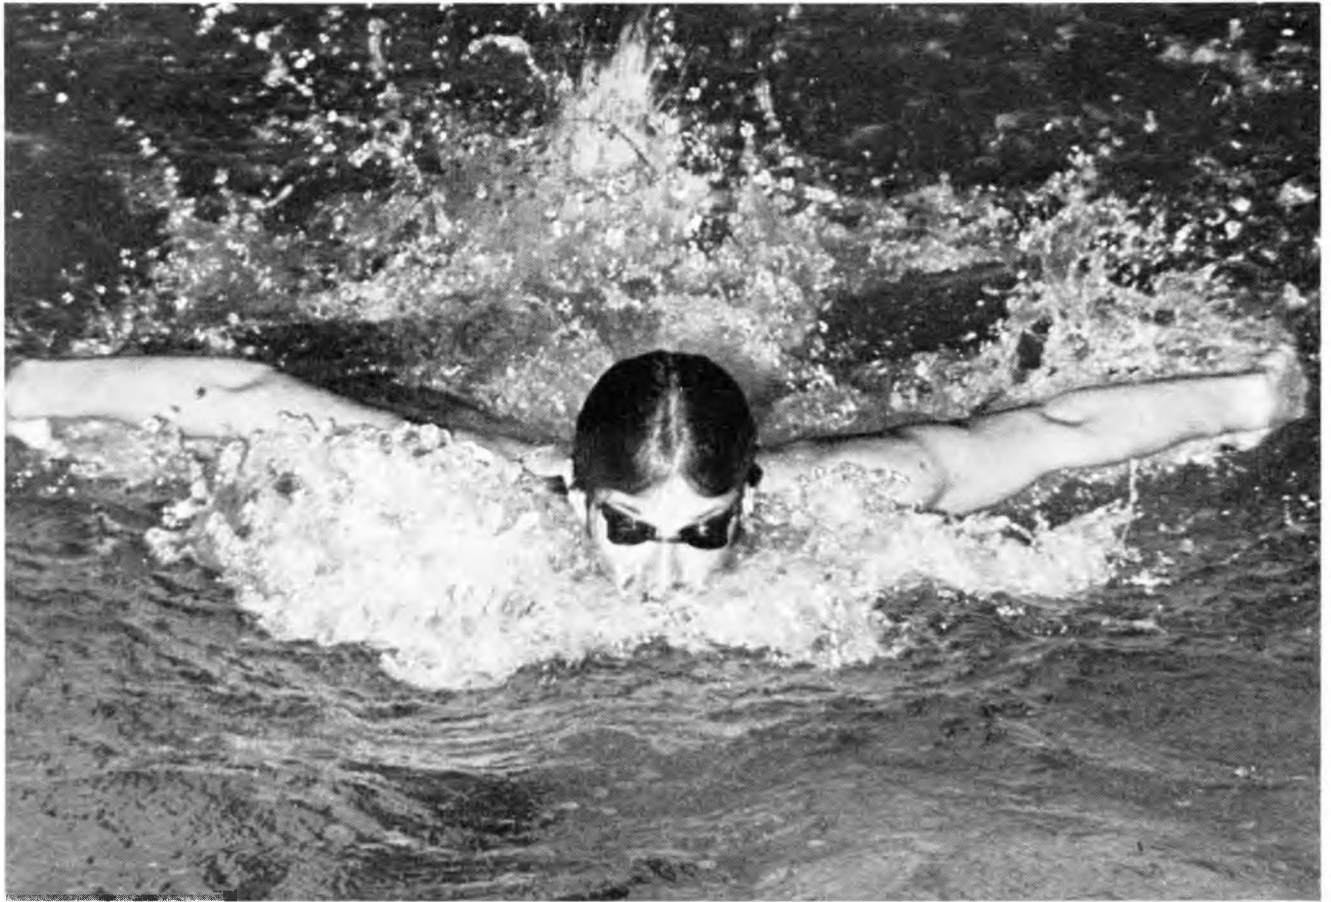

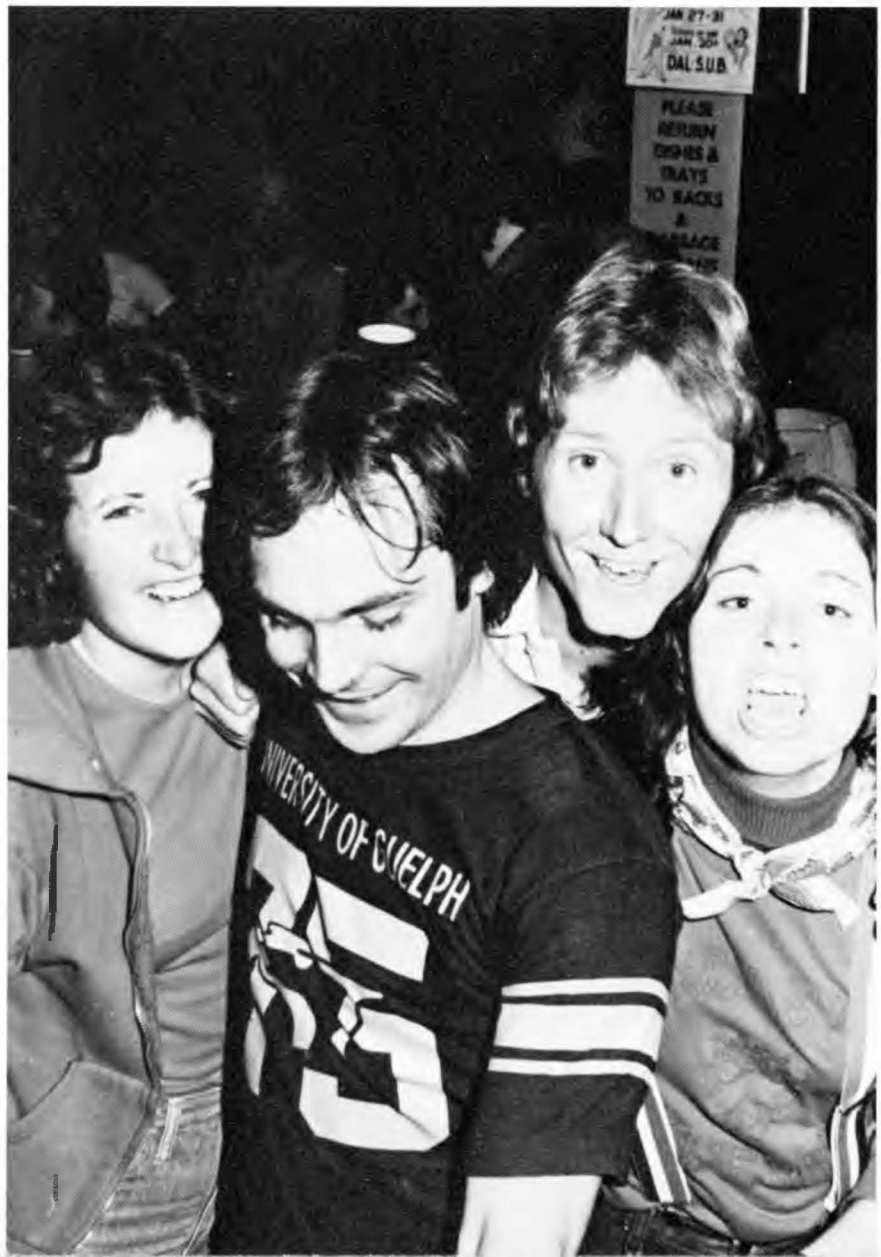

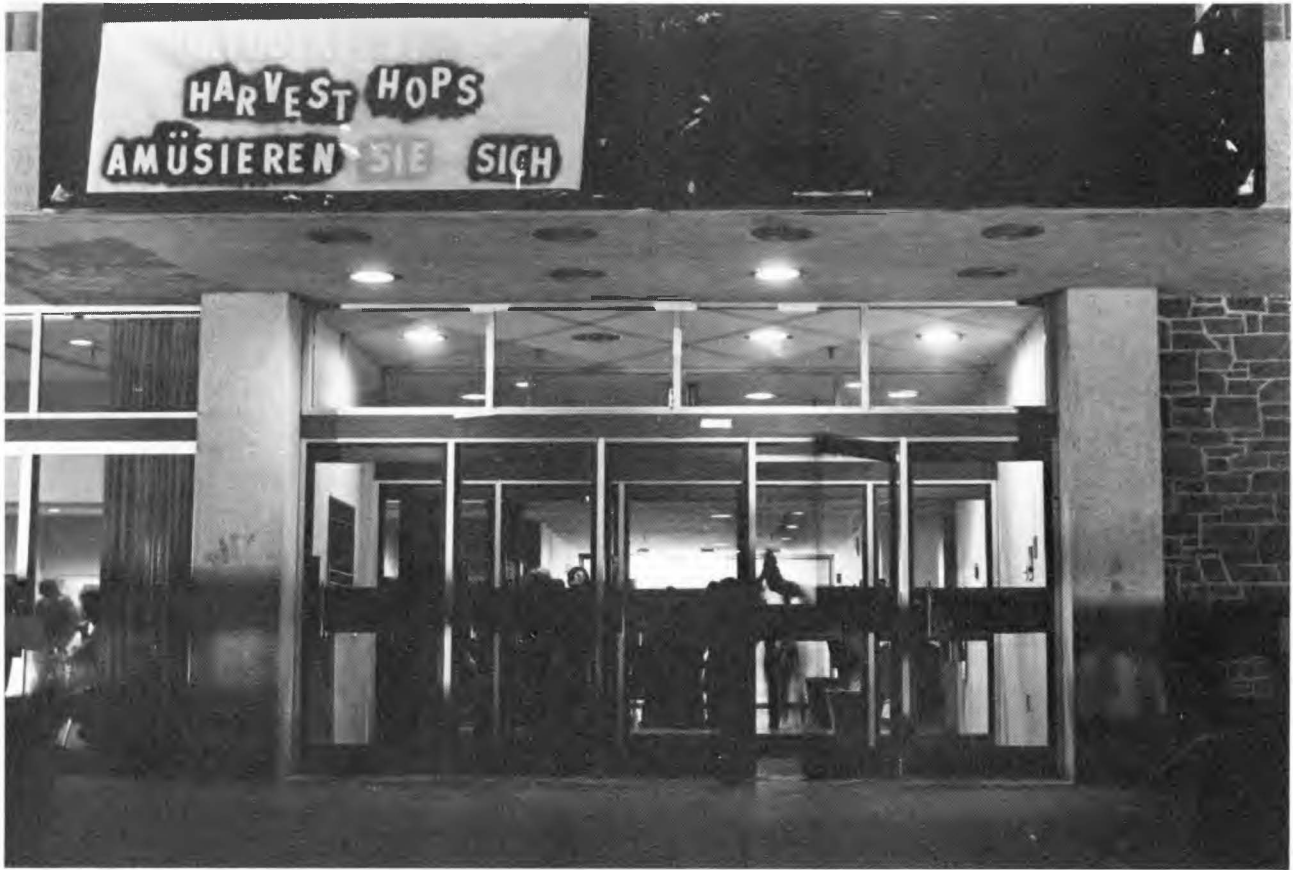

The Dalhousie Men's and Women's Swimming and Diving teams are typical of the success shown by many of the lesser known sports in which Dal competes both locally and nationally.

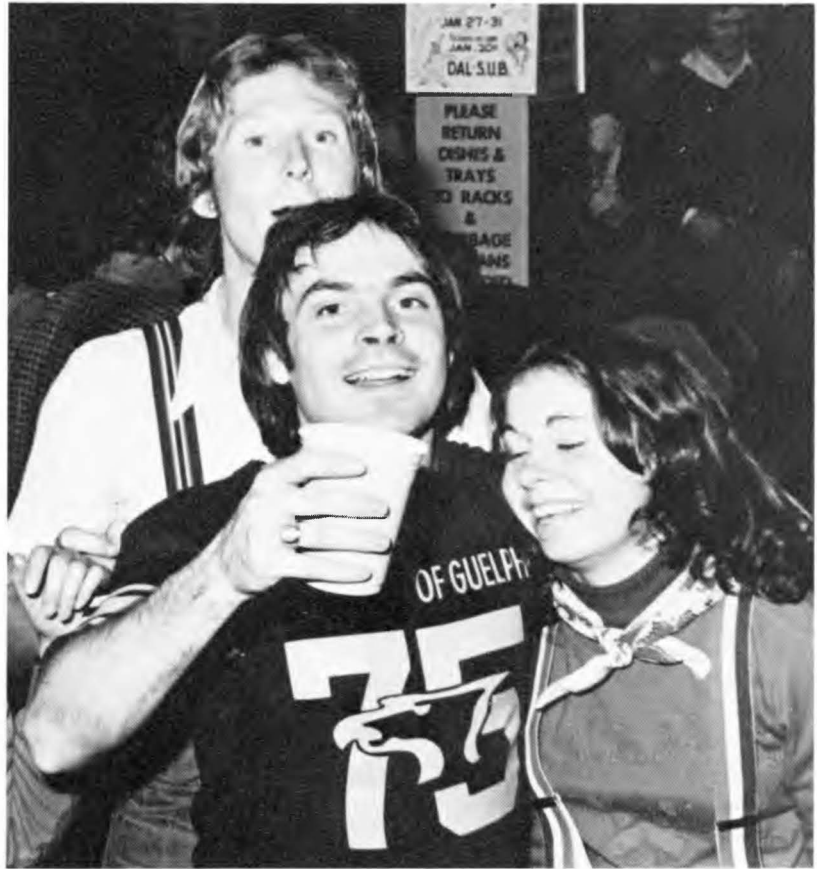

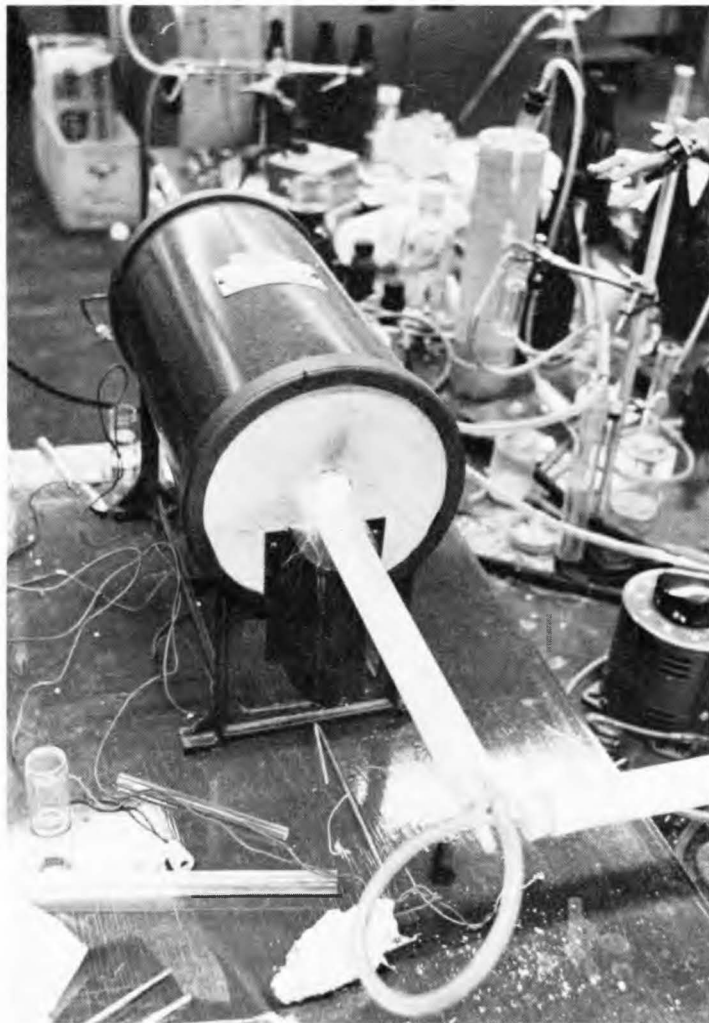

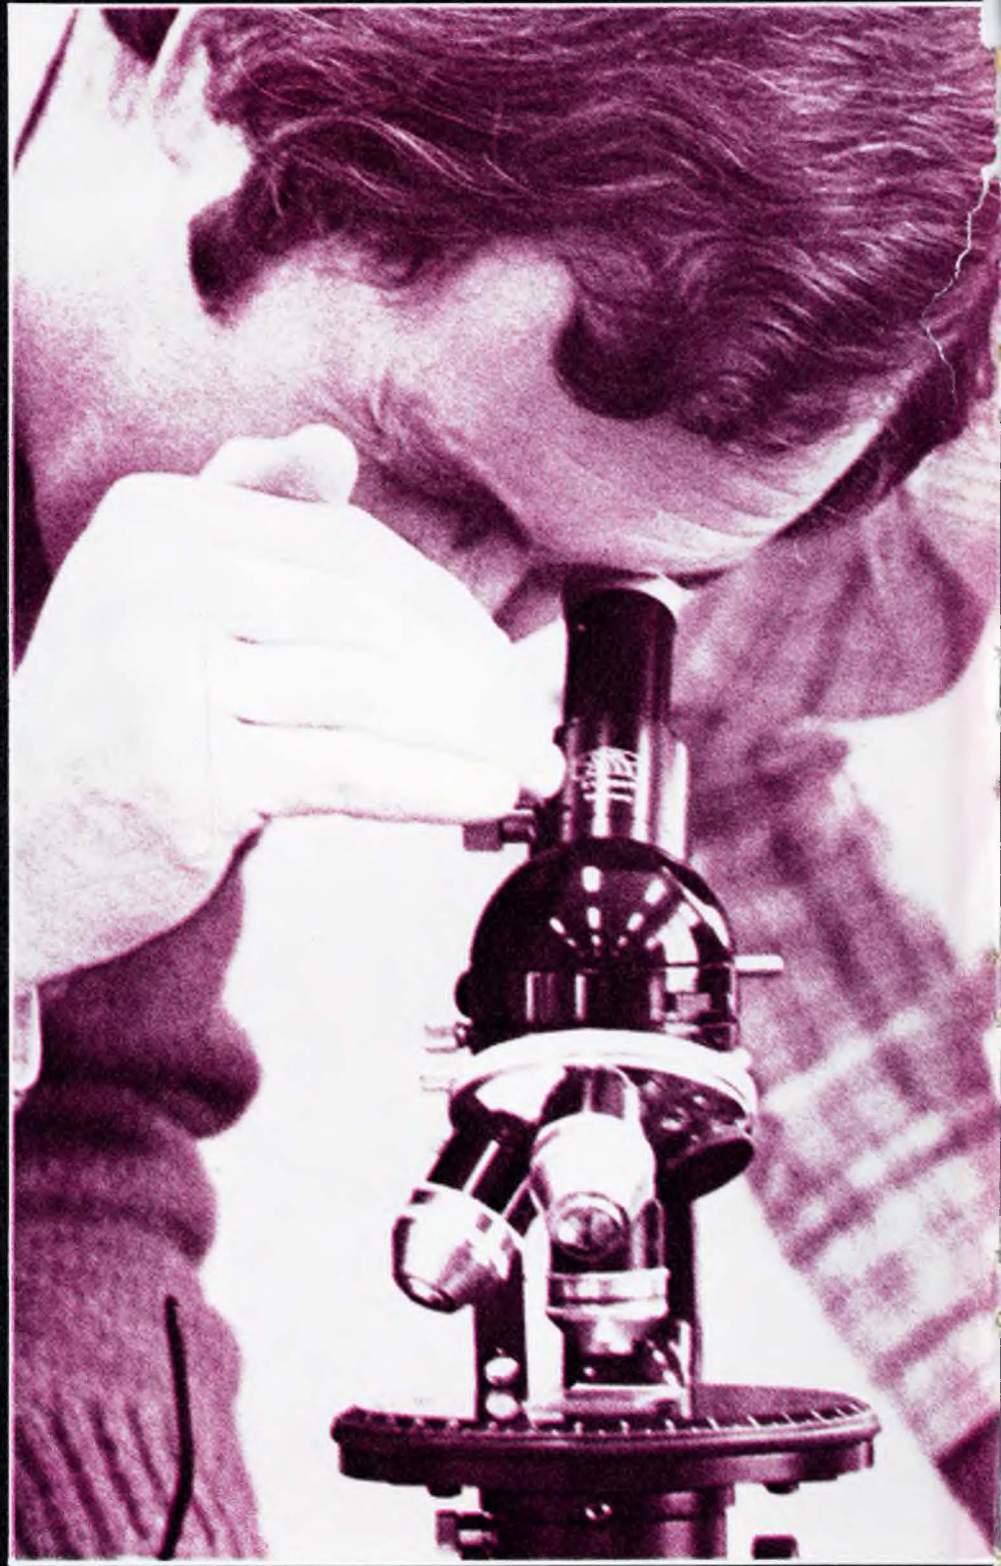

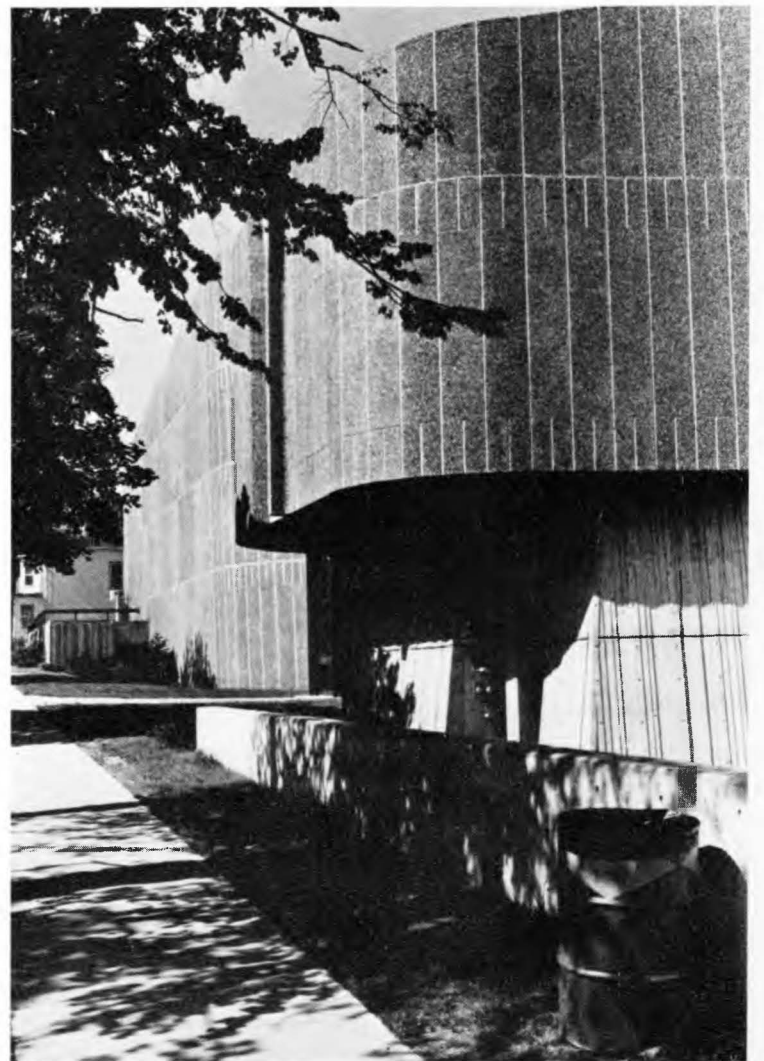

Silent sunlight, welcome in
There is work I must now begin
All my dreams have blown away
And the children wait to play
They'll soon remember things to do
When the heart is young
And the night is done
And the sky is blue

Morning songbird, sing away
Lend a tune to another day
Bring your wings and choose a roof
Sing a song of love and truth
We'll soon remember if you do
When all things were tall
And our friends were small
And the world was new

Sleepy horses, heave away
Put your backs to the golden hay
Don't ever look behind at the work you've done
For your work has just begun
There'll be the evening in the end
But till that time arrives
You can rest your eyes
And begin again

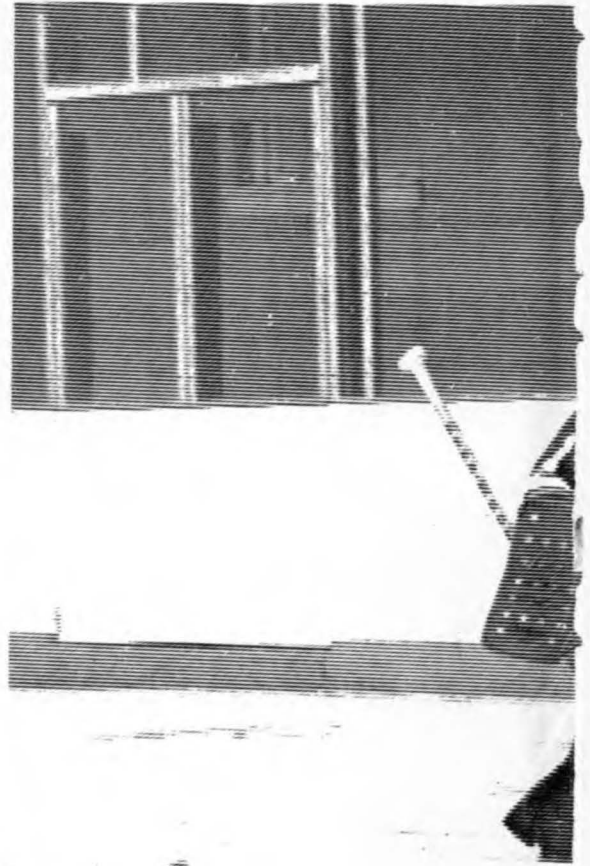

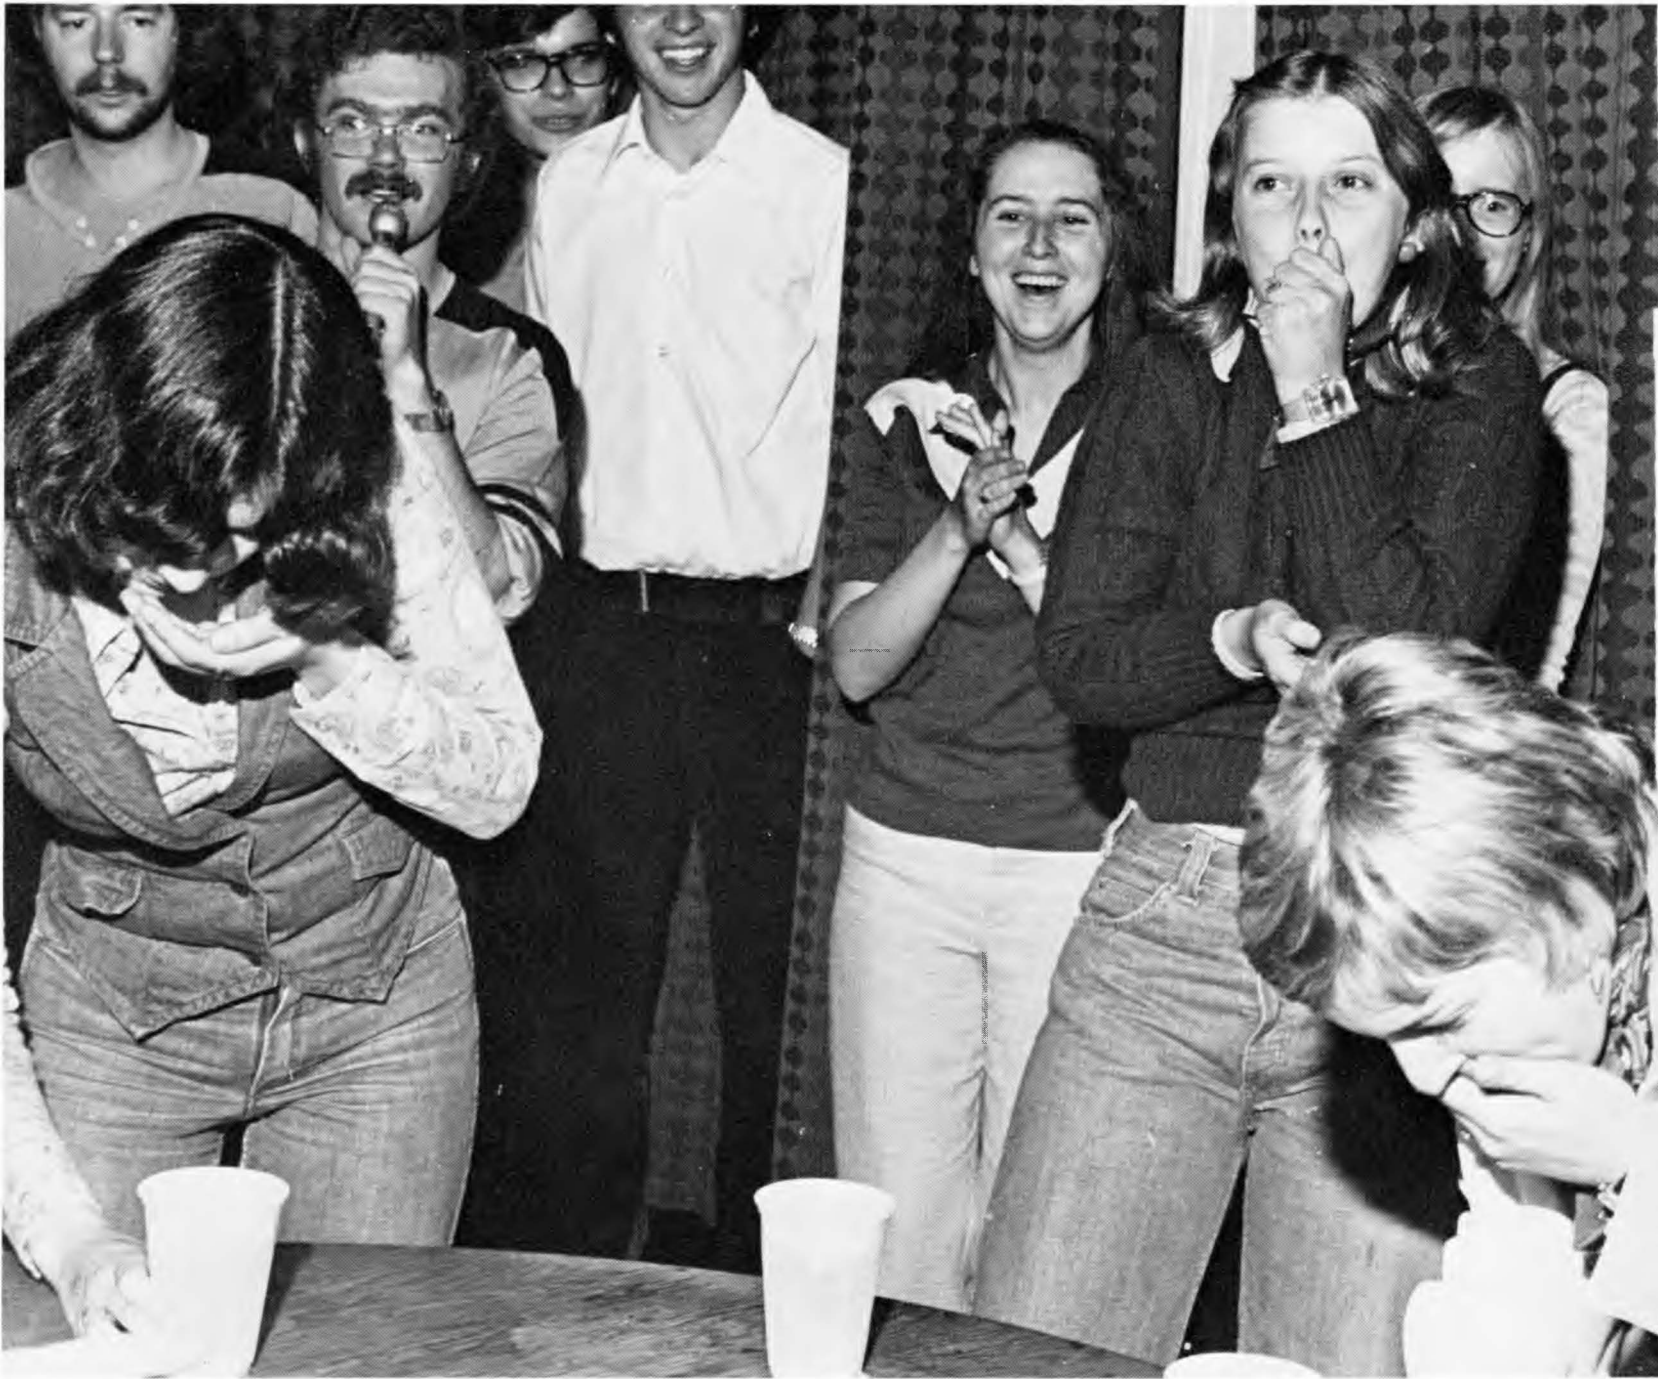

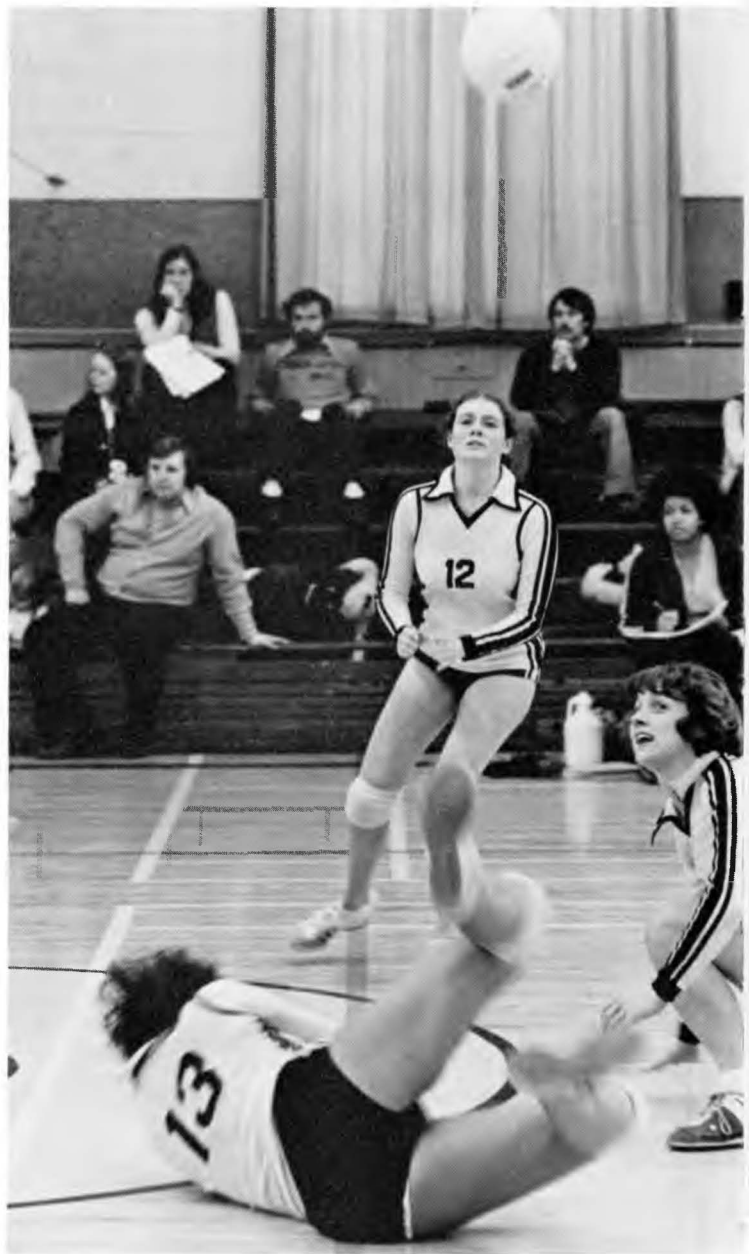

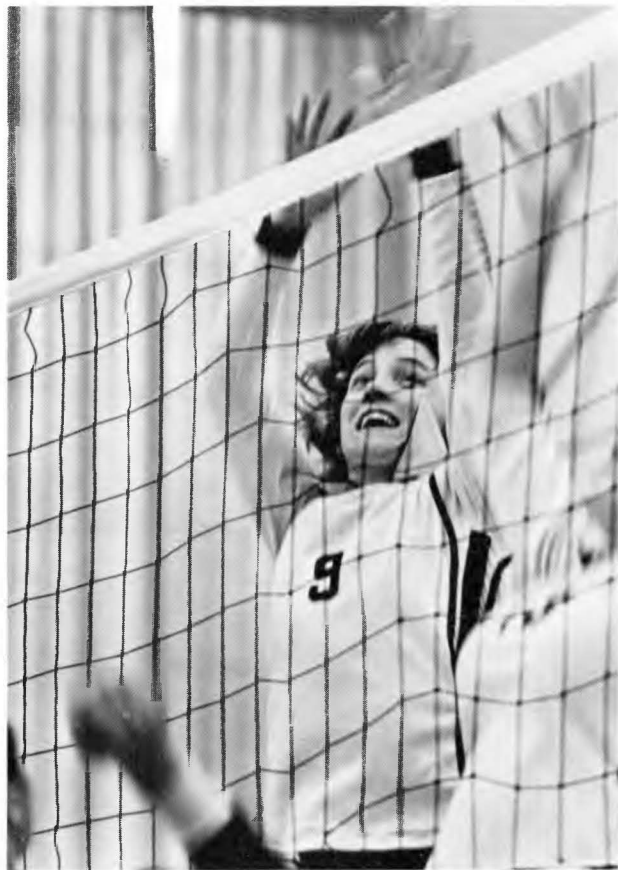

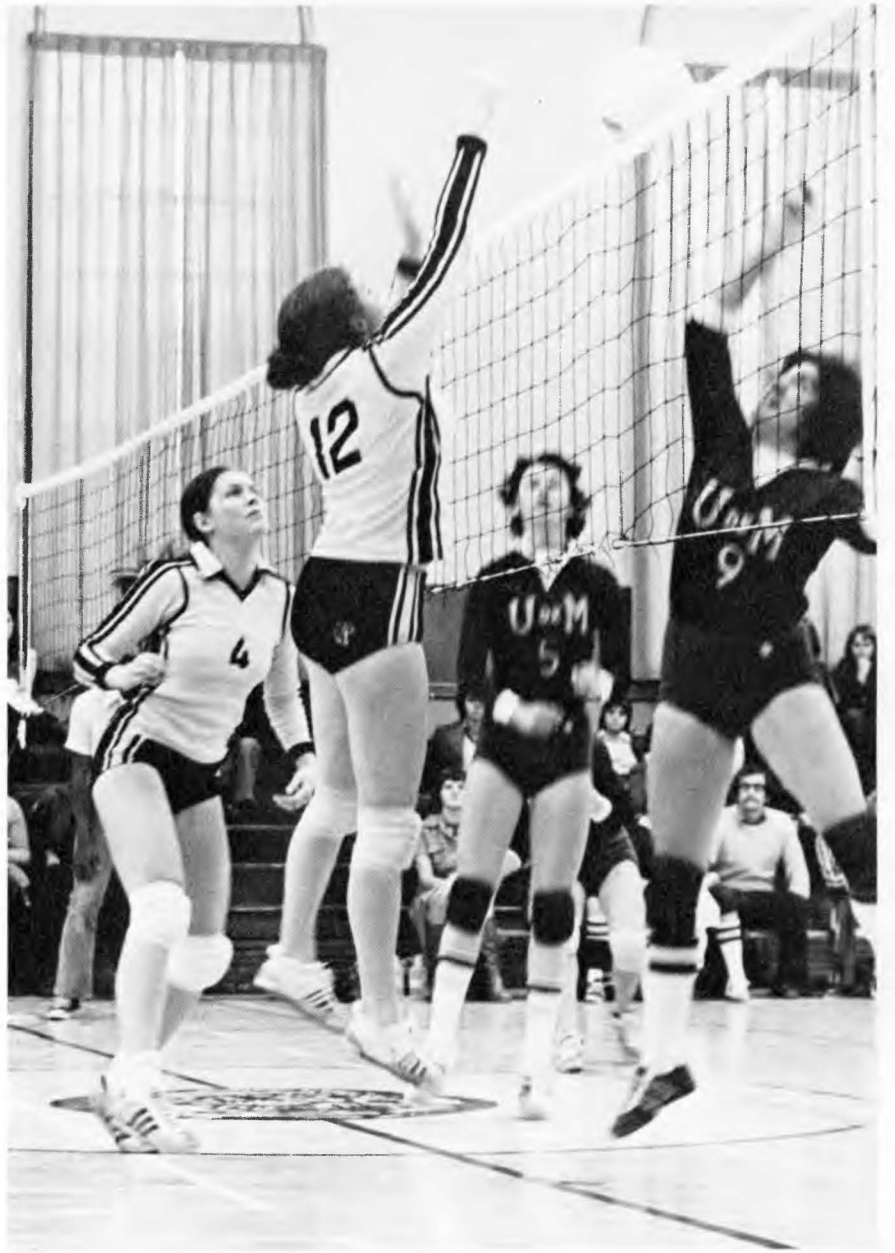

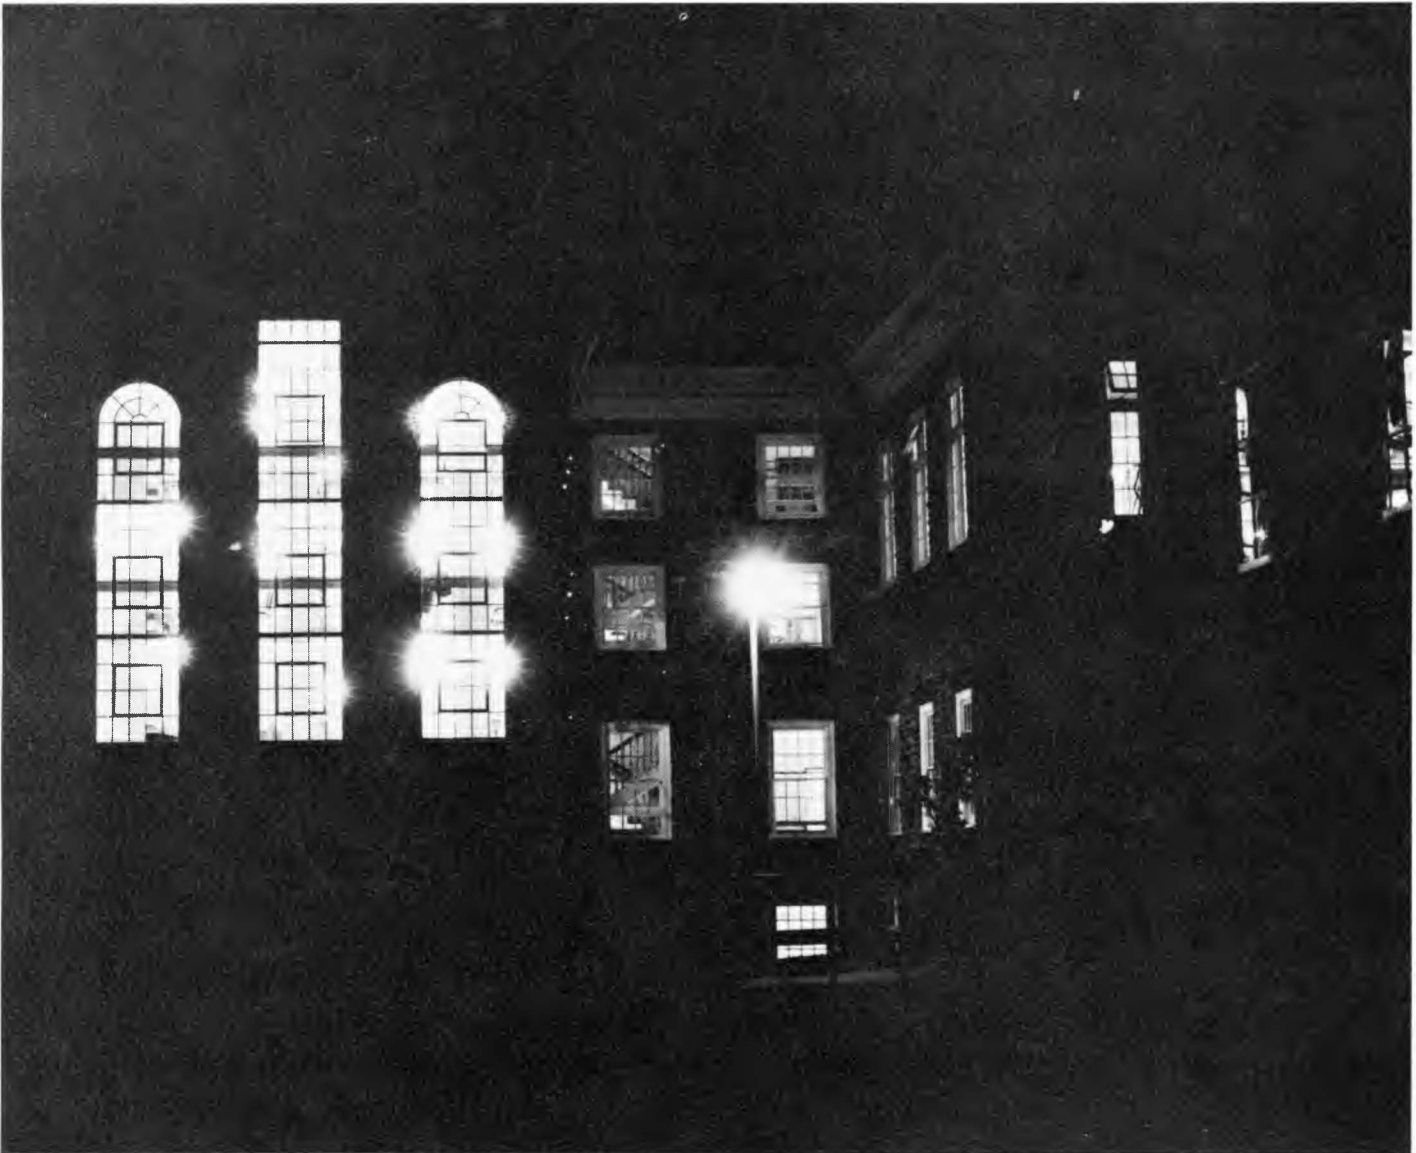

Winter Carnival '76

Mardi Gras

The annual Dalhousie Winter Carnival was a great success this year, with top entertainment and activities to please everybody.

The Madhouse Company of London delighted many, and outraged a few with their unique brand of comedy. The annual Black and Gold revue featuring Gordie Neal as emcee gave Dal students a chance to show their talent to a receptive audience in The McInnes Room.

The Winter Carnival formal featured a very popular band, Liverpool, who concentrated solely on past Beatle songs.

To make the Mardi Gras complete, a casino was set up in The Green Room, and belly dancers greeted guests in the lobby.

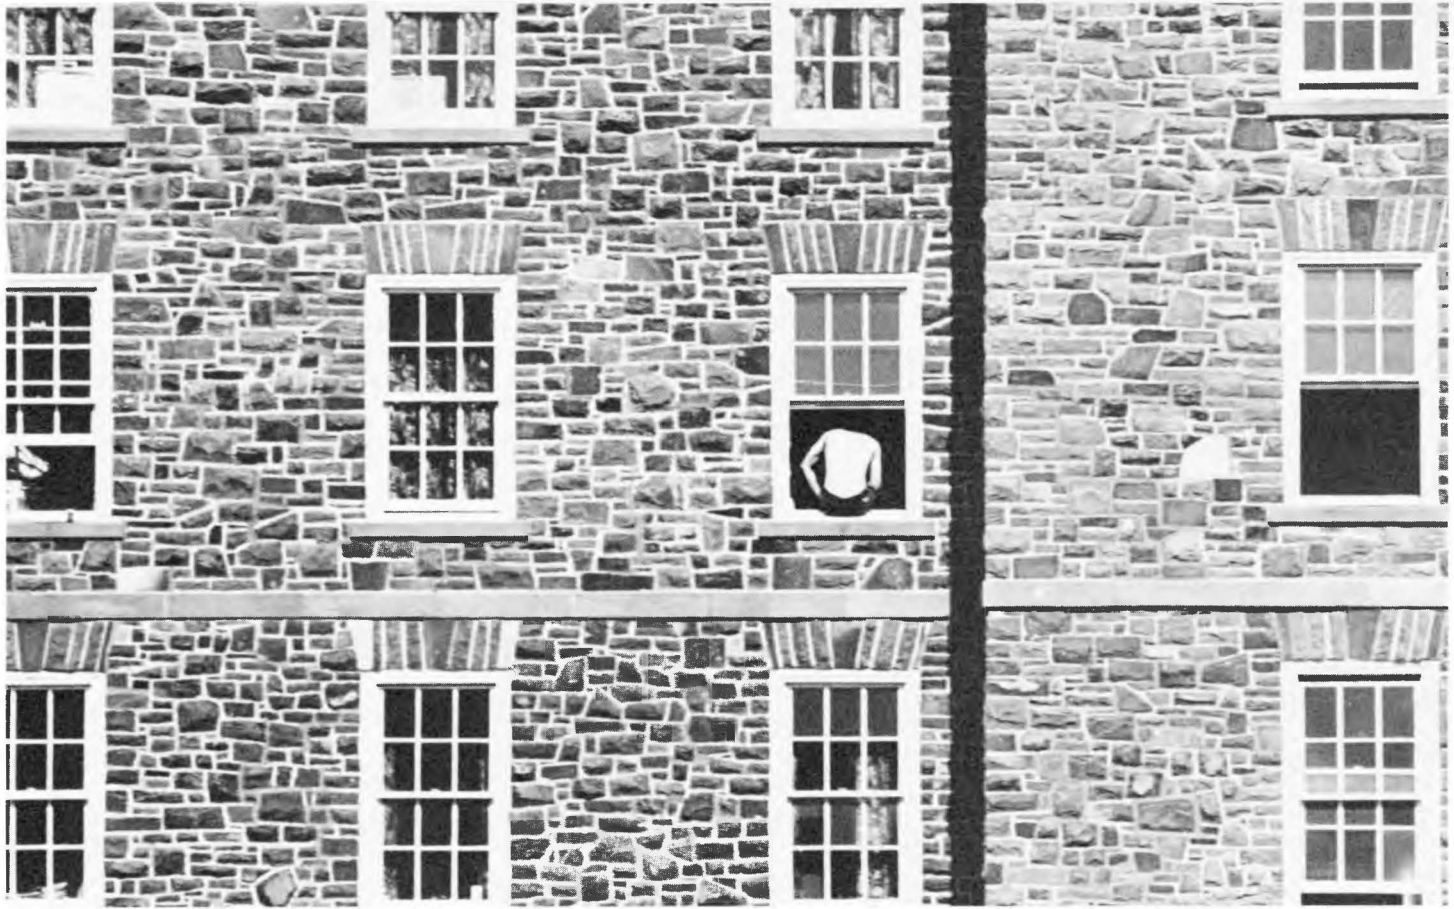

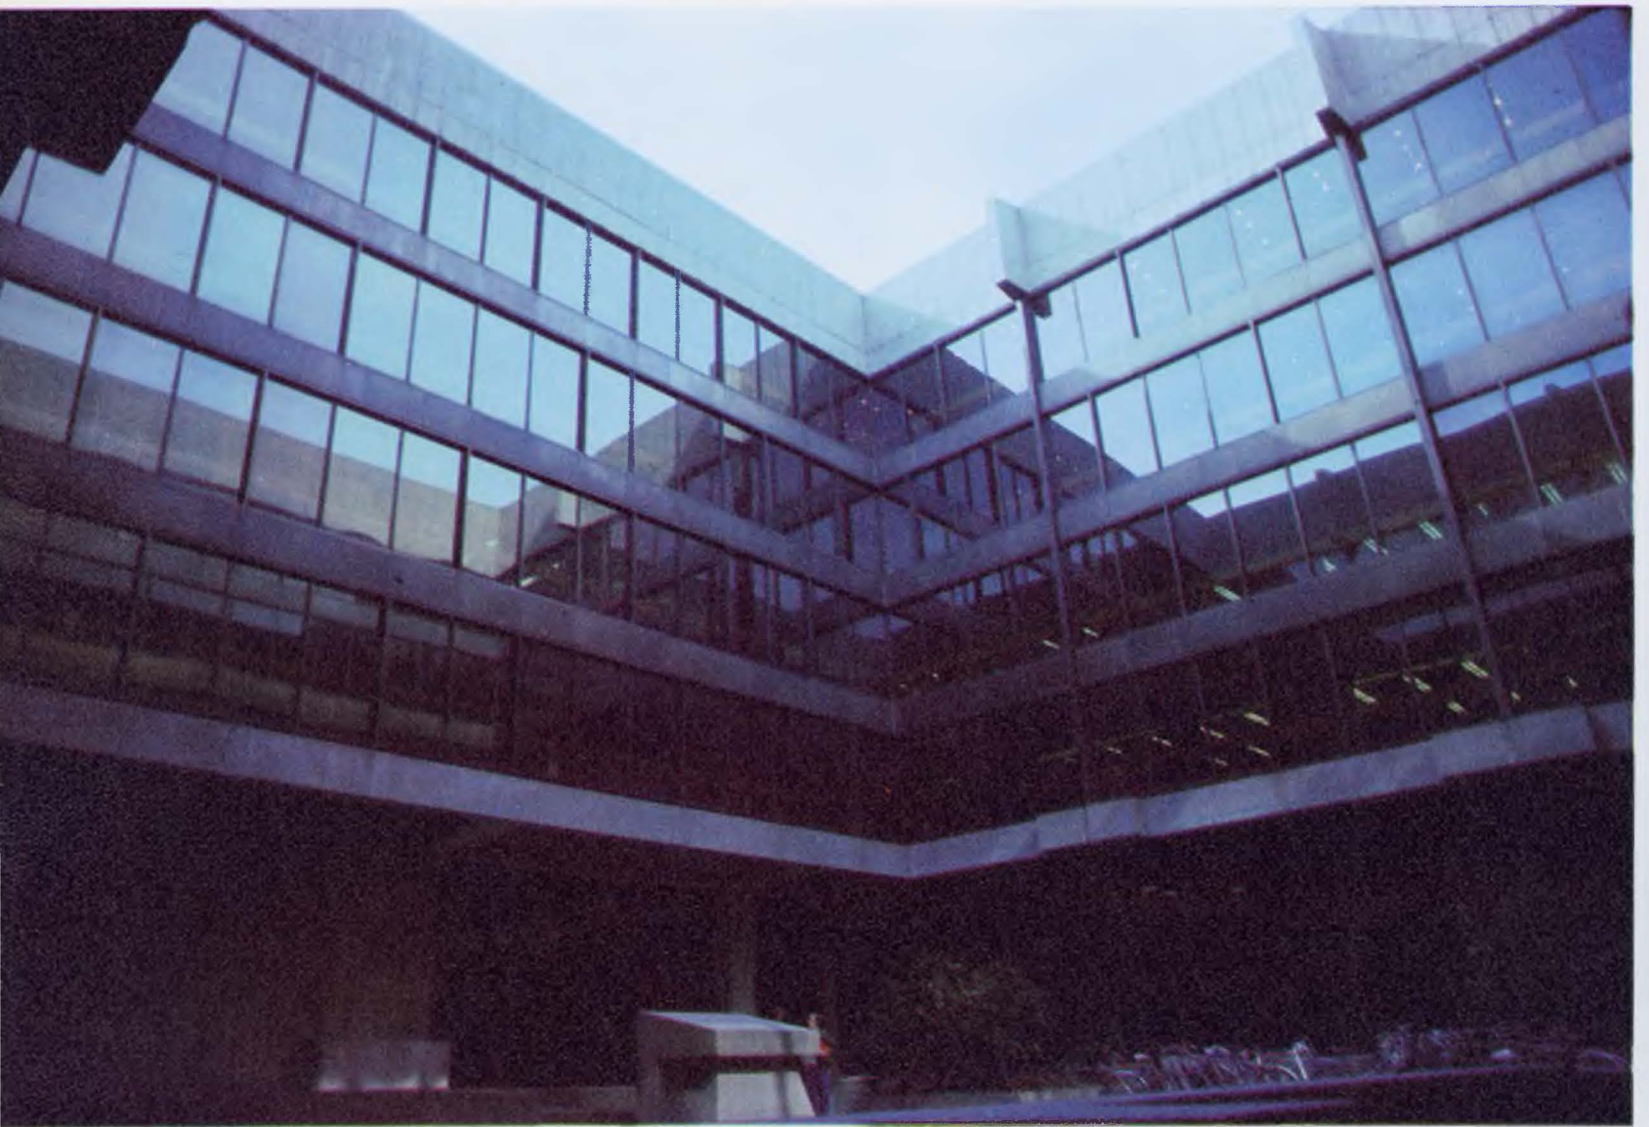

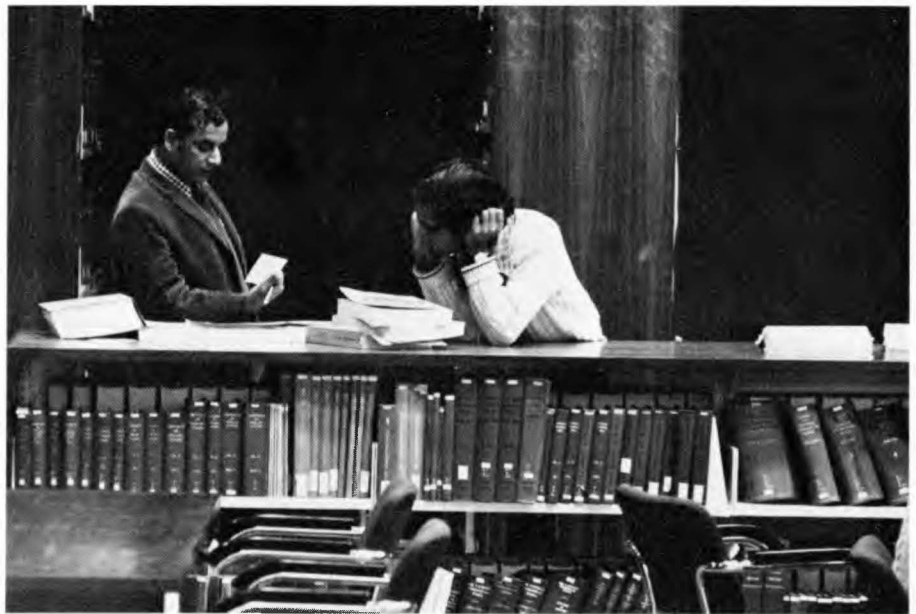

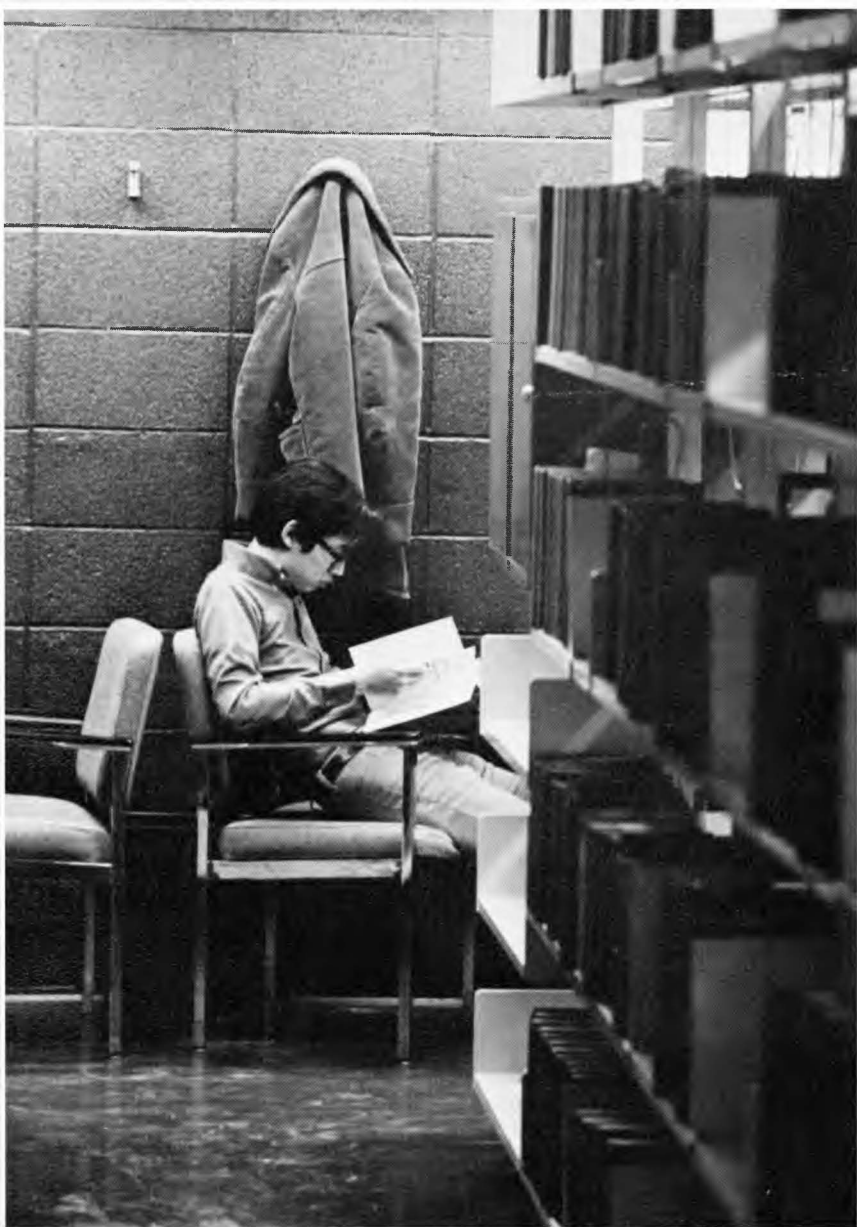

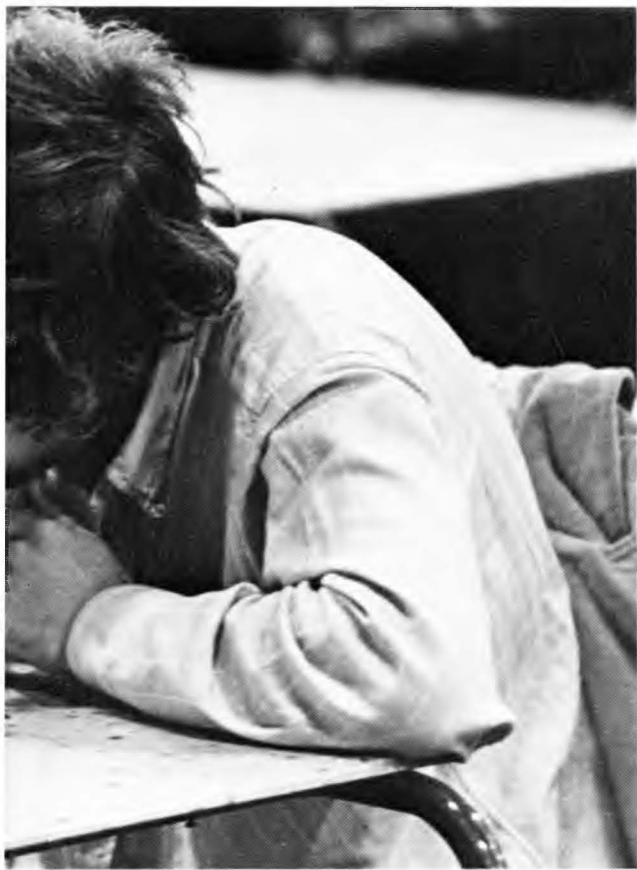

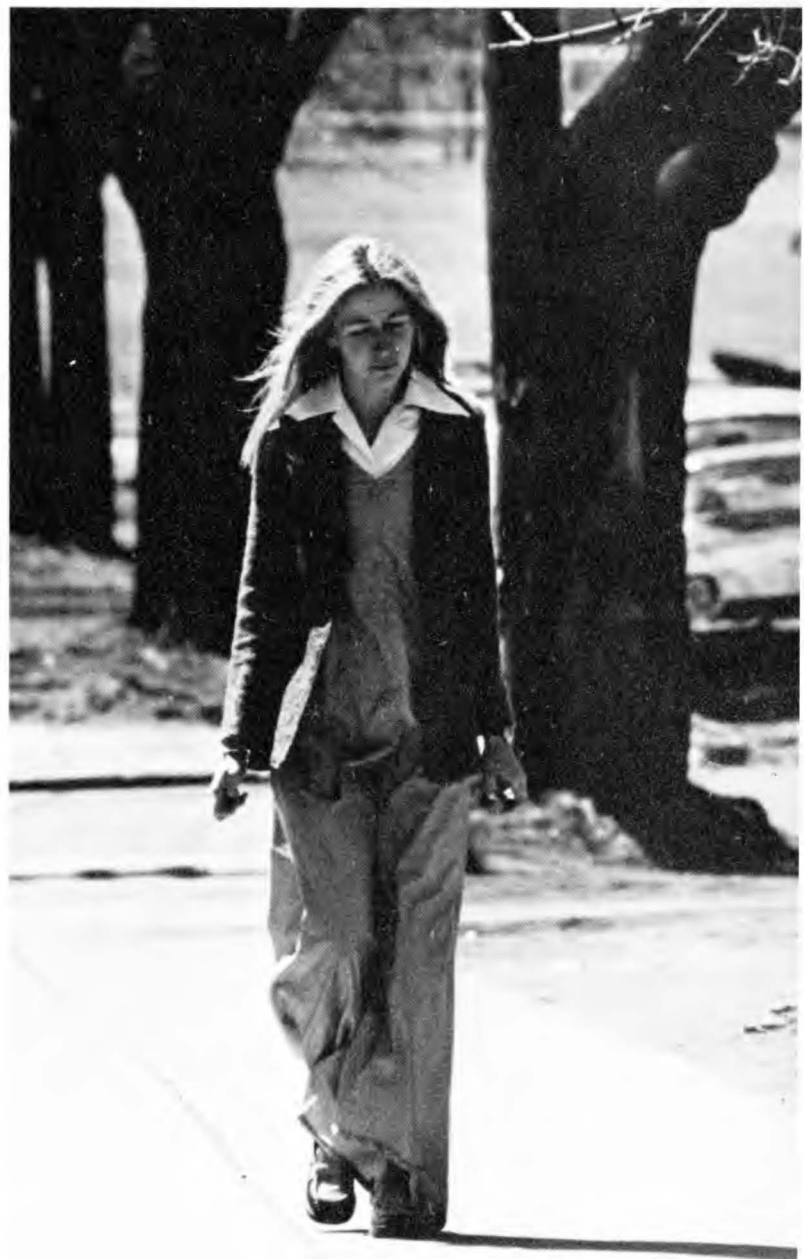

Wisdom is slow, and comes
But late. He who has it is patient;
He cannot be hasty to hate or speak,
He must be bold and yet not blind,
Nor ever too craven, complacent, or covetous,
Nor ready to gloat before he wins glory.

I would like to take this opportunity to thank the few Pharos staff members who were genuinely interested in producing this yearbook. Much credit is due to Bob Melanson, Dave Thornham, Geoff English and Fred Hiltz.

This was a difficult year for "getting the yearbook out". The general lack of enthusiasm seemed to be shared by everyone, especially me. As I write this letter, there is still no editor for next year's book, and the future of Pharos is in doubt.

I hope the majority of graduates appreciate this book as one of the only reminders of their time at Dalhousie. Any faults you might find are probably justified, and I hope next year's editor meets with much success.

Guess Who Didn't Transfer?

Someone in this picture (can you guess which one?) didn't have his account transferred to a more convenient bank location when he moved. Too bad he doesn't know how easy it is to arrange for account and even loan transfers.

And that the cost (no charge) is so moderate. If you see this person on campus, please give him the news.

Let's
talk.

**When you dial
your own
long distance calls,
you go first class**

at economy rates.

In fact, when you dial direct, you can make a call for a fraction of the cost of an operator-assisted call. How much you save depends on where you're calling and when you call.

To points within Nova Scotia or P.E.I. for example, a DDD call is about $\frac{1}{4}$ the cost of a person-to-person call. And that's during the daytime. After 6 p.m. and all day Sunday, there's another 30% saving and after 10 p.m., seven days a week, you save 50%. We call it "Moonlight Saving Time". And there are similar savings on calls to points outside Nova Scotia or P.E.I.

Whether it's business or personal, when you dial direct, you not only get through quicker and save money, your call is more spontaneous and friendly.

It's first class . . . in more ways than one.

***You save more when you dial direct
during "Moonlight Saving Time."***

Career Talk

You are now in the process of selecting a direction for your career.

In thinking about your future, consider the opportunities here in Nova Scotia. Think about what we can offer you. We have challenging and rewarding positions in engineering, administration, finance and all other areas that exist in a large corporation.

Talk with us about your career.
We'll listen.

nova scotia power corporation 

'the helpful bank'. It's more than a corporate slogan.

It's a daily challenge
to ourselves.

To help meet that challenge, we have on-going training programmes for our staff.

These programmes aren't simply Learn-It-Yourself books that are handed out when a new staff member joins the bank. They include a series of discussions, presentations and seminars in our branches and at our staff training centres throughout the country. Each staff member gets to know how the Royal operates. They also have the chance to suggest improvements.

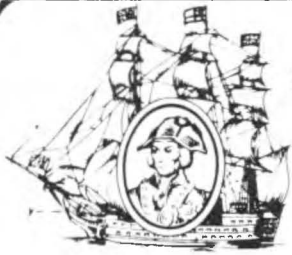

These programmes aren't just for new employees either. Each year, the staff members of every branch in Canada attend many meetings to learn more about new services and how to better serve our customers.

The benefits to you are obvious. You are able to talk to someone who knows what they're talking about, or can tell you exactly who you should talk to.

On-going staff training. A reason why the Royal Bank is known as 'the helpful bank'.

Chateau Halifax

a Canadian Pacific Hotel in Scotia Square

Part of our world of exciting things to do.

Canadian Pacific is more than a hotel chain, even though we're becoming quite famous locally for our modern new Chateau.

Canadian Pacific is transportation. Rail, Truck, ship and airline transportation. We're also telecommunications--

Telex and Broadband micro-wave transmissions. Resource development . . . mines, lumber and real estate is part

of the picture too. More important than anything else,

Canadian Pacific *is* Canadian, Canadian owned and Canadian controlled. And we're looking to a future with young

Canadians in our company. Like you!
